BRASHER<sup>2</sup>—was formed from Massena, April 21, 1825. A part of Lawrence was taken off in 1828. It lies on the w.border of the co., N. of the center. Its surface is generally level, with gentle undulations in the E. part. The principal streams are St. Regis and Deer Rivers and Trout Brook. The soil in the w. part is stony and in parts sandy; in the s. E. it is light and sandy; and in the n. it is a clay loam and very productive. Bog iron ore is obtained abundantly in the E. part, in the range where the sand rests upon the clay deposits. Brasher Falls3 (p. v.) is a manufacturing village upon the St. Regis, in the s. w. corner of the town, I mi. below the R. R. station. Pop. 257. Helena\* (p. v.) is situated at the mouth of Deer River, and has a limited amount of water-power. Pop. 100. Brasher Iron Works, (p.o.,) 2½ mi. above Helena, on Deer River, is the seat of an important furnace. Brasher Center is a hamlet on the St. Regis River. The first improvement in town (at Helena) was under the agency of Russell Atwater, in 1817. Stillman Fuller built the furnace at Brasher Iron Works in 1825.<sup>5</sup> The first settlement at Brasher Falls was made in 1826. In 1839 C. T. Hulburd purchased 600 acres, including the village site of Brasher Falls, and in 1841 made the first considerable improvement. On the 26th of May, 1857, a fire in the woods ravaged this town, and destroyed the furnace and nearly the whole village at the "Iron Works." The census reports 7 churches in town.

CANTON<sup>8</sup>—was formed from Lisbon, March 28, 1805. It occupies a nearly central position in the co. Its surface is level or gently undulating. Grass River, flowing through the center, and the Oswegatchie, flowing through the N. w. corner, are the principal streams.9 It is underlaid by white limestone and gneiss in the s., and by Potsdam sandstone in the central and N. parts. The soil is a deep, fertile, gravelly loam. Iron pyrites, from which copperas (sulphate of iron) has been manufactured, is found in abundance near High Falls, on Grass River. 10 Canton, 11 (p.v.,) the county seat, is pleasantly situated on Grass River, a little E. of the center of the town. It is an important station on the P. & W. R. R. It has a number of manufactures, 12 and is the seat of the Canton Academy, founded in 1831, and of the St. Lawrence University, 13 an institution founded under the auspices of the Universalist denomination in 1856. Pop. 1,029. Morley<sup>14</sup> (p.v.) is on Grass River, near the N. border of the town. Pop. 350. Rensselaer Falls 15 (p.v.) is a small village on the Oswegatchie, in the N. w. corner of the town. It was formerly the seat of an iron forge. Crarys Mills (p.o.) is a hamlet on the line of Potsdam. South Canton is in the E. part. Daniel Harrington settled on the site of the Agricultural Fair Grounds in Canton Village in 1800. The first permanent settler was Stillman Foote, who bought a mile square where the village now stands, and removed thither in 1801, accompanied by several men. In 1802 he built a mill, and the town began to be rapidly settled. Religious meetings were held as early as 1804. The first church (Presb.) was formed under the Rev. Amos Pettingill, in 1807.17

1 The leaders in this movement dared not risk their own lives | This canal was formerly 3 to 20 roos wide, and was navigable for in the lattle, and left the few, consisting mostly of young men and boys, to eugage the greatly superior numbers of the British. The battle was short and bloody. Of the 159 patriots taken prisoners, 18 were released without trial, 3 were acquitted, and 129 were sentenced to be hung. Of the last number, 10 were hung, 69 transported to Van Diemens Land, 56 pardoned, 2 sentenced to the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of

tenced to a 7 years' term in the penitentiary, and 2 died of their wounds.—Hough's Hist. St. Law. & Frank. Cos.

Named from Philip Brasher, of Brooklyn, part owner. It embraces the townships of "Grange" and "Crumack," or Nos. 17 and 18 of Great Tract No. II, Macomb's Purchase.

3 Mills. a fork and hoe factory, and an agricultural implement

factory, are located here.

4 Named from Helen, daughter of Joseph Pitcairn, of New York, former owner of a large part of the town.

5 In 1827 the furnace was purchased by Isaac W. Skinner and R. W. Bush. In 1830 the latter was succeeded by W. H. Alexander, and the business was continued by Alexander & Skinner until the village was destroyed by fire in 1857. The works are

until the village was destroyed by fire in 1857. The works are about being rebuilt.

<sup>6</sup> The fire desolated nearly the whole town, and for a time threatened Erasher Falls. The country around was also desolated by running fires in 1849.

<sup>7</sup> 2 Presh, and M. E. at Brasher Falls, Presb. at Helena, M. E. at "Muple Ridge," w. part of the town, R.C. near Brasher Falls, and F. W. Bap.

<sup>8</sup> It embraces No. 6 of the "Ten Towns." and is 10 mi sq.

small boats in high water. It flowed toward the w., and over-flowed an alluvial flat of 4500 acres. To reclaim this, both ends of the canal have been closed, and a drain dug along the Oswegatchie to below Rensselaer Falls.

10 Fruitless explorations for copper have here been made at

great expense.

Incorp. May 14, 1845.
 Consisting of lumber, shingles, sash, wagons, flour, and

13 An elegant brick building was erected here in 1857; and in 1858 a theological school was organized by E. Fisher. The col-

legiate department has not yet been organized.

14 Formerly "Long Rapids." Named Morley from a relative of the Harrison family. It contains several sawmills, a sash factory, and tannery.

15 A forge was erected here in 1839, by Tate, Chafee & Co., and the place named "Tuteville." It was more generally known as "Cunton Fulls" until the p. o. was established in 1851. The present name was derived from H. Van Rensselaer, who had out the village in 1840.

15 Daniel W. Church, the pioneer millwright of the co., erected the first will have for S. Foote, in 1801. The summer of that

the first mill here, for S. Foote, in 1801. The summer of that year was very sickly; and in May the father of S. Foote died of the smallpox and was buried in a bark coffin. Wm. Barker

t" Maple Ridge," w. part of the town, R.C. near Brasher Falls, and F. W. Bap.

I taught the first school, in 1804. The first birth was a daughter of L. Johnsou.

L. Johnsou.

A natural canal connects the channels of the two streams. (Grace C.,) Wes. Meth., Cong., F. W. Bap., and R. C.

The late Gov. Silas Wright settled in Canton Village as a lawyer in 1819, and continued to reside here until his death, Aug. 27, 1847.

COLTON<sup>1</sup>—was formed from Parishville, April 12, 1843. A small part was annexed from Parishville in 1851. It is a long, narrow town, lying s. E. of the center of the co. and extending to Hamilton co. on the s. Its surface is broken and hilly; and it is nearly all covered with forest. It is crossed by the Racket, Grasse, and Oswegatchie Rivers. In the central and s. parts are numerous small lakes, the principal of which is Cranberry Lake. The extreme n. part only is inhabited. The principal business is lumbering. Colton (p. v.) is an important lumber station upon Racket River, near the N. w. corner of the town. Several extensive gang sawmills were erected here in 1850-52; but the business has been partially suspended. An extensive tannery for the manufacture of sole-leather was built here in 1857.2 Pop. 379. South Colton is a p.o. at Three Falls. The first settlement was begun in 1824, at Colton Village.3 There are a M. E. and a Univ. church in town, both built in 1852, and a Bapt, church built in 1860.

DE KALB'—was formed from Oswegatchie, Feb. 21, 1806. A part of De Peyster was taken off in 1825, and a part of Hermon in 1830. It lies on the Oswegatchie, w. of the center of the Its surface consists of broken ridges of white limestone and gneiss with narrow valleys between them. The soil is excellent and is generally under a good state of cultivation. De Kalb<sup>5</sup> (p. v.) is situated on the Oswegatchie, near the center of the town. Pop. 120. Richville' (p. v.) is situated on the Oswegatchie, in the s. w. corner of the town. Pop. 250. East De Kalb is a p. o. and station on the P. & W. R. R. Coopers Falls is a hamlet. The first settlement was made in 1803, under Judge William Cooper, of Cooperstown, as agent. The first settlers were principally from Otsego co. . There are 5 churches in town.7

DE PEYSTER<sup>8</sup>—was formed from Oswegatchie and De Kalb, March 24, 1825. It lies on the s. E. shore of Black Lake, N. w. of the center of the co. Its surface is broken in the s. by the parallel primitive ridges, and is level in the N. The principal streams are the Oswegatchie, on the N. border, and Beaver Creek, on the s. Moon Lake lies in the s. part. The soil along the lake is very fertile, in the center of average fertility, and in the s. it is light and sandy. The "Old State Road," the first traveled route through this part of the co., extended through this town. De Peyster Corners (De Peyster p. o.) is a small village. Edenton is a p. o. The first settlement was made in the fall of 1802, by Sam'l Bristol and others.9 The census reports 2 churches; a M. E. and a Cong.

EDWARDS<sup>10</sup>—was formed from Fowler, April 7, 1827. A part of Hermon was taken off in 1830, and a part was annexed from Hermon in 1850. It lies on the Oswegatchie, s. w. of the center of the co. Its surface consists of ridges of the primitive formation and the narrow valleys between them. The soil is generally a light, sandy loam, and in the valleys is very productive; but the town is best adapted to grazing. A large number of minerals are found among the primitive rocks. 11 Edwards (p. v.) is situated on the Oswegatchie. Pop. 350. South Edwards12 (p. v.) contains a grist and saw mill and several mechanic shops. The first settlement commenced along the St. Lawrence Turnpike, in 1812.13 Several Scotch families came into town in 1817. There are 5 churches in town.14

FINE 15—was formed from Russell and Pierrepont, March 27, 1844. It lies in the extreme s.

<sup>1</sup> Named from Jesse Colton Higley, an early settler. It embraces the townships of "Sherwood," "Harewood," "Granshuck," and "Matikwale," or Nos. 1, 4, 7, and 10 of Great Tract No. II, Macomb's Purchase.

2 This establishment employs about 25 men.

3 Among the first settlers were Asahel Lyman, Abel Brown, Wm. Bullard, Horace Garfield, and Sam'l Partridge. Miss Young taught the first school, in 1826. The first death was that of a child of Jas. Brown, in 1829.

4 Named in honor of Baron De Kalb. It originally embraced.

<sup>4</sup> Named in honor of Baron De Kalb. It originally embraced No. 7 of the "Ten Towns."

No. 7 of the "Ten Towns."

5 Originally named "Williamstown."

6 About 30 families came in the first year. Salmon Rich, Jona. Haskins, and Sol. Pratt were among the first settlers of Richville, in 1804. The first child born was Jehiel Dimick; the first marriage, that of Elisha Cook and Lotta Willey; and the first death, that of George Cowdery. Bela Willis tanght the first school at De Kalb, and Jos. Kneeland at Richville. Wm. Cooper built the first hotel, in 1803, and the first mills, at Coopers Falls, In 1804. in 1804.

<sup>7</sup> Bap. and Cong. at Richville, Presb., M. E., and Union (M. E.

and Bap.) at East De Kalb.
Anned from Frederick De Peyster, of New York, former pro-

prietor. Mr. De P. gave the town \$300 to assist in building a union church and townhouse; and he also caused a bell to be cast, with an appropriate inscription for its use.

<sup>&</sup>lt;sup>9</sup> Among the first settlers were Thos. Wilson, Joseph Round, Sam'l Barnard, — Green, Ichabod Arnold, Robt. Hill. Fred. R. Sam'l Barnard, — Green, Ichabod Arnold, Robt. Hill. Fred. K. Plympton, David Day, Rufus Washburn, and Smith Stillwell. Bela Willis taught the first school and was the first local preacher.

10 Named from Edward McCormack, brother of the proprietor. It embraces most of No. 8 of Great Tract No. III.

11 Among these are iron ore, mica, Rensselaerite, serpentine, and tempraline.

and tourmaline.

and tourmaline.

12 Locally known as "Shawville," from Elijah Shaw, who opened the first store in 1825. Freemansbush, in the E. part, was the seat of a large furnace destroyed by fire.

13 Among the first settlers were Asa Brayton, Jos. M. Bonner, S. & E. Jones, and — Johnson. The first birth was that of John B. Brayton, in 1812; and the first death was that of — Partridge, accidentally killed in 1812. Orra Shead built the first gristmill, in 1814. In 1817 a large number of Scotch settlers came in town

<sup>14</sup> M. E., Univ., Cong., Bap., and Union.
14 M. E., Univ., Cong., Bap., and Union.
15 Named from John Fine, of Ogdensburgh, principal pro-

part of the co. Its surface is elevated and broken, and its soil is a moderately fertile, gravelly loam. It is drained by the Oswegatchie and its branches. It is principally a wilderness, the settlements being confined to the N. part. Iron ore is found in town. Fine is a p.o. in the N. There is no village in town. The first clearing was made in 1823, by Elias Teall.1

FOW LER<sup>2</sup>—was formed from Rossic and Russell, April 15, 1816. The townships of Edwards and Fitz William (now a part of Hermon) were annexed from Russell in 1818. Edwards was taken off in 1827, a part of Hermon in 1830, and Pitcairn in 1836. It lies upon the Oswegatchie, in the southwesterly part of the co. Its surface is much broken by ridges of gneiss. drained by the Oswegatchie and its branches. Silver Lake lies s. of the center of the town. The soil along the streams is a fertile loam, in the N. W. a clayey loam, and in the E. a light sand. Several valuable minerals are found in town.3 Hailesborough, on the Oswegatchic, and Little York (Fowler p. o.) are small villages. Fullerville (Fullerville Iron Works p. o.) is the seat of an extensive manufactory of iron.4 West Fowler is a p.o. The first settlements were made by Brig. Gen. Haile, at Hailesborough, in 1807,5 and by Sam'l B. Sprague, at Little York, in 1811. The town did not begin to be settled rapidly until after 1820. The census reports 4 churches iu town.6

GOUVERNEUR<sup>7</sup>—was formed from Oswegatchie, April 5, 1810. A part of Macomb was taken off in 1841. It lies in the w. part of the co. Its surface is generally level, but somewhat broken in the N. by low ridges of white limestone. It is drained by the Oswegatchie, which twice tlows across the town. The town abounds in interesting minerals.<sup>8</sup> The soil is sandy in a few places, but is chiefly clay and loam, and is highly productive. The Kearney Iron Mine, in the s. corner, has furnished an immense quantity of ore. Gouverneur (p. v.) was incorp. Dec. 7, 1847. Pop. 785. It is the seat of a flourishing academy, and has a considerable local trade and the only p.o. in town. Riverside Cemetery is beautifully located on the opposite bank of the Oswegatchie, E. of the village. It was consecrated June 23, 1858. It is a station upon the P. & W. R. R. The first settlement was made in the summer of 1805, by Dr. Richard Townsend, agent of Gouverneur Morris, the proprietor. <sup>10</sup> The first church (Bap.) was formed in 1810. <sup>11</sup>

**HAMMOND**<sup>12</sup>—was formed from Rossie and Morristown, March 30, 1827. A part was annexed to Macomb in 1842, and a part to Rossie in 1844. It lies upon the St. Lawrence, in the extreme w. part of the co., and includes a portion of The Thousand Islands. The surface is generally level, but broken upon its N. and S. borders by low primary ridges. A level terrace of sandstone, forming a continuous and regular mural wall, extends from the n. shore of Black Lake through the center of the town into Jefferson co. Black Brook flows through a stagnant swamp, which borders upon this sandstone terrace. Its soil is generally a deep, fertile loam. Hammond, (p.v.,) on the Rossie Plank Road; South Hammond, on the "Old Military Road;" and Oak Point, 13 (p.v.,) a landing on the St. Lawrence, are small villages. Chippewa is a hamlet on a bay of the same name. Slight improvements began here in 1812; but settlements did not increase until 1818-21, when a number of Scotch families located just w. of the present site of Hammond Village.14 There are 4 churches in town.15

<sup>2</sup> Named from Theodocius Fowler, of New York, former pro-prietor. It embraces "Killarney," or No. 7 of Great Tract No. III, Macomb's Purchase.

<sup>3</sup> Iron ore, white marble, sulphates of lead, copper, and zinc, asbestus, Rensselaerite, mica, and chalcedony.

\* This village contains a furnace, 2 forges, and several mills.

5 Gen. Il. purchased a mile square, with an agreement to build a mill within a year. Among the other carly settlers were Elijah Sackett. Lemuel Arnold, John Ryan, and Ebenezer Parker. The first birth was a child of — Merrills; the first marriage, that of John Parker and Elizabeth S. Sackett, in 1812.

9 Univ. Bap., F. W. Bap., and M. E.

7 Named from Gonverneur Morris, the proprietor of most of the town. It originally embraced the township of "Combray," or No. 8 of the "The Thoms."

8 Among the useful minerals are red specular iron ore, marble, limpid calcite, sulphate of barytes, serpentine, Rensselaerite, mica, tourmaline, and fluorspar and among those interesting to men of science are spinelle. scapolite, tremalite, schorl, sphene, chondrodite, opatite, Babingtonite, and Houghite.

9 The "Gonverneur High School" was opened in 1826, and incorp.

April 25, 1828. A new edifice was erected in 1834; and in 1837. 4 This village contains a furnace, 2 forges, and several mills.

April 25, 1828. A new edifice was erected in 1834; and in 1837

prietor. It embraces "Scriba," "Bloomfield," "Emilyville," and | it was received under the patronage of the M. E. Black River the south half of "Strahsburgh," or Nos. 12, 14, 15, and 9 of Great Tract No. III, Macomb's Purchase.

1 Jas. C. Haile built a rude mill in 1828. The settlement was soon after abandoned, but renewed in Feb. 1834, by Amasa J.

ing institution.

10 The first party of settlers came through the wilderness from the head of Lake George, guided by a compass. They were seven days on the journey. Among the settlers in 1806 were Pardon Babcock, Willard Smith, Eleazar Nichols, and Isaac Austin, who all occupied a small shanty in common. In 1810 there were 50 families in town. A blockhouse was built in 1812, near where the store of Harvey D. Smith now stands. Miss E. S. Sackett taught the first school, in the first shanty; Israel Porter kept the first inn, and John Brown the first store, in 1808. The first religious services were held in 1806, by missionaries. The first child horn was Allen Smith; the first marriage, that of Medad Colo and Miss Patterson; and the first death, that of Emily Porter. 11 There are 5 churches in town; 2 Cong., Univ., Bap., and M. E.,

the last hold their meetings in the chapel of the academy.

12 Named from Abijah Hammond, of New York, proprietor. It embraces the greater part of No. 1 of Great Tract No. 111, Ma-

comb's Purchase 18 Cross-over-Island Lighthouse was built just above this place

in 1847. 14 The first of these were John and David Gregor. John Baird, John and James Hill, and Peter Allen. James Scott taught the first school, in INIS-19. 16 Presb., M. E., F. W. Bap., and Prot R

HERMON'-was formed from Edwards and De Kalb, April 17, 1830, and named "Depau." The name was changed Feb. 28, 1834, and a part was annexed to Edwards in 1850. It lies in the primitive region, s. w. of the center of the co. The surface is generally rolling, but broken and hilly in the s. part. Elm and Carter Creeks are the principal streams. Trout and Clear Lakes lie near the s. border, and Gardners Pond near the center of the town. The soil is generally a sandy loam interspersed with tracts of sand, and is best adapted to grazing. Hermon (p. v.) is situated on Elm Creek, in the N. E. corner of the town. Pop. 346. Marshville is a hamlet, 1 mi. s. of Hermon. The first settlement was made by Jas. Taylor, and a few others who came soon after him, previous to 1812.2 The town did not begin to be settled rapidly until 1822-25. Rev Mr. Wright was the first preacher.3

**HOPKINTON**<sup>4</sup>—was formed from Massena, March 2, 1805. Russell was taken off in 1807, Parishville in 1818, and a part of Lawrence in 1828. It lies along the E. border of the co., and is the second largest town in the State. Its surface is level in the N., but broken and hilly in the s. It is crossed by the St. Regis and Racket Rivers; and in the central and s. parts are several extensive lakes, the principal of which is Tuppers Lake, on the line of Franklin co. The whole town is a wilderness, except the extreme N. part and a small tract upon Tuppers Lake. The soil is a fertile loam in the N. part. Hopkinton (p. v.) contains about 20 houses. Nicholville is a small village on the line of Lawrence and mostly in the latter town. Fort Jackson, in the N. part, on the St. Regis, is a hamlet of a dozen houses. The first settlement in town was made by Roswell Hopkins, in 1802.5 In 1814 a party of British, consisting of 30 men, under Maj. P. W. De Haven, visited this town and captured a large amount of flour belonging to the U.S., which was here stored in a barn.6 In the spring of 1858 a company consisting of 13 families located in the vicinity of Tuppers Lake, with the design of forming an agricultural settlement.7 The township of Mortlake, or No. 3 of Tract II, has been called "Atherton," but it has yet no legal organization. There are 4 religious societies in town.8

LAWRENCE<sup>9</sup>—was formed from Hopkinton and Brasher, April 21, 1828. It lies on the E. border of the co., N. of the center. The surface is very level, and the soil is a fertile, sandy loam underlaid by Potsdam sandstone. It is drained by St. Regis and Deer Rivers. Lawrenceville (p. v.) and North Lawrence (p. v.) are villages upon Deer River, each with a pop. of about 220. The latter is a station on the Northern R. R. Nicholville, 10 (p. v.,) on the line of Hopkinton, contains about 200 inhabitants. The first settlement began in 1806.11 Since the completion of the R. R. this town has rapidly increased in population. The Quakers held the first meeting in 1808. There are 7 churches in town. 12

LISBON—was formed March 6, 1801.13 Madrid and Oswegatchie were taken off in 1802, and Canton in 1805. It lies upon the St. Lawrence, N. W. of the center of the co. Its surface is level or gently undulating. It is drained by Great and Little Sucker Brooks, and several smaller streams. Its soil is a light but fertile loam underlaid by calciferous sandstone. The town includes Gallop14 Island in the river. Lisbon Center (p.o.) is a station on the Ogdensburgh R. R., and contains about a dozen houses. Flackville15 (p.o.) is a hamlet, on the Ogdensburgh & Canton Road. Red Mills<sup>16</sup> (Lisbon p. o.) is a hamlet, on the river, opposite Gallop Island. This town was the first one organized in the co. The first settlement was made by Wm. O'Neal, in 1799. Alex. J. Turner came in as agent in Feb. 1800.17 He was from Salem, N. Y., and induced many families

townships.

2 Among the early settlers were Geo. Davis, Philemon Stuart, Jas. Farr, Ariel Inman, and Rufus Hopkins. William D. Moore buught the first school, in 1817. The first death was that of

Thos. Farr.

There are 3 churches in town; M. E., Bap., and Christian.

Named from Roswell Hopkins, the first settler. It embraces the townships of "Oakham," "Mortlake," "Janestown," "Pierrefield," "Hollywood," "Kildare," "Riversdale," and "Islington," \*\*Named from Roswell Hopkins, the first settler. It embraces the townships of "Oakham," "Mortlake," "Janestown," "Pierre or Nos. 2, 3, 5, 6, 8, 9, 12, and 15 of Great Tract No. II, Macomb's Purchase.

\*\*Mr. Hopkins bought a part of Islington. Among the early settlers were Joel and Samuel Goodale, R. W. Hopkins, Jared Dewey, and Eliphalet Brush. The first birth was in the family of —Sheldon; and the first death, that of an infant, in 1807. Judge Hopkins built the first death, that of an infant, in 1807. Judge Hopkins built the first gristmill, in 1809.

\*\*There is ogod reason to believe that on this and other occasions the British received information from a prominent citizen of Franklin co.

\*\*This township was purchased Oct. 23, 1853, by a company conjisting of Chas. G. Atkerton, John H. Gage, and Dan'l H. Dear-like the statement of the statement of the proprietors. Stewart, Matthew Perkins, Wesson in the British received information from a prominent citizen of Franklin co.

<sup>1</sup> Named from Scripture. It embraces "Fitz William," or No. | born, of Nashua, N. H., Elbridge G. Read and Wm. D. Beason, 4 of Great Tract No. III, Macomb's Purchase, and parts of other townships.

a Cong.. Bap., M. E., and F. W. Bap.
Sone of New York, proprietor. It embraces "Chesterfield," or No. 16 of Great Tract No. II, Macomb's Purchase.

<sup>10</sup> Named from E. S. Nichols, an agent of the proprietors.

to remove from Washington co. A fatal epidemic prevailed in town in 1813. In the fall of 1813 a small party of dragoons stopping at the village were surprised by the Canadians; one was shot, another wounded, and two or three were taken prisoners to Canada. There are 6 churches in town.

LOUISVILLE2—was formed from Massena, April 5, 1810. A part of Norfolk was taken off in 1823, and a part of the same town was annexed in 1844. It lies upon the St. Lawrence, in the N. E. part of the co. The surface is level. Grass River, the principal stream, flowing centrally through the town, affords a water-power at the village. The soil is a fertile, sandy loam, underlaid by calciferous sandstone. Louisville, (p.o.,) on Grass River, and Louisville Landing, (p. o., ) on the St. Lawrence, are hamlets. Chases Mills (p. o.) is a new settlement on Grasse River, on the line of Waddington. The water-power at Louisville has been somewhat improved; and L. Landing is a landing for the American line of steamers. The first settlement was made by Nahum Wilson and Aaron Allen, in 1800.4 The growth of the town was checked by the war; but it soon revived. There are 2 churches in town; M. E. and Union.

MACOMB<sup>5</sup>—was formed from Gouverneur and Morristown, April 3, 1841. A small tract was annexed from Hammond in 1842. It lies upon the s. shore of Black Lake, in the w. part of the co. Its surface is broken by ridges of gneiss and white limestone parallel to the lake. Fish and Birch Creeks are the principal streams. Pleasant and Yellow or Hickeys Lakes are fine sheets of water, with rocky shores, in the central part of the town. The soil is a light, sandy loam. The ridges are often without vegetation, but the valleys are fertile. Several valuable minerals are found in town.6 Macomb, (p.o.,) on the "Old State Road," and Popes Mills, (p.o.,) on Fish Creek, are hamlets. The first settlements were made upon the "Old State Road," about 1805-06.7 Timothy Pope made the first improvement at Popes Mills, in 1816. There is 1 church (M. E.) in town.

MADRID8—was formed from Lisbon, March 3, 1802, and Potsdam was taken off in 1806, and Waddington in 1859. It lies upon the St. Lawrence, E. of the center of the co. The surface is level or gently undulating. It is watered by Grasse River, and Brandy and Trout Brooks. Upon the Grasse River are rapids, from which is derived an immense amount of water-power. The soil is a light, sandy loam, generally fertile. Columbia Village (Madrid p.o.) is situated at the falls of Grasse River, 1 mi. from the R. R. station. It is a place of considerable business. Pop. 300. The first settlement was made along the St. Lawrence, in 1798, under Joseph Edsall, agent of the proprietors.9 In Jan., 1814, a party of Canadian militia, under Capt. Sherwood, crossed the St. Lawrence at Point Iroquois and marched to Columbia Village, pressed teams, and carried off a quantity of merchandise which had been captured upon bateaux in the preceding Oct. There are 4 churches in town. 10

MASSENA<sup>13</sup>—was formed March 3, 1802. Hopkinton was taken off in 1805, Stockholm in 1806, Louisville in 1810, and Brasher in 1825. It lies upon the St. Lawrence, in the N.E. corner of the co. The surface is generally level or gently undulating. The principal streams are the Grass14 and Racket Rivers, which flow through the town in parallel channels 1 to 2 mi. apart. Its soil is a productive, gravelly and sandy loam. Massena (p. v.) is situated upon Grass River, at the lower falls. It has a limited amount of manufactures. Pop. 310. Massena Springs<sup>15</sup>

Briggs, and Hez. Pierce. The first birth was in the family of J. Tibbets, in 1800. Rev. Alex. Proudfit held the first meetings. Dr. Jos. W. Smith, the first physician in the co., settled here in 1803 and remained two years.

1 Cong., Asso. Ref. Presb., M. E., Wes. Meth., Ref. Presb., and Prot. E. (St. Luke's.)

2 It comprises the greater part of No. 1 of the "Ten Towns."
3 Locally known as "Millersville," from Rev. Levi Miller, of
Turin.who came here as agent of McVickar, the proprietor, in 1823.
4 Among the early settlers were John Wilson, Lyman Bostwick, Elisha W. Barber, and Griffin Place. The first child born was a son of Nahum Wilson; and the first death, that of Philo Barber. Elisha Barber taught the first school, and N. Wilson the first inn. kept the first inn.

5 Named from Alex. Macomb, the great land speculator.

6 Among these are lead, mica, copper pyrites, and blende Stock companies have been engaged quite extensively in lead mining at Mineral Point, on Black Lake, and elsewhere.

7 Among the first settlers were Sam'l Bristol, Rufus Washburn, Sam'l and E. Wilson, and Sam'l Peck.

8 The towns of Madrid and Waddington embrace number 4 of the "Ten Towns," and are together 10 miles square.
9 Among the first settlers were Seth Roberts, —— Linds!ey,

9 Among the first settlers were Seth Roberts, — Lindsley, David Niles, Jesse Goss, William and J. Meach, Nelson and Samuel Gray, John II., A. L., and Zina B. Hawley. Seth Roberts built the first mills, at Columbia Village, in 1803. J. H. Hawley kept the first inn, and David Niles the first store. — Alernerthy was the first Justice. David Ilaskell, and his sons Israel P., David L., Daniel C., and Samuel C., came in in 1806.

10 Cong., M. E., Univ., Bap.
11 Named from Marshal Massena, of the French army.
12 This stream near its mouth is liable to a sudden reversal of its current by the damming up of the St. Lawrence by ice in severe cold weather. These back currents have been felt at Massena Village; and no bridges have been made to stand below the lower mills. The water has been known to rise 15 ft. in as many minutes, and to attain a maximum height of 25 ft. The

nany minutes, and to attain a maximum height of 25 ft. In as many minutes, and to attain a maximum height of 25 ft. The lower dam is built to resist the current both ways. 13 These springs are saline and sulpharous. Capt. John Polly built the first public house here, in 1822. A spacious brick hotel was erected in 1848 to accommodate those who resort here.

lies upon the Racket, about one mi. distant from Massena. Pop. 120. It is a favorite summer Massena Center (p. v.) contains about 25 houses, and Racket River (p. v.) about 20. By the treaty of 1796, a mile square at the mouth of Grass River was reserved by the St. Regis Indians; and most of the other lands in the town were located on Revolutionary land warrants before the sale of the rest of the co. Before the treaty the Indians issued unauthorized leases to different parties; and hence arose much annoyance from conflicting claims. The first improvements were made on Grass River, on land leased of the Indians, in 1792. The first settlements on Revolutionary grants were made in 1798, by Amos Lay and others.<sup>2</sup> In 1812 the U.S. Government erected barracks here, which were occupied 3 months by militia. In Sept. 1813, a party of Canadians burned the barracks and carried away several prisoners. There are 6 churches in town.3

MORRISTOWN4—was formed from Oswegatchie, March 27, 1821. A part of Hammond was taken off in 1827, and a part of Macomb in 1841. It lies between the lower end of Black Lake and the St. Lawrence. Its surface is gently undulating, rising from either side toward the center. Chipnews Creek, flowing though the center, is the principal stream. The soil is a gravelly loam and generally fertile. Morristown (p.v.) is situated upon the St. Lawrence. Pop. 254. Edwardsville<sup>5</sup> (p. o.) is a small village on Black Lake, at which point a ferry has been established. Brier Hill (p.o.) is a hamlet. David Ford—as agent of Gouverneur Morris, the proprietor—made the first settlement on the site of the village, in 1799.6 John K. Thurbur and Henry Ellenwood made the first improvement in the vicinity of Edwardsville, in 1810. In 1817-18 several English families located at a place still known as the "English Settlement." There are 7 churches in town.

NORFOLK—was formed from Louisville, April 9, 1823. A part of Stockholm was annexed in April, 1834. A part was annexed to Louisville in 1844. Its surface is moderately uneven. Racket River, the principal stream, flows diagonally through near the center of the town, and affords a large amount of water-power, partially improved.<sup>8</sup> The soil is generally fertile, resting upon drift deposits of gravel and marine clay, and all underlaid by calciferous sundstone. The E. part is sandy; and a swamp lies between the Racket and Grasse Rivers. Norfolk (p. v.) is situated upon Racket River. Pop. about 200. It has manufactories of lumber, shingles, and articles of wood. Raymondville9 (p.o.) is a small village on the Racket, below Norfolk. The first settlement was made by Erastus Hall, in 1809, at Raymondville. The Racket was formerly navigated, to some extent, as far as this place. There are 4 churches in town.<sup>11</sup>

OSWEGATCHIE<sup>12</sup>—was formed from Lisbon, March 3, 1802. De Kalb was taken off in 1806, Gouverneur in 1810, Morristown in 1821, and a part of De Peyster in 1825. The surface is level or gently undulating. Oswegatchie River, the principal stream, affords water-power at Heuvelton and at Ogdensburgh, which is available most of the year. The soil is a fine quality of gravelly loam, and is under a good state of cultivation. Ogdensburgh, 13 (p. v.,) situated upon the St. Lawrence, is one of the largest and most important villages in Northern New York. It is the w. terminus of the Ogdensburgh R. R., and stands at the foot of sloop navigation upon the great lakes and St. Lawrence River, giving to it important commercial advantages. A limited amount of manufacturing is also carried on, chiefly on the w. side of the Oswegatchie. It contains the depôts and buildings of the Ogdensburgh R. R., -among the finest in the co., -an academy, 14 a townhall, 15 U. S. customhouse, 16 and an armory, 17 Pop. Jan. 1858, 7,308. Heuvel-

1 Most of the valuable timber was stolen before settlement. <sup>2</sup> Among the first settlers were Maniri Victory, Calvin Plumley, Bliss Hoisington, Elijah Bailey, David Lyttle, Seth Read, and Leonard Herrick. Gilbert Read taught the first school, in

1803. Amabel Foucher was a lesse of the first mill, under the Indians.

\$2 Cong., Bap., M. E., and R. C.

\$ Named from Gouverneur Morris, principal proprietor. It originally embraced the township of "Hague," or No. 9 of the

"Ten Towns."

b Locally known as the "Narrows." Named from Jonathan S. Edwards, the first postmaster. On early maps it was marked "Marysburgh."

\*\*Marysourgh.\*\*
6 Arnold Smith and Thomas Hill were first settlers on the river, and H. Harrison, Ephrain Story, and Benj. Tubbs on the lake. Smith kept the first inn, and Ford built the first house.

7 2 M. E., Presb., Cong., Prot. E., Evang. Luth., and Union.
8 There is a dam I mi. from the R. R. station, near the s. w. corner of the town, another at Norfolk, and another at Ray-

mondville.

Named from Benj. Raymond, the first agent for this town and Potsdam. First named "Racketon."

Potsdam. First named "Rocketon."

10 Among the early settlers, who came in about 1810, were Eben
Judson, Martin Barney, J. W. Osborn. C. G. Stowe, and Milo
Brewer. The first death was that of E. Judson, in 1813. The
first clearing at Norfolk Village was made for Le Ray, in 1811;
and the first settlement was begun by Russell Atwater, in 1816.

A furnace was built at the village in 1825, and supplied with

bog ore. It was burned in 1844.

11 M. E., Prot. E., and Presb., at Norfolk, and Presb at Raymondville.

12 Pronounced Os-we-gotch'ee; named from the river. It embraces most of No. 8 of the "Ten Towns."

braces most of No. 8 of the "Ten Towns."

18 Named from Sam'l Ogden, the first proprietor. Incorp. in 1817. The unsold lands in and about the village were bought by David Parish in 1808, the owner of large tracts in the co. He built an extensive warehouse and several vessels, and laid plans for a large business, which the war prevented him from realizing. 14 This academy now forms an incorporate part of the public educational system of the village. The schools are all graded, and the pupils are advanced, according to attainment, from the primary schools to the complete academic course. The academy receives the income from the ferry at this place. In 1857 there were 7 schoolhouses and 18 teachors. The average number of pupils on the rolls was 1328, and average daily attendance 755. 18 by special act of 1858 a town hall was erected at an expense of \$10,000, on the corner of Washington and Franklin Sts.

18 The cornerstone of the old French Mission house is placed over one of its entrances.

over one of its entrances.

17 An appropriation of \$110,000 was made in 1857 for a custom house, p. o., and U. S. courtroom. It is to be erected on the site of the old courthouse, corner of State and Knox Sts. ton' (p. v.) lies upon the Oswegatchie, 7 mi. above Ogdensburgh. It has a limited amount of manufactures. Pop. 300. Black Lake is a p. o., in the s. w. part of the town. The early history of the town has already been noticed.2 The first improvement, after Ogdensburgh was abandoned by the British, was made in 1796, by Nathan Ford, and it soon became a place of commercial importance. The war checked the prosperity of the place, and after the return of peace business revived slowly. The opening of the Welland Canal and completion of the Ogdensburgh R. R. greatly increased the trade and added to the population of Ogdensburgh. The completion of the Grand Trunk Railway through Canada has in some measure checked its growth, by diverting business into other channels. The first religious meetings were held while it was a French, and afterward a British, post. The census reports 11 churches.5

PARISHVILLE6—was formed from Hopkinton, April 15, 1818. Colton was taken off in 1843, and another part of Parishville annexed to it in 1851. It lies upon St. Regis River, s. E. of the center of the co. Its surface is level in the N. and considerably broken in the s. The soil is a deep loani in the N., but in the s. is light and sandy. A large portion of the town is yet a wilderness. Parishville (p.v.) is situated upon the w. branch of St. Regis River. Pop. 236. It has a limited amount of manufactures. Parishville Center, in the N. part, is a hamlet. Daniel Hoard settled in 1810, as agent for the proprietors.8 During the war the settlement was greatly increased by immigrants from the frontier towns. The census reports 4 churches.9

PIERREPONT<sup>10</sup>—was formed from Russell, April 15, 1818. A part of Fine was taken off in 1844. It occupies a long, narrow strip s. of the center of the co. The surface is quite broken. The three branches of Grass River, E. branch of the Oswegatchie, and Racket River are the principal streams. The soil in the N. is well adapted to grazing, and that in the s. is light and sandy. Settlements are confined to the N. part. Magnetic iron ore and other valuable minerals are found in large quantities. Pierrepont (p. o.) is a small village upon the hills, near the center of No. 3. East Pierrepont11 (p. v.) is situated on Racket River. Pop. about 100. Flavius Curtis settled upon the line of Canton in 1806-07. The principal settlement commenced upon the completion of the St. Lawrence Turnpike, in 1811-12.12 There are 2 churches; M. E. and F. W. Bap.

PHTCAIR N<sup>13</sup>—was formed from Fowler, March 29, 1836. It lies on the s. border of the co., w. of the center. Its surface is much broken by ridges, separated by swamps, lakes, and fertile intervales. The soil is light and sandy, with a few alluvial flats along the streams. Iron ore, marble, and lead are found in town. The Jay Iron Ore Bed has been worked; and unprofitable attempts have been made to work some lead mines. The town is thinly settled. Pitcairn and East Pitcairn are p. offices. Settlement was begun in 1824 by immigrants from Potsdam.<sup>14</sup> There is no church in town.

POTSDAM<sup>15</sup>—was formed from Madrid, Feb. 21, 1806. It lies on Racket River, N. E. of the center of the co. Its surface is rolling; and its soil is a deep, rich loam. The streams are Racket River, affording a large amount of water-power, and Grass River, with a limited amount. Lumber and articles of wood are largely manufactured. There are extensive quarries of sandstone above the village.16 This is the leading agricultural town in the co., and every part is under improvement. Potsdam<sup>17</sup> (p. v.) is located upon Racket River, E. of the center of the town. The river is here divided by islands and broken by rapids, and furnishes an extensive water-power. Pop. in 1st and 4th election districts, 2,123. It has a considerable amount of manufactures and

<sup>1</sup> Named from Jacob Van Heuvel, who invested a large sum in a ruinous attempt to establish business here.

<sup>&</sup>lt;sup>2</sup> See p. 574. 3 Among the first settlers were Ezra Fitz Randolph, Thomas Lee, John Lyon, John King, Louis Hasbrouck, Stephen Sloossen, and Powell Davis. The first school was taught by Richard Hubbard, in 1809.

<sup>4</sup> A marine railway, constructed here in 1853, has been of great

service to the interests of navigation.

5 3 M. E., 2 Presb., Univ., Unitarian, Bap., Cong., Prot. E., and

<sup>5 3</sup> M. E., 2 Presb, Univ., Univarian, 227, 228, 238.

R. C.

6 Named from David and Geo. Parish, proprietors of No. I3. It embraces the most of "Catharineville" and "Wick," or Nos. 14 and 11 of Great Tract No. II of Macomb's Purchase.

7 The river here descends 125 ft. within a mi., furnishing an abundance of water-power.

8 Among the early settlers were Luke Brown, Isaac Tower, H. Shattuck, and Levi Sawyer, who came in about 1811. During this and the succeeding year the proprietors caused a road to be opened to Carthage, and mills, a distillery, hotel, and forge to be built. The first birth was in the family of Luke Brown, In 1812. Harriet Bronson taught the first school, in the barn of Mr. Hoard. Harriet Bronson taught the first school, in the barn of Mr. Hoard.

<sup>9</sup> Cong., M. E., Wes. Meth., and Bap.

<sup>&</sup>lt;sup>10</sup> Named from Hezekiah B. Pierrepont, of Brooklyn, paprietor. It embraces the townships of "Chaumont," "Ciflon," "Cure," and a part of "De Witt," or Nos. 13, 10, 6, and 3 of Great Tract No. III of Macomb's Purchase.
Il Sometimes called "Coxes Mills," from Gardner Coxe, who settled here and huilt mills in 1817–22. It has a large gangerent of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control 10 Named from Hezekiah B. section here and mint mins in 1811-22. It has a large gain sawnill and a starch factory.

12 Among the early settlers were David Denton, Pet. R. Leonard, Jos. Matthews, and Ebenezer Tupper.

13 Named from Joseph Pitcairn, proprietor. It embraces the township of "Portaferry," or No. II of Great Tract No. III, Ma comb's Purchases. comb's Purchase.

M Among the early settlers were Nath'l Dickinson and sons. Levi Gleason, Nathan C. Scovil, and James Streeter. Caroline Dickinson taught the first school. The first birth was in the family of N. C. Scovil; the first marriage, that of Anson Bing-

family of N. C. Scovu; the hose ham and Caroline Dickinson.

15 It embraces No. 3 of the "Ten Thoms."
16 From these quarries the city of Hamilton, C. W., is supplied with flagging. The stone also is an excellent building material of the stone of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion of the companion o

is the seat of an academy.1 It also contains a bank and a printing office. Racketville (North Potsdam p. o.) lies on Racket River, in the N. corner of the town. Pop. about 150. It has an extensive water-power, and is the Potsdam Junction station on the Ogdensburgh R. R. Bucks Bridge is a hamlet upon Grass River, in the w. part of the town. West Potsdam (p.o.) is a small village in the midst of an agricultural region. The first settlement commenced in 1803, under Benj. Raymond, agent for the proprietor, and the town rapidly filled up by immigrants from Vt.3 In Nov. 1804, Wm. Bullard took up 2,427 acres of land, and formed an association, styled "The Union," holding the land in common. The association broke up in 2 or 3 years. There are 10 churches in town.5

ROSSIE<sup>6</sup>—was formed from Russell, Jan. 27, 1813. A part of Fowler was taken off in 1816, and a part of Hammond in 1827. A part of Hammond was annexed in 1844. It lies on the s.w. border of the co. Its surface is level in the E., and broken by ledges of gneiss, limestone, and sandstone in the remaining parts. It is drained by Oswegatchie and Indian Rivers. Its soil is like that of the adjoining towns. Between the gneiss and limestone, near Indian River, are extensive and valuable mines of lead and iron,7 and a great variety of valuable minerals.8 Rossie (p. v.) is situated on Indian River, at the head of the Black Lake navigation. Pop. 214. It owes its importance to its iron manufacture, commenced here in 1813. Churchs Mills,9 (Wegatchie p. o.,) situated on the Oswegatchie, is the seat of a furnace. Pop. about 170. Somerville (p. v.) contains 20 houses. Shingle Creek is a p. o., in the s.E. corner. The first settlement was made in 1807.10 A number of Scotch families came in about 1810. A blockhouse was built near Somerville in 1812. There are 2 churches in town; Univ. and M.E.

RUSSELL<sup>11</sup>—was formed from Hopkinton, March 27, 1807. Rossie was taken off in 1813, a part of Fowler in 1816, Pierrepont in 1818, and a part of Fine in 1844. It lies upon Grass River, s. of the center of the co. Its surface is much broken, and its s. part is still a wilderness. Its soil is light and sandy, but fertile in the valleys. Russell (p. o.) is a small village, upon Grass River, in the central part of the town; North Russell is a p.o. The first settlement was made in 1804, under the agency of R. Atwater. A State arsenal was built in the village in 1809; 13 and the St. Lawrence Turnpike was opened the same year. The principal growth of the village was received in 1811 and 1812. A forge was built in 1846, and supplied with bog and magnetic ores. There are 2 churches in town; Bap. and M. E.: the Presb. and Prot. E. each have societies formed.

STOCKHOLM<sup>14</sup>—was formed from Massena, Feb. 21, 1806. A part of Norfolk was taken off in 1834. It lies in the northeasterly part of the co. Its surface is rolling. Its soil is a light, sandy loam, generally productive. It is watered by the two branches of St. Regis River. It is strictly an agricultural town, and one of the most wealthy in the co. Stockholm Depot (p. o.) is a small village upon the R. R., in the E. part of the town. East Stockholm (Stockholm p. o.) and Sanfordville are hamlets of a dozen houses each. West Stockholm (p. o.) is a small manufacturing village upon St. Regis River. Knapps Station (North Stockholm p. o.) is a R. R. station on the N. W. border of the town; and Southville is a p. o. Skinnerville is a hamlet on the w. branch of the St. Regis. The first settlement was begun in 1802, by Ebenezer Hulburd and Dr. Luman Pettibone, agents.<sup>15</sup> The census reports 5 churches.<sup>16</sup>

1 The St. Lawrence Academy was commenced, through the exertions of Benj. Raymond, in 1812. It has long maintained a high reputation among the schools of Northern New York.

2 Named from 1saac Buck, who settled here in 1807.

3 Among the early settlers were Wm. and Gurdon Smith, Benj. Stewart, John Delance, David French, Chester Dewey, Joseph Bailey, Bester Pierce, Roswell Parkhurst, Wm. Bullard, Reuben Field, and Abner Roye. The first birth was a daughter of Wm. Smith; and the first death, that of Jas. Chadwick. Mills were built by Raymond.

Smith; and the first death, that of Jas. Chadwick. Mills were built by Raymond.

4 The members were not professedly united in religious or political views. Spafford, in his Gazetteer, erroneously calls them "Moravians." — Hough's Hist. St. L. and Frank. Cos., p. 435.

6 3 M. E., Presb., Univ., Prot. E., (Trinity.) Bap., Ref. Presh., R. C., and Catholic Apostolic.

6 Pronounced Ros-seé. Named from a sister of David Parish, the proprietor. It embrances "Somerville," or No. 2 of Great Tract No. III. Macomb's Purchase.

7 The first lead mining operations in this town were unskillfully performed and attended with ruinous results, which led to their abandonment. After 20 years' suspension, the mines were reopened by an English company, (The Rossie & Canada Lead Company.) formed under special act, and working upon a lease of 20 pany,) formed under special act, and working upon a lease of 20 years from June I, 1856; and they are said to have been successful. The Caledonian and Keene Iron Mines, near the R. E., owned by Parish, have yielded an immense quantity of ore, which has mostly been worked at Rossie Iron Works.

8 Among these minerals are marble, graphite, heavy spar, phosphate of lime, copper pyrites, calcite, pearl spar, apatite, zircon, tremolite, satin spar, celestine, carbonate of iron, chon-

phosphate of mile, copper pyries, carlote, part spar, apart, circon, tremolite, satin spar, celestine, carbonate of iron, chondrodite, and spinelle.

9 Formerly called "Caledonia," and "Howards Mills," from Jas. Howard, former proprietor.

10 Among the first settlers were Jos. Teall, Renhen Streeter, A. Simmons, O. Malterner, A. Keeney, jr., S. Bonfy, S. Waters, and J. Stearns. The first child born was Wm. Rossie Williams. Reuben Streeter built the first mill.

11 Named from Russell Atwater, first settler.

12 Among the early settlers were Nathan, Loren, and David Knox, Heman Morgan, Elias Hayden, Reuben Ashman, Jesse Bnnnell, Elihu Morgan, and Joel Clarke, who came in 1805. The first child born was a son of Reuben Ashman, in 1806; the first marriage, that of Calvin Hill and Harriet Knox; and the first death, that of —— Curtis. Rollin Smith taught the first school, and Atwater built the first mills.

13 Sold for a school building, in 1850.

14 It originally comprised No. 2 of the "Ten Towns," and is nearly 10 mi. sq.

nearly 10 mi. sq.

15 Among the early settlers were Benj. Wright, Isaac Kelsey,
Abram Sheldon, and John and Robt. Bisbee. S. Reynolds built
the first mill, in 1804. Mrs. Sheldon was the first woman who came into town.

16 2 Cong., M. E., Bap., W. Meth.; the Christians and F. W. Bap. have also societies in town.

WADDINGTON-was formed from Madrid in 1859. It lies on the St. Lawrence, N. E. of the center of the co. The surface is level or gently undulating. It is watered by Great and Little Sucker and Brandy Brooks. The soil is a light, sandy loam, generally fertile. Upon the St. Lawrence are rapids affording an immense amount of water-power. Waddington¹ (p. v.) is situated on the St. Lawrence, opposite Ogdens Island and the "Rapide Plat." The rapids at this place impede navigation,2 but furnish abundant water-power. The entire fall is 11 ft. Pop. 705. The first settlement was made along the St. Lawrence, in 1798, under Joseph Edsall,3 agent of the proprietors.4,5

<sup>&</sup>lt;sup>1</sup> Named from Joshua Waddington, proprietor. Formerly called "Hamilton." Incorp. April 26, 1839. A furnace, supplied with bogore, was established here in 1834; but it was abandoned in 1840. A tract of 1,135 acres on the shore opposite the island, together with the island and water-power, were conveyed in 1811 to Joshua Waddington and Thos. L. and David A. Ogden. 2 In 1808-11-15. acts were passed to improve the navigation at this place, and a lock was built for the passage of small boats.

2 Among the early settlers were John Sharpe, Barton Edsall,

John Tuttle, Benj. Bartlett, Godfrey Myers, Benj. Camphell, E. Demick, Amos Wells, Asa and Jason Fenton, Charles North, Wm. Powell, and B. C. Hepburn, Jra Hitchcock, T., A., R., and W. Rutherford. J. H. Hawley kept the first inn; J. Redington was first justice of the peace; Dorothy Fields taught the first school. Mills were built at Waddington, in 1802-04. There are 6 churches in the town; 1 Presb., 1 Epis., 1 M.E.,

R.C., 2 Scotch Presb.
 Pop. 1860, 2,735; village, 789.

### SARATOGA COUNTY.

This county was formed from Albany, Feb. 7, 1791. It lies in the N. angle formed by the junction of the Hudson and Mohawk Rivers, centrally distant 31 miles from Albany, and contains 862 sq. mi. Its surface is hilly or undulating in the s. and mountainous in the N. Two ranges of mountains traverse the co. from N.E. to s.w. The Palmertown or Luzerne Mts., the most eastern of these ranges, extend from Warren co., through the w. part of Moreau and Milton and the E. part of Corinth, into Greenfield, where they terminate in a series of low, irregular hills. Hudson River breaks through this range on the N. border of the co. in a deep ravine 3 mi. in extent. The mountains rise abruptly from the water's edge to a height of 800 feet. Their declivities are generally rocky and pre-

cipitous, and their summits spread out into a broad, rocky upland covered with forests. The Kayaderosseras Range extend through the N. part of the co. and occupy the greater part of Corinth, Edinburgh, Day, and Hadley. The declivities of these mountains are generally precipitous, and their summits spread out into broad, rocky uplands broken by ledges and eraggy peaks. A group of isolated hills, 450 feet high, with rounded summits and terraced declivities, extend through the w. part of Stillwater and Saratoga. A broad intervale extends along the Hudson, bordered by a range of clay bluffs 40 to 200 feet in height. From the summits of these bluffs an extensive sand plain extends westward to the foot of the mountains, covering the greater part of Moreau, Wilton, Northumberland, Saratoga Springs, Malta, and Clifton Park. The s.w. portion of the co. is rolling or moderately hilly.

Hudson River flows nearly 70 mi. along the E. border of the co. It is interrupted by falls and is crossed by several dams and bridges.<sup>2</sup> The Mohawk forms a portion of the s. boundary. The Sacandaga, forming the outlet of the principal lakes in the s. part of Hamilton co., flows in a tortuous channel through Edinburgh, Day, and Hadley. It is navigable for boats and steamboats of light draught from Fish House, on the border of Fulton co., to Conklingville Falls, in Hadley, a' distance of 20 mi. Below the falls it flows between high, rocky hills in a series of rapids to the Hudson. Kayaderosseras River drains the central part of the co. and flows into Saratoga Lake. The outlet of the lake takes the name of Fish Creek. The other principal streams are Snook Kil, Anthonys Kil, and Kayawese Creek. Saratoga Lake is a beautiful sheet of water, 62 mi. long and 2 broad, situated about 4 mi. s. E. of Saratoga Springs. Ballston, Round, and Owl Lakes are small sheets of water in the s. part of the co. Among the mountains and forests in the N. are numerous other small lakes but little known.

The Kayaderosseras and Luzerne Mts. are both principally composed of primary rocks. A stratum of crystalline limestone extends along the foot of the mountains; and this is succeeded by Potsdam sandstone. In these formations iron ore has been obtained; but the beds have been imperfeetly explored.3 The rocks in the s. half of the co. belong to the shales and slates of the Hudson River group. A large part of the co. is covered with drift deposits, consisting of sand and clay. The soil among the mountains is a light, sandy or gravelly loam, and is best adapted to grazing; upon the intervales along the rivers it is a deep, fertile, clayey loam and alluvium; and in the s.w. part it is a heavy, clayey loam. A strip of light sand occupies the greater part of the two eastern tiers of towns. The people are chiefly engaged in grain and stock raising. Lumbering and tanning are extensively carried on in the N. part of the eo. Considerable attention is also paid to the manufacture of cotton and woolen goods and paper.4

The county seat is located at the village of Ballston Spa, in the town of Milton.<sup>5</sup> The courthouse, a

<sup>1</sup> The origin of the word Saratoga is uncertain. The termina-tion "oga," or "aga," is said to signify "place." The first part of the word has been thought to imply "hillside" by some, and "place of salt springs" by others,—"soragh" in some Indian dialects being the name for salt,

marces being the name for saft.

2 See descriptions of Warren and Washington cos.

3 Among the other minerals are agate, chalcedony, chrysoberyl, garnet, tournalin, phosphate of lime, graphite, iron pyrites, and tufa. A full catalogue of minerals is given by Dr. John H. Sleele in his geological survey of the co.

534

<sup>&</sup>lt;sup>4</sup> Important manufactures have for many years been carried on in Milton, Moreau, Mechanicsville, Schuylerville, and Water-ford. The manufacture of lumber is chiefly limited to Glens

ford. The manufacture of lumber is chefly limited to drens Falls and Jessups Landing, on the Hindson.

<sup>5</sup> The first courthouse was located 2 mi. s. w. of Ballston Spa.

By act of March 26, 1794, the sum of £1500 was appropriated to build a courthouse and jail: and in each of the following two years £600 was added to the amount. John Bradstreet Schnyler, Richard Davis, jr., John Ball, John McClelland, and Jas. Emott, were appointed commissioners to superintend the erection of the

plain brick building, contains the usual rooms and offices and the jail. The co. clerk's office is a small building situated on Main Street. The co. poorhouse is situated on a farm of 112 acres 11 mi. N. w. of Ballston Spa. The average number of inmates is about 100; and the institution yields an annual revenue of \$900,1

The Champlain Canal extends along the Hudson from Waterford to the s. border of Northumberland, at which point it crosses the river into Washington co.2 The Saratoga & Scheneotady R. R. extends from Saratoga Springs through Milton, Ballston, and Clifton Park to Schenectady.3 The Saratoga & Whitehall R. R. extends from Saratoga Springs N. through Wilton and Northumberland to Moreau, where it crosses the Hudson to Fort Edward. The Rensselaer & Saratoga R. R. crosses the Mohawk at Waterford, and passes through that town, Half Moon, Clifton Park, Malta, and Ballston to Ballston Spa. The Albany, Vermont & Canada R. R., crossing the Mohawk at Cohoes, intersects the R. & S. R. R. at Saratoga Junction, and crosses the Hudson at Deepikill into Rensselaer co. The Lake Ontario & Hudson River R. R.4 has been laid out and partly worked from Saratoga Springs through Greenfield, Corinth, and Hadley.

Eight weekly and 4 daily papers are published in the co.5

The greater part of this co. is embraced within the "Half Moon," "Clifton Park" or "Shannondhoi," "Saratoga," "Appel," and "Kayaderosseras" or "Queensborough" Patents.6 The last named patent includes the greater part of the co. The purchase of the tract was confirmed by the Mohawks, July 26, 1683. The bounds were so loosely defined that disputes arose between the

buildings. By an act passed March 14, 1817, Jas. Merrill, Elisha | Powell, Isaac Gere, John Gibson, and Gilbert Warring were ap

Powell, Isaac Gere, John Gusson, and Guoert, warring were ap-pointed commissioners to superintend the erection of new build-ings in the place of the old ones, which had been burned.

1 The house is reported as old, ill constructed, and badly out of repair, but generally well kept. Report of Senate Com., 1857.

2 The towing path of the canal is constructed across the river on the Fort Miller Bridge.

3 This was the second R. R. built in the U. S. It is leased and

used by the Rensselaer & Saratoga R. R.

Formerly the Saratoga & Sackets Harbor R. R.
 The Waterford Gazette, the first paper published in the co., was established at Waterford about 1801, by Horace L.

was established at Waterford about 1:01, by Horace L. Wadsworth, and was continued until after 1:816. The Waterford Reporter was published in 1:822 by Wm. L. Fisk. The Anti Musonic Recorder was published at Waterford in 1:830 by J. C. Johnson.

The Waterford Atlus was started Dec. 1. 1:832, by Wm. Holland & Co. In 1:834 it was changed to The Waterford Atlas and Manufacturers, Mechanics, and Farmers' Journal. It was soon after discontinued.

The Denocratic Champion was published at Waterford in 1:840 by H. Wilber.

The Waterford Sentinel was started -Hoffman, and is now published by J. H. Masten.

The Saratoga Advertiser was established at Ballston in 1804 by

Samuel B. Brown. It was changed soon after to

The Aurora Borealis and Saratoga Advertiser, and published by

Brown & Miller. About 1810 it again passed into the

hands of Mr. Brown, and was changed to

The Advertiser, and continued some years.
The Independent American was started Sept. 27, 1808, by Wm.
Child. In May, 1818, it appeared as
The People's Watch Tower, published by Jas. Comstock; and in 1820 as

The Saratoga Farmer, published by H. G. Spafford. In 1821 it was changed to

The Ballston Spa Gazette and Saratoga Farmer, and in 1822 to

The Ballston Spa Gazette, published by J. Comstock. April 20, 1847, it appeared as
The Ballston Democratic Whig Journal, edited by J. O. Nodyne.

In 1848 it was changed to

The Ballston Journal; and it is now published by Al-

bert A. Moore.

The Saratega Courier was published at Ballston in 1818 by Ulysses F. Doubleday. The Saratoga Journal was published at Ballston by Josiah Bunce,

in -

The Saratoga Recorder and Anti Masonic Democrat was pubhished in 1831 by D. Tehan.

The New York Palladium was published in 1831 by Ansel

Warren.

The Schenectady and Saratoga Standard was published at Ballston in 1832-33 by Israel Sackett.

ton in 1832-33 by Israel Sackett.

The Bullston Democrat was started in 1843 by Newell Hine. In 1853 it was united with the Northern Mirror as The Bullston Democrat and Mirror. It is now published as The Bullston Atlas, by Seymour Chase.

The Northern Mirror was started by S. Chase, and in 1853 it was united with the Bullston Democrat.

The Saratoga Gazette was published at Saratoga Springs in 1810.

The Stratoga Patriot was started by Samuel R. Brown, and in 1852 it was removed to Allany.

1812 it was removed to Albany.

The Saratoga Sentinel was commenced in 1819 by G. M. Davidson, and in 1845 it was merged in The Republican.

The Saratoga Whig was started in 1830 by Huling & Watts.
Sold to G. W. Spooner in 1840, and afterward to E. G.
Huling. In 1851 it was changed to

The Saratoga County Press. A daily edition, started in 1-44, was issued in 1855 as
The Saratoga Daily News, Huling & Morehouse, pub-

lishers.

The Daily Sentinel was started at Saratoga Springs in 1842 by Wilbur & Palmer. From 1855 to 1857 it was issued as The Daily Post, and then changed back to The Sentinel. Jan.1, 1859, it was merged with The Republican.

The Republican, da. and w., was started in 1844 by John A. Corey, and in 1853 it passed into the hands of Thos. G. Young. Jan. 1, 1859, it was united with The Sentinel, under the title of

The Republican & Sentinel, da. and w., Thos. G. Young, publisher.

The Old Settler was pub. at Saratoga in 1849 by A. H. Allen.

The old Settler was pills, at Saratoga in 1849 by A. H. Allen. The Adrent Review and Asbbath Herald, semi-mo, was published in 1850 by Jas, White.

The Temperance Helper was started in Jan, 1855, by the Saratoga Co. Temperance Alliance. In 1855 it was bought by Potter & Judson, and in 1856 it was changed to The Saratoglan. A daily edition is published during

the summer season.

The Saratoga Sentinel was started in 1854 by Allen Corey, and sold in May, 1855, to Clark & Thayer.

The Schuylerville Herald was published at Schuylerville in 1844 by J. L. Cramer.

Old Saratoga was started in 1848 at Schuylerville by J. L. Cra-

one started in 1945 at completelling by J. L. Cramer, and continued until 1852.

Battle Ground Herald was published at Schuylerville from Ang. 1853, till July, 1857, by R. N. Atwell & Co.

The Saratoga County American, started in Dec. 1857, is now published at Schuylerville by J. R. Rockwell. well.

The Stillwater Gazette was commenced at Stillwater in 1845 by Isaac A. Pitman, and was published about 3 years The Cold Water Battery was published at Stillwater in 1845 by Isaac A. Pitman.

Isaac A. Pitman.

The Hudson River Chronicle was published at Mechanicsville from Oct. 1856, to March, 1858, by Samuel Heron.

The Grescent Eagle was published in 1852 by C. Ackerman.

The Morning Star was published at Mechanicsville in 1854-56, by C. Smith & Co.

6 The "Half Moon" Patent, including Waterford and part of the Start of Matthew Van Scheide. The Series

by C. Smith & Co.

6 The "Half Moon" Patent, including Waterford and part of Half Moon, was granted to Anthony Van Schaick. The "Saratoga Patent," including the present towns of Easton, Saratoga, and Stillwater, was granted, Nov. 4, 1684, to Cornelius Van Dyck, Jan Jans Bleecker, Peter Phillips Schuyler, Johannes Wendell, Dirk Wessels, David Schuyler, and Robt. Livingston. The "Clifton Park Patent," embracing the £ part of the present town of Clifton Park and the w. part of Half Moon, was granted Sept. 23, 1708. The "Appel Patent," in the w. part of the present town of Clifton Park, was about ½ mi. wide on the Mohawh and extended back nearly 4½ mi. The "Kayaderossersa Patent" was granted Nov. 2, 1708, to Manning Hermanse, Johannes Beekman, Rip Van Dam, Ann Bridges, May Beckley, Peter Fauconeer, Adrian Hogelandt, Johannes Fisher. John Tuder, Jovis Hogelandt, John Stevens, John Totham, and Samson Broughton. This patent contained 400,000 acres, and embraced nearly all of Saratoga co. N. of the small patents already described, and portions of Montgomery, Fulton, and Warren cos. The portion of the co. N. of this patent was embraced in the "Palmer" and "Glen" purchases.

proprietors and the owners of the Schenectady, Clifton Park, and Half Moon Patents, which were not settled until after the Revolution.

The first settlements in the co. were made by the Dutch, within a few years after their first colonization of the country about Albany. These settlements commenced near Waterford, on the Mohawk, and gradually extended up the valley of the Hudson. Lying in the great thoroughfare between the English settlements at Albany and the French posts on Lake Champlain, the continual passing of military parties checked the progress of settlement and exposed the few hardy pioneers to all the dangers and anxieties of border warfare. Immediately after the conquest of Canada, in 1760, settlements rapidly extended along the river valleys and to some distance into the interior. During the Revolution, some of the most important events of the war transpired within the limits of this co. Upon the approach of Burgoyne in 1777, Gen. Schuyler retreated from Fort Edward and made a stand first at Saratoga, then at Stillwater, and finally at the mouths of the Mohawk,1 This last stand he considered the best position for checking the advance of the enemy, which he was expecting both from the N. and W. The inhabitants of the co. above fled in consternation to Albany, leaving their homes and fields of grain to be destroyed by the advancing foe. The islands at the mouth of the Mohawk were fortified about the 1st of August, and Burgoyne took possession of Fort Edward at nearly the same time. While the armies lay in this position, two events took place which served greatly to embarrass Burgoyne and to render sure his final defeat. The first of these was the defeat of Baum at Bennington, and the second the retreat of St. Leger from the siege of Fort Schuyler.2

The American army in the mean time, under Gen. Gates, who had superseded Gen. Schuyler, advanced toward the enemy, and about the 1st of September took possession of and fortified the high bluffs known as Bemis Heights, upon the river, in the N. part of Stillwater.3 Greatly perplexed and embarrassed, Burgoyne finally concluded to continue his march toward Albany. On the 14th of September he crossed the Hudson, above the mouth of the Batten Kil, into the N. part of Saratoga, and continued his march southward. On the 19th the first battle of Stillwater was fought, in front of the American intrenchments at Bemis Heights. The American loss was 315 and the British 500, the former returning to their camp and the latter retaining possession of the battle field. On the 7th of October another severe battle was fought, in which the British lost 700 and the Americans 150. During the succeeding night the British abandoned their camp and retreated northward, and finally took position upon the heights of Saratoga, just w. of the present village of Schuylerville. Here Burgoyne found himself completely hemmed in. A victorious and hourly increasing army was in front; a strong detachment was posted on the E. bank of the river to prevent his crossing that stream; Fort Edward, in his rear, had been taken by the Americans; his bravest officers had fallen in battle; Lord Howe had failed to afford the promised support from New York; and his army was reduced to the last extremity for want of provisions. Under these circumstances, the British commander reluctantly yielded to an imperative necessity, and on the 16th of October signed articles of capitulation. On the 17th the whole British army laid down their arms and were marched eastward to Mass.<sup>5</sup> The close of this campaign left the co. stripped of nearly every evidence of civilized occupation. The fear of continued Indian hostilities prevented the immediate re-occupation of the abandoned lands; but after the close of the war settlements rapidly spread. Since this period few incidents of general interest have occurred, and the history is but the record of the everyday events connected with the conversion of a wilderness into fruitful fields and happy homes.

BALLSTON<sup>6</sup>—was formed from Saratoga as a district, April 1, 1775, and was organized as a town, March 7, 1788. Charlton, Galway, and Milton were taken off in 1792, and the line of Charl-

<sup>1</sup> This retreat was occasioned by the limited number of Schuyler's forces and the fact that the militia were every day flocking ler's forces and the fact that the minth were every day hocking to his standard. Burgoyne's progress was arrested by felling trees across the roads, breaking down bridges, and by every other possible means of annoyance. Every hour thus gained added to the strength of the Americans and weakened the British forces; so that, when all the obstacles were finally overcome, the American army was in a condition to meet the British

come, the American army was in a conductor to meet the British in open battle.

2 Gen. St. Leger, at the head of a body of tories and Canadians, was to co-operate with Burgoyne by marching through the Mohawk Valley and joining the main army at Albany. At Oswego he was joined by a body of Indians under Brant, making his force 1700 strong. On the 2d of Aug, he invested Fort Standish (control Paradonnich and Control Paradonnich des providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of the providers of th wix, (where Rome, Oneida co., now stands,) and continued the siege until the 22d, when, learning that an American re-enforce-ment was approaching, he hastily retreated.

The fortifications of the American camp were erected under

the direction of Kosciusko, then holding the office of engineer in

the direction of Kosciusko, then holding the office of engineer in the army. They were so constructed as to completely command the passage down the river. The position afterward chosen by the British was about 1 mi. distant, and separated from the American works by a deep ravine.

4 Instead of co-operating with Burgoyne and sending the promised aid up the Hudson, Lord Howe had marched to Philadelphia, leaving the British forces in N. Y. under the command of Sir Henry Clinton. The latter officer made a diversion in Burgoyne's favor, but too late to be of any service.

5 The place where the British laid down their arms was a green on the river. N. of the mount of Fish Creek. It was in front of Fort Hardy, an old fortification erected by Dieskau in 1755. The number of the army at the time of the surrender was 5,792, of whom 2,412 were Germans. The Americans also captured 42 brass cannon, 4,647 muskets, 6,000 dozen of cartridges, and a large amount of carriages and camp equipages.

6 Named from Rev. Eliphalet Ball, one of the first settlers.

ton was changed March 5, 1795. It lies upon the border of the co., s. w. of the center. The surface is gently rolling. Mourning Kil and the Outlet Creek are the principal streams. Ballston Lake, in the s.E. part, is a long, narrow, and deep body of water, the outlet of which is the principal inlet of Round Lake. The soil s.E. of the lake is generally a light sand, and N.W. it is a clayey and gravelly loam. Ballston (p.v.) is situated on the line of Milton. A small portion only of the village is within the limits of this town. Burnt Hills, 1 (p. v., ) in the s. part, contains 42 dwellings. Ballston Center (p.o.) and Academy Hill, near the center, are hamlets. East Line, (p.o.,) on the border of Malta, contains 15 houses. It is a station on the R. & S. R. R. South Ballston is a p.o. The first settlement was made in 1763, by two brothers named Michael and Nicholas McDonald,2 who located near the w. bank of Ballston Lake. In 1770, Rev. Eliphalet Ball, with his three sons John, Stephen, and Flamen, and several members of his congregation, removed from Bedford, N. Y., and settled in the vicinity of Academy Hill.<sup>3</sup> Soon after their arrival a large number of settlers came in from New England, N. J., Scotland, and the north of Ireland.4 The settlements in this town were twice invaded during the Revolution, and several of the inhabitants were carried away prisoners to Canada.5 The first church (Presb.) was organized Oct. 6, 1792.6 There are 6 churches in town.

CHARLTON—was formed from Ballston, March 17, 1792. It is the s.w. corner town of the co. Its surface is undulating, with a gentle inclination toward the s. Its streams are the Aalplaats<sup>7</sup> and a branch of the Mourning Kil. The soil is an excellent quality of sandy, gravelly, and clayey loam. Ledges of limestone in the w. part, affording an excellent quality of building stone, are extensively quarried. Charlton, (p. v.,) in the s. E. part, contains 3 churches and 38 houses; West Charlton (p.v.) contains about 20 houses. The commissioners appointed to divide the Kayaderosseras Patent appropriated 5,000 acres in the s. part of this town to defray the expenses of the division. The first settlement was commenced in 1774, by Thos. Sweetman, who located in the E. part of the town.<sup>8</sup> The first church (Presb.) was incorp. Dec. 11, 1792; Rev. Wm. Schenck was the first pastor.9

CLIFTON PARK—was formed from Half Moon, March 3, 1828, as "Clifton." Its name was changed March 31, 1829. The surface is level or undulating, except in the N.E., where it is broken by sand hills and ravines. A line of rugged clay bluffs borders upon the Mohawk Valley. Stony Creek, Swarte and Dwaas Kils are the principal streams. A belt of heavy clay and gravelly loam extends along the river above the bluffs. The soil is alluvial upon the Mohawk flats and a sandy loam in the central and N. parts. Clifton Park, (p. v.,) on the border of Half Moon, contains 2 churches and 22 houses; Amity, (Visschers Ferry p.o.,) a canal village in the s. part, contains 1 church and 45 houses; Jonesville, (p. v.,) in the N. part, 1 church, the Jonesville Academy, 10 and 30 houses; and Rexford Flats, 11 (p. v.,) a canal village in the s.w. corner of the town, 25 houses. Grooms Corners, (p. o.,) in the s. w., Dry Dock, (p. o.,) in the s. E., and Forts Ferry, on the Mohawk, are hamlets. Part of this town was included in the "Clifton Park" or "Shannondhoi" Patent, granted Sept. 23, 1708.12 Settlements were made in the

dians for a deer pasture before white settlements began.

2 The McDonalds were natives of Ireland. They had been enticed on board a vessel in the Shannon, brought to Philadelphia,

and sold for a term of years to pay for their passage.

3 Mr. Ball was induced to settle by a donation of 500 acres of land from the proprietors of the 'Five Mile Square.' He was the pastor of the first religious society formed in town. His father and Gen. Washington's mother (Mary Ball) were first cousins. His son, John, was a lieutenant in the army during

cousins. His son, John, was a lieutenant in the army during the Revolution.

4 Among these early settlers were Judge Berlah Palmer, (afterward M. C..) Judge Epenetus White, Edward A. Watrous, Capt. Stephen White, Paul Pierson, Capt. Tyrannus Collins, Hez. Middlebrook, Elisha Benedict, John Higby, Edmund Jennings, Saml. Nash, and Joseph Bettys and his son "Joe," (who was afterward hing as a tory spy.) all from New England; Capt. Kenneth Gordon, and — McCrea, from N. J.; families nanet Shearer, McDermids, and Frazers, from Scotland; and Gen. Jas. Gordon, George Scott, Francis Hunter, and 3 brothers Kennedy, from the north of Ireland. The Scotch families settled in "Scotch Bush" and "Paisley Street," Gen. Gordon was a coloned in the army during the Revolution, and afterward a prominent citizen in the town and co. The first death recorded by tomical to the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of th citizen in the town and co. The first death recorded by tomb-stone in town was that of Gen. Gordon's mother, who died in 1775.

stone in town was that of Gen. Gordon is mother. Who deed in the partonage of the Troy (M. E.) Conference.

6 On the 16th of Oct. 1780, a party of 400 regulars and Indians from Canada, under Maj. Munro, a tory from Schiencetady, made their appearance in the Ballston settlement. They designed to attack Schenectady; but, after remaining encamped several days, they returned without effecting this object. They pillaged and burned several houses at Ballston, killed one man, last gycks, John and Ryerse Quackenboss, and Derick Bratt, most of whom were early settlers.

and took 24 prisoners. After crossing the Kayaderosseras, Maj. Munro addressed his men, stating his expectation that they would be pursued, and directing that in case of an attack every misoner should at once be killed. For this brutal order he was not soil or a term of years to pay for their passage.

3 Mr. Ball was induced to settle by a donation of 500 acres of and from the proprietors of the "Five Mile Square." He was he pastor of the first religious society formed in town. His ather and Gen. Washington's mother (Mary Ball) were first oaisns. His son, John, was a lieutenant in the army during he Revolution.

4 Among these early settlers were Judge Berlah Palmer, (afterward M. C.) Judge Epenetus White, Edward A. Watrous, Capt. Stephen White, Paul Pierson, Capt. Tyrannus Collins, Hez.

1 Munro addressed his men, stating his expectation that they would be pursued, and directing that in case of an attack every prisoner should at once be killed. For this brutal order he was cashiered on his arrival at Montreal. Three aged or infirm prisoners were allowed to return, and the rest reached Bulwaggy Bay on the eighth day, whence they passed into Canada. The notorious Joe Bettys, with about 30 refugees, in May, 1781, captured 5 prisoners; and at the same time Judge White and others were taken on the E. side of Long Lake, by another gang, and marched off to Canada, excepting one, who escaped, Col. Gordon and several others afterward escaped from the Isle of Orleans, and with great hardship made their way through the wildelreness to the St. Johns, and thence to the settlements in Minro They there learned of the peace, and returned home by

the wilderness to the St. Johns, and thence to the settlements in Maine. They there learned of the peace, and returned home by way of Halifax and Boston.

6 2 Christian, Bap., Presb., Prot. E., and R. C.

7 Pronounced Ali-Ploss, and signifies "cel-place."

8 Among the other early settlers were David Maxwell, Joseph La Rue, John McKnight. John Taylor, and Jesse Conde, who came in 1775. Davis & Bostwick kept the first store: —— Harmons the first inn, John Rogers built the first sawmill, and John Holmes the first cristmill.

John Holmes the first gristmill.

9 The census reports 4 churches; 2 Presb., Prot E., and M. E.

10 Established in 1841, by Roscius R. Kennedy. It is under
the patronage of the Troy (M. E.) Conference.

11 At this place the canal crosses the river on a fine stone

Mohawk Valley, previous to 1700. The names of the first settlers and the precise date of their settlement are unknown. The first church (Bap.) was organized Sept. 3, 1794; Rev. Abijah Peck was the founder and first pastor.1

CORINTH—was formed from Hadley, April 20, 1818. A part of Moreau was annexed Jan. 28, 1848. It lies upon the Hudson, in the N.E. part of the co. The Kayaderosseras Mt. Range occupies the central and N. parts, and the Palmertown Mts. the s.E. corner. The declivities of these mountains are steep, rough, and broken, and their summits are rocky and mostly covered with forests. A valley 4 mi. wide separates the two ranges. The principal streams are the Hudson, forming the N.E. border, and Cole Brook, flowing along the s. foot of the mountains. Falls, in the Hudson, are on the border of this town.2 Among the mountains in the n. part are several fine lakes, the principal of which are Efnor, Hunt, Jenny, and Black Lakes. The soil is a sandy and clayey loam. Lumbering is extensively carried on, the Hudson River and small streams from the hills furnishing an abundance of water-power. Jessups Landing, (Corinth p.o.,) on the Hudson, contains 3 churches and 88 dwellings; and South Corinth (p.v.) 1 church and 30 dwellings. The first settlement was made near S. Corinth, in 1790, by Fred. Parkman, Washington Chapman, Jeremiah Eddy, Jephtha Clark, and Jonathan Dewel.<sup>8</sup> The first church (Bap.) was organized June 1, 1822.4

DAY—was formed from Edinburgh and Hadley, as "Concord," April 17, 1819. Its name was changed Dec. 3, 1827. It is the N. w. corner town of the co. Its surface is principally occupied by several spurs of the Kayaderosseras Mts. Oak and Bald Mts., the principal peaks, near the center of the town, are 900 feet above the river. The whole mountain region is wild, rugged, and rocky, and scarcely susceptible of cultivation. The Sacandaga River flows in a narrow valley through the s. part. Its course is tortuous, and it is navigable through the town. Paul, Glass House, and Allens Creeks are the other principal streams. Livingston, Sand, and Mud Lakes are small bodies of water in the N. part. The soil is a moderately fertile, sandy and clavey loam. Lumbering is extensively carried on. Huntsville (West Day p.o.) is a hamlet in the s.w. part. Day is a p.o. The first permanent settlers were Phineas Austin, James Thomas, and Dyer Perry, and families named Clay and Bond. The first religious meetings were held in the barn of Peter Van Vleck, in 1801-02. The first church (Bap.) was formed in 1809. The census reports 2 churches; Christian and Ref. Prot. D.

EDINBURGII—was formed from Providence, March 13, 1801, as "Northfield," and its name was changed April 6, 1808. A part of Day was taken off in 1819. It lies upon the w. border of the co., N. of the center. Its surface is principally occupied by two high mountain ridges separated by the valley of the Sacandaga River. The mountain regions are rocky and broken, with a thin, sandy or gravelly soil, and are covered with forests. Beechers Creek is a small mill stream w. of the river. The soil on the river flats is a good quality of clayey and gravelly loam. Lumbering is the chief occupation of the people. Batchelerville, (p.v.,) on the E. bank of the Sacondaga, contains 30 houses; and Beechers Hollow, (Edinburgh p.o.,) on the w. side of the river, 12. The first settlers came in about 1790 and located in the valley below "Fish House." The first church (Bap.) was organized in 1798, by Rev. Mr. Munroe, from Galway.6 Traces of an ancient Indian burial place are visible on the s. bank of the Sacandaga, near the border of Day.

GALWAY8—was formed from Ballston, March 7, 1792. Providence was taken off in 1796. It lies on the w. border of the co., s. of the center. Its N. half is occupied by a group of rounded hills forming the southern continuation of the Kayaderosseras Mts. The surface of the s. half is gently undulating. The principal streams are head branches of Feegowesee and Calderwood Creeks and the Mourning Kil. The soil is generally a heavy clay, intermixed in places with sand and gravel. Galway, (p.v.,) near the center of the town, was incorp. April 18, 1838. It contains 3 churches, a female seminary, and about 45 houses; West Galway, (p.v.,) on the border of Fulton co., contains 1 church and 20 houses. Yorks Corners, (E. Galway p.o.,) in the N.E.

<sup>1</sup> The census reports 6 churches; 4 M. E., Bap., Ref. Prot. D. 2 See description of Warren co., page 670.

8 Among the early settlers were Daniel Boardman and Stephen and Wm. Brayton, at Jessups Landing; Elial Lindsay, at Great Falls; and Ambrose Clothier, in the s. E. part of the town, in 1796. Stephen Ashley kept the first inn, about 1800; and Daniel Boardman kept the first store and built the first grist-mill about 1793. nill. about 1793.

<sup>4</sup> There are 3 churches in town: Bap., Presb., M. E.
5 In 1791 the following persons were living in the valley, viz.:
nloses Crane, Jacobus Filkins, Daniel Washburn, John Sumner,

Obadiah Perry, and Saml. Rogers. Daniel Abbott, from Conn., Obadiah Perry, and Saml. Rogers. Daniel Abbott, from Conn., taught the first school, in 1794; — Chatfield kept the first store, in 1796: Isaac Deming built the first gristmill, in 1793; and Palmer Muuroe, the first woolen factory, in 1808.

6 The census reports a churches: 2 M. E., Presb.

7 Tradition says that a band of Canadian Indians in canoes, on an expedition against the Mohawks, at this place fell into ambuscade and were all slain. Bullets are frequently cut out of the trees in this vicinity.

8 Named from the writer place of the first South settlers.

Named from the native place of the first Scotch settlers. 9 The Galway Academy.

part, Mosherville, (p.o.,) near the N. border, Whiteside Corners, (p.o.,) in the N.W., South Galway (p.o.) and North Galway (p.o.) are hamlets. The first settlers, from Galway, Scotland, located in town in 1774.1 Rev. Simeon Smith, from Canterhook, came in town in 1778, and located near Yorks Corners.2 He formed the first religious society (Bap.) during the following year.3

GREENFIELD—was formed from Saratoga and Milton, March 12, 1793. A part of Hadley was taken off in 1801. It occupies a position a little N. w. of the center of the co. The Palmertown Mountain Range extends along the E. border, and the Kayaderosseras Range occupies the w. par of the town. A valley 6 mi. wide separates these ranges. The principal streams are the Kayaderosseras and its branches. The soil is generally a gravelly loam intermixed with clay. Sections of the surface are very stony. Iron ore has been found in the E. part. Greenfield Center (p. v.) contains 2 churches. Pop. 85. Jamesville, (Middle Grove p.o.,) on the s. border, contains 1 church, 2 paper mills, and 31 houses; Mount Pleasant, (p.v.,) in the N.W. corner, a glass factory and 140 inhabitants; and Porters Corners, (p.v.,) near the center of the town, 2 churches and 20 houses. West Greenfield, (p.o.,) North Greenfield, (p.o.,) and Pages Corners are hamlets. Rev. Elias Gilbert was the first preacher, in 1792. — Hag-— Root located near Haggerty Hill in 1784.4 The census reports 9 churches in town.6

HADLEY—was formed from Greenfield and Northumberland, Feb. 27, 1801. Its boundaries were amended Feb. 28, 1808. Corinth was taken off in 1818, and a part of Day in 1819. It lies upon the Hudson, in the N.E. corner of the co. A large share of its surface is occupied by the peaks and ridges of the Kayaderosseras Mts. Mt. Anthony is an isolated peak in the s.E. part.6 Sacandaga River flows through the s. part. Its valley is narrow; and below Conklingville its current is rapid and frequently interrupted by falls. The soil generally is a coarse, yellowish, unproductive sand and gravel. Lumbering and tanning are extensively carried on. Conklingville, (West Hadley p.o.,) on the Sacandaga, in the w. part of the town, contains 1 church, a large tannery, and 39 houses. **Hadley** (p.o.) is a hamlet at the junction of Sacandaga and Hudson Rivers. Richard Hilton commenced the first settlement, just after the close of the Revolu tion, on the Hudson.<sup>8</sup> The census reports 2 churches in town; a F. W. Bap. and a Wes. Meth.

HALF MOON9—was formed as a district, March 24, 1772, and as a town, March 7, 1788. Its name was changed to "Orange" April 17, 1816, and the original name was restored Jan. 16, 1820. Waterford was taken off in 1816, and Clifton Park in 1828. Its surface is undulating and broken by the narrow ravines of small streams. Hudson River forms the E. boundary, and the Mohawk a portion of the s. The river intervales are about \( \frac{1}{2} \) mi. wide, and are bordered by a line of steep, clay bluffs 60 to 100 feet high. The other streams are Anthonys, Dwaas, and Steena Kils. The soil is a clayey and gravelly loam upland, and a fine quality of alluvium in the intervales. Crescent<sup>10</sup> (p.v.) is a canal village near the center of the s. border of the town. Pop. 593. Middletown, (Half Moon p.o.,) 1½ mi. E. of Crescent, has a pop. of 230; Mechanicsville, (p. v.,) at the mouth of Anthonys Kil, lies mostly in Stillwater. Pop. in Half Moon, 495. Clifton Park (p. v.) is on the w. line. Newtown, Smithtown, and Grays Corners are hamlets. The first settlements are supposed to have been made between 1680 and '90, by Germans, on the Mohawk Flats.<sup>11</sup> The first church (Ref. Prot. D.) was organized in 1800.<sup>12</sup>

Friends, M. E., and Presb.

4 Among the other early settlers were — Brewster, Wm. Scott, a soldier of the Revolution, who came in 1785; Isaac Demmon, John Benedict, Nath'l Seymour, and Benj. Ingham, in 1787; Jas. Vail and Chas. Mirick, in 1789; Isaac and Darius Stephens, — Reynolds and his sons, in 1790; Eseek Turletot, in 1793; and — Miner, seon sfter. — Seribner taught the first school, in 1792; Doel Reynolds kept the first inn, in 1789; Gershom Morchouse built the first saw and grist mill, at Middle Grove, the same year. Benj. Clinch kept the first store, at Porters Corners, in 1787.

5 3 Bap., 2 M. E., 2 Friends, Cong., and Univ.

6 Iron ore was formerly obtained on the w. side of this mountain, to sunly the furness at Lugerne.

50,000 sides of leather per annum.

8 Alex. Stewart settled on the Hudson in 1788; Elijah Ellis, on the S. side of the Sacondaga, — Ricard, on the N., and Henry

tain, to supply the furnace at Luzerue.
7 This tannery consumes 5,000 cords of bark and manufactures

- Wilson taught the first school, Walker, at Hadiey, in 1790. — Wilson taught the first sawnill, in 1791-9; and Alex. Stewart, the first gristmill, in 1803. Jonathan Flanders kept the first inn, and Jereny Rockwell the first store, in 1807. Col. Gerdon Cenkling built the tannery at Conklingville

and placed the first steam tug on the river.

9 Named from the crescent shape of the land between the Hudson and the Mehawk.

Hudson and the Mehawk.

10 The canal crosses the Mohawk at this place on a stone aqueduct 1,150 feet long and supported by 26 stone piers.

11 In 1689 it was resolved by the authorities of Albany to remove the fort about the house and barn of Harme Lievese, at Half Moon, to a more convenient place,—from which it is in ferred that a considerable settlement existed at that time. In 1714 the precinct of Half Moon contained 101 inhabitants. Among the early settlers were Oldert Onderkirk, on the flates,—Fort, on the Judge Leland farm, and — Taylor, at Mechanicsville, before 1763. The ancient stone house on the Dansbach place, in the s. w. corner of the town, was built in 1718. Skillian Van Den Bergh. There was a sawmill on Steena Kil. Killian Van Den Bergh. There was a sawmill on Steena Kil, near Crescent, in 1762. Wm. Bradshaw built a gristmill on Dwaas Kil at the close of the Revolution. A bridge was erected across the Mohawk in 1794, at a cost of \$12,000.

12 The census reports 7 churches in town; 3 M. E., Bap., Wes.

Meth., Presb., and Friends.

<sup>1</sup> Among the early settlers were John and James Major, John | Walker, at Hadley, in 1790. – (cClelland, Wm., Robt., and Alex. Kelsey, and John McHarg, | in 1791–92. Delane & Hazard 1 Among the early settlers were John and James Major, John McClelland, Wm., Robt, and Alex. Kelsey, and John McHarg, who all came over in the same ship, in 1774. The first death was that of James Major, killed by the fall of a tree, Sept. 11. 1476; John McClelland or —— Prendergast kept the first store, in 1780; Daniel Campbell built the first gristmill.

2 Mr. Smith was accompanied by his parents and 3 brothersin-law, Simeon Babcock, Reuhen Mattison, and Joseph Bawn.

3 The census reports 6 churches in town; 2 Bap, Christian, Friends, M. E., and Presb.

MALTA-was formed from Stillwater, March 3, 1802, and a part of Saratoga was annexed March 28, 1805. It lies upon the w. bank of Saratoga Lake, s. E. of the center of the co. Its surface is chiefly an undulating upland, 60 to 80 feet above Saratoga Lake, and broken by the deep gullies of small streams. The streams are Kayaderosseras Creek, forming the N. boundary, Ballston Outlet Creek, an inlet, and Anthonys Kil, the outlet of Round Lake, and Drummonds Brook, flowing into Saratoga Lake. Round Lake, in the s. E., is nearly circular, and 1 mi. in diameter. A swampy region covering an area of several hundred acres lies in the N.E. part of the town, at the mouth of the Kayaderosseras. The soil is principally a light, sandy loam, with clay and muck in the lowlands. Dunning Street, (Malta p.o.,) near the center of the town, contains 1 church and 17 houses. Maltaville, (p.o.,) in the s. part, Malta Ridge, in the N, and Halls Corners, are hamlets. The first settlers were two men named Drummond and McKelpin, who came before the Revolution and located w. of the lake. The census reports 5 churches in town.2

MILTON—was formed from Ballston, March 7, 1792, and a part of Greenfield was taken of in 1793. It lies a little s. of the center of the co. Its surface is moderately hilly in the N., and undulating in the s., with a slight inclination toward Kayaderosseras Creek, which flows s.z. through the center of the town. This stream has a rapid fall and furnishes a valuable waterpower. Kayawese Creek, from the w., is its principal tributary. In the N. part are limestone ridges, extensively quarried for building stone and lime. The Saratoga mineral spring region extends through the s.E. part. The soil is generally a sandy loam. Ballston Spa, (Ballston p.o.,) the co. seat, was incorp. March 21, 1807. It is situated on Kayaderosseras Creek, in the s. e. corner of the town. It contains the co. buildings, 2 seminaries, 3 5 churches, 2 printing offices, and several manufacturing establishments. Pop. 2,285, of which 1,941 are in this town. village has long been celebrated for its mineral springs.5 Rock City Mills (p. v.) contains 3 paper mills and 34 houses; **West Milton** (p. v.) a church, a paper mill, a shingle mill, a hoe factory, and 40 houses; Bloodville a scythe, edge tool, and knitting factories, and 40 houses; and Factory Village 2 paper mills and 22 houses. Milton Center and Cranes Village are hamlets. The first settlement in town was made by David Wood and his sons Stephen, Benj., Elijah, Nathan, and Enoch, who purchased 600 acres and moved into town before the Revolution.<sup>6</sup> The first church (Bap.) was organized Jan. 22, 1793.<sup>7</sup>

MOREAU<sup>8</sup>—was taken from Northumberland, March 28, 1805. A part was annexed to Corinth in 1848. It lies in the great bend of the Hudson, in the N.E. corner of the co. The w. part of the town is occupied by the rocky and precipitous peaks of the Palmertown Mt. Range. The central and E. portions are undulating and broken by the narrow ravines of small streams. The Hudson River forms the N., the E., and a part of the w. boundary of the town. Upon its course are numerous rapids and waterfalls.9 The Snook Kil and its tributaries drain the s. part of the town. The soil is generally a light, yellow, sandy loam, but in the s. and w. are tracts of clay and gravel. South Glens Falls, (p.v.,) on the Hudson, opposite Glens Falls, contains several manufacturing establishments; 10 pop. 513. Fortsville, (p.v.,) in the central part, contains 25 houses. Clarks Corners, Reynolds Corners, and State Dam are hamlets. Moreau Station is a p. o., situated on the R. & W. R. R. Settlements are said to have been made before the Revolution; but their history is only a vague tradition. The first church (Bap.) was built in 1795.12

<sup>1</sup> These men were suspected of toryism and were driven from the co. Michael Dunning, with 6 sons and 3 daughters, from Conn., came into town in 1777-78. John Rhoades and Timothy Shipman were the first settlers on Malta Ridge; Robt, and John Hunter and Jehiel Parks located at Maltaville about the commencement of the Revolution.

John Hunter and Jeniel Parks located at Maltaville about the commencement of the Revolution.

2 M. E., Cong., Prot. Meth., and Presh.

3 The Ballston Spa Institute, for boys, was established in 1846.

The Ballston Spa Academy was opened in 1855.

4 In the village are a cotton, oilcloth, edge tool, 2 seamless bag, and 2 knitting factories, a tannery, and 2 gristmills. A mfg. co. was incorp. here March 10, 1810.

5 These springs were first discovered in the survey of the Kayaderosseras Patent in 1769. They are situated on the margin of a small stream that flows into Kayaderosseras Creek. The Old Spring, formerly much used, was greatly impaired by the opening of La Fuyette Spring, within 30 feet, in 1825. Wushington Spring was obtained in 1827, by boring 237 feet in the slate. The Saline, or United States Spring, is considerably impregnated with salt. Besides these are the Fulton and Franklin Springs and the Low Well. In 1817, 4 springs were discovered within 20 feet of each other in the bed of the stream. Their properties were unlike, and after a little time they became fresh. These springs are generally clear, cool, and sparkling. Their average temperature is about 50°. The mineral properties are different in different springs; but generally the properties are different in different springs; but generally the and Friends.

water is similar to that of the Saratoga Springs, only less strong.

Gas is copiously discharged with these waters.

<sup>6</sup> Benajah Douglas, graudfather of Hon Stephen A. Douglas, built a log house near the spring, for the accommodation of visitors, in 1792. Silas Adams and Elijah Walbridge located in the N. part of the town in 1784-85. In 1792 Nicholas Low built a twent close by the spring, and in 1804 he agreed the in the N. part of the town in 173-53. In 1792 McRobas Low built a tavern close by the spring; and in 1804 he erected the "Sans Souci Hotel." 'The census reports 8 churches in town; 2 Bap., 2 M. E., 2 Presb., Prot. E., and R. C.

<sup>&</sup>lt;sup>8</sup> Named from Marshal Moreau, who visited the U.S. in 1804-05. 9 See page 690.

<sup>10</sup> In this village are 2 sash and blind factories, a tub and 10 In this village are 2 sash and blind factories, a tun and spoke factory, planing mill, broom handle factory, a extensive sawmill, and marble factory. Cheney & Arne's sawmills employ 75 men, run 150 to 190 saws, and manufacture more than 10,000,000 feet of lumber per annum. The marble manufactured is a black variety obtained from the Chazy limestone in the

<sup>18</sup> a black variety obtained from the Chary Inhestoric in the immediate vicinity.

11 A man named Marvin was the first settler at Fortsville, about 1795; Edward and Elijah Durham and Holly St. John were the first settlers at Clarks Corners; —— Hamilton built the first gristmill, about 1800. Abel Crandall kept the first inn,

in 1798.

12 The census reports 5 churches; Bap., Cong., M. E., Union,

NORTHUMBERLAND—was formed from Saratoga, March 16, 1798. A part of Hadley was taken off in 1801, Moreau in 1805, and Wilton in 1818. It lies upon the Hudson, N. of the Its surface is level or undulating and broken by deep ravines. A line of clay and slate bluffs, 30 to 100 feet high, extends along the river. Snook Kil and its tributary, Beaver Dam Creek, are the principal streams. The soil is generally a light, sandy loam. This town shares with Fort Edward the Fort Miller Falls. Gansevoort, (p.v.,) on Snook Kil, in the N. part of the town, contains 2 churches and a pop. of 162. It is a station on the S. & W. R. R. Bacon Hill<sup>3</sup> (p.o.) and Northumberland, (p.o.,) in the s.E. part of the town, are hamlets. Fort Miller was built in this town in 1755, under the direction of Col. Miller. It was located upon the flat, above the rapids, and was enclosed on three sides by the river. A blockhouse was built on the heights that commanded the position on the w. The first settlers probably came in before the Revolution. Among them was a man named Munroe, who built the first sawmill, at Gansevoort.<sup>5</sup> There are 4 churches in town.<sup>6</sup>

PROVIDENCE—was formed from Galway, Feb. 5, 1796, and Edinburgh was taken off in 1891. It lies near the center of the w. border of the co. Its surface is mountainous in the N. E. and broken and hilly in the s.w. The high regions along the N. and E. borders are mostly covered with forests. Hagadorns, Hans, Cadmans, and Frenchmans Creeks, small mill streams rising in the mountains and flowing s. w. into Fulton co., are the principal watercourses. The soil is chiefly a coarse, yellow sand or gravel of poor quality. Large tracts are stony and rocky. Wooden ware, leather, and lumber are extensively manufactured. Barkersville (p.o.) and Hagadorn Hollow are hamlets. Providence and W. Providence are p. offices. The first settlement was made previous to the Revolution, but the settlers were driven off during the war. Among the first settlers after the war were Nathaniel Wells and Seth Kellogg.7 There are 3 churches in town; Bap., Christian, and M. E.

SARATOGA<sup>8</sup>—was formed as a district, March 24, 1772, and as a town, March 7, 1788. Easton (Washington co.) was taken off in 1789, a part of Greenfield in 1793, Northumberland in 1798, a part of Malta in 1805, and Saratoga Springs in 1819. It lies upon the Hudson, near the center of the E. border of the co. A range of high, rounded, and sometimes terraced hills extends n. and s. through the central and w. parts. These hills rise 450 feet above the Hudson and slope in every direction. Narrow alluvial flats bordered by high clay bluffs extend along the Hudson. Saratoga Lake forms a portion of the w. boundary. Fish Creek, the outlet of the lake, flowing through the N. part of the town, is the principal stream; and upon it are several fine mill sites. The other streams are small brooks. The soil N. of Fish Creek is light and sandy, and in the remaining parts of the town it is a gravelly and clayey loam. Three mineral springs, known as "Quaker Springs," issue from the Hudson River slate, in a ravine a little s. E. of the center of the town. Schuylerville, 10 (p. v.,) incorp. April 16, 1831, is situated on the river, at the mouth of Fish Creek. It contains 4 churches, the Schuylerville Academy, a newspaper office, a bank, cotton factory, and foundery; pop. 1,184. Victory Mills, (p. v.,) situated on Fish Creek, contains 1 church, a machine shop, and an extensive cotton factory; 11 pop. 729. Quaker Springs, (p. v.,) near the center of the town, contains 1 church and 22 houses. Grangerville, (p. o.,) on Fish Creek, is a hamlet. Deans Corners (p. o.) and Coveville are hamlets. Settlement was begun in the early part of the last century, upon the Hudson. The first church (Ref. Prot. D.) was formed before the Revolution.<sup>13</sup> The census reports 7 churches in town.<sup>14</sup>

SARATOGA SPRINGS—was formed from Saratoga, April 9, 1819. It occupies a nearly central position in the co. Its surface is rolling or moderately hilly. Kayaderosseras Creek

<sup>2</sup> Named from Col. Pcter Gansevoort, who located here soon after the war.

<sup>3</sup> Named from Ebenezer Bacon, who came from Conn. in 1794, and opened the first framed tavern the same year. The place has been called "Fiddletown" and "Popes Corners" at different

<sup>4</sup> Munroe was a tory, and fled to Canada, and his property was confiscated.

<sup>5</sup> Gansevoort discovered the irons of Munroe's mill and erected • Gansevoort discovered the irons of Munroe's mill and erected a new sawmill. He soon after built a gristmill. Fort Miller bridge was first erected by a company incorp. March 16, 1803. The present bridge was erected in 1845. It has a single road track and a canal towing path. • 2 Ref. Prot. D., 2 M. E. 7 — Corey built the first sawmill, in 1786, and the first gristmill, soon afterward. The first inn was kept by — Shankland.

<sup>8</sup> Written "Saraghtoga" until about 1793. Upon the old map of the Kayaderosseras Patent this name is spelled "Seraghtogha."

The name was first applied to a settlement on the Hudson, in the vicinity of the present village of Schuylerville. It is said to The name was first applied to a scattering of the relations of the vicinity of the present village of Schuylerville. It is said to signify "swift water," and was applied to the rapids in the river, in contradistinction to still water, just below.

9 The water of these springs contains line, magnesis, and

iron, held in solution by carbonic acid, and a large proportion

of common salt and soda.

10 Named in honor of Gen. Philip Schuyler, who resided here previous to the Revolution. During the war his buildings and mills were burned by order of Burgoyne.

11 There are 455 looms in this factory. In 1857, 3,565,411 yds.

of print cloths and sliesias were manufactured.

Part the attack upon Old Fort Saratoga, upon the opposite side of the Hudson, in the fall of 1745, several sawmills and other buildings, upon Fish Creek and the river, were burned, and about 30 families were killed or taken prisoners.

British troops made a riding school of this church 1a The

<sup>14 3</sup> M. E., Bap., Ref. Prot. D., R. C., and Friends.

and Saratoga Lake, forming the s. boundary, are skirted by a line of low bluffs. The streams are Ellis and Owl Pond Creeks. An extensive tract lying x. of Saratoga Lake and along the course of Owl Pond Creek is low and swampy. The soil is an inferior quality of yellowish, sandy loam. The far famed mineral springs, which give to the town its name, are situated about 3 mi. N. W. of Saratoga Lake. They are near the center of the mineral spring region, which has a radius of nearly 10 mi. 1 Saratoga Springs (p. v.) was incorp. April 17, 1826. It contains 2 female seminaries, 7 churches, 2 banks, 5 printing offices, 2 public halls, 22 hotels, 3 and several sanitary Pop. 5,129. The business of the village is principally connected with the enter tainment of strangers during the fashionable watering season. The springs are on that part of the Kayaderosseras Patent that fell to the share of Rip Van Dam. Sir Wm. Johnson is said to have been the first white person who ever used the Saratoga waters for medicinal purposes. In 1767 he was brought to the place on a litter, and, after remaining several days, he was able to return on foot. His example was followed, and the visits of invalids soon became of frequent occurrence. In 1773, Derick Scowton made the first clearing and erected a hut. He was followed soon after by George Arnold and Saml. Norton.<sup>5</sup> In 1783, Gen. Schuyler cut a road through from Fish Creek, and spent several weeks here, living in a tent. The next year he erected a framed house, (the first in town,) and annually afterward until his death he spent a part of the summer here with his family.6 Several prominent men have resided in the village. The census reports 7 churches in town.

STILLWATER9—was formed March 7, 1788. A part of Easton (Washington co.) was

1 High Rock Spring, the first discovered of these, was so named from a pyramidal mound of calcareous tufa  $3\frac{1}{4}$  feet high and  $24\frac{1}{4}$  feet in diameter at the base which has been formed around it. An aperture I toot in diameter opens from the top of the rock downward, in which the water generally rises  $1\frac{1}{3}$  feet above the surface of the ground. It is said that the water once overflowed the top; but at an early day the rock was cracked by the fall of a tree, and the water sunk to its present level. Congress Spring was discovered in 1792, by a hunting party, and named in compliment to John Taylor, one of the number, who had been a member of the Continental Congress. The present spring been a member of the Continental Congress. The present spring was obtained by sinking a well in the bed of the stream near the original fountain. The Columbia Spring, a few rods s.w. of the latter, is chalybeate, and constantly boiling from the escape of gas. It was opened in 1806, by G. Putnam. The Hemilton Spring, 50 rods x. E. of Congress, was discovered by G. Putnam, and brought into use by Dr. Clarke. The Pavilion Fountain, opened in 1829, has a smart, pungent taste. The Iodine Spring, eitherted a few rods x of High. Beek was expend in 1829. The situated a few rods N. of High Rock, was opened in 1839.

water contains a large proportion of iodine and very little iron. This spring has sometimes been called the Walton Spring, from Henry Walton, a large proprietor of lands in the vicinity. Henry Walton, a large proprietor of lands in the vicinity. The Empire Spring, the most northerly in the village, was opened in 1846. It discharges 75 gallons per hour. The Washington Spring, 50 rods s. w. of Congress Spring, was opened in 1806. Putnam Spring is in the immediate vicinity. Flat Rock Spring, 100 rods N. E. from Hamilton, is chalybeate. Red Spring is 90 rods s. w. of High Rock; and Mornee Spring, 15 rods s. Not Flat Rock. Ten Springs were discovered in 1814, 1 mi. N. E. of the Rock. Ten Springs were discovered in 1814, 1 mi. N. E. of the greek. There are several other springs in the immediate vicinity. But he are connected with most of these princes and the interest. Baths are connected with most of these springs, and an immense trade has sprung up in the bottling and sale of the water. The temperature of the fountains ranges from 48° to 51°, and it is not sensibly affected by the seasons. The following table gives an analysis of several of these springs. The figures show the number of grains in a gallon of water.

 Named from the "still water" in the Hudson, on the bordors

taken off in 1789, and Malta in 1802. It lies upon the Hudson, s. E. of the center of the co. It is uneven in the s. and moderately hilly in the s. The highest point is about 250 feet above the Hudson. A range of clay bluffs 60 to 100 feet high borders upon intervales of the Hudson and Anthonys Kil. The streams are generally small brooks flowing in deep gullies worn in the drift deposits. The N. w. corner borders upon Saratoga Lake. The river intervales are alluvial. of the river bluffs is a wide belt of heavy clay; and in the s.w. part is a sandy tract interspersed with swamps. Upon the lake shore is a sulphur spring.2 Stillwater, (p. v.,) incorp. April 17, 1816, is situated on the Hudson. It contains 4 churches, and manufactories of lumber, paper. woolens, and castings. Pop. 552. Mechanicsville, (p. v.,) incorp. July 16, 1859, situated on the Hudson, at the mouth of Anthonys Kil, on the line of Half Moon, is a station on the Rensselaer & Saratoga R. R. It contains 5 churches, a printing office, and an extensive linen thread manufactory. Pop. 1,111,—616 in Stillwater, 495 in Half Moon. Bemis Heights, 4 (p.o.,) on the Champlain Canal, near the Hudson, and Ketchums Corners (p.o.) are hamlets. was included in the Saratoga Patent of 1684; and settlement was commenced about 1750.5 The first church (Cong.) was established in 1763.6 There are 8 churches in town.7

WATERFORD8—was formed from Half Moon, April 17, 1816. It lies at the junction of the Hudson and Mohawk Rivers, in the s.E. corner of the co. Its area is about 7 sq. mi. Its surface is mostly an upland, 50 to 100 feet above the river. The Mohawk is bordered by an almost perpendicular range of slate bluffs, and the Hudson Valley by a range of clay bluffs. The soil is a sandy, clayey, and alluvial loam of great fertility. The falls in the Mohawk furnish a valuable water-power. Waterford, (p.v.,) incorp. April 6, 1801, is ituated on the Champlain Canal, near the confluence of the Hudson11 and Mohawk Rivers, is a station on the Rensselaer & Saratoga R. R. and the Albany & Northern R. R. It contains 6 churches, a newspaper office, a bank, and several manufacturing establishments. Pop. 3,083. Settlement was commenced by the Dutch at a very early day. The census reports 7 churches in town. 13

WILTON-was formed from Northumberland, April 20, 1818. It lies a little N.E. of the center of the co. The Palmertown Mts., with their steep, rocky slopes and broken, forest-covered summits, extend across the N. W. corner. The center and S. W. are gently undulating, or broken by low ridges. The principal streams are Snook Kil and Bog Meadow and Cold Brooks. The soil in the E. and S. E. is a yellow, sandy loam resting on clay, and in some places swampy. At the foot of the Palmertown Mts. is a belt of productive gravel and clay loam. A heavy growth of white and yellow pine originally covered the plains, but little woodland now remains. Near Emersons Corners is a spring of acidulous and carbonated water, and in the s. part of the town is a sulphur spring. Wilton (p. v.) contains 20 houses; and Emersons Corners, in the N. part of the town, is a hamlet. The first settlement was made in 1774 or '75, by Rowland Perry and his sons Samuel, John, Benj., Absalom, Roswell, Artemas, Rowland, and Joseph, from Dutchess co.14 Near the mill pond on Snook Kil are traces of Indian occupation; pestles, broken pottery, and flint arrow heads have been found in abundance. The census reports 4 churches in town.<sup>15</sup>

Upon these streams are several fine cascades.
 This spring is called the White Sulphur Spring. A few years since, a hotel and bathing house were erected here, and a small steamer was put upon the lake. The building was hurned 2 or 3 years after, and the enterprise was abandoned.
 The American Linen Thread Manufacturing Co. was organized in 1852. The number of men employed is 125.
 Named from Jonatban Bemis, who during the Revolution kept the only inn worthy of note on the Albany & Fort Edward Road.
 Among the first settlers were John Thompson, Geo. Palmer, — Benjamin, Dirck Swart, — Ensign, — Burlinghame, and — Abeel. The first gristmill was built by Geo. Palmer, before the Revolution.
 This church was organized at Litchfield, Conn., in 1752, and

<sup>&</sup>lt;sup>5</sup> This church was organized at Litchfield, Conn., in 1752, and in 1763 was removed to Stillwater. Rev. Robt. Campbell was

<sup>13</sup> Tros was tended to Stiffwater. Rev. Robt. Camphen was the first pastor.

7 3 M. E., 2 Bap., Presb., Prot. E., and R. C.

8 The Indians called the country around the mouth of the Mohawk "Nach-te-nack." This town was formerly known as Half Moon Point; and the semi-circular tract between the Hud-son and the Mohawk was called Half Moon. Its present name originated from the fact that at the village of Waterford a ford

organization in the fact of the willage was purchased by Col. Jacobus 9 In 1784 the site of the village was purchased by Col. Jacobus Van Schoon, — Middlebrook, Ezra Hickock, Judge White, and several others, most of whom were from Conn.; and Flores

Bancker was employed to lay it out into village lots. July 11, 1841, a destructive fire occurred, which destroyed 130 buildings.

10 On the 25th of March, 1794, Hezekiah Ketchum, Jacobus
Van Schoonhoven, Matthew Gregory, Isaac Keeler, John Pettett,

Duncan Oliphant, and Thos. Smith were constituted trustees of Half Moon Point.

<sup>11</sup> A bridge across the Hudson at this place was built in 1804, at a cost of \$50,000. The present structure, known as the "Union Bridge," was built in 1812, '13, and '14, at a cost of

<sup>220,000.

12</sup> A hydraulic canal ½ mi, in length was constructed in 1828-29, by J. F. King. Upon this canal are 2 stock and die factories, a machine shop, ax factory, twine factory, ink and lampblack factory, soap and candle factory, flouring mill, and a pearling mill. On the Champlain Canal are 3 flouring mills, a pearling mill. On the Champlain Canal are 3 flouring mills, a pearling and machine shop, an auger factory, and a distillery. a pearling mill. On the Champlain Canal are 3 flouring mills, a foundery and machine shop, an auger factory, and a distillery. The fire engine works at this place were started in 1831. About \$60,000 worth of work is turned out per annum, and 40 men

are employed.

13 Bap., Cong., M. E., Presb., Prot. E., Ref. Prot. D., and R. C.

14 John Stiles, Ebenezer King, John Laing, Peter Johnson,
and Jas. and Wm. McGregor settled in town in 1775; and John
Boyce, Robt. Milligan, John Kendrick, and Enoch M. Place
in 1784. John Laing built the first sawmill, in 1784-85, and Wm. McGregor the first gristmill, soon after the war. Stephen King kept the first inn, and — Ostrom the first store, 15 Bap., M. E., Prot. Meth., and Union.

## SCHENECTADY COUNTY.

This county was formed from Albany, March 7, 1809. It is centrally distant 20 mi. from Albany, and contains 221 sq. mi. The greater part lies between Mohawk River and Schoharie Creek,-one town only lying N. of the Mohawk. The surface consists of the Mohawk Valley and an upland, generally much broken by ridges and isolated hills, 200 to 350 feet above the river. The highlands are the northern continuation of the Helderbergh and Schoharie Mts. The underlying rock is generally the shales of the Hudson River group, which crop out in the valleys and the bottoms of the ravines. In portions of Glenville and Duanesburgh this rock is underlaid by birdseye limestone, from which are obtained both lime and stone for building. The greater part of the surface is

covered with a thick deposit of drift, consisting principally of clay in the w. part and sand in the E. The rocks crop out on the banks of the streams and form the declivities of the steeper hills. The soil in the w. part is a tenacious, clayey loam, underlaid by hardpan on the hills, and in the E. a light, unproductive sand. The valley of the Mohawk consists of a deep, rich alluvium, well adapted

to tillage, and extensively devoted to the cultivation of broomcorn.1

The principal streams are Mohawk River, Schoharie Creek, and Normans Kil, and their branches. The valleys of these streams are generally bordered by the steep declivities of the uplands, rising to a height of about 300 feet. Many of the smaller streams have worn deep gullies, in the loose drift deposits, giving to the surface a very broken character. small streams are mostly dry in summer. The fine alluvial flats near Schenectady, extending 5 mi. w. on the s. side of the river, were called by the first settlers the "Bouwlandt." A tract 2 mi. in extent, N. of the river, was called the "Maalwyck;" and a tract on both sides, 4 mi. w. of the city, was known as the "Woestina." A region immediately about Schenectady was called "Oron-nygh-wurrie-gughre;" the hills s. were known as the "Yan-ta-puch-a-berg;" and those on both sides of the river above the city were called "Tou-ar-e-u-ne." The streams of "Woestina" were " Verf Kil," Zantzee Kil, and "Righelbrigh Kil." The valleys are best adapted to tillage and the hills to pasturage.9 Manufactures are chiefly limited to the city of Schenectady.10 In Glenville are about a dozen broom factories, employing 450 persons.

The county seat is located at Schenectady City. The courthouse and clerk's office are both situated on Union St.: the former contains the courtroom, jail, sheriff's and supervisors' rooms, 15 and the latter the clerk's and surrogate's offices. The poorhouse is located on a farm of 116 acres, on the Albany Road, just E. of the city. It has, on an average, about 75 inmates, and the farm vields a revenue of \$1,200. There are 5 newspapers published in the co.13

1 One-half of the entire broomcorn crop of the State is raised within this co. A considerable portion of the broomcorn land is annually overflowed, rendering it continually fertile; and many tracts have produced this crop alone for many years.

2 % Arable Land.

2 "Arable Land."
3 "Whirl-back," from the tortuous course of the Mohawk.
4 "Wilderness."

5 Mixed Indian and Dutch, signifying "John-ear-of-corn-hill." 6 "Paint Creek," from the yellow earth along the banks. 7 "Sea-Sand Creek." 8 "Rail-bridge Creek."

At an early period the Mohawk Valley was celebrated for its

At an early period the Monawk uaify was celebrated for its large wheat crops; but now very little is raised.

10 See page 598.

11 By the terms of the act making Schenectady the co. seat, the courthouse was to be built at the expense of the city. The first county officers were Gerrit S. Veeder. First Judge; Peter V. Veeder, Clerk; Jas. V. S. Riley, Sherif; and Wm. J.

Teller, Surrogate.

12 The first courts were held in the City Hall, and afterward

in the West College.

18 The following is a nearly complete list of the newspapers in

the co.:—
The Western Spectator was issued prior to 1807.
The Schenectady Cabinet was commenced in Jan. 1809, by Isaac
Riggs. In 1850 it passed into the hands of S. S. Riggs,
who continued it until 1857.
The Western Budget was issued a short time in 1809.

Mohawk Advertiser was pub. in 1810 by R. Schermerhorn. The Floriad, 8vo, mo., was published in 1811.

The Schenectady Gazette was published in 1812, by Ryer Schermerhorn

The Schenectady County Whig was issued in 1830, by C. G. and A. Palmer, and was continued until 1834.

The Schenectady Standard was published in 1831, by T. J.

Sutherland.

The Schenectady Democrat was begun in 1823, by C. G. and A. Palmer. T. W. Flagg became its publisher in 1837, and the same year it was changed to The Reflector and Schemectady Democrat. It has been successively published by G. Yates, E. H. Kıncaid, and A. A. Keyser, and is now published by Fred.

W. Hoffman.

The Censor was published in 1834, by the students of Union College. The Parthenon, mo., was published in 1846-47 by the college students.

The Mohawker was published in 1835, by Riggs & Norris.
The Protestant Sentinel was commenced in 1835, by Rev. John
Maxon, and continued 2 years.
The Wreath was started in 1835, by W. H. Burleigh, and con-

tinued 1 year.

Freedom's Sentinel was issued during the campaign of 1840, by

Freedom's Sentinet was used during the campaign of 1840, by Stephen S. Riggs.

The Antiquarian and General Review, mo., was started in 1845, by Rev. W. Arthur, and continued 2 years.

The Scroll, mo., was published a short time in 1849.

The Schenectady Democrat was founded in 1853, by W. M. Colvore and W. N. Clark. In 1857 it was sold to A. J. Thompson, and in April, 1859, to C. Thayer.

The great flat upon the Mohawk w. of "Fort Orange," and where the city of Schenectady now stands, was bought of the natives in July, 1661, in the name of Arent Van Corlaer; and settlement was commenced during the same year. It was under the charge of 5 commissioners until Nov. 1, 1684, when Gov. Dongan granted a patent confirming previous rights and extending the territory.2 On the night between the 8th and 9th of Feb. 1690, N.S., the settlement—then consisting of about 80 houses—was surprised by a party of about 300 French and Indians, and nearly every house was burned. Sixty-three persons were killed, and 27 were carried to Canada as prisoners. The night was intensely cold, and the nearest place of refuge was Albany, to which a few escaped after much suffering.4 In 1702 R. Schermerhorn became sole trustee; and in 1705 a new patent was issued, conferring certain township privileges. On the 23d of Oct. 1765, the place was created a borough, with the rights and immunities incident to these corporations.<sup>5</sup> From 1726 to the Revolution the township of Schenectady sent a representative to the General Assembly. During the war the village was fortified and garrisoned at the public expense, and many families from the Upper Mohawk sought protection here from the incursions of the tories and Indians.<sup>6</sup> For several years after 1779 a large number of friendly Oneida and Tuscarora families, driven from their homes by the hostile tribes, were supported in this vicinity at the expense of the General Government. At the return of peace the settlement shared in the general prosperity. A new impulse was given to business by the improvements effected by the Western Inland Navigation Co., which enabled large boats to make longer voyages.7 Upon the completion of the Erie Canal the Mohawk navigation was entirely superseded. For several years after the completion of the R.R. from Albany in 1831, large quantities of merchandise were sent here to be shipped on the canal, saving the delay of the circuitous route and numerous locks on the canal between Schenectady and Troy.8 In 1832 a R. R. was built to Saratoga, in 1835, to Utica, and in 1843, to Troy. In 1849 several plank roads were built, which since have been mostly abandoned.

**DUANESBURGH**<sup>9</sup>—was erected as a township, by patent, March 13, 1765, and it was first recognized as a town March 22, 1788. It lies in the s. w. corner of the co. Its surface consists of an upland, broken by the narrow valleys and gullies of small streams. Schoharie Creek forms a portion of its w. boundary, and Normans Kil flows through the s. part. hills that border upon these streams are steep, and in some places rocky. principal streams are Corrys Brook, Chuctenunda Creek, and Bozen Kil. Maria Pond and Featherstons Lake are 2 small bodies of water in the N. E. part, about 250 feet above the canal. The soil is principally a stiff, clay loam, with a slight intermixture of gravel. It is best adapted to pasturage. Duanesburgh (p. v.) contains about a dozen houses, Quaker Street10 (p. v.) 30, Mariaville<sup>11</sup> (p. v.) 20, and Bramans Corners (p. v.) 18. Eatons Cormers is a hamlet. Large tracts in this town were purchased by different parties between 1736 and 1770,12 but no active measures of settlement were taken till about the time of its organization in 1765. During that year Duane, who had become an extensive proprietor, con-

The Schenectady Morning Star, started Feb. 24, 1854, by W. M.
Colborne and W. N. Clark, was changed in 1854 to
The Evening Star, da., now published by W. M. Col.

borne.

The Schenectady Republican has been published s new Sept. 1857, by Colborne & Landon.

The Schenectady Daily News was started in April.

1859, by Frederic W. Hoffman, E. F. Loveridge, editor.

1 The grantors were 4 Mohawk chiefs, named Cantuque, Sonarcetsie, Aladane, and Sodachdrasse. This grant was confirmed the next year, and the tract was surveyed in 1664. The hababitants of Fort Orange, wishing to monopolize the Indian trade, presented to the settlers, before the land was received inhabitants of Fort Orange, wishing to monopolize the Indian trade, presented to the settlers, before the land was received from the surveyor, a written pledge to abstain from trading with the Indians. A remonstrance against this injustice was signed by the following early settlers, viz.: A. Van Corlaer, Philip Hendrickson, Sanders Lendertsen Glen, Simon Volkrartsen, Pieter Soghmaekelyk, Teunis Cornelissen, Marte Cornelise, Willem Teller, Bastiaen De Winter for Catalyn, widow of Arent Andries de Voss, Pieter Jacobse Borsboom, Pieter Danielse Van Olinda, Jan Barentse Wemp, and Jacques Cornelise. Their resistance occasioned several years' delay in the survey of the lands. 2 Wm. Teller, Ryer Schermerhorn, Sweer Tunison, Jan Van Eps, and Myndert Wemp were appointed trustees under this grant. The tract embraced the present city, and the towns of Glenville, Rotterdam, and part of Niskayuna.

8 Previous to 1752 time was reckoned in England by "Old Style," the year commencing on the 25th of March. All dates previous to that time, between Jan. 1 and March 25, are reckoned in 1 year by "Old Style," and in the following year by "New Style."

<sup>4</sup> Colden's Five Nations, 3d ed., I. p. 120. <sup>5</sup> This and West Chester were the only boroughs in the colony.

6 The place was never visited by a hostile army after 1690.

The colonial statutes contain frequent provisions for the rebuilding, repairs, and supplies of this fort.

7 This company cleared the river of impediments to navigation

7 This company cleared the river of impediments to navigation as much as possible, built a lock at Little Falls, and in 1796 built a short canal connecting the Upper Mohawk with Wood Creek, which flows into Oneida Lake, opening a direct water communication with the chain of lakes in the interior of the State, and with Lake Ontario and the St. Lawrence. The boats employed, called "Durham boats," were propelled np stream by setting poles, and were floated down by the current.

§ This business was stopped by the repeal of the statute prohibiting the R. R. from carrying freight w. of this place.

§ Named from James Duane, the principal proprietor. It was first joined with Schoharic, as "the united district of Duanesburgh and Schoharie." It was made a separate district, March 24, 1772. Mr. Duane took an active part in public affairs during the Revolution and the earlier years of the State Government, and was a liberal benefactor of the town.

10 Boots and shoes, wagons, and sash and blinds, are manufactured here.

factured here.

11 Named from a daughter of James Duane.
12 Among the purchasers were Thos. Freeman, in 1736, Timothy Bagley, in 1737, A. P. and William Cosby, in 1738, Walter Butler, in 1739, and Jonathan Brewer, in 1770. Wm. North, an officer of the Revolution, married a daughter of Duane and resided several years in this town.

tracted with 20 Germans from Penn., of whom 16 came on and made a permanent settlement.1 The first church (Christs Ch., Prot. E.) was formed Aug. 3, 1795, and the church edifice was erected by Judge Duane. Rev. David Belden was the first rector.2

GLENVILLE3—was formed from Schenectady, April 14, 1820. It is the only town in the co. N. of the Mohawk. The central and w. parts are occupied by rugged and wooded hills abruptly rising from the valley of the river to a height of 300 feet. The E. part is nearly level. The streams are Crabbs Kil, Chaugh-ta-noon-da, Aalplaats, and Jan Wemps Crecks, and Verf Kil. The soil among the hills is a stiff clay, underlaid by hardpan, with an occasional outcrop of slate; and in the E. part it is a sandy and gravelly loam. The Mohawk intervales are very fertile, and are chiefly devoted to the culture of broomcorn. Glenville (p. v.) contains 2 churches and 20 houses, Scotia<sup>5</sup> (p.v.) 2 churches and 266 inhabitants, Reesville 12 houses and a broom factory, and High Mills 13 houses, 1 grist and 2 saw mills, and woolen factory. Hoffmans Ferry (p. o.) is a hamlet and R. R. station. East Glenville and Town Center are p. offices. Bridges connect this town with Schenectady and Niskayuna. Settlements were made about 1665, and were among the earliest in the co.7 The Sanders House, in this town, was spared by the enemy when Schenectady was destroyed.8 There are 5 churches in town.9

NISKAYUNA10—was formed from Watervliet, (Albany co.,) March 7, 1809. A part of Schenectady was annexed in 1853. It lies upon the Mohawk, in the E. part of the co. Its surface is mostly upland, terminating in steep bluffs upon the river valley. The intervales are very rich and productive. A strip of land about 1 mi. wide, extending back from the summits of the bluffs, has a hard, clay soil, and a considerable portion of it is swampy and unfit for cultivation. Further s. the soil is sandy. Watervliet Center (p. o) is within the limits of this town. Niskayuna is a hamlet in the s. E. corner. The first settlements were made about 1640.11 The canal crosses the Mohawk into this town upon a magnificent stone aqueduct.12 There is 1 church (Ref. Prot. D.) in town.

PRINCETOWN<sup>13</sup>—was formed from Schenectady, March 26, 1798. It lies a little w. of the center of the co. Its surface consists of a broken upland, gently descending toward the s. E. The streams are Normans Kil in the s. and Zantzee Kil in the N.14 The soil is a heavy clay loam, underlaid by hardpan, and is best adapted to grazing. Princetown (p.o.) is a hamlet. The town was chiefly conveyed to Geo. Ingoldsby and Aaron Bradt, in 1737. Wm. Corry afterward became owner, and formed a settlement, which was long known as "Corrysbush." The town was thinly settled at the time of the Revolution. The Princetown Academy, a Presb. institution, was opened here, on an extensive scale, in 1853, and was discontinued in 1856. There are a Presb. and a Ref. Prot. D. church in town.

ROTTERDAM—was formed from Schenectady, April 14, 1820. A part of the city was annexed in 1853. It lies near the center of the co., upon the s. bank of the Mohawk. The surface consists of a broken, hilly region in the N. W., a level intervale extending from the center toward the s., and a high plain in the E. The soil upon the w. hills is a tough clay, underlaid by shale, which frequently crops out. The central valley or plain, 5 mi. in extent, was called by the Dutch the "Bouwlandt." The soil is a deep alluvium. The E. plateau is sandy and barren. Rotterdam, Mohawkville, and Factoryville are hamlets.15 Settlements were first made about 1661.16 The first church was organized Aug. 29, 1800; Rev. Thos. Romeyn was the first pastor.17

<sup>1</sup> The tract embraced about 60,000 acres, and the lands were rented at the rate of \$15 per 100 acres, on long leases. The agents of Sir Wm. Johnson excited a prejudice against these

rented at the rate of \$15 per 100 acres, on long leases. The agents of Sir Wm. Johnson excited a prejudice against these lands which retarded their settlement.

2 There are in town 5 other churches; Cameronian, Bap., Univ., Prosb., and Quaker.

8 Named from the original patentee.

6 "Eel Place."

6 Locally pronounced "Sco-clty."

6 Harmauus Vedder established a ferry here about 1790, and it was called Vedders Ferry until 1835, when it was bought by John Hoffman and the name was changed.

7 In 1865 the country around Scotia was granted to Sanders Lendertsen Glen, a native of Scotland, who removed to Holland in 1645 on account of religious persecutions. After several years there spent in mercantile pursuits, he migrated to "New Notherlands." Yan Slycks Island was granted to Jacques Van Slyck, Nov. 13, 1662.—Barber's Hist. Coll.

9 On a former occasion a party of French, sent against the Mohawks, became reduced to the extremity of want, and were obliged to seek assistance of the English. The kindness shown them by Mr. Glen was remembered, and his house was spared. A stone house built in 1713 is still owned by the Sanders family.

<sup>12</sup> By an act of 1805, Alexander Alexander was authorized to build a dam at this place.
13 Named from John Prince, a member of the Assembly from Albany co, at the time of the formation of the town.
14 Upon this stream, on the farm of Eben'r Dougall, is a cascade 60 feet high, and from this point to the Mohawk are numerous rapids and cascades.
15 Among the early settlers were Wilhelmus Van Otto Van Curazoa, (a native of the island of Curaçoa.) Ryer Schermerhorn, and Simon Veeder. The house of Van Otto stood on the site of the one now occupied by Simon Veeder. At the time of the Revolution there were families living in town by the names of Delemont. Van Pelten, and Braugham. Delemont, Van Pelten, and Braugham.

16 At this place is a twine and thread factory.

<sup>17</sup> There are 3 churches in town: 2 Ref. Prot. D. and 1 M. E.

SCHENECTADY CITY—was patented, with certain municipal rights, Nov. 4, 1684; chartered as a borough Oct. 23, 1765; incorp. as a district, March 24, 1772, as a town, March 7, 1788, and as a city, March 26, 1798. Princetown was set off in 1798, Rotterdam and Glenville in 1820, and parts of Niskayuna and Rotterdam in 1853.1 It is situated on the Mohawk, and on the borders of one of the finest intervales in the State. A considerable amount of trade is carried on in the city by means of the canal and the railroads that center here; but the people are more largely engaged in manufactures.2 The engine houses and repair shops of the N. Y. C. R. R. Co. are very extensive; and one of the largest locomotive manufactories in the country is located here.3

This city is especially noted as the seat of Union College. This institution was incorp. by the regents, Feb. 25, 1795, and received its name from the cooperation and union of several religious denominations in its foundation.4 A fund was first raised by private subscription to erect the necessary buildings and to defray the expenses of opening the school;5 and this was increased by the avails of several lotteries authorized by the legislature,6 by grants of land and money from the State, and by private donations. The total amount received from the State, up to 1822, for permanent investment, was \$331,612 13. In a will dated Dec. 28, 1855, Dr. Nott, the president of the college, bequeathed to the trustees \$555,000 for specific purposes and an additional fund for miscellaneous expenses.7 The funds thus bequeathed were derived from the profits of certain investments of college funds, and amounts from other sources, which had been employed for the purpose of creating a fund for the endowment of the institution. The first college building was erected in the city; but in 1814 a tract of land upon an eminence E. of the city was purchased, and the two principal buildings were erected.9 The site commands an extensive view of the city, the river, and the valley. The faculty of the college now consists of a president, 12 professors, 1 lecturer, and 3 tutors. The total number of students is 420, and has not materially varied from this number for a great number of years, the junior and senior classes being invariably larger than those that preceded them. A considerable number of students derive aid from the State fund, which is extended to students of limited means without reference to the profession they intend to follow. The college has received from E.C. Delavan, Esq., a magnificent donation of minerals and shells, known as the "Wheatley Collection," which was purchased for this purpose at a cost of \$10,000. Departments of Civil Engineering and Analytical Chemistry have been organized, and the facilities which they afford are of the most ample kind.

The Public Schools are under 8 commissioners, elected once in 2 years. There were, in 1857, 9 school districts, employing 3 male and 22 female teachers. The number of children between 4 and 21, was 3065, of whom 1729, or 56 per cent., attended the public schools.10

The first settlement was made in 1661, as already noticed.<sup>11</sup> As this was an advance frontier settlement, the compact part, at an early period, was enclosed by palisades. In 1690 the enclosure

1 An Indian name signifying "beyond the plains." Formerly spelled Schenectada. The city, under its first charter, contained an area of 128 sq. mi.; but the successive changes which have

an area of 128 sq.mi.; but the successive changes which have been made have reduced it to a plat of 250 acres.

2 The manufacturing establishments of the city consist of the R. R. machine shops, locomotive works, a cotton factory, 3 curring and machine shops, shawl factory, 2 breweries, 1 brick yard, 2 cabinet shops, 4 founderies a planing mill, pump factory, tannery, 2 tool factories, a vice and spring factory, and a great variety of other mechanics' shops.

3 The 8 chenectady Locomotive Works Co. was incorp. June 4.

3 The Schenectady Locomotive Works Co. was incorp. June 4,

mechanics' shops.

3 The Schenectady Locomotive Works Co. was incorp. June 4, 1851. with a capital of \$150,000, all of which is actively employed. When in full operation, they employ 600 hands, and can turn out 1 locomotive every 5 days.

4 Rev. Wm. Andreas opened the first grammar school, in 1771; and before the close of the year he proposed to change it to an academy. The Cousistory of the Ref. Prot. D. church erected a small academy in 1785. The Schenectady Academy was incorp. Jan. 29, 1793, and was merged in the college in 1795. Rev. John Blair Smith was the first President. He was succeeded in June, 1799, by Rev. Jonathan Edwards, who remained until his death in Aug. 1801. Rev. Jonathan Maxcy was next elected president, and continued till 1804, when he resigned, and was succeeded by Rev. Eliphalet Nott. the present venerable president of the College.

5 In 1779, the inhabitants of the northern part of the State petitioued for the incorp. of a college, but without success. The petition was renewed in 1791, but did not succeed. In 1794 another effort was made, and a subscription of \$7935 was raised from 99 persons in Albany, and of \$3425 from 231 persons in Schenectady, for an endowment. This sum was afterward largely increased by subscription. The location was fixed at

Schenectady, it is said, chiefly through the influence of Gen. Schuyler, and because of its then central location.

6 Lotteries were authorized in 1805, 1814, and 1822.—Munselt's Ann. of Albany, VII, 126; Semi-Centen. Celebration of Union Coll.

7 The items of this bequest are as follows:—
6295,000 for 0 professorships with a selary of \$1500 and

225,000 for 9 professorships, with a salary of \$1500 each, \$60,000 for 6 assistant professorships, at \$600 each. \$60,000 for an astronomical observatory. \$20,000 for 60 auxiliary scholarships, of \$10 and \$12 per term.

\$60,000 for 60 prize scholarships for undergraduates, of \$15 and \$18 per term; in certain cases to be increased to \$24. \$45,000 for 9 scholarships for graduates or fellows, of \$300 each.

\$20,000 for a cemetery. \$10,000 for apparatus. \$5,000 for textbooks.

\$30,000 for an eclectic library. \$5,000 for a geological and mineralogical cabinet. \$5,000 for a historical cabinet.

\$10,000 for a lecture fund. The miscellaneous fund was left discretionary with the trustees to fill deficiencies and extend the operation of any of the foregoing to fill deficiencies and extend the operation of any of the foregoing objects. At the time of this gift the greater part of the funds were invested in real estate in Greenpoint village, opposite N. York City.

8 This building, formerly known as "West College," was sold to the city, and, with an adjoining building, accommodates the 10 departments of the public schools of the city.

9 Other buildings have since been erected, for library, cabinet, and lecture rooms. The corner stone of the Central Chapel was laid July 28, 1858.

10 Total receipts, \$14.423 06; total expenses, \$14,423 06. Volumes in district libraries, 3045.

11 See page 596.

was in form of an oblong rectangle, with gates at the ends. The people, however, felt so secure that the gates were habitually left open, and no guard was kept; and hence it was easily entered by the enemy on the memorable 9th of Feb. 1690, N.S. The lives of 60 old persons and children were spared from the massacre. The settlement recovered slowly from the disaster, and not until the close of King William's War did it receive any considerable accessions. A new fort was built in May, 1690, which was garrisoned for many years. Another fort was built in 1735, and another in 1780.1 The old fort stood at the intersection of Ferry and Front Sts. The first church (Ref. Prot. D.) was organized in 1684, and the building was erected on the s. end of Church St. in 1685. It was burned in 1690; and a new building was erected, about 1702, on the site of the present church, corner of Union and Church Sts. St. George's Church (Prot. E.) was organized, in 1735, by Rev. H. Barclay, incorp. in 1766, and an edifice erected in 1768. The first mail was brought to the town April 3, 1763. The first English school was opened, under the care of Rev. Henry Barclay, in 1710.6 The Vale Cemetery Association was formed Feb. 25, 1858.7 The population of the city has slowly and steadily increased, although, from the setting off of portions of its territory, the census reports for some periods show an apparent decrease.8

direction of the field officers and magistrates.

2 Rev. Peter Tasschemaker, the pastor and first teacher, was killed, and all his papers were destroyed.

8 On the 27th of Oct. 1701, the Governor granted a special license for the inhabitants, or their agents, "to gather, collect, and receive the free and voluntary offerings and contributions of all and singular his liege subjects, inhabitants of this province, at any time from the day of the date hereof for and during the term of six months then ensuing." The funds raised were restricted to the rebuilding of the church; and all justices of restricted to the rebuilding of the church; and all justices of the peace, high sheriffs, and all others his majesty's friends, with all Protestant ministers, were exhorted to use each their utmost diligence to excite and stir up the charities of the inhabitants.—MSS. Sec. Office.

4 Besides these, the census reports 10 churches; 2 Ref. Prot. D.,

## SCHOHARIE COUNTY.

This county was formed from Albany and Otsego, April 6, 1795.1 A small part of Greene was annexed in 1836. It is an interior co., lying s. E. of the center of the State, is centrally distant 35 mi. from Albany, and contains 675 sq. mi. Its surface is an upland, broken by mountains in the s. and by hills in the center and N. A northerly branch of the Catskill Mts. lies along the s. border, the highest summits of which are 3,000 ft. above tide. From them irregular spurs extend northward, occupying the greater part of the co. Many of the summits along the E. and w. borders are 800 to 1,000 ft. above the valleys and about 2,000 ft. above tide. In the N. the hills are generally rounded and are arable to their summits; but in the center and s. the declivities are steep and in

many places precipitous. The high ridge along the E. border, and extending into Albany co., is known as the Hellebark Mts.

The hills derive their general features from the rocks that underlie them. The extreme N. part of the co. is terraced like the limestone region farther w. Toward the s. the hills become more steep; and in the shaly region they are broken by deep, irregular ravines. In many places the hills bordering upon the streams are 1,000 ft. high and in places very steep. Schoharie Creek flows N. E. through the co., a little E. of the center. It receives as tributaries Foxes Creek, Stony Brook, Little Schoharic Creek, Keysers, Platter, and Manor Kils from the E., and Cripplebush, Cobles, Line, Panther, West, and Mine Kils from the w. West and Punch Kils are tributaries of Cobles Kil. Charlotte River, a branch of the Susquehanna, takes its rise in the w. part, and Catskill Creek in the s. E. part, having its source in a marsh called the Vlaie. Utsyanthia2 and Summit Lakes, two small ponds, are the only bodies of water in the co. The former is 1,900 ft. and the latter 2,150 ft. above tide.

The rocks in the co., commencing upon the N. border and appearing successively toward the s., are those belonging to the Hudson River group, Clinton group, Onondaga salt group, Helderbergh series, Hamilton group, Portage and Chemung group, and the Catskill group. The limestones are cavernous; and the minerals which they afford are particularly interesting to mineralogists. Drift is scattered over the co. to a limited extent. Waterlime is found, but is not now manufactured.

The soils are principally derived from the disintegration of the underlying rocks. In the N. the soil is a productive, clay loam, and in the center and s. it is a clay and sandy loam, the latter predominating upon the s. hills. The alluvial flats along Schoharie Creek are unusually fertile.

The co. is eminently an agricultural region. Spring grains are largely produced. Hops are cultivated in the w. part, and broomcorn upon the Schoharie Flats. Dairying is the principal business in the s. part. Very little manufacturing is done, except such as is customary in an agricultural region.

The county seat is located at the village of Schoharie. The courthouse is a fine edifice built of blue limestone, located near the center of the village. The jail is a stone building, situated in rear of the courthouse. The clerk's office is a small, fireproof building, upon the courthouse lot, nearly in front. The poorhouse is located upon a farm of 160 acres in Middleburgh, 5 mi. s. w. of the court-The average number of inmates is 60, supported at a weekly cost of 75 cents each. This institution seems to be well managed and much above the average of similar institutions in the State.

The Albany & Susquehanna R. R. is located along the valleys of Schoharie Creek and Cobles

<sup>1</sup> Schoharie is said to signify "drift wood." At a place 1 mi. above Middleburgh Bridge the Line Kil and Little Schoharie flow into Schoharie Creek from opposite sides; and here drift wood is said to have accumulated in large quantities, 1 Schoharie is said to signify "drift wood."

drift wood is said to have accuminated in large quantities, forming a natural bridge.—Brown's Hist. Scholarie.

The original Indian-name was To-wos-scho'her; and it has been written Shoary. Scholary, Schnghlorre, &c.

2 Utsyanthia was the N. E. corner of the Hardenburgh Patent,

and a distinguished landmark in early records.

3 Among the more interesting are stalactites of pure white, translucent and solid, sulphate of barytes, calcite, satin spar, tufa, agaric mineral, bog ore, black oxid of manganese, sulphate and carbonate of strontia, fluor spar, calstronbaryte, carbonate of iron, and arragonite. The co. affords an unusual variety of fossile neguliar to the preparative galactical formations. fossile peculiar to the respective geological formations. 600

<sup>&</sup>lt;sup>4</sup> The first courts were held in a wagon house of Johannis Ingold, and prisoners were at first sent to the Albany jail. The Incold, and prisoners were at first sent to the Albany jail. The first meeting of the Judges, Justices, and Supervisors was held Dec. 10, 1795, and it was decided to fix the site for co. buildings 2 mi. w. of their present location. The location was changed before the buildings were erected. The first buildings were erected soon after, and were burned in 1847. The first courthouse was built under the direction of Joost Borst, ir., Jacob Lawyer, Peter Snyder, John H. Shafer, and Wm. Phrall, commissioners. Abraham A. Post, of Ontario, Alexander H. Buel, of Herkimer, and Wm. Duer, of Oswego, were appointed to locate the present site. The first co. officers were Wm. Beekman, First Judge, (reappointed constantly till 1838;) Joachim G. Staats, Clerk; Jacob Lawyer, jr., Shertif; and Stephen A. Beeker, Surrogute. Becker, Surrogate.

K.I, through Esperance, Schoharie, Cobleskill, and Richmondville.\(^1\) Several turnpikes and lines of plank road extend across the co.2

About thirty years previous to the advent of the whites, a number of Indians belonging to the Mohawks, Mohicans, Delawares, Tuscaroras, and Oneidas united together, formed the Schoharie tribe, and took up their abode along Schoharie Creek.3 Their principal chief was Ka-righ-ondon-tee, who had been a prisoner of the French in Canada and had married a Mohawk woman. This tribe was subordinate to the Six Nations. They could bring into the field about 600 warriors, and in the wars that ensued they steadily espoused the cause of the British. At an early period, with the aid of the Colonial Government, they erected several strongholds to protect themselves from the attacks of the Canada Indians. A band of 200 Indians remained in the valley, at peace with the settlers, until the commencement of the Revolution. Efforts were made to induce them to remain neutral during the war; but the offers of the British were so tempting that at last they took up arms against their neighbors. Previous to this a pestilence had swept off the greater part of the tribe, though the whites were not in the least affected by it.

The first white settlement was made by a colony of German Palatinates, in 1711. These people had previously settled at East and West Camp, on the Hudson. Their number is estimated at 600 to 700. They settled in 7 clusters, or villages, each under a leader or head man, from whom the dorf, or village, was usually named.4 The Dutch soon after began a settlement at "Vroomansland," on the w. side of the creek, 2 or 3 mi. above the German settlement. The Palatinates at first did not secure a patent for the lands they occupied, and a short time after their settlement Nichola" Bayard appeared as agent of the British Government, and offered to give the settlers deeds for their lands; but he was assailed by a mob and was obliged to flee for his life. Upon reaching Schenectady he sent back word that for an ear of corn each he would give a clear title to the lands occupied by each; but this offer was rejected. He returned to Albany and sold the tract to 5. persons at that place.6 A sheriff, named Adams, was sent to arrest some of the trespassers; but no sooner was his business known than he was assailed by a mob and ridden upon a rail. For a considerable time after this outrage none of the German settlers dared visit Albany; but after a time they ventured to do so, and were at once arrested and thrown into jail. They were at length released on making a written acknowledgment of the outrage they had perpetrated.7 The settlers at length sent an embassy, consisting of Conrad Weiser, — Casselman, and another, to England to petition the king for redress. The ship that took them out carried also a statement of the out rages, and the ambassadors were at once imprisoned; but after a time they were set at liberty and permitted to return. Weiser was so chagrined at the result of the controversy that soon after, with about 60 families, he emigrated to Tulpehocton, Berks co., Penn. Other families removed to German Flats and others to Stone Arabia.8 Peter Vrooman, with several Dutch families,9 perma-

1 The elevation of this road, where it enters the co. on the E. is 700 ft. above tide; at Schoharie Creek it is 550 ft.; at Cobleskill, 900 ft.; at Richmondville, 1.175 ft.; and at the w. co. line, 1.470 ft.

<sup>&</sup>lt;sup>2</sup> The principal turnpikes in the co. in early times were the Great Western, extending to Cherry Valley, built in 1802; and the Charlotte River Turnpike, built in 1809. The latter formed the great thoroughfare to the settlements in Delaware co. and adjacent regions. The plank road project was pretty thoroughly tried, and has been abandoned after a sacrifice of nearly all the

tried, and has been abandoned after a sacrifice of nearly all the capital invested.

The Mohicans principally settled near the mouth of the Little Schoharie; and the largest settlement of the others was at "Froomanskund," in the present town of Fulton.

Six of these leaders were Conrad Weiser, Hartman Winteker, John Hendrick Kneiskern, Elias Garlock, Johannes George Smidt, and William Fox; and John Lawyer, who came soon after, is supposed to have been the seventh. "Weisers Dorf" convied the present six of Widdleburgh Willage, and had some after, is supposed to have been the seventh. "Weisers Dorf" cocupied the present site of Middleburgh Village, and had some 40 dwellings, like the others, built rudely of logs and earth and covered with bark and grass. "Hartmans Dorf" was 2 mi. below, and had 65 dwellings. "Bruns Dorf" or "Brunne Dorf," or "Fountain Town," was near the courthouse. "Smiths Dorf", was a mi. farther N. "Foxs Dorf" was still farther down, about a mi. from Smiths. "Garlocks Dorf" was 2 mi. below; and "Kneiskerns Dorf" 2 or 3 mi. still farther N. Among these corty settlers basides those above, named were families upmed and "Kneiskerns Dorf" 2 or 3 mi, still farther N. Among these early settlers, besides those above named, were families named Keyser, Bouck, Richard, Richtmeyer, Warner, Weaver, Zimmer, Mattice, Zeh, Bellinger, Borst, Schoolcraft, Crysler, Casselman, Newkirk, Earhart, Brown, Settle, Merckley, Snyder, Ball, Weidman, Deitz, Mann, Sternberg, Stubrach, Enderse. Sidney, Bergla, and Houck. Within a week after their arrival, Catharine Mattice, Elizabeth Lawyer, Wilhelmus Bonck, and Johannes Earhart were born. The first wheat was sown by — Sternberg, in 1773; and the first skipple planted like corn yielded 83 fold.

6 Adam Vrooman, from Schenectady, obtained a patent for 1,100 acres, Ang. 26, 1714. His tract was afterward found to contain 1,400 acres. It embraced the flats along the creek in

the present town of Fulton, except Wilder Hook, at which place was an Indian castle and settlement. His son Peter, for whom it was bought, built a house, planted corn, and the first winter left the premises in charge of a man named Truax, and a negro man and his wife. Truax was murdered, and the negro and his wife were arrested, tried at Albany, and burned alive but years after, one Moore, a resident of "Wrisers Dorf," confessed that he and the negro man committed the deed, and that the woman was innocent.—Simm's Scholarie, p. 56,

6 The purchasers were Myndert Schuyler, Peter Van Brugh,
Robert Livingston, jr., Joln Schuyler, and Henry Wielman.
They received a patent. Nov. 3, 1714, for 10,000 acres, which was designed to include the flats from "Froomansland" to Montgomery co. line; but on being surveyed by Lewis Morris, jr. and Andrus

designed to include the flats from "Vroomasslam?" to Montgoniery co. line; but on being surveyed by Lewis Morris, jr., and Andrus Coeyman, it was found that the flats on Fox Creek and at the mouth of Cobles Kil were not included, and these lands were secured by the surveyors. In a short time Morris and Coeyman joined interest with the five proprietors, and the company became known as the "Seven Partners." Final suits for partition and settlement were adjusted in 1819, '25, '26, '28, and '29.

7 After this time a large number of settlers took leases of the proprietors, thus abandoning their claims to the lands.

8 Among those who removed to the Mohawk was Elias Garlock, the first and long the only magistrate in Schoharie.

Among those who removed to the Mohawk was Ellis Garlock, the first and long the only magistrate in Scholarie.
9 Among these were families named Swartz, Ecker, Hagadorn, Feeck, and Becker. Lawrence Schoolcraft made the first cider in the Schoharie settlements; — Brown, in 1752, was the first wagon maker. John Mattice Junk taught the first German school at the Camps, about 1740; and schools were taught in Schoharie soon after. Dutch schools were taught at "Froomans. Schoharie soon after. Dutch schools were taught at "Promans-land" at an early period; and about 1760, English was first taught in schools in this region. John Ecker was the first blacksmith. The settlers of the valley resorted to Schenectady to mill, or used stump mortars, until many years after, when a mill was built on Mill Creek, near Fox Creek, by Simeon Laraway, Bolting cloths were first used in this co. about 1760. John Lawyer was the first merchant among the Germans.

nently located upon his patent in 1727. The German and Dutch races long remained distinct. The Dutch were generally wealthier than the more hardy and laborious Germans, and preferred to contract marriages with those of their own class in the older Dutch settlements. They often kept slaves, while the Germans seldom had further assistance than such as their own households, of both sexes, might afford. The Germans, by intermarriage, became a "family of cousins;" and they were united by many ties of common interest. Industry and frugality gradually brought them to a level, and long acquaintance has almost entirely obliterated these hereditary distinctions of society. Upon the approach of the Revolution, a part of the people espoused the cause of the British; but the majority were ardent patriots. In many cases members of the same family were engaged on opposite sides, and the struggle assumed all the horrors of a civil war, aggravated by Indian barbarities. A Council of Safety was organized in 1774, of which Johannes Ball was chairman. During the war several conflicts took place within the limits of the co., and the people were continually exposed to the attacks of small scalping parties of the Indians.1

At the close of the war a large number of families removed to Canada, and their property was confiscated.2 Several tories and Indians who had been active during the war returned at its close and were waylaid and shot. Others, warned by these examples, fled the country.3 Since that period little of especial interest has occurred in the history of the co. In 1845 and '46, in common with the surrounding regions, this co. partook largely in the anti-rent excitement,though no actual violence took place within its limits.4 Within the last ten years, a mania for building large seminaries, far beyond the wants of the people, has spread through the co. The speculation has proved a ruinous one, and the entire amount of capital invested in the enterprises has been sunk.5

Three weekly newspapers are now published in the co.6

sent with a summons to surrender; and, after

an ineffectual attack, Sir John abandoned the attempt. The dwellings, barns, stacks, and all the property of the inhabitants were destroyed, though but few persons lost their

July 9.—An engagement took place in Sharon, 2 mi. z. of the springs, between a party of tories and Indians under Doxtader, and an American force under Col. Willett, in which the former were defeated, with a loss of 40 killed.

The Blenheim Patent was also in part leased.

5 Of 9 academies built in this co., 3 have been burned, 3 are "to let," and 3 are still open.

4 In this co. George Clark had then considerable tracts, leased for 3 lives at a rent of 6 pence sterling per acre. Scott's Patent of 56,000 acres was then chiefly owned by the heirs of John Livingston, and leased for 2 lives at a rent of \$14 per 100 acres.

6 The American Herald, the first paper published in the co.
was commenced at Schoharie in June, 1809, by Derick
Van Veghten. In 1812 its name was changed to
The Schoharie Herald, and the paper was soon after discontinued.

The True American was commenced at Schoharie in Dec. 1809, by T. M. Tillman. It was discontinued in 1812 or 1813.

The Schoharie Budget was commenced in June, 1817, by Derick Van Veghten. In 1820 its name was changed to

BLENHEIM<sup>1</sup>—was formed from Schoharie, March 17, 1797. Jefferson was taken off in 1803, and a part of Gilboa in 1848. It is an interior town, lying s. w. of the center of the co. Its surface is a hilly upland, broken by the deep ravines of the streams. Schoharie Creek flows N. through the E. part, receiving West Kil and several smaller streams from the w. A wide alluvial flat extends along its course. The streams generally are bordered by steep hills rising to a height of 300 to 500 ft. The soil is principally a clayey loam. Patchin Hollow,2 (North Blenheim p.o.,) upon Schoharie Creek, contains 2 churches, a tannery, and 44 houses. The first settlements were made by Dutch and Palatinates, before 1761; but the settlers were driven out during the Revolution. The present race of settlers came mostly from New England, soon after the close of the war. Rev. Stephen Fenn was the first preacher.3

BROOME4—was formed March 17, 1797, as "Bristol." Its name was changed April 6, 1808. A part of Conesville was taken off in 1836, a part of Gilboa in 1848, and parts of Middleburgh were annexed Feb. 9 and Oct. 5, 1849. It lies upon the E. border of the co., s. of the center. Its surface is a hilly upland, broken by the deep ravines of the streams. The highest summits are 350 to 500 ft. above the valleys. Catskill Creek takes its rise in the N. part, and several branches of Schoharie Creek drain the N. and w. portions.5 The soil is a gravelly and clayey loam. Livingstonville, (p.v.,) in the E. part, s. of the center, contains 2 churches, a sawmill, gristmill, and sash factory. Pop. 150.6 Franklinton, (p. v.,) in the N. part, contains a church and 100 inhabitants. Smithton is a hamlet, near the s. line. The first settlements were made before the Revolution.7 There are 6 churches in town.8

CARLISLE—was formed from Cobleskill and Sharon, March 31, 1807.9 It is the central town upon the N. border of the co. Its surface consists principally of an immense ridge lying between the valleys of the Mohawk and Cobles Kil, the summit of which is 800 to 1,000 ft. above the former stream.<sup>10</sup> This ridge descends to the N. by a series of terraces formed by the different geological strata, and on the s. by gradual slopes following the general dip of the rocks. The streams are small brooks. The soil is principally a clay loam. Hops are extensively cultivated.

The Schoharie Republican. It soon after passed into the hands of Peter Keyser. Lemuel Cuthbert, A. A. Keyser, Wm. H. Underwood, Wm. H. Gallup, P. D.

A. Reyser, with H. Chuerwood, with H. Garing, F. J. Lawyer, and — Rossiter have since been interested in its publication. It is now published by J. B. Hall.

The Observer was commenced at Schoharie in Oct. 1818. In 1819 it passed into the hands of Solomon Baker, in 1820 to Baker & Fish, and in 1822 it was again in the

hands of Mr. Baker, and was soon after discontinued.

The Evangelical Luminary was commenced at Schoharie Jan. 1,
1824, by Rev. Geo. A. Lintner and L. Cuthbert. It was

1824, by Rev. Geo. A. Linther and L. Cuthhert. 1t was continued about 1 year.

The Lutheran Magazine, mo., was commenced in Feb. 1827, by the Western Conference of Lutheran Ministers, L. Cuthbert, printer, and was published for some years.

The Schoharie Free Press was commenced June 9, 1830, by Duncan McDonald. In 1832 it was removed to Esperance and its name changed to

The Esperance Sentined and Schoharie and Montgomery Reporter.

It was discontinued in 1835 or '36.

The Geon was published a short time in 1837.

The Gem was published a short time in 1837.

The Schoharie Patriot was commenced Feb. 13, 1838, by Peter Mix. It is now published by him and his son, S. H. Mix.

The Star was commenced in April, 1838, by S. H. Mix, then a

schoolboy.

The Sun was commenced as an opposition paper in May, 1838, by D. L. Underwood, another lad of about the same age. These papers were about 3 by 4 inches. Early in 1839 they were enlarged. On the issue of No. 5 of the Sun it went down never to rise again; and the Star ceased to trivible of the the 18th prophers.

it went down never to rise again; and the Star ceased to twinkle after the 12th number.

The Huge Puw, a campaign paper, was published from Aug. 12 1840, to Nov. 11 following, by Wm. H. Gallup.

The Helderbergh Advocate was commenced in 1841 by Wm. H. Gallup. Its name was changed in 1843 to The Guardian of the Soil, and it was discontinued in I year.

The American Christian was commenced at Leesville Jan. 7, 1847, by J. D. Lawyer. It was soon after discontinued. The Schodarie County Scatinel was commenced at Coleskill Jan. 22, 1852, by Iliram C. Page. It was published a short time by Chas. Cleveland, and by Wadhams & Knistern, and was soon after purchased by J. B. Hall, who merged it with the Scholarie Republican.

The Charlotteville Journal was commenced at Charlotteville in

The Charlotteville Journal was commenced at Charlotteville in 1854 by Furman & Brown. In 1855 John Brown became sole proprietor, and removed it to Cobleskill and

The Cobleskill Journal. It has since been discontinued.

The Oasis, semi-mo., was commenced at Schoharie by the students of the academy in 1855. It was soon discontinued

The Schoharie County Jeffersonian was com-menced at Cobleskill in 1859 by Matthew Freeman, and is still published.

Named from the Blenheim Patent, a portion of which lies in

and is still published.

1 Named from the Blenheim Patent, a portion of which lies in the N. part of this town.

2 Hendrick Mattice, the ploneer, built a mill on West Kil, at Patchin Hollow. He became a loyalist and went to Canada. Henry Fifner, Lambert Sternberg, Wm. Freeck, Isaac Smith, Banks Morehouse, George Martin, and Henry Hager were early settlers. Freegift Patchin settled in 1798, built the second mill, and gave name to the village. Gen. Patchin had been taken prisoner by the Indians, and suffered extremely at their hands. The first inn was kept by H. Effner; the first store, by Tohias Cuyler, in 1803; and the first tannery was built in 1826, by Jones & Lathrop. Jacob Sutherland, afterward Judge of the U.S. Supreme Court. resided several years at North Blenheim.

3 There are 4 churches in town; 3 M. E., and Ref. Prot. D.

4 Named from John Broome, Lieut. Gov. of the State at the time of the formation of the town. Sectt's Patent of 37,340 acres, granted Jan. 2, 1770, and a part of Isaac Le Roy's Patent, are within the limite of this town.

5 On the summit level of the Catskill & Canajoharie R. R. line, between two Immense hills, was a "vlaie," or black ash swamp, from which streams issued in opposite directions It was about a mile long and covered many acres. Dams were formerly erected and mills built at each end; and fish placed in the pond thus formed multiplied greatly. It is now drained.

5 Daniel Shays, the leader of the insurrection in Mass, that hears his name, settled in this town after the dispersion of his

placed in the pond thus formed multiplied greatly. It is now drained.

Daniel Shays, the leader of the insurrection in Mass, that bears his name, settled in this town after the dispersion of his forces. David Williams, one of the captors of Andre, removed to this village from South Salem in 1805, bought a farm of Gen. Sbays, and resided upon it until his death, Aug. 2, 1831. He left a widow, 4 sons, and 3 daughters. He was the object of much regard, from the interesting historical event with which his name is associated; and the year before his death he became the guest of New York City.—Simm's Schoharrie, chap. xxi

Derick Van Dyck settled before the Revolution. John Robins, — Guillem, a half-breed, Allen Leet, Joshua and Asa Bushnell, Geo, and Hezekiah Watson, Ehenezer Wickham, Geo. Burtwick, Timothy Kelsey, Joseph Gillet, and Ezra Chapman settled previous to 1796. The first known birth was that of Francis Kelsey, in April, 1794; and the first death, that of Ezra Chapman, Aug. 1794. Griswold, Carden & Wells began the erection of a sawmill in 1794, and a gristmill the next season.

3 M. E., Meth. Prot., Bap., and Presb.

9 This town embraces portions of New Dorlach, Becker, Livingston's, Van Rensselaer's, Machin's, and the Stone Heap Patents.

10 A conical elevation near the s. line, early known as O-waere-souere, is one of the highest points in the co., and may be seen from Hamilton co., 50 mi. N.

Several caves are found in the limestone regions in various parts of the town.1 Argusville,2 (p. v.,) in the N. w. corner, upon the line of Sharon, contains 3 churches, a sawmill, gristmill, tannery, and 35 houses. Carlisle, (p. v.,) upon the Western Turnpike, in the N. part, contains a church, boarding school,3 and foundery. Pop. 107. Grovenors Corners, (p.o.,) in the s. E. corner, contains a church and 10 houses. The first settlement was made in the s. w. part, about 1760.4 The first church was formed by Dr. Simon Hosack, of Johnstown, in 1803 or '04.5

COBLESKILL6—was formed from Schoharie, March 17, 1797. The line of Sharon was changed March 15, 1799. A part of Carlisle was taken off in 1807, a part of Summit in 1819, and Richmondville in 1845. It is an interior town, lying N. of the center of the co. Its surface is principally a hilly upland, broken by the deep valley of Cobles Kil, which extends E. and w. through the center. The highest points, on the N. and S. borders, are 600 to 900 ft. above the valley. The soil upon the hills is a sandy loam, and in the valley an alluvium. Cobleskill, (p. v.,) in the w. part, contains 3 churches, a sawmill, gristmill, planing mill, and tannery. Pop. 364. Cobleskill Center (p. v.) contains a church, sawmill, and 20 dwellings. Lawyersville, (p. v., ) in the n. w. corner, contains 3 churches, 2 sawmills, and 25 dwellings. East Cobleskill, 8 (p. v.,) in the s. E. corner, contains 2 churches and 21 dwellings. Barnerville, (p. v.,) near the center, contains a church, gristmill, clothing works, and 16 dwellings. The first settlement was made about 1750.9 The first land grants were made about 1730. During the Revolution the people mostly espoused the cause of the colonists, and in consequence were subjected to constant incursions from the Indians. A regular engagement took place between a company of militia and a large Indian force under Brant, May 31, 1778. The Americans were defeated, and about one-half of their number were killed.10 Howe's Cave, near the E. line, is a place of considerable interest.11 There are now eleven churches in town.12

CONESVILLE<sup>13</sup>—was formed from Broome and Durham, (Greene co.,) March 3, 1836. It is the s. E. corner town of the co. Its surface is generally a hilly upland, mountainous along the E. border. The highest summits are 1,600 to 2,000 ft. above the valleys. Schoharie Creek forms a small portion of the w. boundary; and Manor Kil flows w. through near the center. Upon the latter stream, near its mouth, is a cascade of 60 ft. The valleys of these streams are bordered by high and often nearly precipitous hills. Strykersville, (West Conesville p. o.,) upon Manor Kil near its mouth, contains a church, tannery, and 20 houses; and Stone Bridge, (Conesville p. o.,) near the center, a church and 10 houses. Manorkill (p.o.) is a hamlet. The first settlement was made by Ury Richtmeyer, in 1764.14 There are 3 churches in town; 2 M. E. and Ref. Prot. D.

ESPERANCE<sup>15</sup>—was formed from Schoharie, April 4, 1846. A small portion was reannexed to Schoharie in 1850. It is the E. town on the N. border of the co. Its surface consists of two ridges, extending E. and w. across the town, separated by the valley of Schoharie Creek. The

arragonite are found near Grovenors Corners.

<sup>2</sup> Named from the Albany Argus, at the time the principal paper taken in town. Fortzerly known as "Malicks Mills."

<sup>3</sup> The Carlisle Seminary was built by a stock company in 1853, at a cost of §24,000. It is beautifully situated in a grove a little s. of the center of the village. It was opened in Nov. 1853, and closed in March, 1855. It has accommodation for about 300 boarders.

<sup>4</sup> John G. Loucks, Coenradt Engle, Philip Karker, and Peter Young were among the first that located in town. The late Judge Brown, author of a small local history, settled at an early period. John C. McNeill, Wm. Caldwell. John Sweetman, Aaron Howard. Tennis Van Camp, Mathias Cass, and Lodowyck Primer were also early settlers.

Aaron Howard. Tenms van Camp, Mathias Cass, and Lodowyck Primer were also early settlers.

5 There are now 5 churches in town; Bap, Evan, Luth., Presb., Univ., and Union.

5 Named from — Cobel, who built a mill near Central Bridge at an early period. Cobles Kil was called by the Indians Ots-

ga-ra-gee.

Named from Lawrence Lawyer, said to have been the first settler in town.

Locally known as "Punchkill."

Among the early settlers were families named Shafer, Bouck, <sup>9</sup> Among the early settlers were lamilies named Shafer, Bouck, Keyser, Warner, Fremyre, Borst, and Brown,—mostly from Schoharie. Capt. Jas. Dana, an early settler, distinguished himself in the battle of Bunker Hill. John Redington, another soldier of much service, also lived in this town.—Simms's Schoharie, p. 619. A sawmill, built before the war by Christian Brown, was not destroyed by the Indians, as it was coveted by a tory, who expected to receive it after it was confiscated by the British.
<sup>10</sup> The American force of 45 men, under the command of Capts.
Frown and Patrick were drawn into an ambracede. Upon the

Brown and Patrick, were drawn into an ambuscade. Upon the retreat, 5 of the soldiers threw themselves into a house, which was surrounded by the Indians and burned, the soldiers perish-

1 The principal of these caves are known as Young's and Sellick's caves. Near Carlisle Village is a small cavern, in which it is supposed that Indians found shelter during the Revolution. Fibrous sulphate of barytes, fibrous carbonate of lime, and arragonite are found near Grovenors Corners. town during the war.

town during the war.

11 This cave was discovered in May, 1842, by Lester Howe, the owner. Its entrance is about 50 ft. above Cobles Kil. After passing several spacious rooms, one of which is named "The Chapel," the visitor comes to a crawling place 200 ft. long, beyond which is a limpid sheet of water 30 ft. long, 20 wide, and 10 deep. Beyond this the cavern extends a great distance, much of the way along a brook, and the total length of the passages measures several mi. Many highly interesting stalactital concretions—some of great size—have been found in this locality. It has been named the 0tsgaragee Cavern.

12 4 M. E., 2 Ref. Prot. D., and Evan. Luth.

13 Named from Rev. Jonathan Cone, of Durham, Greene co. The town was included in a tract granted to U. Richtmeyer and others, May 6, 1754, known as Dise's Manor; and tracts to Daniel Crane. Samuel Stringer, Walter McFarlane, John Richtmeyer, Christian Petrie, and others.

14 Mr. R. was joint owner of several patents with John Dise and others; and the name is still common in town. During the Revolution the settlers fled for safety to the upper fort. Peter Richtmeyer was twice taken prisoner by the Indians under the

Revolution the settlers fled for safety to the upper fort. Peter Richtmeyer was twice taken prisoner by the Indians under the tory Jones. After the war, Philip Krinple, Conrad Petrie, John Shew, Barent Stryker, Stephen Scovill, James Allerton, and Hubbard and Judah Luring, the last two from Conn., came into town. The first death was that of Ury Richtmeyer, Aug. 14, 1769. Thomas Canfield taught a school in 1794. Peter Richtmeyer kept the first iun. in 1784. Barent Stryker built the first mill, above the falls of Manor Kil.

15 The town was named from the village. The site of the latter was bought by Gen. Wm. North in 1800, laid out into lots, and named by him from a French word signifying Hope.

highest parts are 600 to 800 ft. above the valley. The soil is principally a clayey loam. Esperance, (p. v.,) upon the E. linc, was incorp. April 21, 1832. It contains 2 churches, a paper mill, gristmill, sawmill, and foundery. Pop. 322. Sloansville, (p. v.,) near the center, contains 2 churches, 3 sawmills, and 2 gristmills. Pop. 252. The first settlements were made by Palatinates, about 1711.2 There are 4 churches in town; 2 Bap., Presb., and M. E.

FULTON3—was formed from Middleburgh, April 15, 1828. It is the central town in the co. Its surface is a hilly upland, broken by the ravines of the streams. Schoharie Creek<sup>4</sup> flows N. through the E. part, receiving Panther Creek from the w. The highest summits are 1,000 ft. above the valleys. The hills next to the creek are conical and often precipitous; but farther w. they assume a rounded form and are bounded by more gradual slopes. The soil is a gravelly and clayey loam. Breakabeen, (p. v.,) upon Schoharie Creek, in the s. part, contains a church, gristmill, foundery, 2 sawmills, and 200 inhabitants. Fultonham, (p. v.,) near the E. line contains a church, gristmill, 2 sawmills, and 25 dwellings; and West Fulton (p.v.) a church, sawmill, gristmill, and 16 dwellings. Watsonville is a small village, in the E. part; and Petersburgh a hamlet, in the N. part. The first settlements were made by Dutch and Palatinates, about 1711. The upper fort of the Schoharie during the Revolution was situated upon the present site of Fultonham. The census reports 5 churches in town,6 Gov. Wm. C. Bouck was born in this town Jan. 7, 1786, and died here in April, 1859.

GILBOA-was formed from Blenheim and Broome, March 16, 1848. It is the central town upon the s. border of the co. Its surface is a mountainous upland, broken by deep ravines. Schoharie Creek flows N. through the center, receiving Platter Kil from the E. and Mine Kil from the w. The streams are bordered by steep hillsides rising to a height of 2,000 to 3,000 ft. above tide. The soil is a gravelly and clayey loam. Gilboa, (p. v.,) upon Schoharie Creek, contains 2 churches, a private seminary, cotton factory,8 gristmill, tannery, and 566 inhabitants. South Gilboa, (p. v.,) in the w. part, contains a church and 20 dwellings. West Gilboa, (p. o.,) in the N. w. part, is a hamlet. Mackeys Corners, (Broome Center p. o.,) in the E. part, contains a church and 15 dwellings. Mine Kil Falls is a p.o. Settlement was commenced in 1764, by Matthew and Jacob Dise.<sup>9</sup> The first preacher was Rev. Joel Peebles, settled in 1808.<sup>10</sup>

JEFFERSON—was formed from Blenheim, Feb. 12, 1803. A part of Summit was taken off in 1819. It is on the s. line of the co., near the s. w. corner. Its surface is a hilly upland, the principal summits being about 1,000 ft. above the valleys and 2,000 ft. above tide. Mine Hill, in the extreme s. part, is estimated to be 3,200 ft. above tide. A high ridge extending N. E. and s. w. through near the center forms the watershed between Delaware and Mohawk Rivers. Utsyanthia Lake is a small sheet of water on the s. line.11 The soil is a gravelly and clayey loam. Jefferson, (p. v.,) near the center, contains 2 churches and 25 houses. Morseville, in the

John Bowen and Others sept. 18, 170. The freap was 4 700 long, 1 or 2 wide, and 10 to 15 ft. high, and consisted of small, flat stones. The covetous owner many years since built the material into a stone wall; and no trace of this curious monument of Indian superstition new remains. Similar stone heaps have been noticed in other sections of the State. The path that led by this pile was that taken by Sir John Johnson and his army from Schoharie to the Mohawk in Oct. 1780.—Simms's Schoharie, p. 632.

2 One of the first settlements was made at "Kneiskerns Dorf," opposite the mouth of Cobles Kil. The place was named from John Peter Kneiskern, a prominent settler. The Stubrachs, Enderses, Sidneys, Berghs, and Houcks were also pioneer families. Henry and George Houck built the first gristmill. This town comprises the whole of Jacob Henry Ten Eyck's patent, surveyed Ang. 1761; a part of the Schoharie Patent, and a part of Sawyer & Zimmer's Second Allotment. The Stone Heap Patent lies partly in this town.

3 This town embraces the whole of several patents and parts of others, the principal of which are Michael Byrne's. of 18,000 acres, granted Dec. 14, 1767; John Butler's, of about 8.000 acres, granted May 8, 1755, and another, on the w., of about the same size; Edward May 8, 1755, and another, on the w., of about the same size; Edward

8. 1755, and another, on the w., of about the same size; Edward Clark's, of 100 acres; Vrooman's Land, granted to Adam Vrooman, Aug. 26, 1714; Wm. Wood's Patent, of 2,000 acres, July

13, 1770; Hendrick Hager's, 900 acres, Dec. 1, 1768; part of John Butler's, of 100 acres, and of Isaac Levy's tract of 4,333 acres, surveyed in July, 1770. Vrooman's Land Indian deeds are still extant, one of which is dated Aug. 22, 1711. Among the early settlers were Peter, son of Adam Vrooman. the patentee; Cornelius and Bartholomew Vrooman, Nicholas Feeck, Adam Brown, Teunis Vrooman, Michael Brown, — Kriesler. Frere Becker, and Stephen Young, on the w.; and William Bonck, the patentee, with his sons Johannes F., Christian, and William, Nicholas York, and Henry Hager, on the E.

4 This stream is called by the Indians Ken-ha-na-ga-ra. Upon its course, in a ravine 200 feet deep worn in the Hamilton shales, is a fine cascade, known as "Bouck's Falls."

5 A German name for the rushes which grew upon the banks

5 A German name for the rushes which grew upon the banks

7 A fall in the creek at the village was called by the Indians

8 The Gilboa Cotton Mills Co. has a capital of \$50,000, and runs 100 looms.
 9 These two settlers joined the British and fled to Canada

during the Revolution. Among the early settlers after the war were Richard Stanley, Joseph Desilva, Benoni Frazer, Cornelius Lane. John Breaster, Isaac Van Fort, Daniel Conover and Jacob were Richard Stanley, Joseph Desilva, Benoni Frazer, Cornelius Lane, John Breaster, Isaac Van Fort, Daniel Conover, and Jacob Homer,—all from New England. Ruloff Voorhees kept the first inn, in 1785; John Dise built the first mills, in 1764; and Jonah Soper the first tannery, in 1800. This town embraces a part of the Blenheim Patent, with parts of grants to Ury Richtmeyer, David Buffington, (July, 1770,) and —— Scott, with a portion of the "State Lands." The last named tracts comprised the lands escheated to the State by failure of title, and the confiscated estates of tories. estates of tories.

10 The census reports 8 churches; 4 Bap, 2 M. E., Ref. Prot. D., and Christian.

11 This lake is 1,800 ft. above tide. It is often mentioned in old documents, and was an angle in the bounds of Albany co. in colonial times. It is the source of the w. branch of the Delaware.

<sup>1</sup> Named from John R. Sloan, an early settler. Many years since, near this place, by the side of a path leading to Fort Hunter, was a stone heap thrown up by the Indians, who, from a superstition among them, never failed to add a stone to the pile whenever they passed it. The Rev. Gideon Hawley, who passed it in 1753, relates (1 Mass. Coll. IV) that this heap had been accumulating for ages, and that his native guide could give no other reason for the observance than that his father practiced it and enjoined it upon him. He did not like to talk about it; and the missionary believed that the custom was a religious offering to the unknown God. Others state that a tradition fixes this as the spot where a murder was committed. The heap gave name to the "Stone Heap Patent," granted to John Bowen and others Sept. 15, 1770. The heap was 4 rods long, 1 or 2 wide, and 10 to 15 ft. high, and consisted of small, flat stones. The covetous owner many years since built the material

N. part, is a p.o. The first settlements were made, in different parts of the town, in 1794.1 The first preacher was Rev. Stephen Fenn.2

MIDDLEBURGH-was formed from Schoharie, March 17, 1797, as "Middletown." Its name was changed in 1801. A part was re-annexed to Schoharie March 26, 1798. Fulton was taken off in 1828, and parts were annexed to Broome in 1849. It is the central town upon the E. border of the co. Its surface is a hilly upland, divided into two ridges by the valley of Schoharie Creek, which extends x. and s. through the town. The highest summits are 600 to 800 ft. above the valley.3 Schoharie Creek receives Little Schoharie Creek from the r. and Line Kil from the w. The hills bordering upon the streams are usually steep and in many places precipitous. The soil is a clayer loam upon the hills, and a sandy loam in the valleys. Hops and broomcorn are extensively cultivated. Middleburgh, (p. v.,) upon Schoharie Creek, contains 5 churches, a private seminary, 2 steam paper mills, a steam gristmill, 2 foundties, and 110 dwellings. Hunters Land, (p. v.,) near the s. E. corner, contains 2 churches, a sawmill, gristmill, 2 foundries, and 101 inhabitants. Mill Valley, on the line of Fulton, contains 2 large tanneries, a gristmill, and 25 dwellings. The first settlements were made by Palatinates, in 1711.4 The middle fort of Schoharie stood a little below the present site of Middleburgh Village during the Revolution. There are eleven churches in town.5

RICHMONDVILLE—was formed from Cobleskill, April 11, 1845. It lies upon the w. border of the co., a little s. of the center. The surface is a hilly upland, separated into two distinct parts by the valley of Cobles Kil, which extends E. and w. through the center. The highest summits are 500 to 700 ft. above the valley. The soil is generally a clayey loam. Hops are extensively cultivated. Richmondville, (p. v.,) near the center, contains 3 churches, a foundery, sawmill, gristmill, and 370 inhabitants. Warnerville, (p. v.,) upon Cobles Kil, at the mouth of West Kil, contains 2 churches, a boarding seminary,8 2 tanneries, and 44 dwellings. West Richmondville is a p. o. The first settlement was made before the Revolution, by George Warner and his sons Nicholas, George, and Daniel, from Schoharic.9 The census reports 5 churches in town.10

SCHOHARIE—was formed as a district March 24, 1772, and as a town March 7, 1788. Sharon, Cobleskill, Middleburgh, and Blenheim were taken off in 1797, and Esperance and Wright in 1846. A part of Middleburgh was re-annexed in 1798, and a part of Esperance in 1850. It lies in the N. E. part of the co., its N. E. corner bordering on Schenectady co. Its surface is a hilly upland, broken by the deep valleys of the streams. The declivities of the hills are generally gradual slopes, and their summits are 400 to 500 ft. above the valleys. 11 Schoharie Creek flows N. through near the center, receiving Foxes Creek from the E. and Cobles Kil from the w. In the limestone region in this town are numerous caverns.12 The soil upon the hills is a clayey loam, and in the valleys a gravelly loam and alluvium. Hops and broom corn are largely cultivated. Schoharie, (p. v.,) the county seat, is situated upon Schoharie Creek, s. of the center of the town. Besides the co. buildings, it contains 3 churches, the Schoharie Academy, 2 newspaper offices, an arsenal, and a bank. Pop. 806. Central Bridge, (p. v.,) at the mouth of Cobles Kil, contains a church, sawmill, gristmill, machine shop, and 12 dwellings. Barton Hill is a p. o., near the N. E. corner. The first settlement was made in 1711, by a colony of German Palati-

<sup>1</sup> Amos and Caleb Northrop settled in the E. part; Samuel and Noah Jndson, near Utsyanthia Lake; Henry Shelmerdine and James McKenzie, on West Kil; Stephen Marvin, Erastus Judd, James McKenzie, on West Kil: Stephen Marvin, Erastus Judd, and Aaron Jones, near the village. These were mostly from New England. The first marriage was that of Marvin Judd and Lois Gibbs, Aug. 1800; and the first death, that of Elsis Judd, in June, 1799. Heman Hickok taught the first school, in 1799. Canfield Coe kept the first inn, in 1794: and Rodman Lewis the first store, in 1800. Stephen Judd built the first saw-mill, in 1796: and Heman Hickok the first gristmill, in 1799. Eli Jones built the first tunnery, in 1810.

2 The consus reports 6 churches; 4 M. E. and 2 Bap.

3 A hill opposite Middleburgh Village was named On-can-gen, "Mountain of Snakes." A mountain just above Middleburgh, on the w. side, was called Onis-ta-gia-wa; the one next w., To-wok-nou-ra, or "Spring Hill;" and the one S. E. of Middleburgh, Mohe-gouter.

burgh, Mo-he-gou-ter.

this, Mo-ne-gouter.

4 This town comprises parts of Schoharie Patent, Lawyer's & Zimmer's 1st Allotment, Thos. Eckerson's, Becker & Eckerson's, Thos. & Cornelius Eckerson's, Clark's, Depeyster's, Vrooman's, John Butler's, Bouck's, Lawrence Lawyer's, Nicholas Mattice's, and the Vlaie Patents.

and the Vlaie Patents.

11 The grade of the Albany & Susquehanna R. R., upon the
N. line of this town, is 550 ft. above tide.

12 Ball's Cave, otherwise called Gebhard's Cave, 4 mi. E. of the
courthouse, was first explored in Sept. 1831. It descends about
100 ft. below the surface. A stream of water, with small cascades,
flows through it, and a boat is kept for the use of visitors. About
1853, it was purchased by W. H. Knoepfel, of N. Y., with the
design of making it a popular place of resort. When first explored, it abounded in magnificent stalactites, of the purest
white, translucent and fibrous. Nethaway's Cave, 2 mi. S. E. of
the courthouse, was explored in 1836, by John Gebhard, ir., and
Johns Bonny. A few fine specimens of colored rhombohedral
spar were found in it.

nates, who had previously located upon the Hudson. The first church (German) was established soon after the first settlement; Rev. Peter Nicholas Sommer was the first elergyman.

SEWARD<sup>3</sup>—was formed from Sharon, Feb. 11, 1840. It lies on the w. border of the eo., N. of the center. Its surface is a hilly and broken upland, the highest summits being 300 to 500 ft. above the valleys.4 West Kil, the principal stream, flows s. E. through the center. The soil is a clayey loam. Hops are largely cultivated. Hyndsville, (p. v.,) upon West Kil, in the s. part, contains a sawmill, gristmill, tannery, and 143 inhabitants. Seward Valley, (Seward p. o.,) in the n.w. part, contains 2 churches, a foundery, a gristmill, sawmill, and 26 houses. Gardnerville (p.v.) contains a church and 84 inhabitants. Clove and Janesville are hamlets. The first settlements were made in the N. part of the town, by a colony of Germans, in 1754.6 Their settlement was known as "New Dorlach." The census reports 8 churches in town.

SHARON8—was formed from Schoharie, April 6, 1795. A part of Carlisle was taken off in 1807. Seward was taken off in 1840. It is the N. w. corner town of the eo. Its surface is a rolling and hilly upland. The highest summits, in the s. w. corner, are about 500 feet above the valleys. West Kil, flowing s. through the w. part, is the principal stream. The soil is a gravelly loam. In the underlying limestone are numerous caves. Hops are largely produced. Sharon Springs, (p. v.,) a little N. w. of the center, is celebrated for its sulphur and chalybeate springs.9 It contains 5 large hotels for the accommodation of the visitors to the springs, and 2 churches. Pop. 400. Rockville, upon the turnpike, about a quarter of a mi. above the springs, contains a church and 20 dwellings. Sharon Center (p.v.) contains 15 dwellings. Sharon Hill, (Sharon p. o.,) in the s. E., contains a church, a gristmill, sawmill, foundery, and 20 dwellings; **Leesville**, (p. v.,) in the N. w. part, 2 churches and 20 dwellings. **Engellville**, (p. o.,) near the w. line, and Beekmans Corners, near the s. line, are hamlets. Col. Calvin Rich, from New England, is said to have been the first settler. July 9, 1781, the tory Doxtader, with a party of 300 Indians, made a descent upon Currytown, Montgomery co.; and on his return, with his plunder and prisoners, he was overtaken by an American force, under Col. Willett. An engagement ensued, in which about 40 Indians were killed, and the remainder fled. The battle ground is about 2 mi. E. of Sharon Springs. There are eight churches in town.11

SUMMIT—was formed from Jefferson and Cobleskill, April 13, 1819. It is the s.w. corner town of the co., lying principally on the w. border. Its surface is a broken and hilly upland. The central ridge forms a portion of the watershed between Susquehanna and Mohawk Rivers, the highest summits being 2,000 to 2,300 ft. above tide. Charlotte River, the principal stream, flows s. w. through the w. part. The soil is a gravelly and clayey loam. Summit, (p. v.,) upon the ridge, near the center, contains 2 churches and 28 dwellings. It is 2,200 ft. above tide. Charlotteville, (p. v.,) upon Charlotte River, in the s. w. part, contains a church, the N. Y. Conference Seminary and Collegiate Institute, 12 2 sawmills, a gristmill and clothing works, and about 40

1 This town includes parts of the Schoharie, Morris & Coeyman's, Lawyer & Bergh's, and the 2d Allotment of Lawyer & Zimmer's Patents. For particulars of early settlement, see page 601. <sup>2</sup> A lot of 14 acres in Huntersfield was conveyed, Jan. 3, 1737, by

<sup>2</sup> A lot of 14 acres in Huntersfield was conveyed, Jan. 3, 1737, by Johannes Sheffer, Hendrick Conradt, and Johannes Ingold, Jonas Le Roy and Peter Speis, for the support of the Middleburgh and Schoharie high and low Dutch churches. By an act of Feb. 8, 1799, the two congregations were empowered to divide and mutually release this lot. The census reports 4 churches; 2 Evan. Luth, M. E., and Ref. Prot. D. <sup>3</sup> Named in honor of Gov. Seward. <sup>4</sup> Upon the S. E. border of the town is a hill, called by the Indians Gogny-ta-nee; and N. of Seward Valley is another, called One-en-ta-dashe. <sup>5</sup> Locally known as "Neeleys Hollow." <sup>6</sup> The first settlers were Schastian France, Michael Merckley, Henry Hynds, and Ernest Fretz. Among the other early settlers were Caleb Crospet, Wm. Ernest Spornhyer, and Conrad Brown, who located near the Luth. church: and Wm. Ripsomah, Henry France, Henry Hanes, Geronimus Chrysler, and John, Peter, and Martin, sons of Rev. Peter Nicholas Sommer, the first Schoharie

Martin, sons of Rev. Peter Nicholas Sommer, the first Schoharie pastor. The first German school was taught by ——Phaughwer; the first inn was kept by Thos. Almy; the first store by Wm. E. Spornhyer. Wm. Hynds built the first sawmill, and Henry Hanes the first gristmill. The first birth was that of Christopher France.

7 3 Evan. Luth., 3 M. E., Ref. Prot. D., and Bap.
 8 Named from Sharon, Conn.

9 These springs have a high reputation for the cure of cutaneous 

" Chloride of magnesium..... Hydrosulphuret of sodium Hydrosulphuret of calcium .......... 0.14 Extractive matter

10.06 Sulphuretted hydrogen gas,-1 cubic inch.

The waters flowing over vegetable substances incrust them with white and floculent sulphur. The gas from the sulphur spring quickly tarnishes silver, even in the pocket. In the neighborhood is a chalybeate spring. The vicinity derives interest from caves containing stalactics and heautiful crystals of sulphate of lime. A quarter of a mile below the spring is a fine cascade. A copious spring of common water gushes from the rocks a short distance above, in volume sufficient to turn mill.—Geol. 1st Dist., p. 89; Beck's Mineralogy of N. Y., p. 143; Simms's Schoharie, p. 643.

Summs & Schodarie, 7.043.

10 Col. R. was afterward at Sackets Harbor as a Col. of drafted militia in Gen. Richard Dodge's brigade. Calvin Pike, William Vanderwerker, Conrad Fritche, Abraham and John Mereness, John Malick, and Peter Courment were early settlers, and were obliged to flee to Schoharie or Fort Hunter for safety during the obliged to flee to Schoharie or Fort Hunter for safety during the war. Wm. Beekman kept the first store; John Hutt built the first sawmill, Oma Lagrange the first gristmill, in seventeen hundred and ninety-four, and Frederick Cronnee the first tannery. The town comprises a part of Frederick Young's Patent of 20,000 acres, granted Oct. 11, 1752; a tract granted to Bradt & Livingston, of 8,000 acres; a part of Johan D. Gross' Tract; a tract granted to Johannes Lawyer, jr., Jacob Boist, and others, of 7,000 acres, Aug. 14, 1761; and a small part of the New Dorlach Patent. The first owners of New Dorlach Patent were Michael, Johannes, Johannes Jost, and Jacob B. Boist, Johan Braun, Wm. Bauch, Michael Heltzinger, Henrick Hanes, Johannes Shaffer, Jonannes. Johannes Jost, and Jacob B. Boist, Johan Braun, Wm. Bauch, Michael Heltzinger, Henrick Hanes, Johannes Shaffer, Johannes and Jacob Lawyer. Christian Zeh, Mathias Baumann, Lamhert Sternberg, Barent Keyser, and Peter Nicholas Sommer. The patent provided that any differences that might arise were to be settled by arbitration.

12 This institution is under the charge of the Methedist Episthis one of the largest institutions in copal denomination. It is one of the largest institutions in the State, having accommodations for about 450 boarding students.

dwellings. Lutheranville, (p.o.,) in the N. w. part, contains a church and 10 dwellings; and Eminence, (p. v.,) on the line of Blenheim, 2 churches and 15 dwellings. The first settlement was made in 1794, by Frederick Prosper, from Dutchess co. Rev. M. Sherman was the first preacher. The census reports 7 churches in town.2

WRIGHT3—was formed from Schoharie, April 4, 1846. It is the N. town on the E. border of the co. Its surface is a hilly upland. The highest summits, along the s. line, are 600 to 800 ft. above the valleys. The principal stream is Foxes Creek, flowing N. w. through the center. The soil is a clay and gravelly loam. Gallupville, (p. v., ) near the center, contains 3 churches, 2 sawmills, tannery, carding machine, and 50 houses. Shutters Corners, (p. o., ) in the w. part, contains a sawmill, gristmill, and 10 houses. Waldensville is a p.o., near the E. line. The town comprises the whole of several patents and parts of several others, principally granted from 1760 to 1770. The first settlement was made by Jacob Zimmer, near Gallupville, several years prior to the Revolution. A stone house built by Johannes Becker, an early settler, was used as a fort during the war.5 There are 5 churches in town.6

<sup>1</sup> Clement Davis, Samuel Allen, Martin Van Buren, Morris Kiff, Robert and Abraham Van Duser, A. M. Frydenburgh, Joseph L. Barnet, Amos Baldwin, Jonathan Hughes, Baltus Prosper, and James Brown were early settlers. The first birth was that of — Frydenburgh, and the first marriage that of Clement Davis and Lovina Allen, in 1797. Daviel Harris taught the first school, in 1798. Benj. Rider kept the first inn, James Burus the first store, and — Van Buren the first sawmill. The town comprises a part of the Strassburgh. Charlotta Rivar Burns the first store, and —— van Buren the first sawmill. The town comprises a part of the Straasburgh, Charlotte River, Stephen Skinner, and Walter Franklin Patents.

2 Bap., 2 M. E., Ref. Prot. D., Ev. Luth., and Christian.

<sup>3</sup> Named in honor of Gov. Silas Wright.

<sup>8</sup> Named in honor of Gov. Silas Wright.
4 Among the early settlers were Johannes Becker, ——Shaffer, Frederick Dening, John Nashold, Frederick Beller, Christopher Shoefelt, and John Hilsley. Jacob Zimmer kept the first inn, John and Henry Becker the first store; Jacob Zimmer built the first gristmill, and Zimmer, Becker & Shaffer the first sawmill.
6 On the morning of July 26, 1782, a band of tories and Indians appeared in the valley of Foxes Creek, murdered several persons, took some prisoners, and attempted to dislodge the inmates of the stone house, but failed. This house is still standing.

## SCHUYLER COUNTY.

This county¹ was formed from Steuben, Chemung, and Tompkins, April 17, 1854. It lies upon both sides of the s. extremity of Seneca Lake; is centrally distant 160 mi. from Albany, and contains 352 sq. mi. Its surface is mostly an undulating and hilly upland, divided into two distinct ridges by the deep valley of Seneca Lake and its inlet. The highest summits are 600 to 1,000 ft. above Seneca Lake and 1,200 to 1,600 ft. above tide. A bluff 100 to 300 ft. high extends along the shores of the lake, too steep for profitable cultivation; but farther inland the hills are bordered by long and gradual slopes and are generally arable to their very summits. The extreme s. part of the co. assumes a more hilly and broken character. Catharines Creek, flowing into the head of Seneca Lake, is the principal

stream. Its course is through a deep, narrow, and winding valley bordered by steep hillsides 400 to 600 ft. high. Upon it are numerous falls, affording abundance of water-power; and near its mouth is a marshy region of considerable extent. Meads Run, a tributary of Chemung River, drains the s. w. corner, and Cayuta Creek the s. E. corner. The other streams are small creeks and brooks, mostly discharging their waters into Seneca Lake. A few streams take their rise along the N.E. border and flow into Cayuga Lake. Little and Mud Lakes, two smaller sheets of water along the w. border, discharge their waters through Mud Creek into Conhocton River. Cayuta Lake is a fine sheet of water, in the E. part of the co. Hector Falls, upon a small stream flowing into Seneca Lake from the E., is one of the finest cascades in the State. The rocks of this co. mostly belong to the Portage and Chemung groups,—the former occupying the N. and the latter the s. part of the co. In the deep valley along the shore of Seneca Lake, in the extreme N. part of the co., are found outcrops of Genesee slate. The only good building stone in the co. is the thin-bedded sandstone separating the thick beds of shale. In many places these rocks are covered deeply with drift deposits. The soil upon the highlands is clayey and gravelly, principally derived from the disintegration of the shales; and in many places this is underlaid by hardpan. In the valleys the soil is a gravelly loam intermixed with alluvium.

Agriculture forms the leading and almost the sole occupation of the people. Spring grains are extensively grown, and stock and wool growing and dairying are largely carried on. The climate and soil are both better adapted to pasturage than to tillage. Fruit is becoming an important article of culture, and all kinds adapted to the climate succeed well. A limited amount of manufacturing is carried on at Watkins and Havana.

In 1854, commissioners appointed to locate the co. buildings fixed upon Havana as the county seat.<sup>2</sup> The action of the commissioners was resisted by the Board of Supervisors, and by them the county seat was located at Watkins, at the head of Seneca Lake. A courthouse was erected at each village; subsequently the courts decided against the action of the commissioners, and, April 13, 1857, an act was passed by the legislature confirming the location of the county seat at Havana. At their annual meetings in the fall of 1857 and 1858 the Board of Supervisors passed resolutions changing the location to Watkins, and at this place the co. offices are at present located. The buildings erected at each place for a courthouse, and for a clerk's office and jail at Havana, are fine buildings, embodying nearly all modern improvements. The buildings at Havana were erected at a cost of \$15,000. No poorhouse has yet been established.

The public works in the co. are the Chemung Canal, extending from the head of Seneca Lake s. through the valley of Catharines Creek, uniting with Chemung River at Elmira; the Elmira, Jefferson & Canandaigua R. R., extending along the w. shore of Seneca Lake to Watkins; and the Chemung R. R., extending s. from Watkins along Catharines Creek to Elmira. These roads are both leased to the N. Y. & E. R. R. Co.

In 1779, Sullivan's army marched through the defiles along Catharines Creek, closely pursuing the Indians, who were flying from the fatal battle of "Newtown," (now Elmira.) So great was the terror of the Indians that they neglected to defend the passes, and the American army

<sup>1</sup> Named from Gen. Philip Schuyler.

These commissioners were Delos De Wolf, of Oswego, Edward Dodd, of Washington, and Vivus W. Smith, of Onondaga.

marched unmolested through the only place where successful resistance was practicable. Upon the conclusion of peace, many of the soldiers belonging to the army returned to this region and located upon land which had been first brought to their notice during their march against the Indians. The first settlements in the co. were made on Catharines Creek, near the present site of Havana, in 1788, and on the shores of Seneca Lake, in 1790. The town of Hector belonged to the Military Tract; the towns of Catharines, Dix, and Reading, to the Watkins and Flint Purchase; and Tyrone and Orange, to the Phelps and Gorham Purchase.

Two weekly newspapers are now published in the co.1

CATHARINES<sup>2</sup>—was formed from "Newtown," (now Elmira, Chemung co.,) March 15, 1798. Catlin and Veteran (Chemung co.) were taken off in 1823. A part of Newfield (Tompkins co.) was annexed June 4, 1853, and a part was added to Cayuta, April 17, 1854. It lies upon the s. border of the co., E. of the center. Its surface is a hilly upland, broken by the deep valleys of the streams. Catharines Creek, along the w. border, flows in a deep ravine 300 to 700 feet below the summits of the hills. Cayuta Lake lies in the N. E. part; and its outlet, Cayuta Creek, flows s. into the Susquehanna. The soil is principally a gravelly loam mixed with clay. Havana, (p. v.,) upon Catharines Creek, on the line of Dix, 3 mi. from Seneca Lake, was incorp. May 13, 1836. It contains a courthouse, jail, clerk's office, the People's College, 3 churches, a newspaper office, 3 flouring mills, and several manufacturing establishments.4 It is a canal village and a station upon the Chemung R. R. Pop. 1,290. Odessa, (p. v., ) near the center of the town, contains 2 churches, a gristmill, several sawmills, and 40 dwellings; and Catharines, (p. v.,) in the s. part, 2 churches and 25 dwellings. Alpine, (p. v.,) on the s. E. border, and Cayutaville, (p. o.,) on the N. E. border, are partly in this town. Silas Wolcott and — Wilson settled at Havana in 1788.5 The first religious meeting was held at the house of Mr. P. Bowers, by a Presbyterian minister, in 1794.6 (For the new town of Montour, see p. 612.)

CAYUTA—was formed from Spencer, (Tioga co.,) March 20, 1824. Parts of Catharines and Erin (Chemung co.) were annexed in 1854. The town was transferred from Tioga to Tompkins co. March 22, 1822. It is the s. E. corner town in the co. Its surface is a hilly upland. Cayuta Creek flows s. E. through the town, in a narrow valley bordered by steep hillsides 300 to 600 ft. high. The soil is a clayey and gravelly loam. Cayuta (West Cayuta p.o.) contains 15 dwellings; Alpine, (p.v.,) on the N. line of the town, a flouring mill, sawmill, chair factory, and 25 dwellings. The first settlement was made in the valley of the Cayuta, near West Cayuta, in 1801, by Capt. Gabriel Ogden, Rev. David Janes, and Jos. Thomas,—the first two from Tioga co., and the last from Athens, Penn.<sup>7</sup> The first religious services were held by Rev. Mr. Janes, (Bap.,) at his own house, in 1802. No churches are reported.

The Lefferson Eagle, and was continued a few months.

The Havana Jurnal was commenced April 16, 1853, by John B. Look, and its publication is still continued.

The Watkins Republican was established in June, 1854, by S. M. Taylor. It passed into the hands of J. K. Averill, and afterward into the hands of J. K. Averill, and afterward into those of M. Ells, by whom it is still published.

The Schwyler County Democrat, commenced at Havana, April 25, 1855, by Averill & Baxter, was soon after discontinued.

2 Named from Catharine Montour, a French woman who maried an Indian, was adopted into the Seneca tribe, and exerted a controlling influence among the Indians. She received a small salary from the English Colonial Government, for many years on account of her influence among the Indians. She resided on the present site of Havana, and was known as Queen Catharine. This town as first formed embraced the N. part of Tps.

**DIX**<sup>1</sup>—was formed from Catlin, (Chemung co.,) April 17, 1835. It lies upon the w. side of Catharines Creek, and extends from the head of Seneca Lake to the s. bounds of the co. The surface is mostly a rolling and hilly upland, the summits being 400 to 700 ft. above the lake. It is drained by Catharines Creek and several smaller streams. The soil is principally a fine quality of gravelly loam. A little s. w. from the head of the lake is a deep glen in the hills, bordered by perpendicular rocks 200 ft. high. A small stream runs through it, forming a series of beautiful cascades. Watkins,2 (p. v.,) upon the line of Reading, at the head of Seneca Lake, was incorp., as "Jefferson," April 11, 1842, and its name was changed April 8, 1852. It contains a courthouse, 5 churches, a newspaper office, and several manufacturing establishments. It is a lake, canal, and R. R. station; a daily steamboat plies upon Seneca Lake between this place and Geneva. Pop. 1,084. Beaver Dams, (p. v.,) in the s. w. corner, contains 2 churches, several manufactories, and 28 dwellings; Townsend, (p.v.,) near the w. line, contains 1 church, several mills, and 36 dwellings; Crawford Settlement, (Moreland p.o.,) near the s. line, contains 2 churches and 26 dwellings. The first settlements were made near the head of the lake and along the valley of Catharines Creek, about the commencement of the present century.3 The first church edifice (Bap.) was erected in 1833, at Townsend.4

HECTOR—was formed from Ovid, (Seneca co.,) March 30, 1802. It is the s.w. corner township of the Military Tract and the N.E. corner town of the co. Its surface is a rolling upland, its highest summits being 500 to 700 ft. above Seneca Lake. The bluffs bordering upon the lake are 100 to 300 ft. high, and nearly perpendicular. It is drained by a large number of small creeks flowing into Seneca and Cayuga Lakes. Hector Falls, upon a small creek in the s. w. part of the town, is a cascade made by the stream flowing down the bluff which borders upon the lake. The soil is a clay, sandy, and gravelly loam, in some places underlaid by hardpan. Perry City, (p.v.,) upon the E. line of the town, contains a Friends' meeting house and 120 inhabitants; Mecklenburgh, (p.v.,) situated 2 mi. s. w. of Perry City, contains 3 churches, 2 sawmills, a flouring mill, and 338 inhabitants; Reynoldsville, (p. v.,) near the center of the town, contains a church and 117 inhabitants; Bennettsburgh. (p.v.,) in the s. part, contains a church, 4 saw and shingle mills, 1 gristmill, tannery, and 25 dwellings; Burdett, (p. v.,) in the s. w. part, contains 3 churches, a woolen factory, agricultural implement factory, iron foundery, gristmill, sawmill, tannery, and 360 inhabitants; Peach Orchard, (Hector p.o.,) in the n. w. part, contains 3 churches and 34 dwellings; Polkville, in the N. w. part, contains a church and 16 dwellings; Searsburgh (p. o.) contains 2 churches and 10 dwellings. North liector and Cayutaville are p. offices; and Steamburgh is a hamlet. John Livingston and Wm. Wickham settled in 1791, in the N. w. part of the town, on the bank of the lake. The first church (Presb.) was formed by Rev. Mr. Stewart, at Peach Orchard, in 1809.6

ORANGE—was formed from Wayne, (Steuben co.,) Feb. 12, 1813, as "Jersey." Its name was changed Fcb. 20, 1836. A part of Hornby (Steuben co.) was annexed April 11, 1842, and a part of Bradford, (Steuben co.,) April 17, 1854. It is the s. w. corner town in the co., and is bounded on the E. by the pre-emption line. Its surface is a rolling and hilly upland, broken by the deep and irregular valleys of the streams. Meads Run, flowing s.w., forms the principal drainage. The soil is chiefly a gravelly loam. Monterey (Orange p. o.) contains 3 churches, a gristmill, and 301 inhabitants. Sugar Hill is a p. o. in the N. E. part. The first settlements were made in 1799, by Abraham Rozenback and Samuel Scomp, N. E. of Monterey. The first church (M. E.) was formed by Rev. Peregrine Hallett, the first preacher.8

<sup>1</sup> Named from Ex-Senator John A. Dix. 2 Named from Dr. Samuel Watkins, an early settler in the

village.

<sup>3</sup> Geo. Mills was among the first settlers in town, and is still living there, at the age of 95 years. Judge John Dowe, David Culver, and John and Wm. Watkins were also among the early settlers. The first settlers at the village of Townsend were Claudius Townsend, Consider B. Evens, Jonas Blower, and Dodo Banson in 1823. \*Phenegar Parry was the first active at Banson.\* Benson, in 1823; Ebenezer Perry was the first settler at Beaver Dams. At this place 2 dams were built across Post Creek by beavers; one of the dams still remains. A swamp, formed by the lower dam, is an alluvial deposit 400 ft. deep, from which lime is made.

<sup>7</sup> Henry Switzer, from N. J., settled on Switzer Hill, in 1802, and D. Hewitt, from Reusselar co., N.Y., was the first settler at Monterey, in 1811. Abner and Thos. Hurd, and Brigham Young, the Mormon leader, were early settlers in the N.E. part of the town. Saml. Chapman, Wm. Wilkins, Wm. De Witt, Andrew Fort, Danl, Curtiss, and Jedediah Miller settled on Meads Run. Fort, Dani. Chriss, and Jededian Milet setted on Bleads Rule in 1811. Elsie Switzer was the first child born. The first school was taught by Dan'l McDougall, in 1819, near Monterey. Thos. Hurd kept the first inn. in 1816, at Monterey, and Walter Hurd the first store, s. w. of the same place.

§ The census reports 4 churches in town; 2 Bap., Presb., and

READING—was formed from "Frederickstown," (now Wayne, Steuben co.,) Feb. 17, 1806. It lies upon the w. bank of Seneca Lake, and is the central town upon the N. border of the co. Its surface is a rolling upland 400 to 500 ft. above the lake. The bluffs upon the shore are very steep and in many places precipitous. Its streams are small brooks and creeks. The soil is mostly a clay loam. Reading Center (p.v.) contains 2 churches and 24 dwellings; Irelandville (Reading p. o.) contains 11 dwellings. North Reading is a p. o. The Elmira, Jefferson & Canandaigua R. R. traverses the town upon the w. shore of the lake. A settlement was made at Reading Center, by Judge John Dow, from Conn., in 1790. The first church (Bap. was formed by Elder John Goff, in 1810, at Reading Center.2

TYRONE—was formed from Wayne, (Steuben co.,) April 16, 1822. It is the N. W. corner town in the co. Its surface is an elevated upland divided into several ridges by the valleys of streams. Its principal stream is Mud Creek, flowing s.w. Little Lake, upon the w. border, is 3 mi. long and about 1 wide; and Mud Lake, in the s. w. corner, is 1½ mi. long and about one-half mi. wide. These lakes lie in deep valleys, and are bordered by a long range of hills which rise 300 to 400 ft. above them. The soil is a clay loam. Tyrone, (p. v.,) a little E. of Mud Lake, contains 1 church, 1 gristmill, 2 sawmills, 2 tanneries, several manufactories, and 160 inhabitants; Weston, (p. v.,) 4 mi. N. w. of Tyrone, contains 2 churches and 177 inhabitants; Altay, (p. v.,) a little E. of the center, contains a church, tannery, 2 sawmills, a steam flouring mill, and 144 inhabitants; Pine Grove (p.o.) contains a church and 6 houses. The first settlement was made in 1800, by Gen. Wm. Kernan, on a tract of 4,000 acres, purchased by Thos. O'Conner.3 The first church edifice (Union) was erected by the Presb. and Bap.; Rev. Joseph Crawford (Presb.) and Rev. Van Rensselaer Wall (Bap.) were the first preachers.4

MONTOUR—was formed from Catharines, March 23, 1860, and embraces the western part of the former town of Catharines, including the village of Havana.

Acres of Land, Valuation, Population, Dwellings, Families, Freeholders, Schools, Live Stock, Agricultural Products, and Domestic Manufactures, of Schuyler County.

4 The census reports 7 churches; 3 Bap., 2 Presb., and 2 M. E.

## SENECA COUNTY.

This county was formed from Cayuga, March 29, 1804. A part of Tompkins was taken off in 1817, and a part of Wayne in 1823. It lies w. of the center of the State, centrally distant 156 mi. from Albany, and contains 420 sq. mi. It occupies the greater part of the land which lies between Seneca and Cayuga Lakes, and extends several mi. N. of Seneca Lake Outlet. A high ridge enters the co. from Tompkins and occupies nearly one-fourth of its surface. The summit of the extreme s. portion of this ridge in this co. is 700 to 800 feet above Seneca Lake and 1,100 to 1,250 feet above tide. Toward the N. it gradually declines to the level of Seneca Lake. The ridge is bordered in some places by steep declivities and in others by gradual slopes, and in the s. part of the co. generally terminates in

high bluffs on the shores of the lakes. At the foot of Seneca Lake the bluffs, on an average, are about 20 feet high; but toward the s. they gradually rise to an elevation of 100 to 150 feet. At the foot of Cayuga Lake the shore is low and shelving; but in Romulus a bluff shore commences, which gradually increases in height until on the s. border of the co. it attains an elevation of 150 to 200 feet. From the summits of the bluffs to the central summit of the ridge the land generally rises in beautiful, smooth, gradual slopes, broken in a few places by sharp declivities of a terrace-like formation. From Ovid toward the N. the land abruptly descends about 200 feet, and then by gradual slopes to the level of Seneca River. The region immediately N. of Seneca Lake Outlet and w. of the Cayuga Lake Outlet is level, and some of it is marshy. In the N. w. corner of the co. is a great number of alluvial ridges, composed principally of gravel. These ridges extend in a N. and s. direction and are 30 to 50 feet high. Their declivities are generally very abrupt toward the N., E., and w., but more gradual toward the s.

The geological formation of the co. is very simple. The rocks overlie each other in parallel layers slightly dipping toward the s. The lowest rocks that crop out in the co. are those of the Onondaga salt group, including both the red shales and gypsum. They are found along Scneca River, where the gypsum is extensively quarried. Next above these are heavy, compact masses of the corniferous limestone, occupying a belt of country 2 to 3 mi. wide s. of Seneca River. The intermediate waterlime and Onondaga limestone strata are developed in this co. only in very thin and scarcely noticeable layers. The corniferous limestone furnishes a building stone of great excellence and is extensively quarried. Next in order come the Marcellus and Hamilton shales, occupying a broad belt through the co. and extending nearly to the summits of the ridges; the Tully limestone, a layer of only a few feet in thickness, but valuable from the quantity and quality of lime manufactured from it; and the Genesee slate, a dark, shaly rock which crowns the summits of the southern hills. These rocks throughout the co. are covered with a deep deposit of drift, consisting of clay, sand, gravel, and hardpan, and crop out only along the shores of the lakes, the narrow ravines of the streams, and the steep declivities of the ridges. In the N. w. corner of the co. this drift is arranged in ridges with narrow valleys scooped out between them.1

The principal stream is Seneca River, forming the outlet of Seneca Lake. It has a course of about 14 mi. between the two lakes, and in that distance falls 60 feet. The falls are principally at Waterloo and Seneca Falls, furnishing an excellent water-power at each place, but much the greater at the latter. From Cayuga Lake, Seneca River flows N. E. through a marshy region and forms a portion of the E. boundary of the co. Clyde River, a tributary of the Seneca, flows through a portion of the marshy region in the N. E. corner. The other streams are all small brooks and creeks, and for the most part are rapid torrents flowing in deep gulfs worn in the shaly rocks. They are frequently interrupted by waterfalls, are nearly dry in summer, and are subject to severe freshets.

Seneca Lake, the w. border of which forms the greater part of the w. boundary of the co., is 35 mi. long and 1 to 4 mi. broad. It is 216 feet above Lake Ontario and 447 feet above tide. It occupies a deep valley between the hills, and it varies in depth from 300 to 630 feet. Its shores are generally bold; and from their summits the land slopes gently and gracefully upward to a height

of 200 to 700 feet above its surface, furnishing some of the most quiet and beautiful scenery in the State. This lake is never entirely frozen over. Cayuga Lake occupies a parallel valley on the E. border of the co., and is 38 mi. long and 1 to 31 mi. wide. It is 60 feet below Seneca, and its greatest depth is 346 feet. Near the foot the lake is very shallow, and a large extent of land, immediately adjoining and lying along the course of its outlet, is swampy. Further s. the shores are bluff and the country is of the same general character as that bordering upon Seneca Lake.

The soil is generally of a very excellent quality. The sandy and gravelly loam of the drift deposits is well adapted to either grain raising or grazing. The lower portions of the ridges are enriched by the disintegration of the rocks above, making the soil very productive. The lowlands bordering upon Seneca River are clayey and in many places mixed with disintegrated gypsum and limestone. North of the river have been found extensive marl deposits of great agricultural value. North of the foot of Seneca Lake is a sandy region once considered worthless; but upon trial the soil has been found susceptible of being made productive at little expense. The marshy regions w. of Cayuga Outlet are covered with thick deposits of marl and muck. Measures have been instituted to drain these marshes; if successful a new and exceedingly fertile region will be added to the productive lands of the State.

The co. is a half-shire, the co. seats being located respectively at Ovid and Waterloo.<sup>2</sup> The courthouse and clerk's office at Ovid are brick buildings, situated in the E. part of the village. The combined courthouse and jail at Waterloo is a brick building, situated near the R. R., fronting the public square, in the w. part of the village. The co. poorhouse is located upon a farm of 126 acres, upon the line between Seneca Falls and Fayette, 4 mi. s. E. of Waterloo.<sup>3</sup>

Four weekly newspapers are now published in the co.4

The public works of the co. are the N. Y. Central R. R., extending through Seneca Falls and Waterloo, and the Seneca Canal, extending along Seneca River through the same towns.<sup>5</sup> Above the falls at Waterloo the canal is formed by slackwater navigation upon the river.

The lands in this co. were first brought to the notice of the whites by the expedition of Sullivan, which passed along the banks of Seneca Lake in 1779. Portions of the land at that time had been cleared and were under cultivation. The Indians had a tradition that this whole region had once been occupied by a race that pursued agriculture, but which had long ago disappeared. Many of Sullivan's soldiers, attracted by the beauty and fertility of the lands, after the war settled in various parts of the co. The first settler, Job Smith, who located at Seneca Falls in 1787, and the second, Andrew Dunlap, who located at Ovid in 1789, came in by way of Chemung River. The third settler, Lawrence Van Clief, who settled at Seneca Falls in 1789, came in by way of Oneida Lake and Seneca River.<sup>6</sup> After 1790 settlement progressed rapidly, and the most fertile lands

This swampy region is the southern termination of the noted

Montezuma Marshes.

Montezuma Marshes.

2 The county seat was located at Ovid upon the erection of the co. in 1804. The courthouse was built in 1806. While a part of Onondaga co., in 1790, courts were held at the barn of Andrew Dunlap. In 1817, upon the erection of Tompkins co., the co. seat was removed to Waterloo; but in 1822 the co. was divided into two jury districts, and the courts have since then been held alternately at Ovid and Waterloo. The first co. officers were Cornelius Humphrey, First Judge; Silas Halsey. Clerk; William Smith, Sheriff; and Jared Sandford, Surrogate.

3 The average number of immates is 60, snpported at a weekly cost of \$1.00 each. A school is taught 4 months in the year. The establishment seems to be pretty well arranged and managed.

4 The Seneca Patriot, the first paper published in the co., was started at Ovid in 1815 by Geo. Lewis. In 1816 it was changed to

changed to The Ovid Gazette. Upon the change of the co. seat in 1817, it was removed to Waterloo and changed to
The Waterloo Gazette, and was continued several years by the

The Waterloo Gazette, and was continued several years by the original proprietor.

The Seneca Farmer was started at Waterloo in 1822 by Wm. Child. In 1832 it was removed to Seneca Falls and united with the Seneca Falls Journal.

The Waterloo Republican was issued a short time in 1822.

The Waterloo Observer was started in 1824 by the 1812 it was soon after issued a short time as

The Observer and Union, and was subsequently changed to

The Seneca Observer, under which title it is still issued by the original proprietor.

by the original proprietor.

The Wreath and Ladies' Literary Repository was Issued from the Observer office in 1831.

The Seneca Republican was established at Ovid in 1827 by Mi-chael Hayes. In 1830 it was changed to The Ovid Gazette and Seneca County Register, and was issued a

The Octal Cazette and Senece County Register, and was issued a short time by John Duffy.

The Seneca Fulls Journal was commenced in 1829 by O. B. Clark. In 1831 it passed into the hands of Wm. N. Brown, and in 1832 it was united with the Seneca Farmer and changed to

The Seneca Farmer and Seneca Falls Advertiser, and was issued by Wm. Child until 1835. The Western Times was published at Waterloo in 1830 by Ebe-

nezer P. Mason.

The Ovid Emporium was published in 1832 by Bishop Orenshier.

The Seneca County Courier was commenced at Seneca Falls in 1837 by Isaac Fuller & Co. It was successively published by Fuller & Bloomer, Mills & Bloomer, Mills & Davis, John J. Davis, N. J. Milliken, Milliken & Fuller, Milliken & Mumford, Foster & Judd, Fuller & Judd, until 1850, when it passed into the hands of Isaac Fuller, its present publisher.

The Ovid Bee was started in 1838 by David Fairchild & Son. At the end of one year It passed into the hands of the son, Corydon Fairchild, its present publisher.

The Seneca Fulls Democrat was commenced in 1839 by Josiah T.

Miller, and was continued 10 years.

The Seneca Democrat, semi-w., was issued a short time from the same office.

The Seneca Falls Register was commenced in 1835 by J. K. Brown, and was continued 2 years.

The Memorial was commenced at Seneca Falls in 1840 by Ansel

Bascom, and was continued until 1846

The Water Bucket was published at Seneca Falls by an association of Washingtonians in 1841.

The Free-Soil Union was commenced at Seneca Falls in Aug.
1848, by N. J. Milliken, and continued about 1 year.
The Lily was commenced at Seneca Falls in 1849 by Mrs.

Amelia Bloomer, and was continued until 1854, when it was removed to Ohio.

was removed to June.

The American Reveille was commenced at Seneca Falls in Jan. 1855, by Wilcoxen, Sherman & Baker. In 1856 it was purchased by G. Wilcoxen, and was continued by him until Jan. 1859, when it passed into the hands of Holly & Stowell, the present publishers.

The first locks on this river were made by the Seneca River

Navigation Company, in 1815.

<sup>6</sup> Mr. Van Clief was one of the 100 men dispatched by Sullivan

under Col. Gansevoort, directly E. from the head of Seneca Lake,

were speedily occupied. In 1791 the State Road, known as the "Geneva Road," was built from Whitestown to Geneva; and this soon became the great highway for immigration. This co. formed the extreme w. portion of the Military Tract; and many of the early settlers were old soldiers who had drawn their portion of public land here.

COVERT—was formed from Ovid, April 7, 1817. Lodi was taken off in 1826. It lies upon the w. shore of Cayuga Lake, in the s. E. corner of the co. Its surface is an upland descending from its w. border and terminating in a steep and almost precipitous bluff upon the shore of the lake. This bluff rises 100 to 200 feet above the water, and the summit of the slope is about 400 feet higher. The town is watered by Trumansburg Creek and many smaller streams, flowing into Cayuga Lake. These streams have worn ravines in the slate and shales to the depth of 20 to 40 feet, the sides being nearly precipitous. In summer they are nearly dry, but during heavy rains they become fierce mountain torrents, bounding and seething in their confined channels and leaping from high precipices to mingle with the calm and peaceful waters of the lake. The soil is a gravelly and clavey loam. The whole surface is arable, except the steep declivities of the lake bluffs. Farmerville, (Farmer p. o.,) in the N. part, contains 3 churches, a steam sawmill, foundery, and machine shop. Pop. 350. Covert, (p. o.,) in the s.E. part, Halls Corners, near the center, and Kelleys Corners, in the x. w., are hamlets. Port Deposit (Trumansburg Landing p. o.) is a steamboat landing near the s. E. corner. The first settler was Philip Tremaine, who located at Goodwins Point before 1793.1 The first religious services were held at the house of Mr. King, by Elder Thomas; the first church (Bap.) was organized in 1805.2

**FAYETTE**—was formed from Romulus, as "Washington," March 14, 1800. Its name was changed April 6, 1808. Junius was taken off in 1803. It lies on the s. bank of Seneca River and extends from Seneca to Cayuga Lake. Its surface is rolling and inclined toward the N. From Seneca Lake the land beautifully slopes upward, forming some of the most delightful situations for residences in the co. Upon Cayuga Lake the shores are lower and in some places are marshy. The highest point in town is about 200 feet above Seneca Lake. The streams are mostly small brooks flowing with rapid currents, and at a few places furnishing limited water-power. In some parts the corniferous limestone is extensively quarried, both for lime and for building purposes. The soil is a deep, rich loam, composed of clay, gravel, and sand. Near Canoga Village is an immense spring in a basin 14 feet in diameter, and from it flows sufficient water to form a large and valuable water-power. The spring also emits nitrogen gas. Canoga, 3 (p. v.,) in the n. e. part, on Cayuga Lake, contains 2 churches, a gristmill, 2 sawmills, and 197 inhabitants. South Waterloo, a suburb of Waterloo, on the s. bank of Seneca River, contains 1 church and 597 inhabitants. Bearytown, (Fayette p. o.,) on the line of Varick, is partly in this town. West Fayette, in the s. w. corner, and Rose Hill, in the w. part, are p. offices. The first settlement was made by James Bennett, from Penn., who located upon the shore of Cayuga Lake in 1789.4 Red Jacket, the Seneca chief and orator, was born near Canoga Spring. There are 8 churches in town.<sup>5</sup>

JUNIUS—was formed from "Washington," (now Fayette,) Feb. 12, 1803; Wolcott (Wayne co.) was taken off in 1807, Galen (Wayne co.) in 1812, and Seneca Falls, Tyre, and Waterloo in 1829. It is the N. w. corner town of the co. In this town are numerous small, isolated gravel and clay ridges 30 to 75 ft. high, all extending in a general N. and s. direction. The numerous small streams that drain the town flow N. into Clyde River. Among the narrow valleys in the E. part is a limited amount of swamp land: The soil is a good quality of gravelly loam. **Dublin**, (Junius p. o.,) N. W. of the center, contains 1 church and 25 dwellings. West Junius is a p. o. near the s. w. corner. Thorntons Corners is a hamlet. The first settlements were made by Thos. Bedell and Jesse, Sam'l, and David Southwick, about 1795.6 The first church (Cong.) was formed in 1811; three years after it was changed to a Presb. There are also 2 M. E. churches in town.

**LODI**—was formed from Covert, Jan. 27, 1826. It borders upon Seneca Lake, and is the s. w.

to lay waste the lands of the Cayugas, Onondagas, and Oneidas

to lay waste the lands of the Cayugas, Onondagas, and Oneidas that had previously escaped destruction.

1 Among the other early settlers were Nathaniel, Reuben, and Rassler King, from Dutchess co., in 1793; Jonathan Woodworth and sons Nehreniah, Charles, and Oliver, and daughter Deborah, from Norwich, Conn., Miner and Joseph Thomas, in 1794; and Turtellus King, in 1795.

2 This was the first church formed in the co. The census reports 4 churches; 2 Bap., Univ., and Ref. Prot. D.

3 The name of the village, derived from that of the spring, is an Indian word said to signify "sweet water."

<sup>4</sup> Samuel Bear settled at "Schoyes," now South Waterloo, about 1795. Wm. Watkins kept the first inn, at South Waterloo, and Samuel Bear built the first grist and saw mill, at the same place 6 2 Presb. 2 M. E., 2 Lutheran, 2 Ref. Prot. D. 6 Among the other early settlers were families named Sherman, Chapman, Brownwell, Fisk, Moore, French, Maynard, Thorn, and Hart,—mostly from New England. The first death was that of Mrs. Submit Southwick, wife of Samuel Southwick, in 1802. Joseph Moody kept the first store, at Dublin. He was an Irishman; and hence the name of the village.

corner town in the co. Its surface is mostly inclined toward the w. and N., a small portion only lying E. of the summit. The bluff bordering upon Seneca Lake is 150 to 250 ft. above the surface of the water; and the highest part of the central ridge is 500 ft. higher and about 1,200 ft. above tide. The principal streams are Mill Creek, flowing N. w. through near the center, and Sheldrake Creek, in the n. w. corner. Mill Creek separates the highlands into two distinct ridges, the declivities being very abrupt. Upon this stream are several fine cascades. Lodi Falls, where the creek leans down the precipitous bluff which borders upon the lake, are 125 ft. high. The water has worn a deep and irregular channel in the shale rocks one mi. back from the face of the bluff. The soil is principally a gravelly loam mixed with the disintegrated rocks. Lodi, (p. v.,) in the N. part, contains 2 churches, a gristmill, and 380 inhabitants; Townsendville, (p. v.,) in the s. E. part, a church and 20 dwellings. Lodi Center (p.o.) is a hamlet. Lodi Landing is on Seneca Lake, at the mouth of Mill Creek. The first settlement was made by Geo. Faussett, from Penn., who settled in the s. w. part in 1789.1 There are 5 churches in town.2

OVID—was formed March 5, 1794. Hector (Schuyler co.) was taken off in 1802, and Covert in 1817. It lies s. of the center of the co., and extends from Seneca to Cayuga Lake. Its surface consists of an arable ridge, 600 ft. above Seneca Lake and about 1,100 ft. above tide, descending from w. of the center toward the lakes. The bluffs upon the lakes are 20 to 50 ft. high, and nearly perpendicular. A great number of small streams flow into both Cayuga and Seneca Lakes, the principal of which are Sheldrake, Osborn, Groves, and Barnum Creeks on the E., and Sixteen Falls Creek on the w. These streams have all worn deep, ragged ravines in the yielding shales. They are frequently interrupted by cascades, and in summer are nearly dry. The soil consists principally of clay and gravel intermixed with sand and the disintegrated rocks. Ovid, (p. v.,) near the N. line, contains a courthouse, co. clerk's office, 3 churches, the Ovid Academy, a steam mill, and ax factory, and about 650 inhabitants. Ovid Landing is just over the town line in Romulus. Sheldrake Point, (Sheldrake p. o.,) a steamboat landing upon Cayuga Lake, contains a church, steam sawmill, boat yard, and 168 inhabitants. Ovid Center contains 20 houses. Kidders Ferry, (p. o.,) near the s.E. corner, and Scotts Corners, near the center, are hamlets. The first settlement was made in May, 1789, by Andrew Dunlap, from Penn. who located on Lot 8, in the N.W. part of the town.4 The first religious services were held at the house of Abraham Covert, in 1794. The first settled preacher (Ref. Prot. D.) was John Lindsley, in 1800.5 The New York State Agricultural College and farm are located on the N. line of this town, w. of the village. In the s. part of the town are the remains of an ancient fortification.

ROMULUS—was formed March 5, 1794. Fayette was taken off in 1800, and Varick in 1830. It lies s. of the center of the co., and extends from Seneca to Cayuga Lake. Its surface is rolling or moderately hilly and has a general northerly inclination. The high bluff from Ovid extends into the s. border of the town, where it drops down abruptly about 200 ft. The land slopes from the center downward to the E. and w. The streams are small and generally flow in deep channels. The surface is smooth, except along the courses of the streams, and is nearly all arable. The soil is a fertile, gravelly and clayey loam. Romulus, (p. v.,) on the line of Varick, contains a church, steam sawmill, female seminary, and 36 dwellings. Hyatts Corners, in the s.E., contains 20 dwellings. Romulus Center is a p.o. Whitneys Landing is a station upon Cayuga Lake; and Cooleys and Freleighs Points and Ovid Landing are stations upon Seneca Lake. The first settlement was made by David Wisner, in 1789. There is but one church (Bap.) in town.

triple marriage in 1793 was the first in town. The parties were Joseph Wilson and Anna Wyckoff; Abraham A. Covert and Catherine Covert; and Enoch Stewart and Jane Covert. They were obliged to cross Seneca Lake to find a justice authorized to perform the ceremony. Benj. Munger taught the first school, in 1795: John McMath kept the first store, in 1797, and the first inn, in 1800; and B. Boardman erected the first mill, in 1793, on Lot 2, 5 There are now in town 7 churches; 2 Presb., 2 M. E., Ref. Prot. D. Rep., and E. C.

Prot. D., Bap., and R. C.

6 This institution was incorporated in 1853; and the buildings

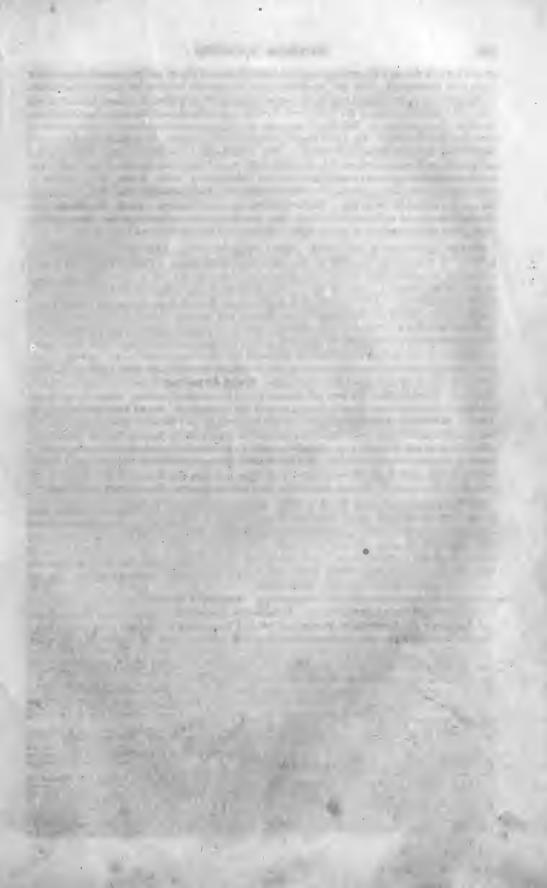

<sup>6</sup> This institution was incorporated in 1853; and the buildings now in process of erection. They were designed by S. E. Hewes, of Albany, and consist of a main building 90 ft. front and 132 deep, having a wing on each side 84½ by 60, and transverse wings 85 by 128. It is designed to accommodate about 400 students. The farm contains 600 acres.

7 On Lot 29, within ½ ml. of the 8. line of the town, and exactly on the dividing ridge between the two lakes, once existed a mound or fortification of an irregular, elliptical form, inclosing about 3 acres, and surrounded by an embankment of earth, which in 1801 was about 3 feet in height, with a base 5 to 5 feet in width. The present proprietor, George Bo Dine, with his father, removed here in 1802, and built a house within the inclosed space, where he has since resided until within a few he sold out and removed to Lysander, Onondaga co., and laid the foundation of Baldwinsville. The first child born was David, son of Andrew Dunlap, Feb. 2, 1793; and the first death was that of George Dunlap, brother of Andrew, Sept. 24, 1791. A

<sup>1</sup> Mr. Faussett bronght in his family in 1790. Jas. Jackson, from Penn., settled in the x. w. part in 1789: Silas Halsey, from L. I., near Lodi, in 1792. The next year his sons and sons-in-law and their families, numbering 18 persons, came in. The first child born was a daughter of Geo. Faussett. Peter Smith kept the first inn, and Silas Halsey built the first gristmill, in 1794. 23 M. E.. Bap., and Ref. Prot. D. 3 In 1855 the name of this institution was changed to the Seneca Collegiate Institute.

Seneca Collegiate Institute.

4 The first settlers, mostly from Penn. and N. J., followed the 4 The first settlers, mostly from Penn. and N. J., followed the trail of Sullivan's army and located in the w. part of the town. Among them were Wm. Dunlap and Joseph Wilson, from Penn., Peter Smith, from N. J., and Henry Wharton. in 1789; Abraham Covert and his son Abraham A., from N. J., in 1790; Elijah Kinne, from Dutchess co, and John Seely, from Saratoga co,, in 1792; Nicholas and Richard Huff, Peter Hughes, Abraham De Mott and his son James, in 1793; and William and Robert Dunlap and Teunis Covert, in 1794. In the summer of 1795, Jonas C. Baldwin settled on Lot 11, where he remained until 1801, when he sold out and removed to Lysander. Onondaga co., and laid the

STATE AGRICULTURAL COLLEGE

SENECA FALLS—was formed from Junius, March 26, 1829. It lies upon the w. bank of Cayuga Lake, N. of the center of the co. The surface is nearly flat, and it is elevated 30 to 50 ft. above Cayuga Lake. The shores of the lake are low and shelving, and the n. portion is swampy. Seneca River flows E. and N. through the center of the town, its valley dividing the town into two distinct parts. The river flows over a series of ledges into a deep chasm apparently worn by its waters. Just E. and S. W. of the village are extensive gypsum quarries. The soil is a stiff, hard clay in the S. and E., a sandy loam in the N. W., and a heavy vegetable muck in the N. E. Seneca Falls, (p. v.,)1 upon Seneca River, near the center of the town, was incorp. April 22, 1831. It is a station upon the N.Y.C. R. R. and the Seneca Canal. The total fall is 51 feet, and furnishes an abundance of water-power, which is largely improved. It contains 7 churches, the Seneca Falls Academy, a union school, 2 newspaper offices, extensive manufactories of fire engines, pumps, machinery, iron, and woolen goods, and a great variety of other articles.2 Pop. about 4,000. The first settlement was made by Job Smith, from Ulster co., upon the present site of the village in 1787; he left in 1793. The first permanent settler was Lawrence Van Clief, in 1789.3 The first religious services were held by M. E. missionaries, about 1797; and the first regular minister was Rev. Matthew Stewart, (Presb.,) in 1804.

TYRE—was formed from Junius, March 26, 1829. It is the N. E. corner town of the co. The E. half is a swamp, being the s. termination of the Montezuma Marshes. The w. half is occupied by peculiar drift ridges similar to those already described in Junius. These ridges are 30 to 50 feet high, and generally have very steep declivities upon all sides except the s. One of the longest of these, in the w. part of the town, extends nearly two-thirds of the distance from the s. line to the N. Its summit is nearly level; and the road which is located upon it appears as though built upon an artificial embankment. The soil is clay and muck in the E. and a gravelly loam in the w. Tyre City, (Tyre p.o.,) near the center, contains 2 churches and 20 dwellings. Cruso is a p.o. on the N. line. The first settlement was made by Ezekiel Crane, from N. J., who came in 1794.<sup>5</sup> The first church (Bap.) was formed in 1805. Elder Don Ralph was the first preacher.<sup>6</sup>

VARICK—was formed from Romulus, Feb. 6, 1830. It extends from Seneca to Cayuga Lake, across the center of the co. Its surface is slightly inclined toward the N. The slopes of the ridges are

years. The work was evidently of great antiquity,—the timber | in the battles of White Plains, with Washington at Valley Forge years. The work was evidently of great antiquity.—The timber on the inside being of the same size and apparent age of that in the surrounding forest. Upon the bank and in the ditch large oak trees—the growth of centuries—were standing. In the embankment were several openings a few feet in width, which

in the battles of White Plains, with Washington at Valley Forge and with Sullivan in his campaign against the Indians. He settled on the river, and engaged in piloting boats over the rapids until the locks were built in 1815. Among the other early settlers were James Bennett, Col. John Harris, and — Parker. The first child born was a daughter of Lawrence Van Clief, Nov. 29, 1790; the first marriage, that of — Ely and Pamela Parkhurst, in 1796; and the first death, that of Mrs. Job Smith, in 1792. The first school was taught by — Leonard, in 1797. Lawrence Van Clief kept the first inn, in 1794; and Col. Wilhelmus Mynderse kept the first store, in 1795, and built the first saw and grist mill, about the same time. In 1794, Robert Trout, Nicholas Gouverneur, Stephen N. Bayard, and Elkanab Watson, under the title of the Bayard Company, bought of the State 100 acres of land on the N. side of the river, embracing the greater part of the water-power upon that side. In 1795 they purchased 250 acres on the s. side, and in 1806, 650 acres more on the n. side, completing the purchase of the water-power, In 1795 the company sold a one-fifth interest in their purchase to Col. Mynderse, and constituted him their agent. In 1795 the "Upper Red Mills" were erected under his direction; and in 1807 the "Lower Red Mills" were erected under his direction; and in 1807 the "Lower Red Mills" were erected under his direction; and in 1807 the "Lower Red Mills" were erected under his direction; and in 1807 the "Lower Red Mills" were erected. The Co. refused to sell their land, neglected to improve the immense water-power that they owned, and In 1825 broke down, and the property was sold for about one-fifth of its cost. In 1820-30 the manufacturing interests of the place began to increase. About that time a paper mill was erected by Chauncey Marshall, G. V. Sackett, and Ansel Bascom; a cotton factory, by Judge Sackett; a machine shop, by McClary & Halliday; and a clock factory, by Marshall & Adams. Until the locks were built. che surrounding forest. Upon the bank and in the ditch large oak trees—the growth of centuries—were standing. In the embankment were several openings a few feet in width, which embankment were several openings a few feet in width, which embankment were several openings a few feet in width, which were once probably used for gates or entrances. In making an excavation for a cellar, on the z. side, 6 skeletons were found at the depth of about 2 feet. This was in 1857. Several had been found previously; and, though all the softer parts of the bones found previously; and, though all the softer parts of the bones found previously; and, though all the softer parts of the bones found previously; and, though all the softer parts of the bones found previously; and, though all the softer parts of the bones found previously; and in the valleys of the Chio and Mississippl, erected by a race once civilized than the Indians, and that they preceded the latter in the occupation of this country; their origin and end are alke a mystery; their annals defy the ken of human research, and their history will remain a sealed book perhaps forever. The Indians were never able to give any account of this fortification, as it was older than their traditions.

I Named from the falls in the river, the Indian name, "Shase-ounse," signifying rolling water.

2 Downs & Co.'s manufacturing establishment, commenced in 1840, thas a capital, including real estate and machinery, of about 1840, has a capital, including real estate and machinery, of about 1840, those accounts, and the supplyed in this department. so gradual that nearly every part is arable. The streams are all small. Near the center of the town is a cranberry swamp, occupying about 800 acres. The soil is a gravelly loam intermixed with clay. Bearytown, (Fayette p. o.,) upon the line of Fayette, in the N. E. part, contains 3 churches, a steam sawmill, stave factory, and 128 inhabitants, of whom 51 are in this town. Romulus (p. v.) lies on the s. border. East Varick (p. o.) is a landing upon Cayuga Lake. MeDuffie Town is a hamlet in the s.E. corner. Varick is a p.o. The first settlement was made by James McKnight, in 1789.1 There are 3 churches in town; Bap., Presb., and M. E.

WATERLOO—was formed from Junius, March 26, 1829. It lies on the N. bank of Seneca River, N. w. of the center of the co. The surface is almost one unbroken flat. A marsh extends E. and w. through the town s. of the center, and another occupies the N.E. corner.2 The bed of Seneca River, on the s. boundary, is almost level with the general surface. The soil is muck and clay in the N. and E., gravel along the N. border, and a sandy loam in the center and W. Waterloo, (p. v.,) on Seneca River, near the E. border of the town, was incorp. April 9, 1824. It is a station upon the N. Y. C. R. R. and upon the Seneca Canal. A fall of 24½ feet in Seneca River furnishes an excellent water-power, which is mostly improved. It is a half-shire of the co., and contains the courthouse, 6 churches, the Waterloo Union School, a bank, a large shawl factory, 3 distilleries, 2 malt houses, 3 flouring mills, 5 sawmills, 2 founderies and machine shops, 2 oil mills, and numerous other manufactories.4 Seneca River above the falls, being seldom frozen, is navigable throughout the year. This village is an important depôt of lumber from the s. w. cos., and of coal from the Susquehanna and Blossburg Mines. Pop. 3,050. South Waterloo, formerly called "Schoyes," is on the opposite side of Seneca River, in Fayette. Settlement was commenced by John Greene, from R. I., in 1789.5 The first religious services were held about 1816.6

as a son of James McKnight, in 1790 4 The waters of Black Brook which flow through the central swampy region are impregnated with earthy and vegetable matter, which gives to them the peculiar quality of clearing the

matter, which gives to them the peculiar quality of clearing the inside of steam boilers of the incrustations of sulphate and carbonate of lime resulting from the use of hard water.

5 The Waterloo Woolen Manufacturing Co. was organized in 1836. with a capital of \$150,000; 200 to 250 hands are employed; 200,000 lbs. of wool are used, and 40,000 long shawls are annually manufactured. This is, next to the Bay State Mills, the largest shawl factory in America.

6 Among these establishments is a plaster mill, boatyard, and drydock, 4 copper, tin, and sheet iron factories, a fanning mill, and washboard factory, and 2 cabinet and furniture shops.

<sup>7</sup> Among the other early settlers were Jabez Gorham, from Ballston, (Saratoga co...) who located upon the present site of the village. Salmon Disbrow from Saratoga co., came in about the same time. The first child born was John Smith, in 1898; the first marriage, that of Job Smith and Miriam Gorham, in 1799; and the first deaths, those of John Gregory and James Hull, two Revolutionary soldiers, who dried lots in this town, settled upon them, and both died about 1898. Isaac Gorham taught the first shool, in 1810; Jabez Gytham kept the first inn, about 1795; Charles Swift, the first store, in 1815; and James Bear built the first mill, in 1794.

The census reports 6 churches in town; Presb., Prot. E., Ref. Prot. D., M. E., Disciples, and Friends. Among the other early settlers were Jabez Gorham,

#### STEUBEN COUNTY.

This county was formed from Ontario, March 18, 1796, and named in honor of Baron Steuben. The 7th Range of Townships was annexed to Allegany co. March 11, 1808, the part in the fork of Crooked Lake to Ontario co. Feb. 25, 1814, a part of Dansville to Livingston co. Feb. 15, 1822, a part of Reading to Yates co. in 1824, and a part to Schuyler co. April 17, 1854. It lies upon the s. border of the State, considerably w. of the center, is centrally distant 188 mi. from Albany, and contains 1,425 sq. mi. Its surface mostly consists of ridges and high, rolling uplands, forming the northern continuation of the Allegany Mts. The watershed between Lake Ontario and Susquehanna River extends from Allegany co. eastward across the N. part of the co. The deep valley of Crooked Lake

breaks the continuity of the highlands and extends 17 mi. s. w. from the head of the lake, connecting with the Conhocton Valley at Bath, and forming one of the numerous natural passes between the southern valleys and the basin of Lake Ontario. The highlands occupying the s. w. corner of the co. also form a portion of the watershed, being drained by branches of Canisteo River on the E. and of Genesee River on the w. The highest summits in the co. are about 2,500 feet above tide.1

The upland region has nearly a uniform elevation, with a slight inclination toward the N. It is intersected by numerous deep valleys, which have evidently been excavated by the action of water.2 The formation of the steep hillsides which border upon these valleys is such as to prove conclusively that they were once united, and that a wide, rolling plateau spread over the region now so irregular and broken. The principal of these valleys are those of Canisteo and Conhocton Rivers, extending nearly N. W. and S. E. through the co. From these valleys numerous others diverge at nearly right angles and branch off into countless deep, crooked ravines, intersecting the plateau in The hills that border upon these valleys are usually steep and 300 to 600 feet high

Conhocton River flows s. E. through near the center of the co. In high water it was once navigable for arks 14 mi. above Bath. It receives from the s. w. Neils, Bennetts, Campbells, Stockton, Michigan, and Stevens Creeks, and from the N.E. Twelve Mile, Ten Mile, Five Mile, (or Kanona,) Mud,3 and Meads Creeks. Canistee River flows through a valleys, w. of the Conhocton and nearly parallel to it. In freshets it rises 6 to 8 feet, and is then navigable for boats and arks about 40 mi. Its chief tributaries are Canacadea, Crosby, Pardy, Bennetts, Col. Bills, and Tuscarora Creeks, all from the s. w. Tioga River rises in Penn., flows N. through a deep, wild mountain valley, and unites with the Canisteo at Erwin, and with the Conhocton at Painted Post, from the latter place the combined stream taking the name of Chemung River.4 Canaseraga Creek, flowing N., drains the N. W. corner of the eo.; and several small streams rising in the s. W. corner form branches of Genesee River. Crooked Lake lies along the N.E. border, in a deep valley nearly surrounded by steep hills 500 to 800 feet high. Little Lake lies in a shallow valley along the E border of the town of Wayne. It discharges its waters s. into Mud Lake, and through Mud Creek into Conhocton River, Loon Lake, in Wayland, lies in a valley which is the southern continuation of the valley of Hemlock Lake in Livingston co. Still further s., in the same valley, is Mud Lake, a small sheet of water, the outlet of which flows s. and empties into the Conhocton.

The shales and sandstones of the Portage group outerop in all the deep ravines in the N. part of the co. and in the w. bank of Crooked Lake. Elsewhere, the Chemung group composes most of the surface rocks. Near the State Line the highest hills are capped with a coarse, silicious conglomerate, which forms the floor of the coal measures.5 A feeble brine spring is found at La Grange,

arks were floated from Mnd Lake down the creek and the Conhocton to the Susquehanna, and thence to the Baltimore market. Since the clearing of the forests, this stream has entirely failed

dry.

4 These streams were all much larger before the destruction of the forests. In time of high water the early settlers describe them as being "full from hill to hill."

<sup>1</sup> The following elevations have been determined, principally by actual surveys: Créoked Lake, 718 feet; Corning, 925; Village of Bath, 1,090; Hdrnellsville, 1,150; Arkport, 1,194; summit between Mnd Lake, and Bath, 1,579; summit between Bath and Arkport, 1,840; summit between Arkport and Angelica, 2,050.

2 These valleys must) have been excavated by more powerful currents of water than now flow through them; and their formation belongs to the drift period of geology.

3 Mnd Creek is the outlet of Mnd Lake, in Schuyler co. At the first settlement off the co. this stream was navigable, and arks were floated from Mnd Lake down the creek and the Con-

for purposes of navigation, and now, in summer, it is almost

them as being "full from bill to bill."

5 The rocks of this co. are generally of a shaly nature and not fit for use. There are a few exceptions, however. One mi. N. of Bath is a stratum, 3 feet thick, of a tough argillo-calcareous rock, forming an excellent building stone. In Woodhull, Canisteo, and Jasper the sandstone ledges furnish an excellent quality of grindstones. At Arkport, in Dansville, and Troupeburgh are marb beds, from which lime is manufactured.—Geod. 4th Dist., pp. 483, 484.

and sulphur springs in Campbell, Jasper, and Urbana. The soil in general is composed of detritus of the adjacent rocks, and is better adapted to grazing than tillage. Upon the intervales along the larger streams the soil is a fertile alluvium. The extensive flats upon the Chemung are among the finest agricultural lands in the State. Agriculture forms the chief occupation of the people. Grain is largely produced on the alluvial lands, and stock is extensively raised on the uplands. Stock and wool growing and dairying are the principal branches of agriculture pursued. Lumbering is still extensively carried on,-though it is gradually decreasing. The manufactures are principally confined to lumber, articles of wood, and the heavier and coarser products necessary to an agricultural region.

The co. is divided into the northern and southern Jury Districts, the co. buildings being respectively situated at Bath and Corning.1 The courthouse at Bath is a commodious brick building, erected in 1828.2 The jail is built of wood and closely surrounded by other buildings. The cells for prisoners are in the basement, and are not provided with any means of ventilation. Its arrangements show a culpable neglect and an entire disregard of the general sentiments of the co. and of the age. The co. clerk's office is permanently located at Bath. The courthouse at Corning is a fine brick edifice, erected in 1853-54 at a cost of \$14,000. The jail at Corning was erected at the same time. The courts are held alternately at Bath and Corning. The co. poorhouse is located upon a farm of 214 acres about 2 mi. N.E. of Bath Village. The average number of inmates is 75; and they are supported at an average weekly cost of \$1.00 each. The farm yields a revenue of about \$2,000. No instruction is afforded; but the children of proper age are bound out.

The New York & Erie R. R. enters the co. from Chemung and extends along the valleys of the Chemung, Tioga, and Canisteo Rivers to Hornellsville, and the Canacadea to the w. border of the co. It passes through Corning, Erwin, Addison, Rathbone, Cameron, Canisteo, and Hornellsville.4 The Buffalo, N. Y. & E. R. R. extends N. w. from Corning up the Conhocton Valley, through Erwin, Campbell, Bath, Avoca, Cohocton, and Wayland, to the N. border of the co. This road in tersects the Genesee Valley R. R. at Avon, the N. Y. Central at Batavia, the Buffalo & New York City at Attica, and the N. Y. & Erie at Corning. The Hornellsville Division of the Buffalo, New York & Erie R. R. extends N. w. up the valley of the Canisteo from Hornellsville, passing through that town and the s. w. corner of Dansville. The Blossburg & Corning R. R. extends from Corning, through Erwin and Lindley, s. along the Tioga Valley to the Blossburg coal region. Crooked Lake is navigated by steam and canal boats, and forms a link in the chain of the internal water communication of the State. It is united with the Erie Canal at Montezuma by Crooked Lake Canal, Seneca Lake, and the Cayuga and Seneca Canals. The Chemung Canal navigable feeder extends from Corning E. to Horseheads, in Chemung co. Considerable lumber is floated down the rivers and finds a market at Philadelphia and Baltimore. These various works of internal improvement afford ample facilities for the transportation of goods and passengers, and bring the farm products of the co. into close proximity to the Eastern markets.

Seven newspapers are published in the co.5

1 Upon the organization of the co., in 1796, the co. buildings were located at Bath. A wood courthouse, one and a half stories high, with two wings, was erected the same year. It was removed in 1828 and the present brick courthouse erected. About the time of the erection of the first courthouse, a jail was built of how locations that was readed by the asset is of the courthouse. built of hewn logs, which was superseded by the erection of the present jail in 1845. By an act of the Legislature, passed July 19, 1853, the co. was divided into two jury districts, and the co.

Joseph Jan. 1992. Nya act of the Legislature, passest of the co. was divided into two jury districts, and the co. buildings for the southern district were located at Corning. 2 The first co. officers were William Kersey, First Dudge; Abraham Bradley and Eleazur Lindley, Associate Judges; Geo. D. Cooper, Co. Clerk; William Dunn, Sheriff; and Stephen Ross, Surrogate.

3 This establishment consisted of 3 bnildings,—one of brick and two of wood.—containing altogether 31 rooms. In Sept. 1859, the two frame buildings were burned, and 6 persons, inmates of the establishment, perished in the flames.

4 This road was opened to Corning, Jan. 1, 1850, and to Hornellsville, Sept. 3 of the same year.

5 The Bath Gazette and Genesce Advertiser, the first paper published in Western New York, was established at Bath by Wm. Kersey and James Eddle in 1796, and was continued several years. In 6 months from its first issue its circulation had reached 1000 copies.

The Steuben and Allegany Patriot was started at Bath in 1815 by Benj. Smead, and was continued until 1822. It was then changed to

then changed to

The Farmers' Advocate and Steuben Advertiser. In 1849 it passed into the hands of William C. Rhoades, and in 1857 into those of P. S. Donahe, by whom it is now published

The Steuben Farmers' Advocate.

The Farmers' Gazette was commenced at Bath in 1816 by David

The Farmers cutters and Rumsey.

Rumsey.

The Steuben Messenger was started at Bath, April 17, 1828, by David Rumsey, and was published by him, Saml. M. Eddie, Wm. P. Agnel, and Chas. Adams successively

Eddie, Wm. F. Agnel, and Chas. Adams successively until 1834, when its name was changed to 
The Constitutionalist, and its publication was continued successively by R. L. Underhill, Whitmore & Van Valkenburgh, and Dowe & Richards, and by the last named firm as

The Steuben Democrat, nntil 1844. The paper was then suspended. In 1848 it was renewed by L. J. Beach, and in 1849 it was transferred to Geo. H. Bidewell, by whom

1843 It was transferred to Geo. H. Bideweit, by whom the publication was continued until 1852. The Steuben Whig was published at Bath during the political campaign of 1828, by William M. Swain. The Steuben Courier was established at Bath in 1843 by Hull & Whittemore. It is now published by H. H.

Hull.

The Temperance Gem was published at Bath in 1854, by Jenny and Caroline Rumsey.

The Addison Record was published in Addison by Isaac D. Booth from 1840 to 1842, and in 1849 by Dryden & Peck.

The Addison Advocate was published by 'I. D. Dyer in 1848-49.

The Voice of the Nation was commenced at Addison by R. Denton in 1852. In 1855 the paper passed to Anthony L. Underhill, by whom it was published until 1856, when it was removed to Bath and its name changed to

The Stuben American, and its publication continued until May, 1857.

1857.

The Canisteo Express was published at Addison in 1850 by T. Messenger.

Steuben co. was all included in the Phelps and Gorham Purchase. It was sold by Phelps and Gorham to Robert Morris, who conveyed it to Sir Wm. Pulteney and others, in London. The territory was surveyed into townships and lots by Wm. Bull, for the Pulteney estate, in 1792-93. Sales were made by townships, at 18 and 20 cts. per acre. The first settlements were made in 1787-90, by immigrants from Wyoming, Penn., who located upon Chemung River, in the s. E. part of the co. These early settlers were originally from Conn. About 1790, settlements commenced in the w. part, adjoining Yates co. In 1792-93, Capt. Chas. Williamson, agent of the Pulteney estate, commenced a settlement at Bath. He was accompanied by a large number of Scotch and German immigrants; and under his energetic and liberal policy the settlement progressed with great rapidity. The greater part of the early settlers came from Penn. by way of Susquehanna and Chemung Rivers. Subsequently large numbers came from Eastern New York, New England, and New Jersey.<sup>2</sup> The co. was divided by the Court of General Sessions, in 1796, into 6 towns, viz.: Bath, Canisteo, Dansville, Frederickstown, Middletown, and Painted Post, comprising the territory now forming 31 towns of this co. and parts of Allegany, Yates, Livingston, and Schuyler cos. In 1790 the population was 168; in 1800 it was 1,788; and in 1855, 62,965. In extent of territory and in agricultural wealth it now ranks among the first cos. in the State.3

ADDISON4—was formed, as "Middletown," in March, 1796. Its name was changed April 6, 1808. A part of Troupsburgh was taken off in 1808, Cameron in 1822, a part of Woodhull in 1828, and a part of Rathbone in 1856. It lies upon the s. border of the co., just E. of the center. The surface is mostly a hilly upland, broken by the valley of the Canisteo and its branches. The principal valley is about 1½ mi. wide and is bordered by steep hillsides 300 to 400 feet high. The principal streams are Canisteo River, and the Tuscarora, Elks Lick, and Goodhue Creeks. Goodhue Lake, covering an area of about 500 acres, lies in the N.W. corner of the town. The soil is principally a clay loam, with strips of gravel and alluvium upon the streams. Addison, (p.v.,) situated on Canisteo River, contains 3 churches, a bank, several mills and manufacturing establishments. Pop. about 1,300. South Addison (p.v.) contains 18 dwellings. Addison Hill is a p.o.

The Addison Journal was started in 1851 by R. Denton, and was

removed to Allegany co. in 1852.

The Addison Democrat was commenced by Chas. L. Phelps in 1853, and was merged in The Voice of the Nation in 1854.

1853, and was merged in The Voice of the Nation in 1854.

The Addison Advertiser, established in 1858 by E.
M. Johnson & Henry Baldwin, is still published.

The Corning and Blossburg Advocate was commenced at Corning in 1840 by Chas. Adams. In 1841 it passed into the hands of Henry H. Hull, by whom it was merged, in 1843, in the Steuben Courier, at Bath.

The Corning Journal was commenced by Thomas Messenger in May, 1847. In 1851 it passed to A. W. McDowell and G. W. Pratt, and in 1852 to Dr. Pratt, its present publisher.

ell and G. W. Pratt, and in 1852 to Dr. Pratt, its present publisher.

The Corning Sun was started in 1853 by M. M. Pomeroy and P. C. Van Gelder. In 1854 Rev. Ira Brown became the publisher, and changed its name to The Elmira Southern Tier Farmer and Corning Sun, and continued it would be such as the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the start of the st

tinued it until 1856.

The United States Farmer was published at Corning in the spring

of 1856.

The Corning Democrat was established in 1857 by Chas. T. Huston. It is now published by Frank B. The Painted Post Gazette was started by - Fairchild in 1846,

and continued I year.

The Painted Post Herald was published by Hawley & Bennett

The Painted Post Herald was published by Hawley & Bennett from 1848 to 1850.

The Hornellsville Tribune was commenced in Nov. 1851, by Edwin Hough. It is now published by E. Hough & Son.

The National American was established at Hornellsville in 1856 by C. M. Harmon. In Nov. 1858, it was sold to Chas. A. Kinney, and its name changed to the

Canisteo Valley Journal.

A paper was published for a time at Hammondsport, on Crooked Lake.

Crooked Lake.

1 Capt. Williamson was a Scotchman, and an officer in the British 24th regiment of infantry during the period of the Revolution; but he did not serve in the war, in consequence of having been made a prisoner by the French while crossing the Atlantic.

2 "A large proportion of the first settlers upon the Canisteo were from Penn, and had within them a goodly infusion of that boisterous spirit and love of rough play for which the free and manly sons of the backwoods are everywhere famous. On the Susquebanna frontier, before the Revolution, had arisen an athletic, scuffling, wrestling race, lovers of hard blows, sharp shooters, and runners, who delighted in nothing more than in

those ancient sports by which the backs and limbs of all stons hearted youths have been tested since the days of Herenles. The eating of hears, the drinking of grog, the devouring of bo-miny, venison, and all the invigorating diet of the frontiers, the miny, venison, and all the invigorating diet of the frontiers, the hewing down of forests, the paddling of cances, the fighting of savages, all combined to form a generation of yeomen and foresters daring, rude, and free. Canisteo was a spront from this stont stock, and on the generous river flats flourished with amazing vigor. Every thing that could eat, drink, and wrestle was welcome,—Turk or Tuscarora, Anak or Anthropophagus, Blue Beard or Blunderbore. A back hold with a Ghoul would not have been declined, nor a drinking match with a Berserkir. Since the Centaurs never has there been better specimen of a not have been declined, nor a drinking match with a Berserkir. Since the Centaurs never has there been better specimen of a 'half horse' tribe. To many of the settlers in other parts of the country, who emigrated from the decorous civilization of the East and South, these boisterous foreigners were objects of astonishment. When 'Canesteer' went abroad, the public soon found it out. On the Conhocton they were known to some as the Six Nations, and, to the amusement and wonder of young Europeans, would sometimes visit at Bath, being of a social disposition, and sit all day, 'singring. telling stories, and drink-Europeans, would sometimes visit at Bath, being of a social obsposition, and sit all day, 'singing, telling stories, and drinking grog, and never get drunk, nayther.' To the staid and devout they were Arahs,—cannibals. Intercourse between the scattered settlements of the colony was, of course, limited mainly to visits of necessity; but rumor took the fair fame of Canisteo in hand, and gave the settlement a notoriety through all the land which few 'rising villages,' even of the present day, enjoy. It was pretty well understood over all the country that beyond the mountains of Stephen in the midst of the most ruced dis-It was pretty well understood over all the country that beyond the mountains of Steuben, in the midst of the most rugged district of the wilderness, lay a corn growing valley, which had been taken possession of by some vociferous tribe, whether of Mamelukes or Tartars no one could precisely say, whose whooping and obstreperous laughter was heard far and wide, surprising the solitudes."—McMasters's Hist. Steuben co., pp. 66-7-8.

This co. sympathized to some extent in the hostile feeling that prevailed throughout the Holland Land Company's Purchase toward its Eurosean proprietors a few years since; but in

chase toward its European proprietors a few years since; but in no instance were the processes of the courts seriously impeded or effectually resisted, and juries have never refused to render for the proprietors as the facts warranted. There was doubtless little interest felt by the foreign owners in this estate beyond that of really interest that the facts warranted. that of realizing the greatest sum possible from their lands; and the heavy hurdens of debts, interest, assignments, and back pay-ments, perhaps not always borne with patience, have been gradually discharged, until but a comparatively small amount

remains. 4 Named in honor of Joseph Addison, the English author. Called "Tuscarora" by the early settlers.

The first settlement was made by Samuel Rice, in 1791.1 The first church (M. E.) was organized in 1827, at East Hill.2

AVOCA3—was formed from Bath, Cohocton, Howard, and Wheeler, April 12, 1843. It is an interior town, lying N. w. of the center of the co. The surface is mostly a broken upland, divided into two ridges by the valley of the Conhocton. The declivities of the hills are steep, and their summits are about 400 feet above the river. The streams are Conhocton River and its tributaries Twelve Mile and Ten Mile Creeks from the N., and Bennetts and Neils Creeks from the s. w. The soil is a clayey and gravelly loam. The valley of the river is about 14 mile wide. Avoca, (p.v.,) situated in the valley of the Conhocton, is a station on the B., N. Y. & E. R. R. It contains 2 churches, an iron foundery, and a flouring mill. Pop. 301. Wallace (p.o.) is a station on the B., N. Y. & E. R. R. The first settlement was made in 1800, by Michael Buchanan. There are 2 churches in town; Bap. and M. E.

BATH<sup>5</sup>—was formed March 18, 1796. Pulteney was taken off in 1808, a part of Howard and Cohocton in 1812, a part of Wheeler in 1820, Urbana in 1822, a part of Avoca in 1843, and a part of Cohocton in 1852. A part of Urbana was annexed April 26, 1839. It lies a little N.E. of the center of the co. Its surface is broken and hilly. The Conhocton Valley, extending s.E. through the center, divides the town into two nearly equal parts. The s. half is a hilly upland, and the N. half consists of a series of wide valleys broken by several steep and isolated hills. The streams are Conhocton River and its tributaries Five Mile and Mud Creeks from the n., and Campbells and Stocktons Creeks from the s. The Crooked Lake Valley extends N. W., and opens into the Conhocton Valley at the village of Bath, 340 feet above the lake. The soil is chiefly a gravelly and clayey loam, with a deep alluvium in the valleys. Bath, (p. v.,) incorp. April 12, 1816, is situated upon the N. bank of the Conhocton. It is a half-shire of the co. It commands the trade of a rich agricultural district and has a manufacturing business of considerable importance. It contains the co. buildings, 6 churches, 2 banks, and 2 newspaper offices. Pop. 2,012. Kanona, 6 (p.v.,) N. w. of Bath, a station on the B., N. Y. & E. R. R., contains 2 churches and 40 houses; and Savona, (p. v., ) s. E. of Bath, a station on the same R. R., contains 2 churches and 232 inhabitants; Sonora (p. v.) contains 1 church and 20 houses. Unionville is a hamlet in the s. part. The first settlement was made at Bath Village, in 1793, by Charles Williamson, land agent for the Pultency estate, with 15 families, mostly Scotch and Germans.8 The first settled minister was Rev. John Niles, who moved to the town in 1807.9

BRADFORD<sup>10</sup>—was formed from "Jersey," (now Orange, Schuyler co.,) April 20, 1836. A part was annexed to Orange, April 17, 1854. It lies near the center of the E. border of the co. Its surface is a hilly upland, broken by the valley of Mud Creek. Mud Lake, near the E. border, in Schuyler co., is 1,100 feet above tide, and the summits of the hills are about 600 feet above the lake. The soil is generally a gravelly and clayey loam and best adapted to pasturage. Bradford, (p.v.,) on the outlet of Mud Lake, in the N. E. part of the town, contains 1 church and a gristmill and has a pop. of 260. South Bradford (p.v.) contains 1 church and 20 houses.

Bap, Prot. E., Presb., and R. C.

Probably named from Tom Moore's "Sweet Vale of Avoca."
The early settlers called the place "Buchanan," or the "Eight Mile Tree."

sawmill, and Jonathan Thion the first gristmill, in 1823. Joel Collier kept the first inn, in 1808, and Alonzo Simmons the first store, in 1830.

Samed from Lady Bath, only child and heiress of Sir Wm. Pulteney, of London. She was succeeded July 15, 1808, by Sir John L. Johnstone, of Scotland, who appointed Robert Troup agent. Its Indian name was Tanighnaguanda.—McMisters's Ilist. Steuben, pp. 111, 142.

deur were pever realized.

8 Dugald and Charles Cameron, Thos. Metcalf, Hector McKenzie, Andrew Snith, Geo. McClure, James McDonald, Henry McElwee, James Resee, Robert Campbell, and William Dunn settled in the town in 1793; and Wm. Kersey, John Wilson, Geo. D. Cooper, Daniel McKenzie, and Gustavus and Brown Gillesple soon after. Charles Williamson Dunn, born in 1795, was the first male child born in town. The first saw and grist mills were built in 1793, by Charles Williamson; and the first inn was kept the same year, by John Metcalf.

The proprietors of the Pulteney estate indulged in visions of boundless wealth to result from the settlement of their lands. They supposed that the natural avenue to market from the rich

Doundless weath to result from the settlement of their lands. They supposed that the natural avenue to market from the rich "Genesee country" was down the Susquehanna, and that a city might be founded upon some of the headwaters of that stream which would command the entire trade of the West. stream which would command the entire trade of the week After a survey of the region, the present site of Bath was selected as the location of the future city. Every inducement was held out to lure settlers; and for several years the markets of Bath proved a mine of wealth to the few who raised more grain than enough for their own use. Williamson erected a theater within a few years after the first settlement, in anticipation of the future metropolitan character of the place. A race course was also established, which for many years attracted sportsmen from all parts of the country. The golden visions of civic gran-

The first settlement was made in 1793, by Frederick Bartles and John Hervey, from New Jersey. Rev. E. Sanford was the first preacher in town; and Rev. Mr. Lazelle, (Bap.,) who settled in town in 1816, was the first settled minister. There are 2 churches in town; Bap. and M. E.

CAMERON<sup>2</sup>—was formed from Addison, April 16, 1822. Thurston was taken off in 1844, and a part of Rathbone in 1856. It lies a little s. of the center of the co. Its surface is a high, rolling upland, broken by the deep valley of Canisteo River, which flows s. E. through near the center of the town. The soil is a clayer and gravelly loam. Cameron, (p. v., ) on the Canisteo, is a station on the Eric R. R. and contains 2 churches and 35 houses; West Cameron (p.v.) contains 1 church and 15 houses. North Cameron is a p.o. The first settlement was made in 1800, by Richard Hadley, Phones Green, Samuel Baker, and Ira Pratt.<sup>3</sup> Rev. Ira Bronson (M. E.) was the first settled preacher. The census reports 5 churches.4

CAMPBELL5—was formed from Hornby, April 15, 1831. It is an interior town, lying s.E. of the center of the co. Its surface consists of high, broken ridges, separated by the valleys of the streams. The declivities of the hills are generally steep and their summits are 300 to 500 feet above the valleys. The streams are Conhocton River, flowing s. E. through the w. part of the town, and its tributaries Wolf Run, McNutt Run, Meads and Dry Runs and Stephens and Michigan Creeks. The valley of the river is about 1½ mi. wide. The soil is a clayey and gravelly loam upon the highlands and a rich alluvium in the valleys. Campbelltown, (p.v.,) on the Conhocton, is a station on the B., N. Y. & E. R. R., and contains 1 church, 3 sawmills, a flouring mill, 2 tanneries, and about 20 houses. Curtis is a station on the same R. R. Settlement was commenced in 1800.6 The first church (Presb.) was organized in 1831; Rev. B. B. Smith was the first settled pastor. There are 2 churches in town; Presb. and M. E.

CANISTEO—was formed in March, 1796. A part of Troupsburgh was taken off in 1808, Hornellsville in 1820, and parts of Greenwood and Jasper in 1827. A part was annexed to Troupsburgh in 1818. It is an interior town, lying s.w. of the center of the co. The surface is mostly a hilly upland, broken by the deep valleys of the streams. Canistee River flows eastward through the N. part of the town. Its valley is about ½ mi. wide and is bordered by steep hillsides 400 feet high. From the s. the river receives Bennetts and Col. Bills Creeks, which also flow through deep valleys bordered by steep hills. The soil is generally a clayey and gravelly loam. Canisteo, (p.v.,) on Bennetts Creek, in the w. part of the town, is a station on the N. Y. & Erie R. R., and contains 2 churches, a flouring mill, a tannery, and 60 houses; Crosbyville, (p.v.,) a station on the Erie R. R., contains 1 church and 20 houses. Center Canisteo (p.o.) is a hamlet of 10 houses. Bennetts Creek is a p.o. in the s.w. part. The first settlement was made in 1789, by Uriah Stephens, Sen., from Conn. The first preacher—Rev. Geo. Spaulding—settled in town in 1805. There are 3 churches in town.8

CATON—was formed from "Painted Post," (now Corning,) as "Wormly," March 28, 1839, and its name was changed April 3, 1840. It is the s. E. corner town of the co. Its surface is a rolling upland, more nearly level than most towns in the co. A considerable portion is yet covered with forests. The streams are small brooks, flowing northward. The soil is a clayey and shaly loam. Lumber is extensively manufactured. Caton, (p. v.,) near the center of the town, contains 3 churches and 34 houses. A temporary settlement was made in town in 1814, by Joseph and Charles Wolcott; but the first permanent settlement was made in 1819, by Isaac Rowley, from Bradford co., Penn.<sup>9</sup> The first church (Presb.) was organized in 1832; and the Rev. Benj. Harron was the first settled pastor.10

<sup>&</sup>lt;sup>1</sup> Among the first settlers were John Hemiup, Saml. S. Camp, Abram Rosenburg, Henry Switzer, John Schrinner, Thomas Rolls, Michael Scott, Daniel Bartholomew, Henry Axtelle, Ezekiel Sackett, and —— Smith. The first birth was that of a daughter of John Hervey, in 1799; and the first death, that of Mrs. Thos. Rolls, in Aug. 1803. Frederick Bartles built the first saw and grist mill, about 1795; and Frederick and Charles Barthon and Charles Bartles hottlets.

saw and grist mill, about 1795; and Frederick and Charles Bartes opened the first store, about 1800, and the first inn, in 1806. The first school was taught by —— Smith, in 1810.

2 Named from Dugald Cameron, an agent of the Pulteney estate.—McMosters's Hist. Steuben, p. 116.

3 Joseph Butler, John Sauter, and John Hollet were early settlers. The first gristmill was built by Saml. Baker; the first inn was kept by John Hollet, and the first store, by Andrew G. Erwin.

5 Named from the Campbell family, who were early and prominent settlers.

minent settlers.

The first settlers were Samuel Calkins, Elias Williams, Joseph Wolcott, Rev. Robert Campbell and his son Archibald. The first birth was that of Bradford Campbell: the first marriage, that of Asa Milliken and Rachel Campbell; and the first death, that of Frederick Stewart, in 1806. Campbell & Stephens

built the first sawmill, and Campbell & Knox the first grist-mill. Robert Campbell kept the first inn, and Frederick Stew-

mill. Robert Campusi acry and art the first store.

7 Col. John Stevens, Benj. Crosby, Arthur Erwin, Solomon Bennetty Joel Thomas, Uriah Stevens, jr., Jedediah Stephens, Wm. Baker, James Hadley, Joshua Stephens, W. S. Thomas, Isaac and Israel Jones, and Asa Downs were among the early Isaac and Israel Jones, and Asa Downs were among the early settlers. The first birth was that of Oliver Stephens; the first marriage, that of Richard Crosby and Hannah Baker; and the first death, that of Henry Stephens. Solomon Bennett built the first gristmill and kept the first store; and Jedediah Stephens kept the first inn.

§ Presb., M. E., and F. W. Bap.

§ Stephen and Simeon Hurd settled in the town in 1821; Solomon Tarbox in 1822; and E. P. Bahcock, Edward Robbins, and Henry Miner in 1823. The first birth was that of Shepard Hurd; the first marriage, that of Oliver Woodworth and Elizabeth Hurd; and the first death, that of a child of John Rowe. Bennett Bruce built the first gristmill; Samuel Wormly kept the first inn, and W. D. Gilbert the first store; and Edward Robbins taught the first school.

bins taught the first school.

10 The census reports 3 churches; Presb., Bap., and M. E.

COHOCTON—was formed from Bath and Dansville, June 18, 1812. A part of Avoca was taken off in 1843, and a part of Wayland in 1848; a part of Bath was annexed in 1852. It lies on the N. border of the co., w. of the center. The surface is separated into ridges by deep and narrow valleys. The principal streams are Conhocton River, flowing southerly through the center, and its tributaries. The soil is generally a slaty and gravelly loam. Liberty, (Cohocton p.o.,) on the Conhocton, is a station on the B., N. Y. & E. R. R. and contains 2 churches. Pop. 200. North Cohocton (p. v.) contains 1 church and 30 houses. **Bloods**, a hamlet, is a station on the R. R., 1 mi. from North Cohocton. The first settlement was made in 1796, by Richard Hooker and Joseph Bivin. Rev. Elisha Brownson, (Bap.,) the first settled minister, removed to the town in 1811. The census reports 4 churches in town; 3 M. E. and Presb.

CORNING<sup>3</sup>—was formed, as "Painted Post," March 18, 1796. Its name was changed March 31, 1852. Erwin and Hornby were taken off in 1826, and "Wormly" (now Caton) in 1839. A part was annexed to Erwin in 1856. It lies on the E. border of the co., s. of the center. The wide valley of Chemung River, extending N. W. and S. E. through the center of the town, and several lateral valleys, divide the uplands into rounded hills and narrow ridges. Its streams are Borden, Post, Narrows, Clump Foot, and Winsfield Creeks, tributaries of Chemung River. The soil upon the hills is a heavy, slaty loam, and in the valleys a fine quality of sandy and gravelly loam, occasionally intermixed with clay. Corning, (p.v.,) incorp. Sept. 6, 1848, is situated on the s. bank of Chemung River, in the w. part of the town. It is a half-shire of the co. The Chemung Canal, the Blossburg & Corning R. R., and the B., N. Y. & E. R. R. terminate here; and the village is an important station on the N. Y. & Erie R. R. It contains 5 churches, 2 newspaper establishments, 2 banks, a State arsenal, and several mills and manufacturing establishments, and commands an extensive and constantly increasing trade. Pop. 3,626. Knoxville, opposite Corning, contains 2 churches and a pop. of 628. Gibson lies on the N. bank of the Chemung, 1 mi. E. of Corning. Pop. 428. Centerville contains 25 houses. East Painted Post is a p.o. The first settlement was made near the village of Corning, in 1788, by Frederick Calkins and Benj. Eaton. The first religious services were conducted by John Warren, in 1793. There are 7 churches in town.8

DANSVILLE9—was formed in March, 1796. Parts of Cohocton and Howard were taken off in 1812, a part of Wayland in 1848, and of Fremont in 1854. A part was annexed to Sparta in 1822, and a part of Cohocton was re-annexed April 26, 1834. It is the N. town upon the w. border of the co. The surface is mostly an upland, divided into ridges by the narrow valleys of small streams. The declivities of the hills are steep and their summits are 300 to 400 feet above the valleys. The streams are head branches of Canaseraga Creek, flowing N., and of Canisteo River, flowing s. The soil is a sandy and gravelly loam in the E. and N., and gravel underlaid by hardpan in the s. w.

1 Named from Calvin Blood. This is rendered an important | Judge Knox, of Knoxville, in this co., that the Painted Post was ation upon the R. R. from its connection with the Canandaigua | erected over the grave of a chief who was wounded at the battle station upon the R. R. from its connection with the Canandaigua Lake Route. A daily line of stages runs to Naples, at the head

Lake Route. A daily line of stages runs to Naples, at the head of the lake, and a steamer plies daily between the latter place and Canandaigua.

2 James and Aruna Woodward settled in the town not long after; Joseph Chamberlain, in 1805; and Saml. Chamberlain, Capt. Jonas Cleland. Joseph Shattuck, Horace Fowler, and ——Eddy, in 1806. Throthy Sherman, James Barnard, Saml. Rhoades, Jesse Atwood, Isaac Worehouse, and Chas. Burlinghame were also early settlers. The first marriage was that of Jos. Bivin and Sarah Hooker, in 1798; and the first birth, that of Bethiah Hooker, their child. in 1800. The first death was that of Richard Hooker, Feb. 10. 1801. Jonas Cleland built the first saw and grist mills, in 1809; and Jos. Shattuck kept the first inn, in 1809. Sophia Trumbull taught the first school, in 1810.

3 Named from Hon. Erastus Corning, of Albany.

4 In the summer of 1779, a party of tories and Indians, under the command of a loyalist named McDonald, returned from an incursion into the Susquehanna settlements, bringing with them

the command of a loyalist named McDonaid, returned from an incursion into the Susquehanna settlements, bringing with them many of their number wounded. At the confluence of Tioga and Conhocton Rivers, Captain Montour, son of the famous Queen Catharine, a chief of great promise, died of his wounds. "Ills comrades buried him by the riverside, and planted above his grave a post on which were painted various symbols and ride desiries." This recomment was known throughout the Consequence. devices. This monument was known throughout the Genesee Forests as 'The Painted Post.' It was a landmark well known Forests as 'The Painted Post.' It was a landmark well known to all the Sis Nations, and was often visited by their braves and chieftains." This account of the origin of the Painted Post was given to Benj. Patterson, the hunter, by a man named Taggart, who was carried to Fort Niagara a prisoner by McDonald's party, and was a witness of the burial of Capt. Montour, or at least was in the encampment at the mouth of the Tioga at the time of his death. Col. Harper, of Harpersfield, the well known officer of the frontier militia of New York in the Revolution, informed

of the "Hog-Back" and brought in a canoe to the head of the Chemung, where he died. It was well understood by the early settlers that this monument was erected in memory of some distinguished warrior who had been wounded in one of distinguished warrior who had been wounded in one of the border battles of the Revolution and afterward died at this place. The post stood for many years after the settlement of the co.; and the story goes that it rotted down at the butt, and was preserved in the bar-room of a tavern till about the year 1810 and then mysteriously disappeared. It is also said to have been swept away in a freshet.—McMasters's Hist. of Steuben. Simms's Hist. Schoharie, p. 333.

5 In 1852, 40,000 tons of Blossburg coal, brought by the Blossburg & Corning R. R., were transhipped at this place, and

burg & Corning R. R., were transhipped at this place, and 50,000,000 feet of lumber were exported.

6 Named from Judge John Knox, of this town.

50,000,000 feet of lumber were exported.

Named from Judge John Knox, of this town.

Benj. and Peleg Gorton, ir. Ephraim Patterson and his sons Ichabod and Stephen. Bradford Eggleston, Justus Wolcott, Elias, William, and Henry McCormick, Hezekiah Thurber, Jonathan Cook, Samuel Colgrove, and Eli and Eldad Mead settled in the town in 1790-91-92; Jonathan and Warren Rowley In 1794; James Turner and Caleb Wolcott in 1795; George McCulloch and Benj. Patterson in 1796; and Nehmiah Hubbell in 1798. The first birth was that of James Calkins, Nov. 24, 1790; the first marriage, that of Benj. Gorton and Rachel Wolcott, in 1794; and the first death, that of Ichabod Patterson. in Ang. 1794. Ichabod Patterson built the first sawmill, and Jas. Henderson the first gristmill, both in 1793; Benj. Eaton kept the first store, in 1791, and Benj. Patterson the first inn, in 1798. The first school was taught by Samuel Colgrove, in 1793.

§ 2 Bap., 2 M. E., Prot. E., Preeb., and R. C.

Named from Daniel P. Faulkner, an early and spirited citizen, known as "Captain Dan."—McMasters's Hist. Steuben Co., p. 300.

Rogersville (South Dansville p.o.) contains 2 churches, an academy, and a female seminary. Pop. 200. Burns, a station on the B. & N. Y. City R. R., has about 15 houses. Dotys Corners is a p.o. The first settlement was made in 1804, by Isaac Sterling and Samuel Gibson. The census reports 6 churches.4

ERWIN<sup>5</sup>—was formed from "Painted Post," Jan. 27, 1826. Lindley was taken off in 1837 and a part of Corning was annexed in 1856. It lies w. of Corning, in the s.r. part of the co. Its surface is about equally divided between high, rolling uplands and the low valleys of streams. The summits of the hills are 400 to 600 feet above the valleys. Tioga and Canistee Rivers unite in the s.E. part of the town, and Tioga and Conhocton Rivers in the N.E., forming the Chemung River. The valleys of these streams are 1 to 2 mi. wide. The soil upon the hills is a shaly and clayer loam, and in the valleys it is a fine quality of alluvium. Nearly three-fourths of the surface is yet covered with forests. The lumber trade is extensively pursued. Painted Post, (p. v.,) situated at the junction of Conhocton and Tioga Rivers, is a station on the Erie R. R. and the B., N. Y. & E. R. R. It contains 2 churches, a bank, an iron foundery and machine shop, a tannery, and a flouring mill. Pop. 777. Coopers Plains (p. v.) is a station on the B., N. Y. & E. R. R. and contains 1 church. Pop. 293. Wm. Harris, an Indian trader, settled at Painted Post in 1787.7 The census reports 4 churches.8

FREMONT9—was formed from Hornellsville, Dansville, Wayland, and Howard, Nov. 17, 1854. It is an interior town, lying N.W. of the center of the co. Its surface is a hilly upland, forming a part of the dividing ridge between Canisteo and Conhocton Rivers. Its streams are small brooks. The soil is chiefly a shaly loam, derived from the disintegration of the surface rocks. Fremont Center (Stephens Mills p.o.) and Haskinville (p.o.) are hamlets; and Big Creek is a p.o. The first settlement was made in 1812, by Job B. Rathbun, Amos Baldwin, and Sylvester Buck. 10 The first religious services were conducted by Rev. Mr. Ford, in 1814. There is but I church (M. E.) in town.

GREENWOOD—was formed from Troupsburgh and Canisteo, Jan. 24, 1827. West Union was taken off in 1845, and a part of Jasper was annexed in 1848. It lies upon the w. border of the co., s. of the center. Its surface is mostly a rolling upland. Bennetts Creek flows northerly through the E. part of the town, in a valley 400 to 600 feet below the summits of the hills. The soil is a gravelly and clayey loam. Greenwood, (p. v.,) on Bennetts Creek, con tains 1 church and 35 houses; and Rough and Ready (p. v.) 12 houses. West Greenwood is a p.o. The first settlement was made in 1820, by Christian Cobey and John H., Ezra, and Phineas Stephens. 11 The census reports 3 churches. 12

**HARTSVILLE**—was formed from Hornellsville, Feb. 7, 1844. It lies on the w. border of the co., s. of the center. The surface is a hilly upland, broken by several deep valleys. Purdy Creek flows E. through the N. part, and the valley of Bennetts Creek extends along the E. border. These creeks are bordered by steep hillsides 400 to 600 feet high. The soil is a shaly and clayer loam. Hartsville Center, (Purdy Creek p.o.,) on Purdy Creek, near the center of the town, contains 15 houses. The first settlement was made in 1809, by Benj. Brookins.13 There is no church in town.

10 John A. Buck, Joel Everett, and Danl. Atherton settled in the town in 1813-14; — Taylor and Francis Drake, in 1815; and Solomon and Levi Gates, Robert Kilburg, Danl. Upson, Saml. Shap, Nehemiah Luther, Lemuel Harding, Stephen Holden, and Edward Markham, in 1816. The first narriage was that of John A. Buck and Rebecca Baldwin, Aug. 24. 1815; the first birth, that of Charles E. Buck, Nov. 12, 1816; and the first death, that of Mrs. Amos Baldwin, Dec. 21, 1815. Danl. Upson built the first sawmill, in 1816, and the first gristmill, in 1819.

11 Eleazar Woodward, John J. Hoyt, H. Carr, and Lewis Ordway settled in town in 1822. The first birth was that of Charles C. Stephens; the first marriage, that of Hiram Putnam and Lucinda Stephens; and the first dath, that of Ezra Cobey. The first gristmill was built by Col. John Stephens; and the first inn and store were kept by Levi Davis. Sarah Carr taught the first school.

 $<sup>^{1}\,\</sup>mathrm{The}$  Rogersville Academy was organized in 1849, and the buildings were erected in 1852.

<sup>1</sup> The Rogersville Academy was organized in 1849, and the buildings were erected in 1852.

2 The Rogersville Union Seminary.
3 Among the first settlers were James. John, and Major Jones, Frederick Fry, William Ganong, Thos. and Nathaniel Brayton, Tisdale Haskin, Thos. and John Root, Joshua Healey, Charles Oliver, Joseph Phelps. Elisha Robinson, William C. Rogers, and Jesse Bridges. Robert Fuller built the first sawnill, in 1820, and Handy & Miller the first gristmill, in 1825. Isaac Sterling kept the first inn, in 1806. The first school was taught by James Jones, in 1811.

2 Bap., and 1 each Presb., M. E., Univ., and R. C.

5 Named from Col. Arthur Erwin, of Bucks co., Penn., an officer in the Revolutionary War, by whom the township was purchased of Phelps and Gorham.

One mi. w. of Painted Post is a saw, shingle, and planing mill, that gives employment to 75 men, and turns out 8,000,000 to 11,000,000 feet of lumber per annum.

7 David Fuller, Eli Mead, and — Van Nye settled in the town in 1791-92; and Samuel, Frank, and Arthur Erwin, Capt. Howell Bull, and John E. Evans, in 1800-01-02. Samuel Erwin built the first sawnill, in 1820, and the first gristmill, in 1823; and David Fuller kept the first inn, in 1792. The first school was taught by John E. Evans, in 1812.

9 Named in honor of Col. John C. Fremont.

12 Presb, Univ., and R. C.

13 Joseph Purdy settled in the town in 1810; — Blake in 1815; Thos. Williams, — Satterlee, Joshua Davis, and — Neff in 1818; William D. Burdick and Perry Potter in 1819; Daniel P. Carpenter, Frost Powell. Joseph Thompson. John and Robert G. Martin, and — Hudson in 1822; and Casper Van Buskirk and Wm. Ellison in 1823. The first birth was that of Sarah A. Carpenter; the first marriage, that of Robert G. Martin and Mary A. Gleasen; and the first death, that of an infant

HORNBY1—was formed from "Painted Post," (now Corning,) Jan. 27, 1826. Campbell was taken off in 1831, and a part was annexed to Orange (Schuyler co.) April 11, 1842. It lies near the center of the E. border of the co., and its surface is mostly a high, rolling upland. The streams are Dry Run in the N. w., and Post and Borden Creeks in the s., all flowing in deep, narrow valleys. The soil is a shaly and clayey loam of good quality. Hornby Forks (Hornby p. o.) contains 2 churches, several manufactories, and 21 dwellings. The first settlement was made in 1814, by Asa and Uriah Nash, from Otsego co.2 There are 4 churches in town.3

HORNELLSVILLE4—was formed from Canisteo, April 1, 1820. Hartsville was taken off in 1844, and a part of Fremont in 1854. It lies near the center of the w. border of the co. The surface is mostly a rolling upland, divided into two nearly equal parts by the Canisteo Valley. This valley is 1 to 2 mi, wide and is bordered by steep hills 400 to 500 feet high. Canacadea and Crosby Creeks, flowing through deep valleys from the w., are tributaries of the Canisteo. The soil is generally a clayey and gravelly loam. Hornellsville, (p.v.,) situated at the junction of Canisteo River and Canacadea Creek, is an important station on the Eric R. R. and is the southern terminus of the B. & N. Y. C. R. R. It has 4 churches, 2 newspaper offices, a bank, and 2 flouring mills. Pop. 1,519. Arkport, (p. v.,) a station on the B. & N. Y. C. R. R., contains 1 church and about 50 houses. Almond is partly in this town. The first settlement was made by Benj. Crosby, in 1792.6 The census reports 6 churches.7

HOWARD-was formed from Bath and Dansville, June 18, 1812. A part of Avoca was taken off in 1843, and a part of Fremont in 1854. It is an interior town, lying a little n.w. of the center of the co. Its surface is mostly a rolling upland, forming a part of the dividing ridge between Conhocton and Canisteo Rivers. The streams are all small. In the N.E. part are 2 small ponds. The soil is generally a heavy clay loam. **Howard** (p. v.) contains 2 churches. Pop. 143. **Towlesville** (p. v.) contains 2 churches and 15 houses. **Buena Vista** (p. o.) and Goffs Mills (p.o.) are hamlets, and South Howard is a p.o. The first settlement was made in 1806, by Abraham Johnson.<sup>8</sup> There are 5 churches in town.<sup>9</sup>

JASPER<sup>10</sup>—was formed from Troupsburgh and Canisteo, Jan. 24, 1827, and a part was annexed to Greenwood in 1848. It is situated near the s.w. corner of the co. Its surface is a hilly and broken upland, the highest summits being nearly 2,000 feet above tide. The streams are small brooks. The soil is a slaty, gravelly, and clayey loam. Jasper Four Corners (Jasper p.o.) contains 2 churches. Pop. 222. Jasper Five Corners contains 15 houses. West Jasper and South Hill are p. offices. Settlement was commenced in 1807, by Nicholas Botzman, Ebenezer Spencer, and William Wooley. The first church (Presb.) was organized in 1827; and the Rev. Geo. Howell was the first preacher. The census reports 5 churches.12

LINDLEY<sup>13</sup>—was formed from Erwin, May 12, 1837. It lies upon the s. border of the co., E. of the center. Its surface is a hilly upland, broken by the deep valley of Tioga River, which extends centrally through the town. The summits of the hills are 400 to 600 feet above the valley, and most of them are covered with forests. The valley is about 1 mi. wide and is bordered by steep hillsides. The soil upon the hills is a heavy, shaly loam, and in the valleys a rich alluvium. Three-fourths of the surface is still covered with forests. Lumbering is extensively pursued. Lindleytown, (p.v.,) on Tioga River, is a station on the B. & C. R. R. and contains 15 dwell-

child of Ebenezer Mather,—all in 1823. Daniel P. Carpenter opened the first store, in 1825, and built the first sawmill, in 1828; and Henry Frisbee kept the first tavern, in 1849. The first school was taught by Miss Z. A. Pindy, in 1826.

1 Named from John Hornby, an English landholder to a large extent in this and other western cos.

2 Jesse Platt, John Robbins, and Edward Stubbs settled in the town in 1815; John St. John, Amasa Stanton, James S. and Liyam Gardner, Chester Knowlton, and Aden Palmer in 1815.

the town in 1815; John St. John, Amasa Stanton, James S. and liiram Gardner, Chester Knowlton, and Aden Palmer in 1815– 16; Benj. Gardner, Isaac Goodell, Aaron Harwood, and John Sayer in 1818. The first birth was that of George Stanton; the first marriage, that of John Bidler and Miss Platt, in 1816; and the first death, that of John Stanton. Ezra Shaw kept the first inn: Hon. A. B. Dickinson, the first store; and — La Fevre

the first death, that of John Stanton. Ezra Shaw kept the first inn: Iton. A. B. Dickinson, the first store; and —— La Fevre built the first mill. James C. Leach taught the first school.

3 Bap., Christian, Presb., and Wes. Meth.

4 Named from Hon. Geo. Hornell, one of the early settlers.

5 See page 170.

6 Elias Stephens and Geo. Hornell settled in the town in 1793; Elijah Stephens in 1794; Christopher Hurlbut and Nathan Cary in 1795; John and Hugh Carney in 1796; Reuben Crosby in 1797; and James Jones in 1800. The first birth was that of William Stephens, in Dec. 1792; the first marriage, that of Reuber Crosby and Jenny McQueen, in 1799; and the first death,

that of a child of Judge Hornell. Judge Hornell built the first

that of a child of Judge Hornell. Judge Hornell built the first saw and grist mills, and kept the first store and inn. The first school was tanght by Abigail Hurlbut, in 1796.

1 2 Presb., Prot. E., Bap., M. E., and R. C.
Renben and Abraham Smith, Abel Bullard, Jacob and Thos. Bennett, Charles McConnell, Simeon McMurty, and —— Col grove settled in the town in 1808; Samuel Baker, Joel Bullard, Benj. Bennett, Ephraim Rumsey, Wm. Allen, Daniel N. Bennett, Jonas and Seth Rice, and Nathan Cory in 1810–11; and Simeon Bacon, Wm. Goff, Israel Baldwin, and Rufus Halsey in 1812. Arethusa Bullard was born in 1809, and Mrs. Rowley died the same year.—the first birth and death in town. Henry Kennedy built the first sawmill, in 1809; James Vaughn, the first gristmill, in 1810; and Benj. Bennett kept the first inn, in 1816.

2 Bap., and 1 each Presb., M. E., and Ref. Presb.
Named from Sergeant Jasper, noted for his courage at the battle of Fort Moultrie, S. C., June 28, 1776.

1 Adam Botzman and Andrew Craig were also early settlers. The first birth was that of Sally Botzman; and the first marriage, that of Samuel Gray and Polly Simpson. Mictolas Botzman was the first innkeeper. Amanda Smith taux'ut the first school.

12 Bap., Presb., Christian, M. E., and Wes. Meth.
13 Named in honor of Col. Eleazur Lindley.

ings. Erwin Center is a R. R. station and hamlet upon the river, near the N. border of the town. The first settlement was made in 1790, by Col. Eleazur Lindley, from N. J., the original proprietor of the town, who located upon the Tioga Flats.1

PRATTSBURGH<sup>2</sup>—was formed from Pulteney, April 12, 1813, and a part of Wheeler was taken off in 1820. It is centrally situated upon the N. border of the co. Its surface is a hilly upland, broken by the valleys of several small streams flowing in a general s.w. direction. The principal streams are Five Mile, Ten Mile, and Twelve Mile Creeks. The valley at Prattsburgh Village is 1,400 feet above tide, and the hills are 300 to 400 feet higher. The soil is a gravelly and clay loam. Prattsburgh (p. v.) was incorp. Dec. 7, 1848. It contains the Franklin Academy, 3 2 churches, and several manufacturing establishments. 4 Pop. about 600. Rikers **Hollow** (p.o.) is a hamlet. The first settler was Jared Pratt, who came in 1801 and for  $2\frac{1}{2}$ years was the only inhabitant.5 The first religious services were held at the house of Jared Pratt, by Rev. John Niles, in the fall of 1803.6

PULTENEY'—was formed from Bath, Feb. 12, 1808. Prattsburgh was taken off in 1813. and a part of Urbana in 1848. It lies upon the w. shore of Crooked Lake, and is the N.E. corner town of the co. The surface is a rolling upland, 700 to 900 feet above the level of the lake. The declivities along the lake shore are broken by numerous narrow ravines formed by small streams. The soil is chiefly a shaly and gravelly loam, and in some parts near the lake it is clayey. **Harmonyville** (Pulteney p.o.) contains 2 churches and 20 houses; and **Bluffport** (South Pulteney p.o.) 20 houses. Peltonville (p.o.) is a hamlet. Gulicksville, a landing on the lake, has a storehouse and 8 houses. Settlement commenced in 1802.8 Rev. Ephraim Eggleston, the first settled preacher, removed to the town in 1805. The census reports 6 churches.

RATHBONE<sup>10</sup>—was formed from Addison, Cameron, and Woodhull, March 28, 1856. It is an interior town, lying s. of the center of the co. Its surface consists of a high, rolling upland, broken by the valleys of Canisteo River and a branch of Tuscarora Creek. The upland is 300 to 400 feet above the valleys. Naked and precipitous ledges of rock crop out on the hillsides along the valleys. The soil is a clayey and shaly loam, and in the valleys alluvium. Rathboneville, (p. v.,) on Canisteo River, is a station on the Erie R. R. and contains 1 church, a flouring mill, and 33 houses. West Addison (p.o.) and Cameron Mills (p.o.) are hamlets. The first settlements were made in 1793-95.11 There are 2 M. E. churches in town.

**THURSTON**<sup>12</sup>—was formed from Cameron, Feb. 28, 1844. It is an interior town, lying just s.E. of the center of the eo. Its surface is mostly a high, broken upland, forming a portion of the dividing ridge between Conhocton and Canisteo Rivers. The summits of the hills are 500 to 600 feet above the river valleys. The streams are Stockton Creek, in the N. W., and Michigan Creek, in the s., flowing in deep, narrow ravines bordered by steep hillsides. The soil is a shaly and gravelly loam. Merchantville, in the E., Bonny Hill, (p.o.,) in the N.E., and Risingville, (p.o.,) in the w., are hamlets. Thurston and South Thurston are p. offices. The first settlers were William Smith, Luke Bonny, and Anderson Carpenter, at Bonny Hill, in

<sup>1</sup> Col. Lindley served with the Jersey Blues during the Revolutionary War. In his migration to his new home he was accompanied by his two sons Saml. and Eleazur, his son-in-law companied by his two sons Saml. and Eleazur, his son-in-law Ezekiel Mulford and John Seeley, and a man named David Cook. The first child born was Eliza Mulford, Aug. 10, 1792; the first marriage, that of David Cook, jr. and Elizabeth Cady; and the first death, that of Col. Eleazur Lindley, in June, 1794. Joseph Miller taught the first school, near the Penn. line, in 1793; the widow of Col. Lindley kept the first inn, on the w. bank of the river; and John P. Ryers, the first store. The first sawnill was erected by Col. Lindley. There is no church, no hotel, nor place where liquor is sold in the town.

2 Named from Capt. Joel Pratt, one of the first settlers.

3 For many years this academy has enjoyed a deservedly high reputation.

reputation.

reputation.

o The census reports 6 churches; 2 Bap., 2 M. E., Cong., and Christian.
7 Named from Sir Wm. Pulteney, former owner of the Pulteney Tract.
5 The first settlers were Saml. Miller, John Van Camp. G. F.
Fitzsimmons, and John Block. James and George Simms,
Henry Hoffman, Abraham Bennett, and Shadrach Norris settled in the town in 1805; and Saml. and Nathaniel Wallis, John Ells, Wm. White, James Daily, Brastus Glass, Harmon Emmons, and Seth Pierce in 1806. The first marriage was that of Christopher Tomer and Jane Miller, in 1809; and the first death, that of a child of Jas. Daily, in 1806. Melchior Waggoner built the first sawmill, in 1810, and the first gristmill, in 1814. Shadrach Norris kept the first inn, in 1807; and Augustus Tyler, the first store, in 1808.
9 2 Bap., 2 M. E., Cong., and Presb.
10 Named from Gen. Ransom Rathbone, who settled in the town in 1842.

town in 1842.

11 James Hadley and Wm. Benham were the first settlers Among the early settlers were Isaac and Jonathan Tracy, Martin Young, Wm. Morey, Moses Powers, Zephaniah Townsend Thos. Maybury, and Saml. Colgrove. Isaac Tracy built the first sawmill, in 1806; Lemuel Benham kept the first inn, in 1804, and Gen. Rathbone the first store, in 1842.

12 Named from Wm. R. Thurston, a landholder residing in W. V. Schwisting.

1813.1 The first religious association (M. E.) was formed in 1814; Rev. Parker Buell was the first preacher.2

TROUPSBURGH3-was formed from "Middletown" (now Addison) and Canisteo, Feb. 12, 1808. Parts of Greenwood and Jasper were taken off in 1827, and a part of Woodhull in 1828. A part of Canistee was annexed April 4, 1818. It lies on the s. border of the co., w. of the center. Its surface is principally a hilly upland, broken by the deep valleys of small streams. The highest summits are 2,500 feet above tide and are the highest points in the co. Troups Creek, flowing s., is the principal stream. The soil is a slaty and clayey loam. Troupsburgh Center, (Troupsburgh p.o.,) on Troups Creek, near the center of the town, contains an academy and 20 dwellings; south Troupsburgh (p. v.) contains 16 dwellings. East Troupsburgh, (p. o.,) West Troupsburgh, (p.o.,) and Young Hickory (p.o.) are hamlets. The pioneer settler was Samuel B. Rice, from Conn., who located E. of the center of the town in 1805.<sup>5</sup> The first religious association (M. E.) was formed at the house of Samuel Cady, by Rev. Parker Buell, first preacher. The census reports 5 churches.6

URBANA—was formed from Bath, April 17, 1822. A part was annexed to Bath in 1839; a part of Wheeler was annexed May 3, 1839, and a part of Pulteney April 12, 1848. It lies at the head of Crooked Lake, N.E. of the center of the co. Its surface is divided by Pleasant Valley (a continuation of Crooked Lake Valley) into two series of highlands, rising 800 to 1,000 feet above the lake. Cold Spring Creek takes its rise in this valley and flows N.E. to the lake. The soil in the valleys is alluvial, and on the hilltops a heavy, gravelly loam. From their sheltered situation, the slopes of the hills descending to the s. and E. are finely adapted to the culture of the grape. The town is noted for the production of a superior quality of fine wool. Hammondsport, (Urbana p.o.,) at the head of Crooked Lake, was incorp. June 16, 1856. It contains 2 churches and several manufacturing establishments. A daily line of steamboats plies between this place and Penn Yan. Pop. 560. North Urbana, (p. v., ) in the N.E. part of the town, contains 2 churches and 20 houses. Cold Spring is a hamlet; and Mount Washington, in the S.E., is a p.o. William Aulls and his son Ephraim, from Penn., settled at Pleasant Valley in 1793.8 Elder Ephraim Sanford (Bap.) preached the first sermon, at the house of Mr. Baker, in 1795.9

WAYLAND<sup>10</sup>—was formed from Cohocton and Dansville, April 12, 1848. A part of Fremont was taken off in 1854. It is the most western town upon the N. border of the co. Its surface is an upland, rolling in the N. and moderately hilly in the s. It forms a portion of the watershed between Susquehanna River and Lake Ontario; and its highest summits are 1,600 to 1,800 feet above tide. The streams are small creeks and brooks. Loon and Mud Lakes are situated in a valley in the s. part of the town, and their waters flow in opposite directions. The outlet of the former is subterranean for half a mi.; and where it comes to the surface it is in sufficient volume to form a valuable mill stream. The soil in the N. is gravel and muck, and in the S. a shaly loam. Wayland, (Wayland Depôt p.o.,) in the N.E. part of the town, contains 40 dwellings. It is a station on the B., N. Y. & E. R. R. Perkinsville, 2 mi. s.w. of Wayland, contains 2 churches and 30 dwellings. Patchins Mills is a hamlet. Loon Lake is a p.o. The first settlement was made in 1806-07, by Thos. Bowles and John H. Miller. 11 The census reports 3 churches. 12

<sup>1</sup> Amos Dickinson settled in 1814; and Joseph Fluent at Bonny Hill in 1817. The first settlers at Aldrich settlement were William Jack, Samnel Fisk, and Thomas Aldrich, in 1823. The first child born was Irena Smith, in 1813; the first marriage, that of Joseph Fluent and Fanny Dickinson, in 1818; and the first death, that of Anderson Carpenter, killed by the falling of a tree, in 1817. The first school was taught at Bonny Hill, by Caroline Vinan, in 1815; the first store was kept by Harlow Sears, at Merchantville. No tavern was ever kept in the town, and no license was ever granted to sell liquor.

2 The census reports 4 churches; 2 M. E., Bap., and Christian.

3 Named from Robert Troup, of N. Y., general agent of the Pultenny estate.—Turner's Phelips and Gorham Purchase, p. 279.

4 This institution has an average attendance of about 60 pupils. Fletce, in 1806; Lieut. Reynolds and Jonathan Rogers settled at the same place in 1809, Geo. Martin in 1810, and James Works in 1\*11. The first child born was Polly Young; the first marriage, that of Zebulon Tubbs and Sarah Rice; and the first death, that of Jeremiah Martin. Abner Thomas taught the first school, a little r. of Troupsburgh Village; Lieut. Reynolds kept the first inn, in 1802.

9 The census reports 6 churches; 2 Bap., and 1 each Presb., and the from the Center, and Ichabod C. Leach the first store, in 1816. Saml. In 1875, 30 acres were devoted to vineyards; and the success of the experiment was so great that the number of acres was doubled in 1859. There are about 2,000 acres in town with the \$1.00 the pull of the pull of the first store, in 1830. The first school was taught by Thos. Wilbouled in 1859. There are about 2,000 acres in town with the \$2.00 the experiment was so great that the number of acres was doubled in 1859. There are about 2,000 acres in town with the \$2.00 the experiment was so great that the number of acres was doubled in 1859. There are about 2,000 acres in town with the \$2.00 the experiment was so great that the number of acres was doub

WAYNE!—named in honor of Gen. Anthony Wayne—was formed, as "Frederickstown," March 18, 1796. Its name was changed April 6, 1808. Reading (Schuyler co.) was taken off in 1806, Orange (Schuyler co.) in 1813, and Barrington (Yates co.) and Tyrone (Schuyler co.) in 1822. A part was annexed to Tyrone April 17, 1854. It is situated upon Crooked Lake, on the E. border of the co. Its surface is a rolling upland, 400 to 600 feet high, descending abruptly to the lake. Little Lake is a beautiful sheet of water lying along the E. border. The soil is a gravelly and slaty loam underlaid by hardpan. Wayne, (p.v.,) on the line of Tyrone, (Schuyler co.,) contains 3 churches and 40 houses. Wayne Four Corners is a p.o. Keuka is a steamboat landing in the N. part. Zephaniah Hoff, Henry Mapes, Widow Jennings, and Solomon Wixson settled in town in 1791.3 Rev. Ephraim Sanford (Bap.) was one of the first settlers, and for many years the only clergyman in town. There are two churches in town; M. E. and Union.

WEST UNION—was formed from Greenwood, April 25, 1845. It is the s.w. corner town of the co. Its surface is a broken and hilly upland, the highest summits being 2,000 to 2,400 feet above tide. A large part of the town is yet covered with forests. Bennetts Creek is the principal stream. The soil is a heavy, slaty loam. Lumbering is extensively pursued. Rexville (p.o.) and Wileysville (p.o.) are hamlets. West Union is a p. o. The first settler was Abraham V. Olmsted, who located at Rexville in 1822.4 The first church (M. E.) was formed at Rexville in 1831. There are 2 churches in town; Bap. and M. E.

WHEELER5—was formed from Bath and Prattsburgh, Feb. 25, 1820. A part of Avoca was taken off in 1843, and a part of Urbana in 1839. It is an interior town, lying N.E. of the center of the co. Its surface is a high, rolling upland, broken by the valleys of Five Mile and Ten Mile Creeks and of several small lateral streams. The soil is a shaly and clayey loam, well adapted to both grazing and tillage. Mitchellville (p.v.) contains 20 houses; and Wheeler Center (Wheeler p.o.) 1 church and 15 houses. The first settlement was made in 1799, by Capt. Silas Wheeler, from Albany co. 6 Rev. Ephraim Eggleston (Bap.) conducted the first religious services, in 1802. There are 2 churches in town; Presb. and M. E.

WOODHULL was formed from Troupsburgh and Addison, Feb. 18, 1828. A part of Rathbone was taken off in 1856. It is the central town upon the s. border of the co. Its surface is a hilly upland, a considerable portion of which is yet covered with forests. Tuscarora Creek, flowing E. through the northerly part of the town, is the principal stream. The soil is a clayey and gravelly loam. Lumbering is carried on to some extent. Newville, (Woodhull p.o.,) on Tuscarora Creek, contains 3 churches and several manufacturing establishments. Pop. 215. Hedgesville contains 10 houses. The first settlement was made in 1805, by Stephen Dolson, Daniel Johnson, Patrick Breakhill, Bethuel Tubbs, and Samuel B. Rice.<sup>8</sup> The first church (Presb.) was organized in 1830; and the Rev. Mr. Pomeroy was the first pastor. There are 4 churches in town.9

1 Its former name was from Frederick Bartles.—McMasters's Hist. Steuben Co., p. 181.

2 Locally known as "Wayne Hotel."

3 Enos, Joseph, and James Silsbee, Abraham Hendricks, Joshua Smith, John Holdridge, Elijah Reynolds, and Ephraim Tyler were among the early settlers. The first birth was that of Elizabeth Wixson, Nov. 6, 1793; and the first marriage, that of Ephraim Sanford, jr. and Julia Hoff. Jas. Silsbee kept the first store, and Enos Silsbee the first inn. The first school was taught by Nathaniel Frisbee, in 1797.

4 The late settlement of this town was owing to the fact that a large share of the land was owned in England and by heirs under age. Among the first settlers were Fred. Hauber, Wm. Burger, and Wm. Bray, from Delaware co., who came in 1823 and located near Rexville. John Wiley, Wm. Fisher, and Benj. Wilks settled at Wileysville in 1849. Uriah Stevens taught the first school; Chas. Rexford kept the first inn, and Walter B. Olmsted the first store, at Rexville. John Wiley built the first saw and grist mill, in 1849-50.

6 Named from Capt. Silas Wheeler, the first settler. Capt. Wheeler served during the Revolutionary War, and was at the attack on Quebec and stood near Montgomery when he fell. He was 4 times taken prisoner during the war. He died in 1828, at the age of 78.

8 Nathan Rose, Wm. Holmes, and Turner Gardner settled in

He was 4 times taken prisoner during the war. He died in 1828, at the age of 78.

• Nathan Rose, Wm. Holmes, and Turner Gardner settled in town in 1799; Col. Jonathan Barney and Thos. Aulls in 1800; Philip Murtle in 1802; and Otto F. Marshall, and others, named Bear, Ferval, and Riffe, in 1803. William, son of Jonathan Barney, was born Nov. 1, 1801, and died Dec. 1, 1802,—the first birth and death in town. Hon. Grattan H. Wheeler was a party to

1 Its former name was from Frederick Bartles.—McMasters's | the first marriage. Capt. Wheeler built the first sawmill, in 1802; fist. Steuben Co., p. 181. | and Geo. W. Taylor the first gristmill, in 1803-04. John Beals

kept the first inn, in 1820; and Cornelius Younglove, the first store, in 1825. The first school was taught by Uriel Chapin.
"Capt. Wheeler's first trip to mill is worthy of record. There were, at the time when he had occasion to 'go to mill,' three institutions in the neighborhood where grinding was done,—a' the Friends' settlement, at Bath, and at Naples. The millstones the Friends' settlement, at Bath, and at Naples. The millstones of Bath had suspended operations—there being nothing there to grind, as was reported. Capt. Wheeler made a cart, of which the wheels were sawn from the end of a log of curly maple: the box was of corresponding architecture. He started for Naples with two oxen attached to this vehicle. Two young men went before the oxen with axes and chopped a road, and the clumsy chariot came floundering through the bushes behind, bouncing over the logs and snubbing the stumps, like a ship working through an lee field. The first day they reached a point a little through an lee field. The first day they reached a point a little beyond the present village of Prattsburgh, a distance of six miles from their starting point, and the second moored trlumphantly at the mill at Naples?—McMasters's Hist. Steuben Co., pp.

195-196.
7 Named in honor of Gen. Nathaniel Woodhull, of the Revolu

8 Calcb Smith settled in the town in 1808. The first birth was that of Polly Smith: the first marriage, that of Levi Rice and Cynthia Tubbs; and the first death, that of Benj. Tubbs. Caleb Smith built the first gristmill, in 1805; Ichabod S. Leach kept the first inu, and Josiah Tubbs the first store. The first school was taught by Abner Thomas. 9 2 Bap., Presb., and R.C.

Acres of Land, Valuation, Population, Dwellings, Families, Freeholders, Schools, Live Stock, Agricultural Products, and Domestic Manufactures, of Steuben County.

# SUFFOLK COUNTY.

This county was organized Nov. 1, 1683. It occupies the E. part of Long Island, embracing about two-thirds of its area, and includes several smaller islands off the E. and N. coasts. centrally distant 138 mi. from Albany, and contains 1,200 sq. mi. The E. extremity of the island is divided by Great and Little Peconic and Gardiners Bays into two narrow, unequal branches, between which are Gardiners, Shelter, and Robins Islands. A chain of islands extends from the N. branch nearly to the Conn. shore.2 A beach composed of alluvial sand and shingle, broken only by occasional inlets, skirts the s. shore of the island, enclosing several large, irregular bays, the principal of which are Great South, Moriches, Shinnecock, and Mecox Bays. "This great beach is a line of spits and islands. One

of the islands is about 25 mi. long, with a breadth of a few hundred yards. They are all narrow and long; and when above the reach of the surf they are covered by a labyrinth of hillocks of drifted sand, imitating almost all the variety of form which snow drifts possess after a storm."

The action of the waves and winds is gradually extending this beach. Off the s. coast the sea is very shallow; 50 mi. from the shore its depth nowhere exceeds 40 fathoms; and sandbars at a considerable distance from the beach approach so near the surface as to break the waves into a surf. The traveler along the beach is seldom out of sight of a wreck.<sup>3</sup> Irregular branches project inland from Long Island Sound, in the w. part of the co., and from the bays upon the s. and E. The peninsulas and points thus formed are locally known as "necks." Upon the s. side of the island these necks generally take the name of the stream E. of them. An irregular range of hills extends E. and W. through the co., a little N. of the center. A second range, commencing in Brookhaven, extends into the s. branch of the island, terminating at Canoe Place and reappearing farther E. as the Shinnecock Hills. Along the N. border of the co. the surface is somewhat broken; but in the s. it is very level. In the E. part are several fresh water lakes, and a few in the central and w. parts, the principal of which is Lake Ronkonkoma, on the w. border of Brookhaven. The principal streams are Peconic River, in the E., and the Connecticut, in the central part. The soil is generally a light, sandy loam, moderately fertile along the coasts; but in some parts the surface consists of almost sterile plains or barren sandhills. The interior of the island, from near the foot of the hills to within one or two mi. of South Bay, is occupied by the "brush plains," which are sparsely inhabited and hardly susceptible of cultivation. Thousands of acres of these plains were burned over in 1844 and '45; and a thin growth of scrub oak, 3 to 4 feet high, has since sprung up on the burned tract.4 Along the coast are extensive salt marshes. No native rock is found within this co.; and the whole island, except a few rocks near Hellgate, appears to belong to the drift formation or to have been formed as a strand of the sea. The waters of the sea are slowly encroaching upon the land of the E. and N. parts.

The various branches of agriculture form the leading industrial pursuits.<sup>5</sup> Successful husbandry in this co. involves a large expenditure for fertilizers,6 which to considerable extent are obtained from the neighboring seas. Immense quantities of bony fish are caught for this pur-

<sup>1</sup> Named from a co. in England. From 1665 to 1683 this co. formed the "East Riding of Forkshire."

2 These islands appear to have been separated from the mainand and from each other by tidal currents, which flow between them with great force. — N. Y. Geological Survey,—Mather.

3 From Nov. 1, 1854, to June 28, 1857, 5 ships, 9 barks, 16 brigs, 25 schooners, and 9 sloops were wrecked, or in distress, off this coast. The Government has established 26 lifeboat stations upon the s. shore, (of which 19 are within this co.,) 1 on Fishers Island, 1 at Orient Point, and 2 upon the Sound. Each station is furnished with boats, life-cars, mortars and rockets for throwing lines, and at each a keeper is in constant attendance. Under the provisions of the act of Feb. 16, 1787, "wreckmasters" are appointed by the Governor and Senate in and for the several counties bordering upon the seashore. Of these there are 15 in Suffolk co. It is their duty to render every possible aid to distressed vessels. A project has recently been formed of constructing a telegraph line from Montauk Point to Brooklyn, with stations along the beach, so that intelligence Brooklyn, with stations along the beach, so that intelligence may be transmitted in season to admit of aid being sent to vessels in distress.

<sup>&</sup>lt;sup>4</sup> Some of these tracts are 8 to 10 mi. long and 2 to 4 wide. The fires destroyed not only the forest trees, but every vestige The fires destroyed not only the forest trees, but every vestige of vegetstion, and thousands of cords of wood; hundreds of deer and other animals perished in them. These lands are valuable only for the timber upon them; and when that is destroyed they become nearly worthless.

<sup>6</sup> Corn and potatoes are the leading agricultural exportations. This co. excels all others in the State in the amount of turnips raised. Wheat is one of the principal crops.

<sup>6</sup> The annual expenditure of this co. for manures is nearly \$200,000,—about half as much as is expended for the same purpose by all the rest of the State.

<sup>7</sup> These fish are the Alosa menhaden, or "moss bunkers," and

pose by all the rest of the State.

7 These fish are the Alosa menhaden, or "moss bunkers," and are usually called "bunkers" or "skippaugs." They are caught from May to Nov, in scines, in immense quantities; at a single hall, a few years since, 1.400.000 were taken. They are sold at an average price of \$1 per M. They are usually strewn upon the surface as a top dressing, or plowed under, but are some times rotted with earth, seaweed, and other articles in compost heaps. The stench of these decaying fish is extremely unbecaut and showed corrowwring to strangers. pleasant and almost overpowering to strangers.

pose, and are used either alone or in connection with seaweed, stable manure, compost, guano, ashes, and other fertilizers. Oysters and clams abound in the bays and seas around the island: and the taking of these, and fishing, form the principal occupations of the inhabitants along the shore. From the first settlement of the co. considerable attention has been given to whaling. This business was originally carried on in open boats from the shore; but large vessels are now sent upon long voyages to the Polar Seas.2 The preparation of "fish guano," and oil from bunkers,3 shipbuilding, and brickmaking are the principal manufacturing interests of the co.4 At Fire Island, Greenport, and Orient, and at most of the villages along South Country Road are extensive hotels, especially fitted for the accommodation of families from New York City, great numbers of whom spend the summer months at these public houses or in private families.

The county seat is located at Riverhead.5 The courthouse is a fine two story brick building, situated near the depôt, and contains the usual county offices, and accommodations for the sheriff's family.6 The jail, situated in rear of the courthouse, is a two story stone octagonal building. The

county clerk's office is a fireproof brick building. The co. has no poorhouse.7

The first regulation concerning public roads was adopted under authority of an act of General Assembly passed in 1724, and was kept alive by repeated enactments. Commissioners appointed by this authority about 1733 laid out 3 principal roads from w. to E. These were called the North, Middle, and South Country Roads, and upon them the principal villages and settlements are located. The project of opening a navigable communication between the bays upon the s. shore of the island was recommended by Gov. Clinton in 1825, and was subsequently authorized by law, but was never carried into effect.8 The Long Island R. R. affords the principal avenue of business through the island.9 Short stage routes connect the several villages along the N. and S. shores with the R. R.

Seven newspapers are published in the co.; 2 at Greenport, 2 at Huntington, 1 at Sag Harbor, 1 at Patchogue, and 1 at Riverhead.10

When Long Island first became known, it was inhabited by 13 tribes of Indians, of which all but two resided wholly or in part in this co.11 Of these the Montauks were the most numerous

1 At present 3 whaleboats at Mastic Point, 2 at Shinnecock, 6 at Southampton, and several at Bridgehampton, East Hampton, and Amaganset, are kept in constant readiness for use upon the beach. They are mounted, bottom upward, upon a staging, and are well supplied with oars, lances, harpoons, and other necessary tackle. During the winter and spring months a lookout is kept, and when a whale appears a signal rallies the neighborhood to the chase. A year seldom passes without one prize; and some years half a dozen are captured.

2 The whaling interests of this co, received a severe check upon the discovery of gold in California. Many whaleships were fitted out for the trade with that region, and upon the reaction that followed were sold. The number of whaleships now belonging to the co, is 33; and the greatest number at any one time (in 1845–47) was 88.

3 The manufactories of fish guano and oil are in Southold and upon Shetter Island, and on Napeague Beach. The fish are heated by steam, and the oil is extracted by hydrostatic presses. The residue is dried and ground for guano. Forty tons of fish yield 9 tons of guano and \$40 gals, of oil. It is claimed by many that this manufactured article possesses all the valuable properties of the Pennyian guano.

perties of the Peruvian guano.

4 Salt was formerly made from seawater at Sag Harbor. An extensive business was formerly carried on in cutting wood and extensive business was formerly carried on in cutting wood and shipping it to the New York market. Spafford, in his Gazetteer of 1823, says that a great portion of the fuel consumed in the city was furnished by the pine plains, and that 100,000 cords were annually sent from Brookhaven. Since the fires of 1844 and '45 but little wood has been exported.

6 A small two story frame hullding, erected in 1725, served for both a courthouse and jail. The first court of Oyer and Terminer under the State Government was held Sept. 4, 1787.

6 This building was erected in 1854 and '55, at a cost of \$17,800.

o This building was erected in 1804 and 25, at a cost of \$11,500. The committee appointed to superintend its erection were Sam'l B. Nicoll, Wm. R. Post, and Sylvester Miller. By an act passed April 9, 1813, the clerk of this co. was authorized to establish his office in two places, and to appoint a deputy to have charge of one. The records migrated between Islip and Southold, and were kept many years at Smithtown. The records of wills in this co. extend back to 1669. The records of the court of General Sessions and Common Pleas have been separately recorded since

Sessions and Common Free Late 1723.

7 Most of the towns have poorhouses, at which co. paupers are provided for at the co. expense.

8 The Long Island Canal Company, chartered April 8, 1848, was authorized to effect what in substance was embraced in De Witt Clinton's plan, viz.: communication between Gravesend, Jamaica, Great South, Southampton, and Mecox Bays, and across Canoe Place.

Canoe Place.

<sup>9</sup> The road was opened to Farmington Oct. 15, 1841, to Yaphank June 26, 1842, and to Greenport July 29, 1844.

10 Frothingham's Long Island Herald was established at Sag Harbor May 10, 1791, by David Frothingham. In 1802 it was sold to Sellick Osborn, and changed to

it was sold to Sellick Osborn, and changed to

The Sag Harbor Express was commenced in 1859, by

11 These tribes were the "Canarsees," occupying Kings co. and a part of Jamaica; the "Rockavays," the country about Rockaway and parts of Jamaica and Newtown; the "Mattinecocks," the w. side of the island, from Flushing to the E. line of Huntington; to Stony Brook; the "Setaukets," that from Stony Brook to Wading River; the "Carakets," that from Stony Brook to Wading River; the "Carakets," that from Stony Brook in the Stony Brook is the "Carakets," all the N. branch of the island E. of Wading River; the "Carchoques," all the N. branch of the island E. of Wading River; the "Mercockes" and "Mucapeques," the country from the w. line of the co. to the E. part of Islip; the "Patchoques," from the E. line of Islip to the w. part of South ampton; the "Shinnecocks," the country around Canoe Place, and thence E. to East Hampton; the "Mandaus," that are now included in the town of East Hampton; and the "Manhassets," occupying Shelter Island. Of all these tribes there now remain

and powerful; and the consent of Wyandance, their grand sachem, was necessary to the validity of all Indian grants of that date upon the island. The earliest settlement within the co. was made in 1639, on Gardiners Island, under title derived from James Farrett, agent of the Earl of Stirling, to whom a grant of the whole of Long Island had been made by the Plymouth Company.<sup>2</sup> Southold and Southampton were settled in 1640, Easthampton in 1648, Shelter Island in 1652, Huntington in 1653, Brookhaven in 1655, and Smithtown in 1668, by English immigrants from New England. These settlers were strongly imbued with Puritan doctrines and zealously devoted to their strict observance.3 They naturally sought alliance with the adjacent New England colonies, to whom they were warmly attached, and with whom they were closely united until they were brought under the government of New York. Among the first measures taken by the colonists was the establishment of religious worship and schools, which in most of the towns date from the first or second year of settlement. These were commonly supported by tax, often levied in kind, and sometimes coupled with privileges and grants that are still recognized.

The patents granted by the New York governors created corporations, with municipal powers and privileges which were liberal for that period. These have never been changed, and are still valid. The rights were of two classes,—one belonging to all who might gain a residence and citizenship within the town, and the other pertaining only to the persons named in the patents and their heirs at law. During the Revolution most of the inhabitants of the co. warmly espoused the cause of the colonists; but after the battle of Long Island the British ascendency was complete, and few opportunities occurred for assisting in the popular movement. Several bold and successful incursions were made by partisan corps; but the armed occupation of the island was at no time interrupted. During the latter part of the War of 1812 an English fleet was stationed off the eastern coast; but few depredations were committed. The history of the co. from that day to the present is only the record of the industrial pursuits of a thriving people.

BROOKHAVEN-was incorp. by patent, under Gov. Nicoll, March 13, 1666, with the usual privileges of a township; and Dec. 27, 1686, the patent was confirmed by Gov. Dongan, and extended privileges were granted.6 It was recognized as a town March 7, 1788. It occupies the entire width of Long Island, near the center of the co. E. and w. It has 20 mi. of coast on Long Island Sound, 21 on South Bay, and above 30 on Fire Island, which skirts the whole s. coast. Patchogue and Bellport Bays, upon the s. coast, are branches of Great South Bay; and Old Mans Harbor and Port Jefferson, Conscience, Setauket, and Flax Pond Bays, are indentations upon the N. coast from L. I. Sound. The principal capes upon the N. coast are Cranes Neck, Old Field Point, Little Neck, Dyers Neck, Mount Misery, and Rocky Point. A range of low hills extends across the n. part of the town; but elsewhere the surface is level. The principal streams are Peconic River, in the E. part, and the Connecticut, in the central. There are several fresh water ponds of great depth and purity in the town, many of which have no outlet. The soil along the coast, both upon Long Island Sound and South Bay, is a moderately fertile, light, sandy loam, and in the interior it is generally unproductive. Along the streams near their mouths are numerous salt meadows. Port Jefferson 10 (p. v.) is situated at the head of Port Jefferson Bay, on the N. coast. It has a good harbor, and shipbuilding is largely carried on. 11 Pop. 1,247. Setauket, (p.v.,) on the bay of the same name, contains 2 churches and 4 shipyards and has a pop. of 1,136. Stony Brook, 12 (p. v.,) near the line of Smithtown, contains 1 church and has a pop. (in this town) of 542. Mt. Sinai, 13 (p. v.,) on Old Mans Harbor, has a pop. of 276. Millers Place, 14 (p.o.,) Rocky Point, and Swezys

rican blood.

1 Wyandance died in 1659, and the Montauk Indians afterward

became tributary to the Narragansetts.

2 This grant was madeep.1635, and, at the request of Charles I, Farrett was appointed for set in 1637.—Hough's Nantucket Papers, IX.

3 Most of the towns wese, calous of the admission of strangers,

and only allowed them to participate in their privileges upon careful examination of character and motive.

4 By the act of May 6, 1784, the sum of £10,000 was levied upon this co. as a "back tax" for defraying expenses incurred in

the wars.

<sup>6</sup> Capt. John Tucker, Dan'l Lane, Richard Woodhull, Henry Perring, and John Jenner were named trustees in this patent. Patents, I, 81, Sec. Office.

11 There are 5 shipyards upon the E. side of the harbor, and 3

upon the w. 12 Called by the Indians "Wopowag." The great quantities of shells found near the banks indicate that this was a favorite residence of the natives.

11 Called by the Indians "Non-o-wau-tuck." Old Mans Harbor is also called Mt. Sinal Harbor.

14 Named from Andrew, son of John Miller, one of the pioneers of Past Hampton.

of East Hampton.

but a few individuals in Islip and Brookhaven, about 200 at Shinnecock, and 5 families on Montauk Point. They have lost all knowledge of their language, using only the English, and are intelligent and civilized. They have intermarried to a considerable extent with negroes, and are probably of more than half Af-

<sup>6</sup> This instrument provided that 7 trustees should be annually o This instrument provided that 7 trustees should be annually elected, in whom the legal ownership of the property of the town should be vested. John Palmer, Richard Woodhull, Samuel Eburne, Andrew Gibb, Wm. Sttterlee, Thos. Jenner, and Thos. Helme were named as the first trustees.

7 The Indian name of this point was "Co-met-i-co."
8 Called by the Indians "Mi-mas-se-roke."
9 Its Indian name was "Pro-quott."
10 Formerly Known as "Drowned Meadow," and called "So-was-sett" by the Indians.

Landing are hamlets on the coast of Long Island Sound. Patchogue1 (p. v.) is situated on Patchogue Bay, in the s. w. part of the town. It contains 4 churches, an academy, and manufactories of twine, paper, cotton, ropes, and flour. Pop. 1,562. Bellport, (p. v.,) on the w. side of Belleport Bay, contains 1 church and an academy. Shipbuilding is carried on to a considerable extent. Pop. 383. Blue Point, 2 (p. o.,) in the s. w. part, is a hamlet. Fire Place, (p. v.,) on Belleport Bay, contains 1 church and about 35 houses; Moriches, 4 churches and 50 houses: East Moriches, (p. v.,) 40 houses; and West Moriches (Moriches p. o.) and Seatuck, hamlets, are situated near the coast of East Bay. Yaphank,4 (p. v.,) a station on the Long Island R. R., containing 3 churches and 35 houses, and South Haven, (p. v.,) containing 1 church and 20 houses, are situated on Connecticut River. Mastic<sup>5</sup> is a hamlet on Mastic River. Middle Island, (p. o.,) containing 2 churches, Selden, (p. o.,) 1 church, New Village, (p. o.,) 1 church, and Coram, (Cor-um,) (p. o.,) are hamlets in the central part; and Wampmissic, containing 1 church, and Manorville, (p. o., ) are hamlets in the E. part. Center Moriches is a p. o. Waverly, and Medford, are hamlets and R. R. stations. The town poorhouse is located near Coram, upon a small farm purchased in 1817 at a cost of \$900. The lighthouse on Old Field Point was built in 1823; and another on Fire Island, near Fire Island Inlet, was built in 1858.9 The first settlement was made at Setauket, 10 in 1655, by a colony of immigrants from near Boston, Mass.11 The land was bought from the Setauket Indians, and the sale confirmed by a release from Wyandance, Sachem of Montauk. This settlement was received under the government of Conn. in 1661, and Richard Woodhull and Thos. Pierce were appointed magistrates by the General Court. The tract of land between Islip and Bellport, extending to the center of the island, was purchased of the natives by John Winthrop in 1666, and the title confirmed March 29, 1680. Col. Wm. Smith purchased Little Neck, Oct. 22, 1686, and an extensive tract E. of Connecticut River, extending northward to the center of the co., in May, 1691.13 Fort St. George, a strongly fortified British post on South Bay, was surprised and taken by a party of 80 men, under Maj. Tallmadge, Nov. 21, 1780. They crossed Long Island Sound from Conn., landing at Old Mans Harbor, marched to Coram, where they destroyed a large amount of forage, and then to Fort St. George, which they captured without the loss of a man. Over 50 men were made prisoners, and a large amount of property was destroyed.14 Gen. Woodhull,15 Pres. of the Second and Third Provincial Congresses, Gen. Wm. Floyd, one of the signers of the Declaration of Independence, Col. Richard Floyd, 16 and Maj. Wm. H. Smith, were residents, and Maj. Benj. Tallmadge was a native, of this town. In the infancy of the settlement a building was erected at Setauket, which served the double purpose of a townhall and church.<sup>17</sup> There are now 26 churches in town.<sup>18</sup>

EAST HAMPTON—was incorp. by patent, under Gov. Nicoll, March 13, 1666, and confirmed by Gov. Dongan, Dec. 9, 1686. It was recognized as a town March 7, 1788. It lies at the E. extremity of Long Island, s. of Gardners Bay and Long Island Sound, and includes Gardiners Island, lying N. of the mainland. The E. part consists of a narrow peninsula, to which the name, Montauk, is applied. Upon the N. coast are several large bays, some of them nearly landlocked. The principal of these are Northwest, Three Mile, Acabonac, and Napeague Harbors, and Fort Pond Bay. In the central and w. parts the surface is mostly level or gently undulating; but along the coast

region.

2 Called by the Indians "Man-ow-tuss-quott," an important oyster bed in Great South Bay, in this vicinity.

3 An Indian name, pronounced Mo-rich-es. Great quantities of fish and wild fowl are sent from this vicinity to the New York movie.

4 Yaphank is the Indian name of a small tributary of the Connectiont. The place was originally called "Millville," and afterward "Brookfield."

This name is applied to a considerable tract of land w. of the

river, formerly occupied by the Poes-pa-tuck Indians, a tribe subject to the Poehoughs. Parts of this tract were known as "Sa-bo-nock," "Ne-com-mack," "Cos-pu-tus," "Pu-ter-quos," "Un-co-houg," and "Mat-te-moy," o Named from an Indian chief.
7 This name was given by the Indians to a swamp in the

vicinity.

8 Formerly called "St. George's Manor."

9 This lighthouse is 150 ft. high and 166 ft. above the sea, and is furnished with a French flashing lens apparatus of superior quality.

10 Then called "Cromwell Bay."

in 1745, Benj. 18ining angle, in 1764, Noan Wetholte, in 1765, and in 1745, Benj. 18ining, in 1764, Noan Wetholte, in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765, and in 1765

Woolley, Akerly, Combs, Waring, Mapes, Thorp, Eburne, Brewster, Poole, Sharpe, Burnet, Helme, Garlick, Moger, Pierce, and Ware. Many of these names are still common on the island. By a vote of the inhabitants, taken July 13, 1687, the trustees of the town were directed to establish a school, and Francis Williamson was employed as a teacher, at a salary of £30 per annum. The first mill was erected at Stony Brook, in 1690.—Thompson's Hist. Long Island, 22 Ed., 1,408.

12 A great part of this tract was divided into 36 prizes, and disposed of by lottery for £12,000 in June, 1758.

13 These purchases were confirmed Oct. 9, 1693, under the title of the "Manor of St. George," which included all the town as then founded E. of the Connecticut. A large proportion of this tract is still owned by the descendants of Col. Smith.

upon the s. is a belt of low, shifting sand ridges; and the E. part is broken by low, irregular hills, some of which attain an elevation of 100 ft. above the sea. Near the coast in the s. part of the town and upon the peninsula are several fresh water ponds. The principal of these are Great,1 Fort, Oyster, Hook, and Georgica Ponds; and their outlets have been closed by sandbars or a beach. Upon the main portion of the peninsula of Montauk the soil is fertile, but its neck is a barren, sandy waste. In the w. part the soil is a light, sandy loam and is kept highly fertile by the use of manures. Stock raising forms the leading occupation; and to that pursuit Gardners Island<sup>3</sup> and Montauk Point are exclusively devoted. A tract of about 9000 acres, embracing the entire E. portion of the town, is devoted wholly to pasturage. It is owned by a company, incorp. as tenants in common, whose affairs are managed by a board of 7 trustees elected annually.4 Twelve trustees are chosen annually, to whom are committed the management of the town commons, the meadow beaches, and the waters within the bays, the privileges of which are enjoyed by all citizens. A town poorhouse is located on a small farm about 2 mi. w. of East Hampton Village. Lighthouses are located upon Cedar Island, at the entrance of Sag Harbor, 5 at the N. extremity of Gardiners Island, and upon Montauk Point. 6 East Hampton, (p. v.,) about 1 mi. from the beach, in the s. w. part of the town, has 2 churches, an academy, 2 windmills, and about 70 houses. Amagansett, (p. v.,) a scattered village about 2 mi. E. of East Hampton, contains 1 church. Pop. 270. Springs, (p.o.,) near Acabonac Harbor, and Wainscott, in the s. w. corner of the town, are hamlets. Sag Harbor9 (p. v.) is partly in this town. The first settlement in this town, and the first English settlement in the State, was made on Gardiners Island in 1639, by Lyon Gardiner. 10 Settlement in the w. part of the town was commenced in 1648, upon lands purchased of the Montauk Indians, by a company of English families from Lynn, Mass.11 The government of the colony was purely democratic. The people met in "General Court," and enacted laws, appointed civil and ministerial officers, and acted upon appeals from the decisions of their magistrates. Three magistrates, <sup>12</sup> a recorder, a secretary, and a constable were annually elected. Lands were allotted to individuals, and could not be alienated without the approval of the General Court. In Dec. 1653, they adopted the laws of Conn.; and from 1657 to 1667 they were united with that colony.<sup>13</sup> The inhabitants sided with the colonists in the disputes which led to the Revolution. In June, 1775, an "Association" favoring the measures of the Continental Congress was formed, and its articles were signed by every male inhabitant capable of bearing arms. 14 Rev. Thomas James, the first pastor in the town, settled in 1651.15 There are now 4 churches in town.16

**HUNTINGTON**—was incorp. by patent, under Gov. Nicoll, Nov. 30, 1666.<sup>17</sup> The patent was renewed Aug. 2, 1688, and again Oct. 5, 1694. It was recognized as a town March 7, 1788, at which time Eatons Neck and Crab Meadow were annexed. The w. line was established Feb. 17,

4 This tract originally belonged to the Montauk Indians, and \*This tract originally belonged to the Montauk Indians, and was conveyed by them to the colonists of East Hampton, Feb. 11, 1661, the natives reserving to themselves the right of living upon and using so much of it as they might need. Its ownership was vested in the colonists in person. The lands were represented at first by 40 shares, valued at £40 each, and were intrusted to the management of the trustees of the town. The intrusted to the management of the trustees of the town. The shares are now divided into "eighths," of which 36 have been purchased by the corporation and extinguished. These eighths are now worth \$350 to \$400 each. The tract is divided into large inclosures, of which "the field" is reserved for fattening stock. Every share entitles its possessor to the privilege of pasturing for "the season" 48 cattle, 14 of them to be admitted to "the field." A horse is rated as 2 "beasts," (cattle,) and 7 sheep as one. "The season" is fixed by the trustees, and 1100 sheep are annually kept within these inclosures. Five Indian families reside upon the tract, who own 50 shares and are entitled to the keeping of 50 cattle. These privileges are usually hired of them for \$200 per annum.

6 Cedar Island Lighthouse, on Turtle Hill, is 85 ft. high, and 160 feet above the level of the sea. It was built in 1795, at a cost

The vane upon this church bears the village and the erection of as these of the first settlement of the village and the erection of the church edifice.

8 Clinton Academy was founded in 1784, and incorp. by the regents Nov. 17, 1787. A petition of the trustees of this institution suggested to the legislature the propriety of a general system of supervision, and led to the enactment of the law organ-

Erasmus Hall, in Flatbush, were incorp, the same day, and are the eldest legally organized academic institutions in the State. 9 See page 638.

10 This island was purchased from Jas. Farrett, agent of the Earl of Stirling, March 10, 1639. Elizabeth Gardner—born upon the island. Sept. 14, 1641—was the first child of English parents born within the present limits of this State. The pirate, Kidd, visited the island in 1699 and buried a quantity of gold, silver, and jewels, which were afterward recovered by commissioners sent from Boston for that purpose. A piece of cloth of gold presented by Capt. Kidd to Mrs. Gardiner is still preserved.

11 This purchase was made by the Governors of Conn. and New Ilaven for the colonists, and was conveyed to them the following The tract embraced an area of about 30,000 acres; and the value of the articles given in exchange for it was £30 4s, 8d. The Indians reserved the right of fishing, hunting, and of taking shells for wampum upon the lands sold, and the right to the fins and tails of drift whales.

12 The first magistrates were John Mulford, Robt. Bend, and

Thos. Baker.

13 The first school was taught by Chas. Barnes, who received a salary of £30 per annum. He was succeeded in 1663 by Peter Benson.

14 John Chatfield, Col. Abram Gardiner, Burnet Miller, Rev.

<sup>14</sup> John Chatfield, Col. Abram Gardiner, Burnet Miller, Rev. Sam'l Buell, Thomas Wiekham, and 248 others.—Hedge's 200th Anniversary Address. In Jan. 1777, the enemy-baving armed occupation of the island, required the inhabitants to sign a counter declaration, as the condition of their remaining in quiet occupation of their houses. This declaration was signed by 150, of whom 117 had signed the former paper.—MSS. State Library.
16 The succeeding pastors of the same church were Nathaniel Huntting, in 1699, Sam'l Buell, in 1746, Lyman Beecher, in 1799, and Ebeneger Phillips. in 1810.

and Ebenezer Phillips, in 1810.

1787, and Lloyds Neck was set off to Oyster Bay in 1788. This is the w. town of the co. It extends across the island, and has 10 mi. of coast on Long Island Sound and 6 on Great South Bay. It also includes about half of Oak Island Beach, and Cedar and several smaller islands in Great South Bay. The x. shore is deeply indented by Huntington Bay, from which Lloyds Harbor extends to the w., Huntington Harbor to the s., and Northport Bay to the E. Centerport and Northport Harbors branch off upon the s. of the latter bay, and two smaller arms upon the N. W. Great, Little, and Eatons! Necks are peninsulas formed by these bays and harbors. Groups of low hills extend through the center, and the surface 2 to 3 mi. from the Sound is broken; but elsewhere it is comparatively level. The soil in the N. and s. is fertile; but in the interior it is unproductive. The industrial pursuits are various; whaling, fishing, and taking oysters and clams are some of the leading occupations. Shipbuilding and manufactures receive considerable attention. At the annual election 7 trustees are chosen, to whose care the management of the town property is committed.2 The town poorhouse is located near Huntington Village. A lighthouse was built upon the point of Eatons Neck in 1798.3 Huntington, (p.v.,) near the head of Huntington Harbor, contains 5 churches, a flourishing union school, 2 printing offices, and a limited number of manufacturing establishments. Pop. 1,328. Cold Spring, (Cold Spring Harbor p.o.,) on the E. side of Cold Spring Harbor, contains 3 churches, 2 shipyards, a woolen factory, and other manufactories. Considerable whaling business is carried on from this port. Pop. 602. Northport (p.v.) is on the E. side of Northport Harbor. Shipbuilding is here largely carried on. Pop. 430. Centerport9 (p. v.) contains 1 church and 142 inhabitants; and Vernon Valley10 (p. v.) 1 church and 100 inhabitants. Babylon, (p. v.,) near Great South Bay, contains 2 churches and has a pop. of 470. This is a favorite resort for hunting and fishing parties. Amityville, 11 (p. v.,) in the s. w. part, contains I church and has a pop. of 304; Deer Park, (p. v.,) a station on the Long Island R. R., contains 12 houses; Melville, 12 in the w. part, 1 church and 108 inhabitants; and Comac, (Commack p. o.,) in the E. part, 2 churches and 121 inhabitants. West Hills, (p. o.,) containing 1 church, and Dix Hills, (p. o.,) are hamlets on the Smithtown turnpike. Settlement began near the N. coast, in 1653, by a company from Sandwich, Mass. In 1660 the settlement was received under the government of Conn.; and in 1663 deputies were elected to the General Court at Hartford. Upon the English conquest, in 1664, the town came reluctantly under the government of New York. During the Revolution, companies of tories were stationed here, and many outrages were committed upon those friendly to the independence of the colonies. There are 22 churches in town.14

• ISLIP<sup>15</sup>—was first recognized as a town by the Colonial Government, Nov. 25, 1710, and by the State Legislature March 7, 1788.16 It lies w. of the center of the co., and extends from the s. coast to the middle of the island; it has a coast of about 18 mi. on Great South Bay, and includes Cap Tree, Oak, and several other islands off the s. coast. Numerous narrow inlets from Great South Bay divide the coast into distinct "necks," of which there are 35 within the limits of the town. The Connetquot River, and Sam-pa-wams or Thompsons Creek, are the principal streams. The surface is level, except in the n. part, where it is hilly. The brush plains occupy all the central portion; and near the coast are extensive salt meadows. Upon a tract extending along the bay, and varying in width from one to three miles, the soil is fertile. This part of the town is thickly settled; but the remainder is almost uninhabited. The keeping of the town poor is let to the lowest bidders. Penataquit,17 (p.v.,) near the coast, contains 1 church and has a pop. of 292; Islip, (p.v.,) 2 mi. E. of Penataquit, contains 3 churches and about 70 houses. Midroadville, containing 40 houses, and Sayville, (p.v.,) containing 2 churches and 822 inhabitants, are in the s. E. part. Lake-

built at a cost of \$9,500.

4 This school has an endowment of \$7,400, bequeathed by Nathaniel Potter.

7 Belonging to this port are 5 whaling vessels, with an aggregate of 2,129 tons.

8 Formerly called "Great Cow Harbor." 9 Formerly called "Little Cow Harbor." 10 Formerly "Red-Hook." 11 Formerly "West Neck." 12 Formerly "Sweet Hollow;" called by the Indians "Sun-

13 The names of some of the families residing in the town at the <sup>18</sup> The names of some of the families residing in the town at the date of Nicoll's Patent were Titus, Wood, Brush, Green, Wickes, Jones, Rogers, Todd, Scudder, Skidmore, Chichester, Whitson, Bagly, Meggs, Mathews, Darling, Baldwin, Harnett, Ludlun, Adams, Smith, Houldsworth, Cranfield, Soper, French, Foster, Platt, Jarvis, Powell. Cory, Leverich, Williams, Westcote, Lynch, Benedict, Conkling, Strickling, Tredwell, Porter, Wheeler, Seeley, and Ketcham. The first school was established in 1657.

<sup>15</sup> Named from Islip, Oxfordshire, Eng.
<sup>16</sup> This act empowered the inhabitants of the district "on the steller of the property of the land.

"Ins act empowered the innantants of the district "on the s. side of Long Island, from the westermost limits of the land of Thos. Willett to the eastermost part of the lands of William Nicoll. near Blue Point," to elect town officers.

I' This name was given by the Indians to a small stream in the neighborhood. The village was formerly called "Mechanicsville."

<sup>1</sup> Named from Gov. Eaton, of New Haven, by whom it was purchased of the Indians in 1646. The names "Eatons Manor" and "Gardiners Neck" have been applied to it.

2 The ferry from this town to Norwalk. Conn., which has been maintained from an early period, is under the control of these trustees. Under their patent—which is still in forte—the inhabitants claim the exclusive right of taking oysters and clams in the waters within the jurisdiction of the town. Most of the public lands were sold in 1853, and the proceeds invested, to meet the ordinary expenses of the town. About 3,000 acres were sold, at \$5.40 per acre.

3 This lighthouse is 56 ft. high and 138 ft. above tide. It was

Ten or 12 men are constantly employed, and 5 to 6 gross of gold and silver thimbles are made daily. There is a wind sawmill in this place, erected in 1825.
Called by the natives "Nach-a-qua-tuck."

land' (p. v.) is a station on the L. I. R. R., s. of Lake Ronkonkoma. Pop. 215. Thompsons Station (p. o.) and North Islip (Suffolk Station p. o.) are stations on the Long Island R. R. Modern Times is a place of about 20 houses, in the central part.<sup>2</sup> The Patchogue Indians were the original occupants of that part of the town E. of Connetquot River, and the Secatogues, or Secatokets, of that part w. of the river. A large tract of territory, w. of the Connetquot, was purchased by Wm. Nicoll, Nov. 29, 1683, and that part E. of the same stream by Olof, Philip, and Stephen Van Cortlandt, June 1, 1703.3 During the Revolution the inhabitants were in a constant state of alarm by the frequent passing of British troops to and from New York City. There are 10 churches in town.4

RIVERHEAD—was formed from Southold, March 13, 1792. It lies upon the N. side of the island, between Brookhaven and Southold, and has 16½ mi. of coast upon Long Island Sound. Peconic River and Great Peconic Bay form the s. boundary, and Wading River<sup>5</sup> a part of the w. The surface in the s. part is level, but in the N. it is hilly. The shore is lined with high and precipitous bluffs of clay and hardpan. The soil is light and sandy, and in most parts but moderately fertile. The poorhouse is located on a farm of 45 acres. Riverhead, (p.v.,) an important station on the L. I. R. R., is situated on Peconic River at the head of boat navigation. It is the county seat, and contains the co. buildings, 3 churches, a seminary, 6 and several manufactories. Pop. 813,-723 in Riverhead and 90 in Southampton. From Riverhead E. to the line of Southold, a distance of about 6 mi. upon the "South Road," is a continuous settlement, which has received at different places the names Upper Aquebogue, (p.o.,) Old Aquebogue, (Jamesport p.o.,) and Franklinville, (West Suffolk p. o.) Old Aquebogue and Franklinville are stations on the L. I. R. R. Jamesport<sup>8</sup> is situated about one-half mi. s. of Old Aquebogue, on Great Peconic Bay, and contains 1 church; pop. 148. Northville, (Success p. o.,) in the N. E. part, contains 1 church and 35 houses; Baiting Hollow, (p. o.,) in the N. part, in a scattered settlement, has 2 churches; and Wading River, (p. v.,) on stream of same name, 1 church and 25 houses. Settlement began at Riverhead, in 1690, by John Griffing and others. There are 10 churches in town.

SHELTER ISLAND<sup>10</sup>—was incorp. by patent, under Gov. Nicoll, May 31, 1666;<sup>11</sup> but its government was united with that of Southold until 1730. It was recognized as a town March 7, 1788. It lies between the two peninsulas which form the E. extremity of Long Island, and embraces an area of over 8,000 acres. The island is very irregular; upon all sides jutting headlands extend out into the surrounding waters, and branching bays penetrate into the interior. The principal of these inlets are Coecles, West Neck, and Deerings Harbors. The surface is hilly, and the soil fertile. Grain raising and sheep husbandry form the principal agricultural pursuits. Guano and oil are manufactured in considerable quantities from bony fish caught in the neighboring waters. There is a wind gristmill near the center of the island. Shelter Island is a p.o., centrally located. This island was the ancient residence of the Manhassett Indians. It was purchased for the Earl of Sterling by Jas. Farrett, and was afterward sold to Stephen Goodyear, of New Haven. In 1651 it was purchased by Nathaniel and Constant Sylvester, Thos. Middleton, and Thos. Rowe.<sup>12</sup> The first settlement was made in 1652. The first church edifice was built in 1743.13

SMITHTOWN<sup>14</sup>—was organized by patent, March 25, 1677, and recognized as a town March 7, 1788. It lies upon the N. side of the island, between Huntington and Brookhaven. Stony Brook and Nissequague Harbors, extending far inland, are separated by the Nissequague Neck. Nissequagne River, emptying into the harbor of the same name, divides the town into two nearly equal parts. The surface is considerably broken and hilly. The soil is a light, sandy loam in the s. part, and a clayey loam along the Sound. The Branch, (Smithtown Branch p. o.,) on Branch Brook, near the center of the town, contains 2 churches and 35 houses; **Smithtown**, <sup>15</sup> (p. v.,) on Nissequague River, 20 houses; and St. Jamesville, (St. James p. o.,) at the head of Stony Brook Harbor, 1 church and 25 houses. Fresh Pond is a p. o., in the n. w. part. Hoppogue, 16 on

¹ This place was laid out on a magnificent scale. Large sums were spent in advertising it as a desirable residence for mechanics and others of small means, and many were induced to buy lots. Their investments, however, proved of little value,—their deeds being given by irresponsible parties.
² This "wilduge" was laid out and built by Stephen Pearl Andrews and others, who held to the doctrine of "the Sovereignty of the Individual," and some of whom were practical believers in the "Free Love" doctrine.

the line of Islip, and Nissequague, on Nissequague Neck, are hamlets. A tract of land, including the principal part of this town, was, in July, 1659, conveyed to Lyon Gardiner as a free gift, by Wyandance, Sachem of the Montauks; and in 1662 the grant was confirmed by the Nessequake tribe, by whom the lands were occupied. In 1663 the tract was sold to Richard Smith, and in 1665 the remaining part of the town was purchased of the Indians by him. Fort Slongo, in the N. W. part of the town, was erected by the British during the Revolution. It was captured by a body of Americans, under Col. Tallmadge, Oct. 3, 1781.2 There are 6 churches in town.3

**SOUTHAMPTON**<sup>4</sup>—was incorp. by patent, under Gov. Andros, Nov. 1, 1676, confirmed by Gov. Dongan, Dec. 6, 1686, and recognized as a town March 7, 1788. It occupies the greater part of the s. branch of Eastern Long Island, and has 30 mi. of seacoast. The entire s. shore is skirted by a beach which is united in a few places with the mainland, separating the inclosed waters into distinct bays, the principal of which are East, Quantuc, Shinnecock, and Mecox Bays; minor bays, branching from these, divide the surrounding shores into numerous irregular "necks." The beach which separates the waters of these bays from the Atlantic is unbroken except by a single inlet into Shinnecock Bay. The outline of the N. coast is extremely tortuous; ragged and often nearly landlocked bays project inland, and irregular points of land jut out into the surrounding waters. A range of low hills extends along the N. border of the town, and the Shinnecock Hills occupy the central part; elsewhere the surface is level. The soil in the E. and S. parts consists of a light, sandy loam, and is moderately fertile; but in other parts it is of an inferior quality. A large tracts. of Peconic River is covered with extensive pine forests. Stock raising and the other branches of agriculture form the principal industrial pursuits. The lands are enriched by the application of immense quantities of bunkers. Large tracts of meadow and pasturage lands in different parts of the town are owned by 3 companies, who, in common, elect annually a board of 12 trustees, to whose management the lands are committed.6 Taking clams and oysters, and whaling, form an important part of the business. The town has a small poorhouse, a short distance E. of Bridgehampton. A lighthouse has been recently erected on Ponquogue Beach. Sag Harbor, (p. v.,) in the N. E. part, was incorp. as a fire district in 1803, and as a village March 12, 1819. It contains 7 churches, the Sag Harbor Institute, a newspaper office, a bank, a cotton flannel factory, 2 clock factories, and several manufactories of oil casks. This port has long been noted for the extent of its whaling business.9 It was made a port of entry in 1784, and by itself now constitutes a district of customs. Pop. 2,776,—2,041 in Southampton, and 735 in Easthampton. Southampton, (p. v.,) midway between Shinnecock and Mecox Bays, contains 2 churches, an academy, 10 and 65 houses, Bridgehampton, 11 (p. v.,) in the E. part, contains 2 churches and about 40 houses; Shinnecock, on the E. side of Shinnecock Bay, is an Indian settlement of about 20 houses. 2 Sagg, Scuttle Hole and Watermill are hamlets, in the E. part. Flanders, (p. v.,) in the N. part. contains 2 churches and about 20 houses; Speonk, (p. v., ) near East Bay, contains 2 churches and about 40 houses. Ketchaboneck and Quogue, (p. o.,) near Quantuc Bay, and Good Ground (p. o.) and Canoe Place, near Shinnecock Bay, are hamlets. Riverhead (p. v.) is partly in The first settlement was made at Southampton, in 1640, by a company of immigrants

6 These lands are portions of 3 tracts, severally known as the

"Town Purchase," the "Quoque Purchase," and the "Topping
Purchase," which are still held by the proprietors in common.

The "Town Purchase" occupies the r. part of the town. It is
divided into 154 shares, called "fifties," worth about \$10 each.

These fifties are subdivided into sixteenths, and the shares are
owned in every conceivable quantity, from 1-40th of a fifty to 10
fifties. The Quoque and Topping Purchases occupy the w. part
of the town.

owned in every conceivable quantity, non-1-bit of the w. part of the town.

7 This lighthouse is 150 ft. high, and 160 ft. above the level of the sea. It is furnished with an excellent lens apparatus, and its light can be seen 20 nautical miles distant.

8 The "Suffule Mills" were built at an expense of \$130.000. About 150 hands are employed, and 10,000 to 12,000 yds. of flanged are made ner week.

1 This gift was made by Wyandance upon the recovery of his laughter, whom Gardiner had restored from captivity among the Narraganestts.

2 The Americans destroyed the fortifications and 2 cannon, ook 21 prisoners, and retired without the loss of a man, taking with them 1 brass piece, the British colors, and a quantity of mall arms and ammunition.—Onderdonk's (Revolutionary) Intellect.

4 Named from Sonthampton, Eng. Called by the Indians Bridgehampton is applied to a large section of country extending and a place abounding in fish.

In this village is sometimes called "Bulletan;" and the name Bridgehampton is applied to a large section of country extending from East Hampton to the w. part of Mecox Bay.

12 This is the residence of the remnant of the Slinnecock Indians, consisting of about 200 persons. They have learned many of the arts of civilized life, and obtain a subsistence by cultivating the soil, fishing, and taking clams. Many of the young men go on whaling voyages, and the young women are employed as servants in the families of the whites. They have entirely lost their native language, and speak the English fluently. They are frugal, industrious, orderly, and intelligent. They have a smal! (Cong.) church and a spacious schoolhouse. They receive their proportion of the common school money, and the school commissioner of the district employs a teacher for them. They are exempt from taxation, and are debarred the exercise of the elective franchise. They occupy the lands between Canoe Place and Shinnecock Creek as tenants in common. This tract was conveyed to the trustees of the town by Pompumo, Chico, and Manmanum, the sachems of the Shinnecock Indians, Aug. 16, 1703; and the same day the trustees leased the lands back to the Indians for a term of 1000 years, at an annual rent of one ear of corn. The Indians namuly elect 3 trustees, who, with the concurrence of 2 justices, can lease certain of their lands to the whites. nel are made per week.

currence of 2 justices, can lease certain of their lands to the whites.

from Lynn, Mass. A grant of the land was obtained from James Farrett, agent of Lord Stirling, in April, and a conveyance from the Indians on the 13th of Dec., 1640. During the first 12 months 47 settlers arrived. In 1644 Southampton was received under the government of Conn., and until 16642 was represented in General Court at Hartford. Upon the Dutch invasion in 1673 the town again sought a union with Conn. It was received, and, together with East Hampton and Southold, was erected into a co. Upon the re-establishment of English power, in 1674, the town came under the government of New York. The first settlement at Sag Harbor was made in 1730, by a few fishermen. On the morning of the 24th of May, 1777, Col. Meigs, with 130 men, surprised the British force stationed at Sag Harbor, destroyed 12 brigs and a sloop, besides a large amount of forage, provisions, and merchandise, and returned across the Sound without the loss of a man.3 A body of American troops was stationed at Sag Harbor in 1813, in consequence of the presence of a British fleet in Gardiners Bay.4 The first church was erected at Southampton, in 1641;5 and the first church in Bridgehampton was built in 1670.6 There are now 17 churches in town,7

**SOUTHOLD**<sup>8</sup>—was incorp. by patent, under Gov. Andros, Oct. 30, 1676, and recognized as a town March 7, 1788. Riverhead was taken off in 1792. It comprises the principal part of the northern peninsula of Eastern Long Island, and includes Robins Island in Great Peconic Bay, and Plum, Fishers, and several smaller islands in Long Island Sound. Orient10 is a peninsula upon the E.; and Great and Little Hog Necks are smaller peninsulas in the s. The s. shore is indented by several small, irregular bays; while the outline of the N. coast is unbroken except by 2 or 3 narrow inlets. The surface is elevated and level. The soil is a light, sandy loam, kept highly fertile by the use of manures. Plum Island, 11 separated from the mainland by Plum Gut, contains about 800 acres. Fishers Island, about 8 mi. eastward, is 7 mi. long by 1½ wide and contains about 4000 acres. 12 Great and Little Gull Islands are between Plum and Fishers Islands. Agriculture forms the leading industrial pursuit; potatoes, corn, and wheat are the principal crops. 13 Considerable attention is also given to shipbuilding, whaling, and commerce. A limited amount of manufacturing is carried on.14 Scattered tracts of lands and beaches, owned by an incorp. company, are intrusted to the management of 3 trustees, elected annually. These lands are represented by 110 shares, valued at \$15 each. The town has a poorfarm of 300 acres near Southold Village. Lighthouses are located on Hortons Point, Little Gull Island, 15 and "The Dumplings," -a group of rocks in Fishers Island Sound.16 Greenport, 17 (p.v.,) on Greenport Harbor, was incorp. April 18, 1838. It is a port of considerable whaling and commercial business, 18 and is the E. terminus of the L. I. R. R. It contains 5 churches and 2 printing offices. Pop. 1,665. Southold, (p.v.,) near the

Southold, in 13 whaleboats, on the 23d of May, and transported the boats across the peninsula, reaching the s. shore 4 mi. from Sag Harbor at midnight. In the attack the British had 6 men killed and 90 were taken prisoners. The party arrived at Guildford on their return in 25 hours from the time they left. Congress expressed its approbation of this enterprise by presenting Col. Meigs with a sword; and Gen. Washington, in a letter to Gen. Parsons, (by whose command Col. Meigs lad undertaken the expedition) congratulated him upon its successful achievement.—Onderdonk's Rev. Inc.

4 This fleet lay here through the war, making forced levies upon the inhabitants of the adjacent shores, but usually paying for the property taken. A descent was made upon Sag Harbor in June, 1813; but an alarm was raised, and the invaders were repelled without their doing serious injury.

1813; but an alarm was raised, and the invaders were repelled without their doing serious injury.

The pastors of the society have been Rev. Abraham Pierson, in 1640; Robt. Fordham, in 1649; Jos. Taylor, in 1680; Joseph Whiting, in 1680; Sam'l Gelston, in 1716; Sylvanus White, in 1727; Josh. Williams, in 1785; Harmon Daggett, in 1792; David S. Bogart, in 1798; John B. Babbitt, in 1817; Peter H. Shaw, in 1821; Dan'l Beers, in 1830; and Hugh N. Wilson, in 1836.

Rev. Ebenezer White, in 1690, Jos. Brown, in 1756, Aaron Woolworth, in 1787, and Amzi Francis, in 1823, have been the pastors of this church.

7 6 M. E., 5 Presb., Bap., Cong., Meth. Prot., Prot. E., R. C., and Union

8 That part of the town E. of Cutchogue was called by the Indians "Fen-ne-cock," and by the English "Northfeet."

9 Isaac Arnold, John and Benj, Youngs, Josh, and Barnabas
Horton, Sam'l Glover, and Isaac Corry were named trustees in

Holton, can total can the this patent.

10 Called by the Indians "Po-qua-tuck." It was bought of the Indians by Peter Hallock, in 1641; and the first settlement was made on it soon after, during Hallock's absence in England, by John Tuthili, John Youngs, jr., John King, and Israel, Richard, and Samuel Brown.—Griffin's Journal, 19.

11 Formerly known as the "Isle of Patmos." It was bought of the natives, in 1659, by Sam'l Wyllys.

12 This island was named "Visschers Island" by Capt. Cook, the

12 This island was named \*Visschers Island" by Capt. Cook, the navigator, in 1614. It was purchased, in 1644, by Gov. Winthrop, of Conn.; and was organized as a township by a patent obtained from Gov. Nicoll, of N. Y., in March, 1688. It was for a time claimed by both N. Y. and Conn. Its surface is undulating; near the w. end is a high sand bluff, and near the middle another still higher. There are two convenient harbors on the coast. The soil is well adapted to grass growing and grazing. Hay, wool, butter, and cheese are exported.

13 There were nearly as many potatoes raised in this town in 1855 as in all the co. besides. A greater quantity of own than in any other town in the co, and a greater quantity of gorn than in any town excets Southamuton.

greater quantity of corn than in any town except Southampton. Immense quantities of fish and seaweed are used as fertilizers.

14 Brick are made in large quantities near Greenport and upon

Rebins Island; and oil and guano are extensively manufactured from fish near Southold.

15 The lighthouse upon Little Gull Island was built in 1806, and is 56 ft. high and 74 ft. above tide. It is supplied with a fog

bell, which is rung by machinery.

16 The lighthouse upon North Dumpling was built in 1848, and is 25 ft. high and 70 ft. above the sea. A red light is used.

17 Formerly "Skirking."

18 The shipping of this port consists of 7 vessels engaged in

whaling; about 100 others, with an aggregate of 6000 tons, en-rolled; and 102 small vessels, licensed: mostly engaged in the coasting trade.

¹ These were Dan'l and Josiah Howe, Thos. Goldsmith, John Oldfields, Sam'l Dayton. Thos. Burnet, John and Edward Howell, Thos. And Job Sayre, Thos. Topping, John Woodruff, Henry and Abraham Pierson, Richard Post, Obadiah Rogers, John Fordham, Samuel Osman, John Rose, James Herrick, Chris. Foster, Jos. Raynor, Ellis Cook, Edward Needham, Sam'l James, John Gosman. John Bishop, John White, Wm. Payne, John Jessup, Henry Walton, Wm. Harker, Allen Breed, Edmund Farrington, Isaac Hillman. John Cooper, Geo. Woods, John Jagger, Richard Smith, Thos. Hildreth, John Hampton, Josh. Barnes, John Jennings, Benj. Haynes, Geo. Wells, Wm. Odelt, and John Lum.
² The deputies were John Howell, from 1644 to '51; John Cosmore, from 1651 to '55; Thomas Topping, from 1655 to '58; Alex. Knowles, from 1658 to '59; Thomas Topping, from 1659 to '33; and Edward Howell, from 1663 to '64.
² Col. Meigs, with 234 men, crossed from Guildford (Conn.) to Southold, in 13 whaleboats, on the 23d of May, and transported the hoats across the peninsula, reaching the s. shore 4 mi, from Sag Harbor at midnight. In the attack the British had 6 men 1 These were Dan'l and Josiah Howe, Thos. Goldsmith, John

center of the town, is a station on the L. I. R. R. It contains 3 churches, the Southold Academy, a savings bank, and about 80 houses. Hermitage, a small settlement, Cutchogue, (p.v.,) containing 3 churches and nearly 100 houses, and Mattituck, (p.v.,) containing 2 churches and 40 houses, are stations on the L.I.R.R. New Suffolk, on Great Peconic Bay, contains 1 church and about 20 houses. Franklinville is on the line of Riverhead. West Southold is a p. o. East Mariou, (p. v., ) near the w. side of Orient Harbor, contains a windmill, a tidemill, and 1 church; pop. 300. Orient, (p. v.,) on the E. side of the same harbor, contains 2 churches and 60 houses. The first settlement was made about 1640, by Rev. John Youngs and others, from New Haven.<sup>3</sup> The government of this colony, like that of several of the earlier New England settlements, was vested in the church members. None others were allowed to vote or to hold office; and the Mosaic code was adopted as their law. This exclusiveness was of short duration, All citizens were soon admitted to the right of suffrage; and in 1657 the Mosaic code was superseded by one better adapted to the circumstances of the people. Upon the union of New Haven with Conn., in 1662, Southold was united with the latter colony and was represented in General Court. In 1664 the town passed under the jurisdiction of New York. The first church was erected in 1641, in the village of Southold.4 There are now 17 churches in town.5

# SULLIVAN COUNTY.

This county was erected from Ulster, March 27, 1809, and was named in honor of Maj. Gen. John Sullivan, of the Revolution. It contains an area of 1,082 sq. mi., and is centrally distant 85 miles from Albany. The surface is generally very hilly, and along the E. border mountainous. In the s. and w. it consists chiefly of ridges separated by narrow ravines; but in the middle and N. it assumes more the character of a rolling plateau. The highlands of this co. may be considered as the s. slope of the Catskills; and near the N. borders of the co. they divide the waters that flow into Hudson and Delaware Rivers. From this elevated portion numerous ridges extend toward the Delaware, giving the co. a general southerly inclination. The Delaware cuts these ridges

diagonally, its valley forming the only division between the Catskills and the mountains of Eastern Penn. The highest points in the co. are the hills in the town of Rockland, which are estimated to be 2100 to 2400 feet above tide. Walnut Hill, in Liberty, has an elevation of 1980 feet. The lowest summit of the Shawangunk<sup>1</sup> Mt., between Bloomingburgh and Wurtzboro, is 1271 feet above tide, and the highest summit is about 500 feet higher. This range of mountains at a distance presents a striking uniformity of outline, which is due to the evenness of stratification of the rock composing it. The lowest point in the co. is upon the Delaware, at the mouth of the Mongaup, which has an elevation of 550 feet above tide. The co. line on the Rondcut is elevated 773 feet.

With the exception of a small district on its E. border, through which flow the upper waters of Shawangunk Kil and Lackawack Creek, this co. is drained by the Delaware and its branches, the largest of which are Neversink2 and Mongaup3 Rivers, Beaver Kil and Bashers Kil, and Callicoon (Caw-li-coon) and Ten Mile Creeks. The Neversink flows entirely across the co., having for its tributaries Bashers Kil, Wyncoop Brook, Bush Kil, Cherry-meadow Brook, and several Most of these streams are rapid, and afford at numerous points a great amount minor streams. of water-power. In the valleys and forests of the co. are about 100 small lakes, which form peculiar and often picturesque and highly beautiful features in its scenery. Most of these ponds and streams abound in fish, of which trout is the most common. Pickerel have been introduced into several of them.

The geological formation of the co. is exceedingly simple. The whole surface is underlaid by the red sandstone of the Catskill Group and the Shawangunk Conglomerate. These rocks extend southward into Penn., and form the floor of the coal measures. Of these rocks the latter possesses a commercial value for millstones, building stones, and the manufacture of glass. The soil is mostly a reddish loam mixed with gravel, and is generally stony; in the s.E. portion is found some clay. Grass is the staple production, and the hilly character of most of the co. seems to adapt it to grazing rather than to tillage. The facility with which the products of the dairy can now reach the great markets, by means of the N.Y. & E. R. R., has within a few years given an impetus to the prosperity of the co., while the erection of tanneries, which the same thoroughfare has encouraged, has created a home market of great advantage to the farmer. In 1855 there were in the co. about 40 tanneries, producing over \$2,000,000 worth of leather annually and employing about 750 The lumbering interests also employ large amounts of capital and labor. Winter wheat, formerly considered a sure and abundant crop, is found to yield smaller returns and with less certainty as the country becomes older; and other crops, less valuable but more certain, have been substituted to a great extent. The surplus wheat of Sullivan co. was formerly transported by land to the IIudson, where it found a profitable market; but, with the increase of manufactures, there is now less raised than is consumed in the co. Grass seed of a fine quality is raised in considerable quantities. The fruits are limited to apples, pears, plums, cherries, and a few peaches. The timber along the Delaware Valley is mostly hemlock, pine, oak, and chestnut; and on the highlands it is hemlock, beech, maple, birch, ash, and basswood. The climate is cool and bracing, and the co. is remarkably healthy.

Pron. Shon-gum; said to signify "white stone."
 On Sauthier's Map, 1779. Mahaickamack, or Never-Sink.
 On Sauthier's Map, 1779, Mangawping, or Mingwing.

<sup>4</sup> Esopus millstones, formerly in high repute, were made from the Shawangunk grit.

The co. seat' is located at Monticello, in the town of Thompson. The co. buildings, consisting of a courthouse and jail, are substantial stone edifices, erected in 1844 in place of the original co. buildings, which were burned.<sup>2</sup> The poorhouse is located upon a farm of 100 acres 3 mi. E. of Monticello. The  ${
m average}$  number of inmates is 56, supported at a weekly cost of 75 cts. each. The farm yields a revenue of \$400. A school is kept during 3 mo. in the year. No religious instruction is afforded. The house is too small, is poorly ventilated, is not furnished with water, and will not admit of a proper classification of its inmates.

The 2 great works of internal improvement within the limits of the co. are the Delaware & Hudson Canal, 3 extending through the s. E. part, and the N. Y. & E. R. R., built along the valley of the Delaware. The former opens an easy and direct communication between the Hudson at Rondout and the Penn, coal mines at Carbondale; and the latter forms one link of the great chain of western travel. Several plank roads have been constructed, as auxiliary to this great thoroughfare, greatly benefiting the sections of country through which they pass. The first newspaper in the co. was issued in 1821.5

Little is known of the early history of the co. Many traces exist of its occupation long anterior to that by the present race of settlers. Upon the first advent of the present settlers, a road was found to extend s. w. from Esopus, on the Hudson, along the valley N. of the Shawangunk Mts. It was known as the "Mine Road," and, according to traditional account, was built by a company of miners from Holland, before the English conquest of 1664.6 Two mines are said to have been wrought,—one where the mountain approaches the Delaware, near the lower point of Panquaroy Flat; and the other N. of the mountain, about halfway between the Delaware River and Esopus The Minisink Flat, on the border of Orange and Sullivan cos., is said to have been settled by Hollanders many years before the date of Penn's Charter; and the settlement, which extended 40 mi, or more along both sides of the Delaware, had in a great degree become isolated from the rest of the world. When the present settlements were begun, there was a road from the E., near the central part of the co., called the "Porter Road;" and in the N. part was another, called the "Hunter's Road."

With the exception of the vague traditions of early settlement by the Dutch along the Delaware, the first location of a permanent white inhabitant is said to have been made about the year 1700, by Don Manuel Gonzales, a Spaniard, who, having married into a Dutch family in Rochester, (Ulster co.,) removed to Mamakating Hollow, where he erected a house and raised grain. opened a trade with the neighboring Indians, who were then friendly; and other settlers were induced to follow. Mamakating Precinct was formed in 1743, and until after the Revolution it embraced nearly all of the present co. of Sullivan. About 1750 a number of German families settled upon the w. frontiers of Ulster co. They suffered greatly from Indian hostilities. The first Indian incursion took place in 1777, when the family of Mr. Sprague, in Mamakating, was attacked. The next year the family of Mr. Brooks was attacked, some members were killed, and others taken prisoners.

On the 13th of Oct. 1778, a party of nearly a hundred tories and Indians, under Brant, invaded the settlements, first falling upon the family of Mr. Westfall, and killing one man. attacked the house of Mr. Swartwout, who was at home with his sons, (the women having been previously removed to a fort,) and killed all but one, who escaped. The firing alarmed others, who fled to the forts at Gumars and De Witts, where, by a skillful display of force by Capt. Abraham Cuddeback, who commanded at the former, the enemy were deterred from making an attack.

1 By the act of incorporation the Gov. and council were to appoint 3 commissioners to locate the county seat, and the Board of Supervisors 3 others to superintend the erection of the courthouse and jail. Wm. Ross, Jos. Morrell, and Abraham II. Schenck were appointed for the former purpose, and David Hammond, John Lindsley, Malachi West, John Newkirk, and Davies Martin successively for the latter.

2 The first buildings, erected in accordance with an act passed

2 The first buildings, erected in accordance with an act passed March 22, 1811, were burned Jan. 13, 1844. The first court was held, and the first Board of Supervisors organized, at the house of Curtis Linsley. The county officers first appointed were Wm. A. Thompson, First Judge; Samuel F. Jones and Elnathan Sears, Associate Judges; John Conklin, Jabez Wakeman, and David Hanmond, Assistant Justices; James S. Dunning, Surregate; Uriah Lockwood, Sheriff; and John P. Jones, Clerk.
3 The Delaware & Hudson Canal Co. was incorp. April 23, 1523. The work was commenced in July, 1825, and completed in Oct. 1828. It was of great importance to the early settlers of the co., as it opened an easy and cheap avenue to market.

This R.R. enters the co. in the town of Tusten from Penn It having been found difficult to construct the road on the N. Y. side of the river, the right of way for a short distance was solicited from Penn. The petition was granted, and for the sub-

stantial benefit which the R.R. conferred upon that State, the company was subjected to an annual tax of \$10,000. This road forms a direct and speedy communication with N.Y., and has been of great value to the co. in stimulating its settlement and

developing its resources.

5 The Sullivan County Wing was started at Bloomingburgh in 1821, by John J. Tappan. It was removed to Monticello in 1828, and its name changed to

The Republican Watchman. Frederick A. Devoe and James E. Winslow were successively its editors, and since 1843 it has been published by J. E. Quinlan. The Sullivan County Herald was commenced at Monticello in 1833, and published by M. Smith, S. Phelps, and others,

1833, and published by M. Smith, S. Phelps, and others, about 4 years.

The Sullivan County Whig was published at Bloomingburgh in 1844, by J. S. Brown, and subsequently by John Waller, Jr. In 1855 it was changed to the

Sullivan County Democratic Republican, under which title it is now published by Waller.

The Union Democrat was established at Monticello in 1854, by F. A. Devoe, and was afterward united with The Whig.

See Eager's Hist. Orange Co., p. 50, where will be found a letter from Samuel Preston giving the substance of the tradition. It is from Hazard's Register. tion. It is from Hazard's Register.

After firing most of the houses and barns of the settlement, the marauders retired, leaving behind them a melancholy scene of havoc and desolation at the verge of an inclement winter. The distrees thus occasioned was very great. Major Phillips arrived soon after the incursion with a company of militia; but the enemy had fled beyond reach.

In 1777 or '78, Capt. Graham, with a party of 18 men, went to Chestnut Brook in pursuit of some Indians who had been committing depredations upon the settlements at Pine Bush. Having stopped to drink, Capt. Graham saw an Indian in the path, and the party fired a volley without effect. Upon this the Indians on the opposite banks returned the fire with fatal effect, and but 3 of the party escaped to tell the dismal tale. To deprive the enemy of sustenance and the means for further annoyance, the Legislature, in 1779, enacted a law directing the Governor to cause the destruction of such grain and crops in the w. frontiers of Orange and Ulster cos. as could not be removed to a place of safety. In 17832 the precinct of "Mamacotting" and the township of Rochester (the district of the regiment of Col. A. Hawke Hay, and that part of the Goshen regiment on the w. side of the Minisink Mts.) were exempted from a levy then made for the defense of the N. and W. frontiers.3

Several traces of Indian occupation were found in the first settlement of the co. About 4 mi. from the Delaware, on the Flat, was found a brass or copper tomahawk, with a steel edge, and u handle perforated for smoking. Stone axes, flint arrows, &c. were frequently found. In 1793, an Indian living in Rockland, at a place called "Pocatocton," (meaning a river almost spent,) removed to Niagara. He is supposed to have been the last of his race that inhabited the co. Indian trails were found along the Delaware, the Beaver Kil, and in other sections.

The part of this co. s. of the s. bounds of Callicoon and Bethel is comprised in the Neversink Patent, conveyed to Matthew Ling and others Aug. 28, 1704; and the remainder of the co. in the great tract granted to Johannes Hardenbergh and others April 20, 1708, and known as the "Hardenbergh Patent." The Newburgh and Cochecton Turnpike (incorp. March 20, 1801) was opened across the co. in 1808, and gave the first impulse to its prosperity by making it accessible to This section continued to receive emigrants from New England and the older portions of the State until its growth was checked by the completion of the Erie Canal to the Genesee country and the great lakes, by which emigration was diverted to the new and fertile lands of the West. Real estate in consequence declined materially in value, and many of the early settlers abandoned their locations and joined the westward current. In 1819 or '20 the Orange Branch Turnpike was made, from Montgomery, (Orange co.,) crossing the Shawangunk Mt. at Roses Gap, and extending across the barrens through Wakemans Settlement to the Neversink Falls, and thence to Liberty. The charter of this road was long since given up, but the route is maintained as a district road.

BETHEL—was formed from Lumberland, March 27, 1809. Cochecton was taken off in 1828 It lies upon the high ridges which form the watershed between Delaware and Mongaup Rivers, a little s. w. of the center of the co. Its surface is broken and hilly, and many of the declivities are steep and rocky. It is watered by a large number of small streams, mostly tributary to Mongaup River; and it has many small lakes, which form a beautiful and romantic feature of the land-White Lake, near the center,—named from its white sandy shores and bottom,—is noted for the beauty of its seenery.<sup>5</sup> The other principal lakes are Birch Ridge Pond in the N. w., Horse Shoe and Pleasant Ponds in the N., Mallory Pond in the w., Indian Field Pond in the s., Big and Wells Ponds on the s. line, and Chestnut Ridge Pond and Black Lake and Lake Superior near the center. The soil is a sandy and gravelly loam, intermixed in places with clay. The settlements are comparatively new, and the people are chiefly engaged in the raising of neat cattle, dairying, lumbering, and tanning.6 Mongaup Valley (p.v.) contains 35 houses, and Bethel 15. Bushville and White Lake are p. offices. John Fuller was the first settler in the "Fuller Settlement," in 1806-07.7 The first preacher (Presb.) was the Rev. Mr. Green.8

<sup>&</sup>lt;sup>2</sup> February 21. 8 Incidents connected with these events, and the details of the

<sup>8</sup> Incidents connected with these events, and the details of the memorable battle of Minisink in July, 1779, are given in our account of the towns in which they occurred.
4 Portions of the Hardenbergh Patent were settled upon leases of long term; and during the anti rent excitement, a few years since, the clamor against this tenure prevailed extensively, but without acts of open violence. The refusal to pay rents, which this feeling occasioned, led to a great amount of litigation.
Although the excitement has subsided the question is not fully Although the excitement has subsided, the question is not fully

settled.

<sup>b</sup> This lake is noticed in one of the poems of Alfred B. Street,

by the name of "Kon-ne-on-ga."

6 A tannery at Mongaup Valley in 1856 manufactured 50,000

sides of leather, valued at \$187,000. It consumed about 5000 cords of hemlock bark, and employed 70 men, at a cost of \$12,000. There are about 102,000 sides of leather manufactured annually at different tanneries in this town.

annually at different tanneries in this town.

7 G. and C. Hurd were the first settlers at the Hurd settlement; Adam and Eve Pentler near Bothel; and Potter and Mattison near White Lake. The first school at Mongaup was tanght by G. P. Price, and at Bethel by Dr. Copeland. Gillespie & Hook kept the first store at White Lake, and J. K. Beeman built the first saw and grist mill, on White Lake outlet. The first birth was that of Catharine Fuller, in 1807, and the first death that of a child of Stephen Northrum.

death that of a child of Stephen Northrup.

8 The census reports 4 churches; 2 M. E., Presb., and Rof.

CALLICOON<sup>1</sup>—was formed from Liberty, March 30, 1842. Fremont was taken off in 1851. It lies in the w. part of the co., about the sources of the N. branch of Callicoon Creek. It is watered by numerous streams flowing into the Delaware, the valleys being mostly narrow ravines, and the hills rising in steep declivities 200 to 600 feet above them. In the N.E. are Shandler and Sand Ponds, the latter affording a pure white sand, formerly used in making glass. The soil is mostly a sandy loam, and the hillsides and summits are generally capable of a good degree of cultivation. The settlement is recent, and the people are about equally engaged in lumbering, farming, and tanning.2 Jeffersonville, (p.v.,) on the line of Cochecton, has population of 433, of whom 305 are in this town. Youngsville, (p.v.,) North Branch, (p.v.,) and Callicoon Center (Callicoon p.o.) have each about 30 houses. The first settlers were Wm. Wood and his sons, Gerrett, Edward, and David, who arrived in town May 19, 1814, and lived 15 years in the wilderness.3 Rev. Mr. McClary, pastor of the Asso. Ref. church of Bethel, was the first preacher.4

COCHECTON<sup>5</sup> -was formed from Bethel, March 25, 1828. It is situated upon the bank of the Delaware, in the w. part of the co. Ridges of hills, with narrow valleys between, cover the entire surface of the town. The principal streams are the Callicoon and its branches, and several small tributaries of the Delaware. The mouth of the Callicoon is 777 feet above tide. Pike Pond in the E., Perry Pond in the s., and Mitchells Pond and Lake Huntington in the center, are the principal sheets of water. A large part of the surface is still covered with forests. The soil is mostly a gravelly loam, and best adapted to pasturage. Lumbering and tanning form the leading objects of industry. Cochecton (p.v.) contains 269 inhabitants, Pike Pond (p.v.) 188, Callicoon Depot (p. v.) 207, and Stevensburgh (Cochecton p. o.) 209. Beech Wood and Fosterdale are p. offices. Settlements were begun on the Delaware before the Revolution, but were broken up. The pioneer settler was N. Mitchell, who located near Cochecton Village.6 The first church (Presb.) was formed in 1839, and the Rev. Mr. Cummings was the first pastor.7

FALLSBURGH—was formed from Thompson and Neversink, March 9, 1826. It derives its name from the falls in Neversink River at Fallsburgh Village. Its surface is hilly and rolling. It is drained by the Neversink and its branches. Sheldrake Pond, (named from the wild ducks that formerly frequented its waters,) Smith, Hill, and Browns Ponds in the w., and East Pond, in the E., are the principal lakes. The soil is a gravelly loam. The people are chiefly engaged in lumbering, dairying, and tanning.8 Woodbourne (p.v.) contains 30 houses, Neversink Falls (Fallsburgh p. o.) 25, Hasbrouck (p. v.) 25, Loch Sheldrake (p. v.) 15, and Sandburgh (p. v.) 15. It is said that settlement was commenced in this town by Germans previous to the Revolution,9 but the settlers were driven off during that war. Soon after the peace 3 brothers by the name of Baker located in town and commenced the first permanent settlement. 10 The first church (Ref. Prot. D.) was built at Hasbrouck. 11

FORESTBURGH-was formed from Thompson and Mamakating, May 2, 1837. It lies principally upon the high ridges between Neversink and Mongaup Rivers, and has a broken surface and an average elevation of 1400 feet above tide. In this town are several small lakes, the principal of which are Ruddicks Pond in the N. W., Beaver Pond in the s., and Panther Pond in the center. The town still retains the character implied by its name. Mongaup Falls, on Mongaup River, 3 mi. above Forestburgh Village, are worthy of note. The river here falls into a chasm 70 feet deep, and the banks below the falls are more than 100 feet high. Lumbering, tan-

about 123,000 states of leather annually.

3 Edward was a cooper; the others were farmers. The first child born was John Wood. Jacob Quick built the first sawmill, and Samuel Young kept the first store and built the first mill, at Youngsville. In 1833-34 settlers began to come in from Conn. and the N.; and in 1840 Germans began to settle in the town in considerable numbers. The latter class now form about

one-third of the population.

The census reports 2 churches; Luth., Asso. Ger. Meth.
Co-shek-tun. Originally called "Cush-nun-tunk," or

of Co-shek-tun. Originally called \*\*Constructure," of the grounds.
of Among the other early settlers were David Young, at Big was at Napano Island; John Ross, at Callicoon Creek; Nicholas Conklin and — Tyler, at Cochecton. Job Jones taught the first school, narete was N. Tyler, at Cochecton, Maj. Ebenezer Taylor kept the first tavern and store, at Cochecton; and Mitchell Conklin built the first sawmill, on Mitchells Pond Brook. On Big Island, 2 mi. above Cochecton, 1 Ref. Prot. D.

was an extensive Indian burial place, of which traces are occa sionally plowed up at the present day. There are about 900 Germans in this town.

7 The census reports 3 churches; M. E., Presb., and Ref. Prot.D. 8 At Fallsburgh is an extensive tannery, that manufactures 40,000 sides of leather annually; and another of the same size is located at Woodbourne.

9 Fruit trees planted by these settlers are said to be still standing.

10 Thomas Rawson came in 1787 or '88; Thomas Grant located <sup>10</sup> Thomas Rawson came in 1787 or '88; Thomas Grant located in 1789; Samuel Thaddeus, Obadiah Brown, and James Hill settled a little N. of Fallsburgh, and James Nicoll, Peter Ferdon, and Mr. Brush on the site of the village. The first sawmill was built in 1808, and the first grist mill in 1809, by Philo Ruggles. Matthew Seeley kept the first store, at Hasbrouck, and Robt, Reading the first store, at Fallsburgh. In 1797, the nearest mill was at Napanck, in Ulster co.; and for many years the nearest market was Newburgh. In 1786 or '87 an extraordinary and destructive flood occurred npon this valley.
<sup>11</sup> This chnrch was burned in 1837, and was rebuilt at Woodbourne. The census reports 3 churches in town; 2 M. E., and

The census reports 3 churches in town; 2 M. E., and

<sup>1</sup> Caw-li-coon. This name is said to signify "Turkey" in both utch and Indian. The Dutch for turkey is "Kalkoen." In the Dutch and Indian. The Dutch for turkey is "Kalkoen." In the statutes and official publications of the State the name is commonly written "Collikoon."—Harper's N.Y.&E. R.R.Guide, p. 84.

2 There are 5 large tanneries in town, which manufacture about 125,000 sides of leather annually.

ning, and dairying constitute the employments of the people. Forestburgh (p. o.) contains 10 houses, Oaklandville 15, and Hartwood 10. Settlement commenced before the Revolution, and recommenced in 1795 on Mongaup River. Zephaniah and Luther Drake were pioneers in the s. w. part of the town, and Elisha Smith near Oakland. Rev. Isaac Thomas (Meth.) was the first preacher.3

FREMONT-was formed from Callicoon, Nov. 1, 1851, and named in honor of John C. Fremont. It lies in the extreme w. part of the co., upon the bank of the Delaware. Its surface is broken and hilly, the summits rising 600 to 1000 feet above the valley and 1500 to 1800 feet above tide. Its waters are Basket and Hankins Creeks, a great number of smaller streams, and numerous small lakes, the principal of which are Long Pond, Round and Basket Ponds in the N., Lox Pond in the E., and Trout Pond near the center. A large share of the surface is still a wilderness and is too rough for tillage. Tanning and lumbering form the principal employments of the people. Fremont Center (p.v.) contains 141 inhabitants, and Obernburgh (Fremont p.o.) 20 houses. Long Eddy (p.o.) is the Basket Station on the N. Y. & E. R. R. Hankins is a station on the same R. R. The first settlers were Joseph Green, at Long Eddy, John Hankins, at Hankins Depot, Benj. Misner, at Long Pond, and Zach. Ferdon, at Round Pond.<sup>4</sup>

HIGHLAND—was formed from Lumberland, Dec. 17, 1853. It is an interior town, lying in the s. part of the co. It is named from the character of its surface, which consists of high ridges between Delaware and Mongaup Rivers, 600 to 1,000 feet above the canal at Barryville and 1,200 to 1,600 feet above tide. There are a great number of small lakes in town, the principal of which are Big Pond and Wells Pond on the N. line, Mud and Hagan Ponds in the E., York Pond in the s. w., Washington Pond, used as a canal feeder, and Blind, Little, and Montgomery Ponds near the center. The people are chiefly engaged in lumbering and the rudiments of farming. Barryville, (p. v.,) a canal village, contains 25 houses, and Lumberland (p. v.) 15. The first settler was John Barnes, who located at Narrow Falls.<sup>5</sup> Rev. Isaac Sargent (Cong.) was the first preacher, about 1797.6 The battle of Neversink, in the Revolution, took place within the limits of this town.7

LIBERTY-was formed from Lumberland, March 13, 1807, and Callicoon and a part of Thompson were taken off in 1842. It lies N. of the center of the co., upon the watershed between the Mongaup and Beaver Kil. Its surface is rough and broken. Walnut Hill, s. of Liberty, is 1,980, and Libertyville 1,467, feet above tide. The N. and W. parts of the town are still covered with forests. The principal sheets of water are Lillie Pond in the N., and Broadhead Pond near the center. The soil is good, but stony; and the people are chiefly engaged in lumbering, dairying, and tanning.8 Liberty (p. v.) contains 364 inhabitants, Parksville (p. v.) 40 houses, and Liberty Falls (p. v.) 25. Robertsonville and Stevensville are p. offices. The Liberty Normal Institute, at Liberty, is a flourishing academic institution.9 Stephen Russell (from Conn.) settled near Liberty, in 1793 or '94.10 Rev. Wm. Randall (Bap.) was the first preacher.11

LUMBERLAND-was formed from Mamakating, March 16, 1798, embracing all the ec. w. of Mongaup River and s. of the present N. lines of Liberty and Callicoon. From it were erected Liberty in 1807, Bethel in 1809, and Highland and Tusten in 1853. Its surface is rugged and

<sup>2</sup> Miss Moore taught the first school, at Drakestown; S. Co-nant kept the first inn, and Thomas Alsop the first store, at Foresthurgh. The first sawmill was built at Oaklandville.

<sup>8</sup> There are no church huildings in town.
4 Sarah Phillips taught the first school; John Ranfiesen kept the first inn, and John Hawkins kept the first store and built the first sawnill. About one-third of the population are Germans. The census reports I church; R.C.

mans. The census reports I church; R.C.

5 Among the other first settlers were John Carpenter, Wm. Seeley, N. Patterson, and Wm. Randall, at Beaver Brook; and Benj, Hayne at Handsome Eddy. John Carpenter employed Nath'l Wheeler to teach the first school, before the public schools were organized. G. Ferguson kept the first iun, in 1830, and Phineas Terry the first store, in 1828. N. Patterson built the first sawmill, on Beaver Brook.

5 The census reports 3 churches; Cong., M. E., Union.

7 This battle took place on the N. side of Beaver Brook, on lot 17 of the 7th div. of the Neversink Patent. The scene of the action is the top of a hill 3 miles from Barryville and half a mile N.W. from Dry Brook. The battle took place hetween a

mile N.w. from Dry Brook. The battle took place between a party of tories and Indians, under Brant,—who were retreating, after having destroyed the settlement of Nevers'nk,—and a party of American militia, who pursued them. The battle was

<sup>1</sup> About 100,000 sides of leather are annually manufactured in his town.
2 Miss Moore taught the first school, at Drakestown; S. Cocollected and interred beneath a monument at Goshen. An address was delivered on the occasion by Gen. Hathern, who had taken a leading part in the engagement.

<sup>8</sup> About 106,000 sides of leather are annually manufactured in this town.

<sup>9</sup> Incorp. by law, April 12, 1848; the Hon. John D. Watkins, the founder, being sole corporator.

10 Among the other first settlers were Nathaniel Pinney, Josiah

Whipple, and Nathan Staunton, who came from Preston, Conn., in the spring of 1795, and settled on lot 12; John Groton and Edward Swan, who settled on lot 3; Ebenezer Green, on lot 4; Isaiah Whipple, on lot 10, of tract known as the 3000 acre lot; and Isaiah Whipple, on lot 10, of tract known as the 3000 acre lot; and Stephen Benton, who located at Benton Hollow. Aviar Whipple taught the first school, at Blue Mountain Settlement; Roswell Russell kept the first inn, Stephen Russell the first store; and Chas. Broadhead built the first grist and saw mill, on the mountain, in 1797. The first child born was Sally Staunton, in 1797, the first marriage, that of David Rowland and Aviar Whipple, in 1797, and the first death, that of Sally Staunton, or a son of William Aby, in 1798. The first house was erected about half a mile s. of where the Presb. ch. now stands. Most of the first settlers afterward removed west. afterward removed west 11 The census reports 4 churches; 1 Bap., 2 M. E., and 1 Presb.

broken, and much of it is yet a wilderness. The name of the town still suggests the leading pursuit of the people. A large number of small lakes, with their outlets, form the principal waters. The principal of these lakes are Lebanon Pond in the N., Round, Sand, and Hogais Ponds in the W., and Long Pond in the center. Metauques Pond, in the E., lies about 2 mi. w. of the Mongaup, and 300 feet above it. On its outlet is a beautiful cascade. Mongaup and Pond Eddy are p. offices. There is but one church, (M. E.) The Delaware & Hudson Canal extends through the town along the course of the river. It is supposed that settlement was commenced before the Revolution; but the names of the first settlers are not preserved. In the survey of the Minisink Patent by Charles Webb in 1762, mention is made of "Reeve's Sawmill."<sup>2</sup>

MAMAKATING, said to have been named in honor of an Indian chief, was erected into a precinct by the General Assembly, Dec. 17, 1743, and embraced all the present territory of Sullivan co. and a portion of Orange. It continued as a precinct until organized as a town, March 7, 1788. It was reduced to its present limits by the erection of Deerpark (Orange co.) and Lumberland in 1798, Thompson in 1803, and a part of Forestburgh in 1837. It lies upon the highlands between Neversink and Shawangunk Creeks. Two parallel ridges, separated by the valley of Bashers Kil, extend through the town in a N. E. and s. w. direction. The eastern of these ridges is known as Shawangunk Mt. The declivities of this mountain are gentle upon the E., but abrupt and broken on the w. It attains an elevation of 1100 feet above the summit level of the canal, and about 1700 feet above tide. In the N.W. part of the town is a mountain of nearly equal elevation, known as Panther Hill. The principal streams are Shawangunk, Bashers, and Pine Kils, the last of which is the outlet of a small lake in the w. part of the town, known as Yankee Pond. The summit level of the Delaware & Hudson Canal, 17 mi. long and 525 feet above tide, is constructed through the valley of Bashers Kil. Masten Pond, in the w. part, is used as a reservoir. About 2 mi, N. of Wurtzboro a vein of lead was discovered several years since, and was worked to a considerable extent. After an abandonment of several years, preparations are again being made to work it. The soil is a sand and gravel loam, in some places intermixed with clay, and best adapted to pasturage. The census of 1855 shows that this town is second only to Thompson in the amount of dairy products. Bloomingburgh' (p. v.) contains 365 inhabitants, and Wurtzboro<sup>5</sup> (p. v.) 491, Summitville (Mamakating p. o.) 20 houses, and Phillipsport (p. o.) 10; the three last named lie upon the canal. Burlingham (p. v.) contains 130 inhabitants. West Brookville (p. o.) is a hamlet, and Homowack is a p. o. The early settlement of this town has already been noticed,6 but most of the details have been lost. On the approach of the Revolution the Indians became hostile, and several blockhouses were erected on the frontiers of Ulster co., one of which was at Wurtzboro. On account of the distressed condition of the people by reason of Indian hostilities, they were favored by the supervisors in the apportionment of taxes. Many persons in those days accounted wealthy were reduced to poverty, and but little that could be destroyed remained on the return of peace. Gonzales, the pioneer settler, is said to have built the first sawmill, at Wurtzboro. In 1792 this town contained 182 taxable persons, of whom 34 were in the present towns of Lumberland, Tusten, and Highland. In 1794, Capt. David Dorrance removed from Windham, Conn., and purchased 1000 acres immediately s. of the site of Wurtzboro. John Dorrance, with Elijah Perry, also from Conn., erected the first bark mill in Sullivan co. Rev. Mr. Freleigh was the first pastor of the Ref. Prot. D. Church, built in 1793.8

NEVERSINK9—was formed from Rochester, (Ulster co.,) March 16, 1798. Rockland and a part of Shandaken were taken off in 1809, and a part of Fallsburgh in 1826. The surface

<sup>1</sup> Among the early settlers since the Revolution were John Showers and Joshua Knight, at Mongaup. S. Gardner and Elmathan Corey, at Pond Eddy. P. Van Vanken, above Mongaup, and John Rinck and Wm. Ryarson, in other parts of the town. The first school was kept in a barn by Mr. Farnham; the first inn was kept by E. Corey, at Pond Eddy.

2 Mr. Webb lived at Otisville, (Orange co.,) and died at an advanced see in 1811

This road opened a communication from the Hollow to the Delaware River, a distance of about 33 mi. A portion of it is still in use, but the greater part was taken up by the Newburgh & Cochecton Turnpike. The village of Wurtzboro is built upon a tract of 1000 acres bought by Johannes Masten, who cleared The first school was kept in a barn by Mr. Farnham; the first inn was kept by E. Corey, at Pond Eddy.

2 Mr. Webb lived at Otisville, (Orange co.,) and died at an advanced age in 1814.

3 Written Mame Kating, Mame-Cotink, &c. in early records.

4 This village was settled by J. Newkirk, about 1780, and was incorp. April 26, 1833. It contains 3 clurches, 4 hotels, and 5 stores.

5 Named from Maurice Wurtz, grantee of a canal privilege in Penn., afterward merged in Del. and Iludson Canal Co.

6 See page 642.

7 A road was constructed at an early day, by Ananias Sacket, from Mamakating westward, passing about three-fourths of a mi. 8 of Lords Pond, and continuing to Nathan Kinne's Flats, from Mankating westward, passing about three-fourths of a mi. 8 of Lords Pond, and continuing to Nathan Kinne's Flats, from which place Capt. Dorrance made a road to Coclecton for £5 per

is very hilly and to a considerable degree covered with forests. It is watered by the Neversink and its branches, and by the Lackawack, or w. branch of the Rondout, which flows to the Hudson. Denman Hill, 3300 feet, and Thunder Hill, 2500, above tide, are the principal elevations: the latter received its name from the fact that one of the early settlers was frightened away from the place by loud thunder. The soil is generally a gravelly loam, and best adapted to pasturage. The people are chiefly engaged in lumbering, tanning, and dairying. Grahamsville (p. v.) contains 40 houses, Neversink Flats (Neversink p.o.) 35, and Claryville (p.v.) 30. The first settlement was commenced on the Lackawack, 2 mi. below Grahamsville, by the Hornbecks, Clines, Clearwaters, and Lowes, who obtained an Indian title in 1743, and were driven off during the Revolution. Mr. Larrabee, on Thunder Hill, and Benj. Gillett, John Hall, and Wm. Parks, on the 1000 acre lot, were the pioneer settlers after the war.3 The first church (Meth.) was located at Grahamsville; and the first preacher was Rev. Samuel M. Knapp.4

ROCKLAND—was formed from Neversink, March 29, 1809. It lies upon the headwaters of the Pepacton, or E. branch of the Delaware, in the extreme N. part of the co. It is a rough, wild region, very hilly and mostly covered with forests. Its principal streams are Beaver Kil and Williwemack Creek. A chain of small lakes extends through the town, the principal of which are Upper, Mongaup, and Hodge Ponds in the E., Big and North Ponds in the s.E., Shaw Pond in the s., Burnt Hill and Jenkins Ponds in the w., and Sand, Mud, and Knapp Ponds in the center. Lumbering, farming, and tanning<sup>5</sup> are the principal pursuits of the people. Westfield Flats (Rockland p.o.) contains 28 houses, and Morsston (p.v.) about 12. Beaver Kill, Purvis, and Shin Creek are p. offices. Settlement was begun in 1789, by two families named Stewart and West, from Middletown, Conn.; they located near the middle of the Big Beaver Kil Flat.6 Rev. Mr. Conkey (Meth.) was the first preacher.

THOMPSON—was formed from Mamakating, March 9, 1803, and named in honor of Wm. A. Thompson, first judge of the co. A part of Fallsburgh was taken off in 1826, and a part of Forestburgh in 1837. It lies principally upon the highlands between Neversink and Mongaup Rivers, and is less hilly than most of the towns of the co. The hills rise 100 to 300 feet above Monticello. Neversink and Mongaup Rivers, with several small lakes and streams, constitute the waters of the town. Kiamesha, or "Clearwater," better known as Pleasant Pond, is a beautiful little lake near Monticello. The other principal ponds are Dutch in the N.E., Lords and Mud in the E., Wolf in the s. E., and Sackets (named from Ananias Sacket, an early settler near it) in the s. w. The quiet scenery of these lakes is becoming appreciated by the lovers of nature and those seeking a retreat from the heat and dust of cities in summer. The soil is a reddish loam. The people are principally engaged in stock raising, lumbering, and tanning.8 Monticello, 9 (p. v., ) the principal village, was incorp. April 20, 1830. Pop. 629. It is beautifully situated upon a ridge of highlands 1387 feet above tide, and is surrounded by hills. It is finely laid out, the main street being 1 mi. long and 8 rods wide, with flagged walks and ornamented with shade trees. It contains a courthouse, jail, co. clerk's and surrogate offices, and a banking house, all of stone; 3 churches, the Monticello Academy, 3 hotels, 10 stores, 3 printing offices, and an iron foundery. Thompsonville (p. v.) and Bridgeville (p. v.) each contain about a dozen houses. Gales and Glen Wild are p. offices. The first settlers were Wm. A. Thompson, John Knapp, and Timothy Childs, at Thompsonville.10 Rev. John Boyd (Presb.) was the first preacher.<sup>11</sup>

TUSTEN—was formed from Lumberland, Dec. 17, 1853, and was named in honor of Col.

others to be so named because the stream is less affected by | Sylvanus Bascom taught the first school, at Westfield Flats;

drought than others.

1 About 95,000 sides of leather are manufactured each year.

2 Named in honor of Lieut. Graham, who was killed in a skirmish with the Indians near the present site of the village.

3 The first child born was Elijah Parks. Christopher Darrow taught the first school; Mr. Larrabee kept the first inn, on Thunder Ilil; Richard Childs kept the first store; and Wm. Parks built the first gristmill, 3 mi. s. z. of the Flats. There are no town records earlier than 1814.

4 The census reports 5 churches; 3 M. E., 2 Ref. Prot. D.

5 One of the most extensive tanneries in the State is in the w. part of the town. About 170,000 sides of leather are manu-

or of the most extensive taineries in the state is in the war part of the town. About 170,000 sides of leather are manufactured each year in town.

or Another account says the first settlers were Robert Cochran, Jehiel and Luther Stewart. In the following year, Peter Williams and Cornelius Cochran came in from Mass. Mr. Bascom settled 1 mi. w. of Purvis p. office, and Thomas Nott and James Overton 1 mi. s. of the same. The first child born was Susan Thorn; the first marriage was that of Ebenezer White and Cla-rissa Field; and the first death was that of Sylvanus Stewart.

Jehiel Stewart kept the first inn, Mr. Loveland the first store and Luther Stewart built the first mill, at Westfield Flats. The settlers are said to have obtained their first seed corn from the

Indians on the Susquehanna Flats, and this stock has been continued till the present time. The lumber trade began in 1798.

The census reports 3 churches; M. E., Presb., and Union.

About 35,000 sides of leather are manufactured annually.

Named by J. P. Jones, from the residence of Thos. Jefferson.

Named by J. P. Jones, from the residence of Thos. Jefferson. The first settlement of this village was made in 1804, by Samuel F. and John P. Jones, from New Lebanon, (Columbia co.,) who located at this place in anticipation of its becoming the co. seat of a new co, to be erected from Ulster. J. P. Jones erected the first house, in 1804, and opened the first store; Curtis Linsley kept the first inn.

house, in 1007, and op. 1.

10 A. Sacket and A. D. Kinne were the first settlers in the w., part of the town, and John Wetherlow and John Simson on the Neversink. As a Hall kept the first school, at Bridgeville; Judge Thompson built the first mill and factory, at Thompsonville. If The census reports 4 churches; M. E., Presb., Prot. E., and

Benjamin Tusten, who was killed in the battle of Minisink, in 1779.¹ This town lies upon the N bank of Delaware River. The w. and s. parts are very hilly, and the E. portions belong to the plateau of rolling lands which comprises the greater part of Tusten, Highland, and Lumberland. The average height of this region is about 750 feet above the Delaware, or 1400 feet above tide. The principal streams are Ten Mile River and its branches: Half Moon and Mill Ponds in the E., and Mill, Davis, and Canfield Ponds in the center, are the principal sheets of water. The soil is a gravelly loam, and best adapted to pasturage. The people are generally engaged in farming and lumbering. Narrowsburgh, (p. v.,) containing about 35 houses, is the only village. It derives its name from the fact that the Delaware is here compressed by two points of rock into a deep, narrow channel. Over this is a wooden bridge, with a single span of 184 feet.² The place is known to lumbermen by the name of "Big Eddy." Below the narrows the river expands into a wide basin, which in time of a freshet exhibits a stirring scene. Delaware Bridge and Beaver Brook are p. offices. John Moore kept the first inn and store, and R. Moore built the first mill. The Baptist is the only church in town.

Acres of Land, Valuation, Population, Dwellings, Families, Freeholders, Schools, Live Stock, Agricultural Products, and Domestic Manufactures, of Sullivan County.

2 The "Narrowsburgh Bridge Co." was incorp. April 5, 1810, | with a capital of \$5,000. The bridge was to be 25 feet wide, well covered with plank, and secured by railings.

### TIOGA COUNTY.

This county was formed from Montgomery, Feb. 16, 1791. A part of Chenango was taken off in 1798; Broome in 1806; a part of Tompkins in 1822; and Chemung in 1836. It lies near the center of the s. border of the State, centrally distant 135 mi. from Albany, and contains 542 sq. mi. Its surface is broken by a series of ridges extending northerly through the co. from the Penn. line and forming a northerly continuation of the Allegany Mts. The summits of these ridges have a nearly uniform elevation of 1,200 to 1,400 ft. above tide. The valley of the Susquehanna cuts them diagonally and breaks the continuity of the general system of highlands. Numerous lateral valleys extend in a general N. and s. direction from the river, separating the ridges and giving a great variety to

the surface. These valleys vary in width from a few rods to a mile and sometimes more, and are generally bordered by steep declivities which rise 250 to 400 ft. above them. The summits of the

hills are generally broad and rolling, and in some places are broken and rocky.

The rocks of this co. belong to the Chemung and Catskill groups. The former occupies all the surface N. of the river and forms the underlying rock of the hills s., and the latter crowns all the summits s. of the river. The sandstone of the Chemung group is quarried for flagging; and some of the red sandstone is sufficiently compact to make good building stone. Limestone, from which lime is manufactured, is found along the Penn. border. There are no other minerals of importance. The river valleys, and many of the hills adjoining, are covered deep with drift, consisting of sand, clay, and gravel. This deposit near Factoryville is 80 ft. thick, and a wide belt of it seems to extend northerly in an almost unbroken line from the latter place to Cayuga Lake. The principal streams are Susquehanna River, and Owego, Catatunk, Cayuta, Pipe, and Apalachin Creeks and their branches. These creeks have generally rapid currents, though few waterfalls; and they furnish all necessary water-power for local purposes. Their valleys are usually narrow and rocky in their upper courses, but toward the Susquehanna they expand into broad and beautiful level intervales. The valleys of the Susquehanna and several of its tributaries are celebrated for their beauty.

The soil along the valleys is a rich, deep, gravelly loam, with an occasional intermixture of clay and sand. The intervales along the Susquehanna are especially noted for their fertility. The uplands are gravelly and sandy and moderately fertile. Upon the summits the soil is hard and unproductive, and in many places the rocks are entirely bare. A considerable portion of the uplands is still covered with forests.

The prominent interest of the co. is agricultural, and its various branches are successfully pursued. Winter and spring grains, corn, and the root crops, are mostly cultivated on the lowlands or river bottoms, and the uplands are devoted to stock and wool growing and dairying. Considerable commercial interest has grown up in connection with the rail roads, and manufactures have also been established to a limited extent.1

The county seat is located at Owego, upon the Susquehanna.2 The courthouse, a wooden structure, was erected about 40 years since, at a cost of \$8,000. It is in a good state of preservation. The jail, jailor's house, and barn, all of brick, were built in 1851, at a cost of about \$6,000. The jail contains 8 double cells. The clerk's office is a fireproof brick building, erected in 1858, at a cost of \$2,200. The courthouse, clerk's office, jail, jailor's house, and barn occupy a square in the center of the village.

1 A large lumber and tanning husiness was formerly carried in the courts of the court of the scarcity of material.

2 By the organic act of 1791, Tioga was formed a half-shire onty. It provided that the courts should be held alternately the "Chenango," in the town of Union, and at "Newtown Point," at the town of Chenango, in the town of Union, and at "Newtown Point," at the town of Chenang, the former now Binghamton. Broome o., and the latter Elmira, Chemung, co. The half-shire was bulled upon the organization of Broome co. in 1806; Feb. 17, 1810, Nathaniel Locke, Anson Cary, and Samuel Campbell reverse appointed commissioners to locate the courthouse site, and oshina Ferris. Isaac Swartwont, and Samnel Westbrook to prefrinted the erection of the building; and in 1811-12 the county clerk; James McMasters, Sheriff; and John Mersercau, ounty was removed from Elmira to Spencer Villago. June Surrogate. Surrogate.

on; but it has declined, from the scarcity of material.

2 By the organic act of 1791, Tioga was formed a half-shire county. 1t provided that the courts should be held alternately at "Chenango," in the town of Union, and at "Newtown Point," in the town of Chenning, the former now Binghamton. Broome in the town of Cheming, the former how Binghamton, Broome co. and the latter Elmira, Cheming co. The half-shire was abolished upon the organization of Broome co. in 1806; Feb. 17, 1810, Nathaniel Locke, Anson Cary, and Samuel Campbell were appointed commissioners to locate the courthouse site, and Joshna Ferris. Isaac Swartwout, and Samuel Westbrook to superintend the erection of the building; and in 1811-12 the county seat was removed from Elmira to Spencer Village. June

The county poorhouse, a stone building, is located near Owego, upon a farm of 62 acres, which yields an annual income of \$600. The average number of inmates is 62, and the whole number of rooms for their accommodation is 15. No school is connected with the establishment, and no means are provided for religious instruction.

The principal works of internal improvement are the N. Y. & E. R. R., extending along the river valley through Owego, Tioga, and Barton; and the Cayuga & Susquehanna R. R., extending from Owego northward through Tioga and Candor to Ithaca. These roads furnish ample facilities for transportation, and bring the products of the county into close proximity to the Eastern markets.

Three weekly newspapers are now published in the co.2

The first settlement in this county was made upon the Susquehanna intervales, soon after the Revolution, by emigrants from the Wyoming Valley in Penn. These settlers originally came from Conn. and Mass., and left Wyoming in consequence of troubles growing out of the Indian hostilities and of controversies in regard to title. They located here before the Indian title to the lands was extinguished. The greater part of the present territory was comprised in the Boston Ten Towns. The title of this tract, comprising 230,400 acres between Chenango River and Owego Creek, was vested in the State of Mass. in 1786, and in 1787 it was sold to a company of 60 persons, mostly residents of that State. The greater part of the proprietors immediately took possession of these lands; and thus it happened that the county was filled up with a New England population while the fertile region of Western New York was yet an unbroken wilderness.

BARTON—was formed from Tioga, March 23, 1824. It lies w. of the Susquehanna, in the s. w. corner of the co. Its surface is generally hilly. A small portion of level land lies along the s. border. The highlands on the w. rise abruptly from the valley of Cayuta Creek, and are divided into two ridges by the valley of Ellis Creek. Their summits are broad and rolling and generally covered with forests. The highest points are 400 to 600 ft. above the river. The soil is a rich alluvium in the valleys and a sandy or gravelly loam upon the hills. A sulphur spring is found on Ellis Creek, near the center of the town. Waverly, (p. v.,) situated upon the Erie R. R., in the s. w. part of the town, was incorp. in 1854. It contains the Waverly Academy, 5 churches, and several manufactories. Pop. 1,067. Factoryville, (p. v., ) on Cayuta Creek, 1 mi. E. of Waverly, contains 180 inhabitants; and Barton, (p. v.,) near the s. E. corner, on the Susquehanna, 30 dwellings. North Barton is a p. o. Halsey Valley (p. o.) is a hamlet in the N. E. part, on the line of Tioga. The first settlement was begun by Ebenezer Ellis and Stephen Mills, who located in this district in the year 1791.3 There are 10 churches in town.4

BERKSHIRE-was formed from Tioga, Feb. 12, 1808. Newark was taken off in 1823, and Richford in 1831. It lies upon the E. border of the co., N. of the center. Its surface is mostly a hilly and broken upland, with a mean elevation of 1,200 to 1,400 ft. above tide. A high hill, with steep declivities, lies E. of the center of the town. The streams are the East and West Branches of Owego Creek and their tributaries. The soil in the valleys is a sandy and gravelly loam, and upon the hills it is a tough clay and hardpan. Berkshire (p.v.) contains 3 churches and 34 dwellings. East Berkshire and Wilson Creek are p. offices. The pioneer settlers of the town were Daniel Ball and Isaac Brown, who came in 1791.5 Rev. Seth Williston conducted the first religious services in town.6

This road cost \$500,000, and it was sold, in 1852, for \$4,500.
 The American Farmer was commenced at Owego in 1810 by Stephen Mack. In 1813 it was sold to Stephen B. Leonard, who changed its name to

The Owego Gazette, and continued it until 1835, when he sold to J. B. Shurtliff. In 1841 the office was burned, and the paper was discontinued a short time; but soon after it was respectived by E. P. Marble, and in 1843 it was sold to Thomas Woods. In 1844 it was changed to The Troga Freeman, John Dow, publisher, and in a few years

The Twoga Freeman, John Dow, publisher, and in a few years as discontinued. A local party dispute having arisen, another paper, called

The Owego Gazette, was started in 1844 by H. A. Beebe, and the two papers were published under the same name for several months. In 1845 Thomas Peasall became proprietor, and in 1846 the paper was sold to David Walter and son. In 1848 it again passed into the hands of H. A. Beebe, by whom it is still published.

The Republican was published 1 year at Owego in 1833 by

The Republican was published I year at Owego in 1833 by Chatterton.

The Overgo Advertiser was commenced in 1836 by Andrew H.
Calhoun, and was continued by him until 1852, when
he sold to Powell & Barnes, who changed its name to
The Southern Tier Times. In 1854 Wm. Smyth purchased the
establishment and changed the name of the paper to

The Owego Times, under which title he still continues

its publications its publication which there is san commenced at Waverly The Waverly Advocate was commenced at Waverly Village in 1852 by F. H. Baldwin. It is now published by Baldwin & Polley.

The St. Nicholas, a monthly literary magazine, was published

The St. Nicholas, a monthly literary magazine, was published about 1 year in 1853.

3 Among the other early settlers were Benj, Aikens, Ezekiel Williams, John Hanna, Wm. Bensley, Luke Saunders, James Swartwood, Charles Bingham. Layton Newell, Lyon C. Hedges, Philip Crans, Justice Lyon, John Manhart, Ste. Reed, and Silas Wolcott. A number of these were from the Wyoming Valley, and some of them from the adjoining towns of this co. George W. Buttson erected the first sawmill, at Barton Village.

4 5 M. E., 2 Bap, Prot. E., Cong. and R. C.

5 Among the first settlers were Stephen and Samuel Ball. Peter Wilson, and Josiah Ball. from Stockbridge, Mass., in 1792-93. John Brown, Capt. Asa Leonard, Eben. Cook, Daniel Carpenter, Consider Lawrence, David Williams, Joseph Waldo. Nathaniel Ford, Abel. Azel, and Nathaniel Hovey, Jeremish Campbell, and Samuel Collins.—all from Berkshire co., Mass.—came in soon after. W. H. Moore kept the first inn and store: David Williams erected the first mill; and Miss T. Moore taught the first school.

school.

6 The census reports 4 churches; 2 M. E., Cong., and Bap.

**CANDOR**—was formed from Spencer, Feb. 22, 1811. It is a large town, extending from the center to the x. border of the co. Its surface consists of high, broad, rolling uplands, separated into ridges by the narrow valleys of streams flowing in a southerly direction. Their declivities are generally abrupt, and their summits are mostly covered with forests. Catatunk Creek flows through the center of the town, and the West Branch of Owego Creek forms the E. boundary. The waters of Catatunk Creek enter the town near the center of its w. border and flow s. E., its valley completely dividing the western ridge into two parts. The soil is a gravelly loam, fertile in the valleys and moderately so upon the hills. The settlements are mostly confined to the valleys. Candor (p. v.) is situated on Catatunk Creek, near the center of the town. It is a station on the C. & S. R. R., with 3 churches, a tannery, woolen factory, flouring mill, a sawmill, and about 70 dwellings. Candor Center, ½ mi. w. of Candor, contains 1 church, a flouring mill, 2 sawmills, and 20 dwellings. Willseyville, (p. v.,) a station on the C. & S. R. R., in the N. w. part of the town, contains 20 dwellings. South Candor, on Catatunk Creek, near the s. border of the town, contains a church and about 20 dwellings. Weltonville (p.o.) is a hamlet at the mouth of Dolittle Creek. East Candor is a p. o. The first settlers were Thos. Hollister, Job Judd, C. Luddington, and Isaac Judd, from Conn., who came into town in 1793.1 Rev. Daniel Loring was the first preacher. The census reports 10 churches.2

NEWARK—was formed from Berkshire, as "Westville," April 12, 1823. Its name was changed March 24, 1824. It lies upon the center of the E. border of the co. Its surface is mostly a hilly, upland region, with a mean elevation of about 1,200 ft. above tide. Its streams are the West Branch of Owego Creek, forming the w. boundary, and the East Branch, flowing s.w. through near the center of the town. The soil in the valleys is a fine, gravelly loam, but upon the hills it is an unproductive hardpan. The greater part of the uplands are yet unsettled. Newark Valley, (p. v.,) located in the valley of East Owego Creek, contains 2 churches, mills, an extensive tannery, and 75 dwellings. Ketchumville, (p. v.,) in the N. E. corner of the town, 7 mi. N. E. of Newark Valley, contains a church, sawmill, and 26 dwellings. West Newark is a p.o. Jenksville, in the N. w., is a p.o. Settlement was commenced in 1791, by emigrants from Berkshire co., Mass.<sup>3</sup> First religious association (Cong.) was formed in 1798, by Rev. Seth Williston, a missionary from Conn.; Rev. Jeremiah Osborn was the first settled preacher, in 1803.<sup>4</sup>

NICHOLS—was formed from Tioga, March 23, 1824. It lies upon the s. bank of the Susquehanna, near the center of the s. boundary of the co. Its surface is mostly upland, excepting the broad valley of the Susquehanna, and broken by the narrow valleys of small streams. The summits of the hills are broad and 300 to 500 ft. above the river. Many of them are still covered with forests. The soil in the valleys is a gravelly loam and very productive; upon the hills it is a moderately fertile, gravelly and clayey loam, underlaid by red sandstone. Nichols, (p. o.,) Hoopers Valley, (p. o.,) and Canfields Corners (p. o.) are hamlets upon the Susquehanna. The first settlement was made by Ebenezer Ellis, Pelatiah Pierce, Stephen Mills, and James Cole, in 1787. There are 2 churches in town; M. E. and Union.<sup>5</sup>

owe EGO6—was organized Feb. 16, 1791. Spencer was taken off in 1806. It is a large town, occupying the s. e. corner of the co. Its surface is mostly upland, separated into two distinct parts by Susquehanna River and broken by the narrow valleys of small creeks. The summits of the ridges are broad and rolling, and 300 to 500 ft. above the river. The intervale along the river in some places is an unbroken flat more than a mile in width. Owego Creek, flowing through a broad and beautiful valley, forms the w. boundary of the town n. of the Susquehanna. The other streams are Nanticoke Creek, from the n., and Apalachin Creek, from the s., and a great number of smaller brooks and creeks. The declivities bordering upon these streams are generally steep. The soil is principally a gravelly loam. A considerable portion of the hilly re-

<sup>1</sup> They were followed in 1794 by Joel and Elijah Smith, Israel, Mead, and his son Israel,—the former two from Conn. and the Istter from Vt. Fanilies named Collins, Sheldon, Marsh, Bates, and Ellis were also among the early settlers. The first inn was kept by Thomas Hollister; the first store by Philip Case; and the first gristmill was erected by Elijah Hart.

2 5 Baph, 2 M. E., Prot. E., Cong., and Union.

3 Among the settlers in 1791 were Elisha Wilson, (living upon the place of his original settlement in 1858, at the age of 87,) Paviol Ball, Isaac and Abram Brown.—Dean and Nor-

<sup>&</sup>lt;sup>2</sup> 5 [sap., 2 M. E., Frot. E., Cong., and Union.

<sup>3</sup> Among the settlers in 1791 were Elisha Wilson, (living upon the place of his original settlement in 1858, at the age of 37,) Daniel Ball, Isaac and Abram Brown, — Dean, and — Norton.—all from Stockbridge, Mass.,—most of them settling in the valley of Owego Creek. The first birth was that of Wm. Ball. Miss E. Moore taught the first school; Enos Slawson kept the first store and inn; and E. Wilson built the first mill.

<sup>&</sup>lt;sup>4</sup> The census reports 5 churches; 3 M. E., Cong., and Presb.
<sup>5</sup> Among those who settled later were Judge Emanuel Coryell, Isaiah Jones, — Bass, and — Emmons, in 1791; and about the same time Caleb Wright, on the site of Nichols Village, and Stephen Dodd, a short distance below. In 1793 Jonathan Platt and his son Jonathan, Col. Richard Sackett, Lewis Brown, and Miles Forman.—21 from Westchester co.—settled in the valley. Major John Smyth and his sons John, Gilbert, and Nathan, from Monroe co., Penn., Benjamin Lonnsbury, Ziba Evans, Jonathan Ifunt, Richard Sarles, Asahel Prichard, Jonathan Pettis, Joseph and John Annibal, Joseph Morey, and David Briggs, were also among the pioneer settlers. The first birth was that of Daniel Pierce, ln 1787.

6 Owego, "Swift River."—Annals of Binghamton, p. 110.

gions is yet covered with forests. Manufactures, and commerce to a limited extent, engage the attention of the people. Owego, (p. v.,) the co. seat, was incorp. April 4, 1827. It is finely situated upon the Susquehanna, near the mouth of Owego Creek.1 It is the commercial center of a large agricultural and lumbering district; and since its first settlement it has been one of the most important villages in the southern tier of counties.2 It contains the Owego Academy, a female seminary, 7 churches, 2 banks, 2 newspaper offices, and several manufacturing establishments.3 A bridge 80 rods in length here crosses the Susquehanna. Pop. 3,041. Apalachin, (p. v.,) on the s. bank of the Susquehanna, 8 mi. above Owego, contains 1 church and 200 inhabitants. Campville, (p. v.,) on the N. bank of the river, 7 mi. above Owego, contains 1 church and 20 dwellings. It is a station on the Erie R. R. Flemingville (p.o.) is a hamlet in the N. w. part of the town, on Owego Creek; South Owego is a p.o. near the Pennsylvania line. Amos Draper, an Indian agent and trader, from the Wyoming Valley, erected the first house in town, at Owego Village, in 1786, and moved in his family in 1787.4 The first religious services were conducted by Rev. Seth Williston. The first religious association (Presb.) was formed in 1810, and a church was organized in 1817; Rev. Horatio I. Lombard was the first settled minister, in 1818. churches in town.5

RICHFORD—was formed from Berkshire, as "Arlington," April 18, 1831. Its name was changed April 9, 1832. It is the N. E. corner town in the co. Its surface is mostly upland, broken by a few narrow valleys. It contains the highest land in the co., estimated to be 1,400 to 1,600 ft. above tide. Its streams are the head branches of Owego Creek. Its soil is a moderately fertile, gravelly loam. About one-third of the surface is yet covered with forests. Leather and lumber are manufactured to some extent. Richford, (p. v.,) s. of the center of the town, contains a church and about 60 dwellings. West Richford is a p. o. The first settlements, made at a later period than those in Berkshire, from which the town was taken, were since the commencement of the present century; but the exact date could not be ascertained. There is a Presb. church in town.

SPENCER—was formed from Owego, Feb. 28, 1806. Candor, Caroline, Danby, and Newfield (the last three now in Tompkins co.) were taken off Feb. 22, 1811, and Cayuta, March 20, 1824. It is the n. w. corner town of the co. Its surface is an upland, broken by the valleys of small streams. The N. w. portion forms the watershed between Susquehanna River and Cayuga Lake. The ridges have a general N. and s. direction. Their declivities are generally steep and their summits broad and broken. Catatunk Creek, flowing E., breaks through these ridges at nearly right angles, forming a deep and narrow valley. The soil in the valleys is a gravelly loam, and upon the hills it is a hard, shaly loam. Spencer, (p. v., ) on Catatunk Creek, w. of the center of the town, contains 3 churches, 2 tanneries, a valuable mineral spring and 75 dwellings. The first settlement was commenced in 1795, by Benj. Drake and Joseph and John Barker.<sup>8</sup> The first religious meeting was held by P. Spaulding, at his own house; and the first religious association (Bap.) was formed by Elder David Jayne.9

TIOGA—was formed from Union, (Broome co.,) March 14, 1800. Berkshire was taken off in 1808, a part of Union in 1810, and Barton and Nichols in 1824. It lies on the Susquehanna, s. w. of the center of the co. Its surface is principally upland, terminating in bluffs along the river intervale. The streams are Catatunk and Pipe Creeks and numerous smaller creeks and brooks.

1 Glen Mary, for several years the residence of N. P. Willis, is

<sup>5</sup> 5 M. E., 2 Presb., Prot. E., Bap., Cong., Wes. Meth., R. C. and Union.

<sup>&</sup>lt;sup>1</sup> Glen Mary, for several years the residence of N. P. Willis, is situated on Owego Creek, near the w, bounds of the village. It was here that his exquisite Rural Letters were written.
<sup>2</sup> For many years the p. o. here was one of the four distributing offices of the State. From this place also were shipped salt, plaster, lumber, and wheat for the Penn. and Md. markets.
Sept. 7, 1849. a destructive fire occurred, burning 75 buildings.
<sup>3</sup> The principal of these are manufactories of steam engines and boilers, machinery, castings, sash and blinds, silverware, lumber, leather, flour, and plaster.
<sup>4</sup> John McQuigg and James McMaster, from New England, the original patentees of the half-township on which the village-of Owego stands, settled there in 1788. A clearing was made

the original patentees of the half-township on which the villageof Owego stands, settled there in 1788. A clearing was made
and grain sowed on an Indian improvement at Owego, in the
season of 1786, by Wm. McMaster, Wm. Taylor, Robert
McMaster, John Neally, and Wm. Wood, who entered the valley
from the E. by way of Otsego Lake and the Susquehanna. The
first birth in town was that of Selecta, daughter of Amos Draper, June 19, 1788; the first school was taught by —— Kelly,
in 1792; the first store and hotel were kept at Owego, by Wm.

Fates

Anno Onlon.

6 Among the early settlers were Evan Harris, Samuel Smith, Samuel Gleason, Nathaniel Johnson, —— Stevens, Jeremiah Camphell, Beriah Wells, Caleb and Jesse Gleason, Ezekiel Rich, and William Dunham,—many of them from the adjoining town of Berkshire.

This village was the co. seat of Tioga co., then including Chemung, from 1812 to 1821.

Chemung, the carly sattlers at Spencer Village were Joshua

Chemung, from 1812 to 1821.

8 Among the early settlers at Spencer Village were Joshua Ferris, Henry Miller, Edmund and Rodney Hobart, from Conn., Andrew Purdy, Thos. Mosher, from Westchester co., and George Fisher. The first birth was that of Deborsh, daughter of Benjamin Drake; the first marriage, that of John B. Underwood and Polly Spaulding; and the first death, that of Prescott Hobart. The first school was taught by Joseph Barker, in his own house, at Spencer Village; the first inn was kept by Andrew Purdy; the first store by Samuel Doolittle; and the first gristmill was built by Benj, Drake.

9 The cessus reports 3 churches in town; Cong., Bap, and

The soil is a fine, dark loam in the valleys and a gravelly loam upon the hills. Most of the summits are still covered with forests. **Tioga Center**, (p. v.,) at the mouth of Pipe Creek, contains a church, several mills, and 60 dwellings. It is a station on the N. Y. & Erie R. R. Smithsboro, (p. v.,) on the N. Y. & E. R. R., contains 230 inhabitants. **Halsey Valley** (p. o.) is a hamlet, in the N. w. corner of the town, on the line of Barton. **Straights Corners** is a p. o. on the N. border. The first settlement was made on Pipe Creek, in 1785, by Samuel and William Ransom, —— Primmer, and Andrew Alden, from Wyoming, Penn. Col. David Pixley, from Mass., and Abner Turner, from N.H., made the first settlement on the river, in 1791. There are 2 churches in town; M. E. and Union.

Acres of Land, Valuation, Population, Dwellings, Families, Freeholders, Schools, Live Stock, Agricultural Products, and Domestic Manufactures, of Tioga County.

<sup>1</sup> Among the early settlers were Joel Farnham, Jeremiah White, Abel Stafford, Elizur Wright, Samuel Giles, Hugh E. Fiddis: Jehn Hill, from Mass.; William Taylor, from Saratoga co.; Nathaniel Catlin, Cornelius Taylor, Beriah Mundy, John Smith, James Schoenover, — Taylor, and — Hungerford, from Wyoming, Penn., Daniel Mersereau, from Staten Island;

Francis Gragg, Nath'l Geodspeed, Jesse, Ziba, and Amos Miller, Enos Canfield, Ledowyck Light, — Lyon, and Ezra Smith, from Westchester co., N.Y.; Geo. Horton, M. Dean, N. Brink, Dr. Tinkham, C. Leach, R. Curtis, Wm. S. Jones, T. Madison, C. Schoonover, and James Brooks with 5 sons.

#### TOMPKINS COUNTY.

This county was formed from Cayuga and Seneca, April 17, 1817. Three towns were annexed from Tioga, March 22, 1822, and a part of Schuyler co. was taken off in 1854. It lies around the head of Cayuga Lake, s. w. of the center of the State, is centrally distant 141 mi. from Albany, and contains 500 sq. mi. Its surface consists principally of an upland, broken by a series of ridges extending N. and s. The watershed between Cayuga Lake and Tioughnioga River occupies the E. border of the co., and that between the same lake and Susquehanna River the s. border. The deep valley of Cayuga Lake, 700 ft. below the summits of the ridges, separates the N. portions of the co. into two distinct parts. The E. portion, declining toward the N., gradually loses its hilly character and

spreads out into the beautifully rolling lands so common in Central N.Y. West of the lake the land does not lessen in height within the limits of the co.; but the rough, broken hills change into

smooth ridges, with long, gradual slopes.

The deep valley of Cayuga Lake affords a fine opportunity to examine the geological structure of this region. Upon the shore in the extreme N. part are found the Hamilton shales, the lowest rock in the co. Next above them on the shore appear the Tully limestone, Genesee slate, and Portage or Ithaca shales and sandstones.\(^1\) The summits of all the hills are formed of the rocks belonging to the Chemung group, usually covered deep with drift deposits. The streams, in their course from the table lands to the lake, have worn deep channels into the rocks, and waterfalls which once were, probably, at the face of the bluffs, have receded one to two miles, forming below deep, rocky chasms bordered by perpendicular walls. As the rocks are composed of strata of different degrees of hardness, the water has worn them irregularly,—the soft and yielding shales generally forming a declining surface, while the hard and compact limestone retains its perpendicular forms.\(^2\)

The streams are Salmon, Fall, Cascadilla, Six Mile, and Taughanick Creeks and Cayuga Inlet and their branches, flowing into the lake, and several branches of Owego Creek and other small streams, flowing s. The cascades upon these streams form one of the most peculiar and interesting features of the landscape.

The soil in the N. part is generally a gravelly or clayey loam, formed by the drift deposits; and that in the s. is a gravelly or slaty loam, derived from disintegration. It is all best adapted to grazing. In the N. part the people are generally engaged in grain raising, wheat forming the staple production. In the s. towns the principal branches of agriculture pursued are stock raising and dairying. Considerable manufacturing is carried on at Ithaca and other places.

The co. seat is located at the village of Ithaca. The courthouse is a brick edifice, built upon a fine lot near the center of the village.<sup>3</sup> The jail, contiguous to the courthouse, is a well built stone edifice, with ample accommodations for the health of the prisoners. The cells are clean and well ventilated. The co. clerk's office is a fireproof building, fronting upon Tioga St. The poorhouse is situated upon a farm of 100 acres in Ulysses, 6 mi. x. w. of Ithaca. The average number of inmates is 53, and the revenue derived from the farm is about \$1,500. No school is provided for the children, and they are not admitted to the public schools. The house is pleasantly situated, and will compare favorably with other poor-houses throughout the State.

The Cayuga & Susquehanna R.R. extends from Ithaca to Owego, connecting with the Erie R. R. at the latter place. Cayuga Lake is navigable and connects with the Erie Canal at Montezuma. A daily line of steamers plies between Ithaca and Cayuga Bridge, on the N.Y.C.R.R.,

1 The Tully limestone furnishes an abundance of lime; huge fragments of this rock are found scattered over the land several hundred feet above the regular veins of the rock, showing that some great force had been in operation here at some former period. The Genesee slate is about 100 ft. thick, and the Portage group 300 ft.

2 The Taughanick Falls, below Trumansburgh, have receded something more than a mile from the lake. "In its passage, the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the state of the

<sup>2</sup> The Taughanick Falls, below Trumansburgh, have receded something more than a mile from the lake, "In its passage, the stream first produced a series of falls and rapids, but finally receded so as to form but a single fall. This is caused by the nigher strata being so much harder than those below that a firm table is formed of these, while those below are undernined." About I mi. N. of these falls is a cascade, where, from 654

the absence of a resisting stratum at the surface, the rock has been worn down in a continuous slope.—Geol. IV. Dist., p. 378, 379.

<sup>3</sup> The act of incorporation fixed the courthouse at Ithaca, the exact locality to be designated by the Snrveyor General, or, if he neglected to do it, by the judges of the co. court. Unless a site was conveyed to the Supervisors and \$7,000 secured to be paid, was conveyed to the Supervisors and \$7,000 secured to be paid, the co. was to be reaunexed to the cos. from whence it was taken. Luther Gere, Wm. R. Collins, and Daniel Bates were appointed to superintend the erection of the co. buildings. The first co. officers were Oliver C. Comstock, First Judge; Archer Green, Clerk; Henry Bloom, Sherif; and Andrew D. W. Bruyn, Surrogate.

touching at all the landings on the lake. The railroad and canal and lake constitute one of the principal routes for supplying the West with the anthracite coal of E. Penn.

Four weekly newspapers are now published in the co.1

The three s. towns of this co, were included in the Watkins and Flint's Purchase, and the remainder in the Military Tract. A public road was built from Oxford, on Chenango River, directly through to Ithaca, by Joseph Chaplin, in 1791-92-93, and this became the great highway for immigration in the s. part of the State for many years. As a consequence, the co. immediately bordering upon the road was rapidly settled. The first immigrants were mostly from New England. At the place where Ithaca now stands were found cleared fields which had previously been cultivated by the Indians; and these lands were among the first occupied in the co. The next settlements were made in Ulysses, on the w. bank of the lake, and along Chaplin's road in Dryden. The opening of the rich lands of the Genesee country to settlers diverted immigration from this region, and the co. for many years did not increase in population with the same rapidity as the regions further w. The growth of the co., however, has been gradual and continuous; and now in every element of real prosperity it is fully on an average with the other cos. in the State.

CAROLINE—was formed from Spencer, (Tioga co.,) Feb. 22, 1811, and was transferred to this co. March 22, 1822. A part was annexed to Danby in 1839. It is the s.E. corner town of the co. Its surface is an upland, broken by a series of ridges extending N. w. and s. E. 500 to 700 ft. above the valleys and 1,500 to 1,700 ft. above tide. The summits of the hills are usually rounded and rolling and their declivities steep. The streams are Owego Creek, forming the E. boundary, and Six Mile Creek and their branches. These streams flow in deep, narrow valleys bordered by steep hillsides. The soil is generally a gravelly loam, and is well adapted to grazing. Caroline Center (p. v.) contains 2 churches and 14 houses; Motts Corners, (p. v.,) on Six Mile Creek, in the N. W. corner of the town, 1 church, several manufacturing establishments,<sup>2</sup> and 40 houses, Speedsville, (p. v.,) upon Boyer Creek, in the s. E. corner, contains 3 churches and 30 houses; and Staterville, (p. v.,) near the N. border, 1 church and 30 houses. Caroline Depot (p. o.) is a station on the C. & S. R. R. Caroline (p. o.) is a hamlet in the N. E. corner of the town. Rawson Hollow, on the E. line, is a p. o. The first settlement was begun by Capt.

1 The Scneca Republican, the first paper published in the co., was started at Ithaca, July 4, 1815, by Jonathan Inger-

was started at Ithaca, July 4, 1815, by Jonathan Inger-Ing Ilhaca Journal, and in 1817 Mack & Shepherd became pro-prietors. It was successively issued by Mack & Searing, Ebenezer Mack, and Mack & Morgan, until 1824, when Wm. Andrus became partner, and the paper was Issued by Mack & Andrus. In 1827 the name was changed to

Rhaca Journal, Literary Gazette, and General Advertiser, and about a year afterward a portion of the title was dropped, and it was issued as

The Ithaca Journal and Advertiser. In Dec. 1833, Nack & Andrus sold to Nathan Randall; in 1837. Result sold to Metron & Parrenty and in 1820. Randall sold to Mattison & Barnaby; and in 1839 A. E. Barnaby became sole proprietor. In 1841 Barnaby sold to Alfred Wells, and soon after Wells sold to J. H.

Selkreg, the present publisher.

The Republican Chronicle was started at Ithaca in June. 1820. by Spencer & Stockton. In 1823 David D. Spencer became sole proprietor. In 1826 S. S. Chatterton bought an interest, and in 1828 he became sole pro-

prietor, and soon after changed the name to The Ithaca Republican. In 1831 or '32 he again changed the name to

The Tompkins American, and in 1834 the paper was discontinued.

The Western Messenger was started at Ithaca in 1826 by A.P.

Searing, and was continued about 2 years.

The Philanthropist, a Universalist paper, was started at Ithaca in 1831 by O. A. Brownson, and was continued about

1 year.

The Ithaca Chronicle was started by D. D. & A. Spencer in Feb. 1828, and was continued by them until 1853, when the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the c Anson Spencer became sole proprietor. In 1855 it was changed to

The American Citizen, published by A. E. Barnaby & Co. It is now published by Anson Spencer, who has been one of the proprietors from the commencement of the paper in 1828.

The Lake Light was started at Trumansburgh in 1827 by Wm.

W. Phelps, and was continued about 2 years.

The Trumansburgh Advertiser was published a short time in 1833 by D. Fairchild.

The Jeffersonian and Tompkins Times was started in 1836 by C. Robbins. He soon after sold to G. G. Freer, who changed the name to

×

The Ithaca Herald. In 1837 Nathan Randall became proprietor, and merged the paper in the Ithaca Journal and Ad-

The Christian Doctrinal Advocate and Spiritual Menitor was started at Motts Corners in 1837, under the auspices of the 7th Day Baptist denomination, and was continued several years.

The Tompkins Volunteer was started at Ithaca by H. C. Good-

win in 1840. He soon after sold to J. Hunt, jr. In 1843 the title was changed to

The Anti-Masonic Sentinel, started at Trumansburgh Feb. 1829.

R. St. John, editor, continued only a few weeks.

The Trumansburgh Sun. started Dec. 1840, John Gray, editor,

was published about 3 years.

The Trumansburgh Herald, started March, 1846, S. M. Day.
editor, was published about 1 year.

Trumansburgh Weily Independent, started 1851, was published
but a short time.

The Trumansburgh Gazette was published a short time in 1843

by J. H. Hawes.

655

The Flag of the Union was started at Ithaca in 1848 by J. B.
Gosman. In 1850 it was merged in the Ithaca Journal

and Advertiser. The Templar and Watchman was started at Ithaca in 1853 by Orlando Lund. It afterward passed into the hands of Myron S. Barnes, and was continued a short time. Rumsey's Companion was started at Dryden in 1856 by H. D.

Rumsey. It was soon after changed to

The Fireside Companion, and again in a few months to The Dryden News. In 1857 it was sold to G. Z. House and

changed to

The New York Confederacy, and was soon after discontinued.

In 1858 it was resuscitated, as The Dryden News, by Asahel Clapp, by whom it is still

published. The Tompkins County Democrat was started at

The Tompkins County Democrat was started at Ithaca in Sept.1856, by Timethy Malony, by whom it is still published.

2 Two flouring mills, two sawmills, a tannery, and woolen factory. One mile below the village is the extensive gun barrel manufactory of J. & B. Losey, and, with one exception, the only one in the State. This establishment was started 50 years ago, by Abiel Losey, father of the present proprietors, at Otsego; thence it was removed to Fall Creek, near Ithaca; thence to Owerov: and thence to its present location. Owego; and thence to its present location.

David Rich, who came from Vt. in 1795 and located near Willow Bridge; Widow Earsley, with five sons and five daughters, from N. J., came in the next year; and for several years these were the only families in town.1 The first church (Ref. Prot. D.) was formed at an early period; the first pastor was Rev. Garrit Mandeville. The census reports 10 churches in town.2

DANBY-was formed from Spencer, (Tioga co.,) Feb. 22, 1811, and was transferred to this co. March 22, 1822. Part of Caroline was annexed April 29, 1839, and a part was annexed to Caroline in 1856. It lies near the center of the s. border of the co. Its surface is broken by range of hills extending N. and s. 300 to 400 ft. above the valleys. Their summits are rounded and their declivities generally steep. The valleys are mere ravines. The principal streams are Cayuga Inlet, flowing N., and numerous small streams, the latter being tributaries either to this or to Owego Creek. The soil is a mixed gravelly and shaly loam, with occasional patches of clay, and is well adapted to grazing. **Danby**, (p. v.,) in the N. part, contains 3 churches and 50 houses; Beers Settlement, (South Danby p.o.,) near the center, about a dozen houses. West Danby is a p. o., near the w. border. The first settlers were J. D. Yaple, Dr. Lewis Beers, Jabez Beers, and Joseph Judson, who located at Beers Settlement in 1797.3 The first church (Cong.) was formed in 1807; Rev. Daniel Loring was the first pastor. There are 8 churches in town.4

DRYDEN5—was first erected as a separate town on Feb. 22, 1803. It is a large town, occupying the central portion of the E. border of the co. The surface of the N. half is rolling or moderately hilly, and that of the s. half hilly and broken. The E. border forms the watershed between Tioughnioga River and Cayuga Lake. The highest ridge, in the s. E. part, is 1,700 to 1,800 ft. above tide. The principal stream is Fall Creek, flowing s.w. through near the center of the town, on its course affording several millsites. Several small streams, tributaries to Owego Creek, take their rise in the s. part. Dryden Lake is a small sheet of water 1 mi. long and about ½ mi. wide, lying in an elevated valley near the E. border and 1,500 ft. above tide. A mineral spring, strongly impregnated with sulphur, magnesia, and iron, is situated one mi. w. of Dryden Village, and has a local notoriety for medicinal virtues. In the N. E. part are two swamps, each covering an area of several hundred acres. Dryden, (p. v.,) on the s. branch of Fall Creek, in the E. part of the town, is a flourishing inland village. It contains 2 churches, a large gristmill, and several manufacturing establishments. Pop. 522. Etna, (p.v.,) on Fall Creek, near the center, contains 2 churches, a grist and saw mill, an iron foundery, and machine shop. Pop. 230. West Dryden, (p. v.,) in the N. w. part, contains 93 inhabitants; Varna, (p. v.,) on Fall Creek, near the w. border, 170 inhabitants; Malloryville, Freeville, and California are hamlets. The first settlement was commenced in 1797, by Amos Sweet, on the present site of Dryden Village.6 Joseph Chaplin built a road from Oxford, Chenango co., to Ithaca, passing through this town, in 1791-92-93. There are 9 churches in town.7

ENFIELD8—was formed from Ulysses, March 16, 1821. It lies upon the center of the w. border of the co. Its surface is rolling, and it has a mean elevation of 500 to 700 ft. above Cayuga Lake. The principal streams are Ten Mile Creek and the s. branch of Taughanick Creek. Upon the former, in the s. E. part of the town, is one of the finest of the beautiful cascades so common in this co. It is in a deep gorge, and has a total fall of 230 ft. The soil is principally a gravelly loam. Enfield Center (p.v.) contains 2 churches and about 40 dwellings; Enfield (p.v.) 25 dwellings. Enfield Falls is a hamlet. Among the first settlers were ---- Geltner, John Whitlock, Jas. Rumsey, Lewis Owen, and Isaac and John Beech. There are 5 churches in town. 10

Ebenezer Chausen, who located at Willow Glen in 1798. A single yoke of oxen, at one load, brought these three families, consisting of 14 persons, and all their household goods, from the

consisting of 14 persons, and all their household goods, from the Chenango River. Capt. Geo. Robertson (sometimes called the "father of the town") came in the same year, and settled on Lot 53. Among the other early settlers were Lyman Hurd, from Yt., Dr. Sheldon, Dr. Wolf, Irona Peat, Wm. Daley, Joel Hull, and Jas. Wood. The first child born was Robert Robertson; and the first death was that of the mother of Amos Sweet. Daniel Lasey taught the first school, in 1804. Amos Lewis kept the

built the first mill, in 1800.

75 M. E., 2 Presb., 2 Bap., and R. C.

<sup>1</sup> Among other early settlers were T. Tracy, S. Yates, A. Boyer, and M. Reed, from Mass.; Joseph Chambers, Richard Bush, and Hartmore Earnest, from Ulster co., in 1798; Levi Slater, (formerly of Slaterville, Chas, and John Mulks, John Cantine, (first settler at Motts Corners), and James Bishop, all from Ulster, and John Rounceville, from Mass., in 1801. The first child born was Harriet Rounceville. The first school was taught by John Robinson. Richard Bush kept the first inn, Isaac Miller the first store, and Gen. Cantine built the first gristmill, in 1800.

2 4 M. E., Prot. E., Cong., Bap., Ref. Prot. D., F. W. Bap., and Univ.

Univ.
The first settlers of W. Danby were Ph. Spanlding, Wm. Hngg,
The first settlers of W. Danby were Ph. Spanlding, Wm. Hngg, a The first settlers of w. Dandy were Ph. Spaniding, Ym. Hugg, and M. Barker. The first death was an infant son of Lewis Beardsley. Joseph Judson taught the first school, Dr. Beers kept the first in and store, and Peter Yaple built the first grismill.

4 3 M. E., 2 Bap., Cong., Prot. E., and Swedenborgian.

5 Named in honer of John Dryden, the English poet.

6 The next settlers were Ezekiel Sandford, David Foot, and

9 John Applegate kept the first inn, Samuel Ingersoll the first store, and Benj. Ferris built the first mill.
10 2 M. E., Christian, Bap., and Presb.

**GROTON**<sup>1</sup>—was formed from Locke, (Cayuga co.,) as "Division," April 7, 1817, and its name was changed March 13, 1818. It is the N.E. corner town in the co. Its surface is rolling or moderately hilly. From the valleys the land rises by long and gradual slopes to a height of 100 to 300 ft. The highest point in town is about 1,500 ft. above tide. The principal streams are Owasco Inlet and Fall Creek. Bear Swamp, in the w. part, contains an area of several hundred acres. The soil is a fine quality of gravelly loam, underlaid by slate. Groton, (p. v.,) on Ownseo Inlet, near the center of the town, contains 3 churches, the Groton Academy, and several manufacturing establishments.2 Pop. 587. McLean, (p. v.,) on Fall Creek, in the s. E., contains 5 churches, several factories,3 and 40 houses. Peruville, (p. v.,) near the s. border, contains 2 churches, a saw and grist mill, pail factory, and 30 houses. Groton City, (p. v.,) in the N. E. corner, and West Groton, (p.v.,) in the N. W., contain about 11 houses each. Bensons Corners is a hamlet, in the s. w. corner. Among the first settlers were Saml. Hogg, at West Groton; Ichabod Brown, John Guthrie, and —— Perrin, at Groton; and J. Williams, J. Houghtaling, and W. S. Clark, at East Groton. The census reports 11 churches.4

ITHACA5—was formed from Ulysses, March 16, 1821. It is the central town in the co., lying at the head of Caynga Lake. A tract of land 2 mi. long and 12 broad, low and nearly level, extends s. from the lake shore; and from this the valley of Cayuga Inlet opens to the s. w. and that of Six Mile Creek to the s. E. Ridges 400 to 700 ft. high, with steep declivities, separate these valleys and surround the low land and the head of the lake. From the summits the surface spreads out into a rolling upland. A marsh ½ mi. wide borders immediately on the lake. The streams are Fall, Cascadilla, Six Mile, Buttermilk, and Ten Mile Creeks, and Cayuga Inlet. In their course from the uplands each of these streams plunges down the wall-like precipiees which surround the lake, forming series of cascades which for beauty and variety are searcely equaled elsewhere. The soil is a fertile, gravelly loam upon the uplands, and a deep, rich alluvium in the valleys. Ithaca, (p.v.,) 1½ mi. s. of the head of Cayuga Lake, is the co. seat, and the commercial center of the co. It is beautifully situated upon a fine alluvial plain, bordered on 3 sides by lofty hills, and on the fourth by the lake, with which it is connected by a navigable inlet. It contains the Ithaca Academy, 9 churches, 2 banks, 4 printing offices, and a large number of manufacturing establishments.9 The commercial interests of the place are extensive and important. A daily line of steamboats on the lake running between this place and Cayuga Bridge, in connection with the C. & S. R. R., serves to connect the Erie R. R. on the s. with the N. Y. Central on the N. 10 The lake is also a link in the great chain of the internal water navigation of the State, and upon it a large amount of canal commerce, centering at Ithaca, is carried on. The transhipment of Scranton and Lackawanna coal brought by the C. & S. R. R. forms an important and constantly growing branch of business. A large proportion of the anthracite coal for the Northern and Western markets is supplied through this avenue.11 The public schools of the village are graded, and are in a flourishing condition. The annual attendance is about 1,200.12 The village was incorp. April 2, 1821. Pop. 4,908. The first settlement of the town was made by Jacob Yaple, Isaac

 Bap., 3 M. E., 3 Cong., Wes. Meth., Prot. E., and Univ.
 Name applied by Simeon De Witt, and borrowed from one of the Ionian Isles, the home of Ulysses. It was originally called "The Flats," and its name was brought into use by being placed upon a tavern sign.—King's Eurly Hist, of Rhaca. Mr. De Witt, who for more than 50 years held the office of Surveyor General, became the owner of the site of Habaca and the surrounding country about the time, or soon after, the first settlement. He died at this place Dec. 3, 1834; his remains have since been removed to the Albany Rural Cemetery.
 Upon Fall Creek, within the space of 1 uni. are 5 falls, varying in height from 44 to 125 ft. The deep gorge through which the stream flows is bordered by perpendicular cliffs. A tunned 200 ft. long, 10 to 12 ft. wide, and 13 ft. high was excavated through the rock for hydraulic purposes in 1831-32, by J. S. Beebe. Upon Cascadilla, Six Mile, and Buttermilk Creeks are also successions of fine cascades, within the limits of the town.

also successions of fine cascades, within the limits of the town. At Buttermilk Falls the water rushes down at an angle of about 45 degrees, in a sheet of perfectly white foam, the appearance of the water furnishing a name to both the cascades and the

stream.
7 In 1822 the Genesee Conference of the M. E. Church applied for the incorporation of a college, to be located at Ithaca, and considerable sums were pledged for this object; but the project

failed of accomplishment.

† 2 M. E., Bap., Presh., Cong., Prot. E., Ref. Prot. D., Af. Meth., and R. C.

<sup>9</sup> The manufactories are as follows:—3 flouring mills, 3 paper mills, 5 plaster mills, 1 oil mill, 1 oilcloth factory, 1 brewery, 1 lead pipe factory, 1 rake factory, 4 carriage shops, 2 tanneries, 2 sewing silk factories, 4 furnaces and machine shops mills, I manufactory of collars, bosoms, and neckties, and 8 beatyards: 25 to 30 boats are annually built, at an aggregate cost of \$50,000 to \$60,000. The silk manufactories employ 100 persons,

<sup>\$50,000</sup> to \$60,000. The silk manufactories employ 100 persons, and produce 600 lbs, of sewing silk per week.

10 The Ithaca & Owego R. R.—the second R. R. chartered in the State—was incorp. in 1828, and opened in the spring of 18.44. It was 20 ml. long, and had 2 inclined planes ascending from thaca. The first was 1,733 ft. long, with 405 ft. rise, and the second 2,225 ft. long, with a rise of 1 ft. in 21. The total elevation in 8 ml. was 602 ft.—which was 602 ft. above fts 8, terminus at 1thaca. Horse-power was at first used throughout the entire length of the road. In the first 6 months it transported 12,000 tons of freight and 3,300 passengers. The State having a hen upon the road, the Comptroller sold it at auction on the 20th of May, 1842, for \$4.500, to Archibald McIntyre and others. For \$13,500 it was put in operation, under the name of the Cayuga & Susquehanna R. R. The inclined plane was subsequently changed to a circuitous grade road, and horses were superseded by loconotives. This road is now leased to the Delaware. Lackawama & Western R. R., and it is extensively used for the transportation of coal.

ware Lackawanna & Western R. R., and it is extensively used for the transportation of coal.

11 During the past few years the coal trade has averaged 90,000 tons per annum. This trade will probably largely increase with the increased facilities for moving the coal forward.

12 A Lancasterian school was early established here, and was

continued to within a few years, when it was superseded by the present system of public schools.

Dumond, and Peter Hinepaw, who located on the present site of Ithaca Village in 1789. The land that they occupied had previously been partially cultivated by the Indians.1 The first church (Presb.) was organized in 1804-05, with seven members.

LANSING—was formed from Genoa, (Cayuga co.,) April 7, 1817. It lies upon the E. bank of Cavuga Lake, in the N. part of the co. The surface is principally a rolling upland, 500 ft. above the lake, bordered by steep declivities. Salmon Creek, the principal stream, flows s. through near the center of the town. Its valley is narrow and bordered by steep hillsides. Gulf, Townly, and Hedden Creeks are its principal tributaries. The soil is generally a fertile, gravelly loam. Ludlowville, (p.v.,) on Salmon Creek, about 1 mi. from its mouth, contains 2 churches, several factories,<sup>2</sup> and about 50 dwellings. **Lansingville**, (p. v.,) on the ridge w. of Salmon Creek, in the N. part of the town, contains 1 church and 25 dwellings. North Lansing, (p. o.,) in the N. E. corner, Lake Ridge, (p. o.,) on the bluff above the lake, in the N. W. corner, and Libertyville (South Lansing p. o.) are hamlets of about a dozen houses each. East Lansing and Forest City are p. offices. Forest City Water Cure is finely situated on the bluff overlooking the lake, in the s. part of the town. The first settlement was begun in 1769, by emigrants from N. J.3 The census reports 7 churches in town.4

NEWFIELD—was formed from Spencer, (Tioga co.,) as "Cayuta," Feb. 22, 1811. Its name was changed March 29, 1822, and a part was annexed to Catharines (Schuyler co.) in 1853. It is the s. w. corner town in the co. The surface is high and hilly, the ridges being 400 to 600 ft. above the valleys and 1,500 to 1,700 ft. above tide. The streams are Cayuga Inlet and Ten Mile Creek and their branches. The valleys of these streams are usually narrow and bordered by steep hillsides. A portion of the w. part of the town is yet uncultivated. The soil is a shaly and clayey loam, best adapted to grazing. Newfield, (p. v., ) in the N. E. part of the town, contains 3 churches, 2 flouring mills, 2 carriage shops, a woolen factory, an oilcloth factory, and about 80 dwellings. Trumbull Corners, (p. v.,) on the n. border, contains 1 church and 20 dwellings. Poney Hollow (p. o.) is a hamlet in the s. w. part. The first settler was Jas. Thomas, who located at Poney Hollow.5 The census reports 3 churches in town.6

ULYSSES-was formed March 5, 1799. Dryden was taken off in 1803, and Ithaca and Enfield in 1821. It lies upon the w. bank of Cayuga Lake, on the N. border of the co. A range of bluffs 600 ft. high, with steep declivities, borders upon the lake; and from their summits the surface spreads out in an undulating upland. The only considerable stream is Taughanick (Ti-kaw-nik) Creek, which crosses the town from the w. In its descent from the plateau to the lake this stream forms a series of cascades, the principal of which is known as Taughanick Falls. These falls have receded about 1 mi. from the shore of the lake, and have worn a deep gorge in the yielding shales, with banks 380 ft. high. The stream now falls, in an unbroken sheet, over a limestone terrace 210 ft. in height. About \(\frac{1}{3}\) mi. farther up the gorge is another fall, of 40 ft. The soil is a fine quality of gravelly loam. Trumansburgh, (p. v., ) near the N. border of the town, is the second village in the co. in amount of business and population. It contains 4 churches, the Trumansburgh Academy, and several manufacturing establishments.8 Pop. 1,052. Jacksonville, (p. v.,) near the center of the town, contains 1 church and 50 houses. Waterburgh, near the w. border, contains 1 church, mills, and 40 dwellings. Halseyville is a hamlet. The first settlements were commenced by Samuel Weyburn, at the mouth of Taughanick Creek, and by Abner and Philip Tremaine, on the site of Trumansburgh, in 1792.10 The first church (Presb.) was formed by Jedediah Chapman, in 1803. There are now 6 churches in town. 11

1 Among the other early settlers were families named McDowel, Davenport, Bloom, King, Patchin, Star, Conrad, Markle, Sayers, and Brink. The first child born was a daughter of John Dnmond, Sept. 1789. The first death was that of Rachel Allen, in 1790. A man named Jightfoot brought a heat lead of goods up the lake in 1792, and he continued a kind of itinerating trade for search ways. Parid Onize, oncod the flat ways the parameters. several years. David Quigg opened the first regular store;
— Hartshorn kept the first inn; and Jacob Vaple built the first mill, in 1790. Dr. Frisbee was the first physician, and — Howe the first teacher. The first families were a month in getting from Kingston (Ulster co.) to Owego, and 19 days from thence to their destination.

from Kingston (Ulster co.) to Owego, and 19 days from thence to their destination.

2 Grist and saw mills and an ax helve factory.

3 Among the early settlers were Wm. Goodwin, Silas Ludlow, Abram Bloom, and families named Beardsley, Depny, Minier, Allen, Atwater, and Bowker, who came in 1791; Sam'l Gibbs and — Holmes, in 1792; and Abram Van Wagner, in 1797. The sam'l Mary King, I first marriage was that of Henry Bloom and Miss Goodwin: and the first death, that of the wife of Henry Bloom. in 1798. Wm. Boyse kept the first inn, at Liberty ville. The first night of his

stay in the house a rattlesnake crept into the bed and slept with his children. — Tooker kept the first store; Hemy Ludlow, of Ludlowville, built the first mill, in 1798.

4 4 M. E., 2 Bap.. and Presb.
5 Among the early settlers were S. Chambers, Elijah Moore,
— Carter, and Dau'l B. Swartwood. Jeremiah Hall kept the first inn, George Dudley the first store; and John Greene built

the first mill. 6 Bap., M. E., and Presb. 7 Name derived and corrupted from Tremaine, the first family of settlers.

8 3 flouring mills and 2 furnaces and machine shops.

8 3 flouring mills and 2 turnaces and machine snops.
9 Named from Nicoll Halsey, the first settler.
19 John McLallen. a young man, accompanied the Tremaines in the capacity of teamster. The first child born was Calvin Tremaine, in 1794; and the first marriage, that of John McLallen and Mary King, Dec. 12. 1799. John McLallen kept the first inn, — Henshaw the first store; Abner Tremaine built the first mill; and Stephen Woodworth taught the first school, all at Trumansburgh.
13 M. E., Bap., Presb., and R. C.

## ULSTER COUNTY.

This county was formed Nov. 1, 1683,1 and included the country between the Hudson and the Delaware, bounded N. and s. by due E. and w. lines passing through the mouths of Sawyers and Murderers Creeks. A part of Delaware was taken off in 1797, a part of Greene in 1800, and Sullivan in 1809. A portion was annexed to Orange in 1798, and the town of Catskill was annexed from Albany co. the same year. It lies on the w. bank of the Hudson, centrally distant 68 mi. from Albany, and contains 1,204 sq. mi. Its surface is mostly a hilly and mountainous upland. The Catskill Mts. occupy the N. w. part; and the Shawangunk Mts. extend N. E. from the s. w. corner nearly through the co. The mountain region consists of irregular ridges and isolated peaks with rocky

sides and summits too steep and rough for cultivation. The summits are 1,500 to 2,000 ft. above the Hudson. The remaining parts of the co. are generally broken and hilly. Esopus Creek flows in a tortuous course through the N. part and discharges its waters into the Hudson. It receives Platte Kil from the N. Rondout Creek enters the s. w. corner of the co. and flows N. E. along the w. declivity of the Shawangunk Mts. and enters the Hudson at Rondout. It receives as tributaries Sandburgh Creek in the s. w. part of the co., and Walkill near its mouth. The latter stream flows along the E. foot of the Shawangunk Mts. The remaining streams are small brooks and creeks.

The rocks of the co. are composed of the Portage and Chemung shales, in the E. part, and the Shawangunk grit or Oneida conglomerate, in the w. part. Drift deposits are found in nearly every

part. Lead ore is found to some extent among the Shawangunk Mts.2

At an early period the Esopus grit was largely quarried and manufactured into millstones.3 Water-limestone of an excellent quality is found and largely quarried.4 The Ulster co. Cement has an excellent reputation throughout the United States, and is used in immense quantities on fortifications and other Government works requiring solidity. It was used on Croton, Brooklyn, Cochituate, Albany, Washington, and other water-works. It finds a ready market in every port on the seaboard from New Brunswick to Texas. It has been exported to California and South America, and is largely used in and around New York, Boston, and Philadelphia, upon public and private buildings. The cement rocks are quarried usually on the hillsides, and these openings often extend in galleries under the overlying rock. The rock outcrops in a belt running N. E. and s. w., first appearing on the Hudson a few miles N. of Kingston Point, and extending 20 to 25 mi. to the town of Rochester, but is lost from view at the surface in several places between these points. In the section occupied by the Portage group of rocks are found extensive outcrops of thin bedded sandstone, yielding a fine quality of flagging, which is largely quarried and exported.5 The soil is generally a good quality of sandy and gravelly loam, in some places intermixed with clay. Most of the valleys are covered with a deep, rich alluvium.

Most of the land is best adapted to grazing. Dairying is extensively pursued, and spring grain

600 or 700 feet above the valley. The galena in these mines is associated with blende, iron and copper pyrites, calcite, and quartz. There are indications and vague traditions that these mines were worked at a much earlier period and yielded profits

mines were worked at a much earner period and yleided pronts beyond computation.

§ In Smith's History, written in 1732, this co, is said to be noted for fine flour, beer, and a good breed of draft horses. The millstones—then quarried about 10 mi, from the river—had acquired celebrity, and were said to far exceed those from Colen, in Europe, formerly imported at £30 the pair, while Esopus 660

stones did not cost a fourth part of that sum. Small millstones for family use are still made for the Southern market; but the business has lost much of its former importance. of these grits, when calcined and crushed, furnishes the silex need in the glass manufacture at Ellenville.

4 Water-limestone was accidentally discovered on the line of

the Eric Canal, by Canvass White, an engineer, in 1818. In 1820 he obtained a patent, and subsequently obtained judgment against one or more of the contractors for using it. The first against one or more of the contractors for using it. The first waterlime or cement made in Ulster co. was about the time the Delaware & Hudson Canal was commenced. Its manufacture has now become a leading and profitable pursuit, employing about \$1,000,000 of capital and 1,000 men. In March, 1859, there were 15 establishments in the co., owned by individuals and com-

5 The stone is of a bluish gray color and slaty texture, and may be split into slabs of almost any manageable size and from 1 to 4 inches in thickness. The rock is 'traversed by joints or seams, that divide very smoothly and greatly facilitate the labor of quarrying. It is brought down to the river and shipped in immense quantities at every lauding in the co. and transported to New York and other places along the coast. The business employs a large number of hands.

<sup>1</sup> In its charter it is said to "contain the towns of Kingston, | In its endrer't is said to "contain the towns of Anigston, Hurley, and Marbletown, Foxhall, and the New Paltz, and all villages, neighborhoods, and Christian habitations on the w. side of the Hudson's liver, from the Murderers Creek, near the Highlands, to the Sawyers Creek." It was named from the Irish title of the Duke of York. The bounds between this and Albany co. were not fully settled at the Revolution. An act was passed were not unity settled at the Revolution. An act was passed in 1774, but nothing was done under it toward a settlement, and it was repealed in 1788. An act was also passed in 1774 to run and mark the boundary of this and Orange counties from E. of the Shawangunk Mts. to the Delaware.

2 A mine was opened near Ellenville more than 40 years ago. It was never worked to profit, and is now abandoned. The Ulster Mine, near Sullivan co. line, was opened in 1837. It is

is raised to some extent. Fruit growing is becoming an important branch of business. Manufactures of sole leather and lumber are located in the western towns,1 and water-lime in the eastern. The commerce, carried on by means of the river and canal, is large, and is constantly increasing.

The co. seat is located at Kingston.2 The courthouse is a fine stone edifice, situated upon Wall St.3 The jail is a stone building in rear of the courthouse. It is well arranged and furnished and is kept in good order.4 The clerk's office is in a fireproof one story building on the corner of Fair and Main Sts.<sup>5</sup> The poorhouse is located upon a farm of 140 acres, on the s. line of New Paltz, 16 mi. s. w. of Kingston. It is poorly constructed, not ventilated at all, and is entirely unfit for the purposes for which it is used. The average number of inmates is 175, supported at a weekly cost of \$1.25 each. A school is taught 6 months in the year. The farm yields a revenue of \$500. The Delaware & Hudson Canal is the only important work of internal improvement in the co. It extends from Rondout, on the Hudson, up Rondout and Sandburgh Creeks, through Kingston, Rosendale, Marbletown, Rochester, and Wawarsing. It opens a direct communication between the coal mines of Penn. and the Hudson. The Delaware & Hudson Canal Co. was incorp. April 23, 1823, and the canal was finished in 1828.7

One daily and 7 weekly newspapers are now published in the co.8

The Dutch established a trading post upon the present site of Rondout in 1614, and probably a few Dutch families settled in the immediate vicinity soon after. This early settlement was broken up by Indian hostilities, and a new one was commenced between 1630 and '40. This was again attacked by the Indians, and in 1655 was abandoned. Before 1660, settlers had again located at Kingston and vicinity. In 1660 a treaty had been concluded with the Indians; and the people were so unsuspicious of danger that they left open the gates to their fort both day and night. 1663, the Indians came into the fort at Wiltwyck in great numbers, apparently to trade, while the greater part of the people were engaged in their usual avocations out of doors. At a given signal the Indians commenced the work of destruction. Recovering from their first panic, the whites rallied, under the leadership of Thomas Chambers, and finally drove the Indians out of the fort; 18 whites were killed, and 42 were carried away prisoners. The out settlements were all destroyed. A destructive war ensued, in which the Ulster Indians were nearly exterminated. During this war the valley of the Wall Kil was discovered, and soon after the peace of 1663 it was occupied by a colony of French Huguenots.9 The settlements gradually extended along the valleys of Esopus,

1 The principal tanneries are in Shandaken, Olive, Woodstock,
 Denning, Hardenburgh, and Wawarsing.
 2 A courthouse and jail were built soon after the incorp of the

co., and an appropriation was made for their repair July 21, 1715.
These buildings proving inadequate, an act of General Assembly, passed Oct. 14, 1732, allowed the old buildings and lot to be sold passed Oct. 14, 1732, allowed the old buildings and lot to be sold and new buildings to be erected. Repairs were authorized in 1745, 1750, 1765, and 1773; and in 1775 a further sum was granted to complete them. The courthouse and jail were burned by the British Oct. 16, 1777, and a lottery was granted 6 months after to raise \$2,000 to rebuild them. By act of March 19, 1778, the sheriff's mileage was directed to be computed from the house of Mrs. Ann DuBoise, an innkeeper in New Paltz.

3 The first county officers under State government were Levi Pauling. First Judae: Expert Dumond, Sheriff; and Joseph

Pauling, First Judge; Egbert Dumond, Sheriff; and Joseph Gasherie, Surrogate.

4 The Senate Committee in 1857 report this jail as one of the best in the State; but as 15 or 20 prisoners escaped in the winter of 1858 and '59, the correctness of the committee's conclusions may well be questioned.

5 Dutchess and Ulster cos. were incorp. at the same time, and were united for about 30 years. The records of Dutchess co. for that period are found in the Ulster co. clerk's office. 6 The Senate Committee of 1857 report that they found 12 cells

for lunatics in an old, dilapidated building so open that it was

for linatics in an old, dilapidated building so open that it was scarcely possible to keep the immates from perishing.

7 See page 63. The Canal Company owns a R.R. over the mountain from Honesdale to Carbondale, Penn., and the coal mines at the latter place. It formerly owned most of the boats on the canal, and leased them to boatmen. About 1850 the Penn. Coal Company made an arrangement by which upon payment of toll they were allowed to transport coal in their own boats from Hawley to Port Ewen.

8 The New Fork Journal and Advertiser—published by John Hold, and which was removed from New York to Pouch-

Holt, and which was removed from New York to Pough-Holl, and which was removed from New York to Poughkeepse in 1776 in consequence of British occupation—
was published at Kingston from July to Oct. 1777.

The Furmer's Register was commenced at Kingston in 1792 by
Nicholas Power and Wm. Copp.

The Rising San was commenced at Kingston in 1793 by Wm.
Copp. and San'l S. Fract.

Copp and Sam'l S. Freer.

The Ulster Guzette was commenced at Kingston in 1798 by Sam'l S. and A. Freer.

beian was commenced at Kingston in Nov. 1805, by Jesse Buell, who continued as editor until 1813. In 1827 The Plebeian its name was changed to

The Plebeian and Ulster Co. Advertiser.

The Ulster Sentinel was published at Kingston about 1826-28 by Charles G. De Witt.

The Ulster Republican was commenced at Kingston in 1828 by S. Curtiss, jr. 1t is now published by Hommell & Lounsbery.

The Ulster Palladium was commenced at Saugerties in 1828 by P. J. Fish and C. Frary. Its name was subsequently changed to

he Ulster Pulladium and Manufacturers' Journal

The National Pioneer was published at Milton in 1830 by Dan'i S. Tuthill.

The Ulster Star was commenced at Saugerties in Jan. 1833, by

Wm. Cully.

The Ulster County Whig was commenced at Kingston in 1835
by Wallace & Brown.

The Kingston Democratic Journal was commenced in 1837 by Wm. H. Romeyn, its present publisher.

The Political Reformer was commenced at Kingston in 1840 by

H. M. Romeyn.

The Ulster Huguenot was commenced at Kingston in 1843 by
J. Cully and T. F. Baldwin. The Hickory Democrat was issued at Kingston, as a campaign

paper, in 1844.

The Ulster Democrat was commenced at Kingston iu 1846 by A. A. Bensall. It is now published by S. R.

Harlow.

The Kingston Daily Chronicle is issued from the same office.

The Ulster Telegraph was commenced at Saugerties in 1846 by Solomon S. Hommell. Its name was subsequently

changed to

the Rolling Freeman, started in 1555, is low issued by Vanrauren & Gildersleeve.

The Rondout Courier was commenced in 1847. It is now published by J. P. Hageman.

The Ellenville Journal was commenced in 1847. It is now published by O. A. Campbell.

The People's Press is published at Kingston by Daniel Bendung.

Bradbury.

After the peace of 1660 the Director General of New Nether-lands shipped 11 Indians prisoners to Curaçoa to be sold as slaves. This outrace led to the attack made in 1663, and the bloody war that followed. Nine days after the retreat of the Indians from the attack upon Wiltwyck, in June, 1663, a rein-

Rondout, and Walkill Creeks and their tributaries. Besides the manorial grant of Fox Hall, the English made township grants of Kingston, New Paltz, Marbletown, Rochester, Hurley, Shawangunk, and Marlborough. During the Revolution the frontier settlements were exposed to Indian hostilities, and before the close of the war were all destroyed or abandoned. The river towns were taken by the British in 1777, and most of them were pillaged and burned. The Provincial Congress and State Legislature held several sessions at Kingston during the war and soon after. The people were nearly all ardent patriots; and there were probably fewer tories in this co. than in any other section of the State. Since the Revolution the co. has steadily progressed in wealth and population. The completion of the Delaware & Hudson Canal was a marked era in the history of the industry of the co.; and the commencement of the cement manufacture and stone quarrying have greatly added to its permanent prosperity.

DENNING<sup>2</sup>—was formed from Shandaken, March 6, 1849. A part of Hardenburgh was taken off in 1859. It lies in the N. w. part of the co., upon the border of Sullivan. Its surface is a broken and mountainous upland. A spur of the Catskill Mts. extends through the town, with a mean elevation of 1,500 to 2,000 ft. Its streams are head branches of Rondout Creek and Neversink River. The valleys are narrow ravines bordered by steep and rocky hillsides. The soil upon the uplands is a gravelly loam, and in the valleys a sandy loam. The settlements are chiefly confined to the valleys. Denning is a p. o. near the center. Dewittsville is a hamlet near the s. line. This town, though large, has the least population of any town in the co. Its chief wealth consists in its heavy growth of hemlock and hard wood. Settlements were made at a comparatively recent period.

ESOPUS—was formed from "Kingston," April 5, 1811. A part was set off to Kingston, and a part of Hurley was annexed, in 1818, and a part of New Paltz was annexed April 12, 1842. It lies upon the Hudson, and is the central town upon the E. border of the co. Its surface is rolling in the E. and moderately hilly in the w. A range of hills extends N. and s. through near the center of the town, the highest peak being 1,632 ft. above tide. Huzzys Hill, s. of Rondout, is 1,000 ft. high. Wall Kil forms the w. and N. boundaries, and Swarte Kil and Black Creek flow through the s. part.4 The soil is a light, clay loam. Fruit growing is becoming an important branch of business. Cement is largely manufactured, and an extensive commerce is carried on by means of the river and Delaware & Hudson Canal.<sup>5</sup> Port Ewen, (p. v.,) upon the Hudson, s. of the mouth of Rondout Creek, is a village built up by the Penn. Coal Co. A large part of the coal brought forward by the canal is here shipped upon barges for the Northern market. Pop. 1,300.6 Arnoldton, (p. v.,) upon Walkill Creek, in the s. part of the town, contains a church, woolen factory, cotton factory, and 150 inhabitants. South Rondout, upon Rondout Creek, in the N. part, contains an extensive cement and lime factory, a lager beer brewery, a brickyard, several boatyards, and 568 inhabitants. Dashville, upon Walkill Creek, in the s. part, contains a cement factory and 20 houses. Sleightsburgh, upon the Hudson, at the mouth of Rondout Creek, contains an extensive shipyard and 40 houses. Elimores Corners, (Esopus p. o.,) upon the Hudson, contains a church and 40 houses. Amesville (p. o.) and Atkarton are hamlets. Freerville, in the N. part, contains a gristmill and 20 houses. Settlements were made by the Dutch, soon after their first occupation of the co.7 The first church (Ref. Prot. D.) of which there is any record was formed in 1751; Rev. G. W. Mancius was the first preacher.8

GARDINER<sup>9</sup>—was formed from Rochester, New Paltz, and Shawangunk, April 2, 1853. It is an interior town, lying s. of the center of the co. The surface is rolling in the E. and hilly in the

forcement of 40 men, under Ensign Myssen, arrived and relieved the fort. Capt. Krygier, with a cannon and a force of 210 men, pursued the Indians to their forts and destroyed their men, pursued the Indians to their forts and destroyed their grain. In Sept. another expedition surprised an Indian fort, 36 mi. s. w. of Wiltwyck, killed the chief and 20 others, and restored 22 captives. The Indians were effectually broken and scattered, and late in the fall they sued for peace and restored all the remaining prisoners except 3.

1 Thomas Chambers, the original proprietor of this patent, endeavored by will to entail it in his family; but it passed to strangers before the Revolution.

2 Named in honor of Wm. H. Denning, former proprietor of a large part of the town.

8 The first sawmill was built in 1827, and the first tannery in 1850, at Dewittsville, by De Witt & Reynolds.

4 "Spnus," as known by the Dutch, included both Kingston and the country s. of the Rondout. Their descendants still designate Kingston as "Sopus," and the corporate town above bamed as "Klein Sopus," or Little Sopus. The word is of Indian

origin. The Esopus Indians—who lived in this region when first known to the whites—were of the Algonquin stock, and were allied to the Mohegan and the other river tribes.

6 Along the bluffs that overlook the Hudson are several fine country residences. Two lighthouses are built in the river opposite this town.
6 Named from John Ewen, President of the Penn. Coal Company. The village was laid out in 1851; nearly all of the inhabitant are more or lose intracted in the coal trade.

pany. The Yillage was laid out in 1851; hearly all of the inhabitants are more or less interested in the coal trade.

7 Johannes Louw was born in 1681; Baltus Terpening and
Tryntje Van Vliet were married in 1682. These, so far as is
known, were the first birth and marriage in town. Wm. Hinman taught a school, at the Hook, in 1763. A mill was built
on Black Creek prior to 1800. A cotton factory was built at
Dashville in 1828, and the one now at Arnoldton in 1830; the
former is standing idle. former is standing idle.

8 There are 6 churches in town; 3 Ref. Prot. D., M. E., Prot. E., and Friends.

9 Named in honor of Addison Gardiner, formerly Lieut. Gov.

center and w. The Shawangunk Mts. extend along the w. border. The Wall Kil flows N. E. through near the center and receives Shawangunk Kil from the s.w. The soil is principally a gravelly loam, with clay and alluvium along the streams. Lumber and leather are manufactured to some extent. Tuthilltown, (Tuthill p.o.,) upon Shawangunk Kil, near its mouth, contains 20 dwellings.2 Libertyville, (p. o.,) on the N. line, and Jenkinstown are hamlets. The first settlement was made at an early period, by a colony of French Huguenots. The first church was formed in 1833; Rev. Wm. Brush was the first preacher.

HARDENBURGH3-was formed from Denning and Shandaken, April 15, 1859. It lie in the extreme w. corner of the co. Its surface is a broken and mountainous upland, the highest sun:mits being 2,000 ft. above tide. It occupies a portion of the watershed between the Hudson and Delaware. Beaver Kil, Mill Brook, and Dry Brook take their rise in the town. Dry Brook (West Shandaken p. o.) is a hamlet.

HURLEY4—was granted by patent Oct. 19, 1708.5 A part of the Hardenburgh Patent was released by Margaret Livingston, and was annexed March 3, 1789; and a part of New Paltz was taken off in 1809, a part of Esopus in 1818, a part of Olive in 1823, a part of Rosendale in 1844, and a part of Woodstock in 1853. It is an interior town, lying N. E. of the center of the co. The surface is a rolling and moderately hilly upland, the highest summits being about 700 ft. above tide. Esopus Creek flows N. E. through the s. part. Along its course are extensive fertile flats. The soil is a sandy loam, a considerable portion lying N. of the creek being unfit for cultivation. Stone quarrying is extensively carried on.6 Hurley, (p.v.,) on Esopus Creek, contains a church and 160 inhabitants; and West Hurley, (p.v.,) in the N. part, 2 churches and 25 dwellings. The first settlements were made by the Dutch, about 1680.8 This town became the refuge of the inhabitants of Kingston when the latter place was taken by the British in 1777. The first church (Ref. Prot. D.) was formed in 1800; Rev. Thos. G. Smith was the first pastor.9

KINGSTON—was incorp. by patent May 19, 1667, and was recognized as a town May 1. 1702.10 Fox Hall Patent was annexed March 12, 1787.11 Esopus and Saugerties were taken off in 1811; a part of Esopus was annexed in 1818, and a part was annexed to Saugerties in 1832. It lies upon the Hudson, N. of the center of the co. Its surface is broken and hilly, the highest summit being Kuykuyt or Lookout Mt., about 600 ft. above tide. Esopus Creck flows N. E. through near the center, receiving Saw Kil from the w. as tributary. Rondout Creek forms the s. boundary. The soil is principally a clayey loam. A large business in coal, ice, and stone is carried on by the canal and river. Kingston, (p.v.,) upon Esopus Creek, 2 mi. w. of the Hudson, was incorp. April 6, 1805. Besides the co. buildings, it contains 8 churches, the Kingston Academy, several private seminaries, <sup>12</sup> 3 banks, 1 savings bank, 4 newspaper offices, and several small manufactories. <sup>13</sup> Pop. 3,971. **Rondout**, <sup>15</sup> (p. v.,) upon the Hudson, at the mouth of Rondout Creek, was incorp. April 4, 1849. It is the center of an extensive trade upon the river and canal.14

<sup>1 &</sup>quot;The Traps" is a deep pass or gully, 650 ft. wide, extending

through these mountains.

2 A woolen factory was built at this place at an early period.

3 Named in honor of Johannes Hardenburgh, the patentee of an immense tract in this and adjoining cos. This town has been formed since the statistics for this work were obtained.

<sup>&</sup>lt;sup>4</sup> Named from Geo. Lovelace's family, who were Barons Hurley in Ireland.—Benson's Memoir, p. 49. In early times it was called "Hurley Common."

called "Hartey Common."

5 The patentees of this tract were Cornelius Kool, Adrien Garretsie, Matthew Ten Eyck, Jacobus Du Bois, Johannes Schepmoes, Roeloff Swartwout, Cornelius Lammerse, Peter Petersies, Lawrence Osterhoudt, and Jannetie Newkirk. The successors of the original trustees afterward bought 300 acres for the benefit of the corporation. An act of April 4, 1806, appointed John A. De Witt. Levi Johnston, and a third person, to be named by the freeholders, to sell these lands and make a partition among the

owners.

6 The stone obtained from these quarries is used for building and flagging. The business gives employment to several hun-

dred men.
7 Some of the buildings at this place are nearly 200 years old.
A wire suspension bridge 160 ft. long here crosses the Esopus. A wire suspension bringe for it, long net crosses the assolva-8 Among the early settlers were families named Crispell. Du Bois, Cole, Newkirk, Schepmoes. Ten Eyck, Wynkoop, Elmen-dorf, Roosa, Constable, Louw, Delamater, and others,—mostly from Holland and Belgium. In 1719 the following persons held the office of trustees of the corporation:—Cornelius Kool, Adrien Garretaie, Jacob Du Bois, Barnabas Swartwout, Jacob Rutse, Nicolaes Roosa, and Charles Wyle. The first inn of which there is definite knowledge was kept about 1760, by Charles De Witt, at Hurley Village. Two gristmills were crected soon after

the first settlement.

There are 3 churches in town; 2 Ref. Prot. D., and M. E.

<sup>10</sup> Called by the Indians "Atkankarten,"—said to signify smooth 10 Called by the Indians "Alkankarten,"—said to signify smooth land. It was more commonly called Esopus, from a tribe of Indians that inhabited it. Gov. Stuyvesant granted it a charter, May 16, 1661, under the name of Wiltwyck, (Indian Town,) and relieved it from dependence upon Fort Orange. Its affairs were to be managed by a sheriff and 3 schepens. Roeloff Swartwort was appointed first sheriff, and Evert Pels, Cornelius Barentsen Sleight, and Ellert Heymans Roosa, the first schepens. Appeals from their decisions might be made to the Director General and Council in New Netherlands. The sheriff and commissioners were to hold a court every fortnight, except in harvest time, unless occasion or necessity might otherwise require. All criminal cases were to be referred directly to

except in harvest time, unless occasion or necessity might otherwise require. All criminal cases were to be referred directly to the Director General and Council, except the lesser crimes,—as quarrels, injuries, scolding, kicking, heating, threatenings, simply drawing a knife or sword, without assault or bloodshed,—which might be prosecuted in the lower court.

If Fox Hall Patent was issued to Thomas Chambers, May 21, 1667, with manorial privileges. Chambers first settled on the tract now occupied by Troy, as a tenant under Van Rensselaer He removed in 1652 to Esopus, acquired a large estate by trade, and rendered efficient service in the war against the Indians. He died in 1698. The district still bears the name of "Fox Hall." 12 The Golden Hill Seminary and the Brookside Female Semi

and rendered efficient service in the war against the indians. He died in 1698. The district still bears the name of "Fox Itall." <sup>12</sup> The Golden Hill Seminary and the Brookside Female Seminary, two private boarding schools, are located at this place. <sup>13</sup> The Newark Lime and Cement Manufacturing Co., organized in 1848, has 2 manufactories at Newark. N. J., and one at Ron dout, N. Y., producing in the aggregate 750,000 barrels annually <sup>14</sup> The principal trade is that of stone, obtained from the neigh

The principal ratio is stated to stone, obtained what the negation boring quarries.

16 Formerly named "The Strand" and "Kingston Landing." When the canal was located, it was named "Bolton," from the ner president of the canal company; but its present name was adopted soon after. It is the Dutch name for redout. It was,

It contains 8 churches, a bank, and newspaper office. The people are principally engaged in the coal trade; and a large number of steamers, barges, and sailing vessels are constantly engaged in freighting coal, stone, and cement from this place.1 The Newark Lime and Cement Manufacturing Co. manufacture a larger amount of waterlime and cement annually than is produced at any similar establishment in the country. Pop. 5,978. Eddyville, upon Rondout Creek, 21 mi. from its mouth, contains a cement factory2 and about 50 dwellings. It is the N. terminus of the D. & H. Canal. Wilbur, (p. v.,) on the Rondout, below Eddyville, contains about 100 houses. It is the center of an immense trade in flagging stones. Fly Mountain is a p.o. Dutch Settlement is a hamlet in the N. part. Flatbush contains a cement factory. The Dutch built a trading and military post here as early as 1614; but every thing was swept away in the wars of 1644-45. Another settlement was commenced in 1652, and abandoned in The first permanent settlers came in soon after, but suffered much from Indian hostilities for several years.<sup>5</sup> Feb. 19, 1777, the first State Convention adjourned from Fishkill to Kingston. On the 9th of September following, the State Legislature convened here, but dispersed upon the approach of a British force under Sir Henry Clinton on the 7th of Oct. At that time the public records were hastily removed to the back settlements, and the place was burned.<sup>6</sup> The first church (Ref. Prot. D.) was formed May 30, 1658. There are 18 churches in town.7

**LLOYD**—was formed from New Paltz, April 15, 1845. It lies upon the Hudson, s. of the center of the co. Its surface is mostly a rolling and hilly upland, terminating in a bluff upon the river; and the average height of the surface above tide is about 200 ft. Swarte Kil flows N. along its w. boundary and Black Brook N. through the center. The soil is generally a clay and gravelly loam. The bluffs along the river are principally occupied by fine country seats. New Paltz Landing, (p. v.,) upon the river, contains 2 churches and 50 houses; \* Centerville (Lloyd p. o.) a church and 17 houses. Lewisburgh is a hamlet on the river, s. of New Paltz Landing. Riverside is a p.o. in the N. E. part. The date of first settlement in this town is quite ancient; but most of the details of the first years are lost. It was originally named "Paltz." The first church (M. E.) was formed in 1787. There are 3 churches in town; 2 M. E. and Presb.

MARBLETOWN—was formed by patent June 25, 1703.9 It was first recognized as a town March 7, 1788. A part of Olive was taken off in 1823, and a part of Rosendale in 1844. It is near the geographical center of the co. The surface is a hilly upland, broken by the valleys of the streams. Stone Ridge, near the center, the highest summit, is about 400 ft. above tide. Esopus Creek flows through the N. part, and Rondout Creek through the S. E. corner. The soil is chiefly a clay and sandy loam. A quarry of Shawangunk grit has been opened, and a sulphur spring has been found near the line of Rosendale. Stone Ridge, (p. v.,) s. E. of the center, contains 2 churches and 80 houses; Kripplebush, (p. v.,) in the s. part, a church and 12 houses. High Falls<sup>10</sup> is a hamlet upon the canal. Marbletown is a p. o. Bruceville (High Falls p. o.) is a small canal village on the line of Rosendale, in the s. E. corner. The first church (Ref. Prot. D.) was formed in 1738.11

MARLBOROUGH—was formed as a precinct, from Newburgh Precinct, March 12, 1772.

at an early period of its growth, a maze of crooked lanes, bor- 10 days after passing the barriers at the Highlands they amused dered by rude shanties and inhabited by a floating population of Irish laborers. The village still contains a large proportion of Irish, and has a large and increasing number of German inhabitants. Its appearance has much improved within a few

years.

1 About 20 steamers are engaged in the freighting business of 1 About 20 Steamers are engaged in the freighting considered this place. Lines of steamers also run regularly to Albany, New York, and intermediate places. A steam terry connects the place with Rhin-beck, on the g. bank of the Hudson.

2 The Lawrence Cement Co. manufacture 90,000 barrels of

cement annually.

3 The aggregate amount of this trade is more than \$250,000

per annum.

4 The Kingston and Rosendale Cement Co. manufacture 70,000 barrels of cement annually.

barrels of cement annually.

5 The site of the first Dutch fort is said to be upon a plateau in the w. bounds of Rondout. The locality is still called by its Indian name, Ponkhockie, said to signify "Canoe Harbor." On the 7th of June, 1663, as most of the people were at work in the fields, the Indians made a sudden attack upon the fort, (which was carelessly left open), killed 18, and carried away 42 as prisoners. Capt. Chambers rallied the men, drove out the Indians, and commenced a war in which the cautives were mostly reclaimed commenced a war in which the captives were mostly reclaimed and the Indians nearly exterminated. The first marriage on the church record was that of Jan Janse Timmermans and Catharine Mattyson, Oct. 3, 1660.

6 The British force under Gen. Vaughan. consisting of 3,000

10 days after passing the parriers at the Highlands they amused themselves by burning and plundering the places along the river. They took possession of Kingston Oct. 17, and, after plundering it several hours, they burned every house but one. The houses were mostly of stone, and the woodwork was easily replaced after the retreat of the British. Several of the early the forest of the Lordick they were held at this place, and the first meetings of the Legislature were held at this place; and the first

State Constitution was formed here.

7 2 Ref. Prot. D., 2 M. E., Bap., Prot. E., Presb., and Jewish, at Kingston; 2 M. E., Presb., Germ. Evang. Luth., R. C., Bap., Prot. E., Ref. Prot. D., and Jewish, at Rondout; and M. E. at Eddyville.

8 A ferry connects this place with Poughkeepsie.

This patent was granted to Col. Henry Beekman, Capt. Thos. Gaston, and Capt. Chas. Brodhead, in trust for the inhabitants. Trustees continued to be annually elected until 1808. The records of 1703 contain the names of the following petitioners for grants of land:—Mosys Du Puy, Thomas Vandemarke, Loondart Kool, Richard Wilson, Jeremy Kettell, jr., Gysbert Roosa, Wm. Nottingham, John Cock, sen., and Capt. Eichard Roothead

Richard Brodhead.

10 The Ogden Rosendale Cement Co. manufactures 109,000 harrels annually, and employs 70 men; D. S. Ogden. President. The falls on the Rondout are here about 50 feet high, affording

a great amount of water-power.

11 The census reports 5 churches in town; 3 Ref. Prot. D. and 2 M.E. Rev. Derick Romeyn and Rev. J. R. Hardenburgh (afterward Pres. of Rutgers College) were both pastors of the men, was sent up the river to co-operate with Burgoyne. For Ref. Prot. D. church at Stone Ridge.

and as a town, March 7, 1788. Plattekill was taken off in 1800. It lies upon the Hudson, in the s. e. corner of the co. Its surface is broken and hilly. Marlborough Mt., a rocky ridge along the w. border, is about 1,000 ft. above the river. The streams are principally small brooks flowing directly into the Hudson. The soil is a slaty loam. Milton, (p. v.,) upon the Hudson, in the N. part, contains 5 churches and about 75 dwellings. Marlborough, (p. v.,) in the s. part, contains 2 churches, several manufactories,2 and about 50 dwellings. Lattingtown is a hamlet. The date and statistics of the early settlement have not been ascertained. The first church (Presb.) was formed Jan. 1, 1764. Antwerp Raspberries are extensively raised.

NEW PALTZ4—was granted by patent by Gov. Andros, Sept. 29, 1677.5 Its bounds were enlarged April 1, 1775, and a part of Hurley was annexed Feb. 2, 1809. A part of Esopus was taken off in 1842, a part of Rosendale in 1844, Lloyd in 1845, and a part of Gardiner in 1853. It is an interior town, lying s. E. of the center of the co. Its surface is mostly a hilly upland. The Shawangunk Mts. extend along the w. border. Paltz Point, the highest summit, is 700 ft. above tide. Wall Kil flows N. E. through near the center; it is bordered by wide, fertile flats. The soil is generally a fine quality of sandy loam. Hay is one of the principal products and exports. New Paltz, (p. v.,) upon Walkill, near the center, contains the New Paltz Academy, 2 churches, and 45 dwellings. Butterville, Ohioville, and Springtown are hamlets. The first settlements were made by a colony of French Huguenots, a few years before the date of the patent. The oldest church record is in French, and bears date of 1683. There are 3 churches in town; Ref. Prot. D., M. E., and Friends.

OLIVE—was formed from Shandaken, Marbletown, and Hurley, April 15, 1823. A part was annexed to Woodstock, and a part of Woodstock was annexed, in 1853. It is an interior town, lying a little N. W. of the center of the co. The surface is mountainous in the N. and W. and hilly in the s. and E. A considerable portion of the mountainous region is too rough for profitable cultivation. Esopus Creekflows s. E. through the town, a little N. of the center. The soil is a sandy, gravelly, and clayey loam. Lumbering and tanning are largely carried on. Shokan, (p. v.,) upon the creek, N. of the center, contains 2 churches and 20 houses; Samsonville, 10 (p. v.,) on the s. line, a church, tannery, and 30 houses; Olive, (p. v.,) in the N. E. corner, a church and 25 houses; and Olive City, (Olive Bridge p. o., ) on the creek, near the center, a tannery and 20 houses. The first settlements were made in the Esopus Valley, in 1740.11 The first church (Ref. Prot. D.) was formed at Shokan, in 1800.12

PLATTEKILL<sup>13</sup>—was formed from Marlborough, March 21, 1800. A part of Shawangunk was annexed April 3, 1846, but was restored March 28, 1848. It lies upon the s. border of the co., near the s. E. corner. Its surface is broken by a series of ridges of an average elevation of 300 ft. above the valleys. Its streams are small brooks and creeks. The soil is a fine quality of sandy and gravelly loam. Plattekill, (p.v.,) near the s. line, contains a church and 25 dwellings; Clintondale, (p. v.,) in the N. part, on the line of Lloyd, a church and 20 dwellings; Flint, (New Hurley p.o.,) in the s. w. corner, on the line of Shawangunk, a church and 15 dwellings, and Modena, (p. v.,) near the N. w. corner, 16 dwellings. The first settlements were made about

<sup>1</sup> This place is situated at the head of a deep, rocky gorge | opening down toward the Hudson.

2 About 15,000 wheelbarrows and \$40,000 worth of agricultu-

ral implements are manufactured annually.

ral implements are manufactured annually.

§ The census reports 9 churches in town; 2 Presb., 2 M. E., 2 Friends, Prot. E., Bap., and Christian.

§ Pronounced New Pawltz, and named from Pfalz, the German name of the Palatinate.

§ The patentees of this tract were Lewis Du Bois, Christian Deyo, Abraham Hasbroeeq, Andries Le Fevre, Jean Brocq, Pierre Deyo, Lawrens Beverie, Anthony Crespel, Abraham Du Bois, Hugo Frere, Isaac Du Bois, and Simon Le Fevre.

§ The valley of Wall Kil was discovered by one of the parties engaged in pursuing the destroyers of Wiltwyck, in the summer of 1663. The persecuted exiles from France, who first sought refuge in Germany, and thence enigrated to America, decided upon settling here. They bought the land of the Indians May 26, 1677, and soon after they settled in their new homes. In 1728, the owners of the patent intrusted its care to 12 trustees, known as "The Twelve Men." These trustees were elected annually, until the organization of the town under the 12 trustees, known as "The Twelve Men." These trustees were elected annually, until the organization of the town under the State Government. The Twelve Men in 1785 were Simon Du Bois. Jacobus Hasbrouck, Johannis Freer, Jacob Hasbrouck, Johannis Freer, Jacob Hasbrouck, Famuel Bevier, Benjamin Deyor, Isaac be Fever, Matthew Le Fever, and Abraham Ein. By act of March 31, 1785, the allot-

ments made by the Twelve Men were confirmed. Their "Common Book" was to be retained by the Surveyor General until a convenient time, and then it was to be deposited with the co.

convenient time, and then it was to be deposited with the co. clerk of Ulster co., to be forever preserved. Its records are deemed authentic evidence in court.

7 The towns of Olive, Rochester, and Denning, corner on a bill which is about 2,700 feet above tide. Shokan Point is about 3,100 feet high; and the average elevation of the low-lands is 800 feet above tide.

8 There are 4 extensive tanneries in town, one of which, owned by Pratt & Samson, is the largest oak tannery in the co. It produces 70,000 sides of sole leather annually.

9 Pronounced Sho-kan!.

10 Named from Gen. Henry A. Samson.

<sup>10</sup> Named from Gen. Henry A. Samson.

11 Geo. Middagh settled in 1740; Samnel Cox, in 1742; William

11 Geo. Middagh settled in 1740; Samnel Cox, in 1742; William "Heeo, Middagh settled in 1740; Sammel Cox, in 1742; William Nottingham, in 1745,—all near Give Bridge; John Crispell, in 1747, a little E. of Shokan; Hendrick Crispell, at Shokan, in 1760; John Coons, in 1775; and Thos, Bush, in 1755, so Olive City. The first inn was kept at Olive Bridge, by Conrad Dn Bois; and the first store, sawmill, and gristmill, by Lemuel Winchell, at Winchells Falls. Three sens of Frederick Bush were carried off by the Indians in 1781. Two were killed, and the third returned. The early history of this town is blended with that of Markhet and

with that of Marbletown.

12 The consus reports 4 churches; 2 Ref. Prot. D., Bap., M. E.

13 Pronounced Plaw-ta-kill, and signifies "Flat Brook."

the commencement of the last century. The first church (Ref. Prot. D.) was formed in 1770; Rev. Stephen Goetschius was the first pastor.1

ROCHESTER<sup>2</sup>—was incorp. by patent June 25, 1703, and organized as a town March 7, 1788. A part of Middletown (Delaware co.) was taken off in 1789, Neversink (Sullivan co.) in 1798, Wawarsing in 1806, and a part of Gardiner in 1853. A part of Wawarsing was annexed March 21, 1823. It is an interior town, lying a little s. w. of the center of the co. Ranges of mountains extend along the E. and W. borders, and a rolling upland occupies the central portions. Rondout Creek flows N. E. through the s. part, and receives as tributaries Sander Kil, Peters Kil, and several other streams. Vernooy Creek flows s. through the w. part. The soil upon the uplands is a gravelly loam, and in the valleys a sandy loam mixed with clay. The Delaware & Hudson Canal extends along the valley of Rondout Creek. Esopus millstones are largely quarried in this town. An extensive cave near Kyserike has been explored about half a mile. Alligerville and Port Jackson are small villages upon the canal. Accord and Kyserike are p. offices. The first settlements were made about 1700, by the Dutch. The first church (Ref. Prot. D.) was formed soon after the first settlement. There are now 2 churches in town; Ref. Prot. D. and M. E.

ROSENDALE—was formed from Marbletown, New Paltz, and Hurley, April 26, 1844. It is an interior town, lying E. of the center of the co. Its surface is a rolling and broken upland, the highest summits being 200 to 500 ft. above the valleys. Rondout Creek flows N.E. through near the center, and receives Coxing Kil from the s. and Kottie Kil from the N. The Delaware & Hudson Canal extends along the valley of the Rondout. The soil is principally a sandy loam. The manufacture of cement has become one of the most important branches of business.<sup>5</sup> There are six cement manufactories in town. Rosendale, (p. v., ) upon the creck and canal, contains 2 churches and 450 inhabitants; Lawrenceville, 1 mi. w., 40 houses; Bruceville, (High Falls p.o.,) upon the line of Marbletown, about 30 houses. Creek Locks, a canal village, on the E. border, and Whiteport, in the N. part, each contains about 20 houses. The first settlements were made by the Dutch, about 1700.6 The first church (Ref. Prot. D.) was formed in 1797; Rev. Thos. G. Smith was the first preacher.

SAUGERTIES<sup>8</sup>—was formed from Kingston, April 5, 1811. An error in the boundary was corrected June 8, 1812, and a part of Kingston was annexed April 2, 1832. It lies upon the Hudson, in the N. E. corner of the co. The surface is rolling in the E. and hilly in the center and w. The hills upon the river and extending 2 mi. back are underlaid by limestone, from which quicklime and cement are manufactured. Farther w. are quarries of fine flagging stone. Platte Kil flows through the town in a tortuous course and forms the principal drainage. Kaaters Kil flows along the N. border. The soil along the river is a clayey loam, and upon the uplands a sandy and gravely loam. Quarrying is extensively carried on. Saugerties, (p. v.,) upon the Hudson, at the mouth of Esopus Kil, was incorp. April 26, 1831, as "Ulster." Its name was changed April 10, 1855. It contains the Saugerties Academy, 7 churches, a newspaper office, and several extensive manufactories. Pop. 3,334. Malden, (p. v.,) upon the Hudson, 2 mi. n. of Saugerties, is the seat of an extensive stone trade. Pop. 350. Glasco, (p. v.,) upon the Hudson, 3 mi. s. of Saugerties, is the seat of an extensive brick manufactory and stone trade. Pop.

1 There are 7 churches in town; 3 M. E., Wes. Meth., Ref. Prot.

man, Joachim Schoonhaker, and Mosys Dn Puy.

4 In 1703 the following persons resided in town:—Van Gerritse
Decker, Lodewyck Hornbeck, Leendart Kool, sr., Anthony Hornbeck, Wm. De La Montaigne, Teunis Oosterhout, Jan Cartwright,
Gysbert Van Garde, Andries Davies, and David Du Bois. Teunis
Oosterhout had a "corne mill" on Mombaccus Kil, in 1743.

5 More than one-half of the cement made in the co. is manufactured in this town. The water-limestone quarries may be said to constitute the wealth of the town. The cement manufactories are as follows:-

Newark and Rosendale Lime and Cement Co., at White-125,000 40.000 40.000 David S. Ogden, 28,000 Luther Hoffman, " " " "

Works employs 300 hands night and day, and manufactures 6,000 tons of bar and hoop iron annually. The paper mill employs 125 hands, and turns out 600 tons of paper annually. The White Lead Works employs 40 men, and manufactures 1,500 tons of paint annually. A steam mill for dressing stone turns out 1½ tons daily. The village is also largely engaged in comerce. About 30 sail-vessels are employed in exporting stone and brick. A steam ferry plies between this place and Tivoli station on the Hudson River R. R., and a daily steamer runs New York.

9 It is estimated that 2,000 persons are employed in quarrying, dresying, drawing, and shipping stone from this town. The

8 This name is said to be derived from the Dutch "Zagger," a

sawyer, from a sawmill built by Robert Livingston on Saw Kil. Ebenezer Wooster first used the name in 1749, when surveying the bounds, of the Hardenburgh Patent.

In 1826, Henry Barclay, of N. Y., purchased the present site of the village, and the water-power. He bnilt a dam and constructed a race which made a fall of 47 feet. He soon after built

structed a race which made a latter the contact are a rolling mill, paper mill, and cotton factory. The last named has since been changed to a white lead factory. The Ulster Iron Works employs 300 hands night and day, and manufactures 6.000 tons of bar and hoop iron annually. The paper mill employ that the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of the contact of th

ing dressing, drawing, and shipping stone from this town. The varieties are chiefly flagging and curb stone; but cut stone for many uses is also sold. About a half million of dollars' worth stone is shipped annually from Saugerties, Malden, and

A Le 1009 the following regressor weighted in town. Van Garriton

about 300. West Camp, (p.v.,) upon the Hudson, in the N. part, contains a church and 15 houses. Quarryville, (p. v.,) in the N. part, and Unionville, near the center, each contains about 300 inhabitants, who are mostly engaged in getting out stone from the neighboring quarries. Glenerie, upon the s. line, Van Akens Mills, near the center, and Ashbury, are small villages. The first settlements were made by the Dutch, at an early period; but the largest immigration was that of the German Palatinates, a colony of whom located at West Camp in 1710. The first church (Luth.) was organized at West Camp, in 1711. There are now 15 churches in town.2

SHANDAKEN<sup>3</sup>—was formed from Woodstock, April 9, 1804. A part was annexed from Neversink (Sullivan co.) in 1809. A part of Olive was taken off in 1823, Denning in 1849, and a part of Hardenburgh in 1859. It is the n. w. corner town of the co. Its surface is mostly a mountainous upland, broken by deep ravines. The declivities are steep and rocky, and a large share of the surface is too rough for profitable cultivation. The town is not inhabited except along the valleys, the mountain region being left to wild beasts and hunters. The soil in the valleys is a clay and sandy loam. The principal branches of business pursued are lumbering, shingle making, and tanning. Shandaken, (p.v.,) in the N. part, contains a church, a large tannery, a sawmill, gristmill, and 20 houses; Pine Hill, (p.v.,) in the N. w. part, a sawmill, gristmill, tannery, and 15 houses. Ladews Corners, (The Corner p. o.,) in the extreme E. angle of the town; Phœnicia, (p. o.,) in the N. E. corner; and Woodland, (p. o.,) s. E. of the center, are hamlets. At each of these places, and at several other points in town, are extensive tanneries.<sup>5</sup> The first settlements were made before the Revolution.<sup>6</sup> There are 2 churches in town; Ref. Prot. D. and M.E.

SHAWANGUNK<sup>7</sup>—was formed as a precinct Dec. 17, 1743, and as a town March 7, 1788. A part of Gardiner was taken off in 1853, a part was annexed to Plattekill in 1846 and restored in 1848. It is the central town upon the s. border of the co. The surface is a hilly and broken up-The Shawangunk Mts., extending along the w. border, are about 2,000 ft. above tide. The Shawangunk River forms about ½ of the s. boundary, and flows N. E. through near the center, receiving Dwaars Kil8 from the w. Wall Kil flows N.E. through the E. part, receiving Muddy Kil from the E. and Dwaars Kil from the w. The soil is generally a gravelly loam. Shawangunk, (p. v.,) in the s. E. part, contains a gristmill, sawmill, spoke factory, and 20 houses; Ulsterville, (p.o.,) in the s. w. part, 10 houses; and Galeville Mills, (p.o.,) on Wall Kil, a church, sawmill, gristmill, and 10 houses. Dwaarskill, near the center, is a p.o. Bruynswick, (p.o.,) on the N. line, contains a church and 10 houses; Jamesburgh, (p. v.,) near the extreme w. angle, a church and 12 houses. New Hurley (p.o.) is a hamlet, on the line of Plattekill. The first settlements were made along the valley of Shawangunk River, by the Dutch, between 1680 and 1700.9 New Fort is a locality where two Indian battles were fought in 1663. The first church (Ref. Prot. D.) was formed Oct. 10, 1753; Rev. V. Vroomau was the first pastor. 10

WAWARSING11—was formed from Rochester, March 14, 1806. A part was re-annexed to Rochester in 1823. It is the s. w. corner town in the co. Its surface is mostly a mountainous upland, broken by several deep valleys. The Shawangunk Mts. extend along the E. border; and spurs of the Catskills occupy the central and w. parts. The highest peaks are 2,000 to 3,000 ft. above tide. The mountainous portions in the E. and N. w. corners are rocky and precipitous and

<sup>1</sup> Christ'n Myers and brothers settled at a place called "Churchland." just w. of Saugerties Village. Martin Snyder settled at the same place, and G. W. Dedrick at West Camp: Aaron Newkirk and Felte Fiero in the same vicinity,—all in 1700, Dedrick Marrtesstock settled at "Kaatsban" in 1728. Peter Winne, Edward Woods, Myndert Mynderse, B. Barham, Jacobus Pearsen, Myndert Schutt, Godfrey Denolfen, and others, were early settlers. On the 18th of May, 1711, there were 14 Palatinates at "Elizabethtown," 111 at "Georgetown," and 321 at "New Village," in this town. The settlers afterward mostly removed to the valleys of the Schobarie and Mohawk.
24 Ref. Prot. D., 4 M. E., Germ. Meth., Bap., Cong., Prot. E., R. C., Luth., and Presb.
Said to signify "Rapid Water."
4 The road from Shandaken to Lexington is constructed through a pass 4 mi. long and in some places scarcely 500 feet wide, and abounding in picturesque scenery. It is through the watershed between Esopus and Schobarie Creeks.
6 200,000 sides of leather are annually manufactured in this town.

town.

<sup>6</sup> John Longyear, Cornelius Furlough, Jacob Brink, Coonradt
Wisner, and Frederick Markle, all settled before the war.

Witherspoon taught school at The Corner at an early period.

<sup>7</sup> Pronounced Shawn-gum, and said to mean "white rocks." The kil or creek receives this name from large white rocks at its junction with Wall Kil; and it was applied from the stream to the mountain and town. Another version is that it is named the mountain and town. Another version is that it is named from the Shawan, a southern tribe, and gunk, a mountain,

from the Shawan, a southern tribe, and gunk, a mountain, or. The mountain that extends toward the south.

§ The Dutch applied the term Dwaar to streams that flowed sometimes in one direction and sometimes in another. This phenomenon is true of waters at the mouth only of the stream.

§ Among the early settlers were Jacobus Bruyn, Cornelius Schoonmaker, Abram Schutt, Zachariah Hoffman, Benjamin Smedes, Jacob Decker, John Terwilliger, and Johannes Decker. Along Wall Kil, Robert Kain, Robert Graham. David Davis, Daniel Winfield, Hendrick Van Wegen, and James Penneck settled from 1710 to '30. A school was taught near Bruynswick p. o., between 1730 and '40. The first mill was probably at the junction of Wall and Dwaars Kils, 1 mi. below Shawangunk Village.

§ There are 4 churches in town; 2 Ref. Prot. D. and 2 M. 10 There are 4 churches in town; 2 Ref. Prot. D. and 2 M.

E.

11 Usually abbreviated to "War-sink." It is an Indian word,

an I said to signify "black bird's nest."

too rough for cultivation. The s. w. portion is a hilly upland. Rondout Creek flows in a deep valley from the w. border s. E. to near the center; thence it turns at nearly right angles and flows N. E. to the E. border. It receives from the s. Sandburgh Creek, a stream which drains the w. declivities of the Shawangunk Mts., Beer Creek, and the outlet of Cape Pond, which flows through near the center and empties into Sandburgh Creek. The Delaware & Hudson Canal extends along the valleys of Rondout and Sandburgh Creeks, at the w. foot of the Shawangunk Mts. The soil in the valleys is principally a sandy loam. Lumber, leather, glass, earthenware, iron, and axes are extensively manufactured in different parts of the town. Ellenville, (p.v.,) upon Sand. burgh Creek, at the mouth of Beer Kil, was incorp in Sept. 1858. It is an important canal village, and contains several churches, a high school,2 newspaper office, and an extensive glass factory.3 Pop. 1,700. Napanock, (p. v.,) upon the Rondout, above its junction with the Sandburgh, contains several churches and manufactories,4 and a population of about 700. Homowack, (p. v.,) a canal village, upon the line of Sullivan co., contains a church, glass factory, woolen factory, and 20 houses. **Kerhonkson**, (p. v.,) a canal village, on the line of Rochester, contains a church and 30 houses. Lackawack, (p.v.,) upon the Rondout, in the w. part, contains 2 churches, extensive tannery, and about 40 houses. Greenfield, (p.v.,) in the s. w. part, contains 2 churches, a gristmill, sawmill, tannery, and about 25 houses. Wawarsing, (p.v.,) in the N. E., contains a gristmill, sawmill, tannery, and about 25 houses. Port Benjamin, a canal village, south of Wawarsing, contains about 25 houses. Port Nixon, a village upon Rondout Creek and the canal, in the N. E. part, contains a church and about 25 houses. The first settlements were made about the commencement of the last century, principally by the Dutch.5 During the Revolution the inhabitants were killed, captured, or driven off by the tories and Indians.<sup>6</sup> The first church (Ref. Prot. D.) was formed in 1745; Rev. J. Fryenmoet was the first preacher.7

WOODSTOCK—was formed April 11, 1787, from the settlements of Great and Little Shandaken, which had been attached to Hurley. A part of Middletown (Delaware co.) was taken off in 1789, Windham (Greene co.) in 1798, and Shandaken in 1804. A part of Olive was taken off, and parts of Olive and Hurley were annexed, Nov. 25, 1853. It lies upon the N. border of the co., E. of the center. Its surface is mostly a mountainous upland, too rough for profitable cultivation. Several fine valleys extend through the town, separating the upland into several distinct ridges and peaks. Overlook Mt., in the N. E. corner, is 3,500 ft. above tide. Near its summit is Shues Lake, a beautiful sheet of clear water. The scenery in this vicinity is among the finest in Eastern N. Y. Saw Kil and Beaver Kil are the principal streams. The soil is a clay and slaty, loam upon the uplands and a gravelly loam in the valleys. Woodstock, (p. v.,) in the s. E. part, contains 2 churches, a tannery, and 20 houses; **Bearsville**, (p. o.,) 2 mi. w. of Woodstock, is a hamlet; Lake Hill is a p. o., near the center. The first settlements were made just before the commencement of the Revolution.<sup>8</sup> The first church (Luth.) was formed in 1806.<sup>9</sup>

handmattures ours hims, teamer roners, and min gearing. It employs 25 men.

4 The Napanock Ax Factory employs about 100 men, and manufactures 150,000 axes annually. The Napanock Iron Works employs 50 or 60 men, and manufactures pig and wrought iron and R.R. car axles.

1700 and K.K. car axies.

§ The first settlers were Abram Bevier, John Bevier, from New Paltz, in 1708, Egbert De Witt, Peter Kernoony, and Andries De Witt. An inn was kept by Johannes Bevier before the Revolution. The first store at Wawarsing was kept by Abram Vernooy; the first gristmill was built by Cornelius Vernooy.

§ On the 12th of Aug. 1781, a large party of tories and Indians.

under one Caldwell, appeared in this town. They had formed the design of falling upon Napanock, but, being informed that They had formed that place was defended by a cannon, they came to Wawarsing before the inhabitants were up in the morning. At this place

was a stone fort on the site of B. C. Hornbeck's I ouse. Two men and a young woman discovered the enemy before they reached the fort, and the young woman succeeded in closing the door just in time to prevent it from being burst open by the savages. The latter, finding further attack dangerous, dispersed for burning and plundering the out settlements. Some 5 or 6 dwellings, 7 barns, and a gristmill were burned, and on the next day the enemy withdrew, laden with spoils. Several lives were lost on both sides, and much property was destroyed.—The Indians; or Narratives of Muscacres and Depredations on the Frontiers of Wuwarsink and Vicinity, p. 21.

7 The census reports 11 churches in town; 4 M. E., 3 Ref. Prot. D., 2 R. C., Bap., and Friends.

8 Philip Bonesteel, first innkeeper, settled in 1770; Edward Short, in 176; Peter Short, in 1784; Jacobus Du Bois, Ephraim Van Keuren, Philip Shultis, and Henry Shultis, sen., in 1785; Jno. Hutchens, in 1799; Wm. Elling, in 1786; Mathew Keip, in 1787; and Jacob Montrose at an early day. Robert Livingston built the first sawmill, and J. Montrose the first gristmill. These settlements were much barassed by the Indians during the war.

9 There are 6 churches in town; 3 M. E., Luth., Bap., and Friends. 11 About 10,000,000 ft. of lumber are sent from this town was a stone fort on the site of B. C. Hornbeck's louse. Two

annually.

2 The Ellenville High School, established in 1853. It is a boarding and day school.

3 The Ellenville Iron Works—Wm. H. Bloomer, proprietor—manufactures bark mills, leather rollers, and mill gearing. It

a Formed since 1855.

## WARREN COUNTY.

This county was formed from Washington, March 12, 1813, and was named in honor of Gen. Joseph Warren, of the Revolution. It lies s. and w. of Lake George, near the E. border of the State. It is centrally distant 65 miles from Albany, and contains 968 sq. mi. The surface is very broken and mountainous, less than onehalf being susceptible of cultivation. The mountain ranges are continuations of the great mountain masses which culminate in Essex co. The characteristic features of Essex are somewhat softened and subdued in this co. The mountains are broader, less pointed, and generally less precipitous; the valleys are wider and more connected; and there are larger expanses of comparatively level land. With all these modifications, however, a great part of

the surface is wild and rugged. High, serrated ridges traverse the entire extent of the co., often rising thousands of feet above the valleys. These mountains, being principally composed of primary rocks, which strongly resist the action of the elements, have a steepness of declivity and sharpness of outline in marked contrast with the gradual slopes and beautifully rounded summits of the highlands of the slate and limestone regions. The soil formed by the exceedingly slow process of disintegration is either washed directly into the valleys, or in the course of ages it collects in thin layers upon the hillsides, giving nutrition to a scanty vegetation. Three of the five mountain ranges N. of the Mohawk Valley extend through this co. The Palmertown Range enters the extreme E. part of Queensbury from Washington co. French Mt., a spur of this range, at the s. E. extremity of Lake George, rises almost precipitously from the lake and attains an elevation of 2,500 to 3,000 ft. above tide. Another spur of this range forms the Luzerne Mts., which extend through the s. part of Luzerne and the E. part of Caldwell,-a N. branch extending N. and forming the whole series of high bluffs which border the w. shore of Lake George. The second or Kayaderosseras Range extends N. E. through Stony Creek, Thurman, Chester, and Horicon, sending spurs both N. and S. Crane Mt., in the S. E. corner of Johnsburgh, the highest peak of this range, has an elevation of 3,000 ft. above the surrounding valleys. The third or Schroon Range occupies the central and northerly part of Johnsburgh and the N. w. angle of Chester. It consists of a great number of rocky peaks rising to a height of 2,500 to 3,000 ft. above tide; most of these have never yet been named. The rocks that compose these great mountain masses are principally gneiss. Granite, white crystalline, limestone, and serpentine are found in considerable quantities in the form of injected veins. A belt of this limestone extends along the course of the Kayaderosseras Mts., and from it a good quality of lime is manufactured. In the valleys and in the s. part of the co. are found layers of Potsdam sandstone, black marble of the Black River limestone strata, Trenton limestone, and Utica slate. Many of these rocks are useful for building materials; and the limestone furnishes an abundance of excellent lime. At the foot of a granite ledge upon Crane Mt. is found a bed of very pure porcelain clay, supposed to have been formed by the slow disintegration of the feldspathic rock. Graphite and magnetic iron ore have also been discovered, but not in sufficient quantities to be profitably worked.

The drainage of the co. is mostly through the Hudson River. This stream enters the co. from Essex, in two branches about 10 mi. apart, and these, after flowing through nearly parallel valleys for about 30 mi., unite in one stream. The E. branch is the outlet of Schroon Lake, and the w. forms the drainage of the Adirondack Mts.1 This river has a very rapid course; and upon it are several rapids and falls, two of which are worthy of especial note.2 Lake George3 is

<sup>1</sup> The w. branch of the Hudson was called by the Indians Teo-ho-ken; the E. branch, At-a-te<sup>2</sup>Ka.

2 The High Falls are stuated just below the great easterly bend of the river in the s.w. corner of Luzerne. The water flows in a series of rapids for three-fourths of a mi. over a declining rocky letting and is then compressed into a parrow great for in a series of rapids for three-tourths of a mi. over a decining rocky bottom, and is then compressed into a narrow gorge for 80 rods, at the bottom of which it shoots down a nearly perpendicular descent of 60 ft. The gneiss ledge over which it falls is convex in form, and the water is broken into perfect sheets of snow-white foam. A few rods above the last leap of the water, and where it is rushing with the greatest velocity, the river is a rocky of the water, and where it is rushing with the greatest velocity, the river is

river flows over a shelving rock with a total descent of 50 ft. The fall is broken into three channels by natural piers of black limestone standing upon the brow of the precipice over which the water flows.

3 Called by the Indians Can-i-a-ōe/ri-oit, the tail of the lake. The name "Horicon" has been applied by some modern writers to Lake George, and it is said to be an Indian word meaning "The Lake of Silver Woter." However poetic and appropriate this designation may appear, or however euphonions it may sound, it may be questioned whether a term suggested by fancy alone, and never used by the aborigines, will ever find place among the geographical names of the State as one of Indian origin. epanned by a single plank 13 ft. in length. At Glens Falls the | among the geographical names of the State asone of Indian origin.

situated upon the E. border, and receives the drainage of the E. part of the co. It is 36 mi. long and I to 3 mi. wide.1

The soil of this co. is mostly a thin, sandy loam. The level lands n. of Glens Falls are very sandy, and are known as "pine plains." The declivities of the mountains have a very thin soil, and usually a scanty vegetation. In the valleys is some clay mixed with the sand and disintegrated primitive rocks, forming a deep and excellent soil. Farming and the manufacture of lumber and leather form the leading pursuits of the people. Farming is mostly confined to stock raising and dairying. Immense quantities of logs are floated down the Hudson and manufactured into lumber, shingles, hoops, staves, and heading, at Glens Falls and other places. Black marble is quarried at Glens Falls, and feldspar and kaolin for the manufacture of porcelain, graphite and serpentine are also found in different places. Peat exists in abundance; but it has never been extensively used.

Caldwell, at the head of Lake George, is the county seat.<sup>2</sup> The courthouse was built in 1816-17, with the jail in the basement. The poorhouse is located on a farm of 200 acres in Warrensburgh.<sup>3</sup> The works of internal improvement are the Glens Falls Navigable Feeder, 7 mi. in length, feeding the summit level of the Champlain Canal, and the improvement in the log navigation of the Hudson. There is no R. R. in the co.4 Three newspapers are now published in the co.5

This co. was the scene of some of the sanguinary battles between the French and English long anterior to its settlement. In 1755, a provincial army of 5,000 men, under Sir. Wm. Johnson, designed to act against the French posts on Lake Champlain, assembled at Albany early in June, and were there joined by a large number of Mohawks under King Hendrick. Forts Lyman (afterward Fort Edward) and Miller were built, and a road was opened to Lake George. The news of Braddock's defeat was received before this army left Albany. The expedition set out on the 8th of Aug., by way of Lake George, for Ticonderoga, with the design of erecting a fort there. Learning that the French had anticipated them and had already fortified Ticonderoga, they encamped near the head of Lake George. About the 1st of Sept., Baron Dieskau, the French commander, with a force of 200 grenadiers, 800 Canadian militia, and 300 Indians, passed up South Bay and across the rocky peninsula, with a view of falling upon the rear of the English and of cutting off their supplies from Fort Lyman. On the 8th, a force of 1000 troops under Col. Ephraim Williams, and of 200 Indians under King Hendrick, were sent out to meet them; but, falling into an ambuscade, the greater part of the troops and the two commanders were killed. The survivors fled, and were immediately followed by the French. The firing alarmed the camp, and a breastwork of logs was immediately thrown up, and 300 men, under Col. Cole, were despatched to cover the retreat of the flying fugitives of the first party. Flushed with victory, the French assailed the English camp with great fury, and a sanguinary conflict ensued, which lasted

1 This lake has long been celebrated for its wild and pictu- is 54, who are supported at a weekly expense of 90 cts. 1 This lake has long been celebrated for its wild and picturesque beauty. It is almost completely surrounded by precipitous and rocky mountains, and is studded with little, green islands. Its winding course is marked by a panorama of beautiful and distinct views. At some points high rocky bluffs rise precipitously from the very edge of the water, and at others a little hasin seems scooped out among the hills. Most of the mountain declivities are covered with verdure; but a few of them are masses of naked rocks. This whole region is full of historic interest. Each mountain, precipice, and cape has its own tales and reminiscences of the olden time. Some of the fiercest conflicts of the last long wars between the French and English colosists took place upon its shores, and the pure and fiercest conflicts of the last long wars between the French and English colocists took place upon its shores, and the pure and peaceful waters of this beautiful lake were often ensanguined with the blood of fierce combatants. Again during the Revolution war held high carnival here: but since that period its visitors have been principally the lovers of the wild and beautiful in nature. Sabbath-Day Point and Lord Howes Point are two low beaches upon the w. shore, near the foot of the lake; and Rogers Slide is a precipice upon the w. shore, 200 feet high, rising at an angle of about 25 degrees. Tongue Mt., forming a promontory upon the w. shore, Anthonys Nose, upon the E. shore, and French Mt., near the head of the lake, have each an elevation of more than 2,000 feet.

2 The first courts were held at the "Lake George Coffee House." The clerk's office was located by law within 1 mi. of this place;

The clerk's office was located by law within 1 mi. of this place; and this was made the point from which the sheriff's mileage was reckoned. By an act passed March 31, 1815, three commissionreckoned. By an act passed March 31, 1815, three commissioners were to be appointed by the governor to locate the site of the courthouse and jail and to superintend its erection. The first co. officers were Wm. Robards, First Judge; Henry Spencer, Sheriff, John Beebe, Clerk; Robert Wilkinson, Surrogate; Archibald McMurphy, Wm. Stover, Richard Cameron, and Jirah Skinner. Cromers. Thomas Archibald, the present co. clerk, has held the office without interruption since Feb. 1821.

3 The poorhouse is a two story wooden building. It is 50 years old and in a very dilapidated condition. The annual revenue from the farm is about \$800. The average number of inmates

4 The Lake Ontario & Hudson River R. R. (late the Sackets
4 The Lake Ontario & Hudson River R. R. (late the Sackets
Harbor & Saratoga R. R.) is laid out through the co. along the w. side of the Hudson, and a large part of the grading has been done; but the work is now suspended.

5 The Warren Co. Patriot, commenced at Glens Falls about 1813

b The Warren Co. Putriot, commenced at Glens Falls about 1813 by John Cunningham, was the first paper in the co. A newspaper was begun at Caldwell in 1817 or '18 by Timothy Haskins, which in four or five years was changed to The Guardian. It was a few years after sold to — Broadwell, its name again changed, and in two years after it was removed to Glens Falls.

The Glens Fulls Observer was started in 1828 by E. G. Sidney. In about two years it passed into the hands of Abiel Smith, who changed its name to The Glens Fulls Republican, and afterward to The Warren Co. Messenger. In 1835 it was again changed to The Warren Co. Messenger and Glens Fulls Advertiser, by which name it was continued until 1840, when it appeared as The Glens Fulls Cavion. In 1850 it passed into the hands of Zhalina Ellis, its present publisher, by whom its name was changed to

from 12 m. to 4 p.m. and resulted in the total defeat of the French.\(^1\) Col. Blanchard, who commanded at Fort Lyman, learning the result of the first engagement in the morning, sent a party of about 300 N. H. and N. Y. militia to the scene of the conflict. This party surprised the French camp, and, after dispersing the troops left to guard it, they hastened on to the English camp and arrived in season to assist materially in gaining the victory. This engagement was the only one fought during the campaign of 1755 that reflected the slightest credit upon the British army.

The remainder of the season was spent in erecting Fort Wm. Henry,<sup>2</sup> on the site of the English camp. A projected attack upon Ticonderoga during the winter was prevented by the uncommon severity of the season. In the summer of 1756 a provincial force of 6,000 men assembled here, but too late to effect their purpose. On the 17th of March, (St. Patrick's day,) 1757, the French, under Longee, a famous partisan officer, attempted to surprise the fort, but were successful only in burning a few buildings and several vessels on the lake. Soon after, a party of 400 English, under Col. Parker, marched to attack Ticonderoga; but, falling into an ambuscade, only 72 escaped. Early in the summer of 1757, Montealm, the French commander, made extensive preparations to capture Fort Wm. Henry. On the last day of July, Maj. Putnam discovered a large body of the enemy encamped on an island about 18 mi. down the lake. Gen. Webb, who had immediate command, upon being apprized of the matter, enjoined Putnam to keep the intelligence secret and to prepare to escort him (Webb) back to Fort Edward, leaving Col. Munro in command at Fort Wm. Henry. The enemy soon landed in force and proceeded to invest the fort, The garrison consisted of 2,500 men, and the attacking force amounted to nearly 9,000. Gen. Webb had a force of 4,000 regulars at Fort Edward, only 9 mi. distant, and the militia were rapidly collecting to afford further aid. Col. Munro sent pressing and repeated messages for relief; but Gen. Webb paid no attention to the request, and appeared totally indifferent to every thing but his own personal safety. At length, upon the ninth day of the siege, he allowed Gen. Johnson to march with a body of volunteers to the relief of the garrison; but before the party had proceeded 3 mi. they were recalled, and Gen. Webb sent a letter to Col. Munro advising him to surrender on the best terms he could obtain. This letter was intercepted and given to Col. Munro by Montcalm in person. Thus cut off from hope, and assured by Montcalm that the garrison should march out with the honors of war, with their arms, and one of the four cannon of the fort, with their baggage and baggage wagons, and an escort of 500 men to Fort Edward, he surrendered. The Indians soon began to pillage the baggage, and, not being checked, fell upon the sick and wounded, whom they killed and scalped. Excited by carnage, they next surrounded and attacked the disarmed and defenseless troops; and, although Montcalm was implored to furnish a guard, as promised, the massacre was allowed to proceed until a large number were killed or hurried away prisoners for more deliberate torture.5

In the summer of 1758 an army of 7,000 regulars and 10,000 provincials, under Gen. Aber-

pushed on to Fort Wm. Henry, arriving in the evening. He pro-cured sleds and returned to his suffering comrades, whom he reached the next morning. The party finally reached the fort, after extreme suffering—Rogers's Jour., p. 36.

A part of the garrison were Irish, and could not be restrained from celebrating the day by getting drunk. The fort was de-fended by the vigilance of the rangers, who repulsed the French while the other troops were computed that senses—Rogers's

while the other troops were coming to their senses.—Rogers's Jour., pp. 43, 109.

<sup>1</sup> Gen. Johnson was wounded early in the action, and the command devolved upon Gen. Lyman. The former in his official report, probably from jealousy, avoided mentioning the name or services of the latter, although they were efficient and valuable. Popular report stated the French loss at 760 to 800; but Johnson reported it from 300 to 400. Official accounts place the English loss at 120 killed, 80 wounded, and 62 missing. Dieskau died in England several years after, from wounds received in the engagement.

2 Named in honor of the Duke of Cumberland, brother of the heir apparent, afterward George III.

3 Several incidents worthy of note occurred during this expe-

a Several incidents worthy of note occurred during this expedition. At Halfway Brook a party of teamsters were surprised and captured by 600 of the encmy, who immediately retreated down South Bay. A hundred men, under Capts, Israel Putnam and Robert Rogers, set out from Fort Wm. Henry, crossed over to Lake Champlain, and from an ambuscade poured a destructive fire upon the enemy as they passed. A number were killed, and the English immediately zetreated across to Lake George. The next morning they embarked on the lake, and at Eablath-Day Point they were met by a force of French and Indians three times their own number. The English dashed forward to the attack; and, by reserving their fire until they came into close quarters, they threw the enemy into confusion, and succeeded in escaping, with the loss of one killed and two wounded. In the winter of 1750-57, Maj. Rogers, with 74 men, went down Lake George, and crossed over to Lake Champlain, where he captured a small party of French. On his return he was met on the summit of the hill by a party of 200 French; and a desperate conflict ensued. Maj. Rogers was wounded, and the command devolved upon Capt. Stark, (afterward Gen. Stark of the Revolution.) The conflict continued until nightfall, when the French restret leaving late of the late of the late of the late of the late of the late of the late of the late of the late of the late of the late of the late of the late of the late of the late of the late of the late of the late of the late of the late of the late of the late of the late of the late of the late of the late of the late of the late of the late of the late of the late of the late of the late of the late of the late of the late of the late of the late of the late of the late of the late of the late of the late of the late of the late of the late of the late of the late of the late of the late of the late of the late of the late of the late of the late of the late of the late of the late of the late of late of late of late of late of late of late of l The conflict continued until nightfall, when the French re-treated, leaving half of their number dead upon the field. Of the rangers, 45 remained unwounded; and the company pushed forward through deep snows and reached the lake in the morning. They were now quite exhausted; and Stark, with two others, other armies under Montcalm.

<sup>5</sup> Humanity sickens at the revolting scenes of this day, which have stained the memory of Montcalm with the blackest infamy. A few survivors of the massacre fled for their lives, and suc-Ceeded in reaching Fort Edward in safety. The next day Maj. Putnam was sent with his rangers to watch the motions of the enemy; but he arrived just after they embarked and were beyond enemy; but he arrived just after they embarked and were beyond reach of pursuit. As he came to the shore, the demolished fort, the burning buildings, and the ghastly and mangled corpses of the dead and the feeble groans of the dying, quickly told the dismal story of treachery and barbarity, scarcely less chargeable to the cowardice of Webb than to the perfidy of Montaclm. Writers differ as to the number murdered on this occasion, the estimates varying from 300 to 1,500. It is probably nearer the latter number. There was a tendency among the provincials to exaggerate, and among the regulars to palliate, the occurrences above related. The massacre occurred Aug. 9, 1757. Among the accounts given by eyewitnesses of the scene, that of Jonathan Carver, the well-known traveler, has perhaps been most fre-Carver, the well-known traveler, has perhaps been most frequently quoted. The feelbe attempts that have been made to defend the reputation of Montcalm, under the plea that he exerted himself to restrain the Indian barbarities, find suple refutation in the fact that with five or six times more whites than savages the latter were allowed to proceed namole-sted. If this relatively small number could not be restrained, there must have existed a degree of insubordination incompatible with military success and strangely at variance with the condition of

crombic, proceeded against Ticonderoga by way of Lake George. On the 5th of July the army embarked on board of 900 bateaux and 135 boats, and passed down the lake with all the pomp and pageantry of war; and four days after they returned, shattered and broken, with a loss of nearly 2,000 in killed and wounded. Such of the latter as admitted of removal were sent to Fort Edward; and the main army lay inactive in camp at the head of the lake during the remainder of the season. In June, 1759, Maj. Gen. Amherst, with an army of 12,000 men, advanced to Lake George, and, while waiting to complete his arrangements, he commenced building Fort George, about half a mile E from Fort Wm. Henry.! As Gen. Amherst advanced to Ticonderoga, the French withdrew to Crown Point, and soon after to the Isle Aux-Noix. Quebec fell soon after, and the conquest of Canada was completed the following year, rendering the vast military works at Fort George, Ticonderoga, and Crown Point of no further utility, and allowing the hardy pioneers of civilization to advance and occupy the fertile valleys which as provincial soldiers they had previously traversed.

BOLTON—was formed from Thurman, March 25, 1799. Hagne was taken off in 1807, a part of Caldwell in 1810, and a part of Horicon in 1838. It lies E. of the center of the co., between Schroon River and Lake George. The E. shore of the lake constitutes the E. line, so that more than one-half of the lake is within the limits of this town. The surface is principally occupied by the high mountainous ridges which lie between the lake and Hudson River. There are 3 principal peaks belonging to this range within the limits of the town,-Tongue Mt.,2 on the peninsula between the lake and North West Bay, 2,000 ft. above tide; Pole Hill, in the N. part, 2,500 ft. high; and Cat Head, in the center, 1,500 to 1,800 ft. above tide. The mountains generally rise precipitously from the lake; but toward the w. the surface assumes the character of a high, rolling upland. High up among the hills are numerous little crystal lakes, the principal of which are Trout Lake, Marsh Pond, and Edgecomb Pond. Trout Lake is 1,000 ft. above Lake George. Not more than one-half of the town is susceptible of cultivation. The soil is a thin, sandy loam.3 Bolton, (p. o.,) situated on Lake George, opposite Green Island,4 is a small village. The settlement of the town was commenced in 1792, principally by New England people.<sup>5</sup> The improvements are confined mostly to the vicinity of Lake George. The first church (Presb.) was formed in 1804; the Rev. -- Armstrong was the first settled minister. There are 2 churches in town; Bap. and M. E.

CALDWELL6—(Col'-well) was formed from Queensbury, Bolton, and Thurman, March 2, 1810. It lies around the s. extremity of Lake George. A range of mountains occupies the extreme w. part. The central portion is a high, hilly region, descending abruptly to the lake. Prospect Hill, w. of the s. extremity of the lake, has an elevation of 2,000 ft. above tide. South of this hill a low valley extends s. w., through Caldwell and Luzerne, to the valley of the Hudson near the mouth of Sacandaga River. This depression seems to be a continuation of the valley in which Lake George is situated, and shows that a change of a few feet in the elevation would cause the waters of the lake to flow into the Hudson. In this valley is a chain of small lakes. A narrow strip of low land lies immediately upon the border of the lake. The soil is a sandy loam among the hills, and a dark, rich, sandy and clayey loam on the lowlands. Caldwell, (p. v.,) the county seat, is situated near the head of Lake George. It contains 2 churches, several hotels, and about 50 dwellings. This place is the annual resort of great numbers of tourists and pleasure seekers, who are attracted hither by the beautiful scenery of the lake and the surrounding region. During the summer the steamer Minnehaha plies daily between Caldwell and the foot of the lake. Fort William Henry and Fort George were situated near Caldwell, at the head of Lake George and Bloody Pond, in the s. part. Settlement commenced at the head of Lake George, soon after the conquest of Canada; but its progress was arrested by the Revolution. Soon after the close of the war, settlement was recommenced.7 There are 2 churches in town; Presb, and Union.

<sup>1</sup> Scarcely a vestige of this fort remains, most of the stones of which it was built having been burned for lime.
2 Indian name, At-al'a-po'sa, a sliding place.
3 Within the limits of this town is the most beautiful scenery of the lake. Its channel is studded with a multitude of small of the late. Its channel is studied with a multitude of small silands, some of them consisting of barren, desolate rocks, while others are clothed with the richest verdure. Diamond Island, near the s. extremity of the lake, derives its name from the beautiful quartz crystals that have been found upon it.

4 During the Revolution this island was fortified, and Gen. Burgoyne, when he advanced to the Hudson, left upon it a large amount of while presents grounded by two composities of the

amount of public property, guarded by two companies of the 47th regiment, commanded by Capt. Aubrey. After the partial success which attended the attempt upon Teonderoga in 1777, Cols. Warren and Brown, on the 24th of Sept., made an attack

upon this place with the gunboats they had captured. They were repulsed with loss, and retreated to the E. shore. The enemy being in pursuit, they burned their boats, crossed the mountains to Lake Champlain, and returned to Gen. Lincoln's camp at Pawlet, Yt.

§ Among the first settlers were James Ware, Joseph Tuttle, Rufus Randall, Benj. Pierce, David and Reuben Smith, Eleazer Goodman, Daniel Nims, Frederick Miller, ——Boyd, —— Wright, and Thomas McGee. The first birth was that of Lydia Ware; and the first death, that of Mrs. John Pierce. Sally Boyd taught the first school. the first school.

<sup>6</sup> Named from Gen. James Caldwell, a merchant of Albany, who became a patentee of 1,595 acres, in 4 parcels by grants dated Sept. 18-29, 1787. 7 Among the early settlers were Daniel Shaw, Benoni Burtch.

CHESTER-was formed from Thurman, March 25, 1799. It lies upon the N. border of the co., between Hudson and Schroon Rivers. The surface is broken. The Kayaderosseras Mts. extend through the s. part, and the Schroon Range occupies the N. w. portion. A continuation of the valley of Schroon Lake, extending in a s. w. direction to the w. branch of the Hudson and separating the mountain ranges, contains a chain of small lakes. Loon Lake is the principal one in this valley; and s. of it, among the hills, is another sheet of water, called Friends Lake. Schroon Lake is about 1,000 feet above tide, and the hills that surround it are 500 to 800 feet above its surface. The soil is generally light and sandy. A cave in Mt. Moxon is quite a curiosity, and has some local notoriety. Near the n. border of the town, upon Stone Bridge Creek, is a natural bridge. Feldspar has been quarried to a considerable extent and exported for the manufacture of porcelain. Chestertown (p.v.) contains the Chester Academy and 246 inhabitants; and Pottersville (p. v.) 126. The settlement of this town commenced toward the close of the last century.<sup>2</sup> The first church (Bap.) was organized in 1796; and the Rev. Jehiel Fox was the first pastor. There are now 6 churches in town.3

HAGUE—was formed from Bolton, Feb. 28, 1807, as "Rochester." Its name was changed April 6, 1808, and a part of Horicon was taken off in 1838. It lies upon the shore of Lake George, in the N.E. corner of the co. The surface is very mountainous, not above one-fourth being susceptible of cultivation. The mountains along the lake generally descend abruptly to the very edge of the water. The narrow valleys of Trout and North West Bay Brooks form the line of separation between the two mountain ranges. Ash Grove Hill, upon the w. border, is 2,000 to 2,500 feet above tide; and upon the shore of the lake, in the N.E. corner, is another mountain peak of nearly the same elevation. Rogers Rock is on the lake shore, in the N.E. corner. It rises from the water's edge at an angle of about 45° and attains an elevation of 300 feet.\* Sabbath-Day Point is a headland projecting into the lake near the s. border.5 The soil is a light, sandy loam. Iron ore has been found near Seventh Pond; and mines have been worked to some extent, but they are now abandoned. The beauty of the lake and the solitary grandeur of the mountain scenery of this town render it a favorite resort for hunting and fishing parties and the lovers of the beautiful in nature. Hague, (p.o.,) on McDonalds Bay, and Wardboro (p.o.) are hamlets. The principal improvements are along the lake. The first settlement was made about 1796.7 There is a union church in the town.

HORICON—was formed from Bolton and Hague, March 29, 1838. It lies upon the N. border of the co., E. of Schroon Lake. The greater part of its surface is occupied by the two branches of the Kayaderosseras Mts., which are here divided by the valley of Brant Lake. In the N. and E. these ranges rise, in numerous sharp, rocky peaks, 1,600 to 2,000 feet above tide; but in the s. and w. they sink into a hilly plateau region. About one-half of the surface is arable. Among the hills are great numbers of small lakes, laving with their crystal waters the base of the huge, rocky masses which tower above them. Brant Lake, the principal of them, is 10 mi. long and is everywhere surrounded by precipitous hills. The soil is a sandy loam. Horicon, (p.v.,) situated on Schroon River, in the s.w. part of the town, contains about 20 houses; and Mill Brook, (p.v.,) on Schroon Lake, 15 houses. Aaron Harris, Joseph Gregory, Bishop Carpenter, and Timothy Bennett were some of the earliest settlers.8 The first church (Wes. Meth.) was formed in 1820; Nathaniel Streeter was the first minister. There are 4 churches in town; 2 Bap., M. E., and Wes. Meth.

JOHNSBURGH9-was formed from Thurman, April 6, 1805. It lies upon the bank of the

— Tierce, Andrew Edmonds, Reed Wilbur, Obadiah Hunt, Thaddeus Bradley, Elias Prosser, Nathan Burdick, Geo. Van Deusen, — Butler, and Christopher Potter. The first inn and gristmill were erected by Gen. Caldwell.

¹ The stream, after falling into a basin, enters a passage in two branches under a natural arch 40 feet high and about 80 broad, and emerges in a single stream from under a precipice 54 feet high, 247 feet from its entrance. This bridge is described in Morse's Geography (1796) as follows:—'In the county of Montgomery is a small, rapid stream emptying into Schroon Lake, west of Lake George: it runs under a hill, the base of which is 60 or 70 yards in diameter, forming a most curious and beautiful arch in the rock, as white as snow. The fury of the water and the roughness of the bottom, added to the terrific noise within, have hithertop prevented any person from passing through the chasm.'—Am. Univ. Geog., 508.

² The first actlers were Titus, Jabez, Levi, Gideon, Enos, Jonathan, Daniel, and Caleb Mead, —— Beman, Isaac Bennett, John Haskins. Obadiah and Benj. Knapp, Noel Wightman, James Storbuck, —— Steward, and D. and J. Punderson. The first birth was that of a son of Caleb Mead; and the first death, that of Martin Wightman.

4 This rock, sometimes called Rogers Slide, receives its name from an incident traditionally related of the escape of Maj. Robert Rogers at this place in the winter of 1758. He was surprised at the top of the rock by a band of Indians, and most of his party were cut off; but he escaped by sliding down the rock to the

at the top of the rock by a shad of Indians, and most of his party were cut off; but he escaped by sliding down the rock to the frozen surface of the lake.

It is generally supposed that this name was derived from the fact that Gen. Amherst and his suite, while passing down the lake on their way to Ticonderoga in the summer of 1759, stopped here to refresh themselves upon the Sabbath; but this derivation of the name is doubtful, for it is mentioned in Rogers's Journal, June 28, 1758,—the season before.

On the 29th of July, 1856, the steamer John Jay, while on her way up the lake, was burned near Garfields. Six persons jumped overboard and were drowned; but the rest were rescued by boats from the shore.

Among the first settlers were Abel Rising, Abner Briggs, Elijah Bailey, Samuel Cook, Eliis Denton, Samuel Patchin, John Holman, Isaac and Uriul Balcom, and Uri Waiste.

Howard Waters, Nathan, Benj, and James Hayes, Benj, Hayes 2d, John Robbins, James Frazier, and Benj, Wright were also early settlers. Hannah Reynolds taught the first school.

Hudson, and is the n.w. corner town of the co. Its surface is very broken and mountainous. The Schroon Range occupies the N. and central parts; and a spur of the Kayaderosseras Range extends into the s. Crane Mt., the highest peak of the latter, is about 3,500 feet above tide. The greater part of the town is too rough and broken for cultivation. The arable land is confined to the narrow valleys. The soil is a sandy and gravelly loam. Kaolin, serpentine iron ore, and other minerals are found. There are 3 large tanneries in town. Johnsburgh, (p. v..) on Mill Creek, contains 20 houses; Nobles Corners, on the same stream, 25; North Creek, (p.v.,) on the Hudson, at the mouth of North Creek, 15; and The Glen, (p.o.,) on the Hudson, in the s.E. corner of the town, 7. The first settlement was made soon after the close of the Revolutionary War, by John Thurman, the proprietor of extensive tracts in this part of the State.2 The first church (Bap.) was organized in 1793. There are 4 churches in town.3

LUZERNE—was formed from Queensbury, April 10, 1792, as "Fairfield." Its name was changed April 6, 1808. A strip of territory 1 mi. wide was set off to Queensbury, March 30, 1802. It lies upon the E. bank of Hudson River, in the s. extremity of the co. Two branches of the Luzerne Mts. extend through the town, respectively occupying the N. and s. portions. They are separated by the valley which extends s.w. from the s. end of Lake George. A chain of small lakes lies along its course; and in them two streams take rise, one of which flows to Lake George and the other to the Hudson. About one-half of the surface bordering upon the river is a high, hilly region, but arable. Kettle Bottom, in the s. part, and several peaks of the ridge which extends along the E. border, are 2,000 to 2,500 feet above tide. The soil is a light, sandy loam. Luzerne (p.v.) is situated on the Hudson, above its confluence with Sacandaga Ricer. Pop. 280. The first settlements were made about 1770, along the Hudson. Most of the early settlers occupied lands leased from Ebenezer Jessup, the patentee. There are 3 churches in town.5

QUEENSBURY—was incorporated by patent<sup>6</sup> as a township, May 20, 1762, and recognized as a town, March 13, 1786. Luzerne was taken off in 1792, and a part of Caldwell in 1810. A strip of territory 1 mi. wide was taken from Luzerne and added to this town in 1802. It lies between Lake George and the Hudson, and is the s.E. corner town of the co. The w part is occupied by the Luzerne Mts., and the extreme N. part by French Mt., a high, rocky bluff which rises precipitously from the surface of Lake George to a height of 2,500 to 3,000 feet above tide. The central and s. parts are rolling, gradually declining toward the s. The soil is a light, sandy loam in the interior, and a deep, tough clay upon the river. The fall in the Hudson at Glens Falls is about 50 feet high, and affords valuable mill privileges. Below the fall is a small island, through which is a cave extending from one channel to the other. The manufacture of lumber is largely carried on. Glens Falls, (p.v.,) incorp. April 12, 1839, is situated on the Hudson, in the s. part. It contains 9 churches, the Glens Falls Academy, 3 newspaper offices, 2 banks, and several manufactories.9 Pop. 3,420. West Glens Falls, on the Hudson, contains 25 houses; and Queensbury, (p. v.,) in the E. part 20. French Mountain (p.o.) is a hamlet. The summit level of the Champlain Canal is fed through the Glens Falls navigable feeder with water taken from the Hudson above the falls. The settlement was commenced in 1766; but its progress was very slow until after the close of the Revolution.10 The first house of worship was erected by the Society of Friends, in 1786. There are now 11 churches in town. 11

STONY CREEK-was formed from "Athol,"12 Nov. 3, 1852. It lies upon the w bank of Hudson River, and is the s.w. corner town of the co. Nearly the whole town is still a wilderness. Through the center of the town extend mountain ranges, several peaks of which attain an elevation of more than 2,000 feet. The valleys of E. and W. Stony Creeks are narrow rayines, forming a natural pass between the valleys of the Hudson and Sacandaga. The soil is a light, sandy loam.

<sup>1</sup> There is a small pond near the summit of the mountain which is much frequented by cranes; and from this circum-stance it derives its name. Seen from Warrensburgh, 11 mi. distant, the mountain presents a striking resemblance to the

distant, the mountain presents a striking resemblance to the profile of the human face.

2 Among the early settlers were Robt. Woddell, Geo. Hodgson, John Wilkinson, Reuben and Calvin Washburn, and Samuel Somerville. The first birth was that of Polly Woddell; the first marriage, that of Calvin Washburn and Betsey Woddell; and the first death, that of Fnos Grover. The first mills were erected in 1789 or '90, by Mr. Thurman. He opened a store and built a distillery; and in 1795 he erected a woolen factory. This was soon after changed to a cotton factory; and as early as 1797 he erected calico printing works, the first, it is believed, in America.

8 Bap., M. E., Free Will Bap., and Wes. Meth.

4 Hadley and Jessup Falls, upon the Hudson, are within this town. See page 588.

<sup>6</sup> This patent embraced 2,300 acres.
7 An immense number of logs is annually floated down from the pine forests of the Upper Hudson to Glens Falls and Fort Edward. At one mill upon the State dam at the former place

are 12 gates and 250 saws.

8 The Indian name of this place is said to have been Kay-au-do-ros-sa. It was called "Glenville" for some time.

9 This place contains 4 sawmills, a flouring mill, and an esta-

bishment for sawing marble.

10 Among the first settlers were Abraham Wing, Reed Ferlis, Asaph and Benajah Putnam, Jeffrey Cooper, Ichabod Merritt, and Caleb Dowell. Immediately after the war, Benj. Wing, Nehomiah Seelice, Phineas Babcock, Wm. Roland, David Bennett, James Houghson, Silas Brown, and Jeremiah Briggs settled in town.

town. 11 2 Friends, 2 R. C., Bap., M. E., Presb., Prot. E., Ch. of Messiah, Asso. Presb., and Univ.

Creek Center (p. o.) and Stony Creek, (p. o.,) both upon Stony Creek, are hamlets. The first settlement was made about 1795.1 The first preacher was Jonathan Paul, a Christian Indian. The first church (Presb.) was formed about 1800.2

THURMAN<sup>3</sup>—was formed April 10, 1792. Bolton and Chester were taken off in 1799, Johnsburgh in 1805, and a part of Caldwell in 1810. The town was divided into "Athol" and Warrensburgh Feb. 12, 1813; and "Athol" was divided into Thurman and Stony Creek, Nov. 3, 1852. It lies upon the w. bank of the Hudson, s.w. of the center of the co. The w. part is a high, broken upland, almost unknown except to hunters. The E. portion, along the Hudson, is a hilly plateau, with several peaks rising 1,000 feet above the valley. Among the hills are numerous small lakes. The soil is a light, sandy loam. Athol (p. o.) and Thurman, (p. o.,) both in the E. part, are hamlets. Settlement was commenced in the latter part of the last century.4 A Bap. church was first formed; Elder Jehiel Fox was the first preacher. There are now 4 churches in town.5

WARRENSBURGH—was formed from Thurman, Feb. 12, 1813. It lies between the two branches of the Hudson, near the center of the co., and upon the ridges s. of the junction. The peninsular portion is a rolling plateau 600 to 1,000 feet above the river. The s.w. part is occupied by an immense mountain mass with several summits 2,400 to 3,000 feet above tide. Nearly twothirds of the land in town is arable. The soil is a light, sandy loam among the hills, and upon the river it is nearly the same, mixed with some clay. Warrensburgh (p. v.) is on Schroon River, 3 mi. from its junction with the Hudson. Pop. 700. Across the Hudson, below the mouth of Schroon River, is a long bridge connecting this town with Thurman. The first settlement was made a few years after the close of the Revolution.<sup>6</sup> A M. E. church, the first in town, was organized in 1796; and the Rev. Henry Ryan was the first minister. There are 4 churches in town.

<sup>1</sup> The first settlers were James Ferguson, James, John, and Geo. Donald, Wm. Riley, Wm. and Alex. Murray, Hugh McMiller, and John and Jas. E. Cameron. The first birth was that of Anna Murray.

<sup>2</sup> Tho census reports 4 churches; Bap., M. E., Presb., Wes. Meth.
8 Named in honor of John Thurman.
4 Among the early settlers were Thurston Kingston, Wm.
10hnson, Zebadiah Burdick, Elisha Kendall, Oliver Brooks,

Richardson Moore, Benajah Wells, Amos Bowen, Abiel Frost, and John King. The first marriage was that of Duncan McGuen and Miss Cameron; and the first death, that of John Reynolds.

5 Bap, M. E., Prot. Meth., and Wes. Meth.

6 Wm. Bond, Joseph Hutchinson, Wm. Lee, Josiah Woodward, — Varnum, Richardson Thurman, and Wm. Johnson were some of the first settlers. The first death was that of Wm. Johnson.

7 2 M. E., Wes. Meth., and Presb.

## WASHINGTON COUNTY.

This county was formed from Albany as "Charlotte County," March 12, 1772. Its name was changed April 2, 1784; Clinton co. was taken off in 1788; the E. portion was ceded to Vermont in 1790; a strip along its s. border was annexed from Albany Feb. 7, 1791; and Warren co. was taken off in 1813. It lies on the E. border of the State, is centrally distant from Albany 45 miles, and contains an area of 850 sq. mi. The surface consists principally of a series of ridges extending N. E. and s. w., and the valleys between them. The remarkable depression which extends southerly from the s. extremity of Lake Champlain divides these ridges into two distinct groups,—the N. belonging to the Palmertown Mt. Range, and the s. constituting one of the connecting links between the high-

lands of Southern New York and those of Western Vermont. The s. group is subdivided into three principal ranges, which are all related and of the same general character. The most southerly of these ranges is a northerly continuation of the Taghkanick Range of Rensselaer co., occupying the greater part of White Creek and the E. part of Jackson. The declivities are usually steep, and the summits broad, broken, and rocky. The second-sometimes described as a continuation of the Petersburgh Mts. of Rensselaer—constitutes the highlands of Cambridge, Jackson, Salem, and the E. part of Hebron and Granville. In Salem it spreads out like a fan between the streams. The third comprises the highlands of Easton, Greenwich, Argyle, Hartford, Granville, Hampton, and the E. part of Whitehall. It might with propriety be called Cossayuna Range, from the principal lake which it incloses. The declivities of these ranges are usually steep, and, except where broken by ledges, are arable to their summits. They gradually rise toward the E., reaching their culminating point near the E. border of the co. The highest summits are 1000 to 1200 feet above tide. These three ranges belong to one general group and are of the same geological formation. They are composed of slate rock, ledges of which crop out along their whole extent. Many of these ledges in Granville and Hebron are quarried, and furnish stone much valued for roofing, building, and ornamental purposes. Among the slate quarries are found numerous veins of injected quartz, intersecting the slate strata in every direction, varying from the thickness of paper to several inches. They often present cavities and surfaces beautifully studded with transparent crystals of quartz. The edges of the slate are sometimes bent and distorted by the quartz dikes, showing the extreme heat and great force of the injected veins. The soil in this system of highlands consists chiefly of disintegrated slate, and is very fertile.

The second group of highlands, belonging to the Palmertown Mt. Range, occupy the towns of Fort Ann, Dresden, Putnam, and the E. part of Whitehall. They belong to the primary formation, their rocks consisting principally of gneiss, granite, sandstone, and impure limestone. Their sides are very precipitous and broken, and their summits are wild irregular masses of naked, barren rocks. The valleys between them are narrow and rocky, often bordered by precipices many hundred feet in height. The soil is cold and unproductive, like that of all regions of a similar geological formation. A narrow valley extending s. w. from the s. extremity of South Bay divides the group into two ranges. Saddle Mt., overlooking South Bay and 1000 ft. above tide, is the highest peak in the s. range; and Black Mt., 2878 ft. above tide, is the highest peak

in the N. range. Diameter Rock, on the N. shore of South Bay, is 1300 ft. above tide.4

3 The act of cession, by commissioners appointed for the purpose, was dated Oct. 7, 1790, and the line was finally settled by commissioners from both States in 1812. The N.Y. commis-

The Hudson River forms the s. half of the w. border of the co. A rich intervale, from half a mi. to a mi. in width, bordered by a series of clay bluffs 20 to 60 ft. high, extends along its course. Most of the other streams of the co. are tributaries of the Hudson, and among them are the Hoosick, Batten Kil, Moses and Fort Edward Creeks, and many smaller streams. Wood Creek1 is a deep, sluggish stream, flowing into Lake Champlain and draining the valley, which here extends from the lake to the Hudson. The soil along the valley is mostly a hard, stiff clay. The Mettowee, or Pawlet, and the Poultney Rivers, from Vt., are tributaries of Wood Creek. In the co. are several other streams important as mill streams.2 Lake Champlain s. of Ticonderoga is scarcely more than a ship canal through a reedy marsh bordered by rocky cliffs. Lake George lies along the N. w. border of the co. Among the hills in the interior are several small lakes, the principal of which is Cossayuna Lake, in Argyle.3

The various branches of agriculture form the leading pursuits of the people. The principal grains raised are rye, spring wheat, oats, buckwheat, and corn. Peas, beans, flax, and potatoes are also extensively cultivated. Stock raising, dairying, and wool growing are also extensively pursued. The manufactures of the co. are principally along the Hudson and Batten Kil.

The county offices are divided among several towns. The courts are held alternately at Salem and Sandy Hill, and the clerk's office and co. poorhouse are located at Argyle. The jail is connected with the courthouse at Salem, and all prisoners sentenced for more than two months are sent to the

penitentiary at Albany.

The principal public works in the co. are the Champlain Canal, extending in and along Wood Creek and the Hudson to Greenwich; the Saratoga & Whitehall R. R., extending through Fort Edward, Kingsbury, Fort Ann, and Whitehall, with a branch to Lake Station and another to Castleton, Vt.; and the Rutland & Washington R. R., extending from Eagle Bridge, through White Creek, Jackson, and Salem, to the State line.

The first newspaper in this co. was established at Salem, in 1788.6

Upon the advent of the whites, few Indians were found within the limits of this co.; but Indian

the Hudson, the water setting back to the foot of the rapids below Glens Falls. At Fort Edward a dam 27 ft. high and 900 feet long was built by the State in 1821, as a feeder to the canal, but, the Glens Falls feeder superseding it, it was sold to a company in 1840 and cut down to 16 ft. The Saratoga Dam (where the Champlain Canal crosses the Hudson into Saratoga acc.) is 1390 feet long. Batten Kil is crossed by 9 dams. White Creek furnishes a large number of mill sites, once improved, but now mostly abandoned. Black Creek has several valuable and improved mill sites. Mettowee or Pawlet River has also several valuable mill sites.

trails and implements of Indian art frequently found show that it had been inhabited at a former period. The N. portion of the co., lying in the natural channel of communication between Hudson River and Lake Champlain, became the great highway of hostile parties passing between the Five Nations and the Canada Indians, and at a later day by the more formidable armies of disciplined troops in the struggles which ended in the conquest of Canada. The French made incursions upon the English and Five Nations in 1665, 1688, and 1693; and these were returned by attacks upon the French and Indians in Canada in 1691 and 1692. For several years after, the passage of small hostile parties was of frequent occurrence. In 1709, Forts Ann and Nicholson were erected by the English and garrisoned for the protection of the northern frontier; but upon the return of peace they were abandoned.2 Frequent incursions of small parties were made in the War of 1748, and many persons were murdered,—though no regular engagement took place. Again, during the French War of 1755, forts were built at Ft. Ann, Ft. Edward, and the whole region around the head of Lakes George and Champlain became the theater of stirring military events. The armies that attacked Ticonderoga, and those that finally effected the conquest of all the French posts upon the lakes, marched through this region; and it formed a portion of the great battle-ground between the armies of two nations contending for the sovereignty of a continent. In the summer and fall of 1777, upon the advance of Burgoyne, war again, for a brief space, spread terror and desolation over the whole region "Skenesborough" was burned and abandoned on the 7th of July, Fort Ann was taken on the 8th, Fort Edward on the 28th, and the country was overrun by the enemy soon after. On the 13th and 14th of Sept. the British army crossed the Hudson into Saratoga co.; and about the 10th of Oct. Fort Edward was re-taken by the Americans, thus effectually cutting off the retreat of the army, already disheartened by their defeat at Bemis Heights. The surrender of Burgoyne put an end to the war in this section; and the subsequent history of the co. is but the record of the continued and progressive triumphs of peaceful industry.

**ARGYLE**<sup>3</sup>—was granted by patent, March 13, 1764, and formed as a town, March 23, 1786. Greenwich was taken off in 1803, and Fort Edward in 1818. It lies near the center of the co. Its surface is rolling in the N. and w. and broken and hilly in the s. and E. The highlands are divided into broad ridges with abrupt declivities. In the N. part Tamerack Swamp covers several hundred The principal stream is the Moses Kil,5 which flows in a s. w. direction through near the center of the town. The other streams are small brooks, which flow into the Hudson, Batten Kil, and Wood Creek. Cossayuna Lake<sup>6</sup> is a beautiful sheet of water, 3 mi. long, situated in a narrow valley in the s. E. part of the town. It is everywhere surrounded by steep hill slopes, and contains several beautiful green islands. To the N. E. of this lake, high up among the hills, is Argyle Lake, a small sheet of water, half a mile in circumference. The soil of the town is generally a productive, slaty or gravelly loam. A mineral spring, 1 mi. n. w. from South Argyle, is said to resemble those at Saratoga. Argyle (p. v.) was incorp. March 27, 1838. It is the seat of the Argyle Academy. Pop. 375. North Argyle and South Argyle (p. offices) each contains about 20 houses, and The Hook 10. Argyle was conveyed to 83 families, and in 1765 the first settlement commenced.8 The family of John Allen, a tory living on Lot 25, was murdered by Indians belonging to Burgoyne's army, July 26, 1777.9 The first church (Asso. Ref. Presb.) was formed in 1793;10 Rev. Geo. Mairs was the first preacher.

<sup>1</sup> There were three distinct routes,—one from Fort Edward, down Wood Creek, with a portage of 6 to 10 mi., one from Fort Edward, down Wood Creek, with a portage of 6 to 10 mi., one from Fort Edward, and to the head of South Bay, and one from Glens Falls to Lake George.

2 See page 682.
2 See page 682.
3 Named in honor of the Scottish Duke of Argyle.
4 This patent was granted to Scotch immigrants (who came over under Laughlin (Lampbell in 1783—40) and to their descendants. It embraced 47,450 acres, and granted township privileges. Duncan Read, Neal Shaw, Alexander McNachten, (McNaughton.) and Neal Gillespie were appointed trustees. A stately avenue, called "The Street," 7 mi. in length and 24 rods in width, was laid out (on paper) and surveyed E. and w. through the center of the township, and lots were laid out on each side. In the rear farm lots were laid out, thus affording accommodations for proprietors and tenants. In the summer of 1764 this tract was surveyed and divided into 141 lots, in accordance with this plan, by Arch. Campbell, of N. J., and Chris, Yates, of Schenectady. The natural impediments in the way, however, prochaded the possibility of building the street or in any way realizing the plan.

6 Called at different times "Long," "Legbrants," "McEachrons," "Cowwans," and "Big Lake." The name given on the map and in the text, after having gone out of use, was restored by Dr. Fitch in his survey. Cossayuna is said by the St. François Indians to significant times "Long," "Legbrands," "McEachrons," "Cowwans," and "Big Lake." The name given on the map and in text, after having gone out of use, was restored by Dr. Fitch in his survey. Cossayuna is said by the St. François Indians to significant times "Long," "Legbrands," "McEachrons," "Cowwans," and "Big Lake." The name given on the map and in text, after having gone out of use, was restored by Dr. Fitch in his survey. Cossayuna is said by the St. François Indians to significant times," Lake is a picturesque sheet of was religiously to the text, after hav

**CAMBRIDGE**—was incorp. by patent, July 21, 1761. It was formed as a town in Albany co. March 7, 1788, and annexed to Washington co. Feb. 7, 1791. White Creek and Jackson were taken off in 1815. The surface of the town is hilly in the N. and rolling in the s. The summits of the hills are 200 to 300 ft. above the valleys. The E. part embraces a portion of the valley of Owl Kil, which is celebrated for the beauty of its scenery. Upon the w. of this valley are high undulating hills, the broad sweeps of which show alternate patches of green woodland and cultivated farms; and upon the E. rise the Taghkanick Mts., rough and broken, while the valley itself is very smooth and level. The other streams are Wampecack Creek, Whiteside Brook, and several other small brooks. The soil is generally a gravelly and sandy loam. Flax is extensively cultivated. Cambridge (p. v.) contains 100 houses and the Cambridge Washington Academy; Center Cambridge (p. v.) 13 houses; North Cambridge (p. o.) 10; and Buskirks Bridge3 (p.v.) 15. The first settlers consisted of 30 families, who located in 1761, '62, and '63 and who each received 100 acres of land as a gift from the proprietors.4 Phineas Whiteside,<sup>5</sup> from Penn., settled 8 mi. w. of the Colerain Colony, in 1766. The expedition against Bennington, under Baum, passed through the town Aug. 13, 1777; and the remnant of the fugitives returned on the night of the 16th. The first church (Asso. Presb.) was organized in 1789; Rev. Thos. Beverly was the first pastor.6

DRESDEN—was formed from Putnam, as "South Bay," March 15, 1822; its present name was adopted April 17, 1822. It lies between Lake George and the s. extremity of Lake Champlain. Nearly its entire surface is covered by steep mountain ridges, several peaks of which are 1500 ft. above the lake. The declivities of the mountains are steep, sometimes forming perpendicular precipices several hundred feet high. Upon the side of Lake George the mountains rise abruptly from the very edge of the water; but upon the borders of Lake Champlain is a narrow strip of arable land. The principal mountain peaks are Black and Sugar Loaf Mts. and Diameter Precipice. Pike Brook and the head branches of Mill Brook take their rise in these mountains. All of the surface in the interior is covered with forests or naked rocky peaks. The soil is hard and sterile, and is unfit for agricultural purposes. The town was principally conveyed to non-commissioned officers and privates of the Colonial British army; and settlement was begun about 1784, by Jos. Phippeny, at the foot of South Bay. Ebenezer Chapman, - Boggs, and Daniel Ruff came soon after, and settled along the bay and lake. Lumbering has formed a prominent pursuit. In several localities iron and other ores have been noticed, but none worked to any extent. The town is without a p. o. A bridge was built, at the expense of the State, across South Bay, near its outlet, in 1856.

EASTON—was formed from Stillwater and Saratoga, March 3, 1789, while a part of Albany co., and so named from being the E. town in the Saratoga Patent. It was annexed to Washington co. Feb. 7, 1791. It lies upon the E. bank of the Hudson. A broad intervale extends along the course of the river, which is succeeded by a plateau region, embracing the central and s. portions of the town. The E. part is broken by several lofty hills. The principal highlands are Willards Mt.8 and Harrington Hill. The streams are Hudson River and Batten Kil,9 forming the w. and N. boundaries of the town, Kidney and Vly Creeks, and a few minor streams. Upon the E. borders of the town is an extensive swamp known as "The Vly,"10 The Di-on-on-dah-o-wa Falls, 11 upon

<sup>1</sup> This patent embraced 31,500 acres, and was nominally con-

<sup>1</sup> This patent embraced 31,500 acres, and was nominally conveyed to 60 persons, most of whom resided in Hebron, Conn. The real owners were but 6 in number, and of these 3 only were mentioned in the charter, viz.: Isaac Sawyer and Edward Wells, of Conn., and Jacob Lansing, founder of Lansingburgh. The other three owners—Alex. Colden, Wm. Smith, and Geo. Banyar—were connected with the Colonial Government.

2 The town included a portion of the Hoosick Patent.

8 Named from Martin Van Buskirk, who built the first bridge.

4 The patent was conditional to the settlement of 30 families within 3 years; and to meet this requirement the most inviting portion was surveyed, and 100 acres offered as a gift to each family that would remove thither. These lots lay in a double row, on both sides of Owl Kil, from below the "Checkered House" into the present town of Jackson. They embrace the several village precincts from Davis Corners to near Stephensons Corners. Among the settlers were Jas, and Robt, sons of Ephraim Cowan, Jas, and John Cowden, John McClung, Samuel Bell, Col. Blair, Geo. Gilmore, Geo. Duncan, David Harrow, Wm. Clark, John Scott, and Thos. Morrison. A son of the last was the first child born of civilized parents in town. Hugh Kelso, a son of Col. Blair, was the first person who died in town. It is recorded that of these 30 families (who were for a time the most thrifty in town) all but two lost their property and died in poverty, mainly from intemperance. They were mostly from Colerain, Conn.

5 William Whiteside acquired the title to 3 lots, of 400 acres seach, of the finest land, and settled his sons (John, Peter,

Thomas, William, and James) upon large farms near him. These estates are all owned by his descendants at the present day. The remaining lands were mostly leased by the six proprietors at an annual rent of one shilling per acre; but, they being generally willing to sell at a sum equal to the present worth of the perpetual rent, most of the settlers have gradually acquired the fee simple of their farms. The first inn was of logs, on the site of the "Checkered House," and kept by Jas. Cowden. Philip Van Ness built the first sawmill and gristmill on Gordons Brook, near Buskirks Bridze. This neighborhood was called by Philip Van Ness built the first sawmill and gristmill on Gordons Brook, near Buskirks Bridge. This neighborhood was called by the Indians "Ty-o-shoke," and by them a field of 12 acres had been cleared there for corn. Other early settlers on the Hoosick Patent were Col. Lewis Van Wort and John Quackenbush.

6 The census reports 4 churches; 3 M. E., 1 Asso. Presb.

7 Black Mt., the highest, is 2,879 ft. above tide.

8 Willards Mt. is said to have derived its name from a Mr. Willard, who from its summit, with a spyglass, reconnoitered the position of Burgovne's army at Saratoca.

the position of Burgoyne's army at Saratoga.

9 Judge Benson, in his work upon the names of places, states that this stream was named from the Christian name of Bartholomew Van Hogeboom, first settler above Stillwater. Bart. is the abbreviation of Bartholomew, and hence Barts Kil, or Batten Kil.

<sup>10</sup> A term used to denote a marsh overgrown with bog moss

and low bushes.

11 Pronounced Di-on-on-dah'o-wa. On a map of Saratoga Patent

12 Pronounced Di-on-on-dah'o-wa. On a map of Saratoga Patent published in 1709 it is written Di-on-on-de-ho-we.

Batten Kil, below Galesville, are 60 ft. high, and well worthy of note. The soil is an excellent quality of sandy and gravelly loam. Limestone of an excellent quality abounds in this town. Machinery, agricultural implements, and woolen goods are manufactured at Galesville. Easton Corners (North Easton p. o.) contains 30 houses; Easton (p. v.) 17; South Easton (p.v.) 15; and Crandalls Corners 8. Parts of Union Village and Galesville are in this town. The date of the first settlement is unknown, but it was probably several years after the Saratoga Patent<sup>2</sup> was issued. In 1709 a fort<sup>3</sup> was built on the hill top, 1 mi. s. of Galesville, and a few families settled under its shelter; but the dread of Indian hostilities prevented the settlement from spreading. On the 30th of Nov. 1745, the enemy made a descent upon the place, killed 30 persons, and took 60 prisoners, including a portion of the garrison, who were decoyed from the fort by the Indians feignang to be wounded. The remaining part of the garrison burned the fort and unfinished blockhouses and withdrew, leaving the frontier unprotected. Settlers did not return until 1760.4 At Schuylerville is a bridge across the Hudson 800 ft. long. The first religious meeting (Quaker) was held in 1778. A Ref. Prot. D. church was formed in 1805; Rev. Philip Duryea was the first preacher.5

FORT ANN—was formed, as "Westfield," March 23, 1786. Hartford was taken off in 1793, and Putnam in 1806. It received its present name, April 6, 1808, from the old fort erected here in 1709. It lies s. of the southern extremity of Lake Champlain, and s. E. of Lake George. Its central and w. parts are occupied by the high and rocky peaks of the Palmertown<sup>6</sup> Mts., here divided into three distinct ranges,-Palmertown Mt., in the w. part, Mt. Putnam, in the center, and Fort Ann Mts., in the E. The extreme E. edge of the town is occupied by uplands belonging to the Cossayuna Diameter Rock and Buck Mt., on the line of Dresden, are the highest peaks, and are 1300 to 2500 ft. above tide. The valleys separating the ranges of the Palmertown Mts. are known as "Furnace" and "Welchs Hollow." The principal streams are Wood Creek, Halfway Creek, Furnace Hollow Creek, and Podunk Brook. The principal bodies of water are Orebed, Sly, Copeland, Hadlock, and Trout Ponds. The soil in the mountain region is hard and sterile, scarcely strong enough to support the natural growth of forest trees; but in the valleys it is a gravelly loam alternating with a stiff clay.7 Iron<sup>8</sup> and woolen goods are manufactured to some extent. Fort Ann<sup>9</sup> (p. v.) has 608 inhabitants; Griswolds Mills (p. v.) about 14 houses. West Fort Ann, (p.o.,) South Bay, Canes Falls, and Comstocks Landing (p.o.) are small villages. Fort Ann was one of a chain of military works creeted in 1709, to facilitate the extensive operations then in progress against Canada. It stood upon the w. side of Wood Creek, about half a mile from the present village of Fort Ann, the Champlain Canal passing partly across the spot which it enclosed. It was built at the joint expense of England and the Colonies. Artillery Patent, covering the E. part of this town, was granted Oct. 24, 1764, to Jos. Walton and 23 other Provincial officers, in equal shares, irrespective of grade. Settlement was not generally begun until after the Revolution. An engagement occurred here, July 8, 1777, between the rear guard of the retreating American army, under Col. Long, and the advanced guard of the British, under Col. Hill.<sup>11</sup> In Oct. 1780, a blockhouse in this town was burned by the enemy. The first church (Bap.) was formed in 1789;12 Rev. Sherman Babcock was the first pastor.

FORT EDWARD—was formed from Argyle, April 10, 1818. It lies upon the E. bank of the Hudson, near the center of the w. border of the co. A wide intervale extends along the

1 Formerly called "Arkansaw." The present name is derived 5 tons of pig iron daily. A forge was built at West Fort Ann in from John Gale, former proprietor of the village site. See p. 683. 1528, for making anchors and chain cables. 2 This patent was granted Nov. 4, 1684, and renewed Oct. 9, 1708. The part E. of the Hudson was 12 mi. long and 6 mi. broad. 10 While this fort was in process of erection, a force of 1500

<sup>7</sup> Near Wood Creek, 50 feet above the present surface of the stream, are found pot holes worn by water, evidently by an ancient current flowing southward.

river, but toward the E. the surface rises to a height of 200 to 300 ft. and spreads out into a beautifully undulating upland. The Hudson, Moses Kil and Dead Creek are the principal streams. The soil upon the river is a mixture of heavy clay and alluvium, but farther E. it is a sandy or gravelly In town are several extensive manufacturing establishments. Fort Edward (p. v.) is finely situated on the Hudson. Pop. in 1858, 1,565. The Washington Co. Seminary and Female Collegiate Institute,3 one of the largest academic institutions in the State, is located at this village. Fort Miller (p. v.) is situated on the Hudson, about 7 mi. below Fort Edward. Pop. 225. Fort Edward Center is a p. o., and Durkeetown is a hamlet. The first family that located in the town or co. was that of Col. Lydius, son of Rev. John Lydius, who, having acquired the title to Delliu's discarded patent, built a house, and engaged in trade with the Indians at what is now Fort Edward Village.4 His daughter, Catherine, was born here, and was the first white child born in the co. Fort Nicholson was built in 1709, but was soon after abandoned. As a part of the plan of military operations against Canada, about 600 men, under Gen. Lyman, were sent forward, in June, 1755, to build a fort where Fort Nicholson had formerly stood, at the great carrying place to Lake Champlain.<sup>5</sup> Fort Edward was a very important depôt for arms and rendezvous for armies in the great expeditions against Canada; and it served as a vast hospital for the sick and wounded until 1760, when it was allowed to go to decay. During the Revolution it was again occupied by both British and Americans. Fort Miller is named from the fort built, about 1755, in the bend of the river opposite the village. After the peace this town settled rapidly. Wm. Duer, 7 son-in-law to Lord Sterling, was the pioneer of Ft. Miller, where he built a large house and sawmill. There are 6 churches in town.8

GRANVILLE—was formed March 23, 1786. It is situated upon the E. border of the co., N. of the center. Its surface is undulating and hilly. The ridges generally slope gradually to their summits, which are elevated 300 to 500 ft. above the valleys. Quarries of excellent roofing slate have been opened in different parts of the town. Wide intervales of excellent land extend along the course of Mettowee, or Pawlet, 10 and Indian Rivers. The soil is a slaty and gravelly loam, and is particularly adapted to potatoes, large quantities of which are exported. A limited amount of manufactures is carried on in town. Granville (p.v.) contains 450 inhabitants; North Granville (p. v.) a female seminary, and 220 inhabitants; Middle Granville (p. v.) an academy and 800 inhabitants; and South Granville (p. v.) 111. The land in this town is embraced in several grants made to about 30 captains and lieutenants who had served in the French War. 13 Barnaby Byrnes Patent, of 2000 acres, in the s. E. corner, was sold to Kennith McKennith, a merchant of New York, who again sold it to Donald Fisher, a tailor of that city. Fisher induced several relatives of his to remove from Scotland and settle upon his tract. In the Revolution he withdrew to Canada, and his lands were confiscated and sold; but, owing to some informality, the

1 The dam at Fort Edward furnishes water for 4 gang sawmills, 1 The dam at Fort Edward furnishes water for 4 gang sawmills, a machine shop and furnace, a flouring mill, plaster mill, paper mill, and cotton factory. At Fort Miller Dam are a grist and saw mill. fulling mill, machine shop, and woolen factory.

2 Incorp. under Gen. Act of 1847.

3 The seminary building is 300 ft. long by 40 broad, and 5 stories high, besides an extensive wing. It has accommodations for 500 pupils. See page 743.

4 His house was burned by the Indians in 1749, and his son taken prisoner.

taken prisoner.

\* His house was burned by the Indians in 1749, and his son taken prisoner.

5 It was named Fort Lyman; but a few years after, the name was changed to Ft. Edward, in honor of Edward, Duke of York, grandson of Geo. II, and brother of Geo. III. It stood on the bank of the river, N. of the creek, and within the present village limits. It was 4 sided, with bastions on 3 angles, the fourth being protected by the river. Its ramparts of earth and timber, 16 ft. high and 22 thick, were mounted with 6 cannon and inclosed several large buildings. Storehouses and barracks were built on Monroes Island, opposite. A band of savages attempted to surprise it in Ang. 1759, but were repulsed by Maj. Israel Putnam and his rangers. In the winter following, Putnam saved the fort from destruction by a characteristic exercise of cool intrepidity and daring. The fort accidentally took fire, and the fames spread with great rapidity in the immediate vicinity of the powder magazine. Putnam placed himself in the path of the flames, and fought desperately until the fire was subdued; and when he retired from his post his arms, face, and hands were entirely skinned, and the frail covering of the magazine was completely charred.

The wedges of tone McCree took place July 27, 1777, poon of the contraction of the same and tought. completely charred.

The murder of Jane McCrea took place July 27, 1777, near a spring, and beside a venerable pine tree a little E. of the village. This tragedy was at once reported throughout the country, and aided greatly to weaken the influence of the British, while it aroused the patriots to more desperate efforts in resisting the invaders. The old pine tree died in 1849; and in 1853 it was cut

down and made into canes and boxes as memontos of the event,

down and made into canes and boxes as mementos of the event. The remains of Miss McC. are interred in the Union Cemetery.

The flat upon which this fort was erected is protected on three sides by the river and a narrow bay; it was further defended by a strong parapet of timber covered with earth, and with a ditch in front. A blockhouse was built upon the bluff that overlooks the point; and within the flat storehouses were erected.

He was the first State Senator from this co. Among the first settlers were Noah Payne, from Warren co., Conn., in 1766, Timothy Buel, and the Crocker families. Nath'l Gage was living at Ft. Miller when these families arrived. The Durkee, Saun Chers, and Bell families settled in the upper part of the town. The first one of these consisted of a father and 5 sons, from R. I. These settlers first took out titles under Lydius, but, finding These settlers first took out titles under Lydius, but, finding them invalid, they bought of the Schuyler proprieters. There is no tradition of loss to the settlers from this cause,—whence it is inforred that Col. Lydius refunded whatever he may have received. Hugh Monroe, (owner of Monroes Island.) Patrick Smith, and Dr. Jas. Smith settled at Fort Edward about 1764. The house of Patrick Smith-still standing, 1 mi. s. of Canal Aqueduct—was the headquarters of Burgeyne and Gen. Schuyer in the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the contract of the ler at different times during the Revolution; and it was the co. courthouse,

9 The laborers engaged in this business are mostly Welsh. Jones & Co. have an extensive factory for cutting and dressing this for a variety of ornamental and useful purposes.

10 This stream, rising among the Dorset Mts., is subject to sudden and severe freshets, which render the maintenance of bridges difficult and expensive.

11 At Granville Village are a paper mill and woolen factory.

12 Thesa grants became known by the names of the patentees,

State afterward bought off his claim, for \$12,000.1 The first carding machine used in the State was erected at Middle Granville, in 1808.2 The first church (Presb.) was formed April 16, 1782; the first pastor, Rev. Oliver Hitchcock, was settled in 1786; and the church was erected in 1795.3

GREENWICH—was formed from Argyle, March 4, 1803. It lies on the w. border of the co., in the N. angle formed by the junction of the Hudson and Batten Kil. Ranges of hills, 200 to 300 ft. above the valleys, extend through the central and eastern parts of the town. Bald Mt., near Batten Kil, is the principal peak. The declivities of the hills are so gradual that the surface appears to be rolling rather than hilly. Upon Batten Kil are two considerable falls, one of which is 75 ft. in height. The other principal streams are the Cossayuna, Rogers, and Stony Creeks and Livingston Brook. Cossayuna Lake extends into the N. E. corner of the town. The soil is a slaty and gravelly loam interspersed with patches of clay. The town is more extensively engaged in manufactures than any other in the co.4 Union Village,5 (Greenwich p.o.,) on the line of Easton, contains an academy and 1,173 inhabitants, 888 of whom are in Greenwich; Bald Mountain<sup>6</sup> (p. v.) 225 inhabitants; East Greenwich (p. v.) and Center Falls each about 100 houses; and North Greenwich (p. v.) 70. Galesville (p. v.) is a manufacturing village of about 40 houses, on the line of Easton. Battenville, (p. v.,) in the s. E. Lakeville (Lake p. o.) is a hamlet. corner, contains about 200 inhabitants. posed that the first settlement was made by the Dutch, previous to the French War, a few families of them remaining at the time of the Revolution.7 About 1733 a large number of Scotch emigrants had come over under the promise of grants of land from Government,-which promise was not fulfilled. Jan. 5, 1763, three of these emigrants—Duncan, George, and Jas. Campbell, sons of Laughlin Campbell—petitioned for 100,000 acres; and on the 11th of Nov. following a patent of 10,000 acres was issued to the 3 brothers, their 3 sisters, (Rose Graham, Margaret Eustace, and Lily Murray,) and 4 other persons. This grant embraced about one-third of the town of Greenwich. The first church (Bap.) was organized in 1774; Rev. Leonard Bowers was the first preacher.8

HAMPTON—was formed March 3, 1786. It lies upon the E. border of the co., N. of the center. A range of hills, about 500 ft. above the valleys and for the most part covered with forests, extends through the central and eastern parts of the town. Poultney River, separating the town from Vt., is the principal stream. Along its course is a wide intervale of fine land. The soil is a gravelly loam interspersed with clay. The intervale is alike fertilized and desolated by the frequent overflows of the stream. Hampton Corners (Hampton p.o.) contains 20 houses, and Low Hampton (p.o.) 5. The greater part of this town was included in patents granted to Provincial officers. The N. part embraces about 2000 acres of Skene's Little Patent.10 The first settlement was made some little time before the Revolution, 11 by Capt. Brooks, Col. Gideon Warren, and — Webster. The first church (Prot. E.) was built at a very early date;12 Rev. Stephen Jeweth, from N. J., was the first preacher.

HARTFORD—was formed from "Westfield," (now Fort Ann.) March 12, 1793. It lies near the center of the co. The s. E. section is broken and hilly, and the center and N. W. level or The summits of the highest hills are 500 to 700 ft. above the level of the gently undulating. Champlain Canal. The principal streams are East Creek and its branches. Slate and limestone of an excellent quality are found among the hills. 13 The soil in the s. E. is a rich, slaty loam, and that in the N. w. a heavy clay. There are several chalybeate springs, the principal of which is

<sup>1</sup> Capt. Dan'l Curtis, from New Lebanon, N. Y., came into town about 1789; Capt. Ebenezer Gould, from Killingly, Conn., Nath'l Spring, Asaph Cook, Tim. Allen, F. S. Hodge, Ebenezer Walker, and David Doane, settled before or about the time of the Revolution. Benj. Baker kept an inn at North Granville, about 1790, and Jos. Jenks kept a store as early as 1795. Nath'l Spring erected a gristmill at Granville, about 1787. A school was taught by Jas. Richards, in 1783, at South Granville.

2 It is said that this carding machine was obtained secretly from England and for some time was worked in private.

8 The census reports 10 church buildings; 2 Friends, 2 Presh, Bap., Cong., M. E., Meth. Prot., Wes. Meth., and Prot. E.

4 Batten Kil is improved by a dam of 8 ft. fall at East Greenwich, one of 9 ft. at Battenville, a dam and falls of 25 ft. at Center Falls, a dam of 8 ft. at Union Village, a fall of 40 ft. at Galesville, and a dam near the mouth of the stream. The Di-on-on-daho-war Falls are not improved. There are a woolen factory, agrist, saw, and plaster mill, at East Greenwich, a manufactory of seamless bags at Battenville, a woolen factory, grist, saw, and plaster mill, at Center Falls, and mills near the mouth of the stream.

5 The first settlement in this village was made in 1781, by Job Whipple, and it was first called "Whipple City." It was incorp. March 29, 1809. The first cotton factory in the State was erected here in 1804, by Wm. Mowry, who had received his instruction at the pioneer establishment of Sam'l Slater at Paw-

tucket, R. I. In this village are several mills and machine shops and a large carriage factory.

<sup>6</sup> This village is entirely dependent upon the manufacture of lime widely known as the Bald Mt. lime. At the kilns of R. W. Lowber 100,000 bushels are annually manufactured.

<sup>7</sup> Among the first settlers at Lakeville were Alexander Reid, John McEachron, and Robt. McNaughton: at East Greenwich, Archibald Liviugston; at Carters Pond, Asa Carter; near Galesville, Abraham Lansingh, ——Gale, ——White, ——Tefft; and at Center Falls, Thos. McLean, Jas. Conoly, Nathan Rogers, and Smith Barber.

<sup>8</sup> The census reports 9 churches; 3 Bap., 3 M. E., Cong., Ref.

Prot. D., and Asso. Presb.

9 A paper mill here manufactures annually 240,000 lbs. of wrapping paper.

10 This patent of 9000 acres was granted July 6,1771

10 This patent of 9000 acres was granted July 6,1771

 <sup>10</sup> This patent of 9000 acres was granted July 6, 1771.
 11 Among the early settlers were Sam'l Beman. Peter P. French, — Hyde, Benj. Rice, Rufus Hotchkiss, and Jason Kellogg French & Beman kept the first store, and the former the first inn. Rev. Wm. Miller, originator of the belief that the second advent of Christ would take place in 1843, resided in this town.
 12 The first religious society formed was M. E. The census reports 4 churches; Bsp., M. E., Prot. E., and Sec. Advent.
 13 Lime for local use was made in this part of the town.

upon the farm of Alvin Briggs, near the center. Among the limestone ridges in the N. part are several small caves. North Hartford (Hartford p.o.) contains about 300 inhabitants; South Hartford (p. v.) 150; and Log Village 50. This town embraces the Provincial Patent, granted, May 2, 1764, to 26 commissioned officers of the N. Y. Infantry. Settlement was not commenced until after the Revolution.<sup>2</sup> The first church (Bap.) was built in 1789.<sup>3</sup>

HEBRON'-was formed March 23, 1786, and named from Hebron, Conn. It lies near the center of the E. border of the co. A broad mountain range extends through the center, occupying nearly one-half of its entire surface, and a series of high hills extends through the E. and w. The summits of the highlands are 300 to 500 ft. above the valleys and are mostly crowned with forests. The ranges of hills are separated by the valleys of Black Creek and its principal w. branch. The soil is a sandy and slaty loam, of a light, porous nature, easy of cultivation, and well adapted to resist the extremes of wet and drouth. In the hilly regions is considerable rocky waste land. In the N. and E. are extensive and valuable quarries of slate. North Hebron (p. v.) contains the North Hebron Institute and 12 houses; East Hebron (Hebron p.o.) 12 houses; West Hebron (p.v.) the West Hebron Classical School and 40 houses; Beicher<sup>6</sup> (p.v.) 20 houses; and Slateville (p.o.) 8. This town was embraced in patents granted to officers and privates who had served in the French War,-mostly to Scotch Highlanders belonging to the 77th Regt. of Foot. These grants were made so long after the war that those who were entitled to them never appeared to claim them. The first settlements appear to have been There are two academic institutions in town. The first church made before the Revolution. (Asso. Ref. Presb.) was organized in 1780; Rev. Dr. Gray was the first pastor.

JACKSON—was formed from Cambridge, April 17, 1815. It lies on the E. border of the co., s. of the center. The N. branch of the Taghkanick Range occupies the E. portion of the town, and several parallel ranges extend through the central and w. portions, rendering the entire surface very hilly. The summits of the hills are 300 to 800 ft. above the valleys and are generally crowned with forests. The declivities are often steep and rocky. The principal streams are Batten Kil and a branch of Owl Creek. In the valley between the hills that border immediately upon Batten Kil and those farther w. are several small lakes, known as Long, Big, Dead, and Little Ponds. These lakes are beautiful sheets of water, surrounded by hills, forests, and fine cultivated farms. The soil is a slaty loam and very productive. Jackson Center (Jackson p. o.) contains 16 houses; Coila, (p.v.,) on the line of Cambridge, about 30 houses; and Anaquassacook 12. Portions of this town and White Creek were embraced in the Anaquassacook Patent of 10,000 acres, granted May 11, 1762.8 The first settlers were James Irvine, Peter Magill, and John Miller, all of whom located in the s. part of the town.9 The only church (Ref. Prot. D.) in town was organized Dec. 31, 1833; Rev. Jas. W. Stewart was the first pastor. Geo. Law, one of the projectors and proprietors of the California line of steamships, was a native of this town.

KINGSBURY—was incorp. by patent May 18, 1762, and recognized as a town by the State Government March 23, 1786. It lies on the w. border of the co., N. of the center. Nearly all of its surface is level or gently undulating. A range of hills, rising about 150 ft. above the valleys, occupies the extreme E. edge of the town. The principal streams are the Hudson, in the s. w. corner; Wood Creek, upon the E. border; Halfway Brook, in the N. W. corner, and Moss Brook. At Bakers Falls, 10 upon the Hudson, the river shoots down a steep descent of ledges, in all 76 ft. in 60 rods, forming a scene of great beauty, and affording an extensive water-power. The soil along the valley of Wood Creek is a hard, stiff clay; in the other parts of the town, a sandy or gravelly loam. There are extensive quarries of limestone in town, furnishing an excellent building material; from these quarries was obtained the stone for the locks on the Champlain & Hudson

<sup>1</sup> This patent contained 26,000 acres, each officer receiving

<sup>1.100</sup> acres.

2 Col. John Buck, Manning Bull, Stephen and Asa Bump, John and Edward Ingalls, and Nathan and Sam'l Taylor were among the first settlers. Aaron and Eber Ingoldsbee, from Boylston, Mass., came in 1782, and Timothy Stocking, Ebenezer Smith, and John Paine in 1784. A school was taught in 1790, and Stocking the Stocking Stephenzer Smith, and John Paine in 1784. at North Hartford, by Thos. Paine, from Conn. A gristmill was built of logs at an early date.

<sup>8</sup> The census reports 4 churches in town; M. E. Bap., Cong.,

and Union.

† During the Revolution, and for some time after, the place was known as "Black Creek."

<sup>6</sup> Locally known as "Munros Meadows."
6 Locally known as "Bedlam."
7 The census reports 7 churches; 2 M.E., 2 Sec. Advent, Bap., Asso. Presb., and Asso. Ref. Presb.
8 This patent was granted to Ryer, Jacob, Freeman, and W. M. Schermerhoru. Johannes, Nicholas, and Peter Quackenboss, Thos. and John Smith, and Joseph Jansen, all of Schenectady.
9 Among the settlers on the Anaquassacook were Hugh Thompson and Ebenezer Billings, and near the ponds John McLean and Jonathan Conger. A schoolhouse was built in 1780, a little w. of Peter Hill's residence. An inn was kept by Isaac Murray about 1790, John McGill built a store of logs, in 1781, on the site of the present residence of Peter Hill.
10 Named from Albert Baker, the second settler in town.

Canal. Manufacturing is carried on to a considerable extent. Sandy Hill<sup>2</sup> (p. v.) has a population of 1,260. Moss Street contains 25 houses; Kingsbury (p.v.) 25; Pattens Mills (p.v.) 20; Dunhams Basin 10; Vaughns Corners 12; Adamsville (p.o.) 12; Langdons Corners 5; and Smiths Basin (p.o.) 8. Kingsbury Patent, containing 26,000 acres, was granted to Jas. Bradshaw and 22 others, from Conn., May 18, 1762. The first settlers were James Bradshaw, Albert Baker, and his sons Albert and Charles, from New York City.<sup>3</sup> A sawmill was built at Bakers Falls before the Revolution, and a gristmill in 1807. The town was the scene of many an adventure during the French War,4 and the settlement was entirely broken up during the Revolution. Traces of a road cut by Burgoyne's army are still visible near Kingsbury. The first minister was Francis Baylor, a Moravian, about 1776. Meetings were held by the Prot. E. and the Bap. in 1795.5 Several noted men have been residents of this town.6

PUTNAM<sup>7</sup>—was formed from "Westfield," (now Fort Ann.) Feb. 28, 1806. Dresden was set off in 1822. This town lies in the extreme N. end of the co., upon the mountainous peninsula between Lakes George and Champlain. The mountains are divided into two separate ranges by the valleys of Mill and Charter Brooks. The w. range of mountains rises abruptly from the surface of Lake George, and in the s. part of the town attains an elevation of 900 to 1,000 ft. above the surface of the lake. The greater part of the surface is rocky, broken, and unfit for cultivation; but sections of arable land extend along the valleys of the small streams and the borders of Lake Champlain. The soil is generally a hard, gravelly loam. Graphite of a fine quality is found in abundance. A small pond lies among the mountains, on the w. side of the town, 300 feet above Lake George. Putnam Corners, (Putnam p.o.,) containing about 10 houses, is the only village. The tillable lands were mostly granted to privates of the N. Y. Provincial regiments, and feeble settlements had probably commenced before the Revolution.8 The first church (Asso. Presb.) was built in 1801; Rev. James Miller, from Scotland, was the first pastor. A private academy at Putnam Corners was established in 1854.

SALEM—was formed by patent Aug. 7, 1764, and was recognized by statute March 23, 1786. It lies on the E. border of the co., s. of the center. Its surface consists of moderately elevated ridges, separated by narrow valleys, all extending in a N.E. and S.W. direction. The hills are usually bordered by gradual slopes and their summits are crowned with forests. There is very little waste land in town. Batten Kill, forming the s. boundary, and Black, White, and Trout Creeks, are the principal streams. Lytles Pond, in the N. part, is a beautiful sheet of water lying in a basin among the hills and surrounded by forests. The soil is a rich, slaty or gravelly loam. Salem, (p. v.,) incorp. April 4, 1803, has 832 inhabitants; Shushan (p. v.) has 2 churches, 4 mills, and about 50 houses; and Eagleville, (East Salem p. o.,) Clapps Mills, and Fitch's Point have each 40 to 50 inhabitants. James Turner and Joshua Conkey, from Pelham, Mass., settled in 1761. They were joined, the next year, by Hamilton McCollister. In 1764 a patent of 25,000 acres was obtained,-one-half owned by a company of New England settlers and the other by Oliver De Lancey and Peter Du Bois, two Government officials.<sup>10</sup> These last sold their share to Rev. Thos. Clark and his company of Irish and Scotch immigrants at a perpetual rent of one shilling per acre.11 The Camden Tract, on the E. part of the town, was granted to captains

<sup>1</sup> The dam at Sandy Hill, across the Hudson, 1,200 ft. long and 17 ne dam at sandy Hin, across the Hudson, Lyout. long and 10 ft. high, furnishes water-power for several mills and a woolen factory. At Bakers Falls there are a paper mill and 2 gristmills. The lumber business of the town is very extensive and important, the sawmills being supplied with logs floated down from the Upper Hudson. There are also in town establishments for the manufacture of pianos, steam engines, portable saw-

mills, &c.

2 This village has been a half-shire town since 1807. It was

incorp. March 9, 1810.

3 Among the other first settlers were Michael Hoffnagle, Solomon King, Oliver Colvin, and Nehemiah Seely.

4 At one time 17 soldiers were taken prisoners by the Indians <sup>4</sup> At one time 17 soldiers were taken prisoners by the Indians and carried to the present site of Sandy Hill Village. They were seated on a log, in a row, when their captors deliberately began to tomahawk them, taking them in order from one end of the log. When all were killed but one, (John Quackenboss, of Albany,) a squaw claimed him, and his life was spared. He of Albany.) a squaw claimed him, and his life was spared. He was reserved for the common benefit returned after a few years of captivity, and resided near Hoosick, in Cambridge. In Aug. 1758, Majs. Putnam and Rogers encountered a party of French and Indians in this town, during which engagement Putnam was made prisoner. The enemy were finally compelled to withdraw, with a loss of 90 men.

5 The census reports 9 churches; 3 Bap., 3 M. E., Presh., Prot. E., and R. C.

6 Gov. Wright received his legal education at the office of

menry C. Martindale, of Sandy Hill. Lieut. Gov. Pitcher, for some time Acting Governor, was a citizen of this town. Hon. Wm. P. Lee, late Chief Justice and Chancellor of the Sandwich Islands, was a native of Sandy Hill.

7 Named in honor of Gen. Trans.

<sup>7</sup> Named in honor of Gen. Israel Putnam, who in this vicinity, as major in the colonial service, performed some of his most daring exploits.

daring exploits.

The first sawmill was erected by Robt, Cummings, in 1802, on Mill Creek, 1 mi. from Lake Champlain. The first child born was James Jennings, in 1803; the first death was that of Anne Thompson, in 1804. Robt, Patterson kept the first school, in 1804. Many of the first settlers were Scotch, and among them were Obadiah Blake, Robt, Cummings, John Blair, Whithutton, George Easton, Pelatiah Bugbee, John Butterfield, and Josiah Clark.

There are 2 churches: Asso, Presh, and F. W. Ren.

O There are 2 churches; Asso. Presb., and F. W. Bap.
10 This patent was surveyed into 308 lots, and a large pine lot was reserved for the common benefit, and cut up into small lots

for division; 3 lots near the center of the town were set apart to support the minister and schoolmaster.

11 The New England and Scotch settlers were mixed together in their settlements, and often on alternate farms; and, in consequence of the rivalry between the two parties of proprietors, the town was speedily settled. The New Englanders wished to call the town "Write Creek," and the Scotch "New Perth;" and

and lieutenants in the Provincial army. Rev. Thomas Clark was the first minister.1 The Salem Washington Academy was incorp. Feb. 15, 1791.2

WHITE CREEK<sup>3</sup>—was formed from Cambridge, April 17, 1815. It is the s. E. corner town of the co. The surface of the s. portion is gently rolling, and the central and N. portions are occupied by the Taghkanick Mts. The summits of these mountains are rocky and broken and covered with forests, and their sides are bounded by abrupt declivities and perpendicular ledges. The principal streams are Hoosick River, Owl Kil, Pumpkin Hook, 4 Center, White, and Little White Creeks. The upper course of Owl Kil is through a deep and narrow valley abounding with picturesque views. A small vein of lead has been discovered three-fourths of a mi. E. of Posts Corners. The soil is a fine quality of gravelly loam. More sheep are raised in this town than in any other in the co. Garden seeds and flax are largely cultivated. North White Creek (p. v.) adjoins Cambridge. White Creek, (p. o.,) Posts Corners, Center White Creek, (p. o.,) Ash Grove, Dorrs Corners, Pumpkin Hook, and Martindale Corners are hamlets. The Walloomsac Patent, lying partly in this town, on the s., was settled by the Dutch. Among the other grants were the Bain, Embury, Grant and Campbell, and Lake and Van Cuyler, Patents. A colony of Irish Methodists settled near Ash Grove about 1770; and here was organized the second M. E. church in America, by Thos. Ashton (from whom the locality was named) and Rev. Philip Embury. James and Thos. Morrison made the first settlement, near White Creek.6

WHITEHALL<sup>7</sup>—was incorp. by patent March 31, 1765, as "Skenesborough." Its name was changed March 23, 1786. It lies at the s. extremity of Lake Champlain. Its surface is mountainous in the w. and level and undulating in the center and E. Saddle Mt., upon the w. border, is nearly 900 ft. above the surface of the lake. The principal streams are Wood Creek, Mettowee (or Pawlet) and Poultney Rivers. Upon Wood Creek, near its mouth, is a fall which furnishes a valuable water-power. The soil of the greater part of the town is a hard, stiff clay and is best adapted to grazing. Considerable manufacturing is carried on in town.9 Whitehall (p.v.) is situated near the mouth of Wood Creek, on Lake Champlain. The R. R., canal, and lake trade give this place commercial importance. The Whitehall Academy is in the E. part of the village. Pop. 3,225. This town was the scene of stirring military events during the French War.10 The first settler was Maj. Skene, who located here, with 30 families, in 1761. Nominally associating 24 others with himself, he obtained a patent of 25,000 acres, March 31, 1765; and a patent of 9,000 acres in the town of Hampton and Whitehall, July 6, 1771, known as Skene's Little Patent. About 1770 he built a massive stone house and barn, a forge, and one or two sawmills. He also built a sloop upon the lake, and a road, known as "Skenes Road," 30 mi. through the wilderness toward Salem. He appears to have been a man of great energy of character, and he endeavored to secure solid and permanent advantages to the infant settlement.11 Upon the approach of the Revolution, Maj. Skene espoused the royalist cause, and his house was taken by the Americans in May, 1775.12 In 1776 an American garrison was stationed here, and a small fleet was fitted

1 Rev. Thos. Clark (Asso. Presb.) was the first minister; and his church, formed in Ireland, was transplanted without reorganization. In 1769 a Presb. society was formed, Rev. John Harford first pastor. Their church, then unfinished, was fortified by Capt. Jos. McCracken in 1777, and soon after was burned by the enemy. There are now 7 churches in town; 2 M.E., Asso. Presb., Asso. Ref. Presb., F. W. Bap., Presb., and Morav.

2 For a great number of years this school was one of the most noted in Eastern New York. Among the distinguished persons who have received a portion of their education here were Hon. Samuel Nelson, of the U. S. Supreme Court, Hon. John Savage, formerly Chief Justice of N.Y., and Rev. Dr. Bethune. of Brooklyn.

3 The creek from which the town was named received its name from the white quartz pebbles that form its bed.

4 Said to be a corruption of the Indian Pom-pa-nuck, the name of a tribe of Indians who removed hither from Conn.

<sup>4</sup> Said to be a corruption of the Indian Pom-pa-nuck, the name of a tribe of Indians who removed hither from Conn.

<sup>5</sup> Embury preached the first Meth. sermon in N. Y., 3 or 4 years before. The census reports 8 churches in town; 2 Bap., 2 M. E., Friends, Presb., R. C., and Asso. Ref. Presb.

<sup>6</sup> Among the other early settlers were Buel Beebe, Maj. John Porter, Ephraim, James, and Robt. Cowan, David Slarrow, Sam'l Clark, John McClung, Geo. Duncan, Robt. and George Gilmore, Wm. Eager, Wm. Selfrage, Sam'l Ball, and John Scott. The early settlers in the E. part of the town were Thomas Ashton, Edmund Wells, John and Ebenezer Allen, David Sprague, Seth Chase, John Harroun, Thos. McCool, John Woods, Simeon Fowler, John Young, Josiah Dewey, and John Corey. John Rhodes built the first clothing works, at Punpkin Hook.

<sup>7</sup> Called by the Indians "Kah-cho-quah-na," the place where dip fish.

dip fish.
Named from Maj. Philip Skene, a British half-pay officer, its founder and patentee.

Of The manufactures consist of lumber, machinery, vessels, beats, carpets, and sash and blinds. An extensive lumber trade is carried on with Canada and with ports on the Hudson, through Lake Champlain and the Champlain Canal.
10 Maj. Israel Putnam was stationed here in the summer of the greeny, and the prefixed of the greeny, and the prefixed of the greeny, and the greeny, and the greeny and the greeny.

10 Maj. Israel Putnam was stationed here in the summer of 1758, with 35 rangers, to watch the motions of the enemy and prevent the passage of small parties. A point—now known as Puts Rock—three-fourths of a mi. N. of the village, overlooking South Bay, and completely commanding the passage of Wood Creek, was chosen, and a stone breastwork was built and concealed by bushes. Soon after the work was finished, a party of 500 French, led by the partisan Molang, npon a secret expedition, attempted to pass up the creek in the night. They were received by a most destructive fire, and before they could recover from their surprise, one-half of their number were killed. Finding that the enemy had landed below and that he was in danger of being surrounded, Putnam quietly withdrew, with no loss, and but two men wounded.

11 Maj. Skene became acquainted with this place while accompanying the expedition under Gen. Amherst, in 1755. Soon after he planted his first settlement, of 30 families, he was obliged to go to the West Indies; and upon his return in 1763 he found

he planted his first settlement, of 30 families, he was obliged to go to the West Indies; and upon his return in 1763 he found but 15 families remaining. He brought a number of slaves from the West Indies, and employed them and a large number of discharged soldiers upon his works. His house was 30 by 40 ft, on the ground, and 2½ stories high; and his barn was 130 ft. long, with massive stone walls pierced with portholes. The other buildings in his settlement were a few frail houses belonging to his toreats.

his tenants.

12 He was very popular with the settlers, and hence he was an object of both fear and dislike to the patriots. His place was captured by a party of volunteers under Capt. Herrick, and

out in the harbor and put under the command of Benedict Arnold. Upon the approach of Burgoyne's army, in 1777, the fort was blown up and the houses, mills, &c. were all burned.1 During the War of 1812 this place became an important depôt of military stores. The first steamboat on the lake was launched here, in 1809. The Champlain Canal was constructed to this point from Fort Edward in 1819, and finished to Troy in 1824.2 In 1806 Gen. Williams made arrangements for building a church, but died before he could carry them into effect. His son (Col. John Williams) and his widow carried out the design, and presented the building to the Asso. Presb. Soc. It was rebuilt in 1826.3

Maj. Skene the younger, 50 tenants, and 12 negroes were taken | Maj. Skene the younger, 50 tenants, and 12 negroes were taken prisoners. The sloop was sent down the lake to Col. Ethan Allen at Shoreham, Vt. In the cellar of the house was found the body of the wife of the elder Skene, which had been preserved many years to secure to the husband an annuity devised to her "while she remained above ground." The Americans buried the body in the rear of the house.

1 When Ticonderoga was abandoned to Burgoyne, the public stores were embarked in 200 bateaux and sent up to this point under the convoy of 5 galleys. They were pursued and overtaken, 3 of the galleys were burned, and nearly all of the stores were destroyed. All the works at "Skenesborough" were blown

up or burned, and the Americans retreated in disorder to Fort

Ann. Burgoyne stayed in this place 3 weeks, while opening a road to Fort Ann. The remains of a battery and blockhouse built about this period, overlocking the lake, are still visible.

2 A company, under the name of the "Northern Inland Naw gation Company," had previously been formed for the purpose of uniting the waters of Lake Champlain with those of the Hudon of the covered to the purpose of the stay of the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stayed the stay son. ## WAYNE COUNTY.

This county was formed from Ontario and Seneca, April 11, 1823. It lies upon Lake Ontario, w. of the center of the State; is centrally distant 171 mi. from Albany, and contains 624 sq. mi. A series of bluffs 25 to 75 ft. high extends along the lake shore; and from their summits the surface rises in gradual slopes to the lake ridge, a distance of 4 to 5 mi. This ridge is 50 to 200 ft. wide on the top, and about 200 ft. above the lake. It declines toward the E., and upon the E. border of the co. it can scarcely be traced. declivity of the ridge upon the s. is 8 to 20 ft.; and from its foot the surface gradually slopes upward to the surface of the limestone ridge, which extends E. and w. through the co. a little N. of the center and forms the watershed between Lake Ontario and Clyde

The summit of this ridge is 140 feet above the lake ridge, 340 feet above the lake, and is about 3 mi. wide. It is highest upon the w. border of the co., and gradually declines toward the E.2 From its southern edge the surface gradually declines to Clyde River and slopes upward from the river to the s. line of the co. South of the limestone ridge are numerous drift ridges extending N. and s. and from one-fourth to one and a half miles in length. The declivities are usually very steep, and the summits 40 to 100 ft. above the surrounding surface. usually end in an abrupt declivity toward the n., but gradually decline toward the s. They are composed of clay, sand, and gravel, and seem to be deposits from great currents of water. Considerable marshy land extends along Clyde and Seneca Rivers, and also through the co. N. of the lake ridge.

Ganargwa, or Mud Creek, enters the s. w. corner of the co. from Ontario, flows in an irregular but generally easterly course to Lyons, where it unites with the Canandaigua Outlet and forms Clyde River,3 which continues eastward to the E. bounds of the co., where it discharges its waters into Seneca River. These streams receive from the N. West Red Creek, East Red Creek, and Black Creek, and from the s. numerous small brooks. The streams flowing into Lake Ontario are Bear, Deer, Davis, Salmon, Thomas, Wolcott, and Big and Little Red Creeks; First, Second, and Third Creeks flow into Great Sodus Bay. The principal indentations upon Lake Ontario are Great Sodus, East, Port, and Blind Sodus Bays. Great Sodus Bay forms an excellent harbor. Crusoe Lake, in the s. E. corner, is the only considerable body of water. The streams, in their course through the drift deposits and lake ridge, have usually worn deep ravines.

The lowest rock in the co. is the Medina sandstone, appearing upon the lake and in the ravines near it. It occupies a strip with an average width of 2 mi., widest at the w. Next above this is the Clinton group of limestone and shales, extending to the foot of the limestone ridge. Next above is the Niagara limestone, forming the summit ridge and occupying a strip about 3 mi. in width. South of this is the Onondaga salt group of red and green shales and gypsum, extending to the s. border and occupying nearly one-half of the co. The rocks are mostly covered by thick deposits of drift, and are only exposed in the ravines of the streams. Shells, marl, and muck are found in large quantities in the marshy regions. Weak brine and sulphur springs are found in various localities in the Medina sandstone and the red shales of the Onondaga salt group.

The soil derived from the drift deposits is generally a sandy or gravelly loam, with an occasional intermixture of clay. The soil along the lake shore, principally derived from the disintegration of Medina sandstone, is a reddish, sandy loam. At the foot of the mountain ridge, both N. and s., is a strip of very productive clay loam. In the valley of Clyde River the soil is principally a gravelly loam and alluvium. The marsh lands, when drained, are covered deep with a rich vegetable mold, which develops into the most fertile soil in the co.

Agriculture forms the leading pursuit. The branches, in the order of importance, are grain raising, stock growing, dairying, and wool growing. Fruit is extensively cultivated, and is rapidly

<sup>1</sup> Named in honor of Gen. Anthony Wayne.
2 This peculiar formation is accounted for by the theory that the low regions through the N. and central parts of the co. were once covered by the waters of the lake, and that the limestone sidge was a long bar or point extending into the lake from the w.
8 Named by Wm. McNab, a Scotchman. At an early day it

becoming one of the most important agricultural products. Few counties in the State surpass this in the quality or quantity of apples and peaches annually produced. A strip of land bordering upon Lake Ontario, and extending from Niagara River to the Oswego, seems peculiarly adapted to the cultivation of apples and peaches, and is rapidly becoming one of the most important fruitgrowing regions in the State. In Wayne co. \$25,000 worth of dried fruit is annually prepared. Peppermint and tobacco are raised along the valley of Mud Creek.

The county seat is located at the village of Lyons, near the center of the co. The courthouse is a fine cut stone building, fronting Church St. It has an Ionic portico, and is surmounted by a large dome. The jail is a commodious stone building, in the w. part of the village. It contains rooms for the jailer's residence, and is one of the best arranged and conducted establishments of the kind in the State. The county clerk's office is a fireproof building, fronting Pearl St., a little s. of the courthouse. The poorhouse is situated upon a farm of 130 acres 1½ mi. w. of the courthouse. The average number of inmates is 67, supported at a weekly cost of \$1.55 each. A school is taught throughout the year. The farm yields a revenue of \$1,400. The buildings are insufficient for the accommodation of the inmates; but the institution seems to be well arranged and well kept.

Six weekly newspapers are now published in the co.<sup>2</sup>

The Eric Canal extends through the s. tier of towns; and along its course are the most populous and thriving villages of the co.3 The direct branch of the N. Y. Central R. R. between Syracuse and Rochester extends, along the course of the canal, through Savannah, Galen, Lyons,

<sup>1</sup> The first courthouse was a brick edifice, erected soon after <sup>1</sup> The first courthouse was a brick edifice, creeted soon after the organization of the co. It was superseded, in 1834-55, by the present structure, built of Lockport limestone. The building committee of the present courthouse were John Adams, Stephen Marshall, and F. B. Cornwell. The first officers of the co. were John S. Tallmadge, First Judge; Hugh Jameson, Sheriff; Wm. II. Adams, District Attorney; Isaiah J. Richardson, Co. Clerk; and John S. Tallmadge, Surrogate.
<sup>2</sup> The Pathnyra Register, the first paper published in the co., was commenced Nov. 26, 1817. by Timothy C. Strong.
It was continued under various titles until 1828, when

was commenced Nov. 26, 1817. by Timothy C. Strong, It was continued under various titles until 1823, when it was published as The Western Farmer and Cunal Advocate, and passed into the hands of Pomeroy Tucker, who changed its name to The Wayne Sentinel, under which title it is now published by Wm. N. Cole.

The Lyons Republican was commenced Aug. 3, 1821, by Geo. Lewis. It was discontinued in Feb. 1822.

The Lyons Advertiser was commenced May 31, 1822, by Hiram T. Day. It underwent various changes in name and publishers. It was published as The Wayne County Gazette, by Ephraim J. Whitney; as The Lyons Argus, by E. J. & W. W. Whitney; The Lyons Gazette, by Barker & Chapman; The Wayne Ob. Patriot, and as The Western Argus, by Chapman & Chapin and Ashley & Co.;

The Western Argus, by Chapman & Chapin and Ashley & Co.; and as

The Western Argus, by Charles Poucher. In 1841 it was changed to

The Lyons Guzette. and was published by — Russell from 1849 to 1852, when it was sold to Win. Van Camp, and in 1855 or '56 it was merged in The Wayne Democratic Press.

The Palmyra Freeman was commenced March 11, 1829, by D. D.

The Palmyra Freeman was commenced March 11, 1828, by D. D.
Stephenson. It soon after passed into the hands of J.
A. Hadley, who removed the press to Lyons and changed the name to
The Countryman. Myron Holley became connected with it as associate editor. In 1831 it was suspended for a time, and afterward resumed as
The Lyons American, by Myron Holley. In 1835 it was published by Wm. H. Childs. In 1836 it was removed to Clyde and published as
The Clyde Gazette, by Dennis Cord, until 1838.
The Reflector, mo., was commenced at Palmyra in 1828 by O.
Dogberry, jr. It was discontinued in 1830.
The Newark Republican was commenced at Newark in Nov.
1829, by Jeremiah O. Balch. It was discontinued in 1831.
The Clyde Standard was published about 6 mo. in 1830 by E.
The Western Spectator and Wayne Advertiser was commenced at

The Western Spectator and Wayne Advertiser was commenced at Palmyra Jan. 9, 1830, by Luther Howard and Erastus Shepard. In 1831 its name was changed to The Spectator and Anti-Masonic Star. It was removed to Rochester the same year and merged in The Anti-Masonic Fourier.

Nov. of the same year it passed into the hands of Rodney L. Adams. In Sept. 1856, its name was changed to The Lyons Republican; and April 30, 1859, Mr. Adams sold it to W.T. Tinsley & Co., its present publishers.

The Wayne Standard was commenced at Newark in June, 1838, by David M. Keeler. In Aug. 1839, it was sold to Gen. Barney T. Partridge, J. P. Bartle, and S. Culver, who changed its name to

changed its name to

The New Ægis, Stephen Culver, editor. In Jan. 1840, it was sold to — Norton, and discontinued in May following.

The Wayne Standard, by D. M. Keeler, and published until 1843,
when it passed into the hands of H. L. Winants, and in
about 1 year was discontinued It was revived soon

The Newark Courier, by David Fairfield. It was successively published by Wm. K. Creague and B. F. Jones as The Newark Journal; and in 1854 by G. D. A. Bridgman, who

changed its name to

The Newark Whig. 1n Sept. 1856, it passed into the hands of C. F. White, who changed its name to

The Newark Weekly Courier, and still continues its publication.

The Palmyra Courier was commenced May 28, 1843, by Frederic

The training counter was commenced any 25, 1845, by Frederic
Morley. It passed into the hands of J. C. Bennett, who
changed its name to
The Palmyra Democrat. It was published again as
The Palmyra Courier, by — Benedict, from about 1851 to '54.
Mr. Benedict sold it to — Beebe, and in a short time
afterward it passed into the hands of A. E. Averill, who

afterward it passed into the hands of A. E. Averill, who changed its name to

The Palmyra American, and subsequently again to

The Palmyra Courrier, under which name Mr. Averill still continues its publication.

The Clyde Eagle was commenced in 1844 by B. Frazee. It was successively published by — Dryer, Stephen Salisbury, and in 1847 by Rev. Chas. G. Acly and William Tompkins, who changed its name to

The Clyde Telegraph. It afterward passed into the hands of Rev. W. W. Storiker, and soon after to Wm. R. Fowle, and in a short time it was discontinued.

The Clyde Industrial Times was commenced in Feb. 1850, by

and in a short time it was discontinued.

The Clyde Industrial Times was commenced in Feb. 1850, by
Payn & Smith. It soon passed into the hands of Jos.
A. Payn. Its name was changed in 1851 to

The Clyde Weekly Times, under which title it is now
published, by Joseph A. Payn.

The Northern Methodist Protestant was published by an association at Clyde in 1849; Rev. W. W. Storiker, editor.

The Wayne Banner was published at Wolcott in 1850 by John
Montyre, and was removed to Clyde, and merged in
The Industrial Times on the first issue of the latter
paper.

The Spectator and Anti-Masonic Star. It was removed to Rochester the same year and merged in The Anti-Masonic Enquirer.

The Pulmyra Whig was commenced in Feb. 1838, by Wm. N. Cole, and its name changed to

The Wayne County Whig. In the fall of 1850 it passed into the hands of Williams & Gavitt. In the spring of 1852 they sold it to Silas A. Andrews, who continued it a few months and sold it to Wm. Van Marter; and in 1855. It was removed to Lyons the same year, and is now published by Wm. Van Camp.

3 The enlarged canal crosses Seneca River on the L. border of the co., on an aqueduct built upon 31 arches of 22 feet span death of the co., on an aqueduct built upon 31 arches of 22 feet span death of the co., on an aqueduct of 3 arches and again crosses the same stream, N. of Palmyra, upon an aqueduct of 3 arches.

Arcadia, Palmyra, and Macedon. A ship canal 1 route and a R. R. route 2 have been surveyed, connecting the Erie Canal and Central R. R. with Lake Ontario.

The western 9 towns in this co. belonged to the Pulteney Estate; the E. part, including Savannah, Galen, and portions of Wolcott and Butler, constituted a portion of the Military Tract. The intermediate portion, except the s. 3 tiers of lots in Rose, were compensation lands granted to the Pulteney Estate for the gore between the old and new pre-emption lines. The earliest white inhabitants were hunters and trappers. The first permanent settlements were made in 1789, at Palmyra, under the auspices of General John Swift, agent of a company of settlers from Conn.; and at Lyons, under Charles Williamson, agent for the Pulteney Estate.3 From 1790 to 1794, colonies came in from R. I., Long Island, and Maryland.4 The settlements did not progress with great rapidity for several years, owing to the diseases which prevailed. The fear of Indian hostilities and of British invasion during the War of 1812 greatly retarded settlement. On the return of peace, settlers began to arrive in considerable numbers, principally from New England and Eastern N. Y. The completion of the Erie Canal gave a new impulse to immigration; and in a few years the flourishing villages of Lyons, Clyde, Palmyra, and Newark were built up along its course. The N. Y. Central R. R., built through the co. in 1852-53, greatly benefited the co. and enhanced the value of the lands.

The most notable of the later incidents in the co. have been the rise of Mormonism in Palmyra,5 and the commencement of spiritual rappings in Arcadia.6

**ARCADIA**—was formed from Lyons, Feb. 15, 1825. It lies on the s. border of the co., a little w. of the center. Its surface is a rolling region, broken by drift ridges. Mud Creek flows E. through the town, N. of the center, and receives several small streams as tributaries. The soil is a sandy, gravelly loam, mixed with clay on the hills. Gypsum is found in the s. w., and marl in the center. Newark, (p. v.,) including Arcadia, (p. v.,) in the s. part, on the canal, was incorp. July 21, 1853, as Newark. It contains 7 churches, a bank, flouring mill, tannery, 3 furnaces, and several manufactories. It is a flourishing canal village and a station upon the N. Y. C. R. R. Pop. 2,042. Fairville, (p. v.,) about 5 mi. N., contains 1 church, a tannery, a limited amount of manufactures, and 159 inhabitants. Marbletown, near the s. E. corner, contains a church and 10 houses. Jessups Corners and Hydeville are hamlets. Settlement was commenced in 1791, by Joseph Winters and B. Franklin. The first church (M. E.) was organized in 1805. Roger Benton was the first settled minister, in 1806.8 A family named Fox, residing at Hydeville, in Arcadia, first heard the mysterious sounds known as the "rappings" on the night of March 31, 1849. Investigations were made in regard to the origin of the raps, but nothing definite was settled upon. The family soon after removed to Rochester, the "raps" accompanying them; and hence the name "Rochester Rappings." A series of investigations was instituted, and the matter became public, some claiming for it a spiritual origin, but the great majority pronouncing it a humbug or delusion. From this source modern spiritualism originated.

BUTLER—was formed from Wolcott, Feb. 26, 1826. It is the center town on the E. border of the co. Its surface is diversified, level in the s. E. and rising into ridges in the N. W. The highest point is Armstrong Hill. The principal stream is Wolcott Creek, which rises in the N. E. and, flowing in a circuitous course, leaves the town near the N. w. corner. The soil in the valleys is a gravelly loam, and on the hills it is generally clay, with a tenacious subsoil. Lime is manufactured in the N. part to a limited extent. South Butler, (p. v.,) on the s. line, contains 5 churches, a classical school, several manufactories, and about 400 inhabitants. West Butler (p. o.) contains 10 houses; Westbury, (p. v.,) in the N. E. corner, partly in the town of Victory,

<sup>1</sup> In 1827, a charter was obtained for building a ship canal from the Eric Canal, at Montezuma, to Great Sodus Bay. Sur-veys were made, but no work was ever done. A new charter was obtained by John Greig, of Canandaigna, in 1836; and an-other by Gen. Wm. H. Adams, in 1851. The route named in the last charter is from Sodus Bay to the Eric Canal, a little w.

the last charter is from Sodus Bay to the Eric Canal, a little w. of Clyde. Some work has been done on parts of this route.

2 The Sodus Point & Southern R. R. was incorp. in April, 1852.
The road was to extend from Sodus Bay to Newark. The ronte has been surveyed, but no work has been done. A survey has also been made for a R. R. from Clyde to Sodus Bay.

8 Mr. Williamson built roads from Palmyra and Lyons to Sodus Point; upon these the early settlers mostly located. He also laid out a city upon Sodus Bay, which has not yet been built.

4 The Maryland settlers brought with them several slaves; but it was soon found that slave laipor was unprofitable.

it was soon found that slave labor was unprofitable.

See p. 693.See Arcadia.

<sup>7</sup> Gilbert Howell and Paul Reese came in in 1795; Samuel 7 Gilbert Howell and Paul Reese came in in 1795; Samuel Soverhill in 1798; Humphrey Sherman, Reuben Starks, and John Miller, from Long Island, in 1800; and Ebenezer Smith soon after. The Lusks came in from Columbia co. in 1806, Jacob, Philip, and Isaac Lusk purchased 1 sq. mi, which is now occupied by the village of Newark. Caleb Tibbitts, Stephen Aldridge, Henry Cronics, and Cooper Culver settled in 1807; and Dr. A. Hyde, in 1810. The first death was that of a child of B. Franklin, in 1792; the first marriage, that of — Hess and Amy Tibbitts, in 1798. Stephen Aldridge kept the first inn, and J. P. Bartlet the first store.

§ There are 10 churches in town; 2 Meth. Prot., M. E., Presb., Prot. E., Union. Ref. Prot. D., Bap., R. C., and Christian.

Prot. E., Union, Ref. Prot. D., Bap., R. C., and Christian.

(Cayuga co.,) 1 church and 20 houses. Butter Center is a hamlet. The first settlement was commenced in 1802.1 The first settled minister was - Mills.2 Rev. Antoinette L. Brown, the first woman ever regularly ordained in the State, was settled for several years over the Cong. Church at South Butler.

GALEN<sup>3</sup>—was formed from Junius, (Seneca co.,) Feb. 14, 1812. Savannah was taken off in 1824. It lies on the s. border of the co., E. of the center. Its surface is hilly in the E., but more level in the w. In the s. w. is a large tract of swamp land. Clyde River flows through the town from w. to E. in a circuitous course. The soil is a rich, sandy and gravelly loam. Clyde, 5 (p. v.,) near the center, on Clyde River, was incorp. May 2, 1835. The canal passes through the village; it is also a station on the N. Y. C. R. R. It contains 6 churches, a high school, 2 banks, a newspaper office, a glass factory, and several other manufactories. Pop. 1,856. Marengo, (p. v.,) in the s. part, contains a church and 20 houses; Lock Berlin, (p. v..) in the w. part, on the canal, a church and 30 houses. Angelis Corners, in the s. E., and Meadville, in the E., are hamlets. The first settlement was commenced by Loammi Bedell, in 1800.8 The first church (Presb.) was organized July 8, 1814.9 Borings for salt water in the vicinity of Clyde have been made, but without success. One of the wells emitted inflammable gas: the well was soon filled up.

**HURON**—was formed from Wolcott, as "Port Bay," Feb. 25, 1826. Its name was changed March 17, 1834. It lies on Lake Ontario, E. of the center of the co. A part of Great Sodus Bay lies in the N. W. corner. East Bay, in the N., and a part of Port Bay, in the N. E., extend into the town. Its surface is rolling, with a general northern inclination. In the w. and N. w., near Great Sodus Bay, are several tracts of swamp lands. The lake shore rises in a series of bluffs, the highest of which-Chimney Bluff-is 175 ft. above the lake, and Bay Bluff 120 ft. Several small streams flow N. through the town, the principal of which is Mudge Creek, which empties into East Bay. The soil is a sandy and gravelly loam, intermixed with clay in the s. North Muron (p.v.) contains 2 churches, a saw and grist mill, and 40 houses; South Huron (Huron p. o.) 1 church, a townhouse, and 20 houses. **Port Glasgow** (p. o.) is a hamlet, at the head of sloop navigation on Great Sodus Bay. The first settlement was commenced by Peregrine Fitzhugh and Wm. Helmus, and some other families from Md., in 1796.10 The first church (Presb.) was organized in 1813.11

LYONS—was formed from Sodus, March 1, 1811. Arcadia was taken off in 1825. It lies on the s. border of the co., a little E. of the center. Its surface is a moderately rolling region, broken by sand ridges. The Canandaigua Outlet from the s., and Mud Creek from the w., join in the s. part and form Clyde River. The soil is a sandy and gravelly loam, with marl upon the creek bottom lands. Lyons, (p.v.,) on the canal, at the junction of Canandaigua Outlet and Mud Creek, was incorp. April 18, 1854. It contains the co. buildings, 7 churches, 2 banks, 2 newspaper offices, a union school,12 and several manufactories;13 and it is an important R. R. station. Pop. 3,221. Alloway, (p. v.,) in the s. part, on Canandaigua Outlet, contains a church, a gristmill, and 30 houses. The first settlement was commenced in 1789, by Nicholas and Wm. Stansell and John Featherly,14 They settled, with their families, (12 persons in all,) a half mile s. of the

<sup>2</sup> There are 7 churches in town; 2 M. E., 2 Christian, Bap., Cong., and 2d Adv. <sup>3</sup> This was Township No. 27 of the Military Tract, and received its

name from having been appropriated to the Medical Department.

4 Named by Wm. McNab, agent of the Hornby Estate. Geneva.

5 This location was originally called "Elock House," from a 4 Named by Win, McNaù, agent of the Hornby Estate, Geneva.

5 This location was originally called "Elock Howe," from a blockhouse built here by Indian traders at an early day. It was used during the Revolution by tories as a "station" in smurgling goods from Canada via Sodus Bay. It was burned previous to 1800. The village was first called "Lauraville;" from Henrietta Laura, Countess of Bath, daughter and heires of Sir Win. Pulteney. Its name was changed to Clyde in 1818.

6 It is a union school, formed from Districts 14 and 17. Incorp. April 24. 1834, with special privileges. This was one of the earliest union schools in Western New York. The school employs 6 teachers.

<sup>1</sup> John Granby and ---- Wellman settled near the center, as ary as 1803; Erastus Hubbard and Abijah Moore, in 1805; Capt. Willis, Wm. Hallett, Henry Bunnel, Aaron Hoppin, Mrs. Bunce, and Morris Craw, previous to 1807; and Seth Craw and Roger Olmsted, in 1808. The first birth was that of — Winans; the first death was that of Jedediah Wheeler, in April, 1811.— Violes built the first sawmill at the center. - Vieles built the first sawmill, at the center.

present village of Lyons. They were piloted up the Mohawk, (where they had previously settled,) and by the usual water route, by Wemple, an Indian trader. Charles Williamson, agent of the Pulteney Estate, commenced a settlement at Lyons Village in 1794, through Charles Cameron, his local agent. Jas. Otto came in 1796. In 1798, Judge Evert Van Winkle and and 40 others came in, from N. J. and Md.; and in 1801, Judge Daniel Dorsey and family, from Md. Judge Dorsey had previously purchased of Mr. Williamson nearly 1,000 acres in the immediate vicinity of the village. Rev. John Cole (Meth.) was the first local preacher.1

MACEDON—was formed from Palmyra, Jan. 29, 1823. It is the s.w. corner town of the co Its surface is rolling and irregular. The valley of Mud Creek extends E. through the s. part. It is drained by Mud and Red Creeks and their tributaries. The soil is a clay and gravelly loam upon a limestone formation. Macedon, (p. v.,) a canal village, was incorp. Nov. 1856. It contains 2 churches, a saw and grist mill, furnace, and machine shop, and about 500 inhabitants. Macedon Center (p. v.) is incorp., and contains 3 churches, the Macedon Academy, and 20 houses. The first settlement was made as early as 1789, by Webb Harwood and Ebenezer Reed.2 The first church (Bap.) was organized in 1800.8

MARION—was formed from Williamson, as "Winchester," April 18, 1825. Its name was changed April 15, 1826. It is an interior town, lying w. of the center of the co. Its surface is broken by sandy hills and gravelly ridges; the Niagara limestone crops out in the N. part. It is drained by East Red Creek, which flows s. into Mud Creek. The soil is a gravelly, calcareous loam, and drift. Limestone is quarried in the N. part, for building purposes and public works. Near Marion Village is a sulphur spring. Marion, (p. v., ) in the s. part, contains 4 churches, the Marion Collegiate Institute, a furnace and machine shop, a fanning mill factory, and 390 inhabitants. The first settlement was commenced in 1796, by Daniel Lovell.4 The first church (Presb.) was organized Nov. 1, 1808.5

ONTARIO-was formed from Williamson, as "Freetown," March 27, 1807. Its name was changed Feb. 12, 1808. Walworth was taken off in 1829. It is the N. w. corner town of the co., Lake Ontario forming its N. boundary. Its surface is mostly level, with a general inclination toward the lake. It is drained by several streams running N. to the lake, the principal of which are Bear, Deer, and Davis Creeks. The soil is a sandy, gravelly loam, with drift and muck N. of the ridge. Between the lake shore and the ridge road are extensive marshes, heavily timbered. Iron ore, in the form of red oxid, is found in large quantities in the Clinton group, extending E. and w. through the center of the town. Salt was formerly manufactured to some extent. Ontario, (p. v.,) in the s. E. part, contains a church, steam sawmill, furnace, and 25 houses; Ontario Center, 2 mi. w., a church and 20 houses; Furnace Village, near the center, a furnace<sup>6</sup> and 16 houses. New Boston, on the lake shore, is a hamlet. The first settlement was commenced by Freeman Hopkins, from Mass., in 1806.7 The first church (Bap.) was organized in 1811,8 by Elder Lyon.

PALMYRA—was formed in Jan. 1789. Macedon was taken off in 1823. It lies on the s. border of the co., w. of the center. Its surface is undulating. Mud Creek flows E. through the town, s. of the center. Its tributaries are East and West Red Creeks and several small streams. The soil is a calcareous loam, with marl on the creek bottoms, and drift, sand, and gravel on the hills. Palmyra, (p. v.,) in the s. w. part, was incorp. April 9, 1819. It is an important canal village, and is a station on the N.Y. C. R. R. It contains 5 churches, the Palmyra Union School,9

Otto and a daughter of Capt John Dunn. John Riggs kept the first inn, in 1801; Judge Daniel Dorsey, the first store; Henry Tower, agent of Mr. Williamson, built the first mills, at Alloway, in 1796; and Dorsey & Milton, the first carding and cloth dress-

death, that of - Phelps, in 1800. Widow Stiles kept the first inn, in 1799; and — built the first gristmill, in 1801.

There are 4 churches in town; Cong., M. E., Bap., and Christian.

Christian.

6 The "Wayne Co. Iron Co." manufacture about 6 tons of pig iron per day, from ore dug in town.

7 Among the early settlers were Peter Thatcher and Harry Leavins, who settled on the lake shore, and Noah Fuller. in the N. part, and Darius Comstock and Jerome Smith in the central part, in 1790. Jacob Gannett, John Gibson, Barnabas Rrown, Abner Hill, Adam Kingman, — Spear, Jonathan Warren. Constant Sonthard, — Reid, Packard Barney, and Philip Woods, from Mass. in 1791. A number of Friends came in 1800 from Penn. and Mass. The first child born was Enoch Gannett, in 1791; the first death was that of David White. Barnabas Reed taught the first school; Wm. Porter kept the first inn, and Jacob Gannett built the first mill.

8 There are 5 churches in town; 2 Priends, Bap., M. E., and R. C.

4 — Blakesley and Ezra Phelps settled in 1796, David and Isaac Sweezy in 1797, and Wm. B. Cogswell, from R. I., in March, 1798. The first birth was in the family of David Lovell; the first school was Infrast school in 1800 from R. I., in March, 1798. The first birth was in the family of David Lovell; the first school is the first smill.

8 There are 4 churches in town; 2 M. E., Presb., and Bap. 1800 pupils.

a bank, 2 printing offices, and a number of manufactories. Pop. 2,310. East Palmyra, (p. v.,) a canal and R. R. station, in the E. part, contains 2 churches, a gristmill, and 20 houses. The first settlement was made by John Swift, in 1789 or '90.2 In the winter of 1788-89, John Swift and Col. John Jenkins purchased Tp. 12, R. 2, now Palmyra, and commenced the survey of it in March. During the summer, John Swift moved into the town, and erected a log house and storehouse a little N. of the lower end of Main St., Palmyra. Before the close of the year 1789, Webb Harwood and family, Noah Porter, Jonathan Warner, and Bennett Bates, from Mass., came in. Mr. Harwood settled a little w. of the village. David White and family came in in 1790. The first church (Presb.) was formed in 1797; Rev. Eleazur Fairbanks was the first pastor.3 Joseph Smith, the father of the prophet, settled a little s. of Palmyra Village in 1819. The plates of the Mormon Bible were said to have been dug up on a hillside in Manchester, Ontario co., a little s. of the Palmyra line. The Smiths were money diggers, and had previously been digging in this locality for gold. The book was printed at the office of the Wayne Sentinel, Martin Harris, a convert, mortgaging his farm to defray the expense.

ROSE<sup>4</sup>—was formed from Wolcott, Feb. 5, 1826. It lies in the interior of the co., E. of the center. Its surface is mostly undulating or level, with drift ridges in the s. E. Several small tracts of swamp land lie in different parts of the town. The streams are small; Mudge, Sherman, and Thomas Creeks are the principal. The soil is a gravelly loam, intermixed with clay on the elevations and with muck on the lowlands. The highest point is 140 ft. above Lake Ontario. Limestone approaches the surface in the N. part, and has been quarried to some extent for lime and for building purposes. Rose Valley, (Rose p. o.,) near the center, contains 3 churches, a steam sawmill, and tannery. Pop. 218. Wayne Center, in the w. part, contains 20 houses; Glenmark Falls, in the N. part, contains 2 gristmills, 2 sawmills, and 10 dwellings. The first settlement was made in 1805, by Caleb Melvin and Alpheus Harman.<sup>6</sup> The first church (M. E.) was organized in 1824.<sup>7</sup>

SAVANNAH8—was formed from Galen, Nov. 24, 1824. It is the s. E. corner town of the co. Its surface is broken by drift ridges in the N., and is low and marshy in the s.; about one-third of the s. part is a woodland marsh, known as Crusoe Island. Seneca River forms the s. part of the E. boundary. Crusoe Lake is a small, shallow body of water near the center; its outlet, Crusoe Creek, flows into Seneca River. The soil in the N. is a sandy and gravelly loam, and in the s. it is principally composed of muck and shell marl. A tract of about 1,900 acres in the s. E. part is an open marsh, producing coarse grass. Savannah, (p. v.,) near the center, is a station upon the N. Y. C. R. R., and contains 20 houses. The first settlement was made by Elias Converse and Joseph Mozier, in 1812.10 The first preacher was Rev. — Wiers, (Bap.) There is no church in town.

**SODUS**<sup>11</sup>—was formed in Jan. 1789. Williamson was taken off in 1802, and Lyons in 1811. It is the central town on the N. border of the co., and is bounded N. by Lake Ontario. A part of Great Sodus Bay lies in the N.E. corner. Its surface in the N. part is mostly level, with a gentle inclination toward the lake. A ridge 140 to 190 ft. higher than the surface of the lake passes through near the center; and s. of this the surface is broken by several ridges extending N. and s. The lake shore varies in height from a low swamp to bluffs 70 ft. high. Second and Salmon Creeks are the principal streams. The soil in the N. part is a clay and sandy loam, and in the s. gravelly loam. The manufacture of lime is extensively carried on in the s. part; and red sandstone is quarried in the s. w. Red oxid of iron (argillaceous ore) is found 2 mi.w. of Sodus Point. Salt was manufactured in 1831

1 A machine shop and manufactory of agricultural implements, 2 furnaces, a scale manufactory, distillery, tobacco manufactory, and gas works. About 2 mi. N. E. of the village is an

extensive rope and cordage manufactory.

2 The settlers that followed in 1790-91-92, as near as can be ascer-2 The settlers that followed in 1790-91-92, as near as can be ascertained, were Lemuel Spear, David Jackways, James Galloway, Jonathan Willet, the Mattisons, Gideon Durfee, sr., and his sons, —Gideon, Edward, Job, Pardon, Stephen, and Lemuel,—Isaac Springer. Wm., James, and Thos. Rogers, John Russell, Nathan Harris, David Wilcox, Joel Foster, Abraham Foster, Elias Reeves, and Luther Sanford. In 1791 "The Long Island Co.," through Elias Reeves, A. Foster, Wm. Hopkins, and Luther Sanford, purchased 5,500 acres near East Palmyra, at 25cts. per acre; and the first wheat harvested sold for 25cts. per bushel. The first birth was that of a child of Webb Harwood, in 1790: the first marriage, that of Wm. Wilcox and Ruth Durfee; and the first death, that of David White. Ira Selby taught the first school, in 1793. Dr. Azel Ensworth kept the first inn, and Samuel Colt the first store, at an early day. Jonah Howell built the first mill, 1 ml. e. of the village.

\* The census reports 10 churches in town; 2 Presb., 2 M. E., Prot. E., Bap., Christian, Cong., Friends, and R. C.

<sup>4</sup> Named from Robert L. Rose, Esq., of Geneva.
5 There is a fall at this place, on Thomas Creek, of 22 ft.
6 Among the other early settlers were Milton Salisbury.
Crafts, John Sherman, Joel Bishop, sr., Lott Stuart, Aaron Shep ard, Chas. Thomas, — Pomeroy, and — Bannister. The first birth was that of a child of Mr. Salisbury, in 1812; the first barriage, that of Hosea Gillett and Hannah Burnham, in Jan, 1813; and the first death, a child of Harvey Gillett, in 1812. Sally Bishop taught the first school, in 1813; and Oliver Wetmore built the first sawmill, in 1812.
7 There are 3 churches in town; Presb., M. E., and Bap.
8 Named from the surface in the s. nart.

<sup>7</sup> There are 3 churches in town; Presb, M. E., and Bap.
8 Named from the surface in the s. part.
9 The Galen Salt Works of an early period were in this town
10 Among the early settlers were Michael Weatherwax, Benj.
Seeley, Garret Burnham, Henry Taylor, Chauncey Ives, John
Green, Abner and Ezra Rockway, Henry Myers, David Cushman, Smith Ward, and Sampson McBane, mostly from Eastern
N. Y. The first marriage was that of Geo. Fredenburgh and
Sally Couverse; the first birth was that of a child of Geo. Predenburgh; and the first death, that of — Sweetman. Lorin Brown taught the first school, in 1817. 11 Called by the Indians "Assorodus," meaning "silvery water."

and '32. Sodus (p. v.) contains 3 churches, the Sodus Academy, and about 300 inhabitants. Sodus Point, (p. v.,) on the lake, w. of the entrance to the bay, is a U. S. port of entry in the Genesee District. It has a lighthouse, a church, a steam sawmill, and about 200 inhabitants. Sodus Center (p. v.) contains a church, foundery, carding mill, grist and saw mill, and 40 houses; Alton (p.v.) a church and 30 houses; South Sodus (p.v.) a church and 30 houses; and Joy (p. v.) a church, shingle factory, and 30 houses. The first settlement was made in 1794, under the auspices of Charles Williamson, agent of the Pulteney Estate. Mr. Williamson caused a road to be cut through from Palmyra to Sodus Point in the spring of 1794. During the summer the town was surveyed, an extensive city plan laid out between Salmon Creek and the Point, and within two years mills were erected on Salmon Creek. A tavern was built at an expense of \$5,000, a pleasure vacht was placed upon the bay; and in roads, surveys, buildings, &c., over \$20,000 was expended. Thos. Little and — Moffat were the local agents of Mr. Williamson. Of all those connected with these premature improvements, but few remained after they were completed. Elijah Brown was an early settler, 4 mi. w. of the Point, and Amos Richards, 7 mi. w. Ammi Ellsworth came from Conn. in 1801, and settled near the Point. Dr. Wm. Nixon Lummis settled at the Point. He built mills and a forge. A daughter of his is Mrs. Elizabeth Ellet, author of the "Women of the Revolution," and "Domestic History of the Revolution." Col. Peregrine Fitzhugh came from Md. in 1803, with his family and slaves, -over 40 persons in all. Dr. Thos. G. Lawson, an Englishman, settled 1 mi. from the Point, in 1803. After expending considerable money in attempting to form a settlement, he abandoned the enterprise in 1805. In 1799, besides those already mentioned, there were 25 families in town on roads leading to Palmyra and Lyons. The first church (Bap.) was organized in 1805; Elder Seba Norton was the first settled minister.2

WALWORTH<sup>3</sup>—was formed from Ontario, April 20, 1829. It is the central town on the w. border of the co. Its surface is a high, rolling upland, the ridges being the most elevated land in the co. The Niagara limestone crops out in the N. part, marking its course by a hard, stony surface some rods in width. It is drained N. by several small streams, and S. E. by tributaries of Red Creek. The soil is a rich, sandy loam. Walworth, (p.v.,) near the s. E. corner, contains 3 churches, the Walworth Academy, and 230 inhabitants. In the immediate vicinity is an extensive nursery. West Walworth, (p. v.,) in the s. w. part, contains a church and 115 inhabitants. The first settlement was begun about 1800.5 The first church (M. E.) was organized previous to 1809.6

WILLIAMSON7—was formed from Sodus, Feb. 20, 1802. Ontario was taken off in 1807, and Marion in 1825. It lies on the N. border of the co., w. of the center, Lake Ontario forming its N. boundary. Its surface is level in the N., with a gentle inclination toward the lake. In the s. it rises into low ridges. It is drained by a few small streams that flow n. into Lake Ontario. The soil is a sandy, gravelly loam, mixed with clay near the lake shore. Pulteneyville, (p. v., ) on the lake shore, a U. S. port of entry in the Genesee District, contains a church, gristmills, a steam sawmill, and about 450 inhabitants; Williamson, (p.v.,) s. of the center, contains 2 churches, a steam flouring mill, and about 300 inhabitants; East Williamson contains 2 churches and 20 houses. The first settlement was made in 1803, by Wm. Waters.9 The census reports 8 churches in town.10

WOLCOTT<sup>11</sup>—was formed from Junius, (Seneca co.,) March 24, 1807. Butler, Huron, and Rose were taken off in 1826. It is the N.E. corner town of the co., Lake Ontario forming its N.

<sup>1</sup> Moses and James Silk kept the first inn, at Sodus Point, in the building erected for that purpose by Mr. Williamson. On the evening of June 13, 1813, a party of about 100 English landed at Sodus Point in boats, from the fleet of Sir Jas. Yeo, for the purpose of selzing or destroying what public stores they could find. They were opposed by about 40 Americans, under Capt, Hull, of Lyons. After the first fire the Americans retreated. The enemy burned 5 houses, and the old Williamson Hotel, owned by Capt. Wm. Williamson Hotel, owned by Capt. Wm. Williamson Hotel, owned by Capt. Wm. Williamson Hotel, owned by Capt. Wm. Williamson Hotel, owned by Capt. Wm. Williamson Hotel, owned by Capt. Wm. Bartish had 2 killed, and the Americans I killed and I mortally wounded. The total amount of property destroyed amounted to about \$25,000.

about \$25,000.

2 The census reports 11 churches in town; 4 M. E., 2 Prot. E.,
2 Presb., Bap., Christian, Cong.
3 Named from Chancellor Walworth.
4 This nursery—established in 1540—occupies 75 acres, and produces annually 300,000 trees, mostly sent to New England,
N. J., Md., and Va.
5 Among the other early settlers were George Millet, in 1802,
Daniel Douglass and George Randolph, at West Walworth, Dr.
Hurlbut Crittenden, in 1804, Deacon Gideon Hassett, James and
Jonathan Hill, Capt. Gilbert, — Hinckley, and John and

<sup>&</sup>lt;sup>9</sup> Capt. Sam'l Throop, Jeremiah Selby, John Holmes, and Alpheus Curtis, came in 1806, Maj. Wm. Rogers in 1807, and Dan'l Poppins, Timothy Smith, —— Denning, Andrew Connell. Sam'l roppins, 1 morny Smith.— Denning, Andrew Conneil, Sam'l Ledyard, and Jacob W. Hallett, soon after. The first child born was H. N. Throop, in Nov. 1807. Major Rogers kept the first inn, in 1807; Jos. Colt. the first store. Capt. Sam'l Throop and Jeremiah Selby built the first saw and grist mill. 10 2 Presb., M. E., Wes. Meth., Bap., Cong., Ref. Prot. D., and Union

Union

<sup>11</sup> Named from Gov. Oliver Welcott, of Conn.

boundary. Its surface is undulating, with a general inclination toward the lake. In several localities are tracts of low marsh land. The streams are Wolcott and Big and Little Red Creeks, and several smaller streams, which flow N. into Lake Ontario. A part of Port Bay, in the N. W., Blind Sodus Bay, in the N. E., and two smaller bays, extend inland from the lake. The soil is a sandy and gravelly loam. Iron ore is found in the N.E. part. Wolcott, (p.v.,) near the s.w. corner, was incorp. Feb. 24, 1852. It contains 4 churches, an academy, 2 flouring mills, 2 sawmills, a furnace and agricultural machine shop, carding machine, and carpet and coverlet factory. Pop. 600. Red Creek, (p. v.,) in the s. E. part, is incorp., and contains 3 churches, the Red Creek Union Academy, 2 gristmills, 3 sawmills, a woolen factory, furnace, and tannery. Pop. in 1859, 597. Furnace Village, in the w. part, contains a furnace, sawmill, and 12 houses. The first settlement was made by Jonathan Melvin, sen., on Lot 50, in 1805.4 The first settled minister was Daniel S. Buttrick.5

<sup>1</sup> Named from the sandbar which stretches across its mouth from the w. shore.

2 The Leavenworth Institute, incorp. in 1859; named from

F. W. Bap., and Meth. Prot.

Isaac Leavenworth, who contributed one-half the total cost.

<sup>1838</sup>C Leavenworth, who contributed one-hait the total cost.

3 Wolcot Furnace manufactures about 450 tons of pig fron
per annum from ore dug in the N.E. part of the town.

4 Among the other early settlers were Adonjah Church, from
Mass., in 1806, Osgood Church and family, in 1807, Dea. Knapp

and Lambert Woodruff, in the vicinity of Red Creek, Noadiah Child, in 1811, and Jacob Snyder, with his family of 10 children, ln 1813. The first death was that of a son of George Salmon. Obadiah Adams kept the first inn, and Noadiah Child built the first saw and grist mill, in 1814.

5 There are 8 churches in town; 2 M. E., 2 Bap., 2 Presb.,

## WESTCHESTER COUNTY.

This county, constituting one of the original divisions of the State under the English rule, soon after the first conquest, was organized Nov. 1, 1683, with its present limits. It lies upon the E. bank of the Hudson, in the s. E. part of the State, and is bounded on the E. by Conn. and on the s. by Long Island Sound. It is centrally distant 105 mi, from Albany, and contains 525 sq. mi. The surface consists of several ridges of hills parallel to the river and separated by wide valleys. The hills are in two general ranges, the first extending along the river and the second along the Conn. line. They are subdivided into a great number of minor ridges and hills, all extending N. and s. The highest summits are 600 to 1,000 ft. above tide. The valleys, extending N. and S., are continu-

ous, affording ample opportunity for the construction of roads and railroads; and they are generally bordered by gradually sloping hillsides. In some localities the hills are abrupt and rocky. The principal streams are Peekskill Creek, Furnace Brook, Croton, Pocantico, and Neperhan Rivers, and Tibbetts Brook, tributaries of the Hudson; Bronx River, Westchester and Hutchinsons Creeks, Mamaroneck and Byram Rivers, flowing into Long Island Sound; Maharness and Stamford Mill Rivers, flowing E. into Conn.; and Muscoot Creek, Plum Brook, and Titicus, Cross, and Kisko Rivers, tributaries of the Croton. The lakes are small bodies of water scattered through the hilly portions. The s. E. portion of the co., along the Sound, is deeply indented with bays and estuaries, which in some places are bordered by extensive marshes. Most of the streams which flow into the Sound afford, by the reflux of the tide, an intermitting hydraulic power, which is employed in several places.

The rocks of the co. consist principally of granite and gneiss, of many dissimilar varieties, and of white crystalline limestone. These rocks crop out upon the declivities and summits of most of the hills, affording an abundance of the best kind of building stone. The marble quarries at Sing Sing and other places are extensively wrought, their products affording one of the most valuable exports of the co. Traces of various kinds of ore have been discovered; but all search for profitable metallic veins has proved unsuccessful. Several mineral springs are found in different sections, the principal of which is the Chappaqua Spring, 3 mi. E. of Sing Sing. It emits sulphuretted hydrogen and is said to possess useful medicinal properties. The soil, derived principally from the disintegration of the primitive rocks, is light, sandy, and, naturally, only moderately productive; but, by a continued process of scientific culture, it has been rendered very fertile. Upon the Hudson and the Sound and in various other localities are drift deposits and alluvium, furnishing a much more productive soil. The people are principally engaged in gardening and fruit raising, fattening cattle, and supplying milk for the New York market. Bricks in immense quantities are manufactured along the Hudson for exportation. Other manufactures are largely carried on in the villages adjacent to New York.

This co. is distinguished for beautiful and picturesque scenery, noticeable in nearly every part. The highlands that border upon the Hudson afford an extended view of that river, the Palisades, and of the hilly country of Rockland and Orange. Along the s. E. border fine views are obtained of the Sound, the numerous green islands along the coast, and the adjacent shores of Long Island. In the interior the landscape is agreeably diversified by hills, dales, and clear, running streams. Many wealthy inhabitants of New York have erected beautiful villas and country residences upon the finest sites; and the hills of the co. are now studded with these splendid specimens of archi-

tectural art.

In the vicinity of New York are numerous small villages inhabited by mechanics and working men doing business in the city. These people go back and forth daily on the lines of railroad, or by steamboat, living in the country for the sake of economy. A considerable amount of manufactures is carried on at these suburban villages. A large transient population, mostly from New York, make this co. their residence during the summer months.

<sup>1</sup> The roads that cross the co. E. and W. are a constant succession of ascents and descents, while those extending N. and S through the valleys are nearly level.

The co. is a half-shire, the co. buildings being located respectively at Bedford and White Plains. The courthouse at Bedford is a wooden structure; and attached to it is a jail for the temporary confinement of prisoners. The co. buildings at White Plains are of granite, and are the most commodious and costly buildings of the kind in the State.2

The poorhouse is located upon a farm of 173 acres in Mount Pleasant, 5 mi. N. of White Plains. The average number of inmates is 225, supported at a weekly cost of  $68\frac{1}{2}$  cts. each. The farm yields a revenue of \$2,500. A school is kept throughout the year. The buildings are of stone;

and the whole establishment seems to be well arranged.

The Hudson River R. R. extends along the river banks through Yonkers, Greenburgh, Mount Pleasant, Ossining, and Cortlandt. The Harlem R. R. extends N, through the central part of the co., extending through Morrisania, West Farms, Yonkers, East Chester, Scarsdale, Greenburgh, White Plains, Mount Pleasant, New Castle, Bedford, Lewisboro, and North Salem. The New York & New Haven R. R. extends from the Harlem R. R. at East Chester E. through Pelham, New Rochelle, Mamaroneck, Harrison, and Rye. A branch road extends from the Harlem R. R. at Morrisania s. E. about 2 mi. to Port Morris. The other principal public work in the co. is the Croton dam and the great aqueduct which supplies the city of New York with water. Lines of steamers ply between New York and the various ports along the Hudson and East Rivers, affording cheap and easy means of communication with the great city.

Five newspapers are now published in the co.3

When first known to the whites, this co. was occupied by the Mohegans, who were divided into several bands or clans with distinctive names.4 They paid tribute to the Five Nations, and were known in early documents as "River Indians."

1 At the organization of the co. in 1683, the courts were established at Westchester, and were continued there until 1759. blished at Westchester, and were continued there until 1759. A court of sessions was held at East Chester for some time. By act of Dec. 16, 1758, the justices and supervisors were directed to select a new site for a courthouse, which was located at White Plains; and in that year, 1769, and 1762, £2,000 were voted to erect and finish it. It was used until 1776, when it was burned. By an act of May 1, 1786, £1,800 were appropriated for the erection of a courthouse at White Plains and another at Bedford, under the superintendence of Stephen Ward, Ebenezer Lockwood, Jonathan G. Tompkins, Ebenezer Purdy, Thos. Thomas, Richard Hatfield, and Richard Sacket, jr. Prisoners had previously been confined in the New York jail; and courts had for a time been held in the Presbyterian church of Bedford. Both a time been held in the Presbyterian church of Bedford. Both buildings thus erected are still standing, and owned by the co. A clerk's office was built at White Plains, in 1830, adjacent to the courthouse, in the old part of the village. The Provincial Convention held its sessions a few days in July, 1776, at the courthouse in White Plains; and in front of it the Declaration of Independence was publicly read upon its receipt by that body. The building, and what remained of the village, were wantonly burned by a New England major on the night of Nov.

wantonly burned by a New England major on the night of Nov. 5, 1776.

<sup>2</sup> An act passed March 30, 1855, authorized the county treasurer to loan \$35,000 for the erection of a new courthouse, jail, clerk's office, and surrogate's office, upon a site in White Plains, to be selected by the supervisors, and under a committee to be appointed by them. The present buildings were erected in 1856-57, under the superintendence of Abraham Hatfield, States Barton. Wm. Marshall. jr., David Hunt, and Geo. C. Finch, at a cost of \$120,000. They are built of granite quarried near the village, and form 3 buildings connected by corridors. The front part is devoted to the records of the clerk and surrogate, is fireviniage, and form a buildings connected by corridors. The front part is devoted to the records of the clerk and surrogate, is fire-proof throughout, and its spacious rooms are furnished with iron cases for books and papers. The records have been recently bound, and put in complete order for preservation. The middle portion is devoted to court and jury rooms, sheriff's office and residence; and the rear building is the jail, connected with the court wront court by the averaged. with the court room only by a verandah. Prisoners may be brought into court without liability to rescue by a crowd. The

cells, 36 in number, are built in 2 tiers in a central block. By an act of April 16, 1858, the office of Register of Deeds was created, to be filled by election triennially. The act took effect Jan. 1, 1859.

8 The Somers Museum was published by Milton F. Cushing

of the Somers attaceane was published at Peekskill by Robert Crombie about 1810. It was afterward changed to The Westchester and Pulnam Greette. Several changes of proprietors and perhaps of name, occurred when in 1832 it became

The Westchester and Putnam Sentinel, and was published a short time by Dr. Brewer. It was afterward published about 2 years by Samuel Heustis, as

The Sentinel. It then passed into the hands of Samuel Marks, who continued it as

The Westchester and Pulnam Republican. In 1844 it was sold to Wm. Richards, who changed its name to The Peekskill Republican. In 1852 Joseph J. Chambers became proprietor, and in 1857 the paper was removed to Sing Sing, where it is now published as

The Republican, by J. H. Platt; J. J. Chambers, editor.

The Westchester Patriot was published at West Farms a short time in 1812 by — Lopez.

The Westchester Herald and Patnam Gazette was published at Sing Sing in 1817. It was subsequently published as The Westchester Herald, by Caleb Roscoe. The office was burned in 1856, and the publication has not been resumed.

The Westchester Spy was commenced at White Plains in 1832 by — Harpending. It was continued by William B. Lamphear, S. G. Arnold, John W. Bell, and others, until 1848, when it was discontinued.

The Hudson River Chronicle was commenced at Sing Sing in 1837 by A. H. Wells. It is now published by Wm. C. Howe.

The Protector, a campaign paper, was published in 1844.

The Port Chester Banner was pub. by Wm. A. McMillan in 1845.

The Eastern State Journal was commenced at White Plains in 1845 by Edmund G. Southerland, its present was publisher.

publisher.

publisher.

The Westchester and Putnam Democrat was commenced at Peekskill in 18— by Bailey & Marks. It was continued by Samuel Marks, and was for a time discontinued. It was revived by G. K. Lyman, and soon after it passed into the hands of J. Arnold, who continued it until 1851, when Ezra J. Horton became prietor, and changed its name to

The Highland Eagle. In 1855, J. W. Spaight became the publisher, and in 1858 the paper passed into the hands of Dr. Fenelon Hasbrouck, who changed its name to

The Highland Democrat, and still publishes it.

The Westchester Guzette was commenced at Morrisania in 1849.

Stephen Angel was for some time editor. It was discontinued about 1856.

tinued about 1856.

The Westchester County Journal was commenced at Morrisania in 1856 by James Stillman, its present publisher.

The Plain Dealer was removed from Roslyn, and afterward to Glen Cove.

Glen Cove.

The Westchester Gazetteer was commenced at West Farms in 1849, by H. Coggshell; it was removed to Mott Haven July 14, 1851, and discontinued in 1852.

The Yonkers Heruld was commenced in 1852 by Thos. Smith, its present publisher.

The Westchester News was commenced at New Rochelle in 1853 by Thos. Towndrow, It was removed to Yonkers in 1854, and published until Jan. 1856, when it was purchased by M. F. Rowe; and in Feb. following a new paper was issued in its place, called

The Yonkers Examiner, which is still published by M. F. Rowe.

M. F. Rowe.

The Mount Vernon Gazette was commenced in 1854 by Egbert

The Mount Vernon Gazette was commenced in 1854 by Egbert
A. S. Manning. It was discontinued in 1857.

4 The Siwanoys occupied the shores of the sound from Norwalk to near Heilgate; the Manhadlans held the Island of New York, and as far N. as opposite Tappan; the Wicquaskecks held the shore from the Sint Sink to the Armonck; the Sint Sinks occupied the present town of Ossining and its vicinity; the Kitchawunks claimed the territory on the Croton, and N. to Anthonys Nose; and the Puchami and Wappingers the Highlands. The Tunketonies resided in the rear of Sing Sing.—
Botton's W. Chester, I, p. 10.

Settlement began under the Dutch authority, in the southern part, and before the Revolution nearly every part of the co. had been occupied. A large part was embraced by the Cortlandt, Philipsburgh, Pelham, Scarsdale, and Fordham Manors. Of these the first sent a representative to the General Assembly, and the second was forfeited by the attainder of its proprietor in the Revolution. The borough of Westchester, including the present towns of Westchester, West Farms, and Morrisania, was also represented by a member, and had a mayor's court. This co. was the scene of many events of great importance in the Revolution, and, from its occupying the middle ground between the opposing armies, was alternately overrun and pillaged by the refugees of both.<sup>2</sup> The southern part was taxed £2,000, May 6, 1784, to repay Revolutionary expenses.

BEDFORD<sup>3</sup>—was first formed under Connecticut, in May, 1697. Its rights were confirmed by New York in April, 1704; and it was fully organized as a town March 7, 1788. It is an interior town, lying N. E. of the center of the co. Its surface is elevated and broken by small hills and valleys, and is almost entirely available for agricultural purposes. Croton River forms part of the N. boundary; Maharness River flows through a small portion of the s. part; and Cross River flows through the N. E. corner. Byram Lake lies on the s. border. The soil is generally a good quality of sandy and gravelly loam, but stony on the hills. Bedford, (p. v.,) s. E. of the center, is surrounded by hills, one of which on the N. retains its Indian name of "Aspetong." The village is a half-shire, and contains a courthouse, 2 churches, the Bedford Academy, a Female Institute, and 30 houses. Bedford Station, (p. o., ) on the Harlem R. R., contains 10 houses. Katonah, (p. v.,) on Cross River, near its junction with the Croton, contains 30 houses. Mount Kisko, (p.v.,) a station on the Harlem R. R., on the w. border of the town, contains 200 inhabitants. Whitlockville is a station on the Harlem R. R. near the N. border. The town was mostly included in a purchase made July 1, 1640, by Nathan Turner, for New Haven, and sold the same year by the latter to Andrew Ward, Robert Coe, and 20 others, for £33. Other Indian purchases were made, the last of which was July 24, 1703.5 There are 8 churches in town.6

CORTLANDT'-was formed March 7, 1788. It lies upon the Hudson, in the N. W. corner of the co. Its surface is broken and hilly. The ranges of hills generally extend n. and s. and are separated by narrow valleys. The declivities are often steep and nearly precipitous. Anthonys Nose,8 on the N. line, 1,228 ft. above the river, is the highest land in the co. Although very broken, the surface generally is susceptible of cultivation. The principal streams are Croton River, flowing across the s. part, Furnace Brook, Peekskill Hollow Creek, and Gregorys Brook. The soil is generally a sandy and gravelly loam, with a strip of clay along the river. Among the mountains are found a variety of interesting minerals.9 Brick is extensively manufactured.10

<sup>1</sup> These patents were granted as follows:— Cortlandt Potent was granted June 17, 1697, to Stephanus Van Cortlandt, with an annual quitrent of 40 shillings. It included the present towns of Cortlandt, Yorktown, Somers, and North Salem.

Philipshurgh Patent was granted June 12, 1703, to Frederick Philipse, at an annual quitrent of £4 12s. It included the present towns of Greenburgh, Mount Pleasant, and

Ossining.

Pelham Patent was granted Oct. 25, 1687, to John Pell, and included the present town of Pelham and a part of New Rochelle.

Fordham Patent was granted in 1671 to John Archer, and included 1.253 acres in the present town of West Farms.

Scarsdale Patent was granted March 21, 1701, to Caleb Heathcote, subject to an annual quitrent of £5. It included the

present towns of Scarsdale, New Castle, North Castle, and a part of White Plains.

2 Two classes of brigands, equally destitute of principle, but professing attachment to opposite interests, infested the co, committing atroclous crimes without punishment, and often preying upon their nominal friends with as little mercy as upon their avowed enemies. Of these, the "Cowboys" professed tory sentiments, while the "Skinners" were ostensibly attached to the American cause. The two parties often operated in concert, the Cowboys bringing contraband goods from New York to exchange for the property plundered by the Skinners; and, when a pretext was necessary, a skirmish would occur, and the goods from the enemy would be openly borne away, as if lawfully captured.—Bolton's Westelester, I, p. 211.

3 Named from Bedfordshire, England, whence many of the early settlers came. It formed part of the territory known as Rippowams. Privilege of plantation was granted under the present name by a court of election held at Hartford, Conn., May 11, 1632. In 1697 a patent was granted by Conu. to the town. In 1700 the royal approval was obtained to the survey 2 Two classes of brigands, equally destitute of principle, but

of 1683 and '84, by which Bedford and Rye were included in New York; and in April, 1704, a patent with town privileges was granted by that colony. In 1690 there were 31 proprietors residing in town.

4 County courts are held alternately here and at White Plains.

The village was burned in the Revolution by a party of British light horse, on their route to Fairfield, Conn. By an act passed April 11, 1785, courts were ordered to be held in the Presb. church until the courthouse should be rebuilt, or till the fur-ther order of the Legislature.

<sup>5</sup> The title to 5,115 acres of land in this town became invested "The little to 3,119 acres of land in this town became invested in Jacobus Van Cortlandt at an early period. This estate was divided if 1743, Frederick Van Cortlandt receiving 1,424, Abram De Peyster 1,110, John Chambers 1,282, and Peter Jay 1,299 acres. Gov. John Jay, a son of Peter Jay, became invested with a large portion of the last mentioned allotment. The estate is still owned by his descendants. On a tract known as "the Hop Grounds" are still living many families of the same mane as the first nurchasers. Among these are families named name as the first purchasers. Among these are families named Green, Miller, Holme, Roberts, Ambler, Clark, Ayers, Westcott, Simpkin, Mead, Webb, Clason, and Higgins. Tradition locates in this town the scene of a bloody engagement fought in Feb. 1644, between the Dutch and Indians, in which 500 of the latter perished.

63 M. E., 2 Prot. E., 2 Presb., and Bap.
7 Named from the original patentee.
8 Named from Antoine De Hooge, Sec. of Rensselaerwyck.— Benson's Memoirs, p. 40.

Among these minerals are epidote, sphene, and sulphate of arytes.
 In opening the R.R. tunnel through Anthonys Nose,

parytes. In opening the R.R. tunnel through Anthonys Nose, beautiful flat hexagonal crystals of calcite were found.

10 There were in Aug. 1853. 34 establishments worked as separate yards, 11 of which used steam power and 9 made pressed brick. This husiness began here about 1812-15 and treatments. brick. This husiness began here about 1812-15, and was most thriving from 1847 to 1854. Large quantities of these brick were used on the Croton Aqueduct. The business gives employ-

Peekskill, (p. v., ) upon Peekskill Bay, in the N. w. part of the town, was incorp. April 17, 1816. It is situated in an elevated valley surrounded by heights which afford extensive views of the river. It contains 10 churches, the Peekskill Academy, 4 boarding schools, a bank, newspaper office, and several manufactories.<sup>2</sup> It is connected by a steam ferry with Caldwells Landing, and by a daily steamer and line of sloops with New York. It is a station upon the H. R. R. R. Pop. 3,538. Verplancks Point, (Verplanck p. o.,) upon the Hudson, near the center of the w. border of the town, was laid out in 1836. It contains a church, steamboat landing, several important brick manufactories, and 1,456 inhabitants.3 Croton (Croton Landing p. o.) is a R. R. station, in the s. part of the town. It contains 4 churches, a rolling mill, wire mill, and several brickyards. Pop. 400. Crugers (Boscobel p. o.) is a landing and R. R. station, 4 mi. s. of Peekskill. Annsville, a small village on Peekskill Creek, contains a church and wire mill.6 Cortlandville, near the Van Cortlandt mansion, contains a church, a planing mill, and about 20 houses. Oregon, on the line of Putnam co., contains a rolling mill and a wire mill. Mount Airy, E. of Croton, is a hamlet. Croton Point is a peninsula in the s. part of the town, devoted chiefly to vineyards. Montroses Point is a peninsula s. of Verplancks and separated from it by Meanagh Creek. Daniel Birdsall, Nathaniel Brown, Joseph Travis, and Capt. Isaac Conklin settled at Peekskill, in 1764.8 There are 18 churches in town.9

EAST CHESTER<sup>10</sup>—was recognized as a town March 7, 1788. It is an interior town, lying in the s. part of the co. Its surface is broken by ridges extending N. and s. and separated by narrow valleys. Bronx River, 11 forming the N. boundary, and Hutchinsons or East Chester Creek, 12 forming a portion of the E. boundary, are the principal streams. The soil is a sandy and gravelly loam, with some alluvium along the river intervales. Marble is extensively quarried along the w. border.<sup>13</sup> The Harlem R. R. extends along the valley of the Bronx, and the N.Y. & N. H. R. R. crosses the s. part of the town at nearly right angles to the hills, requiring heavy cuttings and embankments. A portion of the territory of the town is public land, under the mauagement of 3 trustees. East Chester, (p.v.,) at the head of sloop navigation on Hutchinson Creek, contains 2 churches and 551 inhabitants. Mount Vernon, (p. v.,) a station at the junction of the Harlem and N. H. R. R.s, was incorp. Dec. 13, 1853. It contains 4 churches, several private schools, and 1,161 inhabitants. West Mount Vernon contains 630 inhabitants; East Mount Vernon 275 inhabitants; and Waverly and Washingtonville are suburban villages, inhabited principally by mechanics and men doing business in New York. Bronxville, (p. v.,) on the line of Yonkers, is a R. R. station, and contains a manufactory of carriage axles. Tuckahoe (p. v.) is a R. R. station, near the marble quarries. Burpos Corners is a small settlement on the N. border. Fleetwood and Jacksonville are places projected

ment to 1,350 men, and turns out 80,000,000 to 90,000,000 of bricks annually. The pressed brick made here are known in market as "Croton fronts," and sell at from \$8 to \$9 per M. There is a small firebrick manufactory at Peekskill, using clay

There is a small hrebrick manufactory at reesskin, using clay from N.J.

1 Named from Jan Peek.—Benson's Mem. p. 36; Bolton's West Chester, I, 62. The vicinity was called Sachus, or Sackhoes, by the natives, and the stream, Magrigaries.

2 Among the manufactories are 6 iron founderies, chiefly engaged in the manufacture of stoves and plows, and giving emganderies.

gaged in the instituacture of stoves and plows, and giving employment to 300 men; 2 machine shops. 2 tobacco factories, a pistol and gun factory, tannery, and gin distillery.

S Named from the family of Verplancks, former owners. This point lies opposite Stony Point; and upon it Fort La Fayette was erected during the Revolution. King's Ferry, a rest of an invocatory military route, was between the two Fayette was erected during the Revolution. King's Ferry, a part of an important military route, was between the two points. The fort was captured by the enemy, under Sir Henry Clinton in person, June 1, 1779, but was abandoned Oct. 21 of that year. Col. Livingston held command of this place in 1780, at the time of Arnold's treason; and the headquarters of Gen. Washington were located here for some time. This locality was called by the Indians "Meanagh," and was sold to Stephanus Van Cortlandt in 1683, with the lands E. called "Appamaghpogh." A small creek N. was called "Ammoesis." The purchase was confirmed by patent, with a quitrent of 2 bushels of wheat. About 1734 it was held by John Lent, at an annual rent of one pepper-corn.—Bolton's Hist., I, 94. The population mentioned in the text is much less in winter.

4 Formerly called "Collaberg Landing."

11 the text is meter less in whiter.

4 Formerly called "Collaberg Landing."

5 Named from Col. John P. Cruger, whose estate, including Oscawana Island, is adjacent. "Boscobel" (the original name)

was the residence of Staats Morris Dyckman.

6 Cortlandt Bridge, across the mouth of Peekskill Creek, is
1,496 feet long. Upon the point at the mouth of the creek are 11 Named by the Indians "Aquenous Hy66 feet long. Upon the point at the mouth of the creek are the remains of Fort Independence. During the Revolution two British vessels were sunk opposite this point, and about 40 years since several cannon were raised from them by diving bells.

1 By the Indians called Senasqua Neck, and long known as "Tellers Point," from Wm. Teller and Sarah his wife, first structed of stone from these quarries.

owners. The ship Vulture anchored opposite this point Sept.

21. 1780, with André's mission.

8 The first store was built by Daniel Birdsall, in the vicinity of the Middle Dock. Capt. Swim is said to have sailed the first sloop from Pemart's Dock, in 1773.—Bolton's Westchester, I. 62.
Many stirring events of the Revolution occurred in this vicisloop from Pemart's Dock, in 1773.—Bolton's Westchester, I, 62. Many stirring events of the Revolution occurred in this vicinity, and the country suffered much from the enemy's incursions. In March, 1777, Col. Bird landed with 500 men, and the few Americans stationed here fired the storehouses and retired. In Sept. 1777, the whole village was sacked and burned. Edmund Palmer, a tory spy, was hanged on Gallows Hill, 2 mi. N. of the village; and Daniel Strang, another spy from the enemy, was executed on a pear tree near the present academy. John Paulding, one of the captors of André, was a native of this village, and received from the State a farm in this town. His remains repose in the Episcopal graveyard, 2 mi. N. of the village, where a neat monument was erected, at the expense of the corporation of New York, in 1827; and the work was completed with imposing ceremonies Nov. 22 of that year. Gen. Pierre Yan Cortlandt formerly resided 2 mi. N. of Peekskill; and at this place Gen. McDougl posted his advanced guard when the enemy took possession of Peekskill in March. 1777. East of the Van Cortlandt mansion stands St. Peter's Church, an old, dialpidated building, erected in 1767. The united parishes of St. Peter's and St. Philip's were endowed by Col. Beverly Robinsou, and the title was confirmed Mar. 27, 1794. The property has been sold by order of the court of Chancery, and the avails equally divided between the two churches.

10 Anciently called "Hutchinsons," and afterward "The Ten Forms." Its present name was used as early as 1666.—Bolton's Westchester, I. 120.

Anciently called "Hutchinsons," and afterward "The Ten Farms," Its present name was used as early as 1666.—Bolton's Westchester, I, 120.

11 Named by the Indians "Aqueanounck."

12 Named by the Indians "Aqueanounck."

13 The marble is of the variety called dolomite. The N. Y. Custom House and the City Hall at Brooklyn were built of this material. The Custom House at New Orleans is being con-structed of stone from these quarries.

by building associations. This town appears to have been a favorite residence of the natives; and when first settled by the whites it contained traces of former occupation. The Indian title was acquired in 1654 and confirmed in 1654, 1666, and 1700. Thos. Pell, the purchaser, granted it to James Eustis and Philip Pinkney, of Fairfield, Conn., and their associates. In 1665, 26 persons signed a covenant for the security of their mutual rights.\(^1\) The settlers were incorp. by patent, March 9, 1666,2 and for many years were engaged in a controversy with Westchester concerning the bounds of their grant. A house was fortified in Oct. 1675, as a place of refuge from Indians. The first schoolhouse was agreed upon in 1683; and the site has ever since been occupied for this purpose. A townhouse was voted in 1685. East Chester was celebrated for the interest it took in behalf of Leisler.3 The Cong. church of this town was formed in 1665; and a place of worship was built about 1700.4 The town suffered greatly in the Revolution, from its being the middle ground between the opposing armies. A farm of 252½ acres was granted in this town to David Williams, one of the captors of André, June 16, 1783. He afterward removed to Schoharie co., where he died.

GREENBURGH5—was formed March 7, 1788. It lies on the w. border of the co., s. of the center. Its surface is much broken by hills parallel to the Hudson, and separated by narrow valleys, through which flow several streams, the principal of which is Neperhan or Sawmill Creek. Hudson River forms the w. boundary, and Bronx River the E. The soil is clay and sandy loam. Several marble quarries are worked near the Hudson. Hastings, (Hastings upon Hudson p.o.,) near the s.w. corner, a station on the H. R. R. R. and a steamboat landing, contains 2 churches, steam marble works, limekilns, and a limited number of manufactories. Pop. 1,135. Dobbs Ferry, 6 (p. v.,) a station on the H. R. R. R. and a landing on the river, contains 3 churches and 1,040 inhabitants. Irvington, (p. v., ) a station on the H. R. R. R. and a landing on the river, contains 2 churches and 599 inhabitants. Tarrytown, 8 (p.v.,) on the N. border, a steamboat landing and a station on the H. R. R. R., contains 4 churches, the Paulding Institute, and about 3,000 inhabitants. Harts Corners, (Moringville p. o.,) a station on the Harlem R. R., is a hamlet; Middletown is a settlement below Tarrytown; Halls Corners, a neighborhood in the N. part; Ashford, a settlement 3 mi. below; Abbotsford, a locality near Dobbs Ferry; and Greenville, a neighborhood in the s. part. The first Indian purchase was made in 1649. In 1662 Connecticut bought all the Indian lands w. to the North River, and in 1681-82-84 Frederick Philipse bought the lands now included in this and other towns which, by Patent of 1693, were formed into the Philipsburgh Manor. In 1779 they were forfeited by the attainder of Col. F. Philipse and sold for small sums to the former tenants, 10 under a pre-emption clause in the general act of May 12, 1784, for the sale of confiscated estates. The census reports 6 churches in town.11

HARRISON<sup>12</sup>—was formed March 7, 1788. It is an interior town, near the E. border, s. of the center of the co., its N. E. corner touching the line of Conn. Its surface is generally level. Blind

<sup>8</sup> However, 163.

The eensus reports 8 churches in town; 3 M. E., 2 Ref. Prot. D. Bap., R. C., and Univ.

In the Dutch "Greinburgh," literally "Grain town," In some early deeds it is called "Lawrence's Plantation;" and by the Indians, Weckquaskeek, Weckquoesqueck, Wiequoeshook,—n pure Algonquin, Weic-quoes-guck, the place of the bark kettle.—Bolton's Hist. Westchester Co., I, p. 163. This town was inhabited by a powerful tribe of Indians known as the Wickquoes-quicks, called by the English Wickers Creeks; and until the middle of the last century the natives were numerous. A cold blooded murder of an Indian was avenged 20 years afterward by his nephew, in Sept. 1691. The Dutch attempted to retaliate, but without success. In Feb. 1641, the Mohawks made a descent upon these Indians, who field to the Dutch for protection. The soldiers of the fort by night crossed to New Jersey, where the Indians had assembled, and wantonly butchered nearly 100; and 30 were murdered at Corlears Hook. This barbarity aronsed II tribes to vindictive war, in which the Dutch settlements around Fort Amsterdam were laid waste. A peace settlements around Fort Amsterdam were laid waste. A peace was agreed upon April 22, 1643, but was not fully established for many years.

6 Named from a family of this name who were early settlers and kept a ferry. The first interview between Arnold and André was to have taken place here; but, for some reason, it did not. The British commissioners sent up to obtain André's release had their interview here with Gen. Greene. Gen. Washington and Gov. Clinton here met Gen. Tarleton, at the close of the war,

and Gov. Clinton here met Gen. Tarleton, at the close of the war, in 1783.

7 Named from Washington Irving, whose quaint Dutch homestead. "Sunny Side," is a short distance above. The village was formerly called "Dearmans," or "Dearmans Landing," 8 From "Tarwe," wheat: and, by the natives, Alipeonek, or Place of Elms. By an act of May 1, 1786, a tract of 2 acres for a burial place, 100 acres for a glebe to the Ref. Prot. D. church, and 17 acres to the Prot. E. church, were confirmed. The village is pleasantly situated opposite the widest part of the Tappan Zee. The site of André's capture, marked by a handsome monument, dedicated Oct. 7, 1853, is about three-fourths of a mi. N. E. from the station. mi. N. E. from the station.

9 Near the Presh. church is the monument to Isaac Van Wart,

one of the eapturers of Major André,—erected by the citizens of the co, June. 1829.

10 Among these were families named Van Tassel, Van Wart, Odell, Lawrence, Post, Archer, Hart, Acker, Dyckman, and

Requa.

11 2 M. E., 2 Ref. Prot. D., Prot. E., and Bap.

11 2 M. E., 2 Ref. Prot. D., Prot. E., and Bap.

12 Sometimes called "Harrisons Precinct." or "The Purchase."

12 Sometimes called the six precincts of Rye Parish.

13 Parison.

14 Parison. Prior to 1774 it formed one of the six precincts of Rye Parish.—
Bolton's Westchester, I, 246. It was named from John Harrison,
who purchased it from the Indians Feb. 1, 1695, and confirmed
to Wm. Nicolls, John Harrison, and others, June 25, 1696. It
was formed a separate precinct by act of March 9, 1774.

<sup>&</sup>lt;sup>1</sup> Thos, and Richard Shute, Nathaniel and John Tompkins, Thos. and John A. Pinkney, Joseph Joans, John and Moses Hoitt, James Eustis. Daniel Godwin, Wm. Squire, David Osburn, John Goding, Samuel and John Drake, John and Moses Jackson, Nathaniel White, Wm. Haidon, John Gay, Richard Hoadley, Heury Fowler, John Emory, and John Clarke were the signers of this agreement.

<sup>2</sup> Philip Pinkney, James Eustis, and Wm. Haidon were named in this patent; and these persons resigned their trust to the inhabitants soon after.

<sup>3</sup> Bollon's Westchester, I, 135.

<sup>4</sup> The census reports 8 churches in town; 3 M. E., 2 Ref. Prot. D. Bap., R. C., and Univ. <sup>1</sup> Thes. and Richard Shute, Nathaniel and John Tompkins,

Brook! forms a part of the E. boundary, and Mamaroneck Creek a part of the w. Rye Pond! lies on the N. border, and St. Mary's Pond on the w. The soil is a fertile, gravelly loam. Purchase, in the N., is a hamlet, containing 2 Friends' meeting houses. Harrison is a p.o. The first settlement commenced at an early period. The census reports 2 Friends' meeting houses in town.

LEWISBORO<sup>4</sup>—was formed March 7, 1788, as "Salem." Its name was changed to "South Salem" April 6, 1806, and to its present name Feb. 13, 1840. A part of North Salem was annexed April 26, 1844. It lies on the E. border, near the N. E. corner, and forms the eastern angle of the co. Its surface is much broken and in places mountainous. Croton River forms its w. boundary. Cross River flows through a small portion of the central southern part. Waccaback Lake<sup>5</sup> and North and South Ponds are in the N. part, and Cross Pond is on the line of Poundridge. The soil is a clayey and sandy loam. South Salem, (p.v.,) in the E. part, is a scattered village, containing a church and 15 houses. Cross River, (p.v.,) in the s. corner, contains 2 churches, several manufactories, and 20 houses. Goldens Bridge (p.o.) is a station on the Harlem R. R. Vista, (p.o.,) in the s. E. corner, is a small settlement. Lewisboro (p.o.) is in the s. part. Settlement was commenced under the authority of Connecticut, at an early period. This region was the scene of several Revolutionary incidents.<sup>6</sup> There are 7 churches in town, <sup>7</sup>

MAMARONECK<sup>8</sup>—was recognized as a town March 7, 1788. It lies upon L. I. Sound, in the s. E. part of the co. Its surface is broken by low ridges of gneiss, generally extending n. and s. Mamaroneck Creek, forming the E. boundary, and its tributary, Sheldrake Creek, are the principal streams. The coast is deeply indented by several bays, which divide it into numerous peninsulas and headlands. Mamaroneck, (p. v., ) near the head of Mamaroneck Bay, is partly in Rye. It contains 2 churches, (Prot. E. and M. E.,) and several manufactories not at present in operation. Orienta,9 Washingtonville, Chatsworth,10 and Hickory Grove are village plats and prospective villages. Kelloggsville, on the line of New Rochelle, has an extensive tide mill. The Indian title was obtained in 1640 and in 1662. John Richbell received a ground brief from the Dutch, and letters patent from Gov. Lovelace, Oct. 16, 1668, to three necks of land, at a quitrent of 8 bushels of winter wheat. In 1700 Caleb Heathcote acquired title to most of the eastern neck, with other lands, which was confirmed March 21, 1701. A portion descended in marriage to James De Lancey, afterward Governor of the colony, and ancestor of the present Episcopal Bishop of the Diocese of Western New York. Settlement began about 1660; and the village of Mamaroneck is one of the most ancient in the co. The town records date back to 1697; they were suspended from April, 1776, to April, 1785. During this period numerous events of historical interest occurred in this town. The day before the battle of White Plains, Col. Smallwood surprised and cut off a large body of the enemy under Major Rogers, stationed upon Nelson Hill. Col. White, of the Continental army, was overtaken near this place by Lieut. Hickford, and some thirty stragglers, who had taken refuge upon the ice, were killed.

MORRISANIA11—was formed from West Farms, Dec. 7, 1855. It is the s. w. corner town of the co., lying upon Harlem River, contiguous to New York. Its surface is broken by several low ridges which extend N. and s. Most of its surface is occupied by village plats laid out since the extension of railways, and is inhabited by persons doing business in New York. Morrisania, (p. v.,) a R. R. station, in the N. E. corner, contains the St. Joseph's Ursuline Convent, an academy and free school, and 2,587 inhabitants. Mott Haven, (p. v.,)12 opposite Harlem, contains 2

<sup>1</sup> Called by the Indians Mockquams.

<sup>&</sup>lt;sup>1</sup> Called by the Indians Mockquams.
<sup>2</sup> This pond covers 210 acres, and abounds in pickerel. It discharges into Bronx River; and it was at one time proposed to take this water to supply New York City.
<sup>8</sup> One of these was built before the Revolution, and was used by the Americans during the war as a hospital.
<sup>4</sup> Named from John Lewis, a prominent citizen. Its northern part formed a portion of Cortlandt Manor; and on its division in 1734 the part in this town fell to the share of Stephen Van Cortlandt, Gertrude Beeckman, Margaret Boyd, and — Skinner. Its eastern part is included in the Oblong. See p. 269.
<sup>5</sup> This lake covers 212 acres, and, with the adjacent ponds, is fed by springs and rivulets from Great Long Pond Mountain. Beavers inhabited its shores as late as 1837.
<sup>6</sup> Maj. André was conducted to the headquarters of Col.

neck" or "Mar-neck," in common speech. It has been variously written Momoronack, Mamarinck, Merinack, and Momoronack. It has been by some supposed to signify "the place of rolling stones."—Bolton's Westchester, I, 282. There was an Indian

stones."—Bolton's Westchester, I, 282. There was an Indian chief of this name, who resided upon the Croton.

9 Formerly called "Mamaromeck Point," "Great Neck," and "De Lanceys Neck." The eastern part of this neck is called Seamans Point, from Giles Seaman, former owner. The natives called it Waumainuck. The modern name "Edgewater" has been applied to this place. The western part is called "Long Reach Point" Beach Point.

Near this place is a rocking stone, estimated to weigh 150 tons, which may be moved by the hand.
 A town of this name was formed March 7, 1788, and annexed

Beavers inhabited its shores as late as 1837.

6 Maj. André was conducted to the headquarters of Col.

Jameson, in North Castle, and thence, in charge of Maj. Tallmadge, to Col. Sheldon's quarters, in this town. From this place he addressed Gen. Washington, disclosing his true name and rank. The house where he was detained is still preserved.

7 2 M. E., Meth. Prot., Prot. E., Presb., Bap., and Friends.

8 Pronounced both Mam-a-rō'neck and Mam-âr'ō-neck. churches, an extensive iron foundery, and 843 inhabitants. Port Morris, upon the Sound, has a harbor of 60 ft. depth; and it is proposed to land vessels here that draw too much water to enter New York Harbor. A branch of the Harlem R. R. 2½ mi. long connects this place with Melrose. Wilton, Old Morrisania, East Morrisania, West Morrisania, South Melrose, East Melrose, Eltona, Woodstock, Claremont, and High Bridgeville, are suburban village plats. A tract known as Broncks Land,2 granted by Gov. Nicoll to Jonas Broncks, was sold to Richard Morris in 1668; and on May 9, 1697, Lewis Morris obtained a patent for the township or Manor of Morrisania, with a quitrent of 6 shillings. Prior to the Revolution it formed one of the precincts of Westchester parish. Early in the war a division of the American army was stationed here; but after the disasters of Long Island it retired northward, and British troops were posted there, but not without annoyance from partisan corps. The dwellings at Morrisania were burned the same day as was the courthouse at White Plains.

MOUNT PLEASANT—was formed March 7, 1788. Ossining was taken off in 1845. It lies upon the Hudson, near the center of the w. border of the co. Its surface is broken by high ridges, the principal of which are Buttermilk and Chappaqua Hills. Bronx River forms the E. boundary; and Neperhan and Pocantico Rivers flow obliquely across the town. The soil is a clayey and sandy loam, well adapted to cultivation. There are several marble quarries in town.3 Pleasantville, (p. v., ) near the N. line, contains 2 churches and 358 inhabitants. Unionville, (Neperhan p. o.,) a station upon the Harlem R. R. contains 97 inhabitants. mantown, on Pocantico River, in the s. w. part of the town, is a suburb of Tarrytown. It contains 5 churches, the Irving and Tarrytown Institutes, and about 1,500 inhabitants. Sleepy Hollow, Upper Cross Roads, and Lower Cross Roads are hamlets. This town was included in the Manor of Philipsburgh, granted to Frederick Philipse; and by his will, dated Dec. 9, 1702, he granted to his son Adolph the portion of the manor N. of Dobbs Ferry, including this town. The title descended to his son Frederick, and was forfeited by the attainder of a son of the latter of the same name in 1779. One of the principal grantees under the State was Gerard G. Beeckman. Many Revolutionary associations are connected with this town; and several encounters took place within its limits. The census reports 6 churches in town.6

NEW CASTLE7—was formed from North Castle, March 18, 1791. A part of Somers was annexed May 12, 1846. It is an interior town, lying N. of the center of the co. Its surface is much broken by hills having a general course a little E. of N., the principal of which are Mount Prospect and the Chappaqua Hills, terminating in Mount Kisko. The Neperhan, Bronx, and Pocantico Rivers rise in this town. Upon the borders are Chappaqua, Wampas,8 and Kirby Ponds, and Croton Lake. Chappaqua Sulphur Springs, 4 mi. N. E. from Sing Sing, have acquired a local notoriety. The soil is a gravelly clay and sandy loam. Mount Kisko (p. o.) is a small village and R. R. station, on the line of Bedford. New Castle (p.o.) is a small scattered village, upon Kirby Pond, near the line of Bedford. Chappaqua9 (p.o.) is a R. R. station, near the s. line. Sarlesville is a hamlet, near the center of the town; and here the town business is generally transacted. This town was included within Richbell's purchase of 1660, and, with other lands, was sold to Caleb Heathcote, and was patented to him and 10 associates 10 Feb. 14, 1701. It was afterward known as the "West Patent of Northcastle," or simply "West Patent." Settlement began about 1720, or a little earlier. At the time of the Revolution it formed one of the precincts of Rye parish. It was greatly annoyed by sudden incursions of plundering parties; and St. George's church was for a long time occupied as a guardhouse and hospital by the Continental troops. The census reports 5 churches in town.11

NEW ROCHELLE—was recognized as a town March 7, 1788. It lies upon the Sound, in the s. part of the co., and extends northward in a long, narrow strip. The surface is moderately

The bridge at Harlem leading to Mott Haven is now free, the charter of its former owners having expired in 1858. The bridge formerly known as Macomb's Bridge is removed, and is about being rebuilt.

Sometimes called "Morrisport." Named from Gouverneur Morris, the principal owner.
 Called by the natives Ranachque.
 The New Orleans Custom House was built of marble from a

<sup>The New Orleans Custom House was built of marble from a quarry in the N. E. part of this town.
Formerly called "Clarks Corners."
Sleepy Hollow is noted for being the scene of one of Irving's celebrated legends. The Dutch church at this place was formed in 1697, and the edifice erected in 1699. The communion table and service plate, originally given by the first lord of the manor, are still preserved.</sup> are still preserved.

<sup>2</sup> Ref. Prot. D., M. E., Prim. Meth., Prot. E., and R. C.
7 Called by the Indians Shappaqua, said to signify "a vegetable root."—Bollon's Westbester, J. 361.
8 Named from the sachem, chief proprietor of these lands in 1696, whose residence is said to have been near.
9 Pronounced Sháp-pa-quaw. It is sometimes written Chape-

qua.

10 These patentees were Robt. Walters, Leigh Atwood, Cornelins Depeyster, Caleb Heathcote, Matthew Clarkson, John Caldwell, Richard Slater, Lancaster Simes, Robt. Lusting, and Barne Cosens. It was settled by families named Ward, Concklin, Hyatt, Underbill, Haight, Carpenter, Green, Kirby, Davenport, Van Tassel, Griffen, Tompkins, Kipp, Seor, Brady, Reynolds, Quinly, and Merrith.

11 2 M. E., 2 Friends, and Prot. E.

uneven and in some parts stony. Davenports Neck, a peninsula containing 200 acres, and several fine islands in the Sound, belong to this town.2 Crystal Lake, E. of the village, is chiefly celebrated for its ice, large quantities of which are annually "harvested." The soil is fertile and peculiarly adapted to fruit raising.3 New Rochelle, (p.v.,) upon an estuary from the Sound, in the E. part of the town, was incorp. Oct. 5, 1857. It contains 6 churches, several private schools, and about 2,000 inhabitants. A portion of the village and the lands surrounding it are occupied by elegant villas and country residences of persons doing business in New York. The steamboat landing is a half mile s. w. of the village, on a small island connected with the main land by a stone causeway. The village is a station on the N. Y. & N. H. R. R. Beechwood Cemetery, incorp. Jan. 30, 1854, lies a mile w. of the village. West New Rochelle, Petersville, and Upper New Rochelle are scattered villages, mostly inhabited by Germans. This town was embraced in the Manor of Pelham, and was sold by John Pell, Sept. 20, 1689, to Jacob Leisler, for the settlement of a company of French Huguenots. These people are said to have been brought over in one of the king's ships, and to have landed on the N. E. part of Davenports Neck, then called "Bauffets" or "Bounfoys Point." They mostly purchased under Leisler in 1690. There were 23 freeholders in town in 1708. The town records commence Nov. 1, 1699, and until 1735 were kept partly in French. They were suspended from April 2, 1776, to June 24, 1783. A French church was organized in 1689, and in 1709 most of the members conformed to the Episcopal faith; and this denomination are now owners of property given by Pell. The Presbyterians also claim succession from the first French church, a part of the members of which did not conform.6

NORTH CASTLE7—was formed March 7, 1788. New Castle was taken off in 1791. It occupies a long, narrow strip on the E. border of the co., adjoining Stamford and Greenwich, Conn. Its surface is much broken by hills, particularly in the w. part. It is drained by Maharness, Byram, and Bronx Rivers and their branches. Rye Pond lies on the s. border; Byram Pond on the line of Bedford; and Wampus Pond on the line of New Castle. Cobamong Pond, a mile E. of Byram Pond, has no inlet and is very deep. The soil is clay and sandy loam. North Castle (p. v.) contains a church and a few houses. Armonk, (p. v.,) near the center, contains 3 churches, a woolen factory, and 20 houses. Kensico, 10 (p. v., ) in the s. part, contains several manufactories and 103 inhabitants. Quarter Station is on the N. H. R. R., in the extreme s. part. The first settlements commenced at a very early period. The census reports 7 churches in town.12

NORTH SALEM<sup>13</sup>—was formed March 7, 1788. A part was annexed to Lewisboro in 1844. It is the N.E. corner town of the co. Its surface is hilly, the summits rising 100 to 300 ft. above the valleys. Croton River forms the w. boundary. Titicus<sup>14</sup> River, a principal branch of the Croton, flows w. from Conn. through near the center. The valley of this stream varies in width from ½ mi. to 1½ mi., and is bordered by steep hills. Peach Pond, on the N. border, covers 400 acres.

1 Formerly "Laylers" ("Leslies") and "Lecourts" Neck. Bought in 1786 by Newberry Davenport, and since owned by the Daven-

port family.

<sup>2</sup> Davids or Hewletts Island. Named from Thaddeus Davids, 2 Davids or Hewletts Island. Named from Thaddeus Davids, the owner. It contains about 100 acres, and is fitted up for pionic and pleasure parties. Steamboat excursions are occasionally made thither from the city. Goat, Marketts, Whortleberry, Locust, and Van Cleese Islands also belong to this town. Burdens Point, on Davenport Neck, is also a place of resort.

§ From 12 to 20 acres are devoted to raising blackberries,—chiefly the variety known as the "New Rochelle or Lawton blackberry," originally a seedling from the fields, which has proved of much value. There are also extensive nurseries in town.

4 Formerly called "New Jerusalem."

5 The purchase included 6,000 acres, to which Pell added 100 acres for the use of the French church. Among the refugees were Francis Le Count, David De Bonrepas, Alexis Allaire, Harden were Francis Le Count, David De Bonrepas, Alexis Allaire, Harvey Beignon, Esaye Valleau, Andrew Thaunet, David Bonnefoy, Louis Guion, Pierre Das, Pierre Palcot, Andrew Naudin and sons Andrew and Louis, Theophile and Chas. Fourrestier, Ameroise Sycard and sons Ambroise, Daniel, and Jacques, Guillaume Landrie, G. Latteneau, Isaaq Caillard, Marie Cothonneau and her son Guillaume, Jean Newfuille, Estersie Lavigne, and Jean Constant. Thos. Paine, author of "Common Sense," died in this town in 1809, and his remains were taken to England by Cobbett in 1819. His admirers have erected a monument over the spot where he was interred.

6 There are now 8 churches in town; 3 M. E., Prot. E., Presb., Ban. Af. Meth., and R. C.

Bap., Af. Meth., and R. C.
7 Formerly "White Fields," and afterward designated the
"Liberty of North Castle."

8 Mt. Misery, in the s. E. angle, 200 to 300 ft. above the valley, is named from the fact that a large party of Indians were cut off here by the Huguenots, in retaliation for a descent upon New Rochelle—Bolton's Westchester, I, p. 447.

Formerly "Mill Synare," and still often called by that name.

Formerly "Robbins Mills."

11 The Indian title to this town was obtained by Caleb Heath <sup>11</sup> The Indian title to this town was obtained by Caleb Heath cote and others between 1660 and 1705, and confirmed by several patents. Of these the "Middle Patent," embracing 1,500 acres, was granted Feb. 17, 1701-02, and the w. portion was confirmed to Anne Bridges and her associates Sept. 25, 1708. A partition of the Middle and West Patents took place June 23, 1766. The allotments were balloted for and sold to numerous persons, of whom many named Brundage, Griffin, Lockland, Sillick, Scofield, Clapp, and others are descendants.—Bolton's Westchester, I. p. 455.

I p. 455.

Major André immediately after his arrest was sent to Col Jameson, stationed in this town; and from here he was allowed, through the inadvertence of that officer, to notify Arnold

of his arrest.

12 3 M. E., 3 Prot. E., and Friends.
13 This town was mostly purchased by Stephen Van Cortlanta and was embraced within the bounds of his manor. The E. part, within the Oblong, was purchased in 1708 by John Belden, Sam'l Keeler, Matthew Seymour, Matthias St. John, and other inhabitants of Norwalk, Conn. Upon the division of the Manor of Cortlands in 1734, this town fell to the share of Andrew Miller, John Schuyler, and Stephen De Lancey.
14 Otherwise called Mulighticoss. The name in the text pen haps has been changed from this, and is said to have been derived from an Indian chief.

Beaver Pond is a small sheet of water near the N. line. The soil is better adapted to grazing than to grain raising. Turkey Hill lies in the s. w. part. North Salem, (p. v.,) in the E. part, contains 2 churches, a paper mill, and 30 houses. Salem Center,2 (p.o.,) a hamlet, is the seat of the North Salem Academy.3 Purdys Station, (p. o.,) on the Harlem R. R., on the w. border, contains 2 churches and a small woolen factory. Croton Falls, (p.o.,) in the N. W. corner, is a station on the Harlem R. R. The first settlement commenced at a very early period, mostly by immigrants from Conn. The census reports 7 churches in town.4

OSSINING5—was formed from Mount Pleasant, May 2, 1845. It lies upon the Hudson, N. of the center of the co. Its surface is mostly a hilly upland, the ridges extending parallel to the river. Prospect Hill is a commanding eminence on the s. line of the town. Pocantico River forms its E. boundary. Marble is extensively quarried, and traces of several metals have been found. The soil is a productive, gravelly and clayey loam. Sing Sing, (p. v.,) upon the Hudson, near the center of the w. border of the town, was incorp. April 2, 1813. It is beautifully situated upon ground gradually rising from the river to the height of 180 ft., and at most points affording fine views of Tappan Bay and the opposite shore of the Hudson. It contains 4 churches, the Mount Pleasant Academy,7 a female seminary, and several other popular female schools. Pop. about 3,500. This village is chiefly noted for being the seat of one of the N.Y. State prisons. The prison was erected at this place in 1825, with a view of employing the convict labor upon the marble quarries. It receives convicts from certain southern and eastern counties, as specified by statute.8 Prospect Hill9 is a scattered settlement along the s. border. Spring Valley, E. of Sing Sing, and Sparta, s. of Sing Sing, are hamlets. This town was included in the Manor of Philipsburgh, and was settled by the Dutch previous to the commencement of the last century. The lands were forfeited by the attainder of Frederick Philipse during the Revolution.10 The first church was organized at a very early period, but the exact date is lost. 11 The Dale Cemetery, containing 47 acres, ½ mi. N. of Sing Sing, was incorporated January 14, 1851.

PELHAM<sup>12</sup>—was formed March 7, 1788. It lies on Long Island Sound, in the s. part of the co., on the E. border, and it embraces several islands in Long Island Sound.<sup>13</sup> Pelham Neck<sup>14</sup> is a peninsula extending into the Sound; upon it are several elegant country seats. Its surface is undulating, the valleys ranging N. and S. Hutchinsons Creek15 forms the w. boundary. The soil is mostly of an excellent quality of sandy and gravelly loam. Pelhamville, near the N. angle

<sup>1</sup> A granite boulder, weighing 60 tons or over, lies in this village, supported about 3 ft. from the ground upon the points of 5 smaller limestone rocks. There is a chalybeate spring near

the village.

About a half mile w. of the village is a natural bridge.

This academy was erected between 1770 and 775 by Stephen De Lancey for a residence, but was not used as such, and in 1786 it was purchased for its present use. It was incorp. Feb. 19, 1790. Among its students have been Dan'l D. Tompkins, Col. N. P. Tall-

Among its students nave been Dan 1D. Tompkins, Col. N. P. Tall-madge and brother, Hon. James Kent, and several other prominent citizens. Its patronage at present is small.

4 2 M. E., Presb., Bap., Prot. E., Union. and Friends.

5 Originally called "Ossinsing." It name was changed March 14, 1846. The proper Indian name is said to signify "stone upon stone," and has been written Sin-Sing, and Sink-Sink. A power-line of the proper stone is the stone of the proper stone in the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone of the stone o ful clan of Mohegans of this name inhabited this region when it was first known to the whites.

was first known to the whites.

6 Small specimens of galena, with several ores of copper, have been obtained. Sulphuret of zinc and oxyd of manganese are occasionally found in the lime rock. 7 See pp. 745, 736.

8 This prison was erected by the convicts themselves, 100 of the own were sent from Auburn Prison for that purpose under the charge of Capt. Elam Lynds, who had chiefly directed the building of the Auburn Prison. The novel spectacle was exhibited on the 14th of May, 1823, of the arrival of this band on the open ground which was to be the theater of operations, without a blace to receive or even a wall to inclose them. \*\*\* the open ground which was to be the theater of operations, without a place to receive or even a wall to inclose them. \*\*\*

The first day sufficed to erect a temporary barrack for shelter at night; and ever after they continued in unpausing labor, watched by a small number of guards, but held under perpetual government of their accustomed discipline and submission to the nover whose virillant two and unperlaving beautiful.

petual government of their accustomed discipline and submission to the power whose vigilant eye and unrelaxing hand they felt to be perpetually upon them and around them.—Introduction to Nat. Hist. N. F., p. 186.

The Hudson River R. R. crosses the prison grounds under two broad arches with an intervening walled space. The male prison is 484 by 44 ft. and 5 stories high, and has 1,000 cells. The w. yard is inclosed by 2 buildings 40 ft. wide, 2 stories high, extending from the main prison to the river, and occupied by kitchens, hospital, chapel, and shops. The yard thus formed is 492 by 412 ft., and has a range of shops 40 ft. wide, parallel to the main prison. There are also workshops on the E. The female prison, upon the same premises, but under separate management, is built of rough marble taken from the State quarries. It stands on an elevated site, E. of the E. R., with a

colonnade of the Ionic order across the end fronting the river. It was built in 1835-40, and receives female convicts sentenced It was built in 1835—10, and receives female convicts sentenced to State prison from every co. in the State: it contains 116 cells. By an act of April 18.1859, the Inspectors of State Prisons were directed to sell such of the premises at this place as are not required for prison purposes, at a price not less than \$250 per acre, and to appropriate the moneys thus received to building and repairing such works at the prison as they may deem proper. Several large file factories are located at Sing Sing.

9 Formerly known as "Long Hill."

10 Families named Ward, Orser, Crank, Bazelie, Acker, Purdy, Merritt, McCord, Bishop, Balyeas, Storm, Jones, Millet, and Ryder, purchased under the Commissioners of Forfeiture.

11 There are 6 churches in town; 3 Prot. E., Bap., M. E., and Pressb.

Presb.

12 Named from Thos. Pell. of Fairfield, Conn. A purchase was made of the Indians by Mr. Pell, Nov. 14, 1651; and most of this was confirmed to him by Gov. Nicoll, Oct. 6, 1666. The quitrent reserved in this grant was a lamb annually. Pelham Manor originally embraced 9,166 acres, and was confirmed by Gov. Dongan. Oct. 25, 1687. to John Pell. nephew of the first purchaser. This town is mostly owned by a few wealthy proprietors, and, except Scarsdale, is the least populous in the corresponding acres of berries are cultivated for the city market. Pelham Bridge connects the town with East Chester.

13 The principal of these is "Gity Island."—formerly "Minne-

Several acres of berries are cultivated for the city market. Pelham Bridge connects the town with East Chester.

13 The principal of these is "City Island,"—formerly "Minneford Island," or "Mulberry Island," Its present name is derived from commercial establishments projected at an early colonial period and renewed subsequent to the Revolution. It was supposed that the India trade could be carried on from this place with peculiar advantage. It is now principally occupied by oystermen.

Harts Island. or "Spectacle Island," has an area of 85 acres. Hunters Island, belonging to the estate of E. Desbrosses Hunter, has an area of 250 acres, and was formerly connected with the mainland by a stone causeway and bridge. High Island lies near the s. point of Pelham Neck.

14 Formerly "Anne Hooks Neck," from an Indian owner; and afterward "Radmans Neck." It was a favorite place for Indian sepulture; and traces of graves are still seen. A ferry was exablished to Hempstead Harbor and to Matagarisons Bay in 1755. by Samuel Rodman.

15 Named from Mrs. Anne Hutchinson, the first settler. Its Indian name was Acquealiounck, from a term descriptive of the red cedar tree.—Bolton's Westchester, I, p. 542.

of the town, is a new y surveyed village and station on the N. Y. & N. H. R. R. Pelham is a p. o. on the E. border. Prospect Hill is a locality near the center. Pelham Priory<sup>1</sup> is the seat of a young ladies' seminary, established by the late Rev. Robert Bolton and conducted by his daughters. A settlement was made in this town in 1642, by Mrs. Anne Hutchinson, who was driven from Massachusetts on account of her religious belief. There is 1 church (Prot. E.) in town.

POUNDRIDGE<sup>3</sup>—was formed March 7, 1788. It lies in the E. part of the co., its s. line bordering on Stamford and New Canaan, Conn. Its surface is hilly and much broken. The Stony Hills occupy the N. part and extend 3 or 4 mi. in a N. E. direction, with steep, craggy sides and rocky summits. Cross River flows through the extreme N. corner, Stamford Mill River flows s. through the E. part, and Maharness River forms a part of the s. w. boundary. Cross Pond is on the E. line. The soil is a gravelly loam. Poundridge, (p. o.,) near the center, is a small settlement with 2 churches. Boutontown is a hamlet, in the N. corner. The first settlement commenced near the center of the town, in 1744, by Capt. Joseph Lockwood and associates, from Stamford, Conn. There are 3 churches in town; M. E., Prot. Meth., and Presb.

RYE -was formed March 7, 1788. It lies on the E. border of the s. part of the co. It is a narrow, irregular strip, bordering on the Sound and Greenwich, Conn. Its surface is broken and rocky. Byram River<sup>5</sup> forms a small part of the E. boundary, and Blind Brook a part of the w. The soil is chiefly clay. There are quarries of hard, blue granite in town. Along the coast are several small islands. The mirage is frequently seen upon the coast, bringing to view the shore of Long Island with great distinctness. Rye, (p. v.,) a station on the N. Y. & N. H. R. R., contains 3 churches, a private seminary, and 300 inhabitants. Milton, in the s. part, is a hamlet, with 1 church. Ryebeach is a place of resort during the hot season. Chester, (p. v.,) a station on the N. Y. & N. H. R. R., contains 5 churches, several private seminaries, extensive manufactories, and 1,695 inhabitants. Kingstreet is a fine agricultural district, extending nearly 7 miles N. of Port Chester. The first settlement was commenced on Manursing Island.8 The census reports 9 churches in town.9

SCARSDALE<sup>10</sup>—was formed March 7, 1788. It lies in the interior of the s. part of the co. Its surface is broken by ridges and hills. Bronx River forms the w. boundary, and the E. augle borders on the Mamaroneck. Hutchinson and Sheldrake Creeks rise in this town. The soil is a clayey and sandy loam. It has no villages, and is the least populous town in the co. Scarsdale, (p. o.,) in the w. part, contains a church and a few houses. Scarsdale Station, on the Harlem R. R., is on the w. border of the town. In the s. corner of the town is a Friends meeting house, on a site used for that purpose long before the Revolution. Gov. Tompkins was a native of this town; and Chief Justice Morris and Maj. Wm. Popham-for many years clerk of the Court of Exchequer-resided here. The census reports 2 churches in town; Prot. E. and Friends.

SOMERS"—was formed March 7, 1788, as "Stephentown." Its name was changed April 6, 1808. A part was annexed to New Castle in 1846. It lies on the N. border of the co., near the

<sup>1</sup> Upon these premises is a rocking stone weighing about 20

tons.

2 This settlement was soon after broken up by the Indians,

<sup>2</sup> This settlement was soon after broken up by the Indias, who killed 18 persons, including the founder.

3 Named from the ancient Indian pound, or deer trap, which formerly stood at the foot of a high ridge 8. of the present village.—Botton's Westchester, II, p. 1. This town was embraced in Turner's Purchase of 1640, and once formed part of Stamford, Conn. The Patent of Stamford, granted May 26, 1685, included to the contraction of the patents of Stamford, granted May 26, 1685, included the contraction of the patents of the patents in 1731. Conn. The Patent of Stamford, granted May 26, 1685, included a portion of this town. In the settlement of boundaries in 1731, four miles were taken from Conn. A grant was made March 2, 1701, to Robert Walters. John Cholwell, Leigh Atwood, Cornelius De Peyster, Richard Slater, Barne Cosens, Lancaster Symes, Matthew Clarkson, Robert Lurting, Peter Matthews, and Caleb Heathcote. This grant was subsequently known as the "East Patent." It was sold Aug. 7, 1765, under "an act for the more effectual collecting of his Majesty's quitrents." Families named Lockwood, Ambler, Porsher, Bishop, Ferris, Hoyt, Holley, Brown. Sillick, and Scofield were purchasers under this sale. Until 1775 the town formed one of the precincts of Rye. In 1821, 900 scres were sold to satisfy the State claim to quitrents 1821, 900 acres were sold to satisfy the State claim to quitrents

<sup>1921, 900</sup> acres were sold to satisfy the State claim to quirrents in the East Patent.

4 Called by the Indians "Poningoe."

5 Called by the Indians "Armonck." The meadows bordering it were called "Haseco" and "Miosehassaky."

6 Manursing, called by the Indians "Minnewies," or Pine, Henhawk, Great, Middle, and Little Captains Islands.

<sup>7</sup> These consist of a foundery, edge tool, bolt, screw, and rod factory, tide gristmill, and a last and shoe factory.

8 This island was bought by the Dutch W. I. Company, who

s This island was bought by the Dutch W. I. Company, who sold it June 29, 1660, to John Coe, Peter Disbrow, and Thos Studwell. The proprietors proposed to name the place Hastings, and issued a declaration of allegiance to the king, to which was annexed a description of their proposed town, embracing the country between Byram River and Blind Brook. Upon the final annexation to New York it was formed into a market town, with the privilege of holding a fair of four days, beginning on the 2d day of Octoher. Courts of special sessions were also held here. The Dutch made the first Indian purchase in this also held here. The Dutch made the first Indian purchase in this region, in 1649; and numerous conveyances were afterward made. By the agreement of 1660, this town was included in Conn. In 1683 it was assigned to New York. In 1696 it was again claimed by Conn.; and the present line was fully settled May 14, 1730. The charter of Rve was granted Aug. 12, 1720. 9 3 M. E., 2 Prot. E., 2 Presb., af, Meth., and R. C. 10 Named from Scarsdale, in England, whence the Heathcote family came. In colonial times this town formed part of the manor of Scarsdale. 11 Named from Capt. Richard Somers, the intrepid and gallant hero of the Tripolitan War. "Stephentown" was named from Stephen Van Cortlandt. Prior to 1788, it formed part of the township of Hanover, within Cortlandt Manor; and under the natives it formed part of the territory of Amapogh, or Ammawalk.—Bolton's Westchester, II, p. 121.

center. Its surface is broken by ridges in the s.; in other parts it spreads out into level plains. Croton River forms the s. E. boundary. Muscoot River and Plum Brook flow s. through the town into Croton River. Croton Lake, the fountain head of the Croton Water Works, lies in the s. w. corner, extending into Yorktown. The soil is a sandy and gravelly loam. Somers, (p. v.,) in the N. E. part, contains 2 churches, a bank, and 20 houses. 2 Croton Falls, (p. v.,) in the N. E. corner, on the line of North Salem, is a small village and station on the Harlem R. R. It has a good water-power. West Somers (p. o.) is a hamlet. This town, in the allotment of the manor in 1734, fell to the share of Mrs. Margaret Bayard, Philip and Stephen Van Cortlandt, Andrew Johnston, — Miller, Stephen De Lancey, and Mrs. Susannah Warren. The census reports 5 churches in town.3

WESTCHESTER4—was organized as a town, Nov. 7, 1788. West Farms was taken off in 1846. It lies on the Sound, in the extreme s. part of the co. It is bounded on the w. by Bronx River, and on the s. and E. by the Sound. Its surface is generally low and flat along the coast and rolling further inland. Several bays and estuaries extend far inland and divide the land into several peninsulas and necks. The principal of the latter are Classons Point,5 between Bronx and Westchester Rivers; Zeregors Point, next E.; and Throggs Neck, 6 a long and narrow promontory extending s. E. into the Sound. About 2,500 acres along Westchester River is a salt meadow, a portion of which is held as public property and managed by 3 trustees. The people are principally engaged in gardening and fruit growing. Westchester, (p. v.,) at the head of navigation on Westchester Creek, is a scattered village of about 1,000 inhabitants. Bronxdale, on the line of West Farms, has an extensive tape factory, a dye and bleach works, and about 400 inhabitants. Schuylerville, upon Throggs Neck, is a scattered village of 300 inhabitants. Integrity, near Bronxdale, has a tape factory. Connersville, Wakefield, Centerville, and Unionport are modern villages. Fort Schuyler, upon the extremity of Throggs Neck, was begun in 1833; and in 1851 \$848,013 had been expended upon it. The estimated cost of construction and repairs was then \$873,013. The first settlement on Throggs Neck was made in 1642, by John Throckmorton and 35 associates, from New England, with the consent of the Dutch, The Indian title to the land was extinguished in 1643, by the Dutch, and a land brief was granted in that year, and another in 1652. The English began a settlement at Westchester<sup>8</sup> in 1642; but the Dutch, considering them intruders, arrested several of them, and in 1656 they surrendered themselves to the Dutch Government. The settlement was claimed by Conn. in 1663; but the next year it came under the government of the Duke of York. A patent was granted by Gov. Nicoll, Feb. 13, 1667, and by Gov. Dongan, Jan. 6, 1686. A market was established at Westchester, May 11, 1693, to be held weekly; and the same year an annual fair was established, to meet alternately at this place and Rye. It was made a borough town April 16, 1696, with mayor, aldermen, and common council, "according to the form of the best governed towns and corporations of the realm of England," and the right of holding a mayor's court, and a representation by one delegate in General Assembly. The De Lancey family, prominent officials under the Colonial Government, and loyalists of the Revolution, resided in this town. The first church (Cong.) was formed soon after the arrival of the first settlers.9

WEST FARMS—was formed from Westchester, May 13, 1846. Morrisania was taken off in 1855. It lies upon the Sound and along Harlem River, in the s. part of the co. The surface is rolling, the ridges extending N. and S. Bronx River forms its E. boundary, and Sawmill Brook flows through the center. Its soil is a gravelly and sandy loam, rendered very productive by scien-West Farms, (p. v.,) a large village at the head of navigation on Bronx River,

<sup>1</sup> This river is said to discharge 3,628,800 gallons of water per

day.

2 Hachaliah Bailey, of Somers, about 1815 imported the first elephant brought into the United States. "Old Bet" with other animals soon after imported formed the first traveling menagerie in the country, with which Van Amburgh, the ing menagerie in the country, with which Van Amburgh, the Lion Tamer, was afterward associated. Thaddeus and Gerard Crane, Lewis Titus, and John June, familiar to the public as enterprising showmen, were from this town and North Salem. 3 2 M. E., 2 Presb., and Prot. E. 4 The Dutch called this region "Vreedlandt," or the land of reace, and the village "Oorst Dorp," or East Village.

5 Formerly "Cornhills Neck," and granted to Thos. Cornhill, or Cornell in 1648.

Formerly "Cornhuls Nock," and granted to Thos. Cornhill, or Cornell, in 1640.
 Named from John Throckmorton, the pioneer settler. A lighthouse, cl feet high and 66 feet above the Sound, was built here in 1826, and refitted in 1855. It has a fog bell struck by machinery 7 times per minute.

<sup>7</sup> It was built to accommodate 1,250 men and to mount 318 cannon. With the projected work upon Wilkins Point, in Flushing, Queens co., these fortresses would effectually protect New York against the approach of a hostile fleet from the Sound. The tort is built of granite from Greenwich, Conn.
8 The settlers at "Vreedlandt" at this time were Lieut. Thos.

<sup>8</sup> The settlers at "Vreedlandd" at this time were Lieut. Thos. Wheeler, Thos. U. Newman, Robert Bassett, John Cloes, Sherwood Davies, Wm. H. Fenfall, Richard C. Meares, Samuel Havelt, Isaac Holbert. Robert Roes, Jss. Bill, John S. Genner, Richard Osbort, and Wm. Ward. The Duttor released Capt. R. Ponton, Wm. Elet Black, John Gray, and Roger Wheeler, who had been arrested for taking up arms at "Vreedlandt."—Bollon's Westelester, II, p. 160. In 1662 they were allowed to nominate their own magistrates and hold their own courts; "but in dark and dublious matters—especially in witchcraft—the party as and dubious matters—especially in witchcraft—the party ag grieved might appeal to the Governor and Council."

<sup>9</sup> There are 7 churches in town; 2 Friends, Cong., Prot. E.

M. E., Presb., and Af. Meth.

3 mi. from the Souna, contains 4 churches, a carpet factory, molding mill, and gristmill. Fordham, (p. v.,) on the R. R., in the N. part of the town, contains 4 churches and is the seat of St. John's College. Tremont, Central Morrisania, Williams Bridge, (p. o.,) and Fairmount are modern villages. The last named is a station upon the Harlem R.R. Claremont is a small village on the line of Morrisania. The eastern part of the present town, originally known as "The West Farms," was patented April 25, 1666, to Edward Jessup and John Richardson, Indian purchasers.4 Fordham was bought by the Dutch in 1639, and in 1646 it was owned by Adrien Van der Donck. In 1671 John Archer, owner of 1,253 acres, obtained a patent under the title of the "Manor of Fordham." It passed to Cornelius Steenwyck, and was conveyed by his widow in 1694 to the Dutch church in New York, in whose possession it remained 60 years.<sup>5</sup> The High Bridge of the Croton Aqueduct connects the s. w. corner of this town with N. Y. City and Macomb's Bridge, in the N. w. corner. Fort No. 8 was built upon the eminence N. w. of the Archer homestead in the Revolution; and its guns assisted in the capture of Fort Washington in 1776. It was demolished by the enemy Oct. 20, 1782. Fort Independence, on Tetards Hill, was dismantled in 1833. Prince Charles Redoubt and the Negro Fort of the Revolution were on the s. side of Valentines Hill. There are 9 churches in town.<sup>6</sup>

WHITE PLAINS—was formed March 7, 1788. It is an interior town, lying s. of the center of the co. The surface is rolling and hilly. Mamaroneck River forms its E. boundary, and Bronx St. Marys Lake lies along its E. border. The soil is a clayey and gravelly loam. White Plains' (p. v.) is situated near the w. line of the town. It contains the old and new co. buildings, 3 churches, and several private seminaries. It is a station upon the Harlem R. R., and contains about 1,000 inhabitants. This town was purchased Nov. 22, 1683, by the inhabitants of Rye, and was settled soon after. In 1720 it was divided among 41 proprietors;8 and a charter was granted March 13, 1721, with a quitrent of 2 shillings 6 pence to every 100 acres. It embraced 4,435 acres. Many important historical events occurred in this town during the Revolution. The village was wantonly burned Nov. 5, 1776, by a New England major. The battle of White Plains was fought on Chatterton Hill, in Greenburgh, opposite, and within view of the village. There are 6 churches in town.9

YONKERS<sup>10</sup>—was formed as a town March 7, 1788. It is the most southerly town in the co. upon the Hudson. The surface is rugged and broken by several ridges extending N. and s. Valentines Hill," the highest point, is 400 ft. above tide. Tuckahoe Hill, in the E. part, and Thirty Deer Ridge, extending into Greenburgh, are prominent points. The principal streams are Bronx River, forming the E. boundary, Spuyten Duyvil Creek, forming the s. boundary, Neperhan River, flowing through the center, and Sprain River and Tibbetts Brook.12 The soil is a clayey and gravelly loam. The people are largely engaged in manufactures.<sup>13</sup> The heights along the river are studded with elegant country residences. Many of the inhabitants are engaged in busi-

<sup>1</sup> This college, situated on Rose Hill, immediately E. of the Harlem R. R., is under the control of the R. C. denomination. It was incorp. April 10, 1846, having been opened for students, June 24, 1841. It is under the direct charge of Jesuits, who, being associated for religious motives, receive no salary beyond June 24, 1841. It is under the direct charge of Jesuits, who being associated for religious motives, receive no salary beyond personal support. Six other persons are employed as special instructors upon pay. In 1858 it reported to the Regents 59 undergraduates, besides which it has about 100 other pupils. Upon the premises is a large and handsome gothic church, and St. Joseph's Theological Seminary. The main building, of stone, 2 stories high, with an attic, contains the parlor, chapel, and professors' apartments, and is adorned with valuable paintings. Two front wings, of brick, one story each, 90 by 25 feet, contain the refectory, kitchen, study hall for the first division, and general assembly room. A large brick building contains the study hall for the second division, sleeping, play, and wash rooms. At each end of the front wings is a 3 story brick building, for reading hall, music, drawing, and class rooms, and dormitories. A 3 story brick building, 100 by 20 feet, contains the library, museum, wardrobe, and walking hall, for the senior division. The farm and property are valued at \$147,000. Its libraries number 12,090 volumes, and it has a valuable cabinet of minerals.

2 Formerly "Upper Morrisania," "South Fordham," "Jadams, "ille," and "Mount Hope,"—all of which are now embraced in one village under the general name of Tremont.

3 A town hall was authorized to be erected April 15, 1854, and was located E of Fordham Avenue, in Central Morrisania. It

3 A town hall was authorized to be erected April 19, 1894, and was located E. of Fordham Avenue, in Central Morrisania. It was built at a cost of about \$15,000. By the subsequent erection of Morrisania It is brought near the s, border of this town. 4 This patent was bounded E. by Bronx River, and w. by a little brook called by the natives Sachwrahung,—including a neck of land called Quinnahung. The s, part of the town, or "Planting Neck;" was called by the Indians Quinnahung. The w. side of this neck was called the "Debatable Ground," because

it was in dispute between the patentees of West Farms and

Morrisania from 1666 to 1740.

5 An act of General Assembly, Dec. 12, 1753, allowed the Dutch church to sell the Manor of Fordham.—which was done, and the money received is now vested in the city. Three hundred acres were excepted from this sale by Mrs. Steenwyck.

6 3 Prot. E., 2 Ref. Prot. D., 3 M. E., Presb., and R. C.

7 This village is divided into two parts,—the old village. lying about three-fourths of a mile from the R. R., and the new village, between between the old village.

lage, lying between the old village and the R. R. station.

lage, lying between the old village and the R. R. station.

8 Among these were families named Horton, Denham, Purdy,
Brown, Lane, Frost, Disbrow, Merritt, Hyatt, Hoyt, Kuapp,
Pease, Kniffin, Odell, Galpin, Budd, Lonnsberry, Travis, Stock
ham, Fowler, Walter, Cox, Jeffrey, Sherwood, Lyon, and
Brondig. Several of these names are still common in town.

9 3 M. E., Prot. E., Presb., and R. C.
10 Pronounced Yunk'ers. It is a Dutch word, signifying "gen
tleman," or country nobleman,—a title of respect applied first
in this place to Adrien Van der Donck, the patentee and first
proprietor. This town and Mile Square formed a township in
the great Manor of Philipsburgh, until the Revolution. The
Indians called the place Ke-ke-slick.

Indians called the place Ke-ke-shick.

11 Named from the family who owned the adjoining property

for about 130 years.

12 Sprain River was called by the natives Ar-men-pe-ral; and Tibbetts Brook, Mos-ho-lu.

13 There are about 20 manufactories in town, employing, when in full operation, 1,200 to 1,500 persons. Two hat factories each employ near 200 operatives. The foundery at Spuyten Duyvil employs about 300 hands; and a pickle factory, on the Hudson, a still larger number. The Nepchan, a stream that enters the Hudson in the lower part of Yonkers Village, affords a considerable amount of water-power.

ness in New York. Yonkers, (p. v.,) on the Hudson, near the center of the w. border of the town, was incorp. April 12, 1855. It contains 9 churches, several private seminaries, 2 banks, and 2 newspaper offices. Pop. in 1859, 6,800. It is a steamboat landing,2 and a station on the Hudson River R. R. It has several manufactories and a great number of beautiful suburban villas.8 Spuyten Duyvil, (p. v., ) on the creek separating the town from New York, is the seat of several large founderies, and is principally inhabited by operatives. Tuckahoe, (p.o.,) an old settlement in the E. part, is a station upon the Harlem R. R. 4 Near this place are several marble quarries. Kings Bridge (p. o.) lies upon Harlem River, and is connected with New York City by a bridge. Riverdale, below Yonkers, is a group of villas and a R. R. station. South Youkers is a p. o. The Croton Aqueduct passes through this town from N. to s. A castellated stone mansion, built by Edwin Forrest, the tragedian, on the banks of the Hudson, a mile below Yonkers, has lately been purchased for an educational institution by the Roman Catholics.<sup>5</sup> The country now included in Yonkers, West Farms, and Morrisania, and containing about 24,000 acres, was granted to Adrian Van der Donck in 1646, with the right and title of Patroon. He gave to his estate the title of "Colen Donck," perfected its title by purchase from the Indians, and took measures for its improvement.6 There are 15 churches in town.7

YORKTOWN8—was formed March 7, 1788. It lies upon the N. border of the co., w. of the center. Its surface is broken and hilly. The Highlands lie along the N. border; and several points are elevated 600 to 1,000 ft. above tide. The principal stream is Croton River, flowing across the s. part. Moharsic Lake, 10 near the center, Mohegan Lake, in the N. part, and Magriganies Lake, in the N. E. corner, are small bodies of water. Crompond, (Yorktown p. o.,) rear the center, Pines Bridge, (p. o.,) near the E. line, Jefferson Valley, (p. o.,) in the N. E. corner, and Shrub Oak, (p. o.,) near the N. line, are hamlets. A rolling mill, wire factory, gristmill, and sawmill have been erected 2 mi. w. of Croton dam. This town formed a part of Cortlandt Manor, and in the division of 1734 fell to the shares of Andrew Miller, Gertrude Beeckman, Cornelia and John Schuyler, Gertrude Verplanck, Elizabeth Skinner, John Watts, Philip Verplanck, and Susannah Warren. A Presb. church built at Crompond<sup>10</sup> about 1738 was burned July, 1779, and a committee in Congress in 1839 reported in favor of paying \$3,500 for the loss, as the premises had been used as a storehouse by the Continental troops. Col. Green was surprised in this town May 13, 1781, by a party of refugees, in which affair Maj. Flag, 2 subalterns, and 27 men were killed, and many wounded. The census reports 7 churches in town."

1 The principal of these are the Yonkers Collegiate Institute

and Gymnasium, conducted on the military system. Start's Board-ing School, several female seminaries, and a public free school. The steamer Henry Clay was burned not far from this place, on her down trip, July 28, 1852. Of 500 persons on board, nearly 100 perished, among whom was A.J. Downing, the editor and author.

3 The Manor Hall, near the center of the village, built about 1745, was one of the seats of the Philipse family.

4 Hodgman's Rubber Goods Manufactory, located at this place,

<sup>4</sup>Hodgman's Rubber Goods Manufactory, located at this place, employs about 75 hands.

<sup>6</sup> An edifice of fine architectural proportions and great size was erected, in 1858, in the rear of the mansion. The premises form the institution formerly located on the Central Park in New York, and are under the charge of Sisters of Charity.

<sup>6</sup> Van der Douck subsequently took an active part in representing in Holland the interests of the colonists against the alleged tyranny of the West India Company and its servants, and finally succeeded in 15s efforts, notwithstanding the enmity of Gov. Sinvessant and the influence be was able to bring to and finally succeeded in Hs efforts, notwithstanding the enmity of Gov. Stryvesaut and the influence he was able to bring to oppose him. He died in 1655, and his estate was afterward sold in detached portions by his widow. His settlement was laid waste by the Indians. Sept. 15, 1655, and probably remained unoccupied until after the English conquest. In 1672 Frederied Flypsen or Philipse, with Thos. Delaval and Thos. Lewis. bought 8,000 acres of Colen Donck, nearly all in the present town of Vonkers; and subsequently the former hecame sole owner to Kings Bridge. For one of these thirds he paid £530. These mossessions were extended, by further nurchase to Cruton and Kings Bridge. For one of these thirds he paid £530. These possessions were extended by further purchase, to Croton and Bronx Rivers; and in June, 1693, the Lordship or Manor of Philipsburgh was erected, with all the rights, honors, or privileges enjoyed by the most favored, excepting that of representation in the General Assembly. He established a drawbridge at Spuyten Duyvil Creek, built a church, still standing, in Sleepy Hollow, and made other improvements. His descendants occupied a prominent position in the colonial government; but, siding with the royal cause, he lost every thing in the Revolution. Col. F. Philipse, the last proprietor of this estate, was paid £62,075 by the British Government, as an equivalent for this

loss; and his estates were sold by the State to his tenants at very moderate rates.

£62.075 by the British Government, as an equivalent for this loss; and his estates were sold by the State to his tenants at very moderate rates.

<sup>8</sup>The country E. of Cortlandtown was called by the Mohegans Appanraghpogh; and the E. part of Yorktown is still called "Annawalk,"—probably an abbreviation.—Bolton's Westchester,

"Amawalk,"—probably an abbreviation.—Bollon's Westchester, II, p. 371.

9 The Croton dam, at the head of the Croton Aqueduct, is in this town. At the top it is 166 ft, above tide and 55 ft, above the bed of the river: 61 feet wide at low water level, with openings of 90 and 180 feet for the passage of the surplus waters. Between these is a partition, forming the foundation of the gatehouse and sluiceway for relieving the structure from the pressure of the lake, and for the discharge of water during repairs. The water flows over an ogee-curved apron of cut stone laid upon hewn timber, and is received in a pond, formed by a second dam, 300 ft, below. The aqueduct is taken from the lake through a tunnel, on the s. side, 180 ft, long in the solid rock; and the flow of water is regulated by a double set of netal the take through a tunner, on the s, sade, too it, rough in the some rock; and the flow of water is regulated by a double set of netal gates. The dam was destroyed while building, in Jan. 1841; but the present structure promises to stand without injury, and almost without repair, to an indefinitely remote period. The surface over which the waste water flows is now much more ample than was intended before the accident in 1841. The pond has a capacity of 500,000,000 gallons.

Croton River was named Kitchawan, signifying a large and swift current. The bend west of Pines Bridge was named Keweghtegnack. The commissioners were obliged to purchase about 909 acres of land overflowed by the dam, at an average

about 200 acres of land overflowed by the dam, at an average cost of \$500 per acre.

10 Often called "Crom Pond." the Dutch term for Crooked Pond. It consists of 2 parts united. Near this pond is Franch Hill, where the French forces under Rochambeau were encamped in 1781-82. Turkey Mountain is an extensive woodland tract to the s. E. 11 2 M. E., 2 Friends, Bap., Cong., and Presb.

<sup>•</sup> Formed since the census of 1855. This town is estimated to embrace 7,000 acres, and to contain 4,000 males and 4,150 females.

### WYOMING COUNTY.

This county was formed from Genesee, May 14, 1841. Eagle, Pike, and a part of Portage were annexed from Allegany co. in 1846. It is an interior county, in the s.w. part of the State, separated from Lake Erie by Erie co., and from the Penn. line by Cattaraugus and Allegany. It is centrally distant 228 miles from Albany, and contains 590 sq. mi. Its surface is a broad, rolling upland, divided into ridges and broken by ravines worn by the streams. It has a slight inclination toward the n. The summits of the highest ridges are 1,200 to 1,500 ft. above Lake Erie and 1,700 to 2,000 ft. above tide. Several of the ravines in the n. are 1,000 ft. below the summits of the adjacent ridges. In the interior the ridges are broken, and the country begins to assume the hilly

character which is more fully developed further s. Genesee River, which forms a portion of the  $\mathbf{E}$  boundary, is bordered by steep bluffs 200 to 400 ft. high. Near Portageville the river descends from the plateau, in a series of three falls, to a depth of more than 300 ft. within a distance of  $2\frac{1}{2}$  mi. The water has worn a deep and irregular ravine in the shelving rocks, and the nearly perpendicular banks at the foot of the lower falls are 380 ft. high. The deep gorge, with the rapids and falls, form one of the wildest and most picturesque scenes in Western New York.

The other principal streams are Cayuga, Tonawanda, Little Tonawanda, Oatka, East Coy, Wiscoy, Cattaraugus, and Buffalo Creeks. The valley of Oatka Creek, from near the s. border of Warsaw to the N. line of the co., is bordered by steep hills 400 to 1,000 ft. high. Silver Lake, in Castile, (the principal body of water,) is 3 mi. long and about ½ mi. wide. The rocks of this co. consist principally of the shales and sandstones of the Portage group. The summits of the southern hills are covered with the rocks belonging to the Chemung group. Thin layers of compact Portage sandstone are found in many parts of the co. and are extensively quarried for Upon the ridges little rounded eminences are frequently seen, appearing like drift hills; but upon examination they are found to be shale rock covered with a thin soil. Marl and muck are found in considerable quantities in the swamps. The waters of Silver Lake and of several of the streams are constantly depositing lime in the form of marl. The drift deposits in the co. are very extensive, and the soil in some parts is derived from disintegration. Upon the hills it is mostly a clay loam underlaid by hardpan, and in the valleys it is a fertile, gravelly loam and alluvium. The people are principally engaged in stock and wool growing and in dairying, for which the soil upon the hills is admirably adapted. Wheat, barley, corn, and fruits are largely cultivated in the valleys. Very little attention is paid to manufactures except such as are strictly necessary to an agricultural community.

The county seat is located at Warsaw.<sup>2</sup> The courthouse is a commodious brick edifice, situated in the N. part of the village. The co. clerk's office is a fireproof building, adjacent to the courthouse. The jail is a wood building, arranged so as to enable the keeper to classify the prisoners

rocks. An isolated mass of rocks, 15 ft. in diameter and 100 ft. high, known as "Sugar Loaf," rises from the river bed at the bend of the stream and receives nearly the whole force of the rushing water. It is bordered on one side by the present bed of the stream, and on the other by a deep chasm which separates it from the E. bank of the river. Within the memory of people now living, the river flowed over the precipiee on the level of the rock which now forms its w. bank, and Sugar Loaf was an island. These falls are accessible only from the w. The perpendicular bank on the w. side of the river at one point is 380 ft. high.

2 The commissioners named in the act to select the location were Peter R. Reed, of Onondaga, Davis Hurd, of Nigagaa, and John Thompson, of Steuben. The building commissioners were

were Peter R. Reed, of Onondaga, Davis Hurd, of Niagara, and John Thompson, of Steuben. The building commissioners were John A. McElwaine, Paul Richards, and Jonathan Perry. TrumbullCary, Esq., of Batavia, gave to the co. an ample public square upon which to erect the public buildings. The first conrts were held at a public house at East Orangeville, in June, 1841, and the first meeting of the Board of Supervisors was at the same place. The first co. officers were Paul Richards, First Judge: James Sprague, Peter Patterson, Jos. Johnson, Associate Judges: W. R. Groger, Sheriff; and Harvey Putnam, Surrogate.

<sup>1</sup> The Upper or Horse-Shoe Falls are about three-fourths of a mi. below Portageville. The name is derived from the curve in the face of the cliff over which the water flows. For a short distance above the edge of the precipice the water is broken by a succession of steps in the rock, forming a series of rapids. The height of the fall, including the rapids, is about 70 ft. The Middle Falls are about one-half mi. further down the river. For 2 or 3 rods above the edge of the cliff the water is broken into rapids, and then in an unbroken sheet it peurs down 110 ft. into a chasm below, bounded by perpendicular ledges. A cave, called the "Devil's Oven," has been worn in the rocks under the w. bank, near the bottom of the falls. In low water 100 persons can be seated within it; but when the river is high it is filled with water, and is only accessible by boats. The Lower Falls consist of a series of rapids one-half mi. in extent. with an aggregate fall of 150 ft. For about 2 mi. below the Middle Falls the river pursues a winding and rapid course between high, perpendicular walls; then descends in a succession of steps almost as regular as a staircase, dives under a shelving rock, shoots out in a narrow pass not more than 15 ft. wide, rushes down a nearly perpendicular descent of 20 ft., strikes against the base of high rocks standing almost directly in its course, whirls back, and, turning at nearly right angles, falls into a deep pool overhung with shelving

according to law.1 The poorhouse is situated on a farm of 97 acres near the w. border of Orangeville, 9 mi. w. of Warsaw. The average number of inmates is 73, supported at a cost of 75 cts. per week each. The farm yields a revenue of about \$300.2

The Buffalo, New York & Erie R. R. extends s. E. through Attica, Middlebury, Warsaw, Gainesville, Castile, and Genesee Falls, crossing the Portage Falls and connecting with the N. Y. & E. R. R. at Hornellsville. A R.R. route has been surveyed, and a road-bed graded, from Attica s. w. to the Allegany River.3

There are 5 weekly newspapers published in the co.4

The eastern tier of towns in this co., with the exception of a portion of Castile, belonged to the Ogden, Silver Lake, and Cotringer tracts of the Morris Reservation, and the remaining parts of the co. to the Holland Land Purchase. The Gardeau Tract, containing 17,927 acres on both sides of the Genesee, was reserved for Mary Jemison (the "old white woman") by the Seneca Nation in their treaty with Robert Morris in 1797.5 About one-half of this tract lies in the present town of Castile. Upon this tract Mary Jemison and her descendants continued to reside until 1816, when she sold all but 2 sq. mi. on the w. side of the river to Micah Brooks and Jellis Clute. The remaining 2 mi. she sold in 1831 to Henry B. Gibson and Jellis Clute, and removed to the Cattaraugus Reservation. The first white man that lived within the limits of the co. was a tory, named Ebenezer Allen, who in consequence of his crimes fled from Penn. and joined the Indians about 1780. He located upon the Genesee, and for a time lived upon the lands of Mary Jemison. He afterward built a saw and grist mill on the present site of Rochester, removed thence to Oatka Creek,6 and thence to Canada.7 The first permanent white settlers were John Tolles, Jacob Wright, Nathaniel Sprout, and Stephen Crow, in 1802. The settlements increased rapidly, and in a few years most of the best lands of the co. were taken up. Most of the early settlers were from New England; but the later immigrants have principally been Germans.

#### ATTICA—was formed from Sheldon, April 4, 1811. Orangeville was taken off in 1816. It

<sup>1</sup> The courthouse, jail, and clerk's office were erected in 1842, at a cost of \$12,000.

<sup>2</sup> The poorhouse contains 22 rooms, and the inmates are provided with good, substantial food; but the house does not admit of proper accommodations for the paupers, or for classification of

The insane, of which there are always a number.

The Allegany Valley Railroad.

The Genese Register, the first newspaper in the co., was established at Warsaw in 1828 by L. & W. Walker, and was continued 6 months.

The Warsaw Sentinel was commenced by Andrew W. Young in May, 1830, and continued until Dec. 1831, when it was merged in the Republican Advocate at Batavia.

The Allica Republican was commenced by David Scott in 1833—34. It was soon after changed to
The Allica Republican and Genesee Advertiser. E. A. Cooley

became its publisher, and changed it to The Attica Balance, and subsequently to

The Attica Balance, and subsequently to
The Attica Democrat, and continued it until 1846.
The Genesee Recorder was commenced at Perry by Geo. M. Shipper in 1834, and continued about 2 years.
The American Citizen was commenced at Warsaw in 1836 by J.
A. Hadley. After 1 year, it was removed to Perry and published by Mitchell & Warren. Mr. Mitchell continued the publication until Jan. 1841, when it was removed to Rochester.
The Pile White was commenced by Thos Carrier in 1828. Son

The Pike Whig was commenced by Thos. Carrier in 1838. Soon after, its name was changed to

The Pike Gazette. and it was continued for about a year.

The Walchtower, a Bap. paper, was issued in 1839 from the office of The American Citizen. It was published 1 year by Ansel Warren.

The Register, a campaign paper, was published at Perry in 1840 by Isaac N. Stoddard and John H. Bailey.

The Perry Democrat was commenced in 1841 by Pet. Lawrence.

1848 it passed to C. C. Britt, who continued it until 1853.

The Western New Yorker was commenced at Perry in Jan. 1841, by John II. Bailey. In the summer of the same year it passed into the hands of Barlow & Woodsame year it passed into the hands of Barlow & Woodward, who removed it to Warsaw. It was successively published by Barlow & Blanchard, Mr. Blanchard, and H. A. Dudley until April 1, 1858, when it passed litt the hands of Elijah W. Andrews, and atterward to Andrews & Harrington, by whom it is still published.

The Countryman was commenced at Perry by N. S. Woodward in 1843. It soon passed to Dan'l. S. Curtis, who changed its name to

its name to

The Impartial Countryman, and continued it until Aug. 1846, when it passed to Ansel Warren, who changed its name to

The Free Citizen, and continued it until Aug. 1847.

The Wyoming Republican was commenced at Warsaw by E. L. Fuller in 1844; it was published until March, 1847.

The Attica Telegraph was commenced by Abraham Dinsmore in Oct. 1846, and was published about 2 years.

The Old Eighth Whig was commenced at Attica, April 1, 1848, by R. W. Dibble and W. H. Civer. After about 6 mos. Mr. Dibble retired and Mr. Civer continued the paper, as

The Spirit of the Old Eighth, until 1850.

The Attica Atlas was commenced Jan, 1, 1851, by Silas Folsom, by whom it is still published.

The Christian Investigator was published at the office of the Free Citizen for 1 year. Edited by Wm. Gooddel.

The Wyoming G. Arbertiser was commenced Dec. 22, 1853, and

The Wyoming Co. Advertiser was commenced Dec. 22, 1853, and was published I year by Horace Wilcox.

The Wyoming Times was commenced at Perry by T. S. Gillet in May, 1855. It was destroyed by fire in 1856, and resuscitated soon after. It is still pub, by Mr. Gillet.

The Wyoming Co. Mirror was commenced at Warsaw in 1848 by A. Holley. In 1856 it passed into the hands of Babbitt & Lewis, in 1858 to Lewis & Merrill, and in 1859 to II. A. Dudley, by whom it is still published.

The Arcade Enterprise was started March 31, 1852, by J. H. Gibson, and is still published.

5 The parents of Mary Jemison emigrated from Ireland in 1743, and Mary was born during the voyage across the oceau.

The family settled upon the western frontiers of Penn., where

The family settled upon the western frontiers of Penn. where they remained in peace until the breaking out of the French War in 1754. In 1755 a party of Indians visited the settlement and took the family prisoners, and on their retreat murdered all but Mary, then a girl of 12 or 13 years. She was carried captive to an Indian settlement on the Ohio, and adopted by two captive to an indian settlement on the bhio and adopted by two women who had lost a brother in the war. She grew to woman-hood among the Indians, adopted their habits and customs, was twice married, and had 8 children,—3 sons and 5 daughters. After the Revolution she had an opportunity to return to her white friends; but she preferred to remain with her husband and children. She was greatly beloved by the Indians, and highly respected by the whites who became acquainted with her. She retained her knowledge of the English language, and to the last remembered the early instructions of her nother. her. She retained her knowledge of the Eugens to the last remembered the early instructions of her mother, and the last counsel which that mother gave when they were and the last counsel who designs of the Indians to murler the and the last counsel which that mother gave when they were taken captive and the designs of the Indians to murder the father and mother became manifest. She died at the Cattaraugus Reservation, Sept. 19, 1833, aged 90 or 91 years.

6 This creek is still locally known as Allens Creek.

thirsty monster. He was an open polygamist,—murdered several persons while professing the greatest friendship for them,—and while upon the war-trail with the Indians amused himself by dashing out the brains of infants.

lies upon the N. border of the co., w. of the center. Its surface is a rolling upland, broken by the ravines of the streams. In the E. part are several considerable hills with long gradual slopes. Tonawanda Creek, the principal stream, flows through the n.w. corner, and receives numerous branches from the E., the largest of which is Crow Creek. The soil is a clay and gravelly loam. Attica, (p. v.,) upon Tonawanda Creek, in the n.w. part of the town, was incorp. May 2, 1837. It contains a flourishing union school, a bank, a newspaper office, a flouring mill, and 5 churches. Pop. 1,184. Attica Center (p.o.) and Vernal are hamlets. The first settlement was made in 1802, by Zera Phelps. The first religious services were held Sept. 21, 1809, by Rev. Royal Phelps, at which time the first church (Cong.) was formed, with 5 members.<sup>2</sup>

BENNINGTON—was formed from Sheldon, March 6, 1818. It is the N. w. corner town of the co. Its surface is a rolling upland, broken by the ravines of small streams. Cayuga Creek and its branches drain the central, and Murder Creek the N. part of the town. Tonawanda Creek flows through the s. E. corner. The soil is a clayey, gravelly and sandy loam. Bennington Center (Bennington p. o.) contains 3 churches and 30 dwellings; and Cowlesville, (p. v.,) in the N. w. part of the town, 2 churches and 206 inhabitants. Folsomdale (p. o.) is a hamlet, on Cayuga Creek, and has a valuable water-power. The first settlement was made near the center of the town, in 1802, by John Tolles, Jacob Wright, and William Barber, from Vt.3 The first religious services were conducted by Rev. Peter B. Root, in 1805. The first church (M. E.) was

CASTILE (Cas-tile)—was formed from Perry, Feb. 27, 1821. It is the central town upon the E. border of the co. Its surface is a rolling and terraced upland, broken by the deep valleys of the streams. Genesee River, forming a portion of the E. boundary, is bordered by steep banks 300 to 350 ft. above the water. In some places the faces of the bluffs are perpendicular ledges 200 ft. high. Numerous small tributaries of the river have worn deep lateral channels in these bluffs. The valley of Silver Lake occupies a wide and shallow basin in the N. part of the town. Its outlet is toward the N. Wolf Creek rises in a swamp near the head of the lake and flows s. A wide, level valley, bordered by low terraces, extends from the E. shore of the lake and opens into the valley of Wolf Creek at Castile Village. The soil is a clay and gravelly loam. Castile (p.v.) lies on Wolf Creek, in the s.w. part of the town. It is a station on the B. & N. Y. City R. R. Pop. 682. St. Helena, (p. v.,) on Genesee River, in the s. E. corner of the town, contains 20 dwellings. The first settlement was made in 1808, by Robert Whalley, from R. I., 1 mi. E. of Castile Village. The first religious services (Bap.) were held near the s. end of Silver Lake, in 1816, by Elder Benj. Luther.7

CHINA—was formed from Sheldon, March 6, 1818. Java was taken off in 1832. It is the s. w. corner town of the co. Its surface is a rolling or hilly upland, broken by valleys. Cattaraugus Creek flows s. w. through near the center of the town, and receives several tributaries, the principal of which is Clear Creek, from the s. From the valleys the town spreads out into a rolling region, with long gradual slopes arable to their summits. The highest point is the ridge in the N.E., which is 1,100 ft. above Lake Erie, as determined by actual survey. The soil of the upland is a clayer and in the valleys a gravelly loam. Arcade (China p.o.) is situated at the junction of Cattaraugus and Clear Creeks, in the s.w. part of the town. It has a fine

<sup>1</sup> Among the other early settlers were Deacon Porter, Nath'l Sprout, and Maj. P. Adams. The first child born was Harriet Phelps, July 25, 1803; the first marriage, that of Stephen Crow and Lucy Elwell; and the first death, that of Thomas Mather, in the winter of 1803. Sophia Williams taught the first school, in 1807; Daniel Stanton kept the first inn, in 1809; — Fitch, the first store; and Zera Phelps built the first mill, in 1806.

<sup>&</sup>lt;sup>2</sup> The census reports 6 churches; Cong., Presb., F. W. Bap., Bap., M. E., and R. C.
<sup>3</sup> Among the other early settlers were Chauncey, Justin. and George Loomis, Peletish Case. Joseph Farnham, George Hoskins. David Tolles, Aaron Clapp, and Ezra Ludden. The first marriage was that of Aaron Whitney and Rachel Truesdale, in 1807; and the first death in town, that of a child of Wm. Barber, in 1803. The first school was taught by Rachel Truesdale. in 1807; the first inn was kept by Joseph Farnham, in 1817. Chauncey Loomis erected the first sawmill, in 1808; he also kept the first store. Quartus Clapp built the first gristmill, at Cowlesville. A son of David Tolles, 8 or 9 years old, was lost in the woods in 1806 and was never found. 1806 and was never found.

<sup>4</sup> The census reports 5 churches; Bap., F. W. Bap., Presb.,

<sup>5</sup> Mary Jemison, the "old white woman," with her family, hid

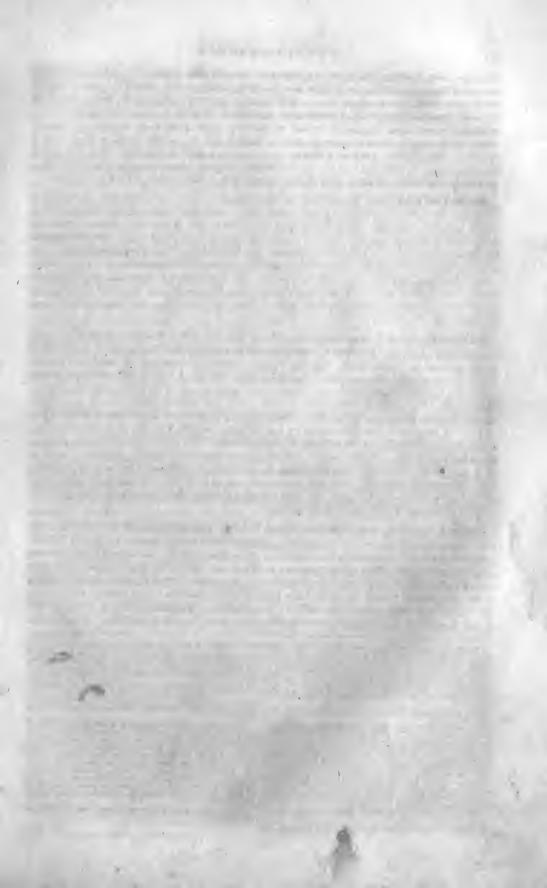

in the alders at the foot of this lake while Gen. Sullivan was laying waste the Indian villages upon the Geuesee. In the summer of 1855 it was reported that an immense serpent, 100 ft. long, had been seen in this lake. So well was the story apparently authenticated that thousands of visitors came from all parts of the country to obtain a sight of his snakeship. A burlesque account of the capture of the serpent, which appeared in the Buffalo Republic, raised the excitement to the highest pitch; and immediately afterward the whole humbug collapsed.

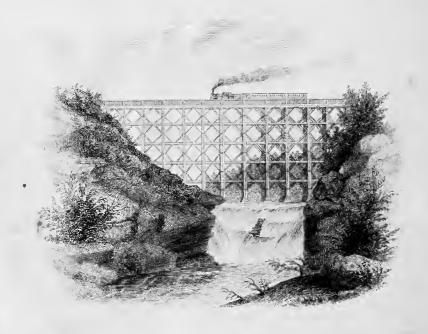

Soon after, a settlement was made at the fact of the lake in

collapsed.

6 Soon after, a settlement was made at the foot of the lake, in the w. part of the town, called the "Iullman Settlement." Tiba Hurd and Jonathan Gilbert, from Vt., were the first settlers at Castile Village, in 1816. The first child born was Jane McRay, in 1813; and the first death was that of Laura Wilcox, in 1815. The first school was taught in 1816, by Anna Bennett, from Vt. Robert Whalley kept the first inn, and erected the first sawmill, on Wolf Creek, below Castile Village, in 1811. John Card and Sylvester Lathrop built the first gristmill, on Lot 40, in 1820, the first store was kent by Lemuel Eldridge and M. in 1820; the first store was kept by Lemuel Eldridge and M. Frost, in 1815.

<sup>7</sup> The census reports 4 churches; Cong., Bap., M. E., and Christian.

PORTAGE BRIDGE.

water power, and contains a woolen factory, flouring mill, and 3 churches. Pop. 637. East China is a p. o. The first settlement was made in 1808, on Lot 28, by Silas Mecch, from New England. The first religious services were conducted by Rev. John Spencer, at Arcade, in 1812. The first church (Cong.) was formed at Arcade, by Jno. Spencer, July 24, 1813.2

COVINGTON—named from Gen. Leonard Covington—was formed from Le Roy (Genesee co.) and Perry, Jan. 31, 1817. A part was annexed to York (Livingston co.) in 1823. Pavilion (Genesee co.) was taken off in 1841. It is the N.E. corner town of the co. The surface is a moderately hilly upland, broken by the deep ravines of the streams. Oatka Creek flows through the N. W. corner, and receives as tributary Pearl Creek, which flows N. W. through near the center. Wide, fertile alluvial flats extend along Oatka Creek. The soil of the uplands is generally a gravelly loam. Covington Center, (Covington p. o.,) in the N. part, contains 20 dwellings; Pearl Creek, (p. v.,) in the n. w., contains 15 dwellings; La Grange, (p. v.,) near the s. line, a church and 20 dwellings; and **Peoria**, (p. v.,) near the E. line, 15 dwellings. The first settlement was made in 1807, in the w. part, by Jairus Cruttenden, William Miller, and John and William Sprague, all from New England.3 The first religious services were held at the house of David Norris, in 1814, by Rev. Mark Norris, from Vt.4

EAGLE—was formed from Pike, Jan. 21, 1823. It occupies a central position on the s. border of the co. Its surface is a hilly upland, broken by the deep ravines of the streams. Nearly the whole drainage is through Wiscoy Creek and its branches. Cold Creek takes its rise in the s. E. part of the town. The hills bordering upon the streams are very steep, and their summits are 400 to 700 ft, above the valleys. Eagle Lake, a small body of water in the s. w. part, has no visible outlet. The soil is a clayey and gravelly loam. Eagle Village, (p. v.,) in the s. w. part of the town, contains a church and 20 dwellings. Eagle, (p.o.,) in the N. E. part, is a hamlet. The first settlement was made in town in 1808, on Lot 8, by Silas and Wm. Hodges, from Cayuga co.5 There are 3 churches in town; M. E., F. W. Bap., and Christian.

GAINESVILLE—named from Gen. E. P. Gaines—was formed from Warsaw, as "Hebe," Feb. 25, 1814. Its name was changed April 17, 1816. It is an interior town, lying s. E. of the center of the co. The surface is an upland, slightly undulating and broken by the valleys of the streams. Oatka Creek flows through the N. E. part, and East Coy Creek through the s. w. The soil on the hills is a thin, dark loam underlaid by hardpan, and in the valleys a fertile, gravelly loam. A good quality of building stone is quarried in the N. part of the town. Gainesville Creek, (Gainesville p.o.,) on East Coy Creek, near the center of the town, contains a female seminary, 6 3 churches, and about 300 inhabitants. East Gainesville, (p.v.,) a station on the B. & N. Y. City R. R., contains 20 houses. Gainesville Center and Newburgh are hamlets. The first settlements were made at Gainesville Creek in 1805, by Wm., Richard, and Chas. Bristol, from Columbia co., and Elnathan George, from Vt.? The first religious meeting was held in 1809. The first church (Presb.) was formed in 1815.8

GENESEE FALLS-was formed from Pike and Portage, (Livingston co.,) April 1, 1846. It lies on Genesee River, in the s.E. corner of the co. A nearly perpendicular rocky bluff, 100 to 300 ft. high, borders upon the river, and from its summit the country spreads out into an undulating upland. The celebrated Portage Falls, in the Genesee River, are opposite this place.9 The soil is a sandy and clayey loam. Portageville, (p. v.,) on Genesee River, contains 5 churches and several mills. Pop. 561. The B. & N. Y. City R. R. crosses the Genesee, near the village, by a bridge 800 ft. long and 234 ft. above the bed of the river. This bridge was built at a cost of

<sup>1</sup> Ichabod Sanders, Samuel Nichols, Silas and Leonard Parker, Jacob Jackson, Wm. Barnes, Amasa and Alfred Kilbourn—most of them from Vt.—settled in the town in 1809. The first child born was a daughter of Jacob Jackson, and the second a son of Samuel Nichols, both in 1810; the first marriage was that of Silas Meech and Lydia Parker; and the first death, that of Mrs. A. Kilbourn, in the spring of 1812. Rebecca Parker taught the first school, in 1811; Silas l'arker kept the first inn, in 1814 and the first store, in 1815. Maj. Moses Smith built the first sawmill, in 1814, and Col. Duel Rowley the first gristmill, in 1810. 2 The census reports 5 churches; Cong., Bap., F. W. Bap., M. E., and R. C.
3 The first child born was Viola, daughter of Dr. Dan'l White, in 1809; the first marriage was that of Calvin Davis and Sylvia

<sup>3</sup> The first child born was viola, daughter of Dr. But I while in 1809; the first marriage was that of Calvin Davis and Sylvia Beardsley, in 1814; and the first death, that of Mrs. Easty, in 1814. Wm. Miller kept the first inn, in 1813; Dan'l Balcon, the first store, in 1812; — Spaulding built the first gristmill, in 1810; and Sprague and Spaulding the first sawmill, in 1812.

4 The census reports 3 churches; Presb., Asso. Presb., and M. E.

<sup>6</sup> Alanson, son of Silas Hodges, was the first child born, Oct. 13, 1809. The first inn was kept by Dan Beach, the first store, by Elijah Hyde, and the first sawmill was erected by Amos Huntley. O The Gainesville Female Seminary was established in 1855, by Misses Hardy and Eldridge, and other citizens of this place. The school is on the plan of the Mount Holyoke (Mass.) school. The buildings will accommodate 100 bearding pupils and 150 day scholars. day scholars.

7 John Patterson and James Cravath, with others, settled in

<sup>1306.</sup> Panela Patterson and James Cravatta, with charts, series in 1806. Panela Patterson was the first child born, in 1807. The first school was taught in Dec. 11, by Benj. Cole. The first inn was kept at the Center, by Benj. Iloag, in 1815; and the first store, by Lewis Wood, in the Yates settlement, in 1816. Wheeleck Wood erected the first sawmill, in 1809. on Oatka Creek; and Library Cond. and Pani Mallow, the first cristnill in 1826. and John Card and Benj. Mallory, the first gristmill, in 1825, at Gainesville Creek

\$175,000, and is the largest wooden R.R. bridge in the world. The Genesee Valley Canal also crosses the river at this point by an aqueduct built upon stone abutments 40 ft. high; the structure cost \$70,000. The first settlements were made on the river, above Portageville, in 1804, by John, Samuel, and Seth Fields. The first religious meeting was held by Rev. John Griffith, (M. E.,) in 1809; and the first church (Bap.) was formed by Rev. Joseph Case, at "Bigelows Corners," in 1818.2

JAVA—was formed from China, April 20, 1832. It lies on the w. border of the co., s. of the center. Its surface is an elevated region, broken by hills and the deep valleys of the streams. The highest summits are 400 to 600 ft. above the valleys and 1,000 to 1,200 ft. above Lake Erie. Buffalo Creek flows through the w. part, and receives a large number of tributaries. Cattaraugus Creek takes its rise in the E. part. Cattaraugus Lake is a small sheet of water in the s. E. part, nearly surrounded by steep hills. It forms one of the sources of Cattaraugus Creek. The soil upon the hills is a thin, dark loam underlaid by hardpan; in the valleys it is principally a gravelly loam. About 1 mi. E. of Java Village is a quarry of fine building stone. Java Village (p. v.) lies upon Buffalo Creek, in the N. w. part of the town. Pop. about 200. North Java, (p. v.,) in the N. E. corner of the town, contains a church and about 100 inhabitants. Java Center, (p. o.,) East Java, (p. o.,) in the s. E. part of the town, Curriers Corners, (Java p. o.,) in the s. w., and Williamsville, near the E. border, are hamlets. The first settlement was made on Lot 32, in the N. w. part of the town, in 1810, by Wm. Richardson and Timothy Kirby, from Lowell, Mass.3 The first church (R. C.) was formed in 1838.4

MIDDLEBURY—was formed from Warsaw, March 20, 1812. It lies on the N. border of the co., E. of the center. Its surface is a rolling upland, broken by the deep valleys of the streams. Oatka Creek flows through the s. E. corner, and Little Tonawanda Creek through the w. part. A deep ravine extends E. and w. through near the center of the town, forming a natural pass between the valleys of these two streams. The hills that border upon Oatka Creek are steep and 400 to 600 ft. high. The soil is a gravelly and clayey loam. Wyoming, (p.v.,) on Oatka Creek, near the E. border of the town, contains the Middlebury Academy, 5 3 churches, and 378 inhabitants. West Middlebury, (Dale p. o.,) a station on the B. & N. Y. City R. R., contains 20 dwellings. The first settlement was made by Jonas Sellick, (from Rutland co., Vt.,) in 1802, near Wrights Corners.6 There are 5 churches in town.7

ORANGEVILLE—was formed from Attica, Feb. 14, 1816. Wethersfield was taken off in 1823. It is an interior town, lying N. w. of the center of the co. Its surface is a rolling upland, broken by deep ravines. The streams are Tonawanda Creek and its branches, draining the w., and small branches of Oatka and East Coy Creeks, draining the E. parts of the town. The summits of the highest hills are 400 to 700 ft. above the valleys. The soil is a gravelly and clayey loam underlaid by hardpan. Orangeville Center (Orangeville p. o.) contains 15 houses; Johnsonsburgh, (p. v.,) on Tonawanda Creek, lies partly in Sheldon. Pop. about 100. Halls Corners (East Orangeville p. o.) is a hamlet. The first settlement was made in 1805, by John Duncan, on Lot 13, and Elisha Doty, from Cayuga co., on Lot 12.8 The first church (Presb.) was organized by Rev. John Alexander, July 11, 1812.9

1 Nathan and Joseph Dixon, Joseph and Justice Bailey, and Sebetiah Ward settled previous to 1807. The first death was that of Sophia Smith, in 1817. The first school was taught by Maria Bellinger, in 1809. The first inn was kept by Lewis Wood, at Portageville, in 1824; and the first store, by Foot & Martin, the same year. The first sawmill was erected in 1812, and the first gristmill in 1820, on the river, by Mumford, Smith, <sup>2</sup> The census reports 5 churches; Bap., M. E., Presb., Univ., and R. C.

and R.C.

3 In 1812 and '14, Chas. Richardson and Daniel H. Worcester settled at Java Village, and Charles Fox at Curriers Corners. The first mill was erected by Daniel II. Worcester, at Java Village, in 1816; the first inn was kept by Chas. Fox, at Curriers Corners, in 1818; and the first store, by Mr. Comstock, at Java Village, in 1820.

8. C.
5 This academy was founded mainly by the efforts and liberality of several of the first settlers of the village. Its main building was erected by subscription, in 1817. It now has some endowments, and is under the charge of the Baptist denomination. For many years it was considered the first institution w. of the Genesee River, and still maintains a high reputation.

tation.

In 1803 a number of immigrants from Vt. settled in the town, among whom were Reuben Chamberlain, Jabez Warren, Frederick Gilbert, Sterling Sterns, and Israel M. Dewey. The first store was kept by Edwin Putnam, in 1819, near Wrights

Corners; the first gristmill was built by Silas Newell, in 1813, near Wyoming Village; the first sawmill, by A. Worden, in 1809, at West Middle-bury; Annzi Wright kept the first inn. at Wright Corners, in 1806. In May, 1817, Artemus Shattuck, a citizen of this town, went into the woods, a distance from home, to chop. While cutting off a log that had been partially split open, his foot was caught in the crack, and he hung for a long time suspended by his foot and partially supported by one hand. Despairing of receiving aid, and entirely unable to extricate himself, he finally unjointed his ankle with his pocket knife, made a crutch of a crooked stick, and started for the house, Ile was found about dark, and carried to the house, where his lew was found about dark, and carried to the house, where his leg was amputated by a surgeon. He recovered, became a Bap.

leg was amputated by a surgeon. He recovered, became a Bap. minister, and lived many years.

7 2 Bap., and 1 each F. W. Bap., Presb., and M. E.

8 Lemnel Chase and James Sayer settled about the same time, and Seth and Adial Sherwood, Silas Merrifield, and Asahel Ward in 1806; Truman Lewis and a number of other families in 1807. The first child born was a son of Seth Sherwood, in 1807; the first marriage was that of Adial Sherwood and Miss Wood, in 1809; and the first death, that of Mrs. James Sayer. room, in 1999; and the first death, that of Mrs. James Sayer. Corinna Lewis and Mary McKnight commenced the first schools, May 1, 1811; Isaac Moore kept the first inn. in 1811, at the Center; and Silas Hubbard the first store, in 1814, at the suplace. Robert Hopkins erected the first sawmill, in 1810, and Levi Johnson the first gristnill, in 1817.

9 The census reports 4 churches; Presb., Bap., Ref. Prot. D., and Friends.

PERRY -- was formed from Leicester, (Livingston co.,) March 11, 1814. A part of Covington was taken off in 1817, and Castile in 1821. It lies on the E. border of the co., N. of the center. Its surface is level or gently rolling. Its streams are small brooks and creeks. The foot of Silver Lake lies along the s. border. **Perry**, (p. v.,) upon the outlet of Silver Lake, was incorp. in 1829. It contains the Perry Academy,2 a newspaper office, a bank, a woolen factory, 3 flouring mills, and several churches. Pop. 935. Perry Center (p. v.) contains a church and 40 dwellings. West Perry is a hamlet. The first settlement was made in 1806, on Lot 28, by Josiah Williams, from Vt.4 The first religious services were held at Perry Center, in Dec. 1813, by Rev. Mr. Herrick, (Bap.,) when he was retreating from Buffalo. The first church (Presb.) was organized at the Center, by Rev. Oliver Ayer and Silas Hubbard, June 28, 1814.5

PIKE<sup>6</sup>—was formed from Nunda, (Livingston co.,) March 6, 1818. Eagle was taken off in 1823, and a part of Genesee Falls in 1846. It lies on the s. border of the co., E. of the center. Its surface is a hilly and broken upland. East Coy Creek flows s. through the E. part, and Wiscov Creek s. E. through the center. Enory Hill, the highest point, is about 100 ft. above the R. R. at Castile, and the lowest point, in the s.E. corner, is 200 ft. below the R.R. The soil is a gravelly and clayer loam. There are several quarries of building stone in town. Pike, (p. v.,) on Wiscoy Creek, near the center, was incorp. Aug. 11, 1848. It contains the Genesee Conference Seminary, an iron foundery, a flouring mill, a woolen factory, and 3 churches. Pop. 581. East Pike, (p. v.,) on East Coy Creek, contains a church, a flouring mill, an extensive paper mill, and 50 dwellings. Pike Five Corners, Griffiths Corners, and East Coy (p. o.) are hamlets. The first settlement was made in 1806, by Peter Granger, Eli Griffith, Asahel Newcomb, Phineas Harvey, and Caleb Powers, all from Whitehall, N. Y.3 The first church was formed, Sept. 25, 1821, at Pike Village.9

SHELDON—was formed from Batavia, (Genesee co.,) March 19, 1808. Attica was taken off in 1811, and Bennington and China in 1818. Its surface is a rolling upland, 400 to 600 ft. Tonawanda Creek flows through the E. and several tributaries of Buffalo above the valleys. Creek through the w. part. The soil upon the hills is a thin, dark loam underlaid by hardpan and in the valleys a gravelly loam. Strykersville, (p. v.,) in the s. w. corner of the town, contains several mills, 2 churches, and about 400 inhabitants. Varysburgh, 10 (p. v.,) in the N. E., upon Tonawanda Creek, contains 2 churches and 20 dwellings. Sheldon (p. o.) and North Sheldon (p.o.) are hamlets. Johnsonsburgh (p. v.) is on the line of Orangeville. The first settlement was made in the N. part, in 1804, by Roswell Turner, agent of Phelps and Chipman, the original purchasers of the town. The first religious meeting (Bap.) was held at the house of Roswell Turner, by Rev. Mr. Spencer. The first church was formed at the Center, in 1808.12

WARSAW—was formed from Batavia, (Genesee co.,) March 19, 1808. Middlebury was taken off in 1812, and Gainesville in 1814. It is an interior town, lying N. E. of the center of the co. Its surface is a broken upland, divided into two ridges by the valley of Oatka Creek. The declivities of the hills are steep, and their summits 700 to 1,000 ft. above the valleys. Upon Mill Brook, a small tributary of Oatka Creek, is a perpendicular fall of 105 ft. Warsaw, (p. v.,) the co. seat, was incorp. April 17, 1843. It lies in the valley of Oatka Creek, at the center of the

<sup>1</sup> It was incorp. by the regents in 1853, and is under the management of a village board of education.

2 Sash and blinds, horse rakes, carriages, and waterproof oil

blacking.

8 In the same year, Wm. Webster, Shubael Morris, Amos Kino in the same year, win. webster, Shubaer Borris, Amos Kin-ney, Elijah Cutting, and Joseph Palmer settled in the s. part of the town, and Josiah Hovey in the N. part. The first set-tiers were mostly from New England. The first child born was Eliza Webster, in 1804; the first marriage was that of Silas C. Fargo and Catharine Whiting; and the first death. Shad C. Fargo and Catharine Whiting; and the first death, the first lat of an infant son of Sterling Stearns, in 1804. The first death of an adult was that of Dwight Noble, in 1808. The first school was taught by Samuel McWhorter, in 1807. Elizur Prot. E., M. E., and Christian.

Webster kept the first inn. in 1809; and Absalom Green

Webster kept the first inn. in 1809; and Absalom Green and Dan'l Shaw, the first store, in the same year. Solomon Morris built the first gristmill, in 1808.

4 The census reports 6 churches; Presb., Cong., Bap., F. W. Bap., Prot. E., and M. E.

5 John W. Parry, from Oneida co., settled at Wethersfield Springs in the fall of 1810, and built the first house at that place. The first school was taught by O. Martin. The first gristmill was creeted by James Cravath, in 1812. on East Coy Creek; and the first sawmill, by Calvin Clifford, on the same creek, in 1810.

## YATES COUNTY.

This county was formed from Ontario, Feb. 5, 1823, and named from Joseph C. Yates, then governor. Barrington and Starkey were added from Steuben, April 6, 1824. It is centrally distant 172 mi. from Albany, and contains an area of 370 sq. mi. . Its surface consists of a series of ridges extending from Steuben co. in a northerly direction, and gradually declining from a height of about 1,700 ft. above tide, upon the s. border, to a level of the undulating region near the foot of Seneca Lake. The first or most eastern of these ridges lies between Seneca and Crooked Lakes, and occupies the towns of Barrington, Starkey, Milo, Torrey, and a part cf Benton. The highest summit is about 900 ft. above Crooked Lake and 1,200 above Seneca. The slopes are generally gradual

and the inclination uniform. The second ridge occupies the high peninsula between the two branches of Crooked Lake, and extends N. through Jerusalem, finally losing itself in the rolling upland of Benton. The s. part of this ridge is known as "Bluff Point," from its abrupt termination. It is about 400 ft. above the lake. The third range lies between the w. branch of Crooked Lake and Flint Creek, and occupies the w. part of Jerusalem, the E. part of Italy, and the s.e. part of Potter. The highest summits in the s. are about 700 ft. above the lake. A fourth ridge lies between the valleys of Flint Creek and West River, and extends n. through the w. part of Potter. A fifth range occupies that portion of Middlesex lying between West River Hollow and Canandaigua Lake. The declivities of the last two ranges are mostly very steep; and their summits are 800 to 1,000 ft. above the valleys. The uplands, except in the extreme w. part, are smooth and arable to their summits. The valleys between them are wide and exceedingly fertile, and the N. part of the co. is a fine rolling region.

The lowest rocks in the co. are the upper series of the Hamilton shales, cropping out on the lower course of the Crooked Lake Outlet. Next above these, upon the same stream, appear the Tully limestone, Genesee slate, and Portage groups. The first of the three, furnishing lime, is the most valuable mineral in the co. The Portage group near Penn Yan furnishes a good quality of flagging stone, and is extensively quarried for that purpose. The shales and sandstone of the Chemung group occupy the summits in the s. part of the co.; calcareous tufa is found upon Crooked Lake Outlet, and marl in the swamps near the foot of the lake. Iron pyrites have been found in considerable quantities at Bluff Point. The soil for the most part consists of a fine quality of gravelly loam, intermixed with clay and the disintegrated shales of the Portage group. It is well adapted to either tillage or pasturage.

The principal streams in the co. are Crooked Lake Outlet, Keshong Creek, Big Stream, Rock Stream, Flint Creek, and West River. Seneca Lake, forming the E. boundary of the co., is 447 ft. above tide, and Canandaigua Lake, forming a part of the w. boundary, 668 ft. 'Crooked Lake,' near the center, two-thirds of it lying within the co., is 718 ft. above tide and is 18 mi. in length. Its N. part is divided by Bluff Point into two branches, each of which is from one to two mi. wide. Owing to the depredations of the midge winter wheat is less grown than formerly, while spring grains, root crops, stock, wool, and fruit are much more extensively and profitably produced. The outlet of Crooked Lake affords large water power for manufacturing purposes, -as yet but slightly improved.

The county seat is located at the village of Penn Yan, on the line of Milo and Benton. The first courthouse4 and jail combined was erected in 1824; and in 1834 it was burned. In 1835 a new brick courthouse was built, on a public square, at a cost of \$12,000. A jail, detached, was erected the same season. The latter was destroyed by fire in Feb. 1857, and was rebuilt the same year, at a cost of \$10,200. A clerk's office was erected some years previous, upon the public square

into the lake.

2 The commissioners who located the co. seat, were John Sutton, of Tompkins co., George H. Feeter, of Herkimer co., and Joseph B. Walton, of Otsego co.

3 The first court was held at the house of Asa Cole, in Penn Yan, on the first Tuesday in June, 1823. The first board of supervisors met at the same place. The first co. officers were William M.Oliver, First Judge; James Taylor, Dist. Atty.; Abraham

<sup>1</sup> Called by the Indians O-go-ya-ga, a promontory projecting to the lake.

2 The commissioners who located the co. seat, were John Suton, of Tompkins co., George II. Feeter, of Herkmer co., and Joseph B. Walton, of Otsego cos. were appointed commissioners to locate the co. buildings, and Wm. Shattuck, of Benton, George II. Feeter, of Herkmer co., and Joseph B. Walton, of Otsego cos. were appointed commissioners to locate the co. buildings, and Wm. Shattuck, of Benton, George II. Feeter, the first board of such that the same place. with the other public buildings, near the center of the village. The co. poorhouse is located on a farm of 123 acres in the town of Jerusalem, about 5 mi. s. w. of Penn Yan. The average number of inmates is 86, and they are supported at a weekly cost of \$1 40 each. A school is taught in the house during a portion of the year, and religious services are held occasionally. The Crooked Lake Canal extends along the outlet of Crooked Lake, and enters Seneca Lake at Dresden. It opens a direct water communication with Yates co. and the N. portion of Steuben, and affords an easy and cheap means of transportation. The Elmira, Jefferson & Canandaigua R. R. extends through the co., E. of the center, connecting with the N. Y. C. R. R. at the N. terminus and with the N.Y. & E.R.R. at the s. These two works of internal improvement furnish market facilities equal to those generally enjoyed by the interior cos. of the State.

Three newspapers are published in the co.2

The early history of this co. is intimately associated with the history of the "Friends," a religious sect founded by Jemima Wilkinson.3 This singular woman took the name of the "Universal Friend," and was regarded as a prophet by her followers, among whom were persons of respectability, wealth, and influence. At a general meeting of the sect, in Conn., in 1786, it was resolved to emigrate to some unsettled region and found a colony where they might live in peace and in the undisturbed enjoyment of their religious opinions. Three of their number were delegated to seek out a proper location.4 They proceeded to Penn., went up the Susquehanna River, and followed the route of Gen. Sullivan to Seneca Lake, where they finally determined to locate. In June, 1787, 25 "Friends" set out for the land of promise by the way of the Mohawk Valley. They settled about 1 mi. s. of the present village of Dresden, the location being fixed upon from its close proximity to the fine waterfalls upon Crooked Lake Outlet.<sup>5</sup> During the fall they prepared the land, and in the following season sowed it with winter wheat, which they harvested in 1789; and this was the first wheat crop raised in Western N. Y. In 1789, Wm. Potter and Thos. Hathaway, two of their number, purchased of the State 14,000 acres of land lying between Seneca Lake and the Pre-emption Line, and subsequently Thos. Hathaway and Benedict Robinson purchased the town Jerusalem of Phelps and Gorham. In 1789, Jemima and a large number of her followers

1847 by Alfred Reed. In 1850 Darius A. Ogden became proprietor, in 1853 Reuben Spicer, and in 1857 Geo. D. A. Bridgman, its present publisher.

The Yates County Republican was started Dec. 16, 1824, by E. J. Fowle, and continued 10 years. He then sold it to John Remmick, who published it as

The Penn Ton Enquirer about 2 years, when it was discontinued. The Western Star was pub. at Penn Yan in 1833 by H. Gilbert.

The Miscellany was pub. at Penn Yan in 1833 by Thos. II. Bassett.
The Democratic Whig was commenced in 1837 by Wm. Child.
About 2 years after it passed into the hands of Nicholas

About 2 years after it passed into the natus of Nenoias D. Snydam. who changed its name to The Tates County Whig. In 1845 it passed into the hands of Rodney L. Adams. In 1852 Mr. Adams sold it to Cleveland & Look. Mr. Look soon retired, and in 1856 its name was changed to

The Yates County Chronicle. It is now published by Stafford C. Cleveland.

The Democratic Organ was commenced in 1844 at Penn Yan by

The Democratic Organ was commenced in 1844 at Penn Yan by Harvey L. Winants, and published about 2 years. The Penn Yan Telegraph, da., was issued from the office of The Whig, for 6 mos. in 1846.

The Dundee Record was commenced at Dundee, Jan. 25, 1844, by Gifford J. Booth. Edward Hoagland succeeded to its editorship in 1847, John J. Diefendorf in 1853, and

to its centorship in 1844, John J. Diefendorf in 1855, and
D. S. Bruner, its present publisher, in 1857.

§ Jemima Wilkinson was the daughter of Jeremiah Wilkinson,
a R. I. farmer. She was one of a family of 12 children and had
little or no advantages of education. In her 20th year she had a
severe attack of fever; and for some time her life was despired of.
Upon her recovery she claimed that she had been raised from the dead.—that her carnal existence was ended and henceforth her life was to be spiritual and divine,—and that she was endowed with the power of prophecy. She soon commenced traveling and exhorting, and succeeded in converting many persons, among whom were several substantial New England farmers. The following description of her person is copied from "The New Haven Gazette and Connecticut Magazine," dated March, 17S7. "She is about the middle size of woman, not genteel in her person, rather swkward in her carriage; her complexion good, her eyes remarkably black and brilliant, her hair black and waving with beautiful ringlets upon her neck and shoulders. Her features are regular, and the whole of her face is thought by many to be perfectly beautiful. As she is not to be supposed of either sex, so this neutrality is manifest in her personal appearance. She wears dead .- that her carnal existence was ended and henceforth her this neutrality is manifest in her personal appearance. She wears

1 This building, erected 25 years ago, is 100 ft. by 50, and 3 stories high, including basement. The farm yields a revenue of \$1.000.

2 The Penn Yan Herald was established at Penn Yan in May, 1818, by Abraham H. Bennett. In 1820 it appeared as The Penn Yan Democrat. In 1825 it was pub. by Bennett & Reed, in 1842 by Reed & Bennett, and in 1847 by Alfred Reed. In 1850 Darius A. Ogden became and the reck and wrists. Her with that of man nor woman. Her neutr & Reed, in 1842 by Reed & Bennett, and in 1847 by Alfred Reed. In 1850 Darius A. Ogden became anticism. She is very liliterate, yet her memory is very great; artful in discovering many circumstances which fall out among her disciples. On all occasions she requires the most extraordinary attentions that cau be bestowed upon her: one or more of her disciples usually attend upon her and perform the most. of her disciples usually attend upon her and perform the most menial services. Her pronunciation is after the peculiar dialect of the most illiterate of the countrypeople of New England. Her preaching has very little connection, and is very lengthy,—at times cold and languid, but occasionally lively, zealous, and animated." When she first arose from her bed of sickness, she assumed that there was once such a person as Jemima Wilkinson, but that she there was once such a person as Jemima Wilkinson, but that she died and went to heaven, after which the Divine Spirit resulmated that same body and it arose from the dead; now, this divine inhabitant is Christ Jesus our Lord, the Friend to all mankind, and gives his name to the body to which he is united, and therefore body and spirit conjointly is the "Universal Friend," She assumed to have two "Wilnesses." corresponding in all respects to those prophesied in Rev. chap. xi. from 3d to 13th verses. These were James Parker and Sarah Richards. During her whole life she never visibled the pretensions which sheat first made; and life she never yielded the pretensions which she at first made; and her whole career had the merit of consistency. Among the principal peculiar tenets of the sect was the strict enforcement of the

cipal peculiar tenets of the sect was the strict enforcement of the Shaker doctrine of celibacy as indispensable to a pure life. The meetings were conducted after the manner of the Quakers, the whole congregation often sitting in perfect silence for an hour or more—See Turner's Hist. of The Phelps and Gorham Purchase.

This extraordinary woman exerted a strong influence over her followers, who gratuitously planted and hoed her corn, sowed and reaped her wheat, and cut and gathered her hay, always having care to be of no trouble or expense to the Friend upon these occasions. On one occasion leaddressed, through an interpreter, a band of Oneidas who had encamped near her settlement on their way to a treaty, endeavoring to convince them that she was Christ. They listened with apparent attention, and, when she had finished, one of the chiefs arose and delivered a short aderess to his countrymen. She requested to have it interpreted to her,—when the savage contemptuously replied, in broken English, that if she were the character she assumed to be, she would have understood the poor Indian as well as any one. She died have understood the poor Indian as well as any one. She died July 1. 1819, and her sect has long since been broken up.—Hudson's Life of Jemima Wilkinson.

4 Abraham Dayton, Richard Smith, and Thomas Hathaway.

5 The first gristmill in Western N.Y. was built in 1789, by Rich'd
Smith, James Parker, and Abraham Dayton, 2½ mi. from PennYan,

6 "1t was a rule at that early period with Messrs, Phelps &

eame in. The first framed house in the co. was erected for her, on a farm of 1000 acres set apart for her especial use. For a time the colony flourished; but soon neighbors began to arrive, and jealousies were engendered, and a scries of persecutions commenced, which seriously retarded the progress of the colony and embittered the last days of the "Friend."1

BARRINGTON—was formed from Wayne, (Steuben co.,) April 6, 1822. It lies upon the E. bank of Crooked Lake, in the s. part of the co. Its surface consists principally of a high ridge, sloping gradually upward from Crooked Lake to a height of 600 to 800 ft. Big Stream flows through the s. E. corner, in a deep ravine bordered by steep declivities. From Crooked Lake the ascent is nearly uniform for 2 miles; and the summit of the ridge is rolling. The soil is a slaty gravel mixed with clay, and is generally productive. Barrington,2 (p. v.,) near the center, contains 1 church and 25 houses. The first settlement was made in 1800, by Jacob Teeples.3 The Rev. Jas. Osgood (Bap.) was the first preacher. There are two churches in town; Bap. and M. E.

BENTON4—was formed from Jerusalem, Feb. 12, 1803, as "Vernon." Its name was changed to "Snell" April 6, 1808, and to Benton April 2, 1810. Milo was taken off in 1818, and a part of Torrey in 1851. It is the N.E. corner town of the co. Its surface is rolling and gradually descending toward the N. and E. From Seneca Lake the land slopes upward for a mile, and to a height of about 300 ft., where it spreads out in a beautiful undulating region. The valley of Crooked Lake, 200 ft. below the summits of the table land, extends about 1 mi. into the s. part of the town. Keshong Creek passes through the N. E. corner. The soil is clay along the lake, but upon the hills it is a deep, rich, clayey and gravelly loam, well adapted to almost every branch of agriculture. Bellona, (Benton p.o.,) situated on Keshong Creek, in the N. E. part, contains 2 churches, (pop. 205;) and Benton Center (p. v.) 2 churches and 28 dwellings. Fergusons Corners (p. o.) is a hamlet. The village of Penn Yan lies partly within this town. The first settlement was made in the spring of 1789, by Levi Benton, from Catskill, Greene co.5 The first religious meetings were held in the barn of Levi Benton, in 1792, and were conducted by Ezra Cole. There are now 4 churches in town.6

ITALY—was formed from Naples, Feb. 15, 1815. It is the s. w. corner town of the co. Its surface consists of three distinct ridges, each attaining an elevation of about 1000 ft. above Canandaigua Lake. These ridges are divided by the valley of Flint Creek-known as Italy Hollowand West River Hollow. The valleys are generally narrow and bordered by steep and often precipitous sides. The summits of the ridges are broken uplands. The soil is a slaty and gravelly loam and is best adapted to pasturage. Italy Hill (p. v.) is situated in the s. E. corner; and Italy Hollow (p. o.) on Flint Creek, s. of the center. The first settlement in the town was made by John Mower, at West Hollow, in 1793.7 There are 4 churches in town.8

JERUSALEM—was organized Jan. 1789, and Benton was taken off in 1803. A small part of Steuben co., in the forks of the lake, was annexed Feb. 25, 1814. It lies on the w. bank of Crooked Lake and is the central town in the co. Its surface is divided into two distinct ridges by the w. branch of the lake and its inlet. The E. ridge terminates on the s. in Bluff Point, a promontory, 8 mi. in extent, lying between the two branches of Crooked Lake; and it extends on the N. into the town of Benton. It is about 400 ft. high and 1½ to 2 mi. wide, and is bordered by steep declivities. The continuity of this ridge is broken by a remarkable depression extending

Gorham, in selling a picked township, to require the purchaser to draw for another township at the same price. Robinson and Hathaway, after purchasing Jerusalem, drew what is now the town of Geneseo, Livingston co. The Friend objected to her people 'trading and buying property at a distance,' and, fearing her displeasure, they prevailed upon Mr. Phelps to release them from the bargain, which he was quite willing to do, as he had ascertained the value of the township."—Turner's Hist.

1 She was several times prosecuted for blasphemy, and was harassed by lawsuits, which were chiefly instigated by those who had once been her followers and friends.—Turner's Hist. of The Phelms and Gorham Purchase.

had once been her followers and friends.—Turner's Hist. of The Phelps and Gorham Purchase.

2 Sometimes called "Warsaw."

3 The next settlers were Thomas Bronson, from Conn.; Wm. Coolbaugh, from N.J.; Jonathan Davis, William Ovenshire, Oliver Parker, Matthew Knapp, Joseph Fenton, John Kriss, and Henry Spry. The first school was taught by A. C.West, in 1810. Jacob Teeples kept the first tavern, in 1804, on the Bath Road; and Elijah Townsend, the first store. John Carrerected the first gristmill, and Wm. Cummins the first sawmill.

4 Named from Levi Benton, the first settler.

5 T. Spencer settled at Bellona in 1790; George Wheeler, Robert Chisson. Jas. Scofield, Otis Barden, and Daniel Brown in

bert Chisson, Jas. Scofield, Otis Barden, and Daniel Brown in

1791; and Ezra Cole, Eliphalet Hull, and Samuel and Cyrus Buell, with their families, in 1792. The first birth was that of Matilda Buell, in Sept. 1792; the first marriage, that of Thos. Barden and Olive Benton, in 1791; and the first deaths, those of Fphraim and Samuel Wheeler, who both died in the fall of 1792. The first sawmill was built by Dr. Caleb Benton, in 1790, at Bellona. The first store was kept by Luther Benton and James Stoddard, in 1799, and the first inn by Ezra Cole, in 1800. John Coates taught the first school, at Benton Center, in the winter of 1794. The

1799, and the first inn by Ezra Cole, in 1800, John Coates taught the first school at Benton Center, in the winter of 1794. The first town meeting was held at the house of Daniel Brown.

8 Two M. E., Bap, and Presb.

7 Josiah Bradish, Seth Sprague, Fisher and Isaac Whitney, William Dunton, Edward Low, William Clark, Archibald Armstrong, Card Knowles, John Armstrong, Morris and Hastings, settled in 1794 and '95, and Nathan Scott and Andrew Robson in 1809. The first birth was that of Polly Mower, in Oct. 1795; and a child of Mr. Mower was the first that died. The first marriage was that of Jabez Metaalf and Nancy Torrey. Nancy Torrey taught the first school, in 1803, at West Hollow. Elias Lee kept the first tavern, at the same place, in 1806; Abraham Maxfield the first store, at Italy Hollow; Asahel Stone, jr., crected the first saw and grist mill, at the same place, at an early date.

8 Two Bap., M. E., and Presb.

from the head of the w. branch of Crooked Lake E. to the E. branch. The highest point in this valley is about 70 ft. above the lake. The ridge on the w. rises gradually for 3 or 4 mi. and attains a height of about 700 ft. above the lake, where the surface spreads out into a rolling upland. The soil is a gravelly and slaty loam, and is well adapted to both pasturage and tillage. Branchport, (p. v.,) situated at the head of the w. branch of Crooked Lake, contains 3 churches and about 55 houses. Kinneys Corners (Bluff Point p. o.) is situated in the E. part of the town; Shermans Hollow and Yatesville are p. offices. The first settlement was made by Jemima Wilkinson, in 1789.1 In that year crops of wheat were harvested in the town, and a mill was erected that made flour the same season. The first, and for a long time the only, religious services in town were conducted by Jemima, at her own house. There are 4 churches in town.2

MIDDLESEX—was formed in 1789, as "Augusta." Its name was changed April 6, 1808. Potter was taken off in 1832, and a part was annexed to Potter in 1856. It is the N. W. corner town, lying upon the E. bank of Canandaigua Lake. Its surface consists chiefly of high ridges separated by narrow valleys. The summits are 500 to 600 ft. above the lake. The valley of West River divides the ridges, and the valley of a small stream known as Boat Brook divides the w. ridge into two peaks, the n. of which is known as "Bare Hill." The soil is clayey on the summits of the hills, and gradually changes to a deep gravelly loam in the valleys. Near Federal Hollow, a mile from Rushville, is an inflammable spring.3 Middlesex Center (Middlesex p.o.) contains 3 churches and 20 dwellings. Overackers Corners is a hamlet. The first settlement was made in 1789. Judge Potter, one of the surveyors of Phelps and Gorham's purchase, was the original purchaser of the town, and took an active part in its first settlement.4 Many of the first settlers were adherents of Jemima Wilkinson; and for a considerable time there was no other religious association in the town. There are now 4 churches.<sup>5</sup>

MILO-was formed from Benton, March 6, 1818. A part of Torrey was taken off in 1851. It lies on the E. border of the co., between Seneca and Crooked Lakes. Its surface rises from Seneca Lake in a gentle and gradual slope for 2 mi., where it attains an elevation of about 400 to 500 ft. From this summit the land spreads out into an undulating region, gradually declining on the w. to the valley of Crooked Lake. The soil is principally a gravelly loam, with some clay in the vicinity of Penn Yan and on the shore of Seneca Lake. Penn Yan, 6 (p. v.,) the county seat, was incorp. April 27, 1833. It is situated at the foot of Crooked Lake, and is an important station on the Elmira, Jefferson & Canandaigua R. R. A daily steamer connects it with Hammondsport, at the head of Crooked Lake. It contains 6 churches, a high school,7 2 newspaper establishments, and a bank. Pop. 2,277,-2,114 in Milo, 163 in Benton. Milo Center (p. v.) contains 150 inhabitants; and Himrods Corners (Milo p. v.) 78. The first settlement was commenced in the N. part, by the followers of Jemima Wilkinson, from R. I., in 1787.8 The first religious services were conducted by Jemima Wilkinson. There are now 10 churches in town.9

POTTER<sup>10</sup>—was formed from Middlesex, April 26, 1832, and part of Middlesex was annexed Dec. 18, 1856. It lies near the center of the N. border of the co. Its surface is hilly in the s. w., and rolling in the center and N. Flint Creek, the principal stream, flows northerly through near the center of the town. A swamp of 1 to 1½ mi. wide extends along its course for 8 mi. N. of Potter Center. The soil is a slaty loam in the s. w., and a gravelly and sandy loam, with an intermixture of clay, in the remaining parts. Rushville (p. v.) is partly in Gorham, Ontario co., but principally in the n.w. part of this town. Pop. 583,-408 in Potter, 175 in Gorham. Potter Center (Potter p. o.) contains 20 houses. Voak is a p.o. on the line of Benton. Settlement was begun in 1788, by the followers of Jemima Wilkinson. The most prominent among them were William

James Hill the first store.

9 3 Bap., 2 M. E., Cong., Wes. Meth., Presb., Prot. E., and R. C.

10 Named from Arnold Potter, an original proprietor and the first settler in town.

¹ The first settlers were Thomas Hathaway and Daniel Brown. In 1789, Jemima, "The Universal Friend," as she was called, entered the town with a large retinue, among whom were Sarah Richards and Rachael Malin, her two "Witnessess" Isaac Kinney, Solomon Ingraham, Samuel Doolittle, and Wm. Sandford, as part of her family, all from Rhode Island. They all lived with Jemima in the house previously erected for her,—the first frame house built in Western N. Y. The first gristmill was built by Richard Smith, James Parker, and Abraham Dayton, 2½ mi. from Penn Yan. David Wagener opened the first public house, at the same place; Daniel Brown built the first sawmill, north of Branchport; and John Noves taught the first school, in 1794.

place; Daniel Brown built the first sawmill, north of Branchport; and John Noyes taught the first school, in 1794.

<sup>2</sup> Bap, M. E., Presb., Univ. 

<sup>3</sup> Beck's Mineralogy N. Y., p. 166.

<sup>4</sup> Among the first settlers were Michael Pierce, John Walford, Jabez French, John Blair, James Lewis, and John McNear, all from R. I. William Bassett taught the first school, in 1796; Jesse Gilbert kept the first tavern, near Rushville, and Nelson Wilder the first store. John Walford, jr., built the first sawmill. The first death was that of Mrs. Lucy Walford, in 1791.

<sup>5</sup> Two M. E., Bap., and Free Will Bap.

<sup>6</sup> Among the early settlers of the village were a Pennsylvanian and a Yankee, each of whom wished to name the place. The matter was finally compromised by uniting the first syllable of their respective designations,—Penn and Yan.

7 The Penn Yan High School was incorporated as an academy

<sup>7</sup> The Penn Yan High School was incorporated as an academy in 1857. The building is now in process of erection.
8 The first settlers were Abraham Dayton, Richard Smith, Jas. Parker, John Lawrence, Stephen Card, Samuel Hartwell. Hezekiah Townsend, David and Peleg Brigg, John Supplese, Elijah and Micajah Brown, David Wagener, and Adam Hunt and his sons, Abel and Silas. The first death was that of Mrs. Jedediah Holmes, in 1788. As Jemima Wilkinson's creed was the dominant religion of the town at that period and for some time after, there were no marriages, and of course no known births. It was an era in which people died and none were legitimately born. Hezekiah Townsend kept the first inn, a little E. of Penn Yan, and James Hill the first store.

Potter and his sons William, Arnold, Simcon, and Edward, who had purchased the whole township. 1 Rev. Mr. Haskill was the first settled preacher, in 1796. There are 11 churches in town.2

STARKEY3—was formed from Reading, (Schuyler co.,) April 6, 1824. It is the s. E. corner town of the co. Its surface is a gradual slope from the bluffs which border upon Seneca Lake to the w. border of the town, where it attains an elevation of about 700 ft. The bluffs upon the lake in the s. half of the town are 100 to 200 ft. high and nearly perpendicular. In the s. part, a ridge breaks the uniformity of the slope near the center. Big Stream and Rock Stream flow into Scneca Lake, falling several hundred ft. in their course. The soil is clay along the lake, a sandy loam in the s. part, and a gravelly loam in the N. Dundee, (p. v.,) incorp. June 26, 1848, situated on Big Stream, in the w. part, contains 4 churches, the Dundee Academy, a bank, and a newspaper office. Pop. 732. Eddytown (p. v.) contains a church and the Starkey Seminary. Pop. 123. Rock Stream (p. v.) contains 25 houses, and Starkey Corners (Starkey p. o.) 20. Big Stream Point (p. o.) and Shannons Corners are hamlets. Settlement began in 1800.5 Rev. Mr. Clark conducted the first religious services, in 1808. There are 8 churches in town.<sup>6</sup>

TORREY—was formed from Benton and Milo, Nov. 14, 1851. It lies upon the E. border of the co., on the shore of Seneca Lake. Its surface consists of a slope rising from the lake to the w. border, to an elevation of 400 to 500 ft. Crooked Lake Outlet flows through a deep, narrow, and rocky valley. Its whole fall from Crooked to Seneca Lake is 271 ft. The soil on the lake shore is clayey, and in the center and w. a sandy and gravelly loam. West Dresden8 (p.v.) is located on Seneca Lake, at the terminus of Crooked Lake Canai. It is a landing for the Seneca Lake steamers. Pop. 365. The town was settled by the followers of Jemima Wilkinson, mostly from New England, in 1787. Jemima was the first preacher. There are now 2 churches in town; Presb. and M. E.

<sup>1</sup> Rouse Perry, and Benj., Jesse and Joshua Brown came with the Potters and settled in the r. part of the town. They were followed by Elias Gilbert, Jabez French, Abram, Isaac, and Jacob Lane, Francis and Peleg Briggs, r. Edward Craft, Amaziah Keyes, M. Sheffield, David Southerland, Nathan and Calvin Loomis, Abial Thomas, and George Green. The first birth was that of Joshua Briggs; the first marriage, that of Amaziah Keyes and a daughter of Najor C. Craft, in 1795; and the first death, that of James Lewis, in 1796. Arnold Potter built the first saw and grist mill, in 1792. The first public house was opened in 1792, by Elias Gilbert, and the first store in 1801, by John Griffin.

2 4 M. E., 3 Bap., Cong., Ev. Luth, Univ., and R. C.

3 Named from John Starkey, one of the first settlers.

4 The seminary building is a 4 story brick edifice. The school is under the control of the Christian denomination.

6 William Eddy, Archibald Ellis, — Jacobs, Matthew Royce.

William Eddy, Archibald Ellis, —— Jacobs, Matthew Royce.

Gustin, Abner Hurd, and his son Gen. Timothy Hurd were among the first settlers. Andrew Harrison kept the first inn, at Eddytown, in 1808; and Hervey Smith the first store, at the same place, in 1809. The first sawmill was built by Timothy Hurd, in place, in 1809.

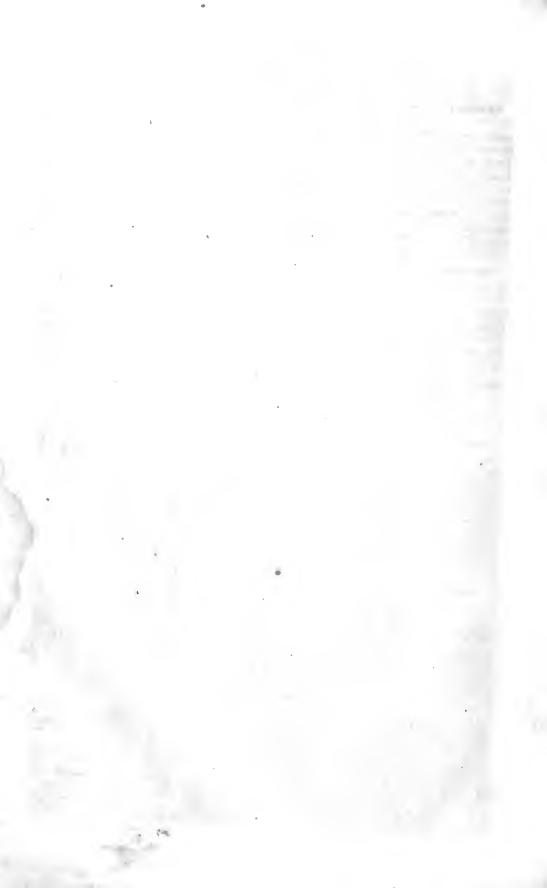

place, in 1809. The first sawnill was built by Timothy Hurd, in 1807. Rhoda Royce taught the first school, in 1809.

6 3 Presb., 2 M. E., Bap., and 2 Christian.

7 Named from Henry Torrey.

8 Usually called "Dresden."

9 The first settlers were Asahel Stone, Abel, Elnathan and Jonathan Botsford, Benedict Robinson, Thos. Hathaway, Jedediah Holmes, Elisha Luther, David Fish, James Brown, Robert Buckley, and Eliphadet Norris. The first marriage was that of Benedict Robinson and Sasannah Brown, Sept. 1, 1792; and the first death, that of Mrs. Jedediah Holmes, in 1785. Thomas Hathaway kept the first inn, in 1790; and Eliphadet Norris the first store, in 1795. The first mills were built by Charles Williamson, in 1795. 1792. The first mills were built by Charles Williamson, in 1795

## ADDITIONAL NAMES.

# A. S. BARNES & BURR,

### 51 AND 53 JOHN STREET, NEW YORK,

PUBLISHERS OF THE

# NATIONAL SERIES OF STANDARD SCHOOL BOOKS.

THE National School Scries is prepared by the best educators in the country, and designed with special reference to the thorough Education of the Youth of our land. Great care has been taken to exclude sectional or sectarian matter, so that the series is regarded as truly the NATIONAL SCHOOL SERIES. The favor which these books have received from all parts of the United States warrants the Publishers in calling upon their friends to examine each of the works comprising this series, (provided they have not already done so,) with a view of making them their STANDARD TEXT-BOOKS. The following is a part of the series:-

The National Series of Arithmetics and Mathematics. By Professor Charles Davies, LL.D., formerly of the United States Military Academy, and now of Columbia College. (The standard of New York, Baltimore, New Orleans, Buffalo, Rochester, Milwaukce, and other large cities.) The higher course of Mathematics are used in most of the Colleges and Academies throughout the Union.

The National Series of Geographies. By James Monteith and Francis McNally. (The standard of New Orleans, New York, Buffalo, Milwaukee, Newark, Brooklyn, and other cities.)

The National Series of School Histories. By Emma Willard and James Monteith. (Daniel Webster said of Mrs. Willard's History of the United States, "I keep it near me as a valuable book of reference, accurate in facts and dates." It was also highly recommended by Henry Clay, and many other of our most illustrious Statesmen and Educators.)

The National Series of School Readers and Spellers. By RICHARD G. PARKER and JAMES M. WATSON. Recommended, wherever they are known, as the most beautiful and the most practical Readers and Spellers ever published.

# TROY FEMALE SEMINARY

This Institution offers the accumulated advantages of meanly fifty years of successful operation. Every facility is provided for a theorough course of useful and ornamental education, under the direction of a corps of more than twenty professors and teachers. The members of the Institution have the benefit of Lectures of the highest order, on

SCIENCE, HISTORY, LITERATORE, ART, &C. &C., And the use of a valuable Library, an extensive Philosophical Apparatus, a well selected Cabinet of Minerals, and Shells, Mays. Charts, and Models.

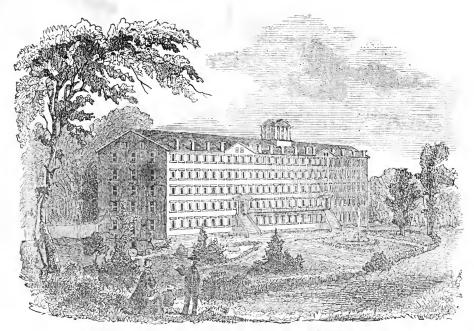

Superior Music Teachers are constantly employed in the Seminary. Great Attention is given to the French Language.

THE CLASSES IN DRAWING AND PAINTING, IN OIL AND WATER COLORS, Are under the direction of instructors of long experience and tried ability. A large and choice collection of Pictures is constantly before them for study and for putterns. The teachers reside in the family, and adapt their instructions to its use in conversation.

The pupils are received into the family of the principals, in which every arrangement is made for their physical education and the improvement of their manners and morals. They occupy private rooms, two Mr. or Mrs. JOHN H. WILLARD, Troy, N. Y.

each, the rooms of the female teachers and that of an experienced nurse being among those of the young ladies. Circulars containing more particular information may be obtained by application to the principals,

# FORT EDWARD INSTITUTE.

AT FORT EDWARD, WASHINGTON CO., N. Y., ON THE RAILROAD.

REV. JOSEPH E. KING, A.M., PRINCIPAL.

This Institution was opened December, 1854, since which time the Regents' Annual Reports show it to have been the

#### BEST SUSTAINED BOARDING SEMINARY IN THE STATE.

Nearly every county in the State, and two-thirds of the States of the Union, have been its patrons. The following are some

Nearly every county in the State, and two-thirds of the grants of the counts, have one has particularly of the grants of the grants of the grants of the grants of the grants of the grants of the grants of the central position of its common Dining Hall, Chapel, and an ample suit of class rooms, accessible respectively to the two separate departments by distinct entrances, are most admirably adapted to the safe and successful co-education of ladies and gentlemen, the two departments being at all hours absolutely under the control of the Faculty. Also its noble Library and Apparatus.

#### ITS LIBERAL PROVISION FOR THE ABLEST INSTRUCTION

In each branch and department of study; three professors and teachers being devoted exclusively to the common English studies, two each to the Mathematics and Classics, one respectively to Commercial Instruction, to Natural Science, to Modern Languages, and to Painting, while he less than four have in charge the department of Music. Rare facilities are thus afforded to prepare for leaching; while desirable situations are procured for young ladies who graduate in the prescribed Course of Studies. It is a part of the well established system of this Christian Institute, to conserve and promote the health, manners, and morals of its pupils. The Principal wishes it distinctly understood that he becomes personally responsible to parents for the moral and

social well being of their daughters while in attendance at this Institute.

It provides good, spacious rooms, plainly but suitably furnished; and wholesome and sufficient Board, of a quality and variety satisfactory to its patrons.

#### ITS REMARKABLY MODERATE RATES.

To many families the difference in the cost of maintaining a son or daughter at home or at this Institute, would be scarcely preciable. One hundred and three dollars per year, pays for Board, turnished room, fuel, washing and tuition in common Engsh. Extra branches at corresponding rates. A student may enter for a single term, or at any time in the term and pay for the appreciable. residue only.

There are three terms of fourteen weeks each. Winter Term opens December 1st, 1859; Spring Term opens March 23d, 1860; Fall Term opens August 16th, 1860. For circulars, or for rooms, apply to the Principal.

Turn to the chapter in the Gazetteer descriptive of Fort Edward, also to chapter of statistics of Academies, and notice the

Washington Co. Seminary.

REV. WM. Scort, of Montreal, Secretary, 1855. The Committee found the buildings, in their construction and specific arrangements, better adapted to their purpose than any other ever visited by them.

REV. S. WASHBURN. of Troy, Secretary, November, 1856. We were highly gratified with the good order and decorum apparent in every department of the Institute.

REV. M. BATES. of Schenectady, Secretary, March, 1857. There is, we think, no Institution not wholly devoted to this object, where equal facilities are afforded for acquiring, at trifling expense, a thorough business education.

where equal actions are anorous for acquiring, at trining expense, a thorough business education.

Prof. John Newman. A. M., of Union College, Seceetary, Nov. 18, 1857 The Committee have found the most satisfactory evidence in itsable Board of Instruction and Government, its skillful financial management, as well as in the extent and sterling character of its patronage, that the First Edward Institute is a signal success.

While the Institution is in all departments worther of extra

While the Institution is in all departments worthy of entire confidence, the Committee feel called upon to mention the department of Music and that of Painting, as decidedly superior to sny thing we have ever heard or seen in any similar Institution. Rev. J. K. CHEESMAN, of Schenectady, Secretary, July, 1857.

The gastronomic department, under the care of Mr. A. K. Haxtun, the Steward, is finely managed. An abundant supply of well

the Steward, is finely managed. An abundant supply of well cooked food is provided.

REV. R. H. Komisson, Secretary, Saratoga Springs, Nov. 25, 1838. The peculiar energy of the Principal pervades every department of instruction, embracing eighteen teachers, a number sufficient to permit a subdivision of classes, so that none need be neglected. Many students have consecrated their young hearts on the altar of Christianity, and will go forth with great power, rightly directed, to bless the church and the world. Prop. C. T Lewis, A.M., Troy University, March, 1859. The practical drill was admirable. Attention had been given to the powers of ready and neat expression, but the basis lay in a clear comprehension of facts and principles, for which good language was made an ornament, not a substitute. Perhaps no feature of the exercises was more charming than their entire fairness,

was made an ornament, not a substitute. Pernaps no feature of the exercises was more charming than their entire fairness, which was at once transparent and unobtrusive.

Rev. B. HAWLEY, A.M., Chalrman, West Truy, June 23, 1859. In the circle of our large Academies, furnishing the highest advantages at the lowest charges, I know of no one sustaining a better reputation than Forr Edward Institute.

CHS. STOCKING,

Instructor in Gymnastics.

J. HYATT,

Lecturer in Chemistry and Philosophy.

This institution, in its plan and arrangements, has regard to the physical as well as the moral and intellectual training of its members.

#### THE COURSE OF INSTRUCTION

Is liberal and thorough, such as experience has proved to be most effectual for this purpose. By it, students are prepared for any class in college, for the scientific schools, or for commercial life. The

#### ANCIENT LANGUAGES

are taught critically and with a view to sound scholarship and not to mere superficial acquaintance. The

#### MATHEMATICAL COURSE

is extensive. The preparation of pupils who have passed through it, and their success elsewhere, gives the best evidence of faithfulness and skill in this very essential department of instruction. Very many are the unsolicited testimonials received on this point. Special attention is given to the

#### MODERN LANGUAGES:

French, Spanish, and German form an important part of the course of study, and are taught as spoken languages by well qualified masters. The

#### ENGLISH LANGUAGE,

also, in its elements, as well as in its higher departments, receives more than ordinary notice, and is not made subordinate to any other study.

#### MORAL AND RELIGIOUS TRAINING

is carefully regarded, as in every well ordered household; but no interference is attempted with the peculiar tenets of any faith. Seats are provided for the pupils in both the Episcopal and Presbyterian Churches.

#### PHYSICAL EDUCATION.

The complete arrangements made for this generally neglected object, and the success that has attended them, deserve to be specially noticed. Under their influence, we have seen the delicate and almost puny

boy become the robust and enduring youth, able to sustain continued application and to perform in after life an amount of intellectual labor that only a sound and vigorous development could make possible. In connection with the

#### GYMNASIUM AND THE RIDING SCHOOL

#### MILITARY EXERCISES,

The infantry and artillery drills; and, while these receive a minuteness of attention not often given to them, and are so used as to produce physically a permanent effect, they have no tendency to create a desire, as experience has shown, for a military life. The system, as here arranged, has been chosen for the great benefits that result from it. But, although a military school, the institution, it must be distinctly understood, is not for the training of those who are vicious or unmanageable under any other system. Should any of this class, by accident or misrepresentation, ever be received, they will, on the manifestation of such character, be at once returned to their parents. The feelings of the principals, not less than their intimate relations with their pupils, look to other associations and other results. Confidence, patience, and kindness on their part, truthfulness, honor, and generous sentiment on the pupil's, are the basis and the bond of union between them. No boy who is insensible to considerations of this kind is desired in the school, nor can he long remain connected with it.

Pupils are received whenever a vacancy occurs; but, as the number is limited and places are usually filled in advance, applications, to prevent disappointment, should be made as early as possible.

Further information may be obtained from the gentlemen named as references, or by addressing the principals.

PACKER COLLEGIATE INSTITUTE, BROOKLYN.
A. CRITTENDEN, A.M., PRINCIPAL.

GARDEN FRONT, LIVINGSTON STREET.

# PACKER COLLEGIATE INSTITUTE,

## BROOKLYN HEIGHTS, L. I.

This Institution claims to give to females all the advantages for thorough and complete education that are enjoyed by the other sex in our best appointed Colleges.

It is liberally endowed, and is under the patronage of the State.

Its location, in the city of Brooklyn, opposite New York, enables it to command all the educational resources of the metropolis; while no country village is more quiet, beautiful, or healthy.

#### THE COURSE OF INSTRUCTION

Is under the direction of A. Crittenden, A.M., who has devoted his whole life to female education. He is assisted by twenty-four professors and teachers; and the course of instruction embraces the modern languages, with Latin, the various branches of Literature, History, Mathematics, Chemistry, Natural, Moral, and Intellectual Philosophy, Music, Drawing, Painting, &c. &c.

#### THE LABORATORY

Is a model of its kind, and furnished with every necessary article of apparatus.

#### THE OBSERVATORY

Has an excellent achromatic telescope of six inches object glass. It is equatorially mounted, moved by clockwork, &c.

#### THE CABINETS

Are amply provided with minerals, shells, &c. One or two articles of apparatus particularly arrest the attention of the observer,—one of Ross's Compound Microscopes, which magnifies 1800 diameters, also Barlow's large Planetarium, eleven feet in diameter.

The accommodations for pupils from abroad are intended to afford all the comforts of home, and to secure for them social, intellectual, and moral culture.

#### DESIGN.

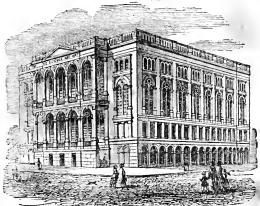

The object of this chain of Colleges is to prepare young men in an essential manner for the duties of a business life, in giving them a thorough knowledge of the sciences which secure that end.

feet. Play grounds, 25 acres. feet. Gymnasium covers 1,900 feet. The building and grounds cost \$75,000. Length of building, 137 feet. Width of do. 77 feet.

# POUGHKEEPSIE COLLEGIATE SCHOOL.

## A BOARDING SCHOOL FOR BOYS OF ALL AGES.

This school was established in 1836. From that time to this there has been but one change in the principalship,—which occurred after the death of the late principal, Charles Bartlett. It has always enjoyed a liberal patronage, drawn from all sections. During the past year pupils have been in attendance from twelve States.

The students prepare their lessons in one large room, where one of the Principals presides.

## FRENCH, SPANISH, AND GERMAN

Are each taught by a native teacher.

The principals and their families, the teachers and pupils, all reside in one building and eat at the same table. The pupils are not allowed to leave the premises without permission. The building is lighted with gas, and heated with hot air furnaces. No expense has been spared to attain thorough ventilation. The pupils rooms are furnished with a carpet, clothes-press, single beds, we have the design of the pupils. wash-stand with bowl and pitcher to each pupil.

In short, no effort has been omitted to make this in every respect

#### A FIRST CLASS SCHOOL.

The annual expense is two hundred and fifty dollars. Spanish and German, Music and Drawing, are the only extras.

We refer to the following gentlemen, most of whom have been patrons of the school:-

# TROY UNIVERSITY.

This Institution was opened for the admission of students September 9, 1858, and the collegiate department is now fully organized, with the following members of the Faculty of Arts: REV. JOHN McCLINTOCK, D.D., LL.D.,

REV. JOHN MCCLINFOCK, D.D., LILD.,
President, and Professor of Moral Science.
MARVIN R. VINCENT, A.M.,
Professor of the Latin Language and Literature,
CHARLITON T. LEWIS, A.M.,
Professor of Pure Mathematics.

JAMES STRONG, S.T.D.,
Vice-President, and Professor of Biblical Literature,
OGDEN N. ROOD, A.M.,
Professor of Chemistry,
ALEXANDER MAC WHORTER, A.M.,
Professor of Philosophy.

HENRY H. HADLEY, A.M.,

Professor of the Indo-European Languages and Literature.

#### THE COLLEGE GROUNDS

Comprise a plat of thirty-six acres, of rare beauty and healthfulness of position; and the building is one of the most imposing and well arranged of the kind in the country, affording accommodations for about one hundred and fifty students, including chapel, recitation-rooms, dormitories, boarding hall, and professors' apartments.

THE PLAN OF INSTRUCTION

Embraces the most approved features of the American College system, with all the essential advantages of the English and German Universities, giving an opportunity for the most thorough and general literary culture.

THE UNIVERSITY DEPARTMENT PROPER
Will be inaugurated by appropriate courses of lectures on the higher branches of science, art, and literature, as soon as there shall be graduates prepared to enter upon it. The design of the founders of the institution is to make it a sound Christian (but not sectarian) school of the highest class, both in scholarship and practical efficiency. The course of study includes

A SCIENTIFIC DEPARTMENT.

Which differs from the classical chiefly in the omission of Latin and Greek, and in occupying only three years.

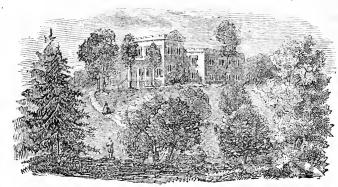

ANNUAL EXPENSES.
